

## BEAUTIFUL LIFE SUDDENLY ENDS

Mrs. James Hutchison, Sr., Passed Away Sunday, Aug. 14

### FUNERAL SERVICES AUGUST 16

Maggie Jamieson was Born in Scotland in 1850—to America in 1883

Mrs. James Hutchison, Sr., passed away at the home of her son, John, at Elkhart, Ind., Sunday morning, Aug. 14, of paralysis, having been stricken on Wednesday, Aug. 10. Mrs. Hutchison did not regain consciousness after the stroke and when the end came the family, which had been summoned, surrounded the bed. The deceased, who has made her home with her daughter, Mrs. Agnes Field, since the death of her husband seven years ago, was visible at the home of her son in Indiana when the death messenger called.

Funeral services were held at the Field home in this city Tuesday afternoon at two o'clock. Rev. J. E. Robeson of the Genoa M. E. church read the Scripture and offered prayer. Rev. C. A. Briggs Jr., of Freeport, son-in-law of the deceased, sang two selections and read a brief biographical sketch. Rev. C. A. Briggs of Elgin preached a short sermon during which the life of the departed was beautifully eulogized. Interment took place in Genoa cemetery. There was a profusion of floral offerings and a large number of friends by their presence paid their last tribute to the memory of this devoted mother and unselfish neighbor.

Maggie Jamieson was born September 23, 1850, at Logan-Mains, Kirkcaldy, Wigtownshire, Scotland. On the 6th of January 1875, she was united in marriage to Mr. James Hutchison. While still in Scotland four children were born to them—Agnes, James, Jessie and Thomas. In 1883 Mr. Hutchison came to America to prepare a home for his family and Mrs. Hutchison and the four children followed eighteen months later, the family making their home in St. Charles. Later they moved to Lake Mills, Wis., and came to Genoa in the fall of 1893. After coming to America two children were born—John and Margaret. All the children survive. The deceased also leaves one sister, Mrs. Barbara Cochrane, who resides in Ayr, Scotland, two nephews—Quint Cochrane of Sycamore and Alfred Cochrane of Howell, Mich. There are also eight grand children.

The following from out of town attended the funeral: Will and Ed. McCredie, Miss Jane McCredie and Mrs. Marshall of Elgin; Mr. and Mrs. I. B. Jennings, Mr. and Mrs. Dwight Jennings of St. Charles; Mrs. Chas. Maynard and daughter, Mr. and Mrs. Thos. Shanahan, Mr. and Mrs. O. L. Koch, Mrs. Clarabell Walgren of Hampshire; Mr. and Mrs. Quint Cochrane of DeKalb; Mrs. M. D. Field and son, Clyde, of Rockford; Arthur Haines of Plato Center and F. W. Marquart of Valparaiso, Ind.

### As We Knew Her

Painful as it is to be called upon to write an eulogy of one whom we have known and loved for years, yet there is a feeling of satisfaction in realizing that no words can be used which will overdraw the picture of the beautiful life so suddenly ended. It has been the pleasure of the writer to spend many hours with the Hutchison family circle in former years and it was during those times that the true character of this mother was most apparent. She ruled the household with a firmness that was born of love, harsh words being foreign to her lips. In times of trial or adversity (which must come to every family) she bore the burden with the same sweet fortitude that characterized her every-day life. The memory of the hours spent in the home of this sweet woman is a heritage that will endure to the gates of eternity. And those who were so fortunate as to have been closely associated with this family, fully realize the loss of neighbor and friend. One look into her sweet face was enough to convince that peace and good will dwelt within her breast. Every day she radiated the true Christian spirit of faith in mankind, hope of immortal life and charity to all. No visitor at the Hutchison home every left hungry in spirit nor in body. With a graciousness unsurpassed she entertained at her table, but it was uncon-

## SILCO GAS KILLS

Two Geneva Farmers Meet the Same Fate

Deadly gas which formed in the silo on the John Kirk farm, two and one-half miles west of Geneva, caused by fermentation following the filling of the silo, Sunday caused the death of George Berg, fifty-five years old, of Geneva and Valentine Kruger, twenty-seven years old of Milwaukee. "A warning must be issued to all farmers," stated Coroner E. H. Norton, following the inquest over the death of the two victims.

"The gas which forms in the silo after it has been filled acts within three seconds and causes instant death. The fermentation of the silage causes carbon dioxide gas to be generated. As the gas is heavier than air, it settles above the silage as it is formed and cannot be moved unless by means of strong ventilation," explained Coroner Norton.

"Most farmers are now filling their silos and other such deaths will result if farmers do not take heed and avoid such a catastrophe as happened yesterday. After silage has been placed in the silo, each morning before entering the silo the blower should be started."

Twenty-two feet of silage had been placed in the Kirk silo on Saturday, and when Berg entered the silage had settled eight feet over night.

When Berg was missed about the farm, John Kirk owner of the farm, started a search for him and discovered him on the silage, face down. He thought that he had broken his neck and called Kruger. A ladder and rope was brought and efforts were started to take Berg out of the silo.

Kruger jumped into the silage 8 feet below, and was bending over to lift Berg up, when he was seen by Kirk to become paralyzed and drop to the silage. Kirk also jumped into the silo but when he discovered that he was getting faint, he raised himself to the opening.

After receiving help from neighbors, the two men were taken from the silo. Both were dead. This morning it was found at the inquest conducted by Coroner E. H. Norton, that the two men had met instant death caused by the carbon dioxide gas fumes in the silo.

## ERRORS MARK THE GAME

But the Genoa Nationals Hang Another on the Kirkland Team

Errors were prolific at the ball game last Sunday when the Genoa Nationals clashed for the third time this season. Genoa won by a score of 6 to 4. LeDeaux was at his best, allowing only three hits during the game and fanning fourteen of the Kirkland fellows. There were no brilliant plays except the catch made by Overlee in left field. After a long run he pulled down one of those cloud busters. Slow work in the in field held up two possible double plays. Banks pitched a good game for Kirkland, considering that he has been out of the game for about three years.

**Kirk and Next Sunday**  
Next Sunday the Nationals go to Kirkland to play the fourth game. It is said that Kirkland will be ready and prepared to give the Nationals a drubbing. All fans will go down to Shreveville to see the fun.

It pays to read the "Want Ads" in the Genoa Republican.

sciously that she at the same time fed the souls of her guests thru her natural exhibition of trustful faith and charity.

## STRICT BUSINESS MARKETING PLAN

Milk Producers Optimistic Regarding Future of Organization

### LOOKING FOR EFFICIENT MANAGER

W. J. Kittel has Resigned as Manager—All Politics to be Eliminated

Three meetings of the Board of Directors of the Marketing Company have been held in the last ten days. Many important changes have taken place as a result of these meetings.

W. J. Kittel has resigned as manager of the company and his resignation has been accepted. The executive committee has been reorganized. The following men are now members of the new executive committee: J. H. Love, C. D. Wing, J. T. Williams, A. C. Stoxen and T. R. Keone. At the last meeting of the board of directors, J. T. Williams introduced the following resolution:

"Moved by J. T. Williams, seconded by E. C. Rockwell, that the executive committee be instructed to attempt to find the most able, trained and efficient man possible to act as general manager and bring his name before this board for approval and that no man either a member of the board of directors now, nor any former member, be considered for the position, which motion was carried.

Temporarily pending the securing of a new manager, the management of the company has been placed in the hands of the executive committee. No effort will be spared to obtain the most able, trained, experienced man that can be found in this country for the position of general manager. It is generally recognized that the Marketing Company has grown to such a size that if wastes, leaks and losses are to be stopped, trained, efficient, experienced men must be brought in to the management of this company.

Several months ago a resolution was passed by the board of directors to divide the business of the company into departments, with trained, efficient, capable men at the head of each department. It is expected that the new executive committee will now carry that policy into effect and that the following departments will be created: "Sales Department," "Operating Department," "Accounting and Bookkeeping Department," "Purchasing Department," and that a competent, trained, efficient man, who has had actual experience along the lines of the work he is intended to supervise, will be placed at the head of each one of these departments and that over them will be placed a general manager of the highest ability and attainments. Naturally, as most good men are already employed, it is going to take from thirty to sixty days to secure these men and actually get them on the job.

Another important move which has been made is the creation of an organization department, with A. C. Stoxen as director of organization and publicity. In this department a bureau of publicity will be created. A mailing list of each member of the Marketing Company is to be compiled, and from time to time all members will receive a bulletin giving them full information in regard, not only to what is being done, but the different problems that the company has to confront. This will be welcome news to the members who believe that the policy of secrecy maintained in the past, relative to the company's affairs and doings, was the wrong policy. Henceforth all reasonable publicity, through the medium of newspaper articles, bulletins, meetings and field workers will be given to the members of this organization.

The new executive committee firmly believes that the time has been reached in the affairs of the company when its business affairs ought to be operated and handled upon a strictly business basis; as a business corporation. Consequently, it is their announced policy that in selecting men for the positions in the business organization they shall look solely and only to the qualifications of the person for the particular position that he is desired to fill, rather than upon any friendship, past or present affiliations that he may have had with this organization.

To put it bluntly, it is the intention of the executive committee to thoroughly reorganize and place the Marketing Company upon a firm business foundation with all politics cut out, and in this laudable desire

to put it bluntly, it is the intention of the executive committee to thoroughly reorganize and place the Marketing Company upon a firm business foundation with all politics cut out, and in this laudable desire

## BUILDING GRANT HIGHWAY

Ground Broken Near Belvidere Last Week

Ground was broken at Belvidere Monday for the construction of the cement Highway.

The first ground was turned at a point two miles west of Blake's corners which are a mile out of Belvidere. This is a part of section number 14 awarded to Contractor Nelson, which extends to the mile strip of cement already in just this side of the Coon creek bridge.

The start of this construction is three miles east of the end of the cement at Cherry Valley, this interval in the paving belonging to another section.

A large force of men was set at work. Many teams have been engaged there and twenty more were to be brought from Madison. The contractor brings with him a force of forty men and one hundred additional men have been hired in Belvidere.

Frame buildings to house the workmen and tools are to be erected at the point mentioned where ground has been broken for the highway. Included will be a bunk house and mess room.

Howard & Son, of Belvidere, have the contract for the temporary buildings.

This section of the Grant highway enters the city of Belvidere at the south end of South State street, just beyond Ninth. It comes north on State to Logan avenue and then goes east over Logan avenue.

The date for beginning this work had been set for August 15, but has been anticipated by a few days.

**Federal Starts Paving**  
The Federal Paving Co. of Chicago is also at work, their contract, calling for the portion between the west end of section 14 and the end of the cement road now being laid from Cherry Valley to Rockford.

## INSTITUTE-CHAUTAQUA

Superintendent Hubbard Works New Combination

The annual DeKalb County Teachers' Institute, which it is expected practically all of the 321 teachers in the public schools of DeKalb county will attend, will be held this year in Sycamore during the week beginning August 29.

That is also the week of the Sycamore Chautauqua.

The morning sessions of the Teachers' Institute will be held in the High school building, but by a happy arrangement the afternoon sessions will be held in the big auditorium tent on the Chautauqua grounds, which will enable the teachers to attend the institute and enjoy the afternoon Chautauqua programs without additional expense. Neither program will be shortened or sacrificed for the other, but the Chautauqua patrons will be given a double program and all for the same price.

Warren Hubbard, County Superintendent of Schools, has secured eminent speakers of national note for these afternoon institute lectures. They will not be technical but will speak on general and vital topics of the day that will interest every one. This will undoubtedly be especially pleasing news to the patrons of our Chautauqua as well as to these teachers.

## FRISCO NOVELTY ORCHESTRA

Attraction at the Opera House Thursday Evening, Aug. 25

"If you don't dance come and listen" is the manner in which the Frisco Novelty Orchestra advertises its dances. This orchestra will play for the opening dance at the opera house in this city on Thursday evening, Aug. 25. The features of the organization are Doc Clark, singing banjoist, and Vess Leighton, laughing trombone. This orchestra makes the famous Frisco dance records.

The opera house will put on a dance every other week, and starts the series with the best music obtainable. There are six people in the organization, but during an evening more than 20 instruments are used. Remember the date, August 25.

## Use the Want Ads. Get Results

and intention, the executive committee should have the support of all the loyal members of this organization.

A real comprehensive business program is going to be worked out. There is a brighter day dawning for the Marketing Company.

## Skyscrapers

## THE MONTH'S RECORD

July Report of the DeKalb County Cow Testing Association

This Association consists at present of 25 members owning 418 cows of which 328 were milking during the month of July. These 328 cows produced 222,358 lbs. of milk or close to one-quarter of a million lbs., and 822-3/4 lbs. of butter fat, equivalent to over 10,000 lbs. of butter. At the market price for milk during July, this product is worth \$7334.24 or an average production of \$22.36 per cow and this is at a time when all herds are at their lowest production of the year.

Thirty-three cows produced 40 lbs. or more of butter fat during the month and 55 cows produced above 1000 lbs. each of milk during the same period. The high cow of the Association, a pure bred Holstein owned by the Roberts Holstein Company of Waterman, produced 1860 lbs. of milk containing 70.8 lbs. of butter fat. The 2nd, 3rd and 5th highest producing cows were owned by Stevens' Stock Farm of Sycamore, the 4th place going to C. S. Hunt of DeKalb all being pure bred Holsteins.

The honor of owning the highest herds ranges as follows:

1. Roberts Holstein Co., with an average of 1106 lbs. of milk per cow and 415.8 lbs. of butter fat.
2. Stevens' Stock Farm, with an average of 1176 lbs. of milk and 34.75 lbs. of butter fat.
3. Walter Hulmes, with an average of 908 lbs. of milk and 32.53 lbs. of butter fat.
4. Wm. Congdon—with an average of 694 lbs. of milk and 32.41 lbs. of butter fat.
5. C. M. Spengler with an average of 630 lbs. of milk and 32.04 lbs. of butter fat.

One herd has been federally tested for T. B. since the last report and one other member has made application for federal test and a number of the Association members have recently had the interior of their cow barns whitewashed and others are preparing for a similar cleaning. The general conditions as they concern production and sanitation are steadily improving.

Chas. A. Wiltberger, Tester.

## DIBBLE DIVORCE CASE

The divorce case of Grant Dibble against Ella Dibble was called for trial before Judge Cliffe. The defendant had previously filed a cross bill for separate maintenance and when the case was called leave was given the defendant to amend the prayer of her cross bill from separate maintenance to divorce and the answer of the complainant was ordered to stand as answer to the amended cross bill. The original bill for divorce of Grant Dibble was then dismissed and the court proceeded to hear the evidence of cruelty. After hearing the evidence the court entered a decree of divorce. An alimony settlement was made and also a division of the personal property. L. B. Smith represented Ella Dibble and G. E. Stott of Genoa represented Grant Dibble.

## MARENGO MAY PAVE

Residents along Grant highway within the city limits of Marengo have asked the city council for an opportunity to have the pavement extended from curb to curb. Should the request be granted the extra cost will be borne by the property owners.

## RECOMMENDATION

Concerning the Extension of the Sewer System and Water Mains

To the Honorable Mayor and City Council of the City of Genoa, in the County of DeKalb, in the State of Illinois:

Gentlemen: We submit herewith a draft of an ordinance, providing for the construction by special assessment of a connected system of sanitary sewers and water supply mains, more particularly described in said ordinance in accordance with a resolution adopted by this board on the 25th day of July 1921, originating a scheme for said improvement, and adhered to by resolution of this Board at a meeting for public consideration of said improvement, held on Monday, August 8th, 1921, together with an estimate of cost of said improvement, duly made in writing by James Hutchison President of this Board, and recommended the passage of said ordinance, and making of the improvement contemplated therein.

We also herewith transmit to you the Honorable Body an estimate of the cost of said improvement as finally determined upon by this Board and provided for in said draft of ordinance herewith transmitted.

Dated at Genoa, Illinois this 12th day of August, 1921.

James Hutchison  
Samuel T. Zeller  
Board of Local Improvements of the City of Genoa, DeKalb County, Illinois.

Genoa, Illinois, August 12, 1921  
To the Mayor and City Council and Board of Local Improvements of the City of Genoa, DeKalb County, Illinois:

Gentlemen: I do hereby certify that the estimate of the cost of the local improvement of a system of sanitary sewers and water supply mains in said portion of said City as heretofore made by the Board of Local Improvements of said City, all of which are embodied in the draft of an ordinance hereto attached, including labor, material and all other lawful expenses attending the same, is the sum of Four Thousand Nine Hundred Forty (4940) Dollars, itemized as follows:

- 1158 lineal feet of 8 inch internal diameter vitrified sewer pipe including 21 "Y" branches with stoppers, cemented joints, excavation, laying and backfilling complete at 70 cents per foot, \$810.60
- 1163 lineal feet of six inch internal diameter vitrified sewer pipe including 26 "Y" branches with stoppers, cemented joints, excavation, laying and backfilling, complete at 60 cents per foot, \$697.80
- 10 brick man holes 3 feet internal diameter with cast iron cover complete at \$60 each, \$600.00
- 3 lamp holes of vitrified pipe concreted in place with cast iron cover complete at \$15.00 each, \$45.00
- 1655 lineal feet of four inch cast iron water pipe line including leaded joints, 4 "T" branches with stoppers, 4 "Y" Branches to hydrants, excavation, laying and backfilling complete at \$1.30 per foot, \$2152.50
- 4 two way hydrants set complete at \$65.00 each, \$260.00
- 4 four inch gate valves set complete including valve boxes, at \$30.00 each, \$120.00
- Costs and expenses as provided for in Section 94 of the "Local Improvement Act" \$279.10
- Total, \$4940.00

The above estimate includes cost of labor and material of every kind in the construction of the improvement complete, and I do hereby certify that in my judgment the above estimate does not exceed the probable cost of said improvement and the lawful expenses attending same.

James Hutchison,  
President of the Board of Local Improvements of the City of Genoa, DeKalb County, Illinois.

ORDINANCE CHAPTER NO. 129  
AN ORDINANCE FOR A CONNECTED SYSTEM OF SANITARY SEWERS AND WATER SUPPLY (Continued on Page 6)

## HENRY WALLACE TO BE AT DEKALB

Secretary of Agriculture to Speak at Big Farmer Picnic

### SOIL IMPROVEMENT ASSOCIATION

Plans Excellent Day's Program—Woman Orator Will Also Speak

Henry Wallace, secretary of agriculture in President Harding's cabinet, is to make a speech to the people of DeKalb county and vicinity at Annie's Woods park in the city of DeKalb, August 31, at 3:00 o'clock in the afternoon.

The appearance of the great agricultural editor of that famous farm journal, Wallace's Farmer, for many years past, will be made the occasion of a public gathering of considerable importance to the farming interests of Northern Illinois.

Under the direction of Thomas Roberts, soil advisor for the DeKalb County Agriculture Association, an elaborate program is being prepared, detailed announcement of which will be made next week.

Henry Wallace is the son of Henry Wallace, the founder of Wallace's Farmer, one of the most important agricultural publications in the world. He succeeded his father, when he retired as head of the great publication and has been prominently identified with the farming interests of the country for the past score of years.

Although recognized as an authority in important questions affecting the agriculture of the nation, he was never prominently connected with political matters until the last campaign when Senator Harding called him into counsel and followed his advice in the framing of his agricultural policies.

His address in DeKalb will be on matters of general interest to all farmers. Since taking up his portfolio two of his most important works have been the securing of the extension of credits to agricultural interests and the lining up of the war finance corporation to assist in the exportation of farm products.

The tentative plans are for a big day in DeKalb. It is the plan to secure a woman orator, of equal calibre with Secretary Wallace, to speak to the wives and daughters of the farmers and all interested in his topic. Mr. Roberts is in communication with several prominent women and will announce the name of the speaker in a day or so.

The exercises will commence in the morning at 10:00 with a field demonstration at the experimental field of the University of Illinois, just at the south edge of DeKalb. This demonstration will be in charge of W. L. Burselon, successor to the late beloved Dr. Cyril G. Hopkins at the University of Illinois, who had charge of all of the research work of the university, assisted by John Langford, his efficient aid, who is in charge of the DeKalb station.

This demonstration will show the result of variety tests on seed corn, work on the corn root rot and the result of variety tests on soy beans.

It is planned to have the normal playground opened for the day so that the smaller children can enjoy themselves while the grownups are listening to the speaking, the grounds to be under the supervision of competent and careful young-folks. There will probably be a band concert before the speaking and perhaps afterwards and between the hours of 3:00 and 5:00 there will be a horseshoe throwing contest, open to members of the DeKalb County Soil Improvement Association to select a team from DeKalb county for the annual state picnic to be held soon at Dixon. There are a lot of experts at "harm-yard golf" in the association and some expert dropping of ringers and leaners is looked forward to.

There are plans being made, also for a contest open to boys on the judging of live stock, but no definite announcement has been made, pending a conference with Prof. Paul Furr, of the DeKalb Township High school, under whose supervision this would be held.

The Rotary and Kiwanis clubs of DeKalb are backing up the efforts of the soil improvement association and it is expected that there will be more than 10,000 guests in DeKalb on that day.

News of the Week Cut Down for Busy Readers

Foreign

King Peter of Serbia is seriously ill, the physicians describing his ailment as congestion of the lungs, says a Belgrade dispatch.

Control by the American relief administration of food distribution in the famine districts of Russia was agreed to in principle by Maxim Litvinoff, representative of the soviet famine relief committee, says a dispatch from Uiga. The agreement was reached in negotiations with Walter Lyman Brown, European director of the American relief administration.

The correspondence between David Lloyd George and Eamon De Valera was published in Dublin, says a dispatch. In high Sinn Fein quarters the opinion was expressed that unless something unforeseen happens there will be a breakdown in the negotiations, which it had been hoped would bring peace to Ireland, and that in such a contingency the truce now existing would terminate and renewed warfare would speedily follow.

The Berlin Vorwaerts announced that the payment of 1,000,000,000 gold marks to the allies would be made August 30, according to schedule.

Miss Florence Turner, a movie actress, who arrived in London from America eight weeks ago, was found bound and gagged on Hampstead heath.

Two hundred and fifty persons were drowned by the bursting of the Iscaro dam near China, according to information received at Milan.

The London Daily Express learns that the Sinn Fein reply as received by Premier George in Paris Thursday, was regarded by him as a rejection of his peace terms.

Unreserved acceptance of the terms of the peace resolution, passed by the United States congress early in July, has been asked of the Hungarian national assembly at Budapest by M. Banffy.

Having failed in its attempt to bring allied harmony over the partition of Upper Silesia, the supreme council at Paris passed the problem over to the League of Nations.

A holy war has been proclaimed by the king of Hedjaz, as a measure assisting the Turkish nationalists in their fight against the Greeks in Asia Minor, says an Ankara dispatch.

The Italian socialist party has decided to work co-operatively with the existing regime in Italy, according to a dispatch from Rome.

Gen. Isidro Valdes, head of the revolutionary movement against the government at Guatemala City, has been captured after a fight between government troops and his followers.

Domestic

After August 18 you can "step on her" in Michigan. The new state law, increasing the speed limit on country roads from 25 to 35 miles an hour, becomes effective.

Four persons were killed, two are believed to be dying, and a score are injured as the result of a fire in the Point Breeze Oil works of the Atlantic Refining company at Philadelphia. The damage is estimated at \$1,000,000.

Three robbers descended on the mining town of Kincaid, Ill., held up a bank cashier and deputy sheriff, and escaped with the \$114,000 pay roll of the Peabody Coal company's mines at Kincaid, Langley and Tovey.

Solution of the disappearance in Toronto two years ago of Ambrose J. Small, multimillionaire theater owner, was claimed by a detective at Des Moines, Ia., who recently found a legless wounded man, now said to be the missing magnate. The legless man has lost his memory. The detective is prepared to turn him over to Canadian authorities when they pay him the \$50,000 reward.

Six armed bootleggers, members of a country-wide rum-running gang, were overpowered following a thrilling pistol battle between 15 gangsters and United States deputies near Huntington, L. I.

Joseph Shacola, henchman of "Tony" D'Andrea and business partner of Joseph Laspisa, both of whom were killed in the Nineteenth ward political feud, was assassinated in Chicago. He is the eighth man to die in the feud, which began with a political contest between Alderman John Powers and D'Andrea for control of the ward.

Federal officials at Chicago recovered \$100,000 of the mail robbery loot of the Worthington gang in a Cleveland bank.

Six persons were killed at Weston, O., when their automobile stalled on the track of the Baltimore & Ohio railroad, and was struck by a passenger train.

Mrs. Edwards D. Noyes, wife of the cashier of the Canal National bank, was fatally injured in the fall of an airplane to the beach at Prout's Neck, Me.

Bandits blew the safe of the Brule State bank at Brule, Wis., and escaped in an automobile with \$1,450 in silver. Seventy thousand dollars in securities were left behind by the burglars.

Two men were killed and five injured, three seriously, when the party was hurled under several tons of rock by a fall of rock in No. 6 shaft of the Quincy mine at Houghton, Mich.

Two men with four pistols walked in on a card game in an apartment house at Minneapolis, Minn., picked up \$2,000 table stakes and walked out. They passed up diamonds and watches.

William Coppeck, messenger for the Capital City State bank, was held up within half a block of the city hall at Des Moines, Ia., by four men and robbed of \$6,500.

The membership of the Fraternal Order of Eagles, scattered over North America and the Pacific Islands, totals 429,273, Grand Secretary James S. Perry reported to the grand aerie at Newark, N. J.

The Saginaw-Bay (Mich.) City Railway company, operating local systems in the two cities and an interurban line, went into bankruptcy, and announced that service will be suspended.

Personal

William C. Hook, judge of the United States Circuit court at Kansas City, Mo., one of the most widely known jurists in the United States, died at his summer home in Sayner, Wis.

Prof. Henry Carter Adams, widely known economist and for more than 30 years head of the department of political economy at the University of Michigan, died at his home at Ann Arbor, Mich.

Dr. George T. Harding, father of President Harding, was married at Monroe, Mich., to Miss Alice Severns, who had been a stenographer in Doctor Harding's office at Marion, O., for years.

Thomas Howland, vice president of a railroad and a resident of Chicago, died in the Massachusetts General hospital in Boston.

Washington

An overstocked national booze cellar that nobody knows how to empty is one of the unusual heritages of Uncle Sam under prohibition. The anomalous story of how, in a land of drought, liquor obtained by confiscation has become a white elephant, was told to the cabinet at Washington by Attorney General Daugherty.

An official statement explaining the administration tax revision program was issued at the White House. It declares that "the aim was to establish methods that would raise the needed revenue within a reasonable certainty, make collections sure and inexpensive and properly adjust the burden among all classes of the community."

The American valuation principle for assessing tariff duties in modified form was accepted by the senate finance committee, Chairman Penrose announced at Washington. Experts are working out details.

The net railway operating income of the railroads in June amounted to \$51,778,000, or \$14,687,346 more than in May, according to reports just filed with the interstate commerce commission at Washington.

President Harding announced that Secretary of State Hughes would head the American delegation in the conference on limitation of armaments at Washington.

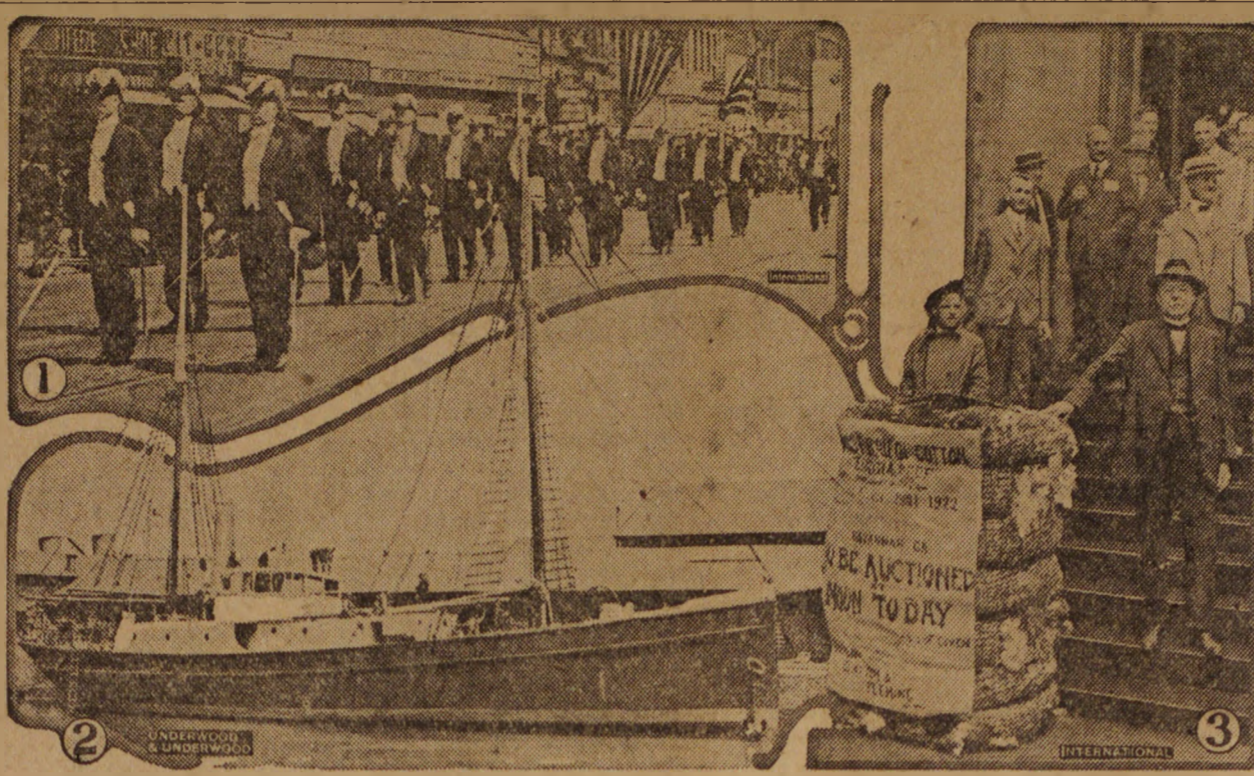

Attempted robbery of a fast mail train just east of Syracuse, N. Y., was frustrated by railroad detectives acting under orders from the railway mail service in Washington.

New York state's population of 10,385,227 included 5,167,350 males and 5,197,877 females in 1920, the census bureau at Washington announced.

A definite hospital program for war veterans involving immediate expenditure of \$6,110,000 out of the \$18,000,000 available was announced at Washington by Col. Charles R. Forbes, director of the new veterans' bureau.

The wets and drays split honors in a battle before the house judiciary committee. The result, if the recommendations of the committee are carried out, will be that dry enforcement officers will not be permitted to search homes for evidence, but will be permitted to search automobiles, suitcases or trunks.

The Longworth bill to extend to November 27 the emergency dye embargo, which expired August 1, was passed by the house at Washington by a vote of 188 to 91 and handed to the senate.

1-Parade of Knights of Columbus during their convention in San Francisco. 2-The Quest which will carry the Shackleton-Rowett expedition to the Antarctic. 3-First bale of the new cotton crop being auctioned off in front of the New York Cotton Exchange for charity by M. J. Parrott, oldest member of the exchange.

NEWS REVIEW OF CURRENT EVENTS

Revenue Bill Makers Find Way to Reduce Taxes by About Half a Billion.

GOVERNMENT EXPENSES CUT

Income Tax Allowance for Dependents Doubled—Grain Exchange Regulation Bill Passed by Senate—Silesian Question Referred to League of Nations.

By EDWARD W. PICKARD.

Although it has been freely and generally predicted that the Republicans would be unable to carry out this year their party pledge to lower taxes, that the revenue bill would show only revision and not reduction because of the necessarily large expenses of government, it now appears they have found a way to fulfill the promise. President Harding and the majority leaders of the house got together last week and agreed on a program by which government expenditures will be cut \$516,000,000. This calls for the raising of \$3,075,000,000 from internal taxation, which is \$495,000,000 less than the total which the treasury estimated would be the fiscal year, 1922. The total to be raised from all sources, but not including postal receipts, will be \$4,034,000,000.

According to the agreement, saving in the various departmental appropriations will amount to \$35,000,000, and a plan was devised whereby the public debt expenditures will be reduced \$150,000,000.

It was the earnest desire of the Republican leaders that the imposition of new taxes be avoided, and under the present plan the proposed \$10 tax on automobiles, the 3-cent postage and 2-cent stamp on bank checks will be unnecessary.

Of more immediate interest, perhaps, to the average citizen was the action of the ways and means committee of the house, which is framing the revenue bill, concerning the personal income tax. It was voted that the allowance for each dependent shall be \$400 instead of \$200 as at present, which means a greatly increased exemption for the man with a large family. A proposition to increase the present exemption of \$1,000 for single persons and \$2,000 for heads of families to \$1,500 and \$2,500 respectively was voted down. This would have meant a loss of revenue of nearly fifty million dollars. Another change adopted was the reduction of the tax on very large incomes. There will be no tax above the 32 percent now levied on incomes of \$36,000—which will be a relief to about ten thousand of our wealthiest citizens, but will not call for cheers from the rest of us.

The committee also decided on a complete repeal of taxes on freight, passenger and Pullman transportation, and increased the flat corporation tax from 10 per cent to 15 per cent. In this and other respects the committee disagreed with the results of the conference with the President, and the changes it has made to date lower the yield from internal taxes to \$3,020,000,000. Of course all these things are dependent on further action by the committee and acceptance by the house and senate.

The losses in revenue below the present law which will result from the program as it now stands include \$450,000,000 from repeal of the excess profits tax, \$90,000,000 from the reduction in the higher surtaxes, \$145,000,000 from repeal of the tax of 3 per cent on freight, \$100,000,000 from repeal of the tax of 8 per cent on passenger transportation, \$8,000,000 from the repeal of the 8 per cent tax on Pullman charges, \$25,000,000 from the repeal of the soda fountain tax, \$15,000,000 from the repeal of the tax on proprietary medicines, besides a few smaller items which bring the total up to \$891,000,000.

Increases made offsetting these losses in revenue included \$263,000,000 additional from changes in corporation taxes, \$60,000,000 additional from the new soft drink taxes, and \$8,000,000 from the new tax on proprietary medicines, making a total of \$337,000,000.

President Harding signed the Sweet soldiers' relief act and at once appointed Col. Charles R. Forbes, director of the veterans' bureau created by that law. Colonel Forbes has authority to supplement the hospital construction program by contracting with state, municipal and private hospitals for the immediate accommodation of disabled veterans who need of care is pressing; and his greater work will be in the line of vocational rehabilitation of the former service men.

After hearing Senator Capper denounce the Chicago board of trade as "the biggest gambling hell in the world," the senate passed the bill for federal regulation of grain exchanges. Some of the more drastic features of the bill as adopted by the house were eliminated and the differences must be adjusted in conference. As passed by the senate the measure seeks to: Abolish transactions known as "indemnities" or "puts and calls" by levying a prohibitive tax. Admit co-operative associations of producers to membership in grain exchanges.

Permit dealing in futures, but only in certain markets, 13 in number, designated by the secretary of agriculture. Empower the secretary of agriculture to compel grain exchanges to make regulations preventing manipulation of the markets. Require exchanges to exercise diligence preventing dissemination of false crop reports. Require exchanges to keep records of all transactions for inspection by the secretary of agriculture or department of justice.

President Griffin of the Chicago board of trade says that institution will in good faith attempt to function under the provisions of this law. Another thing which the senate did last week was to pass the Campbell-Willis bill prohibiting physicians from prescribing beer as medicine. But while the senators thus yielded to the extreme drays, they also adopted some amendments which change the Volstead act in ways that are displeasing to the prohibitionists. One of these especially made the dry leaders howl. It provides a fine of \$1,000 and imprisonment for one year for a prohibition agent or any government employee engaged in enforcement of prohibition or any other law who searches or attempts to search property or the premises of any person without a search warrant.

After agreeing that no reinforcements should be sent to Upper Silesia, the supreme council, in session in Paris, undertook to settle the question of the boundary line between Germany and Poland in that region. Lloyd George advocated the so-called Sforza line, which gave Poland the western part of the industrial district and Germany the rest. Briand objected to this plan, and a deadlock was imminent. The French premier admitted that Upper Silesia amounted to nothing compared with the friendship between the British and French people, but evidently he was afraid of the influence of the French extremists. A complete break was averted by a decision to refer the whole question of the partition to the League of Nations.

Premier Briand first proposed that the United States be asked to arbitrate the matter, but Lloyd George preferred that it be left to the league. This disposition of the question was made under the second clause of article 11 of the Versailles treaty, together with articles 12 and 13. These are parts of the covenant of the League of Nations and provide for reference to that body of "any circumstances whatever affecting international peace or the good understanding between nations upon which peace depends."

While waiting for the report of the experts on the Silesian matter, the council discussed the Greco-Turkish question and, on motion of Mr. Lloyd George, adopted a resolution declaring the strict neutrality of the allies without interference with trade. In the course of this discussion Ambassador Harvey, representing the United States as an observer, replied to a question from Lloyd George that America's traditional policy gave traders the right to sell arms to either belligerent in the Near East.

Mr. Harvey was questioned also concerning Mr. Hoover's plans for the relief of the Russians, and said he would cable to Washington for full information. The allied premiers agreed that the Russians must be helped, and a committee was named to decide on the best means. It was admitted that the co-operation of the soviet government was indispensable. Lloyd George is willing to deal with the soviet government, for that purpose only, and Briand thinks it best for the allies to associate themselves with the American Relief administration and enter into relations with the Russian people through the assistance of the Czechoslovak government. Lenin and his colleagues are not helping matters much, for their appeals for aid are directed only to the "working class" and continually revile all non-soviet governments. They have released seven of the Americans who were held prisoners in Russia and have offered guarantees that all other Americans in Russia will be permitted to leave the country at their own convenience.

De Valera's reply to the British proposals to Ireland was sent to London on Thursday and forwarded by airplane to Lloyd George in Paris. The premier started home almost immediately and laid the document before his cabinet. At this writing the public has been given no intimation of the nature of the Irish reply, but it is feared another crisis is imminent. However, leading Irishmen thought De Valera's note was not of such a nature that negotiations would be broken off.

Formal invitations to the conference on disarmament and far eastern questions were sent out from the State department last Thursday to Great Britain, France, Italy, Japan and China, and the date for the opening of the meeting was announced as November 11, Armistice day. There will be no preliminary conferences, and the government has rejected the suggestion of several Pacific coast cities that one of them be selected for some of the sessions dealing with Pacific questions. Conversations on the agenda are still going on and the program probably will not be finally arranged until after the conference begins.

It is reasonably certain that the report of the Wood-Forbes mission to the Philippines will be adverse to granting immediate independence to the islands, but the Philippines will be considerably mollified by the announcement that General Wood has been offered the governor generalship of the islands and has expressed his willingness to accept the post. The general was familiar with conditions there even before he went on the present mission, and if there is any man in whose capacity and sympathy the natives have full confidence, that man is Leonard Wood. In accepting the appointment his sense of public duty leads him to give up the lucrative and honorable position of head of the University of Pennsylvania to which he had been elected.

If Governor Small of Illinois is sincere in his statement that he desires an early trial of the charges of fraud and embezzlement of public funds for which he is under indictment, provided it is not in Sangamon county, there is a good chance that his innocence or guilt will soon be determined. The states attorney of Sangamon county has offered to agree to a change of venue and has said the prosecution is ready to go to trial at once. Mr. Small avoided arrest in Springfield for a week or so by the simple expedient of staying away, and then returned to the capital and accepted service from the sheriff under protest and gave bonds. Now his lawyers seem to be spreading a net of legal technicalities while he issues statements scoring the political enemies and newspapers which, he says, are responsible for the charges against him.

FOUR BILLION DUE U. S. FIRMS

World Trade Debtors Increase Obligations to Americans by \$1,500,000,000.

UNABLE TO COLLECT NOW

Reserve Board Admits Certain Firms Recognize That in These Sums of Foreign Obligations There Are Some Losses.

Washington, Aug. 17.—World trade debtors increased their obligations to American business concerns by \$1,500,000,000 in the last fiscal year.

The federal reserve board's estimates showed that this tremendous buying of American goods on a credit basis had further swollen American's favorable trade balance against the world to \$4,500,000,000.

And this represents money due American business concerns merely as promises to pay when world exchange disorders are corrected. The debts are at present uncollectable.

The balance due on trade accounts is in addition to the more than \$10,000,000,000 due the United States government in war loans.

America's credits to the rest of the world, therefore, which still remain to be paid, today stand at \$14,500,000,000.

The federal reserve board for the first time in a review of the menacing futures of this credit situation, admitted that some American concerns already have recognized that in these stupendous sums of foreign obligations, there are many absolute losses. Part of these bad debts represent cancellation of goods in foreign ports. Millions have been lost to American commercial interests through refusal of foreign buyers to accept shipments. American financial institutions, for reasons of business safety, are continuing to withdraw from commitments in foreign trade.

HARDING ASKS CASH FOR MEET

President Requests Congress to Appropriate \$200,000 to Defray Expenses of Disarmament Conference.

Washington, Aug. 17.—President Harding asked congress on Monday for \$200,000 to defray expenses for the disarmament conference. The president transmitted a letter from Secretary Fletcher to Director Dawes of the budget bureau showing the amount needed, and also transmitted an official copy of the invitation to the nations to participate.

The communications were immediately taken under consideration by the senate appropriations committee with the purpose of making the \$200,000 provision a rider on the shipping board deficiency appropriation bill to hasten its passage. The bill has passed the house.

President Harding's letter was a brief formal transmittal note saying in part: "In the statement of reasons set forth by the undersecretary of state I concur, and recommend the appropriation as being in the public interest."

Premier Briand of France has assured the United States government that he will personally attend the disarmament conference.

RUSS RELIEF IN DEADLOCK

Brown and Litvinov at Odds on Red Cross Claim to Control United States Staff.

Riga, Latvia, Aug. 17.—A deadlock was reached in the negotiations relative to American relief for Russia's famine sufferers between Walter Lyman Brown, director of the American relief administration, and Maxim Litvinov, acting on behalf of the soviet famine relief committee. Action by Washington and Moscow will be necessary to decide the issue, it is declared.

M. Litvinov has declined to surrender the Bolshevik government's rights to the control of persons distributing food.

TO VOTE CANAL TOLLS OCT. 10

Senate to Take Up Borah Bill Which Provides Free Tolls for American Steamers.

Washington, Aug. 17.—By unanimous consent the senate on Monday agreed to vote on October 10 on the Borah bill providing for free tolls on American coastwise vessels using the Panama canal. If the senate is not in session on that day it was understood the vote will be taken the first day after it is convened.

New York Auto Thefts Double.

New York, Aug. 17.—Automobile thefts in New York have almost doubled in the last six months, according to police figures made public on Monday. Since Feb. 20, 2,491 cars, valued at \$2,500,000, have been stolen.

Arrest Two for Flying Too Low.

Davenport, Ia., Aug. 17.—Leut. Jim Ingram, pilot with the Emerson flying circus, and A. S. Hall, newspaper photographer, were arrested here for flying over the city within 1,000 feet above the business section.

Cuticura for Sore Hands. Soak hands on retiring in the hot suds of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with tissue paper. This is only one of the things Cuticura will do if Soap, Ointment and Talcum are used for all toilet purposes. Advertisement.

SURELY DESTINED TO SHINE

Youth's First Performance an Assurance of His Future Distinction as an Architect.

A Chicago man stopped an architect in the street. "Good morning, Harkins" said the architect. "Are you thinking of building again?" "No; I stopped you to inquire whether you could take my son into your office as an apprentice. With training I believe he would some day prove a magnificent architect." "He has shown some talent, has he?" asked the architect, glumly, for he was disappointed at not getting another contract. "Talent! Genius, sir; positive genius!" "What has he done?" "He designed a garden for our Christmas tree." "Well, what is there so remarkable about that?" "Why," answered the father, "he designed that garden for \$8 and it cost \$32!"—Philadelphia Ledger.

Carefully Reared.

The business man had decided to try a girl secretary, and was interviewing applicants for the job. He eyed, rather suspiciously, a fair young thing, who wore a V-cut blouse, a short skirt, gray silk stockings and a lot of gaudy "jewelry." "I—or—hope you were carefully brought up?" he stammered nervously. "Oh, rather, old bean!" replied the damsel. "Old Bill, who works the lift, is an old flame of mine; he wouldn't hurt me for worlds."

Too Early.

"I have but one regret," exclaimed Caesar as he crossed the Rubicon; "I didn't have a chance to spin a toddle top."

GENUINE "BULL" DURHAM tobacco makes 50 good cigarettes for 10c

KILLS PESKY BED BUGS P. D. Q.

Just think, a 35c box of P. D. Q. (Pesky Devils Quietus) makes a quart, enough to kill a million Bed Bugs, Roaches, Fleas or Cooties, and stop future generations by killing their eggs, and does not injure the clothing. Liquid fire to the Bed Bugs in what P. D. Q. is like; Bed Bugs stand as good a chance as a snowball in a justly famed heat roast. Patent sprout free in every package of P. D. Q., to enable you to kill them and their nest eggs in the cracks. Look for the devil's head on every box. Special Hospital size, \$2.50, makes five gallons; contains three spouts. Either size at your druggist, or sent prepaid on receipt of price by Owl Chemical Works, Terre Haute, Ind.

# CENTRAL LIFE INSURANCE COMPANY

## OF ILLINOIS

H. W. JOHNSON, PRESIDENT

Born and Raised in  
DeKalb County

Because of its rapid growth, economic management and liberal treatment of policyholders, the Central Life Insurance Company is commanding the attention of business and professional men wherever its methods are becoming known.

Before this Company had been organized a year its directors declared a very liberal dividend on its Participating Policies. There is no record like this.

The principal features of the Central Life are these:

Three and one-half per cent interest paid on dividends left with the Company.

Policies unexcelled in liberality.

Low expense ratios and high interest earnings.

Low mortality and an income of approximately \$1,500,000 a year.

Loyal and satisfied policyholders and a loyal and prosperous Agency Force.

With these for a foundation, at our present rate of progress, we are warranted in the belief that the Central Life is to be the Great Insurance Institution of the Central West.

**THE AUTO SHOW**

Large Crowds Witness Contests at Electric Park

Prizes won by attendants at the two-day auto and tractor meet held at Electric Park over the week end are announced today by Manager Robert M. Murphy.

The judges for the tractor meet were Peter Simelson, living on the DeKalb-Sycamore road; A. P. Campbell, Rochelle, and J. W. Lobdell, Belvidere.

A. H. Myers of Belvidere won the silver cup awarded for the best job of plowing, using a Wallis 15-25 and Case three-bottom plows. Mr. Myers also was second on time.

George Wood of Rochelle using an Allis Chalmers 18-30 with Oliver four-bottom plows was second on quality of work done. The Rochelle man using an Allis Chalmers 12-20 with Oliver three-bottom plows was second on economy costing \$1.17 to plow three and one quarter acres.

Dooley & Swedberg of Sycamore and Fisk Motor Co., DeKalb, with Fordson tractor with Oliver two-bottom plows were awarded the third prize for the best job and also first prize on time and economy, plowing three and one-quarter acres in 3:55 at a cost of \$1.08.

Other participants in the affair were C. E. Wright of Rockford and three bottom plow and Morris Kennedy with a Russell 15-30 and Oliver three-bottom plow.

Mr. and Mrs. H. Batty of Sycamore were given the honors for being the oldest married couple on the ground; Mr. and Mrs. Ned Cone of DeKalb for the latest married couple. Mr. and Mrs. Lou Nichols received honors for being in attendance with the largest family while Jay Harrington carried away the prize for the fattest man on the grounds.

The affair was considered a very successful one from start to finish and very well attended.

**ROBERT CLIFFE DEAD**

Former Genoa Resident Dies at Valparaiso, Ind.

Word was received here late Saturday afternoon that Robert Cliffe, a former resident of this place, and known to many people of the city had passed away at the home of his daughter, Mrs. Fred Marquart, at Valparaiso, Ind.

Mr. Cliffe's death was the result of injuries received last March when he suffered a fall. At that time it was not thought the injuries would prove serious and although everything possible was done to relieve him, his advanced age was against him.

Mr. Cliffe was born at Syke House, Yorkshire Eng., March 24, 1833 and came to this country when but a child. At the time of his death Mr. Cliffe was nearly 89 years of age.

Surviving Mr. Cliffe are six children including Mrs. William Clendenan, Saskatchewan, Can., Mrs. J. C. Rehder and Mrs. Fred Marquart, both of Valparaiso, Ind., Less Cliffe of Cannington, Ont., C. D. Cliffe of Montreal and Miss Helen Cliffe of DeKalb.

Funeral services were held Monday afternoon at two o'clock from the Nelson parlors in DeKalb and the remains were laid at rest in Evergreen cemetery.

Mr. Cliffe left DeKalb some years ago and for the past five years or more has made his home with his daughter at Valparaiso.

**SPECIAL NOTICE**

Whereas, the Church of God having established a congregation in Genoa, Ill., and it being a non-sectarian congregation and teaching the unity and oneness of all christian people, and have secured a building lot on Second St., lot 7, block 6, expect to erect a building as a place of worship in the near future.

Being as false rumors have got out that we are Christian-Scientists, Spiritualist Doweyites, and many other fictitious names, we wish it understood that we are neither of the above. The name of The Church of God is mentioned 14 times in the New Testament of the Bible. Therefore we do not believe in assuming any other name. We believe in proving every statement we make regarding Christianity by the Word of God. We are friends to everybody and enemies to none. Everybody is cordially invited to come to the meetings and hear the Gospel preached. Its fairness and the savor of Zion sung. "In the spirit and with the understanding also." 1 Cor. 14:15.

P. O. Purcell, Pastor.

**EXPENSIVE ROOZE PARTY**

Henry Strack and James Collan of DeKalb, who were members of the liquor party, which came to an inglorious end in the arrest and conviction of Garrity and Fagan, a short time ago, were arrested and brought before Judge Pond in the county court Tuesday, charged with purchasing and transporting illicit liquor. They both plead guilty to the charge and each was fined \$100 and costs. They both paid their fines and costs amounting to \$245 and were discharged.

John Sutton, also a member of this famous party, was arraigned in the county court and held under \$1000 bail. His case will be disposed of in the regular course of business. State's Attorney Poust prosecuted all cases.

**M. E. CHURCH NOTES**

We are happy to be back home again after having spent a very enjoyable and profitable ten days at Camp Epworth. The people of Genoa and Ney are to be congratulated in that they loyally supported the Camp Meeting. Over twenty from Genoa camped on the grounds and if noses had been counted each Sunday it would have shown that Genoa had the largest delegation of any church in the district.

We will resume our service Sunday and hope there will be a good attendance at both Sunday school and morning service.

Service at Ney at 9:00 o'clock a. m. J. E. Robeson, Pastor.

**LIVE THROUGH SILLY SEASON**

Boys and Girls Can Be Trusted to Out-grow Natural Foolishness of Their Early Years.

A man is old when he begins to be irritated by the folly of youth. The old man of, say, forty years, has little patience with the boys and girls of sixteen. He is convinced that the girls are without sense, and he is persuaded that they never will have any sense. No ideas illumine their conversations. "I'll say he did," they will remark; or "I'll tell the world." Endless chatter; endless repetition of the slang phrases of the day; endless giggling. He forgives them, however, because of the luster of their eyes and the soft freshness of their cheeks.

The boys he cannot forgive. The boys are not beautiful; they are awkward and ungainly; their voices occasionally miss on one cylinder; they are filled with a desire to show off; they

talk too much and say too little; they brag; they feel their biceps and wish to be wicked; they are proud of their new-found virtues, and strive to give the impression that they are bad guys and dangerous to fool with.

The old man is convinced that they will all go to the devil. He thinks they will all be hanged, and rather hopes they will. But they are not. Considering the variety and extent of the temptations our civilization offers, a surprisingly small number of boys grow up to be hanged. They have their silly season—their season of taking pride in things that are not wholly respectable—and then they settle down to become old men and criticize the next generation.

The father who is old loses sleep in the fear that his boy will not turn out all right. He forgets that he was that same kind of boy, and if he, having made a poor start, was able to become the wonderful creature he now is, what reason has he to believe that a son of his will fail to do as well? The saplings are green and worthless, but they all develop into seasoned timber if they are not cut down or denied an opportunity to develop.—Baltimore Evening Sun.

**The Power of Music.**

Belg. Gen. Charles G. Dawes, formerly controller of the currency, best known as "Hollan" Marlin" and now director of the fiscal system of the federal government, is a musician as well as a financial magician who proposes to make Uncle Sam's high cost of doing business decline and shrink to the vanishing point.

While commissar of supplies at General Pershing's headquarters in France, General Dawes needed eight hundred horses and needed them in a hurry. His formal application was promptly turned down by the British commander. Dawes was not to be thwarted, and trailed this particular officer, Gen. William E. Bullkin, to his hotel and thence to a cafe to make a personal appeal.

While they were waiting for service a good orchestra played. It brought Dawes' jangling nerves into tune. He had a party with the orchestra leader and soon was playing an instrument. General Bullkin and his party so enjoyed this music that they kept Dawes playing most all night and in the morning he had fifty eight hundred horses—he had gotten them out of the British commander.

**Mahometan Calendar.**

The Mahometan calendar is dated from the flight of Mahomet from Mecca in 622.

**Discovery of Phosphorus.**  
What we now call phosphorus was discovered by a chemist called Brand in 1669, who prepared it in small quantities from bones. In those days of mysticism a substance that burned and emitted light without being ignited was hailed as a discovery of the principle of life. The sensation was just like what was made 250 years later by the discovery of radium.

**AUCTION**

The undersigned will sell at public auction on the McCormick, "five corner farm" 6 miles north-east of Genoa and 8 miles southwest of Marengo, on

Saturday AUGUST 27

commencing at one o'clock p. m. the following described property:

24 HEAD OF HORSES 24  
15 ranging in age from 4 to 8 years, weighing from 1200 to 1400; 9 work horses, 5 spans of mules, well broken, from 5 to 7 years old.

20 Head of Holstein cows 20 new milkers and springers 8 shoats, 1 brood sow, 5 red cows, 1 Holstein bull 2 years old.

Full line of farm machinery, all practically new. Several good buggies and wagons, 3 sets work harness double driving harness, 2 sets single harness.

20 tons of timothy hay in barn Terms of Sale: Sums of \$1000 and under cash, credit of 6 months will be given on good notes bearing interest at 7 per cent per annum, 2 per cent discount for cash on sums entitled to credit. No property to be removed until settled for.

**New Zealand "Frost-Fish."**  
The name "frost-fish" is applied on the South Island of New Zealand to fish of a deep-sea species (*Lepidopus caudatus*) often found lying dead on the shore during and after severe cold weather. It is a long ribbon-like fish of delicious flavor and is eagerly sought for food.

**One-Sided Argument.**  
It is easy to convince most men that the way that offers the greatest profit is the right way.

**RECOMMENDATION**  
Concerning the Extension of the Sewer System and Water Mains  
(Continued from Page 1)  
MAINS, IN AND FOR A PORTION OF THE CITY OF GENOA, DEKALB COUNTY, ILLINOIS.  
Be it ordained by the City Council of the City of Genoa, DeKalb County, Illinois;  
Section 1. That a local improvement shall be made in the City of

Genoa, in the County of DeKalb, in the State of Illinois, the nature, character, locality and description of which said local improvement shall be as in this ordinance provided;  
Section 2. There is hereby established a sewer and water supply district comprising the territory in said City, the sewage from which will be collected and disposed of by said system of sewers and city water supplied by distributing mains for domestic uses and fire protection, which said district is described and bounded as follows:  
Beginning at the quarter section corner on the West line of Section 19, Township 42 North Range 5 East of the 3rd. P. M., thence East on the quarter section line to a point 150 feet West of the West line of "B" Street; thence South and parallel to "B" Street to the North line of Main Street; thence in a Southeasterly direction in a direct line to the Northwest corner of Lot 9 in Block 3 of Oak Park Addition to Genoa; thence East 150 feet to the Northeast corner of Lot 7 of said Block; thence South on the East line of said Lot 7 to the Northwest corner of Lot 6 of said Block; thence East 166 feet to the Northeast corner of Lot 4 of said Block; thence Southeasterly in a direct line across "A" Street to the Northwest corner of Lot 9 in Block 2 of said Oak Park Addition; thence East 166 feet to the Northeast corner of Lot 7 of said Block 2; thence South along the East line of said Lot 7 and said line extended South to the North line of the right of way of the Chicago, Milwaukee & St. Paul Railway; thence Westerly along said right of way line to a point where the Westerly line of Spring Street extended Southerly intersects said right of way line; thence Northerly on said extended line of Spring Street to the Southeast corner of Lot 18 in Block 2 of Wilcox Addition; thence Westerly 66 feet to the Southwest corner of said Lot 18; thence Northerly on the West line of said Lot to the Northwest corner thereof; thence Westerly and parallel to the South line of said Section 19; thence North on said West line of section 19 to the place of beginning.

Section 3. Right, permission, privilege and authority are hereby given and granted to the present and future owners and occupants of the lands lying within the said district, to connect all house drains, which now exist or which may be constructed hereafter within said district, into and within the sewers described in this ordinance, for the purpose of discharging sewage only into said sewers, and to connect with the distributing mains of the extended city water supply system as herein provided.  
Section 4. The connected system of sanitary sewers and manholes herein described shall be built along the sewer lines in this ordinance described. The elevations hereinafter

referred to for said sewer lines are the number of feet and decimals of a foot given above the established city datum, and mean the elevation of the inside of the pipe at the bottom or lowest point. The sewers shall be built with uniform slope along the inside bottom line thereof between the various elevations given, and shall coincide the center line of the same with the center lines of the various streets, avenues, alleys and other places hereinafter mentioned, and the productions thereof, except as hereinafter otherwise provided, where they shall be located as in such other places provided in this ordinance. Where the term "sewer line" is used herein, it means the line along which such sewers are to be built and located as aforesaid. The dimensions of the various lines of sewers given mean the internal diameter of the same.

The upper half of each line of sewer pipe shall be cut away from its entrance to the manhole to the center thereof, leaving the lower half to form an invert in the bottom of the manhole, and where sewers of different internal diameter enter the same manhole, the lower half of the pipe forming the outlet from the same shall be carried across the bottom from the point of outlet to the opposite point of inlet, along the center bottom line of the same, and connected in the center with the lower half of any sewer pipes entering such manholes from the other sides.

Ten (10) manholes shall be built as hereinafter provided, centrally of the lines of said sewers and points of elevation given, one at each connection or junction of lines of sewer described and at other necessary points on the lines of said sewers. Each manhole shall be cylindrical in form, of an internal diameter of three (3) feet, and the top of said manhole shall narrow to two (2) feet internal diameter, being decreased at a rate of six (6) header courses down in the diameter being decreased of two (2) inches for each course.

The bottom, except space occupied by inverts shall be formed of concrete and the walls of each manhole, shall be built of the best quality of standard, hard burned sewer brick laid in cement mortar, composed of one part by measure of the best Portland cement, to three (3) parts by measure of clean, sharp, dry sand, free from all loam, clay, animal or vegetable matter. The sand and cement shall be thoroughly mixed together dry, in a bed or on a board, and in no case on the ground, so as to show an even color and be free from streaks, and shall then be reduced to mortar by the addition of clean water. The mortar so made, shall be used within one hour after water has been applied. The walls of said manholes shall be eight (8) inches in thickness, and the bottom of each manhole shall be of the thickness of six (6) inches. The upper surface of the bottom shall be laved flush with the side top edges of the inverts and slope upwards two inches to the wall of the manhole. All manholes shall be water tight. Each manhole shall be fitted with a cast iron rim weighing at least two hundred (200) pounds and a lid weighing at least one hundred (100) pounds. The rim and lid shall be cast from the best quality of gray iron, of tough and even grain. The rim shall be cylindrical in form, of twenty-two (22) inches internal diameter, eight (8) inches high, with a five (5) inch flange, walls and flanges to be at least three-fourths (¾) inch thick. The lid shall be twenty-one and three-quarters (21¾) inches in diameter, with a rough top and ribbed bottom inside ribs to be at least one-half (½) inch thick, and the outside rim and the top to be at least one and one-half (1½) inches thick. The lid shall be of the kind known as the closed cover with one and one-half (1½) inch semi circular open space at edge to allow for opening and shall fit snugly on the rims and the upper surface of the lid of each manhole shall coincide with the surface of the street, avenue or alley at that point.

Beginning two feet from the bottom and thence sixteen (16) inches apart wrought iron steps shall be placed horizontally in each manhole, made of a single straight piece of three eighths (¾) inch by One (1) inch wrought iron, thirty-six (36) inches long, with the ends extended through the wall and forming chord with the inner diameter of the manhole with a middle ordinate of four (4) inches from step to wall of manhole.

In every case where the grade of the inlet sewer at a manhole shall be eighteen (18) inches or more above the grade of the outlet, what is known as a drop manhole shall be constructed, which shall be built as follows: The manhole shall be built in all respects the same as is in this ordinance above provided, except that the inlet shall have immediately outside and adjoining the wall of the manhole a "T" connection at the lower side of said inlet pipe of the same internal diameter as such sewer or inlet. To this "T" connection shall be fitted a vertical sewer pipe and below this an elbow pipe of the same kind, size and quality in every respect as said inlet sewer, and shall extend vertically downwards and along the outside of said manhole and around a ninety degree (90) degree curve made by said sewer, the lower invert end of said ninety degree (90) degree curve of said sewer entering said manhole through its wall two (2) inches above the grade of the outlet invert, forming a second inlet at said grade. All connections shall be cemented and made water tight and in the same manner as for straight pipe.

Manholes at all other points shall be built as herein first above provided and described.

**His Quaintness.**  
"Uncle Johnberry is a mighty queer old man," mused the giant Missourian. "Why, actually, he don't 'pear to care at all when some other old rip comes around and outbrags him about his rheumatiz!"—Kansas City Star

**When the King Tips.**  
When the king of England goes to stay with one of his subjects there is a fixed rule for his tip. He, or rather his equerry, leaves with the house steward the sum of \$500 for distribution among the staff.

**Logic.**  
The Yodel (meditatively)—I'm going to sell the farm and put the money in the bank. When you've got a farm, the Lord does as he pleases with you, but he can't touch the money.—Stockholm Kasper.

**Census of Brain Cells.**  
It is thought that the nerve cells in the brain of a human being number something like 200,000,000. Their ramifying rootlets connect them one with another, and send out branches which extend to the most remote portions of the physical anatomy.

**"Fool's Gold."**  
The material commonly called fool's gold is iron pyrite, a combination of sulphur and iron in almost equal parts which is used in making sulphuric acid. Iron pyrite can be distinguished from gold by the odor of sulphur which it gives off upon heating.

**A Texas Suggestion.**  
Another good way to please a young mother is to say the baby has her eyes and its father's mouth.—Galveston News.

**Right Giving.**  
He gives not best that gives most; but he gives most who gives best. If then I cannot give bountifully, yet I will give freely; and what I want in my hand, supply by my heart. He gives well that gives willingly.—Arthur Warwick.

**First Typesetting Machine.**  
The original inventor of the typesetting machine was William Church of Boston, who had it patented in England in 1822, or 32 years before Mergenthaler was born. In all, there were 20 different typesetting machines rendered useless by Mergenthaler's invention.

**New York Business Women Lead.**  
Women play a bigger part in the business life of New York today than in any other city in the world.

**WE HAVE  
COAL  
AND  
YOU WANT  
COAL**

It may be a hard thing to get this winter because of the small production at the mines and you will feel better if you have the coal instead of us - Order today.

**ZELLER & SON**

**Ford**  
THE UNIVERSAL CAR

Genuine Ford Service—and Parts

INSIST on genuine Ford parts for your Ford car. Mail order houses, stores and many garages sell imitation—counterfeit parts which have not the quality of the genuine Ford parts, but the Authorized Ford Dealers as well as the Authorized Sales and Service Dealers sell only the genuine Ford-made Ford parts. You are safe with them, while your car is mighty unsafe if repaired with imitation parts. The real Ford parts are made from the same properly heat-treated steel as their counter-parts in the Ford car. Every part is heat-treated according to its use. Depending upon the service they perform, Ford parts are tempered to insure the longest life. Tested after almost every operation while being manufactured under Ford supervision. Counterfeit parts range from thirty to seventy-five per cent below the quality of the Ford Standard. Don't take chances; demand Ford parts, they're safer. Bring your Ford to us and thus make "assurance doubly sure." If you want a Ford car, truck or Fordson tractor, leave your order without delay, as now we can make prompt delivery—Touring Cars, Coupes, Sedans, Runabouts, Trucks and Fordson Tractors. Why not drop in and talk over your wants?

**E. W. LINDGREN**

**WHICH?**

Ask Your Lawyer Which One He Would Sign  
CONTRACT WITH U. S. GRAIN GROWERS, Inc. OR CONTRACT WITH ORGANIZED GRAIN TRADE

This contract, drawn by five attorneys, who have devoted the best years of their lives to farm marketing problems. Three of them have attained national prominence by reason of service rendered farmers.

Provisions which will protect farmer members and limitation of powers of contracting company clearly set forth.

This contract is not written and exists only by common consent of the grain producers.

Charges, deductions and price fluctuations, limited only by what the trade believes the traffic will bear.

Responsibility for losses, price manipulations and unfair practices cheerfully passed on to some other factor in the system.

**Duration of Contract—5 Years**

A company owned by farmers; controlled by farmers through a local, district and national meeting each year; and directed by a board of farmer directors.

Committed to return every cent of the market value of the grain to the man whose labor and investment produced the crop—minus only actual handling charges.

Savings on commissions and not more than one per cent deductions for capital expenditures will build:

- Farmer-owned terminal facilities
- Farmer-owned export company.
- Farmer-owned grain hospitals.
- Farmer-owned crop reporting service.
- Farmer-owned service departments—transportation, grain statistics, etc.

**Duration of Contract—For Life**

A system owned largely by men who have no interest in farming, controlled by paid propagandists and speculators, who declare that the farmer should content himself with producing two ears of corn where one grew before.

A system which forces the farmer to accept a manipulated price for his grain that reflects a market value—

- Minus commissions.
- Minus handling charges.
- Minus speculative profits.
- Minus upkeep of private warehouses.
- Minus overhead of thousands of offices.
- Minus increased value of mixed grades.
- Minus over-dockages on grain.
- Minus excessive terminal charges.
- Minus up-keep on excess terminal warehouses and facilities.
- Minus excessive commissions on exported grain.
- Minus millions of dollars annually paid on speculative grain.
- Minus other charges that the traffic will bear.

**Everything for QUALITY**  
—nothing for show

THAT'S OUR IDEA in making  
CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

**Camel**

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

ONE NEIGHBOR TELLS ANOTHER Points the Way to Comfort and Health. Other Women Please Read

Moundsville, W. Va.—"I had taken doctor's medicine for nearly two years because my periods were irregular, came every two weeks, and I would suffer with bearing-down pains. A lady told me of Lydia E. Pinkham's Vegetable Compound and how much good it had done her daughter, so I took it and now I am regular every month and have no pain at all. I recommend your medicine to everyone and you may publish my testimonial, hoping that the Vegetable Compound does some other girl the good it has done me."—Mrs. GEORGE TEGARLEN, 915 Third Street, Moundsville, W. Va.

How many young girls suffer as Mrs. Tegarlen did and do not know where to turn for advice or help? They often are obliged to earn their living by toiling day in and day out no matter how hard the pain they have to bear. Every girl who suffers in this way should try Lydia E. Pinkham's Vegetable Compound and if she does not get prompt relief write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts, about her health. Such letters are held in strict confidence.

Government Maintains Paid Hunters. Strange as it may appear, the government employs hundreds of hunters. The biological survey likes between four hundred and five hundred hunters whose sole duty is to hunt and trap wild animals. In 1920 these professional hunters "bagged" out 32,000 skins and scalps, divided among the various animal tribes as follows: Wolves, 584; coyotes, 27,100; mountain lions, 149; bobcats, 4,123; Canada lynxes, 43. To the average citizen of this country, especially in the thoroughly domesticated East, these figures might not convey practicability but to the farmers of the western ranges they mean a saving in live stock of about five million dollars.

Only a Shelf. Recently a fire in North Delaware street nearly destroyed the home of one of the residents. It was all new and interesting to one of the little neighbors, who heard some one say "there was nothing but a shell of the house left." All excited, he ran to his mother saying: "You know that house that burned? Well, there's nothing left in it but a shelf."—Indianapolis News.

Justifiable Aloofness. "Wasn't it Omar Khayyam who asked for a book of verse and a jug of wine?" "I don't know," replied Miss Cayenne. "I don't read him. In view of the jazz poetry that now circulates and the bootlegging incident to alcoholics, I am convinced that Omar is not at all a proper person."

The Mystery of the Silver Dagger By Randall Parrish

MYSTERY. Synopsis—In a New York jewelry store Philip Severn, United States consular agent, notices a small box which attracts him. He purchases it. Later he discovers in a secret compartment a writing giving a clue to a revolutionary movement in this country seeking to overthrow the Chilean government. The writing mentions a rendezvous, and Severn decides to investigate. Finding the place mentioned in the writing apparently deserted, Severn visits a saloon in the vicinity. A woman in the place is met by a man, seemingly by appointment, and Severn, his suspicions aroused, follows them. They go to the designated meeting place, an abandoned iron foundry. At the rendezvous Severn is accepted as one of the conspirators and admitted. He meets a stranger who addresses him as Harry Daly. The incident plays into Severn's hands and he accepts it. His new acquaintance is a notorious thief, "Gentleman George" Harris. Concealed, Severn hears the girl he had followed address the conspirators. She urges them to hasten the work of the revolution. The girl discovers Severn listening. She accepts his explanation of his presence and makes an appointment to meet him next day. He tells her his name is Daly. Harris informs him of a scheme he has to secure a sum amounting to \$1,000,000, the revolutionary fund, and offers to "split" with him. Severn accepts the proposition. Severn learns it was his new friend and a "Captain Alva" who had lost the box which started him on the trail. Harris tells him the woman is Marie Gessler. He arranges to meet Severn next day at Tom Costigan's saloon. Leaving the building, Severn finds the body of Captain Alva, stabbed to death with a hatpin dagger. He remembers having seen it, or one like it, in Marie Gessler's hat. Severn is forced to believe she is the slayer.

CHAPTER VII—Continued. There was no outward sign of any surveillance as I turned into the block; indeed except for a grocery truck before one of the houses, and an organ-grinder at the farther corner, the street was entirely deserted. Mustering my courage, and with a feeling of deep excitement, I advanced up the steps of the house numbered 247, and, finding refuge in the outer vestibule, rang the bell. I heard no distant tinkle, but within a moment or two the door opened a crack, held in that position by a chain, and the face of a middle-aged woman peered out at me. "Well, what is it?" she snapped, in no encouraging tone. "I should like to see Miss Conrad," I began apologetically. "I have an appointment with her." "Not here yer ain't, young man, for there ain't nobody by that name in this house." "Are you sure? This is 247, is it not? That was the number given me. She was to be here at two o'clock." "This yer is 247 all right. I ain't denyin' that," the voice more acid than ever, "but there ain't no Miss Conrad yer; so that's all there is about it." "But there must be." "Must be nuthin'! I guess I know. I've been yer seventeen years, an' ther never was nobody of that name

"Well, What is it?" She Snapped. ever in this house. Besides, I'm house-cleanin' and can't stand yer talkin' all day." "Do you know a man named Krantz?" I lunged at her desperately, in a last effort to arouse some response. "Adolph Krantz." "No, I don't; ther ain't none of those people yer, I tell yer." The door slapped shut in my face, and I heard a bolt shot into place—the interview was ended. I stared a moment at the blank door in bewilderment; then turned away, and slowly retraced my steps to the street. So the young woman had deliberately lied to me; had merely been amusing herself at my expense; had

sent me on this wild goose chase so that she might laugh over my simplicity. But was this true? If so, how was I to account for the strange coincidence that both she and Harris had named the same number, and street? It could not have occurred merely through chance. Something must have happened in the meanwhile to overthrow all her plans, and to cause this rabid housekeeper to even deny her very existence. And I held the key of explanation—the murder of Alva.

Beyond all doubt here was both cause and effect. The girl had intended to either see me herself, or by proxy in the form of this mysterious Miss Conrad. But what had since occurred had compelled a sudden change in plans, a necessity for concealing her escape. There was no way in which she could notify me, but she might very easily have telephoned to her landlady. And, if the place was what I suspected it to be, she might have every confidence that her secret would be guarded.

I glanced up at the front of the house, searching the windows, but without results. The curtains were closely drawn to keep out the sun, and the place appeared forlorn and deserted. At the delicatessen shop on the corner I gained a gleam of light, but merely enough to strengthen my former judgment. The keeper, a flaxen-haired Swede, was loquacious enough, but had only been in business there a few weeks.

"247 Le Compte, you say. Yes, she takes roomers; some are men, and some are women. They come in here and buy, but I never ask the names; it was all cash, so why should I care? Sometimes I hear them call names—sure; but never Conrad. The woman what keeps the house? Wait and I tell you; it is on the books; ah! you read as she wrote it for me—Mrs. Augusta Waldron; maybe a widow? What you think? Bah, she never like anything I have to sell. I care nothing for trade with her—a cat this Mrs. Augusta Waldron."

I left him with the familiar sound of the name ringing in my ears—the whole thing was traveling in a circle, and the circle was growing continually more compact. Blindly, I was stumbling up against it here and there most unexpectedly. Augusta Waldron, beyond doubt, was Ivan Waldron's wife. No wonder her house was designated the meeting place for those people.

I returned to the hotel. Only as I stood before the door did I realize that the newsboys were calling out, "Extra! All about the murder!" I felt that my face was white, and that my hand shook, yet I hastily bought copies of half a dozen sheets, shoving them into my pockets. The reports were mostly alike, exceedingly brief and unsatisfactory, except that they conveyed the impression that thus far the police possessed no real clue as to the perpetrator of the crime. No one connected with the meeting the night before was mentioned in any article, nor was any suspicion of such a meeting mentioned. I read the last line with a distinct feeling of relief, dropping the paper on the floor.

They had discovered no clue, nothing whatever to work upon. The interior of the car had yielded no evidence of its former occupant, the only reference being to mud on the floor. Outside all footprints had been obliterated by the falling rain. No one in the neighborhood had heard a sound, or witnessed any movement. The whole affair was shrouded in mystery.

What, under these conditions, was my duty? What could I either do, or say, to clarify this tragedy, and bring the guilty to justice? I sat there for an hour thinking and smoking, endeavoring to answer these queries. I could study out no clear way to any confession, which would not directly involve myself in the toils of the police, or else implicate Marie Gessler, so as to make any defense on her part almost impossible. No doubt she was guilty, yet I could not drive myself to openly charge her with the crime. There must be some extenuating circumstances, some unknown cause, which had led to the act. I could not forget her face, her manner, the clear, womanly look of her eye—she was no murderer, and it was not in my heart to denounce her as such. Besides, if I took this responsibility it would only serve to shield other crimes of more importance than the violent death of this Chilean revolutionary—the murder perhaps of many innocent victims, and the destruction of much valuable property. For Alva's death would hardly stop the plotting already on foot. The money was still here in New York ready to be used; the propagandists at Washington would never permit it to long lie idle. They would find somewhere another leader, and I alone seemed to be in a position to balk their hellish purpose. Perhaps it was even by their orders that Alva had thus been put out of the way. He had acted too slowly, and suspicion might have been aroused as to his real purpose. On every side I was assailed with doubts.

Yet, even if I held silent, I knew not in which direction to turn. I had apparently lost all touch with the girl. She had fallen me completely—either by accident, or design. Her appointment with me had served to reveal only one fact which might prove of importance—247 Le Compte street was undoubtedly a link in the chain of the conspiracy; it was the home of Ivan Waldron. Once I told this discovery to Harris the way might be opened to closer investigation. But what had become of Harris? It was already approaching six o'clock, and the man had not telephoned me. Surely he must be aware by this time of the murder of Alva; the uselessness of seeking longer to find him alive. Was he also endeavoring to avoid me? Was he also endeavoring to avoid me? Was he also endeavoring to avoid me? Was he also endeavoring to avoid me? Was he also endeavoring to avoid me?

The KITCHEN CABINET

He who would bring home the wealth of the Indies with him, says the Spanish proverb. So it is in traveling; a man must carry knowledge with him if he would bring home knowledge.

HOT WEATHER GOOD THINGS. A good-sized fowl is not always made tender by ordinary cooking. The following method is a good one: Cut the fowl in pieces at the joints, wash and dry, roll in seasoned flour and fry brown in hot fat. Put into a baking pan, sprinkle over it one-half cupful of celery and two tablespoonfuls of minced onion. Cover with hot water; place another pan over it and cook in the oven until tender. More water may be needed if the chicken is an old one.

Cottage Chicken.—To two cupfuls of cooked chicken, cut in pieces, add one cupful of cooked macaroni, one-half a large canned tomato, one-half of a grated onion. Prepare a white sauce, using one cupful each of milk and chicken broth, three level tablespoonfuls each of butter and flour with one teaspoonful of salt; mix with the first combination and cover with a rich biscuit dough. To keep the gravy from going into the crust, place an inverted cup or small bowl, well greased, in the center of the dish before pouring in the gravy. The gravy will thus go under the cup. Loosen the crust and remove the bowl before serving.

Watermelon Cocktail.—Cut a chilled melon into thick slices, remove the seeds and cut out with a vegetable stamp or a potato cutter into balls or slumps. Sprinkle with a little powdered sugar and serve in stemmed glasses as a beginning for a luncheon or dinner.

Peach Betty.—Use the soft crumbs from the center of a stale ball of bread. Mix three cupfuls of crumbs with one-half cupful of melted butter. Have ready a pint and a half of sliced peaches. Put the buttered crumbs and fruit in layers in a baking dish, sprinkle each layer with sugar, grated orange or lemon peel. Bake one hour. Cover the dish during the first half of the cooking, but remove to brown the crumbs. Serve hot, with sugar and cream. Apples may be used in place of peaches, or any juicy fruit.

Quinces are delicious baked in a casserole. Add boiling water, orange peel and sugar, filling the centers with sugar and butter. There's a dance of leaves in that aspen bower. There's a titter of winds in that beechen tree. There's a smile on the fruit and a smile on the flower. And a laugh from the brook that runs to the sea.—Bryant.

WHAT TO EAT. It is not necessary to be a graduate of household economics to understand planning a well-balanced ration of palatable and nutritious food; but it is essential that study should be put upon the selection of foods, for a small amount of food rightly combined will give more energy than a large amount illly combined. Some one has said that the selection and organization of food in the diet is an important as the organization of an army. A properly disciplined force of soldiers is more effective than an untrained mob, we will agree.

One of the essential things to remember is the different groups of foods: 1. Foods which provide protein which builds muscle; these are milk, eggs, cheese, meat, poultry, dried peas, beans and lentils, as well as fish. 2. Foods which furnish us starch and sugar; these are cereals, meats, flours, bread, macaroni, potatoes and such starchy foods; sugar in various forms such as honey, molasses, candies and sweet fruits, preserves, sweet cakes and desserts. 3. Foods which furnish fat. Supplied by butter, cream, olive oil, corn oil, bacon, salt pork, suet and other cooking fats. 4. Foods which supply mineral salts, vegetable acids and body-regulating substances. This is a most important group and has been slighted in the planning of the ration far too often. We find these substances in apples, pears, berries, melons, oranges, lemons and other fruits; in salads of green vegetables, such as lettuce and cress; in greens, like spinach, green peas, tomatoes and squash.

If these four divisions are included in the diet there will be no lack of the necessities for growth and health. When purchasing supplies for the family table think in terms of these groups. Some housemother will say: "My family will not eat such and such foods, or certain members of my family will not eat the kinds of food necessary for them to keep in perfect health." With rare exceptions this is admitting your own lack of properly training the children to eat the things that they should eat.

"You must have faith in me, in spite of all." (TO BE CONTINUED) Nellie Maxwell

ASPIRIN Name "Bayer" on Genuine BAYER logo

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturer of Monocetateester of Salicylicacid.—Advertisement.

She Had Heard That Before. Three-year-old Betty's mother was nervous, and caused more confusion at the club by worrying about Betty's doings than Betty herself. She kept taking the little miss out and scolding her, but each time Betty would forget and do something more annoying than ever. Finally, after noticing that her mother kept shaking her head at her, she ran up to her and said: "Mother, do you say 'I stay at home after this, young lady?'"

A Doubtful Starter. Mrs. Naggs—I know I'm terribly cross at times, John Willie, but if I had my life to live over again I should marry you just the same. John Willie (with fervor)—I have my doubts about that, Marla.—London Weekly Telegraph.

SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder. Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound. Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure to mention this paper.—Advertisement.

Sparrows Put Up a Fight. When workmen, about to repair the roof of the Presbyterian church in Danville, Pa., used burning sulphur in an attempt to exterminate sparrows which had nested in the church's belfry, they were attacked in force by the birds and driven from the roof in confusion. Trustees of the church are considering offering a reward for the extermination of the birds.

Honest, at Any Rate. "Am I the first girl you ever loved?" "No, dearie. But I came to this resort with \$300 saved up. I'll cheerfully buy you ice cream and candy until I've spent my wad."—Louisville Courier-Journal. It is the man who does things who is asked to do more things.

# KINGSTON DEPARTMENT

MRS. F. R. BRADFORD, Correspondent and Authorized Agent

## ED. McDONALD

Ed. McDonald of North Kingston passed away at the Sherman Hospital, Monday at 2 p. m. following an operation, for cancer. He leaves one sister, Susan, who made her home with him and four brothers, David, George, John and Wallace. Funeral services were held at the home Thursday afternoon.

Mrs. Wm. Aves was in Sycamore Thursday.

Cecil Hoffman spent Sunday at Monroe Center.

A few from here attended the Burlington Picnic last Saturday.

Miss Lemer Beckner of Belvidere called on friends here Friday.

Mrs. Kate Arbuckle left Tuesday for Rockford to visit two weeks.

Thursday, Aug. 25, the Old Settlers Picnic is held in the Kingston park.

Chas. Stray left Tuesday for Antioch to visit his daughter, Mrs. Ida Britton.

Mrs. Frank Wilson and Mrs. H. G. Burgess motored to Kirklund Monday afternoon.

Mr. and Mrs. Ernest Bozzy returned home Saturday from a two weeks' motor trip.

Last Sunday Kingston won the ball game played with the Dundee Allstars 3-1.

Mr. Scofield, county solicitor of the Rockford Register Gazette, was in town Friday.

Grant Dibble of Kirklund spent last Saturday and Sunday with his sister, Mrs. J. P. Miller.

Miss Christiana Wetz of DeKalb visited last week with Mr. and Mrs. Walter Reuback.

Mr. and Mrs. Frank Shrader motored to Elgin Sunday to visit Mr. and Mrs. Dan McDonald.

Kenneth Turner and Fred Campert of Kirklund called on O. A. Koch Monday afternoon.

Oscar Johnson, Sadie Vosburg and Mr. and Mrs. Arthur Britton motored to Grass Lake Sunday.

Mr. and Mrs. E. E. Bradford and son, Clyde, motored to Chicago Wednesday returning Thursday.

Mrs. J. A. May of Genoa and Mrs. Ida Arbuckle spent Tuesday with their sister, Mrs. S. Witter.

Mrs. Olive Ortt returned home Thursday from several weeks' visit with relatives in Belvidere.

L. Hill has bought the Mrs. Dunbar home of Mrs. Ida Arbuckle and intends to move here this fall.

Mr. and Mrs. Charles Porter of Big Ben, Wis., spent Sunday with Mr. and Mrs. Geo. A. Campbell.

Mrs. Mary Clark left Monday for Fairdale to spend a few weeks with her daughter, Mrs. Lena Kersey.

Willie Smock returned to his home at Albert Stray's after two weeks' visit in Chicago with his sisters.

Nellie Bell of Elgin came Saturday to visit her grandparents, Mr. and Mrs. John Helsing, for three weeks.

Mrs. D. J. Tower left Tuesday with Mr. and Mrs. P. Hildebrandt and son

for "The Dells" to be gone until Sunday.

Mrs. Albert Medine and baby son have returned from the Belvidere hospital where both underwent operations.

Mr. and Mrs. Geo. Winchester and children left Tuesday to visit relatives in Belvidere, Garden Prairie and Beloit.

Mr. and Mrs. P. Hildebrandt and son, Philip, of Grays Lake came Sunday evening for a few days' visit with relatives here.

Miss Lola Wickler of Fairdale and Miss Gladys Montgomery of Genoa called on Mrs. Otto Swanson Friday afternoon.

Mrs. J. H. Uplinger and daughter, Eleanor, Mrs. Ida Moore, Mrs. R. S. Tazewell and daughter, Margaret, motored to Sycamore Friday.

Mrs. W. Ohlmacher and children returned last week to their home in Ottawa after several weeks with her parents, Mr. and Mrs. Thomas.

Last Saturday the Lucas and Vosburg threshing crews had a picnic dinner in the park. They had a ball game, Lucas winning 14-15.

A. J. Lettow and Mrs. Ida Breed motored to Madison Sunday with Charles Banister and sister, Phoebe to visit relatives until Wednesday.

Mr. and Mrs. O. L. Koch of Hampshire, Miss Helen Case of Elgin and Miss Vera Sowers of Genoa called on Mr. and Mrs. O. A. Koch Monday afternoon.

Warren Wilson and daughter, Sena, and D. W. Ball left Friday by auto for Pennsylvania to visit relatives. Mrs. Wilson has been there for several weeks.

Mr. and Mrs. E. E. Bradford and son, Clyde, motored to DeKalb Saturday evening. The former's mother, Mrs. Solon Ashcraft, returned with them and remained until Monday.

Mr. and Mrs. W. H. Bell, Mrs. Marian Marshall, Mr. and Mrs. Frank Gleason and children, Mr. and Mrs. Frank Worden and children had a picnic dinner and supper in the park Sunday.

Mr. and Mrs. O. W. Vickell motored to Kirklund Saturday evening and met their nieces, Ada and Charlotte Lilly of Durand. Miss Charlotte returned Sunday, Ada remaining for a few days' visit.

Mary Spina is at the home of Mr. and Mrs. O. A. Koch and Lillian Powell at the home of Mr. and Mrs. Chas. Phelps. They are fresh air children of Chicago sent out by the city for two weeks.

Mr. and Mrs. B. F. Uplinger, Mr. and Mrs. Leon Uplinger motored to Chicago last Friday and took in the Pageant of Progress, saw the large passenger airplane under motion and other interesting and unusual attractions.

Mr. and Mrs. Marion Arbuckle, Mr. and Mrs. Ernest Vosburg, Philip Arbuckle, Mr. and Mrs. Walter Rankin and children, Mr. and Mrs. Shierk of Genoa spent Sunday with their uncle.

Mr. and Mrs. G. Anderson and daughters returned to their home Tuesday after a week's visit at the C. Coon home.

P. Lehman and family of Malta, Mr. and Mrs. G. Lutz and family of Cortland and Mr. and Mrs. Chas. Hackman spent Sunday at Arthur Hackman's.

Mr. and Mrs. Will Byer and daughter, Miss Alnora Winkelhake, of Chicago, Miss Mabel Schoewe of Chicago, Mrs. H. Bahe and Miss Minnie spent Tuesday at Wm. Japp's.

Mr. and Mrs. W. Coughlin and daughter, Bernidne, motored to East Moline and spent the week end with Mr. and Mrs. N. Snider and E. Lak-in and family, N. Snider and G. Swader returned home with Mr. and Mrs. Coughlin for a week's visit.

**SPEED COP GETS HIM**  
Earl Johnson of St. Charles was picked up in Sycamore Wednesday by the special "speed cop" on charges of violating the motor vehicle law. The officer notified him to appear in court on Thursday, but Johnson, thinking that the matter would soon be forgotten, failed to appear. He was a very surprised man when the officer appeared at his house in St. Charles with a warrant for his arrest. He was brought before Police Magistrate Mitchell in Sycamore and on his plea of guilty was fined \$10 and costs, amounting to \$13.75, a total of \$23.75. A part of these costs he might have saved had he obeyed the first summons and appeared.

**The Candle-End.**  
Burning a candle right to the end is always something of a problem. Try this on the next set. Put three pins into the bottom of each candle, letting them extend out quite a distance. Then set them in the pins on the holder.

Wm. Arbuckle, at his home in West Chicago.

Last Thursday afternoon a miscellaneous shower was held in the basement of the M. E. church for Mrs. Leslie Roser, (Florence Howe). She received many nice presents. Refreshments of sandwiches, pickles, cake and coffee were served.

Mrs. Frank Jackson entertained a few girls last Friday afternoon for her sister, Myrla Armbruster, it being her twelfth birthday. Games were played and refreshments were served. Everyone reported a good time.

Word has been received here of the marriage of Miss Bay Fulkerson, daughter of Mr. and Mrs. Fred Fulkerson, of Milan, Mich. and Mr. Thurlo T. Bodley, Aug. 9. Mr. and Mrs. Bodley visited here this summer at the home of Mr. and Mrs. L. H. Branch.

Mr. and Mrs. Herman Hoppe and daughter, Mabel, and Mrs. Adolph Hoppe and son, Wayne, returned the first of the week from a few days' visit with relatives in central Illinois and Indiana. The trip was via Ford and the farther it went the more snooty it became.

Among those who attended camp meeting from here Sunday were: Mr. and Mrs. Henry Stark and family, Mrs. Mary Clark, Mr. and Mrs. R. S. Tazewell and children, Rev. and Mrs. James and children, Mrs. Olive Ortt, Mr. and Mrs. Frank Wilson, Mr. and Mrs. Frank Parker, Mr. and Mrs. B. F. Uplinger, Mr. and Mrs. Leon Uplinger.

Mrs. Solon Ashcraft of DeKalb, Mrs. D. J. Tower, Mr. and Mrs. E. E. Bradford and son, Clyde, and Mr. and Mrs. F. R. Bradford and son, Marion, attended the funeral of their cousin, Private Clarence Bradford at Elgin Sunday. Private Bradford was wounded and gassed September 18, 1918, and passed away at the field hospital at the front in France the same day.

## New Lebanon

Mr. and Mrs. H. Japp and son, Arlo, motored to Genoa Friday.

Chas. Coon and family left for the State Fair at Springfield Friday.

Mr. and Mrs. John Kruger of Genoa spent Sunday at H. Japp's.

Mr. and Mrs. H. Kruger and daughter, Martha, motored to Hampshire, Tuesday.

Wm. Bottcher and family spent Sunday at the home of A. Vient of Burlington.

Mr. and Mrs. G. Richel, Mr. and Mrs. Roy Glapp of Maple Park spent Sunday at S. Bowers'.

Chas. Coon and family and Mr. and Mrs. G. Anderson and daughters motored to Elgin Friday.

Mrs. E. Washington and daughters of Middleport and Mrs. N. Colton spent Tuesday at L. Gray's.

Chas. Coon and family, Mr. and Mrs. G. Anderson and daughters and Frank Miller motored to Lake Geneva Sunday.

Mr. and Mrs. G. Anderson and daughters returned to their home Tuesday after a week's visit at the C. Coon home.

P. Lehman and family of Malta, Mr. and Mrs. G. Lutz and family of Cortland and Mr. and Mrs. Chas. Hackman spent Sunday at Arthur Hackman's.

Mr. and Mrs. Will Byer and daughter, Miss Alnora Winkelhake, of Chicago, Miss Mabel Schoewe of Chicago, Mrs. H. Bahe and Miss Minnie spent Tuesday at Wm. Japp's.

Mr. and Mrs. W. Coughlin and daughter, Bernidne, motored to East Moline and spent the week end with Mr. and Mrs. N. Snider and E. Lak-in and family, N. Snider and G. Swader returned home with Mr. and Mrs. Coughlin for a week's visit.

**SPEED COP GETS HIM**

The officer notified him to appear in court on Thursday, but Johnson, thinking that the matter would soon be forgotten, failed to appear. He was a very surprised man when the officer appeared at his house in St. Charles with a warrant for his arrest. He was brought before Police Magistrate Mitchell in Sycamore and on his plea of guilty was fined \$10 and costs, amounting to \$13.75, a total of \$23.75. A part of these costs he might have saved had he obeyed the first summons and appeared.

**The Candle-End.**  
Burning a candle right to the end is always something of a problem. Try this on the next set. Put three pins into the bottom of each candle, letting them extend out quite a distance. Then set them in the pins on the holder.

(Continued from Page 6)

At the upper terminus of the six (6) inch sewers, lamp holes shall be constructed by connecting vertically a six (6) inch sewer pipe with the lateral sewer below by means of a "T" branch with the "T" joint at the top of the lateral sewer and the vertical sewer connected therewith and brought to an elevation eight (8) inches below the surface of the ground. On and around this vertical sewer at its top shall be placed a cast iron lamp hole cover consisting of rim and lid weighing not less than one hundred (100) pounds and resting on concrete placed around the vertical sewer to a width of six (6) inches out from the outer wall of the pipe wall. Said concrete shall extend vertically down to the bottom of the lateral sewer. The cast iron lamp hole cover shall be cast from the best quality of gray iron of tough and even grain. The rim shall be eight (8) inches internal diameter, eight (8) inches high with five (5) inch flange. The walls of the rim flanges to be at least three-fourths (¾) inch thick. The lid shall be seven and three (7 3/4) inches in diameter one and one-half (1 ½) inches thick with rough top and be of the closed cover type with one and one-half (1 ½) inch semi-circular open space at edge to allow for opening.

The concrete used in this improvement shall be composed of one part by volume of Portland cement and seven parts of clean bank gravel containing not more than forty per cent (40%) of clean, sharp sand of pebbles less than one-eighth (1/8) inch in diameter. The gravel stones shall pass a screen having opening one (1) inch in diameter. Portland cement shall be of a fine mesh permitting ninety-two (92) per centum to pass through a sieve with one hundred (100) meshes to a linear inch, and test pieces, mixed with one part of cement to three parts of sand shall have a tensile strength of two hundred (200) pounds to the square inch, after being exposed to the air one day and immersed in water six days.

All concrete shall be thoroughly mixed with sufficient water to form a plastic mass and shall be placed in smooth forms. Exposed surfaces in manhole shall be smoothly troweled to flush the mortar to the surface.

The sewer pipe to be used in the construction of said improvement shall be truly cylindrical in shape, smooth and round, thoroughly vitrified and glazed and free from all imperfections, of the hub and spigot pattern. Each length of pipe shall be not less than two (2) feet, and all of said pipe shall be properly laid to line and grade with all joints filled with mortar composed of one part best Portland cement and one part clean bank sand, free from all loam, clay, animal or vegetable matter. The sand and cement shall be thoroughly mixed together dry, in a bed or on a mortar board, and in no case on the ground, so as to show an even color and be free from streaks, and then reduced to mortar by the addition of clean water. The mortar so made shall be used at once and not at all after it once has begun to set.

Sewer pipe shall have not less than the following thickness of shell:

For 8 inch pipe ¾ inch.  
For 6 inch pipe ½ inch.

There shall be house slants or connections for sewer lines of six (6) inch diameter on said sewers, one for each lot, piece or parcel of land or separately owned portion thereof in said sewer district, fronting or abutting on the lines of said tile pipe sewers, not more than sixty-six (66) feet in width, and where said lots, pieces or parcels or separately owned portions thereof, fronting or abutting on the lines of said sewers are more than sixty-six (66) feet in width, there shall be one additional house slant for each eighty (80) feet or major portion thereof, except along the lands of the Trustees of Schools of Genoa Township where one eight inch connection shall be made at the manhole at Oak and Main Streets. Said house slants shall be so placed as to serve at the street line the center of each lot, piece or parcel of land or separately owned portion thereof for which they are placed in the sewer. Such house slants shall be true cylindrical in shape, smooth and sound, thoroughly vitrified and glazed and free from lumps and imperfections and shall be closed with a glazed sewer pipe stopper.

The lines of the proposed sewer shall be connected with the existing sewer at the manholes in the latter in a proper and workmanlike manner, at the points of connection of the proposed sewer lines and existing sewer hereinafter mentioned. All street, avenues and alley surfaces disturbed in the construction of said proposed sewers shall be restored to a condition equal to or better as before being disturbed. Said connected system of sanitary sewers and manholes shall be located, built and constructed, as follows, to-wit:

An eight (8) inch sewer connecting with the existing city main sewer along the North right of way line of the Chicago, Milwaukee & St. Paul Railway Company and intersecting the same on the center line of Spring Street extended Southerly to said intersection, at an elevation of 68.6 feet above city datum to a point on said Southerly extension 150 feet Northerly therefrom at an elevation of 69 feet, from thence Northerly on the center line of Spring Street and its Southerly extension to the center line of the alley in Block 2 of Wilcox Addition at an elevation of 71 feet, from thence West-erly on the center line of said alley to a point 23 feet West of the East line of Oak Street at an elevation of 73 feet; from thence Northerly and parallel to East line of Oak Street to the center line of Main Street at an elevation of 73.6 feet.

A six inch sewer on the center line of Spring Street from the center line of the alley in Block 2 of Wilcox Addition at an elevation of 75.2 feet to the center line on Main Street at an elevation of 82.5 feet, from thence West 100 feet on Main Street at an elevation of 83 feet, and from said Main and Spring Street intersection at an elevation of 83 feet East on Main Street 440 feet at an elevation of 85.6 feet, and from the terminus of the 8 inch sewer at Oak and Main Streets at 73.8 feet West on Main Street 388 feet at an elevation of 75 feet.

Section 5. Distributing water pipes or mains of four inch internal diameter shall be laid on Main Street beginning at the terminus of present main on West Street, thence northerly parallel to West Street to a point 20 feet South of the North line of Main Street, thence West on Main Street and parallel thereto to a point 40 feet East of the West line of Section 19 to Township 42 North Range 5 East of the Third Principal Meridian.

There shall be four two-way hydrants located 13 feet North of said line of mains and connected at right angles therewith with the same size and quality of water pipe as on main line. One of said hydrants shall be located seven feet East of West line of "A" Street, another 7 feet East of West line of "B" Street, another 7 feet East of West line of Oak Street and another at the extreme Westerly end of said water mains.

There shall also be located on said water mains four 4 inch gate valves as follows: one valve two feet West of the turn from north to west at West Street, one valve two feet West of the "T" to the hydrant at "A" Street, one valve two feet West of the "T" to the hydrant at "B" Street and one valve two feet West of the "T" to the hydrant at Oak Street.

The hydrants and valves and valve boxes shall be of standard pattern and equal in workmanship, material and manufacture to the Eddy or Ludlow patterns. Valve guides must be straight and smooth, all face joints of stems must be planed true and smooth in the most workmanlike manner so as to make perfect water tight joints.

The cast iron water pipe and special castings shall be four inches internal diameter, and of first quality cast iron remelted without admixture of chunder iron or other inferior metal and shall be of such character as to make a pipe strong, tough and of sound even grain, free from uncombined carbon when examined under the microscope and as such will satisfactorily bear drilling, chipping and cutting. The pipes and special castings shall be free from sand holes, air bubbles and other defects or imperfections and defective hubs or flanges will be rejected. The thickness of the metal in the shell or wall of the pipe shall be 15-32 of an inch and the weight per 12 foot length shall be 260 pounds. The cast iron pipe shall be laid in a trench five feet below the present surface of the street with joints packed with clean sound hemp yarn, braided or twisted and tightly driven, and then calked with pure soft lead of best quality suitable for calking. After testing the joints the trench shall be refilled and the street restored to its original surface. All cross connections of pipes shall be made with tees or crosses and all unusual ends of pipes or special castings shall be carefully leaded in.

Section 6. The entire improvement provided for in this ordinance shall be constructed under the superintendence and to the satisfaction of the Board of Local Improvements of the said City of Genoa. All material used shall be of the best quality, of a kind especially suited and adapted for the purpose for which it is to be used, and all necessary labor shall be performed in a workmanlike manner.

Section 7. That the recommendation of the Board of Local Improvements of the City of Genoa for the passage of this ordinance and the construction of this improvement, and the estimate of cost of said improvement made by James Hutchison president of said Board, and on the 12th day of August, 1921, presented to the City Council of said City, to be and the same are hereby approved.

Section 8. That said improvement shall be made and the total cost and expense thereof Two Hundred Seventy-nine Dollars and ten cents (\$279.10) shall be applied towards the payment of the expense of making and collecting said assessment, and other lawful cost and expenses of levying and collecting said assessment and making said improvement, necessary and included in said estimate of cost thereof, as provided by Section 96 of said Act, and all amendments thereof relative thereto.

Section 9. That the aggregate amount of said assessment, and also each individual assessment and also assessments against the said City on account of property owned by it, and for public benefits, shall be divided into ten (10) installments in the manner and payable at the times provided by law.

The first installment shall be due and payable on the second day of January next after the date of the first voucher issued on account of work done, the second installment one year thereafter, and so on annually until all installments are paid. All installments shall bear interest as hereinafter provided until paid at the rate of six (6) per centum per annum, from the date of the first voucher issued on account of work done to be filed by said Board of Local Improvements and certified by its Secretary as provided by said Act and all amendments thereof relative thereto, in the office of the Clerk of the County Court of said DeKalb County, said interest to fall due at the times and be collected in the manner provided by said Act and all amendments thereof relative thereto.

Section 10. For the purpose of anticipating the collection of the second and succeeding installments of said assessments bonds shall be issued, bearing interest at the rate of six (6) per centum per annum payable annually, signed by the Mayor and attested by the City Clerk of the said City of Genoa under the corporate seal thereof.

Section 11. That the City Attorney of the said City of Genoa be and he is hereby directed to file a petition in the County Court of DeKalb County, Illinois, in the name of the said City of Genoa, praying that the necessary steps may be taken to ascertain what property will be benefited by said improvement, and the amount of said benefit, in the manner provided by law.

Section 12. All ordinances and parts of ordinances in conflict with the provisions of this ordinance shall be and the same are hereby repealed.

Section 13. This ordinance shall take effect and be in force from and after its passage and approval as provided by law.

Passed and approved by the City Council of the City of Genoa, at an adjourned regular meeting thereof, held upon the 12th day of August, A. D. 1921.

H. A. Perkins, Mayor Protem  
R. B. Field, City Clerk.

Section 9. That the aggregate amount of said assessment, and also each individual assessment and also assessments against the said City on account of property owned by it, and for public benefits, shall be divided into ten (10) installments in the manner and payable at the times provided by law.

The first installment shall be due and payable on the second day of January next after the date of the first voucher issued on account of work done, the second installment one year thereafter, and so on annually until all installments are paid. All installments shall bear interest as hereinafter provided until paid at the rate of six (6) per centum per annum, from the date of the first voucher issued on account of work done to be filed by said Board of Local Improvements and certified by its Secretary as provided by said Act and all amendments thereof relative thereto, in the office of the Clerk of the County Court of said DeKalb County, said interest to fall due at the times and be collected in the manner provided by said Act and all amendments thereof relative thereto.

Section 10. For the purpose of anticipating the collection of the second and succeeding installments of said assessments bonds shall be issued, bearing interest at the rate of six (6) per centum per annum payable annually, signed by the Mayor and attested by the City Clerk of the said City of Genoa under the corporate seal thereof.

Section 11. That the City Attorney of the said City of Genoa be and he is hereby directed to file a petition in the County Court of DeKalb County, Illinois, in the name of the said City of Genoa, praying that the necessary steps may be taken to ascertain what property will be benefited by said improvement, and the amount of said benefit, in the manner provided by law.

Section 12. All ordinances and parts of ordinances in conflict with the provisions of this ordinance shall be and the same are hereby repealed.

Section 13. This ordinance shall take effect and be in force from and after its passage and approval as provided by law.

Passed and approved by the City Council of the City of Genoa, at an adjourned regular meeting thereof, held upon the 12th day of August, A. D. 1921.

H. A. Perkins, Mayor Protem  
R. B. Field, City Clerk.

Section 9. That the aggregate amount of said assessment, and also each individual assessment and also assessments against the said City on account of property owned by it, and for public benefits, shall be divided into ten (10) installments in the manner and payable at the times provided by law.

The first installment shall be due and payable on the second day of January next after the date of the first voucher issued on account of work done, the second installment one year thereafter, and so on annually until all installments are paid. All installments shall bear interest as hereinafter provided until paid at the rate of six (6) per centum per annum, from the date of the first voucher issued on account of work done to be filed by said Board of Local Improvements and certified by its Secretary as provided by said Act and all amendments thereof relative thereto, in the office of the Clerk of the County Court of said DeKalb County, said interest to fall due at the times and be collected in the manner provided by said Act and all amendments thereof relative thereto.

Section 10. For the purpose of anticipating the collection of the second and succeeding installments of said assessments bonds shall be issued, bearing interest at the rate of six (6) per centum per annum payable annually, signed by the Mayor and attested by the City Clerk of the said City of Genoa under the corporate seal thereof.

Section 11. That the City Attorney of the said City of Genoa be and he is hereby directed to file a petition in the County Court of DeKalb County, Illinois, in the name of the said City of Genoa, praying that the necessary steps may be taken to ascertain what property will be benefited by said improvement, and the amount of said benefit, in the manner provided by law.

Section 12. All ordinances and parts of ordinances in conflict with the provisions of this ordinance shall be and the same are hereby repealed.

Section 13. This ordinance shall take effect and be in force from and after its passage and approval as provided by law.

Passed and approved by the City Council of the City of Genoa, at an adjourned regular meeting thereof, held upon the 12th day of August, A. D. 1921.

H. A. Perkins, Mayor Protem  
R. B. Field, City Clerk.

Section 9. That the aggregate amount of said assessment, and also each individual assessment and also assessments against the said City on account of property owned by it, and for public benefits, shall be divided into ten (10) installments in the manner and payable at the times provided by law.

The first installment shall be due and payable on the second day of January next after the date of the first voucher issued on account of work done, the second installment one year thereafter, and so on annually until all installments are paid.
