ON MUDDY DIAMONDS

BOTH GENOA TEAMS LOST THEIR GAMES SATURDAY

Genoa High School team lost its last game of the season Saturday, the husky lads from Dundee yielding the scalping knife. The Rockford team was advertised to appear, but thru misunderstanding the Dundees appeared in the city Saturday morning and as a consequence the Forest City boys were asked to give up the date.

The Genoa High School team lost its last game of the season Saturday, the husky lads from Dundee yielding the scalping knife. The Rockford team was advertised to appear, but thru misunderstanding the Dundees appeared in the city Saturday morning and as a consequence the Forest City boys were asked to give up the date.

It was a snappy game despite the fact that the diamond was a sea of mud, causing the players to slip about and making the ball as elusive as an oyster in a sociable stew.

There is no excuse to make for the home team for Dundee won the game by hard and opportune hits. The Genoa boys played good ball, but could not connect with the little sphere when at bat. Paul Stott sent three long drives to center. Two were pulled down by Heidman, but the third counted as a nice two-bagger. All the boys are improving in batting and it seems tough that they must disband as a team.

The bat offered by Prof. Stout for the one with the best batting average for the season goes to Paul Stott. He was compelled to work for the honor for Frank Wylda was a close second. In fact Frank was in the lead until the last game.

The bat offered by the Republican-Journal for the best fielding average was won by Vernie Crawford, with Geo. Evans second and others closely following.

GENOA-MONROE
Jack's Goats went to Monroe Saturday and were defeated, the score being 4 to 3. The first

game with this team resulted in a victory for Genoa, the score being 2 to 1. It will be seen that the teams are evenly matched.

As in Genoa on that day the diamond was muddy and it must have taken some stiff work to keep the score down. Errors were frequent but not costly.

DEKALB, M. C. A. NEXT

Next Saturday the Goats will meet the DeKalb Y. M. C. A. team on the Genoa grounds. This will be a contest worth seeing. The Y. M. C. A. is the strongest team in DeKalb. Genoa improves, however, with every game and there will be no walk away for either. Game begins promptly at three o'clock. Usual admission fee.

On Sunday the Goats will go to Pecatonica. The team in that city has not been defeated this year, but the chances are that it will have a run for it this time.

CORMACK VANISHES

Indicted for Kidnapping—Under \$3,000 Bonds

The grand jury last week indicted the Rev. J. M. Cormack for kidnapping and placed the bonds at \$3,000. Cormack, however, is not languishing in jail nor has anyone signed the bonds. When he learned how things were going at Sycamore he left his home in McHenry and with his son crossed the Wisconsin state line. At this time nothing has been heard of him.

Sheriff Rompf holds a warrant for his arrest but has not had instructions to secure requisition papers.

In the meantime Cormack's wife and older son are left in McHenry and are being cared for by the ladies of the parish.

Roach-Lyon

Michael Roach of Hampshire and Miss Louise Lyon of DeKalb were married at DeKalb, Wednesday, June 14. They drove to Genoa and left for the west on the 3:09 train.

The bride taught school in this city a year ago and made many friends during her stay here.

Mrs. Roach is one of Hampshire's enterprising young men, being engaged in the livery business.

Odd Fellows Memorial

About forty Odd Fellows attended memorial services at the M. E. church last Sunday morning, in a body. All were laden with beautiful bouquets of flowers which were later placed upon the graves of departed brothers. The sermon preached by Rev. Ream and the lesson read were most appropriate and greatly appreciated by the members present.

Lemon Social

The Epworth League will give a lemon social at the M. E. church parlors next Wednesday evening, June 21. Ice cream and lemonade will be on sale at the booths. No admission fee will be charged. Just a good social time. You are invited.

However, the early bloom does not always catch the nomination.

AFTER LONG ILLNESS

Fred Shultz Died Saturday, June 10, at Home of Mrs. J. M. Harvey

Fred Shultz died Saturday at the home of Mr. and Mrs. J. M. Harvey, aged 18 years, 1 month and 22 days.

Fred John Shultz, son of John Shultz and his wife, Catharine, nee Braum, both deceased, was born April 18, 1887, at Genoa, Illinois. He was christened in the Lutheran church by Rev. W. Steffen May 4, 1887. Both his father and mother died a number of years ago and he and his younger brother, Frank, and sister, Anna, were left orphans.

About one year ago Fred was taken ill with consumption. During the time of his illness he has been cared for at the home of Mrs. Jas. Harvey.

Funeral services were held at the Harvey home Monday forenoon at ten o'clock and at the Lutheran church at 10:30, Rev. J. Molthan officiating.

The remains were laid to rest in the Genoa cemetery.

DROWNED AT KIRKLAND

Peter Olson Met His Death While Bathing in the Kishwaukee

Peter Olson was drowned in the Kishwaukee river near Kirkland Sunday afternoon at about 4 o'clock. He was in bathing with several of his companions, when he ventured to far into the stream and was carried under by the current. His companions heard his cries for help and made an effort to get to him but the current was very swift at this point and carried him beyond their reach.

A searching party was made up of the farmers living in that vicinity and the river was dragged and the body was recovered a few feet from where it went down the last time. A physician was called from Kirkland and after a very careful examination he said that he was dead before he was taken from the water. The remains were taken to Kirkland where the relatives of the young man reside.

Mr. Olson has a brother Charles in Belvidere. News of the sad accident was sent to his parents who live in Sweden.

JUNE TERM ENDED

Circuit Court Business Disposed of—Liquor Cases Ended

The Circuit court, Judge Ruth presiding, began its work Monday afternoon before the petit jury. The case of People vs Charles Davis and Guy Crawford on the charge of larceny occupied the court yesterday, the jury after an hour's deliberation bringing in a verdict of not guilty.

Joseph Smith, Byard Rogers, L. E. Peck and William Herberon, each of whom had been indicted on the charge of selling liquor to minors, plead guilty and were each fined \$20 and costs.

The following common law cases were continued: H. A. Jones vs E. F. Shellaberger, et al; David W. Westgate vs Hiram Ostrander, replevin; Jones & Rogers vs Halver H. Larson, et al, assumpsit; M. L. Campbell vs Edward Ledoyt, appeal; H. H. Freeman & Co., vs F. B. Millard, appeal; Jennie Riddle vs Village of Genoa, trespass on case.

The party that shot or carried away three of my ducks last Sunday will save trouble by calling and settling for same with the undersigned, J. E. COFFEY.

FOUR YEAR COURSE

FINISHED BY FIVE BOYS IN GENOA HIGH SCHOOL

Events of Commencement Week Well Attended and Appreciated—Graduates Acquit Themselves Well

Elmer Harvey, George Evans, Guy Brown, Floyd Mackey and Jesse Little have finished the four year course of the Genoa high school and graduated last week with honors and under circumstances which redound to the credit of the class, teachers and board of education.

The exercises on class night at Crawford's hall were a revelation to the indifferent and a pleasure to those who had been expectant. The program was conducted just as advertised in this paper two weeks ago. Each theme as it was delivered was illustrated by drawings on canvas by the stereopticon. The drawings were all made by the boys. Then the actual machinery was there. Floyd Mackey demonstrated the workings of the steam engine; Jesse Little used a tiny dynamo in explaining his theme, and it actually produced incandescent lights. In electric transportation Guy Brown used a miniature track and car showing the actual workings of the motor. The electric telephone was fully described in every detail by George Evans. It was a most difficult subject, but was handled in a masterly manner. The wireless telegraph demonstration by Elmer Harvey created the most interest, being a very recent invention. His explanation was clear and concise, and the successful experiment he made in sending a message across the room clinched all his arguments.

All this was not drilled into the boys. The apparatus was put up by them alone and everything in connection with the demonstration was the result of their observation and study. It is safe to say that these themes were enjoyed and appreciated more than the old time theoretical essays.

The program at the church was carried out as published. The high school chorus and girl's sextette were well drilled, the music rendered being better than the average chorus work.

The address by Mr. N. D. Gilbert, superintendent of DeKalb schools, was one of the most interesting discourses ever heard in Genoa. Mr. Gilbert is in love with school work, has the interests of all humanity (especially young men and women) at heart and knows what to say and how to say it. His subject "Vitality" was well chosen. He did not dwell at length on intellectual vitality, as one would naturally look for on such an occasion, making it a dry, tiresome lecture. He spoke of the vitality of the body, vitality of the intellect and vitality of character, and demonstrated that life is enjoyed only in proportion to the vitality of the body, mind and character.

Mr. Gilbert paid a just tribute to Prof. Stout and his assistants for the excellent condition of the Genoa school.

Mr. Stout has reason to be proud of the result of his labor in Genoa. He has placed the school on a plane with the best in the county and in doing so has overcome difficulties that would have discouraged many others. Much of the apparatus in the laboratory has been acquired without the assistance of tax payers and this meant extra labor for which he should receive great credit. The Genoa High School is now accredited at the Illinois State University. This fact alone should warm our hearts towards

Prof. Stout and the members of the board of education who have faithfully stood back of him in the good work.

In a short, spicy speech Mr. D. S. Brown, president of the board of education, presented the diplomas.

Mr. Brown and the other members of the board are deserving of praise for the deep interest they have taken in the school. That they have made judicious use of the money at their command is a fact that no one who has looked into the situation can deny.

"THINGS THAT DESTROY"

Rev. T. E. Ream's Topic for next Sunday Evening

A service of unusual interest will be held at the M. E. church next Sunday evening at 7:30, when a sermon on the above topic will be preached by the pastor from the text in Joel 1st-4 v: "That which the locust hath left hath the cankerworm eaten, and that which the cankerworm hath left hath the caterpillar eaten."

The members of the W. C. T. U, and also of the Senior Loyal Legion will attend the services in a body. Next Sunday is Temperance Sunday the world over, and in this service no pains will be spared to make it a time of instruction and enlightenment for the young men and young women and boys and girls of our community.

Special and appropriate music will be rendered by the choir and also by the ladies' quartette. A special invitation is extended to all children of our Sunday schools together with the parents of our homes.

KILLED AT KIRKLAND

Laborer Meets Death Monday Night On C. M. & St. P.

Lee Emerson was killed Monday night about eight o'clock by the east bound passenger train at Kirkland. He was in company with John Binaud a companion. They were employed by the I. I. & M. railroad company and were on their way to the camp about a mile west of Kirkland. They were walking between the double tracks when they were approached by the through freight, bound west, and the first passenger train coming from the opposite direction. The two men laid down between the tracks expecting to escape all danger. Binaud arose unharmed and called to his companion, but on investigation found him mangled and dead.

Early Settlers' Reunion

The annual reunion of the early settlers of the Fox River Valley will be held in Lord's Park, Elgin, Ill., Saturday, June 17, 1905. As heretofore, a basket picnic will be held in the forenoon. At 1 o'clock in the afternoon the meeting will be called to order, at which time an address will be delivered by some prominent early settler of the Fox River Valley. The afternoon will be devoted to sociability and the renewing of old acquaintances.

Butter Again Drops

Butter took another half cent drop today, the official price on the Elgin board being declared steady at 19½. One lot of twenty-five tubs was sold at that figure.

A young man imagines that he is engaged in a game of flirtation until he wakes up and finds himself married.

IT LOOKS PROMISING

PROSPECTS FOR AN ELECTRIC ROAD THRU GENOA

Owners and Contractors of Aurora-Maple Park Line in Town Tuesday to Get Lay of Land

The prospects for an electric road thru Genoa are brighter now than at any previous time. We are not depending upon the word or theory of promoters but have the words of the actual builders and contractors.

The following gentleman came over from Sycamore Tuesday to look over the route: M. Paffrath of Chicago, engineer; W. C. Ross, president of the Ross Construction Co., which is building the road; M. Simmon, a banker of Maple Park, who is financially interested in the road; Fred B. Townsend, Frank Langloy, W. V. Hensie, Geo. Brown, Henry Garbut, J. B. Stephens, E. E. Byn-ton and W. M. McAllister, all of Sycamore.

The road has already been constructed from Aurora to Maple Park, a Kane County town about ten miles southwest of Sycamore. The builders had decided to go from Maple Park to DeKalb and thence to Rockford and secured their charter to that effect. But they have since looked into the possibilities of the new route thru Sycamore, Genoa and Belvidere and it has met with much favor.

In conversation with a reporter for the Republican-Journal, Tuesday, Mr. Ross stated that his company had fully decided to come this way and that the engineer would begin work at once. He also stated that actual work of grading and laying tracks would begin at once. He seemed confident that the line would be in operation before snow flies this fall.

It remains for the people along the proposed right of way to clinch this. Should property owners get it into their heads to hold up the company when it comes to securing right-of-way, the builders may again go back to the other route. If met in a fair manner the road will come thru Genoa.

The Immigration Question

About one million steerage passengers will have arrived in the United States, looking for homes or work, during the fiscal year that ends June 30. This wipes out all past records. The largest number arriving in any previous year was 857,046, during the twelve months ending June, 1903. Now that immigration has reached the 1,000,000 mark, it is small wonder that the authorities are redoubling their vigilance. The time has come to censorize the increasing stream of immigration under rules that will not work with undue harshness and yet fully protect the nation. The portentous feature of the case is that the immense volume of immigration comes largely from southern and eastern Europe, instead of from the sturdier races of the north and west. The latter are still coming, but their number is dwarfed by an avalanche of less desirable immigrants with almost startling averages of illiteracy and poverty.

A small boy was reciting in a geography class. The teacher was trying to teach him the points of the compass. She explained: "On your right is south, your left is north and in front of you is east. 'Now what is behind you?' The boy studied for a moment, then puckered up his face and bawled: "I knew it. I told ma you'd see that patch on my pants."

MODERN WOODMEN PLUMS

National Convention will Pass out Salaries Head Offices

The national convention of the Modern Woodmen society to be held at Milwaukee, Wis., the week of June 19-25th is attracting an unusual amount of attention among the members of the society in this section. Besides the meeting of the supreme legislative body, the Modern Woodmen Foresters, the society's, uniformed rank, will be camped at Lake park, Milwaukee, over 6,000 strong, and during the week will compete in drill competitions for which cash prizes of over \$5,500 and many handsome trophies have been provided.

The election of national officers of the society is not attracting a great deal of attention, from the fact that the present national officers will be unanimously re-elected. There are, however, some fairly lucrative positions to be filled. The office of Head Consul pays \$5,000 a year; Head Clerk, \$4,500; Head Banker, \$3,600; two General Attorneys, \$4,200 each; five Directors, about \$4,000 each; Editor of the Official Paper, \$3,600.

There will be no change made in any one of these offices except that one member of the Board of Directors, Col. C. G. Saunders of Council Bluffs, Iowa, declines reelection, and A. N. Bort of Beloit, Wis., the present Head Banker of the society, being the only candidate for the position, will be chosen to succeed Director Saunders. To fill the vacancy in the Head Banker's office, C. H. McNider, president of the First National Bank of Mason City, Iowa, will be elected. He is the only candidate, and was the unanimous choice of the Woodmen state conventions which met on May 3 last.

Head Consul A. R. Talbot has

been an officer of the society since November, 1890, being at that time elected a member of the board of directors. Two years ago he was chosen head consul to succeed W. A. Northcott of Greenville, Ill., who refused a reelection. Head Clerk C. W. BLACK-DRAUGHT STOCK & POULTRY MEDICINE. This great stock medicine is a money saver for stock raisers. It is a medicine, not a cheap food or condition powder. Though put up in coarser form than Theford's Black-Draught, renowned for the cure of the digestion troubles of persons, it has the same qualities of invigorating digestion, stirring up the torpid liver and loosening the constipated bowels for all stock and poultry. It is carefully prepared and its action is so healthful that stock grow and thrive with an occasional dose in their food. It cures hog cholera and makes hogs grow fat. It cures chicken cholera and roup and makes hens lay. It cures constipation, distemper and colds in horses, murrain in cattle, and makes a draught animal do more work for the food consumed. It gives animals and fowls of all kinds new life. Every farmer and raiser should certainly give it a trial. It costs 25c. a can and saves ten times its price in profit. PITTSBURG, KAS., March 25, 1904. I have been using your Black-Draught Stock and Poultry Medicine on my stock for some time. I have used all kinds of stock food but I have found that yours is the best for my purpose. J. S. HASSON.

ASLEEP IN DEATH

Mrs. John Taylor Succumbs to Paralysis last Tuesday

Hannah Elwell was born in Park county, Indiana, September 25, 1835 and fell asleep in death, June 6, 1905, being 69 years, 8 months and 6 days of age.

In the year 1852, she came with her father's family on a prairie schooner to Illinois, it being before the conveniences of railroads in this part of the country. She formed the acquaintance of her husband, John Taylor, whom she married in Mayfield township, September 30, 1854, shortly after which event they took up their residence on the farm home, three miles south of this village, where three children were born to them, one son who died in infancy, J. E. of this place, and Mrs. Oscar Lucas of Belvidere, Illinois. Sharing the blessings of her motherly care were also a step daughter, Mrs. Roxy McCollom, who passed away two years ago, and a daughter by adoption, Miss May (Brown) Taylor.

Our subject was converted when fourteen years of age, uniting with the M. E. church in which she has labored with eminent success. She united with the class of this circuit, by letter under the ministry of Rev. Wolsey, sometime before her marriage, assuming an active interest from which she never shirked. By labors abundant, as Sunday school teacher of the Primary Department for more than a quarter of a century, she has helped many a life some of whom, who twenty-five years ago were scholars of her class, are now heads of families, whose children were in her class at the time of her demise.

She was devoted in all lines of Christian work and will be missed in the classmeeting where her testimony gave good evidence that her peace was secure. The Ladies' Aid sustains an irreparable loss in her taking away.

She has been for a number of years an active Steward in our church and served in that capacity very successfully.

She made friends everywhere, and having made them she held them. While according to the nature of this life, she was on the decline of life, hers was the sunny disposition that encouraged many a desponding one.

Ever since Methodism has been established in this place it was the prevailing custom of Brother and Sister Taylor to entertain the pastor for the first time. Entering her home you at once felt a hearty welcome and you at once felt that you were in the home of a friend.

Not only does the home, the church and the aid society mourn her loss but the community, with a keenness not to be expressed in words, mourns her departure. He who is above and knoweth all things and who is over all will care for His own, tho we must need inquire how, yet with a confidence in His Omnipotence, we do know He will not permit the work she has begun to suffer. We meekly bow down our heads and say "thy will be done."

Besides the bereaved husband, two daughters and son, the deceased leaves three brothers, John of Oregon, George N. of Boone, Ia., and Hector S. of Ames Ia. and two sisters, Mrs. John Moyers of this place and Mrs. H. H. Yonken of Los Angeles, Cal. She also leaves five grandchildren and two great grandchildren and a host of friends.

The funeral service was in charge of Rev. E. K. D. Hester of Harvard and assisted by Revs. Hitchcock and Clay.

Just What Everyone Should Do

Mr. J. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt for a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's colic, cholera and diarrhoea remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by Hunt's Pharmacy.

Died at DeKalb

Mrs. Gust Stroberg, daughter of Mr. and Mrs. Alfred Nelson, died at her home in DeKalb last Wednesday. The funeral service occurred Friday.

"Don't you think that young man is afflicted with a swelled head?"
"No, indeed. He's not afflicted with it; he enjoys it."

A New Name For Horns.
Not long ago a goat was purchased by Dr. Cartwright for his children's amusement. The afternoon of its arrival little Margaret, aged three, went out in the yard to where her brother was playing with the new prize and after a brief inspection of the animal exclaimed: "Oh, George, let me hold his handle bars!"—Lippincott's Magazine.

More Fun Than Swimming.
Talk about your summer time, With swimmin' holes an' slick! 'Tain't in it with the winter time, For then the sport is rich. A-castin' down the slippery snow, Your stummick on a sled, Your heels a-stickin' up the hill, While downhill hangs yer head.

DOWN THE HILL.
The only part 'at I don't like Is walkin' up the hill To go a-scootin' down ag'in, For you never git yer fill Of outtin' through the frosty air When the snow is hard an' white, But gain' up ain't such a snap, Though downhill's out o' sight.

Weekly Market Report

Furnished by Russell, Freeman & Co., Livestock Agents, Union Stock Yards, Chicago. Corrected every Week

Receipts of cattle the first two days of this week are 27,500 and while the good grades held steady the medium and grassy kinds ruled dull and low. We quote:

Fancy finished heaves	5.75 to 6.25
Good to choice steers	5.10 to 5.50
Fair to medium corn fed steers	4.50 to 5.00
Common quality and fed steers	3.85 to 4.40
Fancy well finished yearlings	5.00 to 5.50
Good to choice yearlings	4.15 to 4.85
Good to choice feeders	4.25 to 4.85
Fair to good feeders	3.75 to 4.15
Common light stockers	2.90 to 3.60

There is a fair supply of butcher stuff and the market has been dull at barely steady prices. Texas cattle are coming freely and when buyers can secure the good kind of Texas steers weighing from 900 to 1100 lbs. at 3.60 to 4.15 and meal fed Texas at 4.25 to 4.40 the outlook is not promising for any reaction on the grassy kinds of butcher stuff. We quote:

Choice to fancy heifers	4.60 to 5.00
Good to choice heifers	4.00 to 4.50
Medium to good heifers	3.40 to 3.85
Common heifers	2.50 to 3.25
Choice, heavy export cows	4.00 to 4.40
Good to choice cows	3.40 to 3.85
Medium to good cows	2.85 to 3.25
Common cows	2.25 to 2.75
Canners	1.25 to 2.00
Good to choice export bulls	3.75 to 4.25
Fair to good bulls	3.40 to 3.65
Bolognas and common bulls	2.60 to 3.25

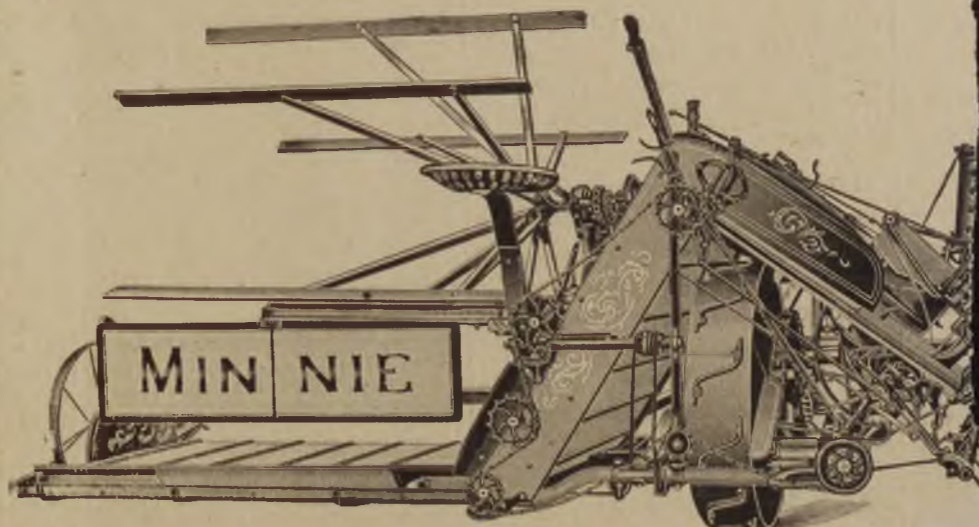

Receipts of hogs for the first two days of this week are 58,000. There has been but little change in the general market. Tuesdays market opened steady but closed weak. As long as the good shipping demand continues we do not look for much lower prices. We quote:

Mixed	5.25 to 5.32½
Mediums	5.30 to 5.42½
Heavy packing	4.50 to 5.25
Selected heavy shipping	5.30 to 5.40
Selected light (170 to 180 lbs. av.)	5.30 to 5.42½
Little pigs	5.00 to 5.30

The Weekly Fashion Letter

A new rainbow shot silk in many harmonies is indescribably beautiful, reminding one of the skies at sunset. Cotton voiles are among the new things in tub materials, and crepe de chine, patterned with spots and lozenges, is a great deal used for summer gowns.

Crewel work is coming in. The woman who is good at this art will find that "time is money," for some of the most effective and elegant gowns of the season are of crewel net and lace with broderie a la Persee, which, in other

sleeves. The making of a mitten is a difficult undertaking, as it must fit even more perfectly than a glove. Many of the new mittens will be made of the finest and most expensive lace.

Dotted swiss and point d'esprit net are very much used for yokes and banded trimmings on thin gowns. The dots form the central idea for hand work, and around these circles daisy petals are embroidered with mercerized cot-

SARTORIAL CHITCHAT.

There is a difference, which has been very satisfactorily explained, between the new laces and embroideries— "When the lace is on the embroidery it is classed as embroidery; when embroidery is on lace, as lace."

Smart new bolero coats have double breasted effects across the bust. They have roll collars or revers that extend around the neck and form a V or U shape below the bust. The cloth of the

Persian lawn, Paris muslin and bobbinette all vie in favor with organdie and chiffon. Silk is too elaborate and old unless it be a simple dress of white china silk.

A gown of china silk is very dainty made with a full gathered skirt trimmed with tucks running above a deep hem almost to the waist line in graduated widths from two to a half inch deep. The bloused waist is tucked horizontally above the deep girder to within an inch of the round yoke of val lace. The elbow puff sleeves are finished with two very full tucked ruffles.

This idea might be carried out in any of the above mentioned tub materials and varied by putting insertions of lace between the tucks.

Gloves and shoes worn with the graduation costume will of course be white, the gloves long mousquetaires and the shoes or slippers of suede or soft white kid.

The gown pictured is of white Persian lawn. On each of the three ruffles forming the skirt are rows of lace insertion scalloped on the edge. The yoke and choker are made of herring-boned bands of lawn, mingled with a scroll design of lace. The sleeves are made of alternating puffs and bands of insertion to the elbow.

FROCK OF FILET NET.

words, is bunches of flowers in variegated shades of very fine silk embroidered on skirt and bodice.

A smart white linen frock has large bunches of field flowers worked in very coarse silk on the front width of the skirt and center of blouse. A white linen sunshade with design to match and a crimson French sailor hat with wreaths of poppies made an effective, if rather daring, costume most becoming to a brunette.

The gown illustrated is of filet net. The skirt has a hem of white lawn applied with a puffed design of the net. Above this flounce are tucks and bands of the lawn. The plain material also makes the natty little short coat.

LACES AND EMBROIDERIES.

Mittens will be popular this summer worn with the fashionable short

GRADUATION GOWN OF SWISS.

ton. Other conventional patterns are formed by ray-like lines of fine catch stitching.

Colored linen frocks will be fashionable for early afternoon wear made with short jackets. They are rounded in front and do not meet by three inches. The back is slightly cut up, and the sleeves are elbow affairs finished with a ruffle or slight flare. The neck is finished with a rather deep turnover collar made of the jacket linen or of a contrasting color. It is usually scalloped or embroidered at the edge.

Very pretty is the graduation dress, illustrated. Fine dotted white swiss goes into its makeup, which is simple in the extreme. Two straight ruffles trimmed with a single row of lace insertion are shirred on the skirt. The ruffles are a little deeper in the back than in front. The surplised waist has a pointed yoke of lace, and the three-quarter sleeves end in a deep ruffle.

Painting and decorating

Will furnish estimates on all kinds of work, including outside painting, interior decorating, paper hanging, graining and frescoing.

A practical woman remarked the other day, says an exchange, that the most interesting things in the newspapers to her are the advertising columns. "Long ago," said she, "I quit buying of those who did not advertise. It always seems to me that the merchant who advertises invites me to trade with him; while the one who does not advertise impresses me with the idea that he doesn't care enough for my trade to ask for it. Then, too, I have found that the merchant who advertises has fresher goods, for one reason, I suppose, he sells more."

Of all overworked women probably the farmer's wife is the hardest worked. She has so much to attend to with very little help. Hard work can be very much lightened if she knows the value of system and she should try and take a short rest in the day time. A physician who has become famous almost around the world, Dr. R. V. Pierce, of Buffalo, N. Y., the specialist on women's diseases, for many years practiced medicine in a prosperous farming district in Pennsylvania. He there observed the lack of system in the planning of the work.

If it is a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation should be treated steadily and systematically.

Backed up by over a third of a century of remarkable and uniform cures, the proprietors and makers of Doctor Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Protrusion, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

One more week of school and vacation will be most joyfully welcomed by the children who do not enjoy the confinement of the school room during these warm June days.

The Epworth League will give a Ben Hur entertainment at the Davis church, Monday evening, June 10. Belvidere talent is the attraction and the admission fee is 25 cents. Come out and enjoy yourself and help a good cause.

Death of George Wait

George Wait passed away at his home one-half mile west of Herbert, Wednesday evening, June 7, at 8 o'clock, after a long illness.

Chronic pneumonia was the cause of his death and for two months he had been very ill. Everything medical science could do was done to prolong life and for weeks his family and trained nurses have ministered to his wants, patiently and lovingly hoping each day would bring some improvement but he grew steadily weaker until the end.

Life was very dear to him, having much to live for and talking cheerfully and confidentially of recovery, expecting to try even a more congenial climate as soon as he was able. It was but a few hours before death that he realized the end was near, being conscious and able to converse with those about him until the end when he peacefully passed to his rest.

Geo. Wait was born 38 years ago in the house where he died, which was known as the Wait homestead. His parents were pioneers of Boone county. His wife was Miss Kittie Iles of Belvidere and she with four sons, Guy, Donald, Cecil and Lyle are left to mourn the loss of a kind husband and father, he is also survived by four brothers and two sisters. They are Fred, Judson, Scott, Will, May and Grace.

The life thus closed was one of energy and activity and he accomplished more in 38 years of

his life than many men do in twice the years. He was a prosperous farmer and the owner of several fine farms near Herbert and also was a prominent horse buyer and was known for miles around as an excellent judge of horses. As a citizen and neighbor he had the respect of all and will be greatly missed.

The funeral which was in charge of the Woodmen was held at his late home Saturday afternoon at 2 o'clock. Rev. Reese of Canton, Ill., a former friend of the deceased spoke words of comfort and consolation and Miss Alice Davis sang many sweet and impressive hymns. There was a large attendance and the floral offerings were very beautiful. The Royal Neighbors showed their sympathy by attending the services in a body.

The pall bearers were S. Powell, I. Witt, C. Myers, F. Winne, J. Thurlby and F. Hammond. The burial took place at North Kingston cemetery.

In the silent city at the open grave the darkened sky and lowering clouds seemed to reflect the sorrow and anguish of those who were parting with their dearest. The Woodmen spoke words of farewell and dropped flowers upon his casket, and Miss Davis Good Night and they left him asleep.

"From hope's high firmament a bright star fell,

A deep, bark loneliness environs the hours.

There is much amid this speechless spell

That is left to tributes of tears and flowers,

The unfolding of life auspicious and well,

And back of our tears doth abundant lie,

The story of sorrow that words cannot tell."
