EXCHANGE GLEANINGS

ITEMS OF GENERAL INTEREST TO GENOA AND VICINITY

School House at Byron Burns—Kirkland After System of Water Works—Another Corn Shredder Victim.

A number of Elginites are sleeping out-doors, taking the cold air cure. They claim to be much benefited in health.

A meeting of the citizens of Kirkland was called last Friday evening to consider the proposition of a system of water works for our village.

East Smithfield, near Canton, has 25 cases of small pox. The village is abandoned. It was spread by a pet dog climbing onto the bed of a sufferer and then running at large.

The ministerial association of Freeport is again after the sports and saloon keepers with the whip of the law. Thursday afternoon warrants were sworn out and served on five men charged with gambling and twenty-four saloon keepers charged with keeping their places open on Sunday.

J. A. Rehm, a young farmer living south of Roscoe, and son of Jacob Rehm, a prominent Chicago millionaire and brewer, narrowly escaped death Friday from a corn shredder accident. As it was he lost his left hand and his arm was so badly mangled that it was found necessary to amputate it at the elbow.

The tenth annual round-up of the Illinois Farmer's Institute will be held in Joliet, Tuesday, Wednesday and Thursday, February 21, 22 and 23. This institute was created by an act of the thirty-ninth general assembly and is a general round-up of each year. In the agricultural line it is the most important of all conventions held in the state annually.

The six-room school building in the village of Byron was totally destroyed by fire late Friday afternoon, entailing a loss of about \$9000, on which there was \$6000 insurance, carried by the German, of Freeport. The 300 pupils in the building were all gotten out safely, only a little over two minutes being required to empty the structure.

A man in a neighboring town applied for a divorce because his wife would get drunk. The judge turned him down because of insufficient grounds, ruling that a woman has quite as much right in law to get drunk as a man, and what is a common offense among men shall not be made an excuse to punish a woman. So we see sometimes the pinching shoe gets on the other foot.

The farmers in the vicinity of Millington have been looking over the question of putting up an elevator at that place and on Saturday held a public meeting to discuss the question. About one hundred were present and organized and appointed a committee, of which Walter Finnie was chairman to look up the matter. Many expressed themselves as willing to subscribe for stock in the business.

An Iowa schoolboy was asked to write a composition on Russia and wrote as follows: "Roosy is bounded on the north by ice, on the east by trouble, on the south by mobs and the Sooez Kanal, and on the west by England and Kipling. At the present time the country has cold feet and the imperer has cold chills running down his back and is afraid someone is after him with knives and bums—they throw lots of bums in Rooshy. Finland is a part of Rooshy and its people are called Fins because they are so many fish."

HER BIRTHDAY

Of Which Mrs. Ash Hewitt is Reminded by Friends

Last Saturday was Mrs. Ash Hewitt's birthday anniversary. Several friends being cognizant of the fact prepared a surprise and as a result Mrs. Hewitt with great pleasure entertained a number of uninvited guests on that day. It was supposed to be a party for ladies only, but it seems that Wm. Watson was smarting under a disappointment of the day before and to get even mixed up with the gathering. It is said, however, that he got his just deserts for the rash act. He received a warm reception. Despite the fact that the festivities were marred by the presence of a man everybody enjoyed the event. Mrs. Hewitt is acknowledged one of the best entertainers that ever welcomed a visitor at her door. Mr. Hewitt says that the ladies put up the finest dinner that ever happened—and Ash is a judge of such things.

Joseph G. Cannon was fourteen years old when his father was drowned, and his school life ended. He became a clerk in a country store, and by the time he was 19 he had saved \$500. He then studied law and was admitted to the bar. He was elected to Congress, once defeated, and has been regularly elected for nearly twenty years, and is now speaker of the house, and popular as any speaker has ever been. Those who climb the ladder of success must begin at the bottom.

WORSHIP IN SONG

Extraordinary Service at the M. E. Church Next Sunday

Sunday will be a day of joy and exultation for all worshippers at the M. E. church. A call has gone forth to all M. E. churches in the world to observe Sunday morning, Feb. 12 for a "Lincoln's birthday service," and such a service will be observed in the Genoa church on Sunday morning at 10:30 o'clock. Rev. T. E. Ream will preach the sermon and some special music prepared for the occasion by the Freedman's Aid Society will be rendered.

In the evening the entire service will be in song. It will be a service of true worship and reverence all attuned to music. The talent rendering the program will be all home talent, and the best in our community will add something to the evening's program.

The service will consist of hymns by the choir and congregation, with the hymnology given by the pastor of the church.

There will be anthems rendered by the choir, and solos, duets, trio and quartette work given by both male and female voices.

The public is very cordially invited to take part and attend both the morning and evening services.

There will be a rehearsal at the M. E. church Saturday evening and a full attendance of those who take part is desired.

AN AGREEABLE SURPRISE

Mrs. Wm. Watson Invites a Few and Entertains Many

Last Friday, Feb. 3, was the 15th anniversary of the marriage of Mr. and Mrs. Wm. Watson, and to celebrate the event in a modest way Mrs. Watson invited in a few of her friends to spend the day. Mr. Watson being in Elgin, his wife had no intention of making any great demonstration. What was her surprise then to see a whole house full of ladies come in instead of the few? It seems that the daughter had taken a hand in the affair and made the invitation more general. It was a most jolly party. Mr. Watson is still wondering, however, where he comes in. The ladies left several pretty gifts as souvenirs of the occasion.

PUT BAN ON SHREDDER

Wisconsin Legislature Prepares to Enact Law to Regulate Construction

The Wisconsin legislature is going after the deadly corn shredder and a bill has been introduced in the legislature which, if passed, is thought will prevent all fatalities. The bill provides that no person or corporation shall manufacture for sale, sell or use, any machine or device to be operated by steam or other power for the purpose of husking corn or shredding unless that machine is so guarded that all persons operating it shall be compelled to stand at least six and one-half feet from the snapping-rollers, and every machine must have convenient to the operators at all times a stick at least five feet long or other device for freeing the snapping rollers in case of clogging.

A further provision is made that no machine shall be sold or offered for sale unless it has marked upon it in plain letters the name and location of the persons or firm manufacturing it.

ELECTRIC ROAD TALK

WOODS SAID TO BE FULL OF PROMOTERS

Thru it All Genoa Seems to be the Point of Observation—Sycamore and Hampshire Busy

During the past two weeks the newspapers thruout this section have been teeming with electric road news, but after all has been said no definite information can yet be given out.

The business men's club of Sycamore is working to secure the right of way north to Genoa while the Genoa Business Men's Association has volunteered to do its share in securing options on land which lay in the proposed right-of-way. The options which have been signed thus far will expire May 1, by which time property must be purchased. The options also require that the roads must be completed on or before Jan. 1, 1906.

Of the 31 owners of land which will be needed, seven had donated their land last week, says the True Republican. These pieces range in acreage from 1/4 of an acre to 1 1/2 acres each, a total of 4.75 of the total 26 acres required. Nearly all except these ask \$100 an acre for the land which is wanted. Three owners whose land would be divided ask damages, besides pay for the land.

Following are the names of the owners of property thru which the road would run between Sycamore and Genoa: Lane, Langlois & Knipp, P. Van Galder, J. B. Westlake, W. Williams, Henry J. Stark, N. Peterson, V. Carlson, Charles Swanson, Swanty Anderson, Carl Bjorkman, Fred Maxfield, Anna Maxfield, George Maxfield, M. H. Westlake, Chas. Davy, Mrs. Henry Wood, Sergius Lloyd, A. F. Park, Franklin Hall, Sone Johnson, Otto Peterson, J. W. Brown, A. H. Pond, Andrew Peterson, George Eichlor, George White, F. Renn, Mrs. Renn, Mrs. Patterson and George Brown.

A number of these property owners object to the location of the road. The route proposed would locate the road at the back of most of the farms, from one-quarter to half a mile from the residences. On the other hand, the railway people maintain that the route by the highway would be much more expensive to build and to operate because of the hills and grades and also because

there are frequently dwellings or barns near the highway which would be interfered with. The highway route would also be longer.

Regarding the proposed route between Elgin and Genoa the Elgin Courier has the following to say:

Right of way thru the Anderson property, west of Wing Park, is the first strip secured at the Elgin end of the proposed Elgin-Belvidere electric line. Theodore Getzelman of Hampshire is doing the work. Before starting on the Genoa connection Mr. Getzelman will work all the territory between Elgin and Hampshire. Farmers whose land will be affected discuss the proposition morning, noon and night. Visions of a new era in farm life loom up on the third rail horizon and the tiller of the soil is counting the days when he will grind his feed by electric aid, send his children to school on the electric car and light his house by electricity.

When interviewed concerning the Elgin-Belvidere connection, Mr. Getzelman said:

"Yes, it is true I am getting right of way privileges, but I am not positive whether the Carpentersville line will be extended through Algonquin, Crystal Lake and Marengo in making the Belvidere connection, or whether the Wing street route will be decided upon. It is no secret that I am working toward my home town, Hampshire, via McQueen and Stark Station, and eventually we will reach Genoa. I find that the majority of farmers isolated from towns and cities are anxious to have an electric line in proximity. That disposition to hold up a railway company for big concessions still exists, but in many instances it is possible to convince the farmer that it will make life easier for him if he encourages the improvement. I am afraid the members of the Elgin country club will have to move their grounds if they expect to enjoy the privileges of rapid transit to and from Elgin. Indications are now that Wing Park will be very near the new road."

FINISHED TO KIRKLAND

Last Connecting Link in Rails Between the Village and Aurora Installed

The last rail has been placed and the last spike has been driven on the I. I. & M. road between Kirkland and DeKalb and now the latter place has direct connections over the new road to the depot at Kirkland, says the Belvidere Northwestern. This last piece of track is an extension from the "Y" which has been constructed at that village.

The depot there is being finished on the exterior while on the interior the offices are being papered and painted and made ready for occupancy.

The work and gravel trains are busy every day hauling sand and stone to fill in at the cuts and to ballast the track. All lines of work are being pushed as rapidly as possible and in spite of the severe weather of the past few days there has been no cessation of labor.

Above Kirkland no actual track building or ballasting has been done. Surveys, however, have entered Rockford, it being stated that the route will run into the city just south of the C. B. & Q. line. Some claim that the road will enter the city over the tracks of the Milwaukee road. At New Milford the survey stakes run to this line and stop, and it has been surmised that they intend to connect at this spot, but what the definite plans of the company are is not known.

MARENGO IS DEFEATED

BOTH TEAMS VANQUISHED BY GENOA ATHLETES

Marengo Plays Good Game but Genoa Plays Better—Belvidere and Genoa Tonight

Those who went to the hall last Friday evening expecting to see the Genoa high school teams defeated were sadly disappointed, for at no stage of the game was the local banner in danger of being dragged in the dust. The Marengo teams were made up of nice gentlemanly fellows and clean players, but they lacked the strength of the home players.

The first game, between the second teams, was a one-sided affair, the locals having the visitors entirely at their mercy. The Genoa second team has not lost a game this season and evidently intend to retain the honor of being the "undefeated."

The first half of the game between the first teams was rather slow, but in the last half the Genoas woke up and went after the goals with a vim that threw the visitors off their feet. Few teams could score against such playing.

Following was the line-up and score:

GENOA	FIRST TEAM	MARENGO
Evans	rf	Seward
A. Crawford	lf	Robb
E. Harvey	c	Ocock
Downing	rg	Betts
Mackey	lg	Smith

Field goals for Genoa—Evans 5, Crawford 1, Harvey 10; for Marengo—Seward 3, Robb 2, Ocock 4; free throws for Genoa—Crawford 4, Evans 3; for Marengo—Seward 7. Score—Genoa 39, Marengo 25.

GENOA	SECOND TEAM	MARENGO
Guy Brown	rf	Bennett
V. Crawford	lf	Patrick
Paul Stott	c	Stull
C. Harvey	rg	Hagan
Little	lg	Jobe

Field goals for Genoa—Brown 5, Crawford 2, Stott 4; free throws—Brown 4, Crawford 4; Stott points 2; field goals for Marengo—Patrick 2, Stull 1; free throws—Patrick 6. Score—Genoa 32, Marengo 12.

Field goals for Genoa—Brown 5, Crawford 2, Stott 4; free throws—Brown 4, Crawford 4; Stott points 2; field goals for Marengo—Patrick 2, Stull 1; free throws—Patrick 6. Score—Genoa 32, Marengo 12.

BELVIDERE NEXT

The game this (Friday) evening promises to be the fastest and most interesting of the season. Both the Genoa boys' and girls' teams were defeated at Belvidere, but there will probably be a difference in the way the score stands tonight. Belvidere has the best teams in the business, but if there is no mistaking the look of determination in the eyes of the local players the Belvidere teams are hereafter "among the best." It will be a contest worth seeing. If you have never seen a game of basket ball this will be a good game for the initiatory.

Frozen to Death

Mrs. Jackson, a woman 61 years of age, was found frozen to death a few miles east of Sycamore Monday. Mrs. Jackson lived alone and was in good health as known. It is thought she got up in the night and going out of doors missed her bearing in the dark and failed to get back to the house. Living alone no one missed her and she lay there until forenoon Monday, when she was discovered. She had been dead several hours.

BECKER-BUERER

Another New Lebanon Young Man Takes a Bride

On Sunday, Feb. 5, at twelve o'clock, noon, at the German Lutheran church in this city occurred the marriage of Mr. William F. Becker and Miss Mary A. Buerer, Rev. J. Molthan pronouncing the words that tied the nuptial knot. They were attended by Messrs. Herman and John Becker and Misses Alvina Schmidt and Alvina Boettcher. The wedding festivities followed the ceremony at the home of the groom in New Lebanon.

The groom is an industrious young man, being a son of Mr. and Mrs. J. H. Becker of New Lebanon. The bride is the daughter of Mr. and Mrs. Samuel Buerer of Hinckley. She is possessed of the qualities that make up the ideal housewife. Mr. Becker was wise in his choice of a life partner.

They will make their home with the groom's parents.

BUTTER JUMPS

Advances Two Cents on Elgin Board of Trade Monday

Butter prices went soaring on the Elgin board of trade Monday, the quotation committee finally fixing the official market firm at 31 cents.

The creamerymen were out in goodly numbers, although the snow of Sunday was largely in evidence, which naturally did not increase the output of milk. The fact seems to be that winter production is more than a month late this season. This applies to whole milk particularly. Outside markets reported higher everywhere, with very light supplies.

No goods were on sale, orders more than enough to take all the supply.

Frank Yates, the Belvidere auctioneer, has the following sales for the month of February:

- Feb. 1. Peter Nelson, 3 miles east of Genoa.
- Feb. 6. Charles Corson, 4 miles north of Genoa.

Perfect Confidence

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by G. H. Hunt.

For Highway Commissioner

I hereby announce that I am a candidate for the office of highway commissioner of the town of Kingston and respectfully solicit the vote of my friends at spring election.

To Guess Any Number Thought Of.
 This is done by multiplying the last number by 2. Ask some one to think of an even number. Tell him to triple it, halve the product, triple the half, then tell you how many times 9 goes into it, and you will tell the original number.
 Suppose 8 be the number. Triple this, and the result is 24. Halve this, making 12. Again tripling this gives 36, into which 9 goes four times. This four times multiplied by 2 gives 8, the number originally thought of.

Spanked.

I guess my mamma 'd feel real bad And cry and go round awful sad If I'd run 'way away!
 I guess she'd be real sorry then, And never laugh nor smile again. I guess I'll go today,
 'Cause I've been spanked!

I guess my mamma 'd go 'most wild And wish she had her dear, sweet child, If I'd lie down and die!
 I almost cry myself to think Of me, real dead, dressed all in pink. I'll lie right down and try,
 'Cause I've been spanked!

Grave Trouble Foreseen

It needs but little foresight to tell that when your stomach and liver are badly affected grave trouble is ahead unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y. did. She says: "I had neuralgia of the liver and stomach, my heart was weakened and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. FOR THE LITTLE ONES.

A Coin Trick That Is Good For Lots of Fun at a Party.

Begin this trick by remarking how very easily a wetted silver dime will adhere to the forehead and say you will wager any one that after you have applied it to his forehead he cannot "wrinkle" or shake it off without touching it with his hands. You may give a little illustration by damping a coin with the tongue and sticking it to your own forehead, then making a great fuss of working your face to dislodge it. Naturally it falls off after a short time. Some one is sure to take up your wager.

Start by putting the dry coin to his forehead, then taking it off to damp. Instead of doing so you, unperceived, wet the tip of the middle finger of your right hand and apply it to his forehead as if it were the coin you were sticking on. Now take away your hand, carefully concealing the coin. The fun then commences. Your friend imagines the silver is on his forehead and tries to work it off, his friends meantime encouraging him to persevere, and so the fun goes on until it dawns upon him that he has been "fooled." Now is the time to get out of his trap.

A LITTLE NONSENSE.

Bright Sayings From the Mouths of the Rising Generation.

Small Harold after sizing up the new baby said, "Well, that kid hasn't got any hair to comb, but he's got an awful lot of face to be washed."

Mamma—Do you love your teacher, Tommy?
 Tommy—Yes, mamma, but I don't want you to tell her.
 Mamma—Why not?
 Tommy—'Cause she might sue me for breach of promise.

Visitor—Well, my little man, have you any brothers?
 Bright Boy—Yes, ma'am. I have one, but my sister has two.
 Visitor—Why, how's that?
 Bright Boy—She has me and my brother.

Explained.

John Jones on his stenographer With best of reason notes: She's the only living person who will take from him his notes! The others demand cash.

And for another reason, too. He swears that she is great; She's the only woman in the world To whom he dares dictate! He's married.

AT A WALL STREET CORNER.

At the corner of Wall street and Broadway the other day I was stopped by an acquaintance, who buttonholed me and was endeavoring to demonstrate how I could make my everlasting fortune by buying copper or something. A rapidly moving stream of men, with eager, constrained faces, jostled us about until we found a precarious footing in the gutter. Messenger boys were bolting here and there among the legs of the pedestrians, a motorman was banging his gong like all possessed to scare a truckman off the track; newsboys were yelling: "Extree!" "Extree!" and presently a big auto bowled along the street snorting like a dragon, while the chauffeur's warning trumpet gave forth numerous horrible snorts. In the meanwhile a huckster on the opposite corner, with a pile of paper covered books, was yelling: "Here, gents! 'The Simple Life!' Only 10 cents! Read 'The Simple Life,' by Wagner."—Brooklyn Life.

Doctor Knew It Could Not Be.

Dr. W. W. Keen, the Philadelphia surgeon, has a number of scrapbooks filled with anecdotes about physicians. These anecdotes are odd from the fact that they all throw upon physicians a most unflattering light. To illustrate their character Dr. Keen quoted one of them recently.

"A physician was driving through the street," he said. "A friend stopped him.

"'Doctor,' said the friend anxiously, 'have you heard that horrible story about Williamson?'"

"'No,' said the doctor. 'What story is that?'"

"'A story to the effect that he was buried alive.'"

"'Buried alive?' said the doctor. 'Impossible. He was one of my patients.'"—Collier's Weekly.

An Australian Telegraph.

It is not generally known, according to the Indianapolis News, that there is a telegraph across the southern desert land of the Australian continent 2,000 miles in length. It runs partially through an uninhabited country and long tracts of waterless desert. While it was being constructed more than 2,000 tons of materials had to be carried far into the interior, and many of the iron and wood poles were conveyed 400 miles. A recent report says that the wear and tear of this telegraph construction has been inconsiderable, but there is great difficulty found in supplying the stations across the desert with operators.

Silkworm Weavers.

Some ambitious silkworms of the neighborhood of Venice have woven by themselves a ribbon three yards long and three inches wide. When they reached the chrysalis stage, according to the Indianapolis News, instead of weaving round cocoons on the twigs prepared for them they preferred to travel up and down the smooth upper side of a strip of wood nine feet long and three inches wide. Back and forth they went, spinning their silken web until at last they made a beautiful ribbon, transparent in its center and golden yellow at the heavier edges. The scarf is amazingly strong for a fabric so delicately woven.

Fraud Exposed

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit through stealing the reputation of remedies which have been successfully curing diseases for over 35 years. A sure protection to you is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are imitations. H. E. BUCKLEN & Co., Chicago, Ill., and Windsor, Canada.

FOR THE LITTLE ONES.

Good Manners of the Children of Two Centuries Ago.

In 1701, two centuries ago, the boys and girls had most courteous manners. If comparisons were made between the "then and now," there is little doubt that the child of long ago would be accorded first place. Here are some of the instructions as laid down by the fashion of the time and published in a book for children:

Never sit down at the table until asked. Ask for nothing. Tarry till it be offered there.

Speak not. Spit not, cough not nor blow thy nose at the table if it may be avoided. If there is great necessity, do it aside and without much noise.

Lean not thy elbows on the table or on the back of thy chair. Stuff not thy mouth as to fill thy cheeks. Be content with smaller mouthfuls.

Blow not thy meat, but, with patience, wait till it be cool.

London Neglects Shakespeare.

London has never had a memorial to Shakespeare. Recently a resident of that city offered to donate \$12,500 toward the purpose if the county council would accept a financial responsibility in the undertaking and secure other contributions. This the council declines to do, and, as much as it appreciates the fitness of thus honoring the greatest of English poets, some one else must guarantee the full funds before it will entertain the provision of a site. Meantime the city which Shakespeare so highly honored will ignore the wishes and generosity of those who would respect his memory and confine its one public testimonial to the poet to the little bust in Westminster abbey.

Poisons in Food

Perhaps you don't realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of undigested food—or money back. 25c at Hunt's Pharmacy. Try them.

When You Have a Cold

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by G. H. Hunt.

The Czar's Costly Relatives.

The list of the czar's relatives includes a brother, an uncle, four cousins of the first degree, ten of the second, thirteen of the third and a greatuncle. All of these except the thirteen cousins of the third degree must be addressed as "imperial highness." These thirty-three male relatives of the czar are a great financial burden to the empire, and each of them receives an annual income of \$460,000. They moreover own in the aggregate 5,000 square miles of land and 325 palaces, employing an army of 20,000 servants.

For a Party.

A pretty and ever pleasing diversion is to have in an adjoining room as many red balloons as children. Let these float through the room with strings attached. On opening the door have the children rush in and try to catch the strings. Balloons always delight little people, and the excitement of catching and proudly carrying them home as souvenirs forms a delightful ending for an entertainment.

Little Princess Rides Astride.

Little Princess Mary of Wales rides astride entirely with the approval of her royal parents and her grandmother and grandfather. The pretty little girl wears a costume of a kilted skirt and a double breasted reefer, the skirt hanging neatly on both sides of the horse when she is mounted. Other little ones have followed her example.

Angelina's Yawn.
 Augustus (no longer youthful)—Well, there's one comfort—they say at forty a man is either a fool or a physician.
 Angelina (yawning)—But you are not a physician.
 Augustus—No.
 Angelina—Oh!—Tit-Bits.

A Mean Insinuation.
 Mrs. Proudleigh—Yes, burglars got into the dining room the other night, found the silver chest and took all the plate away.
 Mrs. Sneerwell—Must have left the silver looking rather bare with all the plate taken away.—New Orleans Times-Democrat.

Too Bad.
 Mr. De Style—Don't you think bamboo essels pretty?
 Mrs. De Style—Yes; they are so light and airy and delicate and so suggestive of nature in its pristine purity. I think they are lovely, but they're disgustingly cheap.—New York Weekly.

Quite Likely.
 "Good intentions, you know, never die," said the man who was fond of quoting things in his own way.
 "Indeed?" replied the other.
 "Probably that would explain why they're so seldom carried out."

Cork Curtains.
 A curiosity to be seen at Berlin is a pair of curtains made of champagne corks, each cork being still covered by the gilt paper associated with the premier brands. The corks hang in lengths of sixty each, the rows being separated by strings of Chinese turquoises. The curtain ties are also of blue silk. The value of these unique curtains is estimated at 25,000 francs.

Gesticulation Now the Vogue.
 Gesticulation is the fashion now. Woman must gesticulate to be in the swim. But she must do it in a correct manner. It is said that the most fashionable people have taken to making gestures, and therefore, of course, all womankind must paw the air, so to speak. In England many gestures are thought to be undignified, but not so here. There is no denying the fact that they heighten the effect of conversation if well done.—Philadelphia Inquirer.

Hard Task.
 "Why can't I play soldier too?"
 "Cause you ain't strong enough ter tackle dem Jap and Russian names."—New York American.

Venus, the Gorilla.
 The London zoological gardens are the proud possessors of one male and two female gorillas. There is only one other female gorilla in Europe. She is at Breslau. The London specimens are named Chloë and Venus. The description of Venus, who is five years old, is as follows: Height, two feet six inches; chest measurement, thirty-six inches; hair, dark and patchy; eyes, black and deep set, and huge, overhanging brows; mouth, expansive, with formidable teeth; expression, morose.

A Message by Wireless.
 A gentleman who arrived in New York on the Kronprinz Wilhelm recently was met at the pier by a cab which he had ordered by a wireless dispatch sent when 200 miles out at sea. The message went to the clerk of the Waldorf and read: "Returning by Kronprinz. Reserve my old rooms. Have cab meet me." The charge for the message was \$4.50, and the probable charge for the cab was \$2. The clerk at the Waldorf said it was the first time such a message had ever been received.

Frank Wyman Dead

Frank Wyman, son of B. F. Wyman of Sycamore, died Monday of typhoid fever, aged 32 years.

Dear Doctor—I owe you so much—for you saved my Mama's life—she was awful sick—the Doctor came and Papa cried—so did I—The Doctor could not help her—but Aunt Emma—She told Mama to take Dr. Pierce's Favorite Prescription—and so she got well in nough time. I thank you very much.
Edid Decker.
To Dr. R. V. Pierce.

Many mothers of families in the United States have reason to be grateful to the person who recommended Dr. Pierce's Favorite Prescription. This is a medicine especially prescribed for diseases of woman-kind. It does not cure eczema, catarrh in all its forms, nor heart disease, for it is put up for the single purpose of curing diseases peculiar to women. It has a reputation of thirty-five years of cures, and has sold more largely on this continent than any other medicine for women. Another point in its favor—it does not contain a single drop of alcohol or of any narcotic. It is purely vegetable. An alcoholic compound for women is something no woman should take. Womanly weakness will always bring on nervous irritability and a nervous condition, for which alcohol is the worst thing in the world. What the woman needs is a vegetable tonic, like Dr. Pierce's Favorite Prescription, which will build up her delicate system and bring about a healthy tone. It cures the drains and weaknesses of women, and the manufacturers offer to pay \$500 reward for any case of Leucorrhoea, Pemale Weakness, Prolapsus, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial.

If you want to know what ails you the United States mail will bring you the best medical advice for only the cost of writing materials and stamps.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. Use them with the "Favorite Prescription" when a pill is required. Are laxative and mild.
