### ITEMS OF GENERAL INTEREST TO GENOA AND VICINITY

**Bill to Increase Pay of Highway Commissioners—Burglars Enter Peck's at Elgin and Get Silks**

The Oliver typewriter factory at Woodstock is turning out 105 machines a day.

An elevator with a capacity of 60,000 bushels is to be erected at Earleville at a cost of \$7,000.

Elgin had 298 deaths last year. Tuberculosis was the cause of thirty-six of the number.

Livingston county land seems to bring good prices. Last week a farm of 240 acres was sold for \$170 an acre.

As the final result of too much drink and debauchery, Joseph Waller of Rockford took his own life last week.

The Order of the Mystic Shrine is arranging for a great demonstration in Sycamore on March 9. Shriners will be present from all towns about.

A bill has been introduced in the Illinois legislature for an increase in the pay of highway commissioner from \$1.50 to \$2 per day. The bill should become a law.

According to the Dixon Star nearly 11,000 people attended the revival meetings there last Sunday. Ex-ball player Mr. Sunday certainly must have something to stir up so many Dixon people to the pitch of going to meeting.

"Brethren" said a man in the meeting, "so many sinners are dying every day that I have come to the conclusion that hell is full." He sat down when an old deacon in the amen corner raised the hymn: "There's a place reserved for you."

Supervisor McConnel of Woodstock has drawn a bill, which has been introduced in the legislature by Representative Castle of DeKalb county, that provides that when an itinerant party or parties die in a town the county shall pay for the burial and other necessary expenses.

The czar's income from the crown and state domains is reckoned at \$7,500,000 a year, or more than three times as much as the King of England is allowed. More than forty members of the imperial family have enormous revenues from property set aside for their support.

An editor sums up the matrimonial question as follows: Two women started out to win a man. Each entered the race with a different plan. One put on fine garments to dazzle his eye; the other baked for him an old fashioned pie. The dresser did nothing but giggle and talk; the baker said nothing but won in a walk.

At an altitude of 10,000 feet in the Alps it is possible it is said, to drink any amount of whiskey or cognac without becoming drunk. The old boozier who really likes the stuff would like to live in that place, but the young fellows could see no fun in not feeling the effects. Some of them think they are drunk on one sour apple and a pretzel.

One of the wolves which have been creating fear among the farmers and panic among the flocks throughout the town of Flora and in neighboring towns fell a victim to the good aim of Jay Ream of Kirkland Saturday, when he brought down a big gray pelted marauder in the northwest part of Franklin township, DeKalb county, close to the town line of Flora.

Paxton, Ill., a town of 3,000, has an ideal heating plant. The elec-

tric light company laid a system of mains throughout the city and are thus able to furnish heat for store or residence at a very reasonable figure. The rate is 20 cents per year for each square foot of radiator service. Each section of a radiator is figured as five square feet, so the total amount is readily computed. To heat an ordinary average sized residence for a year costs about \$30.

### START WORK ON LINE

**Extension From Aurora to Maple Park Will Soon be under Way**

After a suspension of work for two months or more, labor on the Aurora, DeKalb and Rockford line will commence Wednesday, when the surveyors will be put to work finishing up the last of the work between Aurora and Maple Park. About the middle of next week the work of laying track will commence, and will be on in earnest, and the officials hope for the pleasant weather to continue, in order to finish the first part of the line from Aurora to Maple Park as soon as possible, in order to be able to start the cars running.

Sycamore is procuring the right of way to have this line extend from Maple Park to that city. This would give Genoa fine connection with Aurora in event of the Sycamore-Genoa road being built.

### ADOLPH PFUND OUT

**After Being in Isolation Hospital Thirty-one Days**

Adolph Pfund who contracted a case of small pox in Chicago a couple of months since, was discharged from the isolation hospital in that city two weeks ago after being an inmate for thirty four days.

Mr. Pfund is in Belvidere says the Northwestern and shows no trace of his unpleasant experience. He says he was not very ill at any time and speaks in the highest terms of the kind treatment and excellent medical attention given the inmates of the institution. He said that during his stay the number under treatment approximated 100 during the period.

### MILK 8 CENTS A QUART

**Raise Expected as a Result of Combine Among Big Chicago Dealers**

Milk may be advanced from 5 to 8 cents a quart as a result of a combine of the large milk dealers of Chicago, just organized, says the Elgin Courier. Union milk wagon drivers believe the organization has been effected to fight the demands of the union for an increase in wages recently submitted.

The small dealers predict an advance in the price of milk. The big dealers say the association is for the general improvement of the business.

About thirty concerns, controlling over 300 dairies and milk depots in Chicago are interested in the organization. Among them are:

Sidney Wanzer & Sons, Kee & Chappel, Ira J. Mix, Bowman Dairy company, Borden Condensed Milk Company and the David Hayes & Co. David Hayes was elected president and William Wanzer secretary.

### Elgin Burglaries

Twice within a week the silk stock of G. M. Peck of Elgin has been robbed of silks estimated to be worth nearly \$7,000. The second raid on the silks occurred Monday night. The police are baffled.

## FIGHT GENOA ROUTE

**Marengo Citizens up in Arms Against Move of Elgin-Belvidere Line**

Residents of Marengo, Union, Garden Prairie and the adjacent rich agricultural section are up in arms over the reported decision that the electric line connecting Belvidere and Elgin is to be built by way of Genoa.

A big mass meeting was held at Marengo the latter part of the week and committees were appointed to go out among the farmers, secure a right of way and also lay the grievance before the electric line promoters in Chicago. The people at Marengo, it is believed, will secure a free private right of way for the road from Garden Prairie to Union, a distance of ten miles. The residents of Garden Prairie will try to close the gap between that village and Belvidere, and Union people will work east on a right of way.

People along this route are firm in the belief that the Chicago & Northwestern railroad, without showing its hand, is working tooth and nail to get the road via Genoa.—Elgin Courier.

## HORSES SUFFER

**Humane Officer Called to Irene to Look After Animals**

Ninety horses used in grade work on the new I. I. & M. railroad were reported to the Humane society at Rockford Monday of last week to be in a dying condition from lack of food and exposure.

A. S. T. Ogilby left at once for Irene, where the horses were reported to be stabled. He found conditions almost as bad as reported, according to a Rockford paper. Three of the animals died during the day.

Mr. Ogilby took immediate measures for the relief of the suffering animals and notified the road contractors that unless they were properly cared for in the future he would push prosecution.

The contractors claimed that they were unable to get suitable stable room for so many animals and that the severe weather last week overtook them without proper facilities for caring for their live stock.

## Birthday Celebrated

Lloyd Laylon was greatly surprised by a number of friends who assembled at his home last Wednesday evening, February 22, it being the anniversary of his 49th birthday.

The evening was spent at various games and about twelve o'clock refreshments were served. The guests then departed after leaving with the host a beautiful token of friendship.

The following were present: Messrs. and Mesdames Boyd Ainlay and family, O. W. Taylor and family, Ralph Patterson, Henry Leonard, L. H. Morehart Mott, Swanson; Mrs. Ainlay, Miss Anna Kiernan, Messrs. Henry Adams, Elmer Lewis, Frank Eiklor, John Leonard, Sam Palmer and Geo. Burbanks.

## Quick Returns

Jas. Spence who fell and broke his arm on the 18th of this month is happy to think that he is a member of the order of Mystic Workers. According to the conditions of his insurance policy he was entitled to \$50 in the event of a broken arm. He received his check in full on the 25th, just seven days after the accident. Truly there is something in this fraternal business that should appeal to all men.

## THE JUBILEE SINGERS

### NEXT NUMBER ON LECTURE COURSE FOR HIGH SCHOOL

**At Crawford's Hall, Wednesday Evening, March 8—Will Be an Excellent Entertainment**

Do not forget that Glazier's Colored Carolinians will be here Wednesday evening, March 8.

These people have sung from one end of the continent to the other so that little explanation is needed. Their rendering of the plantation melodies is something we all enjoy hearing. To prove they still retain their old-time fame we publish the following from the Ottawa Free Trader:

"The patrons of the chautauqua should not be too much attracted by the leading features to forget the Jubilee Singers which was selected with the greatest good judgment. The Glazier Jubilee troupe is filling all the expectations of the management and are daily growing in popularity. The company is made up of cultured and educated colored musicians from Chicago. The personnel being Walter Carter, the pianist, who has a wonderful technique. His execution has been pronounced by a musician who has heard him as marvelous; Mrs. Gertrude Radden, the alto, has a voice of rare sweetness and power; her scope is exceptional, her high notes being sweet and soft, while her deeper tones range to a pure bass.

"Miss Patti Dean, the soprano who has a particularly prepossessing personality, and a voice which has been pronounced equal to the best ever heard in Ottawa. Thomas Metcalf, the heavy bass; J. R. Douglas, the baritone; and Manager Frazier, the tenor and manager whose voice blends sweetly with the rest of the company. In short, the Jubilee Singers gave delightful concerts."

Tickets will be on sale at Hunt's Pharmacy, Saturday morning, March 4.

## BUTTER DROPS ONE CENT

**Official Market Firm at Thirty-three Cents Monday**

The quotation committee declared the butter market firm at 33 cents on the Elgin board of trade Monday.

The members as they gathered were inclined to be optimistic on values, believing the increase in fresh would not supply the demand even at present high prices. Outside markets generally were easier at lower quotations. The increased supplies came from the delayed shipments and movement of held goods from interior points.

One small lot was sold during the call at 32 cents. There were no further offerings or sale.

## Mothers' Meeting

The regular mothers' meeting will be held in the first primary room Friday, March 3, at 3:30 p. m. The forty-five minutes will be spent in the reading of the remainder of the chapter entitled, "How shall we govern our children?" and also an article and a prepared paper, all of which will be interesting to mothers.

A most cordial invitation to attend is extended to those interested.

## Called to Marengo

Last Sunday afternoon, Rev. T. E. Ream of this place was called to Marengo, Ill., to officiate at the funeral services of Mr. A. R. Dunham, who was one of the oldest settlers of McHenry County.

Mr. Dunham lived in Coral township for sixty-nine years. He leaves one son Mr. C. A. Dunham of Marengo Ill.

## WOODMEN OF THE WORLD

**Officers of New Lodge Installed last Thursday Evening**

The Genoa Camp, no. 48, Woodmen of the world, is now a fixture and it launches out with all the ear marks of a healthy youngster, some excellent material being found in the roll of members. The installation exercises last Thursday evening at Slater's hall were attended by a goodly audience despite the fact that there were other attractions on the same evening. State Manager Anderson officiated and the ceremony went thru without a hitch of any kind. Mr. Anderson delivered a short address and then introduced the Hon. C. C. Farmer of Omah who spoke at length on the merits of the order. Mr. Farmer was one of the founders of the Woodman of the World and is versed in every detail pertaining to its management and advantages. The work of the evening was interspersed with music, making it withal a pleasant program. Refreshments were served and appreciated by the guests present.

Following were the officers installed:

A. B. Brown, Past Consul Commander.

A. A. Cochran, Consul Commander.

S. R. Crawford, Advisor Lieutenant.

F. W. Marquart, Banker.

Geo. Patterson, Clerk.

L. T. Blundy, Escort.

Fred Foote, Watchman.

H. J. Johnson, Sentry.

Has. Coffey, A. J. Rudolph, J. T. Wilson, managers.

## THE LAW IS QUOTED

**Taxes Cannot be Paid County Treasurer Unless Collector Consents**

The Belvidere Republican-Northwestern says that many have a mistaken idea that they can wait and pay their taxes to the County Treasurer instead of to the local Town Collector; such is not the case, only by consent of the town collector himself.

While it is not generally understood, it is a fact, nevertheless, that it is within the province and power of the local tax collector to levy on personal property for the payment of real estate tax; and it is his duty under the law to do so. Therefore if you have personal property, and you are permitted to pay your real estate tax to the County Treasurer, it is purely through the courtesy and consent of the local Collector.

The following is the law on this proposition: Burd's Revised Statutes, 1903, Chapter 120, Section 255, Page 1552:

Personal property shall be liable for taxes levied on real property, and real property shall be liable for taxes levied on personal property; but the tax on personal property shall not be charged against real property, except in cases of removals, or when said tax cannot be made out of the personal property; but the tax on real property may be made out of personal property, at any time after the tax becomes due, by any collector having the tax books in his hands, by distraint and sale, in the manner provided in this act.

## Birthday Surprise

A number of friends gathered at the home of Emil Becker one evening last week and assisted him in celebrating his 29th birthday anniversary. It was all a surprise to Mr. Becker and a pleasing one at that. After an enjoyable evening with games and music, the guests partook of an excellent supper at midnight.

## JAMES A. RISDON DEAD

### PASSED PEACEFULLY AWAY TUESDAY AFTERNOON

**Mrs. John Sykes Died Last Friday at the Residence of Her Brother in Toronto, Canada**

James Risdon, one of the pioneer residents of Genoa, died Tuesday at his home in this city, aged eighty years.

Mr. Risdon was quite feeble of late, but was able to be about the streets, in fact he had contemplated making a trip to the east to visit his sons just as soon as the weather moderated. Monday evening he did not eat any supper but Mr. and Mrs. Johnson with whom he resided did not give the matter much attention, nor did Mr. Risdon complain of being ill.

Tuesday morning Mr. Johnson called the old gentleman for breakfast and receiving no response went into the room. He found Mr. Risdon in an unconscious condition. He did not rally from the stupor, but quietly slept to his death which occurred shortly after noon.

The deceased was a charter member of the Genoa Lodge, No. 168, A. F. and A. M. The funeral services were held Thursday according to the rites of the order. Obituary will appear next week.

### MRS. JOHN SYKES

Mrs. John Kelso Sykes died at the home of her brother in Toronto, Canada, Friday, Feb. 22, the end coming unexpectedly. Mr. Sykes was 2000 miles away, in the northwest territory, when he received word of his wife's fatal illness, and she passed away long before he could reach her bedside. The funeral services and interment took place in Toronto on Monday, the 27th.

Mrs. Sykes had been in poor health for some time before leaving Genoa (she was a resident here about two years) but by sheer will power she kept up her spirits and to all appearances enjoyed life to the utmost. The reaction came however, when she made the trip to Canada last December. She was taken to the hospital immediately after her arrival there. She then rallied and was feeling much better, when the sudden and fatal stroke came.

Mrs. Sykes leaves besides her bereaved husband, a son, Kelso, nearly eight years of age.

### CHOOSES ST. CHARLES

**Heinz Bros. Cut Glass Co. To Locate Plant in That City**

Mayor F. B. Hunt of St. Charles is arranging the final details of a deal with the Heinz Bros. Cut Glass Co. whereby the company is to locate its plant in St. Charles.

Representatives of Heinz Bros. spent Saturday in St. Charles looking over the various factory sites the city affords. The company will occupy a two story building 40x200 feet, and will employ 100 people at once, with a gradual increase as their business warrants.

### F. W. Olmsted & Company

F. W. Olmsted & Co. consider themselves very fortunate in securing B. F. Reed as head tailor in their tailoring department. Mr. Reed is a man of excellent ability both as a tailor and as a clothing man, having been employed by the best houses in Chicago. He comes to Genoa highly recommended as a man that thoroughly understands his business.

Just a word of explanation. F. W. Olmsted & Co. could not have employed him under any circumstances, but owing to his wife's ill health, he was obliged to leave the city for a few months.

Friday, March 3, 1905.

Wm. Hagan was busy the first of the week loading a car with pickles to be shipped to Louisville, Kentucky.

Mrs. Wm. Hagan, and son Fay, and Joe Madigan attended the funeral of a relative at Cherry Valley Tuesday.

The rain of Friday evening interfered with the enjoyment of the young people, who planned a party for that evening.

Mr. and Mrs. Geo. Holland and children of Cortland were the guests of Mrs. Holland's parents, Mr. and Mrs. Seward, Sunday.

Frank Countryman will move his family here from Henrietta next week. They will occupy the home vacated by the Mager family.

Mr. Bridges of Belvidere was here several days in the interest of the Mutual Life Insurance Co. He had good success in securing policies.

Mr. and Mrs. Joel Davis entertained a party of friends at dinner Tuesday and will entertain a similar party Friday. Mr. and Geo. Rudolph also will give a dinner party Wednesday to a number of friends.

"DOLLAR WHEAT."

Trusts and monopolies are usually considered to be unfair, because they tend to make the rich richer and the poor poorer. Nevertheless, in some cases, the producers are directly benefited. For instance, when a big "corner" raises the market price of grain and produce to a fabulous sum, the farmer benefits, if he does not part with his wheat too early, and a dollar a bushel would mean, on an average, that over \$750,000,000 would go annually into the pockets of the farmers of the United States. The operators, later, buy up all the available grain and store it in big elevators, awaiting the proper moment to unload it on the market at the best price. In the same way that the earth yields food for man, so does it provide remedies for human ills. Thousands of households throughout the farming districts of the United States know the value of Doctor Pierce's Golden Medical Discovery. It is nature's most valuable and health-giving agent—made without the use of alcohol. It contains roots, herbs and barks, and is the concentration of nature's vitality as found in the fields and woods. This remedy has a history which speaks well for it because it was given to the public by Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., nearly forty years ago, and has since been sold by dealers in medicines in ever increasing quantities. Dr. Pierce's Golden Medical Discovery has proved such a reliable blood remedy, tonic and liver regulator, that it often enjoys the confidence of several generations in a family, and its increased sales year by year coming from the recommendations of those who have tried it, prove its lasting merit, so that every bottle bears the stamp of public approval.

There is the usual amount of moving among the farmers in this vicinity. John Leonard has moved onto the Geo. Wait farm, Mr. Mager on a farm near Bonus, and John Schwebke moved to a farm at Sager's corners. With the present condition of the roads the moving of household goods and farm machinery is a task not to be envied.

**Charter Grove**

## INSPECTED CO. B

Captain Gilbreth Complimented Captain Fair and Officers on Condition of Militia

After the inspection of the local militia company Saturday evening Capt. Gilbreth of the 27th U. S. Inf., complimented the local officers on the excellent way in which the men handled themselves.

The inspecting officer is restrained from imparting any information as to what his report to the officials will be, but from the way he approved of the maneuvers it is evident that the inspection was entirely satisfactory to him.

Capt. Gilbreth was assisted in the work by Major F. W. Barber, who represented the state in the inspection. He will report to Adjutant Scott while Gilbreth's report goes to the secretary of war.

The inspection commenced at 8 o'clock, besides the officers there were about fifty-five guardsmen present, dressed in full uniform. They went through the manual of arms and other military drills very promptly and skillfully. A large number of friends of the men were present to witness the drill. Belvidere Northwestern.

## Fraud Exposed

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit through stealing the reputation of remedies which have been successfully curing diseases for over 35 years. A sure protection to you is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are imitations. H. E. BUCKLEN & Co., Chicago, Ill., and Windsor, Canada.

## FOR THE LITTLE ONES.

Queer Lakes Whence Comes the World's Asphaltum Supply.

One of the most singular lakes in the world is the celebrated Pitch lake of the island of Trinidad. This lake spreads over an area of ninety-nine acres, and its surface is composed of one great floating mass of asphaltum, sealed with veins of clear water. From it and a similar lake in Venezuela the world's supply of asphalt is drawn.

The Pitch lake is a hideous place as far as smells are concerned, for the air all about it is heavy with noxious vapors, and from the center of the lake gushes a fountain of liquid asphaltum, in which there float and break bubbles containing most horrible gases.

The workmen go out on the surface of this lake and cut great slabs of asphaltum, which are carried away. But the next morning the hole they left is filled up again with the pitch which has risen during the night, so that the supply seems to be inexhaustible.

This curious lake was discovered by Sir Walter Raleigh when he landed in Trinidad in 1595 on his way to the mouth of the Orinoco in search of El Dorado.

## "Poor Pussy."

A game which always makes a good deal of fun is called "poor pussy."

Seat the players in a circle, one less chair than there are players, and the extra player in the middle. This unfortunate fellow then has to try to extricate himself from his position, which he does as follows: Marching up to some one in the ring, he says, "Meow, meow," imitating as well as he can the wails of a back yard cat. The player before whom he stops then has to reach out a hand and pat him three times, while he says, "Poor pussy, poor pussy, poor pussy!"

If the player who is accosted smiles while he soothes "poor pussy," he has to take the position in the ring himself.

## DEATH FROM ELECTRICITY.

While death is produced almost instantly by the passage through the human body of alternating currents of high voltage, such as are encountered in ordinary practice, yet in the currents of enormous voltages produced by Mr. Tesla it is possible for them to pass through the body without the slightest injury. It has, of course, been known that the Tesla currents are of extremely high frequency as compared with the ordinary current as well as of high voltage, but it was thought that they passed over the surface of the body rather than that through it and thus did no damage. Lately Professor Nerust has shown the Bunsen society of Berlin that this effect is due to the high frequency of the current, which actually does pass through the body, but so rapid are its alternations that it does not have time to effect any change in the tissue before there is a reversal of the electrical stress. This he has shown conclusively in a series of experiments, where he passed a high frequency current through his hand and then through the legs of frogs.—Harper's Weekly.

## Rewards of Insurance Agents.

As might be expected from the magnitude of the business—nearly \$2,000,000,000 a year—the men who are able to carry conviction to the hearts of multimillionaires reap a proportionate reward. Some of the general agents who control exclusively a specified territory, pay all their expenses and turn over the business secured to one of the great companies on a commission basis clean up \$200,000 a year. The best "field men," the actual solicitors, may make \$50,000 a year each, and there are thousands of agents whose annual commissions range between \$5,000 and \$10,000. It should be noted that the tendency now is to abolish these general agencies and to concentrate the responsibility more at the home office. And the majority of insurance experts believe that the 5 per cent or 10 per cent of each policy holder's total payments which the agent now receives is too high.—World's Work.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. ## CONDENSED STORIES.

The Distressing Skepticism of a Youthful Unbeliever.

Frederick Bonner, one of the directors of New York's new Society of Art Collectors, talked at a recent dinner party about skepticism. It was a holiday dinner party. The table decorations were Christmas greens and holly berries, and among the sweets there was a fine plum pudding.

"We hear," said Mr. Bonner, "a great deal about modern skepticism."

"Who won the football game this afternoon?"

"Yale," was the prompt reply.

Every one noticed that the president looked glum, and when some one turned to him and asked if he was affected by the news he said very promptly:

"Well, I should say so. My whole day has been spoiled by that news."

"Which Was Right?"

Just before the election old Patrick McGibben, an enthusiastic Democrat, took it upon himself to see that his neighbors voted the right ticket. His effort with one of them brings out clearly an important difference in the way two foreign born men may consider the race question.

"All us Irish is for Parker," he said to Mike Flaherty's son, who had declared his intention of casting a Republican ballot.

"You are," replied Flaherty.

"But I'm an American."

"You're an Irishman!" thundered Pat. "Your father and mother were both born in Ireland."

"And I was born in America."

"What difference does that make then? If them kittens there was born in the oven, would you call them biscuits?"—Youth's Companion.

Short of Breath.

Captain Stevens, an Irish gentleman, was wont to reward his car driver with a glass of whisky and gave it to him in an antique glass, which did not contain as much as cabby wished for. "That's a very square glass, captain," said he. "Yes," replied Captain Stevens, "that's blown glass." "Why, captain," said the carman, "the man must have been short in the breath that blew that."

"HE DOESN'T BELIEVE IN SANTA CLAUS."

There is no end of alarmist talk about the decay of faith and all that sort of thing. But I, for my part, scoffed at this talk of modern skepticism, holding it to be groundless, till the other day. Then at a friend's house I heard a most distressing thing.

"My friend's two children, a little boy and a little girl, came in to see me, and the little girl said: "Jack is an infidel."

"I looked at Jack. He shook his head up and down owlishly.

"An infidel!" I exclaimed.

"Yes," repeated the little girl; "he says he doesn't believe in Santa Claus."—Salt Lake Tribune.

When You Have a Cold  
The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by G. H. Hunt.

Nightgowns in lingerie sets are to have the sleeves set in with the tiniest of baby beading. Some of the new nightgowns are embroidered like the linen shirt waists of

TOQUE OF BLUE TULLE.

last summer, with great flower designs that twist up each side, and are heavily embroidered. Matelasse silk dressing sacks are stunning and may be bought just now at greatly reduced prices. They are more within the limit of the average woman's pocketbook than the lounging robes of the same material.

Petticoats of changeable taffeta running through many colors are to the fore again. Very charming are the new silk mulls in solid colors. Taffeta with a soft finish and in pin stripes holds first place among spring silks.

Fillny fichus, little ripples and swirls of lace and elbow sleeves and lace ruffles will make the summer frock a thing of loveliness. Quite as pretty as the chiffon ruffles are the neck trimmings of double and triple rows of dainty lace. They have the advantage of washing well.

Pink and blue chip hats are trimmed with blue velvet ribbon bows that match in color, but deepen in shade. Pink camellias are placed on the blue hats, while a hat of pink will boast impossible blue camellias.

An exceedingly smart and becoming toque is herewith illustrated. It is made of the palest blue tulle overlaid with a glistening embroidery in which pale blue pearls play an important part. Inside the daintily curved brim folds of tulle are arranged, and a lovely feather droops over the side.

FOR WARM WEATHER WEAR.  
The circular short skirt for walking and outing generally is one of the summer models. It is made with a seam

up the front, which insures a perfect fit about the hips and a pretty swing at the feet that no amount of darts and seams can accomplish. Soft surah in a checked design, the colorings in black and white, blue or

NEW BODICE MODEL.

green and white, makes an ideal warm weather travelling gown. A dress of this kind worn with a white "dicky" and cuffs to match always makes the costume look fresh and neat, as these adjuncts may be frequently renewed.

Chic examples of lingerie, lawn and batiste shirt waists are a mass of tiny tucks. They are daintily embroidered by hand in small sprays of hand worked embroidery. Insertions of lace and swiss are to be seen on the best machine made models, but the hand work is much more exclusive and elegant.

Shirt waist sleeves are fuller at the top and are not trimmed there with tucks or lace, as they were last summer. The smart waist pictured may be carried out in any of the heavy silks of the season. It is laid from shoulders to waist in wide outward turning plaits. These plaits are embroidered with designs in fancy braid, the upper pattern simulating a yoke. About the vest of Irish lace is an empiement of

This Department will hereafter appear Weekly Edited by Judic Chollet

velvet embroidered in daisy petals. Tiny pieces of petal embroidered velvet trim the vest from the empiement down to the chiffon velvet girdle. The sleeves are box plaited into the armholes and have a braid trimmed cuff.

**THE MODE IN GLOVES.**

The short white glove is considered provincial among well dressed women. Even for long sleeves that have transparent deep cuffs the suede mousquetaire glove is pulled over them to the elbow.

In suede mousquetaire the colors most approved are tans and grays. Black and white gloves are only worn with costumes they match. The grays and tans are allied with gowns of all colors when worn with a hat.

The best makes of mousquetaire gloves are without buttons. They pull on easily over the hand and are worn well wrinkled.

Glace gloves are kept for shopping and traveling wear. There is a new glove which has elastic at the top instead of buttons. They are convenient to don, but have not the neat and smart appearance of a buttoned glove.

With the low hairdressing in vogue there is a great demand for attractive

will be, of course, in vogue, and there are any number of lovely tortoise shell and amber pins for the hair.

The newest idea in hatpins is the safety pin to keep the hat in position. This pin is very long and has besides the regulation fastening arrangement that fits down firmly into the hair, the snap being adjusted through the folds of the millinery.

The frock illustrated is of blue chine silk. A very decorative ribbon trimming ornaments the skirt. The waist simulates a bolero and is slightly surplised in front. The girdle and band about the neck of the bodice are of tan suede trimmed with a ribbon design.

**LINEN COSTUMES.**

Three piece costumes of the finest kind of white linen are the last fashion cry. The costume consists of a long skirt and two bodices, one low and the other high, both made with elbow sleeves. They are beautifully inserted with valenciennes lace and embroidered by hand in floral designs over lace and linen. The low waist depends for adornment upon an exquisitely wrought bertha. The high waist is of the usual dainty lingerie style.

Among the jewelry novelties is a dog collar of jet. Corset covers fashioned entirely of insertion are worn with slips of fine linen or lawn.

Floral effects promise to outrival all other spring designs and are to be seen on all sorts of materials. There is a new linen scattered with small blossoms that will be very smart

this summer made up into the useful shirt waist suit. These linens, which resemble old fashioned calico, are very garish in coloring. The old chine silk of long ago is again fashionable, the smartest colors in this silk being chrysopease green and Du Barry rose.

The dainty hat pictured is of black ruffled malines, which forms the entire chapeau. Under the brim and peeping over it on one side are exquisite La France roses, with their foliage.

### Wine of Cardui Cured Her.

213 South Prior Street,  
ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

# HISTORY OF WEEK

## Important Happenings Prepared for Our Readers in Brief Form.

### TELEGRAPH NEWS BOILED DOWN

#### Events of Moment in Foreign Climes as Well as Our Country Are Chronicled.

##### RUSSIAN-JAPANESE WAR.

Reports are current in St. Petersburg that Kuropatkin has been outfanked by Oyama and forced to abandon his strong positions on the Shakhe river. Russian officials are skeptical.

The czar has rejected the peace overtures made through the Washington government by Japan, and will risk one more battle in Manchuria, where a general engagement between Oyama and Kuropatkin may be expected soon.

The Japanese have begun a campaign against Vladivostok. A new fleet is on the way and an army has landed in Korea.

Oyama's forces drove in the Russian troops on the east flank on the Shakhe river and a flanking movement is in progress. A battle of serious proportions is expected.

The international commission of the North sea incident finds that "the opening of fire by Admiral Rojestvensky was not justified."

The Japanese captured Tsinkehchen, fifty miles southeast of Mukden, and attacked Kuropatkin's forces in several mountain passes. The main Russian defenses are threatened by the advance.

Japanese captured Da Pass and another defile southeast of Mukden, and the way to the city is open to Oyama's troops. Russians lost heavily in the fighting.

A general engagement along a 100-mile front is being fought south of Mukden, and reports are current in St. Petersburg that Kuropatkin is planning retreat because of Japanese successes on his left flank.

Russians began a counter attack against the Japanese on the center and to the westward, which resulted in the seizure of a bridge across the Shakhe river and the capture of a position near Sandapu, the scene of Gripenberg's recent defeat. This may be for the purpose of guarding a Russian retreat.

##### WASHINGTON NOTES.

Commissioner Garfield is busy planning the federal crusade on the beef trust and Standard Oil.

The naval appropriation bill as agreed upon by the senate committee carries \$100,336,879, an increase of \$422,520 over the house bill.

The military academy bill as it will be passed authorizes the appointment of Senator Hawley and General Osterhaus brigadier generals on the retired list.

Compromise on the army appropriation bill gives General Miles full retired pay while in the service of Massachusetts, instead of full active pay.

Judge Swayne was acquitted by the senate on all the twelve charges brought against him in the impeachment proceedings.

##### GENERAL FOREIGN NEWS.

Bubonic plague has appeared at the port of Pisagua (forty-four miles north of Iquique), Chile.

Russia has notified America of its willingness to accept Mr. Meyer, who is proposed to succeed Mr. McCormick.

The bakers' strike in Rome has become general and the city now faces a bread famine.

The funeral of the late Grand Duke Sergius, who was blown to pieces by a bomb, passed off quietly in Moscow.

Russian Black sea squadron is reported to have bombarded Poti, where the strikers are in possession.

Warsaw is cut off by railroad from the outside world because of the increasing strikes, and the authorities are helpless.

**Inflammatory Rheumatism Cured**

William Shaffer, a brakeman of Dennison, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used a great many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." For sale by Hunt's Pharmacy.

Republican-Journal \$1.00 a year

### Marengo Mains Hit

Elgin Daily News: With nearly every water main in the city frozen and the system completely demoralized by the burrowings of John Frost, Marengo has sent a call for assistance to the Traction company in Elgin and during the first of the week a half dozen men and thawing apparatus were rushed to the scene.

Officials of the town fear that in the event of a fire in the business section a large amount of property would be destroyed. The real cause of complaint, however, is the inability of consumers to secure their supplies. It is feared that because of the cracking of pipes if water is allowed to remain frozen, the entire system may be seriously crippled unless immediate measures are taken to thaw the frozen places.

**Incredible Brutality**

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at Hunt's Pharmacy.

## Vinol

The New Body Builder

As delicious as a Fresh Orange

Supersedes old-fashioned Cod Liver Oil and Emulsions

Guaranteed to contain all the medicinal elements, actually taken from genuine fresh cods' livers, with organic iron and other body-building ingredients, but no oil or grease, making the greatest strength and flesh creator known to medicine. For old people, puny children, weak, pale women, nursing mothers, chronic cold, hacking coughs, throat and lung troubles, incipient consumption—nothing equals Vinol.

Try it—if you don't like it we will return money.

**HUNT'S PHARMACY**

## A Heart-to-Heart Talk with Ladies

After trying flavoring extracts put up by different firms which have all failed to reach the standard of excellence which we deem necessary, we have decided to put up a line of our own. These we guarantee strictly pure, extra strength and flavor, and to fulfill all the requirements of the pure food laws of any state.
