## WHAT ILLINOIS EDITORS SAY

Sycamore True Republican: Speaking about big business, Marshall Field & Co., of Chicago, did a wholesale business last year of over \$150,000,000. All the wholesalers in New York did a business of only \$30,000,000. The total department store trade in New York last year amounted to \$283,000,000. The Chicago department stores on State street alone last year did a business of more than \$250,000,000. The West is certainly showing the East how to do things on a big scale. Another interesting fact is that the Chicago department store did double the amount of advertising done by the New York stores. Isn't this the answer to the reason why the larger business?

DeKalb Independent: A strong argument in favor of selective conscription is that it will leave the skilled mechanics and men of great industrial usefulness in general at their imperatively needed tasks and gather up the able-bodied unproductive fellows who haunt the ball parks, music halls and motion picture houses.

Elgin News: The market basket is more in evidence these days than it has been since the telephone took its place. However, credit for its resurrection is due more to the times than any spontaneous thrift on the part of the housewives. War prices have forced it upon them. But perhaps the lesson learned through necessity, will prove a lasting one. At any rate, cash and the market basket are arch enemies of old "high cost of living."

Elgin News: All is not lost yet. England has a new ally. Its a whale. At least it is reported that numbers of headless whales have been seen in the North sea and the theory is that they were rendered so by nibbling at the exploding submerged mines planted by the Germans. In this connection it is suggested that a school for whales be started to the end that they may be increased to such numbers as would put an end to the mine menace.

Mrs. A. Sicles, who has been quite ill, is somewhat improved.

Hinckley Review: The position of Congressman Fuller on the wet and dry question as a war measure is plainly shown in a communication received by Mayor Haish of Hinckley from the Congressman the latter part of the week. Mayor Haish had sent our congressman a telegram stating that the village of Hinckley was in favor of making the nation dry. In replying Mr. Fuller said he had received the telegram and was glad to get it from his constituents, and that the congress had not yet officially taken up the proposition to make the nation dry. When it does, however, Mr. Fuller stated that he will stand solidly with the dries, and do all in his power to restrict the sale of intoxicants during the war.

Hinckley Review: If congress would put the question of sending Roosevelt to France at the head of an American legion to a referendum vote of the people it would carry by a huge majority. The American people have all the confidence in the world in Theodore Roosevelt as a military leader; anyone with common sense can see that it will be necessary to send men to Europe as well as money and supplies if we are to be faithful to our terms of alliance with the entente powers. There is no man in our nation so fitted for the task of commander of this volunteer legion for overseas service as Theodore Roosevelt and it is nothing but peanut politics of the southern democracy that has kept him back.

DeKalb Review: Dr. Harry Garfield Wright is home from a National good roads meeting at Birmingham, Alabama. This enthusiastic road man was a special representative of Gov. Frank O. Lowden. About all the states were represented and about 700 delegates attended the convention. Such a meeting would have been impossible a few years ago. It all goes to show that any good thing pushed through the period of agitation will in due time reach the period of adoption. Good roads are the need of the hour and the people should expend so much on the highways for a time that they will be obliged to trim the expenses of a lot of foolishness that does no one any permanent good. We have a lot of things fastened upon us that are but matters of habit and should be reformed. Get the permanent things that help all.

## CONSCRIPTION PLAN

All Men Subject to Military Service Must Register

### SELECTION MADE BY JURY WHEEL

It is now Predicted that All Men Will be Selected by the 1st of September

About 31,000 Illinoisans will be taken in the selective draft to raise the first army of 500,000 men for war with Germany.

Should 200,000 more be needed to bring up to maximum war strength the regular army and national guard the first draft will call out about 43,000 Illinoisans.

It is the purpose of the war department to have all selective draft machinery in operation by Sept. 1 and the picking process will begin then. Until that date, in all probability, the existing plans for filling the regular army and national guard gaps with volunteers will stand and be vigorously pushed.

It will make no difference what age limits for the selective draft are set finally by congress to make up the draft army, the quota for each of the states will not be changed. Extension of age limit will give only an additional number from which to make selection for service.

It is estimated that the first draft for 500,000 between the ages of 21 and 27 inclusive would result in the selection of 1 in each 14 registered and between 21 and 40, 1 in each 32 registered.

Machinery carried in the pending selective draft legislation provides the quota of each state shall be apportioned among the congressional districts, of which there are 435 in the United States. These districts are based on the census population of the state.

Based on this method of apportionment of the draft, each of the twenty-seven Illinois districts will furnish 1.150 for the call for 500,000 men, the quota increasing according to the number covered in the first call.

Here is outlined the pathway along which the Illinois conscript will march until he dons his uniform.

Within thirty days after passage of the army bill there will be a national registration day called by proclamation of the president, during which all those ordered to register shall present themselves for enrollment.

The state election machinery, it is contemplated, will be available wherever possible in making this registration.

There will be no physical examinations in advance of the draft.

Secretary Baker favors use of the jury wheel system for selecting the conscripts to be drafted. Following this drawing of names of those enrolled for service, exemption boards in each congressional district will be put into operation, the law providing for exemptions. These boards will be composed of army physicians to exempt for physical defects and civilians to pass on other grounds for exemption, including dependent families, continuance of employment in industries vital to the government and to the country, etc.

Continued drafts by chance will be made until the quota of accepted conscripts have been made up for each district.

Then comes the call to report for the muster in the uniforming, departure for training camps and schools and beginning of the actual work to fit the recruits for soldiering in grim earnest.

The war department between now and Sept. 1 will devote its activities to the training of officers at the 16 divisional training camps throughout the country. The army does not consist at this time of a sufficient number of officers to drill a draft of 500,000 men. It cannot call for this purpose all its officers from the regular army or from the national guard. Their services are needed with the regular units.

### Elgin Scouts Will Raise Beans

J. E. Readhimer, county soil expert, talked "Beans" to twenty Elgin Boy Scouts and three scoutmasters in Hall C at the Spurling Saturday evening. As a result Boy Scouts of that city will raise beans.

### Hampshire Boy College Head

Hampshire has a distinguished son in the person of Prof. O. S. Morgan, who is at the head of Columbia college, New York. The professor is a brother of Mrs. E. H. Crandall of this city.

## BOYS WON WAR

Startling Statistics Regarding Civil War Enlistments

Now that everybody, especially the young fellows are talking about enlisting, doing so, or maybe waiting until they are conscripted, one may verify easily that statement by the old veterans that the Civil War was fought and won by boys under 21. We can well believe it when we compute the ages of the average brave old boy in blue. Look at these figures proving that over 80 per cent of the Union army were under age; There were 25 only 10 years old—the drummer boys; 38, 11 years old; 225, 12 years old; 300, 13 years old; 1,523, 14 years old; 105,937 who were 15 years old; 231,051 who were 16 years old; 844,981 who were 17 years old; 1,584,438 who were 18 years old; 19 to 21 years, 1,008,360; 618,511 were 22 years and over; 16,626 were 25 years and over; 16,071 were 44 years and over. Thus if the law is passed making enlisting age 18 to 35, how many will that raise? The youngest of any of the above was the famous Johnnie Clem, the drummer boy of Shiloh, who ran away from his home in Licking county, Ohio, in 1861, when he was not ten years old, and went with the 24th Ohio, soon having a gun given him, which he fired at a confederate Colonel at Chickamauga. He was the boys' hero in war time, all right. After the war was over he went into the regular army and in 1874, when only 23 was a first lieutenant, becoming a Colonel in 1903.

Fair Buildings Burn  
Loss is Estimated at \$8,000, with \$4,000 Insurance  
The fire which destroyed the amphitheatre and the horse barns at the Boone county fair grounds on Thursday afternoon, appears to have been started by boys setting fire to some weeds in a field adjacent to the grounds, lying between Lincoln avenue and the river, the high wind carrying the fire into the horse barns, which were swept clear from the main entrance to the rear of the amphitheatre, where the flames leaped the space to the big building, thence across to the judges' stand.

The loss is estimated by Dr. F. E. Allen, the president of the Boone County Agricultural society, at about \$8,000. There is a blanket policy for \$4,000 covering all the buildings on the grounds, the policy being in the Fire Association, of Philadelphia, represented by D. A. Fuller.—Republican.

Huntley Buys Chicago Theatre  
Edward F. Keating of Huntley is reported to have purchased the Broadway theatre at 5206-08 Broadway, Chicago. The theatre has a seating capacity of 700. The consideration was about \$45,000, subject to an incumbrance of \$18,000, the purchaser giving in part payment Nebraska land, according to a Chicago newspaper.

## ALL CAN NOT FIGHT

But Every Land Owner can do His Bit in War

### DUTY TO CONSERVE AND PRODUCE

Plenty of Hardy Vegetables Besides Potatoes—Still Time to Plant Some of Them

Great and momentous times are for the first time since the Civil War again confronting the nation. The resources and savings of years of peace are again being pledged to the prosecution of war, more gigantic and more relentless than any war that has been fought in the history of mankind. Not all of us are chosen, however, to fight this great war with gun and saber, or by blood purchase, some must stay behind to pledge all that they possess in the effort to produce enough food to keep the valiant soldiers fed and their babes and wives at home from starvation. Our beautiful land of unlimited resources must be made to show its prowess in agricultural production, so that none within her boundaries shall feel the pangs of hunger and the degrading influence of poverty.

Citizens and countrymen, it is your solemn duty to produce and conserve all of the food that it is possible to produce, and conserve. No matter how small the garden or how tiny the number of pounds saved from waste, concerted effort will produce a potential weapon against our most dangerous enemies, hunger and food riots.

In choosing what things to grow in the gardens, it should be borne in mind that the crops to be consumed at once such as lettuce, radishes, melons etc., are to occupy only the most limited space, while crops that can be dried, cooked, steam processed, or cellared should be grown as abundantly as possible. The vegetables that are most readily preserved by cooking or steam processing are Peas, Sweet Corn, Tomatoes, Spinach, Swiss Chard and Cucumbers. Beans, Carrots and String Beans may also be put up in this way, either pickled or in brine. Rutabagas, Turnips, Celery, Parsnips, as well as Carrots and Beets may simply be placed in a cool cellar, (the temperature of which should not be kept higher than 40 degrees Fahrenheit) in bins of dry sand, where they will retain their usefulness until the late spring. Cabbages, Chinese Cabbage, Brussels Spouts, and Kohlrabi may be placed in the cellar with sand taking care that they do not touch each other, but that each is entirely surrounded with a layer of sand. String Beans and Cabbage may of course be preserved by the fermentation method in the form of sauerkraut. Parsley, Sage, Thyme, Marjoram, Summer Savory, Basil, and Celery leaves should be dried in a cool room, perfectly dark with an abundance of circulating air. For this purpose they should be spread on newspapers in thin layers and turned frequently, or they may be tied in small bunches and suspended from a line until thoroughly dry when they should be packed in air tight boxes, such as baking powder tins, etc. In gathering cabbages and the above herbs, care should be taken that they are free from dew and other moisture as this would cause moulding and rotting. Okra or Gumbo is not much known in the North, it however, makes an excellent and nourishing addition to soups and tomatoes, this can be dried by cutting into quarters lengthwise and subjecting to sunlight or other heat and plenty of air. The same is true of Sweet Corn which must be cut from the cob and dried as rapidly as possible. If this corn is soaked for several hours and boiled in milk with a little piece of butter with pepper and salt added, it is quite, if not superior, to canned corn. Parsnips may be left in the ground all winter and used in the early spring before growth commences, they will be found more tender and delicious at this time on account of the freezing they passed through.

All of the vegetables and herbs mentioned are of the easiest culture requiring only medium quality soils to produce fair crops, they should be kept free from weeds, and constantly cultivated, any special fertilization or cultivation will be well repaid, however, by heavier yields and more tender products.

Weeds in fence corners and out of the way places should be treated by spraying with Sulphate of Iron, Atlas A or Eureka weed killer. This should be made a community proposition as concerted action is needed to

## COMMITTEES APPOINTED

Dr. J. W. Ovtiz, as President of School Board, Names His Working Units

At a recent meeting of the board of education the following standing committees were appointed by the president, Dr. J. W. Ovtiz:  
Teachers—C. A. Stewart, O. M. Leich, Edith Patterson.  
Finance—S. T. Zeller, Jr., Agnes Field, C. A. Stewart.  
Text Books, Field, Zeller, G. J. Patterson.  
Supplies—Edith Patterson, G. J. Patterson, Leich.  
Miscellaneous—Zeller, Edith Patterson, Stewart.

Building and Grounds—Leich, Zeller, G. J. Patterson.  
It is now practically assured that all but two of the present corps of teachers will sign contracts for next year, and this is news that will be of interest to those who have been following closely the work of the school during the past year. It would perhaps be impossible to get better work than is now being accomplished, with the material and building conditions with which the teaching force has to contend.

Isn't it the Truth?  
There is something radically wrong where a merchant in a small town does not advertise in his local newspaper. He may, it is true, succeed without availing himself of every facility that is offered for building up his business, but the effort is made the more difficult because of the neglect.

A live newspaper is one of the best assets that a community can boast of, but no newspaper can properly represent the interests of a town unless the interests of the town are represented in its advertising columns, not as a subsidy, or charity, but in active, aggressive and intelligent effort at up-building.

The interests of the merchant and the publisher are identical, and there should be co-operation between them, that the town may have an effective medium of publicity on the one hand, and that the largest possible returns be given to the supporters of this enterprise, on the other.—Better Business.

## The Coldest April

According to the record of the official weather observer at Sycamore, the month of April, 1917, was the coldest here in nine years, and the rainfall was considerably below normal.

The normal mean temperature for April in DeKalb county is 46.6 but the month just past it was only 44. The normal rainfall here is 3.28 inches, but in April, 1917, only 2.87 inches fell.

The temperature ranged from 21 above on the 9th to 70 on the 19th and 21st.

There were during the month eight "white" frosts and 19 cloudy days.

insure results. Close attention to the above outline will result in a vastly increased food supply during this coming winter, besides furnishing the table with a number of delightful dishes which have only too often been absent in the American household.

## AUTO TURNS TURTLE

Marengo Farmer and Family Narrowly Escape Death

While his new Elgin-Six automobile was going at a speed of about 35 miles an hour, with top up and curtains drawn, C. Berceider, who occupies a farm between Genoa and Marengo, while driving east on the Benson road failed to make the turn at the Charter Grove road, about three miles northeast of Sycamore Sunday afternoon, and the big car turned over twice, and the eight occupants, four adults and four children, came near losing their lives.

The machine leaped some 15 feet and several of the occupants were underneath it, says the True Republican. Others were thrown clear of the machine. All escaped serious injuries, except the baby a few months old. The child cries if it is moved or touched, and it is feared it sustained internal injuries, but it is the opinion of the physician that it will recover.

The lamps and upper portion of the car were twisted and broken, but men from the Rykert & Andrews garage in this city were able to run the machine to town under its own power, and the machine appears uninjured. The car was sold to the owner about three weeks ago by Rykert & Andrews, altho the owner had driven an automobile only that time.

Mrs. C. J. Bevan Passes Away  
Jeanette Chesnut Bevan died Thursday morning at 7:30 in DeKalb of peritonitis.

She was born May 22, 1884, on a farm near New Holland, Ill., and graduated from the Illinois University in 1907. On the 22nd of June, 1910, she was married to Carl J. Bevan, and came to Genoa in 1913. Two children, Thomas J., three years old, and Mary Ella, 18 months old, with the husband, survive. There are also two sisters and five brothers. Her illness had been apparent for several months, but devotion to her family caused her to neglect her own condition. Following an operation she fought for life nearly three weeks, but lost.

Funeral services will be held at the home at two o'clock Friday, Rev. Thomas B. Judson of Austin officiating. Burial at New Holland, Ill.

## The First Game

Manager Hammond's Municipal base ball team were defeated in the first game of the season by the Kings-ton Tigers last Sunday. Final score 11 to 10. Considering the cold day and that the boys had had no practice, the game was real snappy. Owing to the fact that J. J. Hammond was called to Kansas City on important business, John Sell acted as manager and he was at his best with his batting eye. The team has a great future in store for them and they expect to enter the big league shortly. The line up for Genoa was as follows:

"Pike" Senska, pitcher; Billy Furr, catcher; John Sell, first base; W. Brendemuehl, second base; "Nig" Patterson, third base; Frank Clausen, short stop; Roy Geithman, center field; A. Overlee, right field; Clarence Crawford, left field; Dickie Patterson, mascot; Jas. Hutchinson, official score keeper; R. H. Browne, W. J. Seymour, A. Sicles, pinch hitters. Manager Sell found it unnecessary to use these "crack players" as there were plenty of air fanners in the game.

Mrs. E. M. Worcester spent the week end in Chicago where she was one of a theatre party who witnessed the play "Turn to the Right" at Cohan's Grand.

Dr. and Mrs. G. L. Hemenway and daughters, accompanied by Dr. A. M. Hill, motored to Sycamore Sunday, where they were guests at the home of the former's daughter, Mrs. Wm. Eddy.

Mr. and Mrs. Mohler were callers at the home of Mr. and Mrs. Sears last Sunday. In honor of Mrs. Mohler's 81st birthday anniversary, a bounteous dinner was served. Mrs. Sears is Mrs. Mohler's daughter.

Paul Prutzman and Harry Ewing of Shannon stopped here Sunday on their way to Chicago where they enlisted in the navy. The former, who is a brother to Jas. L. Prutzman of this city, leaves in about ten days for Norfolk, W. Va.

**Candy and the Drink Habit.**

If any one doubts that candy will cure him of the drink habit he can easily test it. The man who puts lots of molasses on his wheat cakes at breakfast will find himself gradually forgetting to step in for his customary drink on his way to his work. If the man who goes out between times for liquid refreshments will go into a candy store instead and get 5 or 10 cents' worth of candy and eat it he will be surprised at the effect, for it will not be very long until he will have a box of candy in his pocket or desk. It has often been noted that in theaters where candy is sold during the intermissions "going out to see a man" does not prevail to anything like the extent it does in other theaters where no candy selling is permitted. Not one man in a hundred knows why he forgot to "go out to see a man" after he had bought a box of candy for his companion and eaten a little of it himself for polite ness' sake.—Medical World.

**And They Didn't Parade.**

In 1885 Dewey was at Malta in command of the Pensacola. Some of his men on shore leave got into a street brawl. An alarm was sounded, but the men succeeded in escaping to their ship. The British captain of the port was on hand next morning demanding that the guilty sailors be surrendered or punished by the American commander. Dewey expressed regret that the sailors should have been so lawless ashore, but said he could see no way in which he could assist his visitor in picking out the guilty. The reply answered the British officer, who said somewhat peremptorily:

"You certainly can parade your crew before me in order that the rioters may be identified."

Dewey pointed aloft to the stars and stripes waving at the masthead.

"The deck of this vessel is United States territory," he answered sharply, "and I'll parade my men for no foreigner that ever drew breath."

**Kindergarten Training.**

The increasing growth of kindergartens in this country has recently been remarked by the United States commissioner of education, who said: "Within the last six or seven years there has been more progress in the establishment of kindergartens in cities, towns and industrial villages of this country than in any previous period of equal length. This is especially true of kindergartens supported by public school funds. This progress has been largely due to the activities of the National Kindergarten association."

The kindergarten course secures to the child an extra year of education, and as the boys and girls of this country average only a little over five years in school the value of this additional training cannot be overestimated.

**Worms Build a Great Dike.**

The famous Mont St. Michel, off the north coast of France, is rapidly ceasing to be an island. The reason, as told to the Academie des Sciences in Paris by Messrs. Houbert and Galaine, is that myriads of urmelids, those little sea worms which incase themselves in stony shells and are so often found upon the shells of oysters, are building a dike across the entrance to the bay, and behind this dike the sand is piling up with every tide. It is estimated that this dike is now nearly two miles wide and from fifteen to eighteen feet deep.

**His Tart Retort.**

It is on record that the Prince of Orange, filled with rage because he had been beaten at Fleurus, Leuze, Steinkerque and Nerwinde, said, alluding to the marshal of Luxembourg:

"Can it be that I shall never beat that hunchback?"

"How does he know that I am a hunchback?" said the French marshal.

"He never saw my back; I always saw his!"

**Bacon and the Baconians.**

Bacon's greatness will save him from the Baconians, and his grasp of the principles of conduct and the organ roll of his noble style put him safely with the masters, but one reads him in evening dress, with the feeling that he is dining with an ambassador.—Hamilton W. Mable in Outlook.

**Willing, but Cautious.**

"Yes, my daughter eloped."

"I suppose you will forgive the young couple?"

"Not until they have located a place to board."

**PRactical HEALTH HINT.**

**Convulsions.**

Convulsions in little children are not an unusual occurrence. They are caused by many different ailments, such as difficult teething, indigestion, constipation, fever and some of the common infectious diseases to which little folks are subject. Sometimes the teeth are gritted hard and the muscles twitch and the head is thrown back or the eyes roll up. The pulse is very rapid and irregular, the breathing is difficult, and the skin is cold and often wet with perspiration. When this occurs a doctor should be sent for at once, as this condition is too dangerous to rely wholly on home remedies, but while waiting for the physician to arrive the child can almost always be greatly benefited by being given a hot mustard bath made by dissolving a tablespoonful of mustard in four gallons of water. But be very sure that the water is not hot enough to burn.

Genoa, Ill.

SUBSCRIPTION, \$1.50 THE YEAR

By C. D. Schoonmaker

"Our country!" In her intercourse with foreign nations, may she always be in the right; but our country, right or wrong.—Stephen Decatur.

That the people of Genoa will do their "bit" this summer is evidenced by the number of vacant lots that are being plowed up, lots that have heretofore raised nothing more than grass and in some instances nothing but weeds.

That the American people admire and love the French and are in full sympathy with that government is more than evident in the great demonstrations in honor of Premier Viviani and Marshal Joffre wherever they go.

Those young men who are trembling in fear that they may be picked up in the selective draft, may find consolation in the fact that only one out of every fourteen will be taken if the age limit is fixed at twenty-one to twenty-seven. If the age limit is raised to thirty or forty, the chance of escaping service will be even greater. Young men should bear in mind that the selective draft does not take a good farmer from the farm, nor a good machinist from his lathe. Furthermore, yellow streaks are not wanted either.

The article by Cobb in the last issue of the Saturday Evening Post is a revelation regarding the attitude of the German government. It is a revelation to many of the German people of America and should make them more loyal than ever to the stars and stripes. There is no reason to doubt the truth of Cobb's statements, altho the author himself could hardly believe some of the things he saw and heard in Germany at the beginning of the war. His article is written in good faith, or it would never have found space in the Saturday Evening Post.

In offering to enlist as a private, Wm. Jennings Bryan is plainly showing that he is not in the same class with Theodore Roosevelt. Two years ago one would expect both these men to be leaders in the time of a great crisis. Roosevelt, in offering to head an army in Europe, has proven again that he is a real leader of men and must be recognized. On the other hand Bryan first showed his small calibre when he resigned his post as secretary of state at the time great statesmen were needed. He could not fill the position. As an orator and an attraction at chautauques he is a wonder and as a private in the army he would no doubt be as brave as the next man, but he has passed the age even for that. Mr. Bryan must understand that it takes young men to make an efficient army and real statesmen to guide the affairs of state at such times as this. Let him devote his time to the "grape juice" campaign.

**WEEK'S SOCIAL EVENTS**

ACRS. HELEN SEYMOUR, Editor

**Mrs. Lee Smith Entertains**  
Mrs. Lee Smith entertained a number of Kingston and Genoa friends at her home in Kingston Tuesday afternoon. After a social hour a delightful luncheon was served in the dining room, which was resplendent in partiotic decorations. Guests from this city were Mesdames George Evans, Jas. Hutchison, Jr., E. J. Tischler, Roy Stanley, Harry Whipple, Albert Rudolph, Frank Rudolph, Wm. Lembke, Wm. Schmidt, Jr., Roe Bennett, Frank Wallace and Miss Emma Floto.

**Thimble Club**  
Mrs. Caroline Sager and Mrs. Elizabeth Cleford entertained the Thimble Club at a patriotic luncheon last Thursday. Sewing occupied the early part of the afternoon. The luncheon, which was served on individual trays, was decidedly up to the times with its patriotic emblems. The ice cream was of the national colors and favors were tiny silk flags. Guests who are not members of the club were Mrs. James Watson of Lafayette, Ind., Mrs. Fred Zwiger and Miss Nina Patterson.

**Countryman-Wilcox**  
The marriage of Mr. Delbert Countryman and Miss Hazel Wilcox was solemnized at the home of the bride's father, Oscar Wilcox, three miles north of Genoa, on Tuesday afternoon, May 1, Rev. R. E. Pierce of this city officiating. The groom is the son of Mr. and Mrs. Daniel Countryman. Mr. and Mrs. Countryman will make their home with the bride's father for the present and later will move to Rockford.

**Household Science Club**  
The Household Science Club met at the home of Mrs. Ellis Colton Wednesday afternoon. The members responded to roll call with the story of a queer coincidence. Mrs. Mackey

gave an interesting paper on gardening followed by a discussion on poultry raising. After music a delicious luncheon was served in the dining room, beautifully decorated in the national colors.

**Fortnightly Club**  
The members of the Fortnightly Club met at the home of Mrs. G. C. Rowen last Saturday afternoon. Mrs. B. F. Kepner of Rockford was to have had this meeting in charge but was unable to be present. Mrs. L. G. Hemenway, president of the club, gave a very interesting paper on "Illinois Beautiful" which was greatly enjoyed by her hearers.

**Card Party**  
Mr. and Mrs. Robert Patterson entertained the U. J. I. Club at euchre Saturday evening. Guests numbered sixteen. Favors were awarded to Mrs. Albert Rudolph, Mrs. Carrie Ousler, John Gahl and E. Weideman followed by an excellent two course luncheon served on the card tables.

Rev. Fr. J. J. McKeon of Chicago will say mass at St. Catherine's church next Sunday morning at 10:00 o'clock. He will also preach the sermon. Fr. McKeon is a missionary priest on his way to Australia and will be here for several weeks previous to his departure for the land over the seas.

"The Spoilers," the wonderful story of the Alaskan gold fields, written by Rex Beach, was presented on the screen at the opera house last Friday evening by Petey Wales. The house was packed and no one went away disappointed. On the 1st of June Mr. Wales will present the sensation "The Battle Cry of Peace."

Mrs. Henry Smith, who submitted to a serious operation at the Ovit Hospital recently, is recovering slowly. Mrs. Smith's life hung in the balance for several days and her many friends will be pleased to learn that the prospects for her regaining health and strength are most encouraging.

Genoa members of the national guard were taken over to DeKalb Monday by A. J. Kohn. Mr. Kohn has shown the proper spirit in helping the boys get to their training quarters. They must appear at the armory every Monday and Thursday evening. Other automobile owners should volunteer to take the boys over occasionally. It should not be necessary for them to hire rigs for the privilege of serving their country.

**NOTICE**  
I have this week received notice from all the newspaper publishers in Chicago to the effect that the price of daily papers will be advanced on Monday, 14. This advance makes it necessary that the price to customers on and after that date be fixed as follows: Morning papers, 3 cents to regular customers; evening papers, 2 cents per copy and 60 cents per month delivered to regular customers; Sunday papers, 8 cents per copy.

E. H. BROWNE.

Ben E. Pierce has been appointed war secretary of the Y. M. C. A. and is located at the Great Lakes Naval Station. As is the custom at the University of Illinois, men entering government duty receive full credit for the year's work. In June Mr. Pierce will receive his degree of bachelor of science in civil engineering.

Miss Zella Morehouse suffered a dislocated shoulder as a result of being thrown from an overturned buggy Tuesday morning. The horse she was driving became frightened at some object in the road and ran into the ditch. Miss Morehouse soon had the carriage righted and continued on her way to Genoa, where she had her arm attended to. She was driving to school when the accident happened.

Miss Frances Graves, a former teacher in the Genoa high school, may be elected to the position of principal of the Belvidere high school. In its write-up of the school situation, the Belvidere Republican says: "Miss Graves came to Belvidere some years ago as teacher of German in the high school and has been exceptionally successful in her work, steadily winning recognition for excellent accomplishment, having been for a number of years assistant principal, a place won on merit."

The Genoa public school will give a musical entertainment Friday evening, May 11, at Slater's hall at 8:15 o'clock. The program will consist of folk dances and songs which have been learned throughout the year as part of the daily music lesson, and dramatized as the songs suggest. Every child in the grades will be represented, also the High School Girls' Glee Club and orchestra. The admission is 15c for adults and 10c for children.

The Genoa meat men will discontinue the delivery of meats after Saturday of this week. At first this will seem like a hardship to the customer, but as a matter of fact it is for their benefit that the move is made by Messrs. Geithman and Duval. The expense of maintaining a horse and wagon and paying for extra help in delivering the meat is all out of proportion to the business. Meats will be higher, and by eliminating this unnecessary expense the local dealers will be able to hold the prices down in Genoa for some time.

**Change in Time Card**  
Commencing Tuesday, May 15th, 1917 at 10:30 o'clock a. m. the following change will be made in the running of cars:  
The car that arrives from Sycamore to Genoa at 10:30 o'clock a. m. will not go any farther than Genoa and the trip from Genoa to Marengo, which is now made, the car arriving here at 12:55, will be abandoned. The other trips will be the same as now.

**Mrs. Oliver Lowe**  
Mrs. Oliver Lowe of Sycamore, formerly of Genoa, died of a complication of diseases Monday morning, May 7.

Elizabeth Figert was born May 11, 1846, at Erie, Pa. She was united in marriage to John Yeom in 1865, who died many years ago. To this union were born two children, Earl Yeom and Mrs. Hattie Wolcott both of DeKalb. In 1896 she was married to Oliver Lowe of Genoa who survives.

Mrs. Lowe was a kind affectionate step-mother to the children, Art, Love of Sunnyside, Wash.; Harry Lowe of Canada, Mrs. Florence Gray of Genoa and John Lowe, who lives on the home farm on the Sycamore road.

The funeral services were held at the home in Sycamore Wednesday afternoon, Rev. Benjamin Rist officiating. Miss Jennie Little sang three very appropriate songs. Mrs. Lowe was laid to rest beside her first husband in Oakwood cemetery at DeKalb.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**MANY TAKE HAY OATH**  
Proper Spirit is Being Shown by Third Regiment  
Aurora Beacon: Adjutant General Dickenson of the Illinois National Guard was notified by Col. Charles Greene of Aurora, commanding officer of the Third regiment, that 665 out of 998 men in the regiment have taken the Hay Federal oath. Of the 343 who have not taken the oath about 300 have not been asked, Colonel Greene said today.

"Members of many of the companies are not in the home cities and have not been asked to take the oath, Colonel said: "Of the 343 who have not taken the oath I am sure that at least 300 of them will willingly do so when asked. Most of these men have not been ordered to the armory because they are too far away. Should an order to mobilize be received the men will be ordered to report and at that time will be given the oath."

Consumption.  
A diet of peanuts is suggested as a cure for consumption by Dr. Brewer in the Journal of Hygiene. This seems too simple to be true, but Dr. Brewer tells of two young women who had grown sick of cod liver oil and foodies and who were treated by him with salted peanuts—all they could eat—combined with inhalations of vinegar.  
"One would think this a very indigestible diet," he writes, "but they craved them, and it has always been my policy to find out just what my patients desire to eat, and unless it is too unreasonable I humor them. Both young ladies have become plump and after one year's inhalation have ceased coughing, and I pronounced them cured."  
Peanuts are recommended also for sleeplessness.

**Lincoln as a Gallant.**  
Although wanting in the language of gallantry, Lincoln was not incapable of turning a neat compliment. The artist Carpenter has told me of one that would have pressed Chesterfield hard. An enthusiastic lady gave the president an entirely superb bouquet. The situation was momentarily embarrassing, but "with no appearance of discomposure he stooped down, took the flowers and, looking from them into the sparkling eyes and radiant face of the lady, said, with a gallantry I was unprepared for, 'Really, madam, if you give them to me and they are mine I think I cannot possibly make so good a use of them as to present them to you in return.'"—Helen Nicolay's "Personal Traits of Abraham Lincoln."

## FRECKLES

Now is the time to get rid of these ugly spots. There's no longer the slightest need of feeling ashamed of your freckles as the prescription ointment—double strength—is guaranteed to remove these homely spots. Simply get an ounce of ointment—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful complexion.  
Be sure to ask for the double strength ointment, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

**With the Fingers! Says Corns Lift Out Without Any Pain**

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply on the corn a few drops of freezone, says a Cincinnati authority.  
At little cost one can get a small bottle of freezone at any drug store, which will positively rid one's feet of every corn or callus without pain or soreness or the danger of infection.  
This new drug is an ether compound, and dries the moment it is applied and does not inflame or even irritate the surrounding skin. Just think! You can lift off your corns and calluses now without a bit of pain or soreness. If your druggist hasn't freezone he can easily get a small bottle for you from his wholesale drug house.—adv.

# The KITCHEN CABINET

To remain in nature always sweet and simple and humble and therefore strong; to love and to hold due reverence for all people and all things, but to stand in awe or fear of nothing save our own wrongdoing.—Creed of the Open Road.

## SAVORY DISHES FROM ITALY.

Our simple manner of cooking macaroni, one of the commonest of Italian dishes, is not a simple dish when prepared by them.  
**Macaroni a la Ristori.**—Wipe a pound of lean beef, add a fourth of a pound of raw ham cut in dice, and a large onion sliced.

wash and remove the stems from a pound of tomatoes cut in small pieces; place all together in a large saucepan with two tablespoonfuls of olive oil, a sprig of parsley and a bay leaf; simmer gently for two hours, then add one pint of boiling water and continue to cook until the sauce becomes reduced and thickened into a mass in which the different ingredients are well blended. Cook the macaroni until tender, drain and place a layer in a serving dish, sprinkle generously with Parmesan cheese and cover with the meat sauce. Repeat until the dish is filled. Cover closely and let stand in the oven for five minutes until well blended.

**Chicken Livers With Mushrooms.**—Cook the livers (six of them) with the same number of coarsely chopped mushrooms in a cupful of stock for a half hour; cool and drain. Prepare a butter with two tablespoonfuls of flour, a little milk, and salt and pepper to taste, and one beaten egg. Add the livers and mushrooms and drop by spoonfuls in a little hot fat in a frying pan. Cook until a golden brown on each side and drain thoroughly before serving.

**Chestnut Creams.**—Boil, shell and skin a pound of large chestnuts. Pass them through a sieve, add the juice of two oranges, sugar to taste, and add a half pint of heavy cream, whipped. Serve in sherbet cups garnished with whole chestnuts and a cherry or a small cube of jelly of bright color.  
Cooked chestnuts and orange rind cooked in a sirup, using only the yellow of the rind, then served with bits of fresh orange and mayonnaise on water cress or salad lettuce makes a most delightful salad, which we can appreciate on this side of the water.

It's no in books, it's no in leat

## CHICKEN FOR TWO.

In a family of two, poultry is not as often used as desired because it is too much meat to be cooked at once. In some markets a half a chicken may be purchased but even when this is not possible a fowl may be spread over several days without becoming monotonous. For one meal the drumsticks may be cooked, these from a six to eight pound fowl will furnish sufficient meat to satisfy any appetite. After stewing them in a little boiling water to keep in all the juices and flavors, brown them in a little butter and serve with drawn butter sauce and baked potatoes. The wings and neck may be stewed and prepared in the form of a small chicken pie with the giblets made into a rich sauce to serve with it. Now the breast may be cooked, served in a white sauce as cream chicken or thinly sliced and used for sandwich filling or combined with celery and apple with boiled dressing making a most delicious salad. The second joints may be cooked and browned as were the drumsticks or they may be cooked to make a fine broth, removing the bones and add vegetables and cook in a casserole, adding rice or macaroni.

**Chicken Jelly.**—Take one chicken breast, a pint of stock in which the chicken was cooked, and a package of gelatin. Dissolve the gelatin, add onion juice, celery salt or various seasonings, add the breast and mix all together. Pour in a mold and when hardened serve as a salad with dressing.  
After all the chicken has been consumed but the bones, they too, may be stewed after cracking them. Cover them with cold water, add a slice of onion and cook until all the flavor has been extracted. Strain, add a little cooked rice or barley, one or two beaten eggs, and some hot milk or thin cream with plenty of seasonings and you have a most delicious cream of chicken soup.

The thrifty housewife in these days, scalds the feet and skins them when they are cooked in the broth after all are well trimmed. They contain quite a little gelatin and add to the flavor of the soup.  
For an invalid's meal a bit of broiled chicken breast served on toast is a most dainty meal. It may be broiled in a bit of buttered letter paper, wrapp'd firmly, and pinned together, thus saving all the fine flavor. The

small fillets are more tender than the larger ones and two may be served if one does not seem sufficient.

## SEASONABLE SALADS.

Mix cream cheese with finely chopped peanuts and a little cream, mold in small balls and dust until red, with paprika, place three or lettuce leaves and garnish with slices of radish or have them cut in the form of tulips. Serve with any salad dressing desired.

**Cauliflower Salad.**—Trim the stalk and outside leaves of a fresh cauliflower and soak in salted water for 30 minutes. Then wash carefully and cook in salted water until tender. Remove from the fire and when cold carefully remove the center and fill the space with cooked peas drained and seasoned. Pour French dressing over all, garnish with lettuce leaves and serve cold.

**Lemon Jelly and Cabbage Salad.**—Take a package of lemon jelly, add two cupfuls of chopped or shredded cabbage, a little shredded onion, two green peppers and one red one, mix well and mold. Serve with mayonnaise on lettuce.

**Apple Salad.**—Arrange sliced pineapple on lettuce leaves and in the center put a few shrimps, around this put a circle of chopped apple and celery and garnish with mayonnaise made pink with paprika.

**Tomato and Cucumber Salad.**—While these vegetables are still expensive, two or three tomatoes with one cucumber will serve several people if carefully cut. A firm, ripe tomato, if small, may be cut in halves, thus serving two, or, if large, cut in slices for three or four. Arrange these pieces of tomato on head lettuce and heap on each slice a spoonful of finely diced cucumber mixed with finely minced southern onion, then serve with either French or mayonnaise dressing.

A few dates and raisins added to Waldorf salad makes a change and is liked. Take twice as much apples as celery and a few nuts with a handful of dates and raisins, mix well and serve with French dressing on lettuce or in nests of water cress which is especially good at this season.

**Poinsettia Salad.**—Small, bright, red tomatoes may be cut in sections like a flower, either six or eight petals, and the center filled with a yellow dressing, served on lettuce or water cress, it makes a most attractive salad.

## WHEN FRIENDS DROP IN TO TEA.

The housewife who keeps a few things on her emergency shelf for the unexpected is never a hurried, hurried and anxious hostess. If she is a woman who lives in a small town, next door to a grocery, it is not so vital that she keep supplied, and yet even she may be surprised when the store is closed and there is no place to get a hurried supply. There are any number of things that the forehanded woman does on days that are rainy and things are at a standstill in various ways. She may prepare pastry all ready for the adding of the water, put it in a glass jar and keep it in a cool place, when a pie can be quickly prepared. Keep on this emergency shelf a jar of bread crumbs, some finely flavored cheese, grated, several cans of soup, a box of sardines, and salted codfish, as well as cans of salmon and tuna fish, a bottle of olives, a box of salted crackers, a few fruit cookies and ginger-snaps, a can of cream, jars of bacon and dried beef and other dainties which may appeal to the taste. These will all keep, except perhaps the crumbs and cheese. A can of boiled salad dressing is always a help in time of need; homemade pickles, catsup, preserves and jellies are always in order, with a few nuts ready to use, the dishes one may prepare will be many, and the care is all over when the shelf is well supplied. It should be a rule never to use one of these things without replacing it at the earliest opportunity. Another fine arrangement for the hostess who is apt to be disturbed at a sudden onslaught of company, is to have a carefully prepared menu (of three or four) with all the necessary recipes for preparing the dishes carefully written out on the sheet and hung where a glance will tell how to go about the preparation. Your meal may be partly prepared when the guests arrive, but with a glance at your menu lists you will be able to supplement or add something to your meal which will make it more suitable.

## ANCHOR HOOKED ON AUTO

The Benham, "Somewhere on Atlantic Coast," Lifted Five-Passenger Car.  
New York.—The destroyer Benham, on guard duty "somewhere on the Atlantic coast," was ordered to move. When the steam which tugged at the anchor chain it was found to be unusually difficult to lift, and more power was applied. When the anchor came out of the water it carried a five-passenger auto. The car was sold to a dealer and the funds divided among the crew of the Benham.  
Just how the car happened to be in the sea is not known, but it is supposed to have slipped from a distant ferry and to have been driven toward shore by the action of the tide.

## RETURNS TO SUBJECTS

Takes Back Some New Ideas About Victuals, Having Learned to Appreciate the Virtues of the Tastable T-Bone.

San Francisco.—Across the perilous channel leading to Tari Tari, northernmost of the equatorial Gilbert islands, the current averages 70 miles in 24 hours. But navigating it is simple compared to crossing Market street, this city, for Chief Tumbremma, eighty-five years old, Polynesian ruler of the far-away isle.

Chief Tumbremma is in San Francisco getting his first glimpse of twentieth century civilization, while nestled in the foliage of a 100-foot high royal palm on Tari Tari, hour by hour and every day, there sits a lookout, watching for a sail.  
But wary a sail. And if there was, it wouldn't do any good, because the natives couldn't get out and the vessel couldn't get in. The only pilot who knows the intricate waters of Tari Tari is Chief Tumbremma and he isn't sure he wants to go back, having tasted steam beer.

So He Came Along.  
Tumbremma came here uninvited and without a passport on the steamer Expansion, which he boarded to pilot into his balliwick. But the winds went wrong after he had sent his royal flagship back to port under command of his prime minister. For six weeks the Expansion tried to land, but could not, so it gave up the attempt and came here, bringing along the island's king.  
From the waterfront the captain of the Expansion took the chief in an automobile to the center of the city, and the hardy old fighting man trembled with fear. Trolley cars terrified him. He was escorted into an express elevator of a tall building and the lift made the longest trip on record there because His Royal Highness raised the roof the equivalent of two stories with his shrieks.

Clad in Regal Dignity.  
The chief boarded the Expansion in his regal dignity and nothing else, but when the vessel reached colder weather he put on his first habiliments; overalls, a shirt and shoes.

Mostly So.

Patient.  
"Is he a patient man?"  
"Very. Even the telephone service doesn't annoy him."

It's a good thing the child doesn't know that he is father to the man or he might get discouraged and quit.

## Kidney & Co.

(BY DR. J. H. WATSON)  
The kidneys and the skin work in harmony. They're companions, the skin being the second partner. If we are anxious to keep well and preserve the vitality of the kidneys and, also, free the blood from noxious elements, we must pay special attention to a good action of the skin and to see that the kidneys are flushed so as to eliminate the poisons from the blood.  
Sweating, by hard work or in a bath, at least once a week, helps to keep the skin and kidneys in good condition. Flush the kidneys by drinking plenty of pure water with meals and between meals. Occasionally obtain at the drug store Anurie, double strength, which will help flush the kidneys and the intestines. You will find that Anurie is many times more active than lithia and that it dissolves uric acid as hot water does sugar.

## A Well-Known Woman Speaks

South Bend, Ind.—"When I began taking Dr. Pierce's Golden Medical Discovery and Favorite Prescription I was suffering from stomach trouble, constipation, and woman's weakness. The 'Discovery' had been a favorite remedy for coughs with my mother. I used the two remedies off and on for nearly a year. I was relieved of the womanly trouble, and the stomach trouble improved. The Pleasant Pellets have also been used with the greatest benefit."—MRS. JOHN SHAPLEY, 613 S. Fellow St.  
Prescription and Discovery are put up in liquid and tablets. If not obtainable send \$1.00 to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and he will mail large package of tablets.

Breaking a Horse.  
A North Vernon citizen living at the outskirts of the city makes a specialty of raising fine horses, especially of the roze horse breed. The man's son, a youngster of nine years, was greatly delighted when his father brought home a wooden riding horse. Some time afterward the boy got an ax and broke the newly acquired toy. He was reproved by his mother, who was silenced by the boy's remark: "Papa told me the other day that a horse was no good unless it was broke."—Indianapolis Star.

## An Unappreciated Gift.

The veteran journalist, H. G. Hibbert, says Pearson's Weekly, tells of a chorus girl, the very dear friend of a wealthy nobleman, who one evening presented her with a priceless set of silver saucers.  
Later she was asked by a companion how she had spent the day.  
"Oh," was the reply, "those furs the duke gave me were full of gray hairs; and I've been picking 'em out!"

Tire Solicitude.  
"If leather keeps getting scarce, people not in the army may have to go barefoot."  
"Hope they do," replied Mr. Chuggins. "I'll create a popular movement to suppress the people who throw around nails and broken glass."

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 40 years ago. They regulate liver and bowels.—Adv.

## GAVE HIS CANE AWAY!

Mr. S. P. Benton, Kerrville, Texas, writes: "For several years prior to 1906 I suffered from kidney and rheumatic troubles. Was bent over and forced to use a cane. For these disorders I am glad to say I used Dodd's Kidney Pills, which proved to be the proper remedy. I am 64 years old, feel fine and once again stand as straight as an arrow. Dodd's Kidney Pills deserve great credit." Be sure and get "DODD'S," the name with the three D's for diseased, disordered, deranged kidneys; just as Mr. Benton did. No similarly named article will do.—Adv.

### Anticipate Your Wants on the Fuel Question

The best authorities seem to agree that there is grave danger, not only of high prices next winter, but also of an actual shortage of coal (the latter largely due to crippled transportation facilities and lack of miners.) If they are correct, the time is near at hand for all consumers to **THINK and ACT.**

Those who buy early and do a reasonable amount of storing will lessen the danger of shortage and will ALSO, in the event feared, save money. Many schools and other institutions, as well as factories, which usually buy in late summer, or as they need coal in fall and winter, are already buying and storing for future use. **THIS IS A TIP FOR YOU. CUSTOMERS WHO WISH ANY PREFERENCE FROM us next WINTER SHOULD, of COURSE, FAVOR us with their orders THIS SPRING and SUMMER.**

Think these things over and then phone or call on us. Let us cooperate in this matter, not simply as a matter of business sagacity, but ESPECIALLY as a public duty to our friends and customers.
