LITTLE SHORT OF MIRACLE

If Story Is True, This Englishman's Middle Name Must Surely Be Good Luck.

Lying on a path 18 months a leather wallet containing over \$140 was found by the loser after being unnoticed by hundreds that passed each day, writes an English correspondent. A dining-car conductor on the Great Western railway, who lives at Southall, left home one morning in June, 1920, and went to Old Oak Common, near Acton, where the dining cars are stored. From Acton station he walked through a private path used by the railway staff and leading to Old Oak carriage sheds. Later he went to Paddington station and worked the dining-car train to Plymouth. When he returned to London he discovered that he had lost his wallet. He had not the faintest idea where or how he had lost it, and although he made inquiries he could find no trace of it. The other morning he walked up the same private path on his way to work, as he has done scores of times since he lost the wallet, when he stopped for a moment, and looking on the bare ground just at the side of the path he was amazed to see his wallet lying there. He picked it up, and was further amazed to find that the contents had not been touched. The wallet was weather-beaten and the notes were soiled as though they had been soaked in rain, but when he found them they were dry. The path is used by hundreds of men every day.

INVALUABLE AID IN COOKING

British Journal Points Out How the Use of Thermometer Will Help the Housewife.

Every housewife is aware that the actual cooking of a dish is a very important factor of success or failure. A "hot oven" and a "moderate oven" are often referred to, and testing by holding the hand inside for a few seconds is a method frequently employed.

But there is no real dependency on such haphazard methods, since one person can bear much more heat than another. Therefore, in an efficient household a kitchen thermometer to register cooking heats should be considered as necessary as a clinical thermometer. There are two varieties of kitchen thermometers to be had. The cheaper kind is of white china, and can only be used for oven cooking. A more durable make, of brass, which costs a little more, can be used for testing frying fats, etc., and will not break so easily. An iron leg supports the thermometer, so that it stands upright and can be read at a glance when in the oven. Every degree of heat from low to high temperature is registered, and at the side the standard temperatures for cooking are printed.—Manchester Guardian Weekly.

Population in A. D. 2000.
According to Dr. Edward A. Ross, by the year A. D. 2000 the population of the United States will number about 223,000,000. Extremists are painting vivid pictures of our country, pointing out that the condition of China, Japan and India will be rivaled here. They predict a starving country with too many inhabitants and too little space in which to house them. In their minds are scenes of war, famine and misery as a result.

On the other hand, John S. Summer, secretary of the New York Society for the Suppression of Vice, says: "Overpopulation is not a menace to the peace of the world, because there is no overpopulation. It is not the physical fact of population, but the mental and spiritual condition of people which determines the question as a menace to continued peace."

Little-Known Washington Portrait.
Discovery of a long-lost portrait of George Washington by the American artist, Gilbert Stuart, in New York city, directs attention to the Stuart portrait of Washington which hangs in Memorial hall in the State Library building at Hartford, Conn. It was bought direct from the artist by virtue of a resolution of the general assembly in May, 1800. The understanding was that it had been painted by order of a committee from South Carolina, and was then declined on the ground that it was not a portrait of Washington.

A committee from Connecticut conferred with Gilbert as to a Washington portrait, and purchased the one he had painted for South Carolina.

New Harbinger of Spring.
There was a drumming roar above the city the other day, rising and waning and passing into distance. "Listen to her," said the man in the street, "that's the first plane I've heard for months. Sounds kind of good." His companion was equally pleased. "You know what that means, don't you?" he rejoined. "Means it's spring, that's what it means. We used to depend on the robins, but now a very different sort of bird flies when the weather gets decent again. Look at her, would you?" The gleam of a far-off wing as the plane banked, the sudden wind-borne stutter of sound, and spring's modern harbinger drifted beyond ken.—Portland Oregonian.

When She Has Gone.
"Woman's place is at home, and she should stay there," was the opinion of the municipal board of Versailles, France, when, some little time back, they considered a proposal to admit women in the higher municipal posts. And the report says that women should not be encouraged to apply for administrative positions, but should remember that they would do better to confine their activities to the home.

MAY BE PEAKS OF ATLANTIS

Azores, Madeira, Canary and Cape Verde Islands Possibly Mountain Tops of Vanished Continent.

There is a theory that the Aztecs and Incas of America, who had developed a civilization on this continent many centuries before Columbus came, were descended from the Atlantians, the people who inhabited a continent which set out in the Atlantic ocean, between Europe and Africa and the American coast.

History seems to reach back to Asia and Africa about 5,000 years before Christ and in the earliest historic times there was a tradition of a land far west of Africa having high mountains, valleys, plains and splendid cities. That land might have existed 10,000 or 20,000 years ago. It is thought possible that the Azores, Madeira, Canary and Cape Verde islands were some of the highlands and mountain tops of the old and vanished continent, the name of which has come to us from the early Greeks as "Atlantis."

Oceanographers, sounding and surveying the bottom of the Atlantic ocean, find deep valleys, mountain ranges, towering peaks and wide stretches of table land deep beneath the surface of the sea. There was a tradition in Asia and Africa at the time recorded history begins that the Atlantians were about to invade Africa and Asia, when their land was submerged. It might have been a vast disaster due to volcanic action. The bottom of the sea in that part of the world and the islands that rise out of it are volcanic and there are still active volcanoes in the sea and in the Azores, Canary and Cape Verde islands, which are supposed to be fragments of Atlantis.—Milwaukee Journal.

DIFFER AS TO GIANT RAY

Naturalists Divided in Opinion Concerning Structural Makeup of Monster Fish.

The great devilfish or giant ray, which abounds in the waters around Beaufort, S. C., and Captiva Inlet, Fla., has occasionally been found off New York and New Jersey. The furthest north it has ever been taken is Block Island, where one was caught last year.

This was 14 feet wide between the tips of the pectoral fins, 7 feet long from head to base of tail, and weighed 1,086 pounds. This is the only specimen known to have been weighed, but there are stories of fish that are said to have weighed 10,000 pounds.

Ask the Soda Fountain Clerk:

"Is It Carbonated Ice Cream?"

cream that is always safe, because it is infinitely purer than any other ice cream. If the clerk can't serve you "carbonated" ice cream, tell him that you must have it. Carbonated ice cream is the only ice made. We spend enormous amounts every year to manufacture this ice cream by the Heathmade carbonating process to make it the purest, hence the safest ice cream.

D and W

Most good dealers who sell ice cream realize that our ice cream is not only the best, but the purest made. Carbonating makes it so. Instead of freezing it in ordinary air we freeze it in a sterile atmosphere 100 per cent pure. It is carbonization which adds immensely to the flavor of our ice cream.

Better and Nicer

Your tongue will tell you when you taste carbonated ice cream. It is so much richer, more flavory, and smoother. Just as carbonated water brings out the flavor and aroma of delicate fruit juices which we use in manufacturing our ice cream. Be sure you get our CARBONATED ICE CREAM. Accept no other.

Dr. E. W. Guder of the American Museum of Natural History writes of the giant ray in Science, and says that naturalists who have described it differ as to whether it has a large spine or sting on its tail. The one caught at Block Island had none, but there was a wound on the tail where a spine was said to have been torn off. The late Theodore Gill, dean of American ichthyologists, doubted the spine, as have other writers, although some naturalists picture it with one.

Moon Cake Day Chinese Festival.

September 11 is a great day for all good Chinamen, for then occurs the feast of the Moon Cakes. The festival lasts all day and all night, and is celebrated by the eating of cakes made in the shape of the moon and liberally sprinkled with all sorts of seeds. All the Chinese grocers in the United States sell packages of these cakes, and the very poorest resident of Chinatown considers himself bound by the faith of his fathers to purchase at least one package.

The greater number of cakes purchased the greater is considered the purchaser's respect for the night's chief luminary, and some very black fate is believed to be reserved for the Chinaman who fails to eat a cake before the festival is over. This doom is expected to fall upon him before next Moon Cake.

Kipling as a Street Musician.

Kipling's verse, even where it is not slang, is rarely poetry, but it is, for the most part, clean and neat in its rhythmic swing, well adapted for the purposes of the music halls, easy to remember, even without tune, praiseworthy in its control of the means of clarity, and, in short, a genuine article of its kind. . . . Kipling is like a practised musician in that strange orchestra which we sometimes see in the street, clinging around one performer; he nods his head, and the bells tinkle about his pagoda-shaped hat; he stamps his foot, and the drumstick bangs the drum and sets the cymbals clapping on his back, and all the while he is playing the concertina with both his hands and perhaps blowing into a pump with his mouth. —Arthur Symonds, in London Quarterly Review.

Quaint Custom.

A quaint custom is still maintained in one of the old streets of the Strand, the London Times reports. This is the burning of a light in the hall of one of the houses all through the night when everybody is asleep. This light has a history, and marks an ancient privilege and bygone right-of-way. The light is

maintained by the Westminster council and not by the tenants of the house. The lamp-lighter enters at twilight and kindles the light, and on his round in the early morning he re-enters with a latchkey and extinguishes it. The light is the remaining symbol of a right-of-way formerly enjoyed by residents in the street to proceed to a spring of water in the basement, which was once their sole water supply.

Jackson's "Kitchen Cabinet."

"The kitchen cabinet" was a name given to a group of political advisers of President Jackson. They occupied no official positions, but were consulted by the President as private citizens. The principal members of this "cabinet" were Amos Kendall, William B. Lewis, Isaac Hill, Duff Green and Francis P. Blair. It was the custom of these unofficial advisers, whenever they called upon the President, to go in by the back door to avoid observation—hence the sobriquet of "kitchen cabinet," which is said to have originated among the Whigs.

Khaki.

To India, by way of England, we owe the word "khaki." There was a sect of Brahmins—and it is still in existence—who applied the ashes of cow-dung to their clothes and persons. They were called "khaki" because of that coloration—or discoloration. The word was naturally applied to the earthy or clay color in the uniforms of soldiers or sepoys by the British government. Hence the protective light-chocolate dye employed in British military uniforms.

Novelty for Jerusalem.

Jerusalem has passed through a siege and war without being damaged by the invaders or the besieged, for the first time in the history of the city. The British airplanes flew over the Holy city frequently to observe the movements of the Turkish forces, but no bombs were dropped on its historical buildings by order of General Allenby, the commander-in-chief. It was the eighteenth time the place had been captured since the city was built.

Weight Changes Every Hour.

We are lightest when we rise in the morning. Breakfast puts on a pound or so, but we lose some of this by lunch time, when we again add to our weight. After lunch back we go once more, though, as between breakfast and lunch, we retain part of the increase. Then comes dinner, which brings us up to our maximum. We have then gained, on the average, seven pounds during the day. Generally, therefore, the greatest variation during the 24 hours is seven pounds, the weight lost between dinner and breakfast.

Pink Milk.

If you are in doubt about the cream on your milk, add a tiny drop of spirits of salts. If the milk has been adulterated to give it a rich appearance, it will turn pink—and then you can turn the milkman pink by showing him how the trick is done! You can, by the way, also test your vinegar by the same method. If it is bogus vinegar a little spirits of salts will turn it a brilliant green.

NOTES FROM THE COURT HOUSE

(Continued from Page 1)

town met one Edward Coleman at the depot and entered with him into an agreement to rob a few places. They broke into the home of Fred Lane and stole jewelry of the value of \$66, also into the home of Wm. Hart where they took jewelry valued at \$63. They also broke into the hardware store of Griffith and Todd and stole some knives, watches, etc. After the burglary they both went to Freeport and Coleman disappeared and has not been located since. After the burglaries suspicion fell upon Perry and he was arrested at Forreton by Sheriff Decker. He signed a written confession detailing the burglaries and admitting his guilt. The property was not recovered.

On his plea of guilty, Perry on account of his age, was sentenced to the St. Charles School for Boys at St. Charles.

Coleman will be tried as soon as he is apprehended.

The trial of the case of S. J. Hurd of Mendota against Margaret R. Kirk of Kirkland, before Judge Irwin in the Circuit Court came to an unexpected conclusion, when at the close of the plaintiff's case the Court directed a verdict in favor of the defendant. The action was brought for the recovery of brokers commission amounting to \$4,000, alleged to be due the plaintiff by reason of the sale of defendant's farm. The jury was impaneled Monday afternoon and by order of Judge Irwin at the close of plaintiff's case returned a verdict "We, the jury, find the issues joined in favor of the defendant."

An appeal was asked for by the plaintiff to the Appellate Court and allowed upon the plaintiff filing bond in the sum of \$250.

On Wednesday afternoon a call of the Common Law docket was made by Judge Irwin and thirty-one cases were continued, in two the jury was waived and issues submitted to the court, four were stricken off the docket, and twenty more were set for trial.

The criminal docket was set for trial to follow the civil cases of Shano Bros. against Striglow, set for trial June 19, 1922. After the hearing of the case of Westlake against the Chicago Mil. & St. Paul Ry. Co. now on trial the court will adjourn for a week and will again convene for trial of cases on June 20, 1922.

Thursday, June 8, 1922, two additional cases were added to the rules which are now in force, which are as follows:

First day of each term and the second Saturday of each term is hereby designated as a day of court in which issues may be settled, and on such day any and all demurrers and motions in any case on the common law calendar can be called up by either party without notice and disposed of provided such motion of demurrer shall have been on file ten days before such hearing. This rule to be in effect on and after the October Term A. D. 1922."

Rule 6.
"All cases where jury is waived and cause submitted to the Court shall remain submitted unless for good cause shown the court shall change the order. This rule to be in force on and after the October Term 1922."

James Sherlock obtained a judgment by confession on Thursday before Judge Irwin against Amos R. Richardson, for the sum of \$77.05 on a judgment note.

A. C. Kennedy of DeKalb was allowed the sum of \$300 as solicitor's fees in the foreclosure proceedings brought by the First Trust & Savings Bank of DeKalb against Samuel B. Bradt, former guardian of Leonard Rowe, et al.

The Central Trust Company of Illinois, successor to the Royal Trust Co., which was appointed by a decree of the Circuit Court as trustee to assume and discharge the trusts created and provided for in the last will of Edward L. Mayo, deceased, filed its final report and was discharged.

The report states that Alice L. Stoll, daughter of Edward Mayo, deceased, one of the beneficiaries of said trust, died on July 23, 1911, leaving one child, Virginia M. Stoll and that the other beneficiary is Rosse E. Mayo, a son who is of age. That the trust expired by limitation on March 2, 1920 and consisted of personal property of the value of \$13,008.55 and certain real estate all of which has been turned over to the beneficiaries. The report was approved and trustee discharged.

Pipeclay for Mats.
Pipeclay acts as a preservative of rubber and makes one of the best mediums for treating the rubber mats used in automobiles. Oil and grease are rubber solvents and ruin the floor mats if they are allowed to remain on them. The mats should be wiped quite dry and then be pipeclayed. The pipeclay dries and sucks the oil out of the rubber.

Why "Spinster?"
The term "spinster" applied to an unmarried woman is an actual reference to the spinning wheel. In olden times women were prohibited from marrying until they had spun a full set of bed furnishings; thus, before their marriage they spent much time at the spinning wheel, and were, therefore, known as "spinsters."

Nature Note.
There never was an elephant that didn't look as though he ought to have his pants pressed.

OUR RAILROAD PROBLEM

(Continued from Page 1)

instead of being dissipated in constant efforts to release its throat from strangling cords of governmental restriction.

Every line of business in America depends, not ultimately but immediately and directly, on rail transportation. If transportation fails business falls. An emergency confronts us; and the CHICAGO JOURNAL OF COMMERCE will present, in a series of articles of which this is the first some definite constructive suggestions for meeting the emergency.

Business in every line must register at Washington in unmistakable terms, a command that the immediate issue of increased transportation facilities be settled now. The incidental issues, covering just distribution of the cost, are important and must be adjusted fairly, but they will have to wait.—Chicago Journal of Commerce.

Babylon Had Woman's College.
In an ancient Babylon province there have been discovered records on clay tablets belonging to the period of about 2400 B. C., showing that a woman's "college" or "university" had been established in a suburb of the city called Burna, and that women had equal rights with men in commercial, property and political affairs.

Oldest Man-Made Forest.
The oldest living forest planted by man is said to be that set out by St. Francis and his monks in the city of Florence, Italy. It was started in 1224 and since that time has been under the care of some supervisor interested in forestry. The forest is of silver fir and beech.

When Orange Was Banned.
There was a time when feeling in Holland was so against the Stadtholder that the sale of oranges and carrots was forbidden because orange was the color of the hated family. The Hollanders, however, finally came to tolerate the color.

Lacking Human Sympathy.
Most of us have come across people, otherwise good, but lacking entirely in the softer human qualities. They are austere, feelingless, hard, utterly devoid of sympathy. And, all because they have been denied that gift of affection when they were in the molding. Statistics prove that children from institutions are sadly lacking in affection. It is one of the greatest problems social workers must deal with.—Exchange.

Confidence.
The following scrap of conversation was overheard in a London motor bus, and deeply impressed those fortunate enough to catch the words. Said one fair passenger to another: "Between you and me, I don't seem to like your husband so much as I did." "And between you and me," said the other, "neither do I."—London Morning Post.

Has Battered Humanity.
Every heart that has beat strong and cheerfully has left a hopeful impulse behind it in the world and bettered the tradition of mankind.—Stevenson.

Remarkable Coincidence.
Two women of St. Johnsbury, Vt., who were strangers until recently, have the same name and their birthdays are on the same day of the month. Both have little girls of the same age, whose names both begin with the same initial.

Canadian Cities Far Apart.
The distance between Halifax, N. S., and Vancouver, B. C., by the most direct railway route, is 3,646 miles, which is 616 miles more than the distance between London, England, and Constantinople, Turkey, by the trans-European railway.

From Experience.
"Isn't this a pretty slow railroad?" said Brown. "That depends on circumstances," replied Green. "The only time it seems in any great hurry is when you happen to be running to catch the train."

Restoring "Dead" Tennis Balls.
"Dead" tennis balls are restored to life by a hand pump which punctures the sphere, fills it with air and seals the hole as it is withdrawn.—Stevenson.

KINGSTON DEPARTMENT

MRS. F. R. BRADFORD, Correspondent and Authorized Agent

Don't forget the movies Friday evening.
Harley Ball is driving a Ford touring car.
John Helsdon is driving a Buick touring car.
Ed. Meade of Kirkland was here on business Saturday.
Several from here attended the Chautauqua in Genoa.
Rev. Madison is home this week from his school in Chicago.
T. Bollinger of Sycamore was a business caller here Wednesday.
Violet Gustavason spent a few days last week with Lola Carlson.
Mrs. O. A. Koch is visiting relatives in Sterling this week.
Mrs. Amanda Moyers of Sycamore called on relatives here Saturday.
Miss Ina Wickler of Fairdale called at the Otto Swanson home Monday.
Mrs. H. Campbell of Sycamore is visiting her sister, Mrs. Harriet Webster.
Mr. and Mrs. Frank Parker and Ira Bickler motored to Belvidere Friday.
Mrs. Clarinda Cooper of Genoa spent Tuesday with Mr. and Mrs. Mable.
Miss Doris Sherman who has been teaching in Berwyn is home for the summer.
Mr. and Mrs. Leslie Roser entertained Miss Ida Dresser of DeKalb Saturday.
W. H. Bell motored to Hinckley Thursday with Mr. and Mrs. Cohoon of Rockford.
Mr. and Mrs. O. L. Koch of Hampshire visited Mr. and Mrs. O. A. Koch Friday.
Miss Nellie Bell left Tuesday for Lake Geneva where she has work in the summer.
Mr. and Mrs. P. J. White left Wednesday for a visit with relatives at Hinckley.
John Moden of Meerville, Penn. nephew of Mrs. E. A. Thompson, is visiting here.
L. H. Branch attended the Sycamore H. S. Alumni and banquet Friday evening.
Mr. and Mrs. Nels Pearson entertained Mr. McLaughlin of Chicago over Sunday.
Floyd Gustavason who has been attending school at Urbana is home for his vacation.

Mr. and Mrs. Fred Granger and son, Arthur, motored to Sycamore on business Monday.
Leo Smith, Alfred Deveril, Henry Lanen, and Frank King motored to Woodstock Tuesday.
Miss June Miller spent from Thursday until Saturday with Berneldine O'Brien in Sycamore.
Mrs. C. G. Chelgreen, daughter, Leona, and son, Kenneth, motored to Belvidere Wednesday.
Mr. and Mrs. Alec Crawford and baby of Garden Prairie were calling on relatives here Friday.
Mr. and Mrs. Ernest Boggy and children, Paul and Ernestine, motored to Elgin Tuesday.
Verne Baker of St. Cloud, Minn., and Clara Baker motored to Sycamore and DeKalb Friday.
Mr. and Mrs. D. J. Tower and Mrs. Fred Taylor and children motored to Rockford Thursday.
Mr. and Mrs. Verna Baker returned Monday evening to their home in St. Cloud, Minnesota.
Barnell Bell left Monday for Wheaton where he will work for Mr. Carlson in a grocery store this summer.
Mr. and Mrs. Stone and daughter, Stanley, of Chicago were week end guests of Mr. and Mrs. Walter Cole.
Mrs. Sadie Harrington and son of DeKalb spent Saturday and Sunday with her mother, Mrs. D. B. Arhuckle.
Mrs. Chas. Phelps and her Sunday school class of about fifteen children enjoyed a picnic dinner in the park Friday.
Ed. Stuart and sister, Alta, motored to DeKalb Sunday and spent the day with their sister, Mrs. Emma Tazewell.
Ralph Ort, Ralph White, P. G. White and Herman Hoffman spent from Thursday until Sunday at Twin Lakes fishing.
Mr. and Mrs. John Lennord motored to Rockford Sunday afternoon with Mr. and Mrs. Chas. Lennord of Belvidere.
Mrs. Ralph Ort and daughter, Betty Jean spent a few days last week with her parents, Mr. and Mrs. Scott at Genoa.
Mrs. Allie Lucas returned to her home in Belvidere Wednesday after spending several weeks with her sister, Mrs. E. C. Burton.

Mr. and Mrs. E. J. Vosburg and son, Lyle, and Mrs. Chas. Arhuckle spent Sunday with Mr. and Mrs. Oscar Johnson near Belvidere.
Mr. and Mrs. D. W. Ball and grandson, Will Ball, motored to Huntley Sunday to the latter's parents, Mr. and Mrs. James Ball.
Kingston won the ball game Sunday played with Elgin 3 to 1. Next Sunday they play Simms Colored Team from Sycamore in the Park.
Mr. and Mrs. Chas. Lennord and Miss Mabel Lennord of Belvidere spent Saturday night and Sunday with Mr. and Mrs. John Lennord.
Mrs. Anna Baars and daughter Florence, and George Walters of Genoa motored to Garden Prairie Sunday to Mr. and Mrs. Arthur Brittles.
Union services were held in the M. E. church Sunday morning and in the Baptist church Sunday evening where children's day exercises were held.
Mr. and Mrs. R. H. Sternberg and children are visiting her parents, Mr. and Mrs. Harlow in Aurora. Mr. Sternberg has closed the meat market here.
Mr. and Mrs. Merle Worden and children and Mr. and Mrs. Benj. Knappenberger attended the funeral of the latter's cousin, Robert Holmes at Rockford Monday.
Mrs. John Helsdon, Barnell Bell, Margaret Tazewell and Sidney Willson attended the graduating exercises at Elgin Friday night. Nellie Bell was a graduate there.
A stork shower was held in the basement of the M. E. church Tuesday afternoon for Mrs. Madison. Refreshments of cake, sandwiches, salad and coffee were served.
Mr. and Mrs. Elmer Johnson of Hinckley spent Sunday at the Ralph White and daughter, Winifred, came home with them after spending several weeks in Hinckley.
Mrs. Robert Worden and daughter, Jane, and Mrs. John Hansaw and daughter, Virginia, spent Saturday night and Sunday with their parents, Mr. and Mrs. S. Witter.
Mr. and Mrs. Paul Helsdon and children of Bensonville came Saturday night to the former's parents, Mr. and Mrs. John Helsdon. Mr. Helsdon returned home Sunday.
Mr. and Mrs. Merle Worden and children motored here from Hastings, Florida. They arrived here Friday at the home of the latter's parents, Mr. and Mrs. Benj. Knappenberger.
Oswald and Walter Ackerman of Chicago are visiting their grandmother, Mrs. Louise Ackerman. They rode bicycles out, leaving Chicago at 4 a. m. and arriving here at noon.
J. S. Harris is fixing the rooms over Frank Wilson's store for a club room for the boys here. It will be called the Roger Brown club. Two rooms will be furnished for ladies' rest rooms.
Mr. and Mrs. Ed. Dibble and Mrs. Fred Stark and baby motored to Elgin Saturday. Mr. and Mrs. Dibble spent the day with Mr. and Mrs. Fred Hanson and Mrs. Stark and baby with Miss Edna Benes.
Mr. and Mrs. R. S. Tazewell and children, Mrs. E. C. Burton and Mrs. Allie Lucas attended the graduating exercises in Sycamore Thursday night. Miss Buella O'Brien formerly of this place was one of the graduates.
J. S. Harris took the following boys to Chicago Saturday: Herman Mahle, Donald Rankin, Paul Sherman, Allan Jones, Marion Bradford and Henry Stark, Jr. They went to Lincoln Park, the Field Museum and to the State and Lake Theatres.
Mr. and Mrs. Chas. Aves and Mrs. Harold Schandemeier attended the funeral of Mrs. Sophia Koeneke at Belvidere Monday. Burial was in Kingston cemetery. She was the mother of John and Will Koeneke and made her home with her daughter, Mrs. Puls of Belvidere.

Mr. and Mrs. Fred Hanson of Elgin and Mr. and Mrs. Bethke and children, Mrs. Fred Helsdon and children and Mrs. Robert. Helsdon and daughter of Chicago enjoyed a picnic dinner and supper in the park Sunday with Mrs. Nina Moore, Mr. and Mrs. E. E. Bradford and son, Mrs. Floy Bell and sons and Mr. and Mrs. F. R. Bradford and son.
Miss Alta Stuart, who has been teaching in Sioux City, Iowa, arrived at the home of her brother, E. J. Stuart Saturday for a few days' visit before starting on her trip to Europe. She is going with a party of friends from Sioux City. They will visit the following places: Scotland, England, Belgium, Holland, Germany, Austria, Italy, Switzerland, France, The Passion Play and the Battlefields. They leave June 17 from Montreal on the S. S. Tunisian and arrive June 27 at Glasgow on the Clyde. The return trip will be made on the S. S. Olympic arriving in New York August 31.
Mrs. Allan May entertained the grade pupils Monday afternoon in memory of her son Roger's birthday. He would have been seven years of age. She took them for an auto ride going to DeKalb, Cortland, Sycamore and Genoa. When they arrived at the home of her father, J. S. Harris they gathered some flowers and went to the cemetery where they decorated Roger's grave and also the grave of Isabelle Kiefer. They went from there to the confectionary store where they were served ice cream and cake. Among those who went were: Lennord Witter, Wayne Hoppy, Gyle Campbell, Arthur Knappenberger, Florence Laurent, Georgia Burton and Mrs. O. A. Koch.
Among those who attended the eleventh annual Eychaner reunion held in the park were: Mr. and Mrs. Edwin Eychaner and family, Mr. and Mrs. Geo. Eychaner and family, Mr. and Mrs. Loyd Eychaner and family, Mr. and Mrs. Ray Eychaner and family of Esmond, Mr. and Mrs. Walter Eklund and family, Mrs. Arthur Roach and family, Mr. and Mrs. Ernest Swanson and family, Mrs. Ella Dibble of Kirkland, Mr. and Mrs. James Decker and family of Cortland, Mr. and Mrs. Frank Wyke and family of Huntley, Mr. and Mrs. Herman Hoffman and family, Mr. and Mrs. Adam Shaw, Mr. and Mrs. Lester Decker and family, Mark Eychaner of Kingston, Melvin Eychaner of Sycamore and Mr. and Mrs. Jay Eychaner and children of Maple Park.

at the New Lebanon store.
Mr. Whiteman of Grays Lakes called at E. Gray's Saturday.
Mrs. Ralph Ort and daughter of Kingston spent the week end at Donnelly Grays' home.
Mrs. J. W. Warrington of Hampshire spent Friday at the E. Gray home.
Swanson Bros. of Sycamore are installing Deleo lights in Chas. Coon's residence this week.
The Misses Martha, and Lillie Botcher spent Sunday at E. Greve's home at Plato.
Henry Japp and family called at J. Stoffregen's Sunday evening.
Roy Hartman spent Thursday and Friday at the J. Dumolin home.
Mr. and Mrs. William Gray, T. Roush and family motored to Crystal Lake Sunday and spent the day at the home of Mr. and Mrs. Curt Wolter.
A very enjoyable time was had by all at the school picnic Friday at the New Lebanon school by Mrs. Edgar Gray and pupils. To the one hundred dined present a bounteous dinner and ice cream were served. Parties who left dishes at picnic may call for same

Magnetizing Steel.
Magnesium is put into steel or iron by induction from some other magnet or by electric action. If a piece of steel is brought into the field of a magnet it becomes magnetized, and if it is touched or stroked with one end of the magnet it retains this magnetism. Another method of magnetizing is to wrap the steel in a coil of wire, through which is passed an electric current. The steel gradually and slowly loses its magnetism, particularly if it is heated to a high temperature or is subjected to mechanical treatment such as hammering, twisting, etc.
Back and Forth.
"Minister," declared the outspoken parishioner, unable longer to stifle his feelings, "whenever you launch forth on one of your sermons I go to sleep." "That's a compliment, my dear sir!" rejoined the clergyman enthusiastically. "It shows that my sermons have the requisite smoothness and soothing power to put to sleep the person who is incapable of appreciating the finer qualities and deductions that keep the others awake."—New York Sun.
Ostrich Eggs as Food.
Mr. Gallian, diet expert, who has been experimenting with ostrich eggs supplied by the New York zoological gardens, declares that the food value of the ostrich egg is about the same as that of the domestic hen's egg. The flavor is identical and, although, the ostrich eggs contain less protein than meat, they have more fat and a fair amount of phosphorus and iron. One egg will make an omelet sufficient for 30 persons.—The Argonaut
