Mr. Peterson, father of Mrs. Geo. Loptein, formerly of this city, lies at his home in Sycamore with a badly torn scalp and a wrenched back, due to a fall on the Preston farm Tuesday afternoon. Mr. Peterson, who is about 65 years of age, was up on a scaffold and in pulling a nail he lost his balance, falling backward to the ground, a distance of about eighteen feet. In the fall he struck a post, tearing a large portion of the scalp from the head. He struck the ground an instant later, his wounded head plowing a furrow in the soft dirt. Dr. T. N. Austin of this city was called and gave the victim first aid. It required twenty-five stitches to replace the scalp, but the doctor thinks that no serious results will follow.

In almost any narrow way of living a man's life may be exceedingly simple, but if he wishes to escape from this narrowness, unless circumstances are much in his favor, he has to blaze a pathway through all sorts of hindrances, and often very much uphill, before he can get to the place of wider influence or outlook. It takes courage; it takes great perseverance; it takes an unconquerable hope to do this.

Driven out by hunger, he discovered a thin wisp of smoke rising from a clump of bushes inland, and crawled carefully to study the type of savages about it. Just as he reached the clump he heard a voice say: "Why in — did you play that card?" He dropped on his knees and, devoutly raising his hands, cried: "Thank God, they are Christians!"

## The Smallest Pony

A pony belonging to Clayton Cassidy of Cherry Valley is declared to be the smallest pony colt in the world. The little animal stands 23 inches high and weighs 24 pounds. It was born last Thursday, and appears to be an entirely normal colt in every particular with the exception of its size. It is perfect in shape and is brown and white in color.

**Remains of Old Civilization.**  
Scattered throughout the Caroline Islands, notably at Ponape and Lele, are massive ruins, one of a sort of Venice, whose origin is wrapped in mystery. Hundreds of acres in some localities are covered by the remains of walls, canals and earthwork of a stupendous character. There are old roads paved with stone blocks, ancient stone platforms, and on the lagoons ruins of what were once fish weirs. The islands offer a rich field for the archeologist.

**Take Their Payment That Way.**  
Some men want so much praise for an unselfish act that it amounts to liberal compensation.

Carleton, Oregon.

Editor:—  
As I sit here in this land of roses and other beautiful flowers my thoughts go back to Genoa and the friends there and oh how I wish I could step in with a bouquet of these beautiful roses to cheer and brighten the sick and shut-ins so many miles away. I thought I would send you a few lines this afternoon while I have a chance for the folks are away and I do not have to talk. Mrs. Hollebeak and I left Davis Junction Wednesday noon and had a very uneventful trip. Wednesday afternoon it was awfully warm and dusty. While we were going over familiar ground I did not care so much for the scenery, but after that all was new altho not very interesting thru the sand and sagebrush until we came in sight of the snow capped mountains. It was 92 degrees in the Pulman but regardless of this we had a very

agreeable crowd. We reached Portland, Oregon, at 12:45 Saturday and my daughter, Mrs. Stephens, and a cousin were at the depot to meet us. Mrs. Hollebeak's friends at Portland came for her and she stayed in that city until Thursday and took in the rose show when she came on down to Carleton. I came right to Carlton Saturday and my daughter had planned that we should go back and see the electric parade Tuesday night but when I could see roses in every direction I did not care to go, but the roses here are certainly worth coming many miles to see. The verandas are covered with one mass of bloom and the yards full from the Portland pride, as large as a saucer, to the baby climbers about the size of a quarter and all sizes and colors between. One thing I noticed is that they are not near as fragrant as our roses at home if they are so much more beautiful. Mrs.

Hollebeak expects to go back to Portland and take a trip to the mountains with her friends later and before she returns to Genoa she will visit friends in Denver and Boulder, Colo., and go home via Des Moines and Casey, Iowa. I expect before returning to visit my sister-in-law, Mrs. M. E. Allen, and other relatives at Chehalis, Wash., besides more friends and relatives near here. This seems to be quite an enterprising little place of about 600 inhabitants and they seem quite contented and happy. If I find anything I think will be of interest before I start back I may write again but will stop for now. We watch for the Genoa paper as eagerly as for a letter from home. Best wishes to all from  
Abbie J. Patterson.

Passing.  
"God love the world," he breathed, and the flesh sank from him. Death—it was but the breaking of a rusty scabbard to loose a flashing blade.—
