GOATS LOSE ANOTHER FAST BUNCH AT ROCHELLE TAKE THEIR SCALP

Twice a Pretty Game and Genoa loses by Only Two Scores—The White Sox Win from DeKalb Y. M. C. A.

The Goats were again up against a streak of hard luck at Rochelle, not thru any fault of their own, for they played the game without a mark in the error column. They made as many hits as Rochelle but the latter made the hits where they did the most good. The boys have no kick on the umpire but lost the game with good grace. No team need be ashamed of a score 3 to 1 when playing with Rochelle which has a faster team than DeKalb, that is, when DeKalb uses only nine men. There were several sensational features, the most prominent of which was Patterson's pretty work at short. The doctor never will forget how to play. Kirby made a double, unassisted, at first and Neurauter won applause from the bleachers with a running one hand catch in left field.

The tale is told thus:

WHITE SOX-DEKALB Y. M. C. A.

The White Sox put it all over the DeKalb Y. M. C. A. team last Saturday, the score being 12 to 2. At no stage of the game did the Barb City lads have even a chance to win. Salander who pitched for the Sox had no trouble in fooling them with his snake curves, while Gregory, the DeKalb pitcher, was pounded without mercy. Lauman surprised the fans by making three hits out of four times at bat, Seaboldt went him one better and secured four hits out of five times up.

"DORA THORNE"

Drama by Excellent Company at Opera House Friday Evening

"Dora Thorne" a dramatized novel of the present season, marks a new departure in melodrama. The story of the play follows the book accurately enough to permit the use of the title, but the playwright has chosen the incidents and happenings with excellent taste, and woven them into a play that is interesting in the extreme. The audience can not help but engage themselves sympathetically with every turn of the fortunes of "Dora Thorne," a girl whom the English would call "low born," who won the affection of and married the duke's son. The resultant plot may be mapped out, but the treatment of her natural girlish exuberance in contrast to the habitual reserve and repression of the manner aristocratic, must be seen to be appreciated. A large share of the success of the performance is due to the cast, which is strong throughout. Genoa opera house, Friday, Sept. 1. Prices, 25, 35, 50c.

SCHOOL OPENS MONDAY

Everything in Shape for the Fall Campaign

Everything is now ready for the opening of school next Monday. Teachers and pupils have had a long rest and will resume their duties with renewed energy. All signs point to a most successful year. Prof. Stout has several new ideas which will take on definite form during the next few months. He accomplished wonders last year and is still ready to push forward. He will be assisted with an able corps of teachers, most of whom have stood the test.

The building has been put in the best shape possible by Janitor Edsall. It has been thoroughly cleaned from top to bottom and the grounds are in excellent shape.

Let us all take more interest in the school than ever this year. Co-operation of parents, board and instructors would accomplish much more than one can realize.

MARRIED LAST JULY

NEWS COMPLETE SURPRISE TO GENOA FRIENDS

Took a Trip to Milwaukee on the Twelfth of July where the Knot was Tied—Both from Genoa

James Mansfield of Elgin and Miss Zula Hewitt of Chicago went to Milwaukee on the 12th of July where they had an interesting interview with a nuptial knot manipulator. There was no serenade nor crowd of admiring friends to meet them when they returned from the Gretna Green, not because the young people are not popular. They simply failed to advertise the event. In fact it was not until last Friday that the bride and groom came to Genoa and let their parents into the secret. Even the bride's sister with whom she has roomed in Chicago all this time had no intimation of what had taken place. Mrs. Mansfield will remain in Chicago this winter and in the spring they will commence house-keeping in Elgin.

The bride is a daughter of Mr. and Mrs. Ash Hewitt of this city and always resided here up to about two years ago. She is a graduate of the Genoa high school and taught school several terms after graduating. During the past two years she has been employed as stenographer for the Sears-Roebuck Co. in Chicago.

The groom is a son of Mr. and Mrs. James Mansfield who reside on a farm near this city. He is popular among his associates and has a lucrative position in the watch factory at Elgin.

Both of the contracting parties have many friends in Genoa who can wish them nothing less than a pleasant voyage on the matrimonial sea.

WILBUR C. LUCE

Passed Away Monday Morning after Great Suffering

Wilbur C. Luce, the Eureka employee who recently submitted to an operation at Sherman hospital, Elgin, died at his home in this city Monday forenoon. He had been in great pain for many days and death could no more than be a relief to him.

Mr. Luce was born at Amboy, Ill., June 16, 1873. He spent many years in that city and was married there on April 11, 1902 to Miss Hattie Frans. Shortly after this marriage Mr. and Mrs. Luce went to East Plato and then came to Genoa where they have made their home for about two years. Besides his wife Mr. Luce leaves his parents, Mr. and Mrs. John Luce of Amboy, five sisters and five brothers.

The deceased was a steady, hard-working man who made many friends. About nine months ago he united with the Modern Woodman camp. He was a conscientious Christian man, a member of the M. E. church on probation and in his dying hours the happiest thought of his life was that he had made the start in a Christian life.

Funeral services were held at the M. E. church at 9:00 o'clock Tuesday morning, Rev. T. E. Ream officiating. The body was shipped to Amboy for interment.

Our stock of furnishings is always complete and reasonable. Holtgren.

THREE JURORS CURED

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some sousse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and went to the drug store for a certain cholera mixture, but the druggist, sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea remedy instead, saying that he did not have what I had sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." STRANGE ADVICE!

Dr. G. G. Green gives alert personal attention to his great humanitarian contract.

In our Almanac for many years past we have given unusual advice to those afflicted with coughs, colds, throat or lung troubles or consumption. We have told them if they did not receive any special benefit after the use of one 75-cent size bottle of German Syrup, to consult their doctor. We did not ask them or urge them to use a large number of bottles, as is the case in the advertising of many other remedies. Our confidence in German Syrup makes it possible for us to give such advice. We know by the experience of over 35 years that one 75-cent bottle of German Syrup will speedily relieve or cure the worst coughs, colds, bronchial or lung troubles—and that, even in bad cases of consumption, one large bottle of German Syrup will work wonders. New trial bottles, 25c; regular size, 75c. At all druggists.

OUR FASHION LETTER.

Bracelets Made of Narrow Black Velvet Ribbon.

A REVIVAL OF AN OLD FASHION.

Gauntlet Gloves With Tailor Made Dresses—Saucer Shaped Hats of Chip—A Novel Embroidery—Fashions For the Little People.

The old fashioned style of wearing black velvet ribbon around the wrist tied in a small bow is revived. A pretty pendant or locket suspended about the neck on velvet ribbon is another quaint style.

One of the fashion freaks of the moment is the wearing of footwear to match frocks. Kid and suede shoes are being dyed every smart shade. Blue, red and green tones have been brought

shades of pink and green. On a white frock the effect is very dainty. The morning dress in the cut is of black wool muslin. The blouse and skirt are both box plaited, the latter falling out free. The crossed fichu, plastron and rosettes are of crape, and the folded belt is of dull silk.

DRESS ACCESSORIES.

Pastel tints flourish particularly in French serge and soft faced cloths, and there are very delicate tints for silk, silk and wool and light woolen material. A smart color is a pale willow green. This shade is especially pretty in taffeta and double width oriental satin, which is so much used for even-

CHILD'S DRESS OF BATISTE.

ing gowns and wraps. Foulard silks are still much worn in spite of newer varieties. Gowns of this silk are cool and comfortable when lined with muslin.

An attractive stock is made of belting ribbon of any desired width. A piece of the ribbon fits about the throat. Directly in front, commencing from the top of the neckband, are two pointed tabs of ribbon placed one over the other. The under tab is rather longer than the top one.

A pretty idea was carried out on a lawn dress, which was adorned with a series of two inch tucks by splitting each tuck at the edge and inserting a ruffle of narrow lace. This means saved the trouble of cutting ruffles and mounting them on the skirt.

Silk is not as much used as a lining for thin materials as muslin. All ruffles on smart dresses are put on with a heading.

The child's dress in the cut is of embroidered white batiste, and the flat collar, cuffs and skirt border are of English embroidery. The blouse waist is smocked into a square yoke. The belt of blue silk has a gold clasp in front and ties in a bow in the back.

FACTS AND FANCIES.

Have you noticed how popular hoods are on evening and day wraps? Indeed the smart wrap is becoming more and more negligee, and in some cases it is very like the Arab's burnoose.

The fashion of combining coarse lace with the finer varieties still finds favor.

MILLINERY NOTES.

Some of the saucer shaped hats are very smart for tailor made wear. They are formed of chip and are very simply trimmed with a band of velvet round the crown and a binding about the brim, which toward the left of the front

is slit up so that the liberated sides can be raised and in this way leave in full view the pretty coiffure beneath.

Some of the smart new belts are made of interlaced strips of leather. There is a strange fad in Paris to buckle the belt in the back.

Plateau shapes are supplanting the tip tilted hats in favor, and the tendency of hats is an increase in the height of crowns.

A novel embroidery that is wonderfully pretty and effective is carried out in delicate realistic coloring. For instance, a design is worked in soft

and entire dresses made of imitation Irish point are trimmed with narrow mechin lace, put on either in a scallop or in key pattern, followed by a narrow edging of black velvet. All lace gowns are lined with chiffon as well as with soft satin and therefore are not by any means cheap creations.

There is a new French sailor hat that is very pretty. The brim is of white manila straw and the crown of hand embroidered muslin. The trimming consists of an albatron bow of cream colored velvet.

There is one sleeve that is permitted to be large this year. It consists of a tight undersleeve, generally of lace, ending at the elbow with a tiny ruffling. Over this are five circular ruffles without fullness made of the gown material.

No self respecting sleeve now stands up above the shoulder line. Another point to remember is that all sleeves or cuffs or, in fact, anything that covers the arm below the elbow must be tight fitting.

The blouse illustrated is of accordion plaited china silk hung from an indented yoke of heavy lace. Outlining the yoke and running down the blouse to the waist are braided bands of the silk. The puffed elbow sleeves are held with braided bands.

JUDIC CEOLLET.

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters, S. A. Brown, of Bennettsville, S. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. Edges That Last

Probably you have bought edged tools made of steel that was crumbly, or too soft to hold an edge, or so hard as to be brittle. You may have bought them for good tools, too. There is, however, a sure way to get tools with edges that last. It is simply to ask for the Keen Kutter Brand when buying. Keen Kutter Tools have been standard of America for 36 years, and are in every case the best that brains, money and skill can produce. They are made of the finest grades of steel and by the most expert tool makers. As a complete line of tools is sold under this brand.

KEEN KUTTER

The draw knife shown here is an example of the excellence of Keen Kutter Tools. It has a nicety of balance and "hang," which has never been successfully imitated, and it is made of the best steel ever put into a draw knife.

Yet the Keen Kutter Draw Knife is no better than all other Keen Kutter Tools.

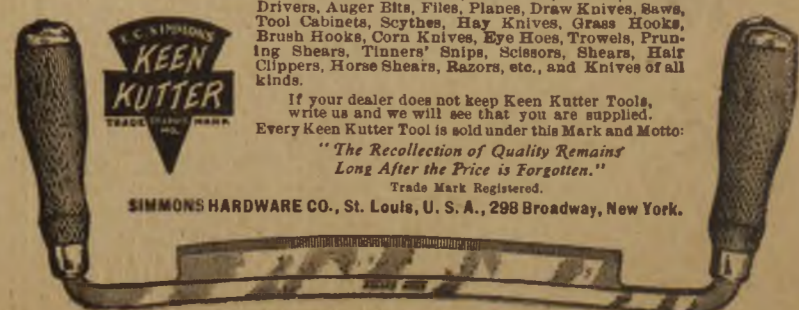

The Keen Kutter Line was awarded the Grand Prize at the St. Louis Fair, being the only complete line of tools ever to receive a reward at a great exposition.

Following are some of the various kinds of Keen Kutter Tools: Axes, Adzes, Hammers, Hatchets, Chisels, Screw Drivers, Auger Bits, Files, Planes, Draw Knives, Saws, Tool Cabinets, Scythes, Hay Knives, Grass Hooks, Brush Hooks, Corn Knives, Eye Hooks, Trowels, Pruning Shears, Tinners' Snips, Scissors, Shears, Hair Clippers, Horse Shears, Razors, etc., and Knives of all kinds.

If your dealer does not keep Keen Kutter Tools, write us and we will see that you are supplied. Every Keen Kutter Tool is sold under this Mark and Motto:

JAPANESE ART.

The Japanese are a wonderful people. Their arts and crafts have long been the admiration of the world. Not only do they produce the most exquisite creations in metal and porcelain,

but they even take living animals and plants and by sheer persistence cause them to alter their natural shape and growth. Any effort to paint the petals of the lily or add fragrance to the rose can only be as futile as are the attempts so often made to imitate the glow of health on the human skin by the use of paints and cosmetics. The color of the complexion is due to a pigment on the inside of the skin and its glow of bloom are due to the pure red blood which fills its vessels. Any attempt to imitate this color by applications on the outside simply give a dull dead surface, and their continued use produces a thickening of the outer layer causing the complexion to assume that "muddy" look which is so disfiguring.

Nature never intended that women should suffer from physical disabilities at certain periods, and too often women feel that the great distress they suffer at these periods is only natural. The fact is the women who live in the open air and do physical labor are little troubled by the pains and ills that our delicate, house-born women suffer. Dr. Pierce's Favorite Prescription is a womanly tonic that has sold more largely in the United States than any other compound prescribed for the diseases of women.

Dr. R. V. Pierce, the well-known specialist, is chief of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y.

This wonderful remedy therefore stands absolutely alone as the only one possessed of such remarkable curative properties. It is a medicine which has stood the test of a third of a century, and numbers its cures by the thousands. It is a perfectly safe tonic in any condition of the system, being entirely vegetable.

Marengo Foundry Co. Awarded Contract for Laying Mains at Huntley—Celebrated 100th Anniversary

Bureau county has eighteen blind people, and its board of supervisors has granted each one a pension of \$150.

The Marengo Foundry and Machine Co. was awarded the contract for putting in the new system of water works at Huntley last week. About 7,000 feet of mains are to be laid and the price to be paid is \$6,000.

The grocers of Marengo have combined and will have all their wagon deliveries made by one man, who will be paid by each firm pro rata, thus doing away with the expense of a horse and wagon for each store.

The 4th annual reunion of the 105th regiment Illinois Volunteers will be held at Glen Ellyn, Saturday September 2. This is also the anniversary of the surrender of Atlanta. Following the surrender of the city, this regiment remained there until the famous march to the sea was begun, and in which the 105th took an active part.

Mrs. Sally C. Cotting of Richmond celebrated the 100th anniversary of her birth on Tuesday. It was an event of uncommon interest at Richmond, where the stores were closed during a part of the afternoon from 2 until 5 p. m. Mrs. Cotting received her friends at her home—in the house she has lived for sixty years.

Seven thousand seven hundred abandoned wives is the record of New York City for the past year. It is asserted that Chicago shows a still larger list. It is incredible, but the figures are said to be correct. If true, it shows depths of crime and depravity that are appalling. Two things are given as the principal causes; drink and other women, especially drink. The first is primary in ninety cases out a hundred.

The following story is told of a farmer in a neighboring town who burns the candles at both ends when it comes to hiring hands. He hired a promising young man to work for him, and at 3 o'clock the next morning called him. About fifteen minutes later the hired man went down with his grip. "You ain't going to take that grip to work, are you?" asked the farmer. "Naw," replied the young man scornfully, "but I'm going to find some place to stay all night."

Farm Wages

The farm hand problem is an interesting one in Illinois. A report published by the Illinois state board of agriculture shows the average wages paid in each county for the season of 1905. In the northern division of the state the average wages per month are with board, \$25 without board \$33. In two counties, Henry and LaSalle, the average wages are \$27 with board and \$35 without board. In Carroll county the figures are \$26 and \$37 showing a difference of \$11 on account of board. In the central division wages are still lower than in the northern the average being \$21 with board and \$27 without board. Wages are still lower in the southern division viz, \$18 with, and \$24 without board. The lowest wages in the state are paid in Saline county, \$13 with board and \$20 without board.

In only eight of the counties is the supply of labor equal to the demand. Strangely enough Saline with wages at \$13 and \$20 is one of the eight. Carroll county with high wages \$26 and \$37 has only 72 per cent of the hands she needs.

ONE CHILD EACH YEAR

Alexander Dowie Lays Down Another Strenuous Law

In connection with the announcement recently made by Dowie at Zion City that hereafter all faithful members of his church who marry must first have his written consent or else the marriage will not be recognized by the church, it develops that the "first apostle" has gone a step farther and means to direct to a certain extent the matter of Zion's birth.

Dowie has always expressed admiration for President Roosevelt, and has always opposed race suicide to the greatest possible extent, although he himself had but two children.

Now, however, in order to show how he feels on the matter of race suicide, which he touches upon frequently in his sermons, Dowie has issued a command that from now on every couple married in Zion shall lead a little lamb to the baptismal font each year.

One child a year is to be the rule, and from now on it will only be necessary to ask a man how long he has been married to know the exact size of his family.—Rockford Register-Gazette.

POISON IVY ABUNDANT

Can Easily be Distinguished from Other Varieties

Poison ivy is growing in abundance in the woods and along the roadsides this summer. The season during which there has been so much rain and warm weather has been especially favorable to the growth of all kinds of plants.

The poison ivy can be distinguished by the fact that its leaves have only three leaflets. Its flowers are in loose, slender, auxiliary panicles. The smooth fruit is pale brown. It is found in moist and shady places and presents two forms, one erect and the other climbing. It clammers over rocks and fences, and by means of aerial rootlets ascends the trunks of the tallest trees. When bruised, it exudes a milky juice which becomes black on exposure to the air and on fabrics makes a stain indelible to all ordinary solvents.

A country remedy which has proved effective for poison ivy is ordinary lard, with sufficient prepared chalk to make a thick paste. Apply often, rubbing well into the poison surface.

Like Finding Money

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for Consumption, Coughs and Colds." Greatest sale of any cough or lung medicine in the world. At Hunt's Pharmacy; 50c and \$1.00; guaranteed. Trial bottle free.
