ITEMS OF GENERAL INTEREST TO GENOA AND VICINITY

Fire Bugs Cause Trouble at St. Charles—Dixon Man Blown to Atoms—Burglars at Monroe

Arrangements are being made to celebrate the 4th of July in Sycamore.

Mrs. G. P. Lord of Elgin, deceased, left bequests amounting to \$750,000.

By a recent census the population of Rome, the former mistress of the world is 506,840.

Germany is able to feed about nine-tenths of her nearly 60,000,000 inhabitants on the products of her own soil.

Burglars cracked the safe in Jueal's meat market at Monroe Center last Friday night, securing \$40 in cash.

The new \$3,000,000 bridge across the Mississippi river at Thebes, Ill., was formally opened last Thursday.

The orange production of California amounts to \$18,000,000 in value, and the gold production to about \$17,000,000.

A fire bug is terrorizing the citizens of St. Charles. On last Tuesday night another barn was burned, making seven which have been destroyed this spring.

The Sunday morning storm struck East Plato in all its fury. The large barn on the C. H. Potter place and the house on Wm. Marshall's farm were destroyed by lightning.

The First M. E. church of Elgin has an enrollment of 1031 in the Sunday school, besides 72 in the Cradle roll department and 83 in the Home department, a grand total of 1,183.

Through the active efforts of Dr. W. J. C. Casely two damage suits against the city of Marengo have been amicably settled out of court. Mrs. Mary Bailey was given \$300 and Mrs. Jos. Barber \$125 in full settlement of their claims. Both ladies had received injuries, caused by defective sidewalks, during the past year, and both had entered suits against the city.

On Friday evening between 9 and 10 o'clock Dixon was startled by a terrific explosion on one of her prominent streets. A man who was carrying some kind of an explosive either dropped it or fell onto the sidewalk, causing it to explode and tearing the man into a thousand of pieces. The only part of his person not mangled was his head and that was torn off the body and blown a block away.

Mary A. Burrows Death

Miss Mary A. Burrows passed away at 6:30 p. m., June 1 at Winnebago, Ill. She was born at Reudcomb Park, Gloucestershire, England, August 31, 1835. She was the second child of a family of eight. Mrs. Joseph Dunkley is the only surviving member of the family. Miss Burrows came to this country in 1873 and with her brother, Charles, moved to Winnebago in March, 1901.

Mary has been living with her sister, Mrs. Joseph Dunkley, since her brother's death. Paralysis was the immediate cause of death, but she had been poorly for about a year.

She was a member of the church of England from childhood. The funeral was held from the Thos. Dunkley home at 1:50 and the Presbyterian church at 2 o'clock, Sunday afternoon. The remains were interred in the Winnebago cemetery. Rev. M. S. Axtell officiated.

AN EXCELLENT GAME

Genoa Defeats Her Old Time Rivals, the Monroes, 2 to 1

The game last Saturday between Genoa and Monroe was a hummer and the fans got the full value of their money. There was only a small crowd present, probably due to the fact that farmers are too busy to leave the fields.

Both teams were in good form and played ball at every stage of the game. Sager made a three bagger which brought McKee over the plate for one of the scores, and the other score was made by Ackerman who actually stole his way around the diamond. Despite the fact that all the Monroe team was watching for a chance to catch him, he eluded their grasp and crossed the plate.

The Monroe team is one of the best in the game this season and the Goats have reason to feel elated over the victory.

There was no one on the grounds who could keep a score correctly, hence it is impossible to tell the story in detail.

Following is the batting average of the players, Ackerman leading by nearly a hundred:

Batting Average				
	Games	AB	Hits	Pctg
Ackerman	6	26	9	.346
Foote	4	18	5	.274
Sager	5	19	5	.264
Rorabaugh	7	29	7	.241
McKee	5	20	4	.200
Kirby	7	25	4	.160
Neurauter	6	21	3	.143
Furr	6	21	3	.143
Lauman	7	26	3	.115
Senska	5	17	1	.059
Nelson	4	17	1	.059
Totals	45	239	45	.188

BASE BALL NOTES

Sycamore defeated Hinckley Sunday, the score being 5 to 3. Oliver Christensen of this city pitched for Sycamore.

The game at Hampshire last Sunday between the White Stockings and Jack's Goats was called off on account of flooded grounds.

Don't fail to see the game next Saturday between the Genoa and Rockford High Schools. It will be interesting and the last high school game of the season.

Kirkland and Monroe met for the first time last Tuesday, the former team winning by a score of 5 to 2.

The Elgin Athletics took Woodstock's scalp Sunday 10 to 0. Bubser pitched for Elgin.

Wealth of the Presidents

Washington left an estate valued at \$800,000; John Adams left about \$75,000; Jefferson died a pauper had not congress purchased his library for \$20,000; Madison left about \$150,000; Monroe died poor and was buried at the expense of relatives; John Adams left about \$55,000; Jackson left about \$80,000; Van Buren \$400,000; Polk \$150,000; Tyler married a woman of wealth; Fillmore left \$200,000; Pierce \$50,000; Johnson \$50,000; Grant lost his wealth in the Grant & Ward failure; Hayes, Garfield and Harrison were all moderately well off, and Cleveland's fortune is probably larger. McKinley's fortune was not over \$60,000.—Philadelphia Press.

Butter Drops To 20 1-2

The price of butter on the Elgin board dropped half a cent today, the official quotation being reported firm at 20 1/2 cents. Three hundred and thirty tubs were offered and a bid of 20 cents refused. A large lot was withdrawn by Younger just before the call board closed.

ODD FELLOWS MEMORIAL

Services Will Be Held at M. E. Church Sunday Morning

On Sunday morning, June 11, Genoa Lodge, No. 768, I. O. O. F. will attend services at the M. E. church, it being memorial and decoration day of the order. Rev. T. E. Ream will preach a special sermon for the occasion.

Members of the order will meet at the hall and march to the church in a body. After services they decorate the graves of departed brothers. All Odd Fellows are requested to be at the hall at ten o'clock. A special invitation is extended to visiting members of the order.

BIG PRICE FOR LAND

Wm. Bell of Kingston Sells 200 Acres at \$100

Wm. Bell, the Kingston real-estate dealer, closed a deal Wednesday whereby Aaron Rand became the possessor of the Peter Polson farm, one mile northeast of Herbert. The farm consisted of 200 acres and sold for \$100 an acre.

Mr. Bell has sold several good farms during the past year and has a number of choice pieces of property on hand now. He evidently knows how to get after the business and is thoroughly posted on the value of lands in this part of the country. It takes some push to make a sale of that kind.

ALFALFA FOR FOOD

Factory for its Preparation as Meal to Locate in Elgin

Organized for the manufacture and sale of alfalfa foods, the Cottrell Feed Co., capital stock \$150,000, has picked Elgin as its site.

On the start the Elgin plant will turn out about twenty tons of feed daily and the plan is to work up to 100 tons.

Alfalfa is not a "stock food" or "a medicated food," but a regular feed product, chiefly alfalfa meal made to take the place of such feed as bran and oil meal.

Thousands of Acres Flooded

Dixon Sun:—Twelve thousand acres of fertile farm land in Lee county are under water as a result of recent rains.

A huge lake has resulted from the unusual precipitation and in some places the water is three feet deep. A great amount of drainage has been done in the Inlet Drainage district and the farmers will be heavy losers.

The Inlet Drainage ditch is about twenty feet wide and the same number of feet in depth, but it was inadequate to carry off this large volume of water. There are several ditches and laterals that empty into the Inlet ditch and as there was not sufficient outlet it formed a lake.

You put blinders on a horse so that he can scarcely see anything that is going on about him, and then you blame him for jumping and trembling and starting to run at every little noise. You forget how frightened you were when with blinded eyes you were initiated into the awful mysteries of the High Mightful Lodge of Unbiased and Superincumbent Chinwaggers. And why shouldn't a horse be frightened as easily as a donkey?—Boston Transcript.

Lost Two Steers

During the severe electrical and rain storm last Saturday night Henry Burroughs lost two fine steers which were struck by lightning. Mr. Burroughs lost several head of stock last fall in the same manner.

THE COW IS GREAT

AUCTIONEER F. M. WOOD'S TRIBUTE TO HER

Greatest Friend of Man—Not a thing, From Nose to Tail, but that is Utilized

Note—The following was delivered impromptu at a Shorthorn sale, Springfield, Ill., some six years ago. It was caught by a shorthand reporter and spread upon the records of the Shorthorn Association by the order of J. H. Pickerel and a printed copy sent Mr. Wood, who had not thought of it after. Mr. Pickerel said it was a "masterpiece" and should be handed down for future generations to read.

Grand and noble brute! Of all the animal friends of man she is the greatest! To her we owe the most. Examine into the different channels of our commerce into which she enters and note the result should she be blotted out. A Sunday stillness would then pervade the great stock yards industries of our large cities and grass would grow in our streets. Fifty per cent at least of the trains of freight that plow the continent from ocean to ocean would be sidetracked, for there would be nothing for them to do. Fifty per cent of the laborers would draw no pay on Saturday night. Our tables would be bare of the greatest luxuries with which they are now covered. Oh! you who would abuse the cow, I wish that I could, as you are about to sit down to your noon-day meal, slip up and remove from your table that which the cow has placed thereon. I'd take the cup of milk that's waiting by the baby's chair; I'd take the cream, the cheese, the butter, the custard pie, the smoking roast of beef, and leave you to make a meal of potatoes, beets, pickles and toothpicks.

It's the self same cow that made the western plains to blossom (financially) like a rose; and were it not for her they would revert to the Indians from whence they came. None others like the cow! There is not a thing from nose to tail but that is utilized for the use of man. We use her horns to comb our hair, her skins are upon our feet, her hair keeps the plaster upon our walls, her hoofs make glue, her tail makes soap, she gives our milk, our cream, our cheese, butter, and her flesh is the great meat of our nation; her blood is used to make our sugar white, her bones are ground to fertilize our soils and even her paunch she herself has put through the first chemical process necessary for the production of the best white card board paper and now they have discovered that such paper can be made into the finest quality of false teeth.

No other animal works for man both day and night. By day she gathers food and when we are asleep at night she brings it back to reheat and convert into all things of which I speak. She has gone with man from Plymouth Rock to the setting sun! It was her sons that turned the first sod in the settler's clearing; it was her sons that drew the prairie schooner for the sturdy pioneers, as inch by inch, they fought to prove that "Westward star of empire takes its way," and the old cow grazed along behind and when the day's march was done she came and gave the milk to fill the mother's breast to feed the suckling babe that was, perchance, to become the future ruler of his country. Who says that much of what we are we do not owe to man's best friend, the cow. Treat her gently, kindly, for without her, words fail me to describe.

A VICIOUS HOBO

Frightens Women, Seeks Trouble and Lands in Jail

A sour, vicious, glowering cuss struck Genoa sometime Tuesday night or Wednesday morning and proceeded to beg food and money. When refused he did not hesitate to offer an insult. C. A. Goding told the hobo a few truthful things when accosted on the street in the afternoon and when he started away the hobo came up from behind and would have laid him out with a heavy cane which he carried had not warning been given. Jack rolled him around in the road a few moments and let him go. The language the tramp then used was vile in the extreme and Officer Christensen was called up. In a short time there was a new boarder at the bastille but he was not landed without a struggle.

There are only two ways in which to handle the hobo question. The best way is to boot them out of town the minute they strike it, or, if they get ugly arrest them and put them to work on the street with a ball and chain. There is plenty of work in sight and the hobo is not a necessary evil.

HOT AIR VS. DITTO

Ball Game Scheduled for South Riley Sunday Next

Promptly at 2:10 o'clock next Sunday afternoon in Boyd Ainlay's pasture, barn yard or some other proper place will be called a game of ball, Will Snow and his bunch of hot air dispensers having challenged the South Riley aggregation of jugglers.

It will be a battle royal. There will be many features including the stick work of Milt Geithman of the hot air bunch. Milt is an expert at jabbing holes in the air. The entire line-up of the town team has not been made up, but the team will consist of seven more almost as good as Snow and Geithman.

The jugglers will line up as follows: Geo. Geithman, captain; Ernest Geithman, Chas. Corson, Henry Adams, Al. Corson, Harry Rote, Arthur Patterson, L. Blundy, Boyd Ainlay.

Unless the side of a barn is convenient Corson will be put in as back stop. Thos. Bagley, who will umpire the game, has ordered a coat of mail and made his will. Each team will be supplied with a fence post on which to keep a record of tallies.

Any one making a kick on decisions will be immediately caught at it. Spaulding's regulation bean bag will be used.

MISSION FEAST

Annual Event of Lutheran Church will Be Held Here

The annual Mission Feast of the German Lutheran church will be held west of Genoa in J. E. Stott's grove on the 25th of this month.

Members of the Genoa congregation are making every effort to have all the comforts possible at the convenience of the many visitors from surrounding parishes who will be present.

This annual event is held for the purpose of raising money for missionary purposes. Collections are taken and it is often that large donations are made. The profits from the sale of soft drinks, fruit, etc., all goes into the missionary fund. Sometimes more than a thousand dollars is raised at these feasts. The event takes place in Genoa every four years. Last year the Burlington parish did the entertaining.

RESIDENT 21 YEARS

GEORGE J. MORDOFF DIED SUNDAY NIGHT IN ELGIN

Came to Genoa in 1884 from Belvidere—Was in Poor Health for Some Time—Funeral Tuesday

George J. Mordoff passed away Sunday night, June 3, at the advanced age of 74 years, in Northern Illinois Hospital at Elgin.

Mr. Mordoff had been in feeble health for some time and a few months since he was taken to the Northern Illinois hospital at Elgin for treatment. Owing to his advanced age, however, medical skill was of no avail.

George J. Mordoff the son of James Mordoff, Jr., was fifth in a family of six children. He was born in Portage, Wyoming county, N. Y., March 26, 1831 and came west with his parents in 1845, coming overland by wagons. It was a long weary trip and all were pleased when they arrived in Boone County. He resided with his parents until after he had attained his majority. He was married in Belvidere, May 2, 1854, to Miss Sarah Whiteman. They continued to reside in Boone County until 1884, and then removed to Genoa, where his son was practicing medicine. Mr. Mordoff followed the practice of a veterinary for many years and was popularly known all over this section of the county and in Boone.

He leaves besides his wife, a son, Dr. Charles H. Mordoff, of this city. Congressman Fuller of Belvidere is a nephew of the deceased, his mother being Mr. Mordoff's sister.

The remains were taken to Belvidere from Elgin Tuesday and funeral services were held at the home of Frank Howard at 1:30 o'clock. Rev. T. W. Heyland officiated. The body was interred in the family lot in the Belvidere cemetery.

REBECCA'S TRIUMPH

Home Talent Play at Opera House, June 15, by Royal Neighbors.

The Royal Neighbors will give a home talent play entitled "Rebecca's Triumph" at the opera house June 15.

The play is an amusing one, abounding in comic situations and has a strong plot. The cast has had careful training under the direction of Miss Berneice Rose, who, with the assistance of Miss Estella Parker, both of Chicago, will give special comedy and vaudeville sketches during the play and between act. To miss it will mean to miss an evening of pleasure and laughter. Strong cast. Watch for it. Admission 25c. Reserved seats 35c, on sale at usual places.

Note the following press comments:

"Miss Berneice Rose possesses great power as a reader."—John W. Cook, Pres. Northern State Normal, DeKalb.

"Each number was, if possible, more highly appreciated than the preceding one."—The Daily Pantagraph, Bloomington, Ill.

"Seldom is a more pleasing program presented to the public than the one given in Chronicle Hall last evening. Miss Parker is an artist, and her appearance again in our city would call a big crowd."—DeKalb Chronicle.

Death of Mrs Taylor

Mrs. John Taylor died at her home in Kingston Tuesday. She was 69 years of age. Full obituary will be given next week.

Boy Was Maligned.

The principal of the school was talking with him about his boy. "By the way, Mr. Wipedunks," he said, "I have made a discovery about Jerry. He's ambidextrous." "I don't see how that can be," replied Mr. Wipedunks, with rising indignation. "The hair'n't never been exposed to it. Besides, he was vaccinated last year, we bathe him regular every week, and his mother always makes him wear a little bag of assafiditty tied around his neck. Some of the other boys has been lyin' on him."—Chicago Tribune.

The Republican-Journal has added many new subscribers of late, and all we ask is a trial order. 3 months for 25c.

June Sale of Muslin Underwear

Our June sale of undermuslin will open in our store on Saturday, June 10, and continue for two weeks. Each year our business in this line grows larger demonstrating the fact that it pays to spend more time in selecting, to use a little extra care that the sizes shall be right that the materials and trimming shall be fine and that the workmanship is painstaking and careful. It is attentions to detail and to the character of the garments that puts our muslin underwear department in a class alone. During this sale we will make a feature of two lots of garments at 25c and 50c and the garments will be a surprise to you because of true value. THEO. F. SWAN, Elgin.

OUR FASHION LETTER.

Lingerie Frocks With Embroidery and Inset Lace.

PUFFINGS ON MOST TUB GOWNS.

The Exigencies of Coiffure as Developed by the New Hats—The Hair Should Be Dressed High—Great Variety in the New Parasols.

The handsomest lingerie frocks are marvels of embroidery and lace inset and applied in a number of different ways, the frock materials being fine mull, lawn, batiste or some of the sheer linens.

Many of these dresses are made by machine, the gulfie or yoke alone displaying hand work. Tucks are one of the modish trimmings of the summer, and when they are hemstitched by hand the acme of chicness is reached in a gown.

A wonderfully attractive frock of white lawn had its skirt trimmed with groups of hemstitched tucks a few inches higher than the knees. The

FROCK OF WHITE LINEN.

surplined fronts of the simple little waist were finely tucked on each side, and the sleeves just above the elbow trimmed in the same way. The only other trimming was a lace chemise and puff undersleeves of valenciennes insertion.

On tub gowns this summer one often sees puffings of the material inset between bands of embroidery. This trimming is difficult to launder, but often these gowns are worn an entire season without visiting laundress or cleaner, and the style then is both effective and practical.

The frock illustrated is of heavy white linen. The odd trimming about the bottom of the skirt is accomplished with narrow insertions of lace sewed on in serpentine fashion. Between the convolutions are graduated dots embroidered in mercerized cotton. These dots appear on the bloused waist as a trimming below the yoke of lace insertion and on the sleeves, extending to the beginning of the small puff.

COIFFURE WRINKLES.

The summer hats necessitate a special coiffure arrangement. Formerly the chapeau conformed to the requirements of the hat; now the milliners are having their day, and the hairdresser is obliged to dress tresses to suit the saucy hats of the season.

A great deal of artificial hair is being used, principally dainty fringes of

CORONAL HAIRDRESSING.

curls, which fall gracefully over the knot of hair, arranged to meet the hat at the back. Some ambitious milliners sew these fringes across the backs of their hats, but imagine the effect of a girl's pretty curls hanging on her lap at the theater!

The pompadour, instead of disappearing, as some fashion chroniclers are fond of announcing, has really taken a new lease of life. It does not hang over the forehead in a soubrette "dip," but fluffs about the dome of thought in a soft, becoming fashion.

Hair dressed high, brushed up behind and neatly held in place by a plain comb is the style most accepted.

The girlish coiffure arrangement illustrated is the last mode in the hairdressing world. The coronal part is lost at the back beneath the slightly bouffant sides. The front hair is broken into undulations, but without any exaggerations to mar the freshness of a young face.

A Bad Score

Some day you will get a bad scare when you feel a pain in your bowels, and fear appendicitis. Safety lies in Dr. King's New Life Pills, a sure cure, for all bowel and stomach diseases, such as head ache, biliousness, costiveness, etc. Guaranteed at Hunt-Pharmacy, only 25c. Try them!

No Secret About It

It is no secret, that for cuts, burns, ulcers, fever sores, sores, eyes, boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at Hunt's Pharmacy.

NEWS OF THE STATE

Telegraphic Reports of Matters of General Interest to Our Readers.

HAPPENINGS IN PRAIRIE STATE

Items Prepared with Special Care for the Convenience of Our Own Readers.

Springfield, Ill., June 5.—"The fine to which the Zeigler Coal company is liable as a result of its violations of the state mining laws may reach into the millions," declared a state official who is familiar with the conditions existing in the mine at Zeigler, Ill., where fifty-three men lost their lives April 3. "There are ten entries and forty rooms in the mine," he continued, "and in practically every one of these the law was violated every day the mine was in operation. A maximum fine of \$500 is provided for each of such offenses. This would make the company liable for a fine of \$2,500 each day, or \$75,000 every month the mine was in operation. In addition to this amount, the company is liable to a fine of \$500 for every day powder was stored in the mine."

Everybody Will Be Indicted.

The only individual indictments returned by the Franklin county grand jury last week as a result of the investigation of the Letter mine horror were against former Superintendent Hurd, all the others being against the Zeigler Coal company. Information is to be filed before the grand jury, however, against all responsible individuals connected with the mine, from Joseph Letter, the president, down to the subordinate officials. The law holds each person in authority is equally liable.

Curious State Mine Inspection.

The company will undertake to throw the responsibility for the explosion upon the state officials who examined and approved of the manner in which the mine was operated, and it is generally admitted there is considerable equity in the case. In the course of the corner's investigation, which followed the disaster, Evan D. Johns, one of the state mine inspectors, testified that the plans for the Letter mine had been submitted to and approved by him. State Mine Inspector Atkinson, who lost his life in the mine when he entered it after the explosion, examined the mine March 23, eleven days before the catastrophe, and reported it perfect. His notice to this effect being found in the wash room after the accident.

Defense Is Employing Lawyers.

That Letter is expecting a hard fought legal battle is evidenced by the employment of the following counsel: Ex-Attorney General Hamilton of Springfield; H. R. Platt, of Chicago; Judge W. H. Hart, and W. S. Cantrell, of Benton, Ill.

ILLINOIS WOMAN DROWNED

Only Two Years Married to a Man Who Was Her Sweetheart Thirty Years Ago.

Paris, Ill., June 3.—Friends have been advised of the accidental drowning of Mrs. W. H. C. Sexton, formerly of this county, due to the overturning of a skiff in the Arkansas river. Sexton and a daughter clung to floating objects until rescued, but Mrs. Sexton was caught underneath the skiff and could not reach the surface.

Mr. and Mrs. Sexton were married two years ago, renewing through correspondence an attachment which had its inception thirty years ago, each having married in the interim. After their marriage they removed to Arkansas, where Sexton has extensive timber interests.

Funeral of an Illinois Educator.

Paris, Ill., June 3.—The funeral of the late Professor H. G. Askin, a well-known educator of this county, and recently principal of the schools at Hume, was conducted here. The local schools were dismissed, in view of the fact that Professor Askin was formerly identified with the Paris high school faculty. Sixty uniformed cadets from that institution acted as an escort to the cemetery. The graduating class and teachers of the Hume schools also attended the burial.

Father Carries Off His Son.

Sycamore, Ill., June 3.—Thomas McCormack, aged 6, who since infancy has lived with his wealthy grandparents, Mr. and Mrs. Thomas Marshall, near this city, has been kidnaped by a man in an automobile, who rode up to the school which the child was attending and carried him screaming away. It is alleged that the kidnaping was done by the lad's father, Rev. Joseph McCormack, pastor of the Methodist church at McHenry, Ill.

Ex-Representative Moulton Dead.

Shelbyville, Ill., June 5.—Ex-Representative Moulton, 82 years old, is dead. He was presidential elector in 1857 on the Buchanan ticket. He was elected by the Republicans as representative-at-large in congress in 1864, and was sent to congress on a Democratic ticket from the Shelbyville district in 1880 and 1882. Since 1896 he had acted with the Republican party.

Legal Fight Over a Boy.

Sycamore, Ill., June 6.—Attorneys for Thomas Marshall, grandfather of Thomas McCormack, a boy who is alleged to have been kidnaped by his father, Rev. Joseph McCormack, are preparing papers for another fight in court. It is now said the boy's father may be arrested and cited for contempt.

THE GREAT FAMILY MEDICINE

Theford's Black-Draught comes nearer regulating the entire system and keeping the body in health than any other medicine made. It is always ready in any emergency to treat ailments that are frequent in any family, such as indigestion, biliousness, colds, diarrhoea, and stomach aches.

Theford's Black-Draught is the standard, never-failing remedy for stomach, bowel, liver and kidney troubles. It is a cure for the domestic ills which so frequently summon the doctor. It is as good for children as it is for grown persons. A dose of this medicine every day will soon cure the most obstinate case of dyspepsia or constipation, and when taken as directed brings quick relief.

DANVILLE, ILL., Dec. 23, 1902.
 Theford's Black-Draught has been our family doctor for five years and we want no other. When any of us feel badly we take a dose and are all right in twelve hours. We have spent lots of money for doctor bills, but got along just as well with Black-Draught.

Medium yearlings	4.25 to 5.00
Good to choice feeders	4.25 to 4.90
Common to good feeders	3.75 to 4.25
Common light feeders	3.00 to 3.60

There has been a fairly liberal run of butcher stuff here this week and the bulk of the run consisted of fair to medium cows with the majority of the stuff showing grass. While a few extra choice dry fed stuff went show so much decline the bulk of the stuff is 10 to 20c lower than the closing prices of last week, and while we feel strong on all corn fed stuff we are still looking for lower prices on anything showing grass. We quote:

Choice to fancy heifers	4.75 to 5.00
Good to choice heifers	4.25 to 4.60
Medium to good heifers	3.60 to 4.25
Common heifers	2.60 to 3.40
Choice, heavy export cows	4.40 to 4.75
Good to choice cows	3.75 to 4.25
Medium to good cows	3.00 to 3.50
Common cows	2.25 to 2.60
Canners	1.25 to 2.25
Good to choice export bulls	4.00 to 4.50
Fair to good bulls	3.40 to 3.80
Bolognas and common bulls	2.75 to 3.35

Receipts of hogs yesterday (Monday) were 38,000 and the market was active and 5 higher. Today (Tuesday) with only 13,000 early sales show an advance of 6c but the market closed with the advance lost. We look for a moderate run and a steady market the balance of the week. We quote:

Mixed	5.20 to 5.37 1/2
Mediums	5.35 to 5.40
Heavy packing	4.65 to 5.25
Selected heavy shipping	5.37 1/2 to 5.42 1/2
Selected light (170 to 180 lbs. av.)	5.30 to 5.40
Little pigs	5.00 to 5.75

Long Lived Tools

Keen Kutter quality tells in the long life of Keen Kutter Tools as well as in better work and greater satisfaction. It is not an unusual thing for Keen Kutter Tools to be passed down from father to son, so long do they last.

The long life of Keen Kutter Tools compared with the short term of service of inferior brands makes Keen Kutter Tools by far the least expensive tools that you can buy. The

KEEN KUTTER

trademark covers every kind of tools so that you may always be sure of highest quality by insisting upon Keen Kutter Tools.

An example of the Keen Kutter excellence is found in Keen Kutter Hatchets and Handled Axes. These are made of the highest grade of steel, on the most approved lines, and by the best workmen. Every Keen Kutter Hatchet and Axe has the handle wedged with the Greliner Patent Everlasting Wedge which positively prevents the head ever flying off or working loose, and is sharpened ready for use. These are exclusive Keen Kutter features.

Some of the other kinds of Keen Kutter Tools are: Axes, Adzes, Hammers, Hatchets, Chisels, Saw Blades, Axes, Files, Files, Draw Knives, Saws, Tool Cabinets, Scythes, Hay Knives, Grass Hooks, Brush Hooks, Corn Knives, Eye Hooks, Troncs, Pruning Shears, Tinners' Snips, Scissors, Shears, Hair Clippers, Horse Shears, Razors, etc., and Knives of all kinds.

FROM CANADA

Godfrey Dahlen Writes Entertainingly of New Home

Fort Pelly, Assa., Canada
May 11, 1905.

Mr. Jesse Burton,
Dear Friend:—I should have written to you before this but I thot I would wait till I found out about the country. I have so much to write that I will write it in items.

CROPS—Oats and barley are sure crops. Wheat gets frosted sometimes. The average yield of oats is 75 and wheat 30 bushels per acre. They raise all kinds of garden products except beans, tomatoes and sweet corn which freeze easily. I saw some stuff raised here last year, carrots, peas, beets and potatoes were as good or better than we raised in Illinois. Big rutabagas, good plump wheat and good cabbage. Oats were green colored but heavy and the kernels not shrunken as it would if frosted or cut before it was ripe. Oats are 40 and wheat 80 cents a bushel. Last year my father saw wheat being threshed at Dauphin, 75 miles from here, that went 60 bushels to the acre. The owner got the place as a homestead three years ago and has refused putting in oats here and all other stuff except potatoes.

WEATHER—Has been nice and warm most of the time but once in a while a wind from the north makes it a little chilly, but it does not last long. It is raining today or I would be working. We need this rain now. The people think it will be drier than usual this year. Now is the season for rain here.

SOIL—The soil is sandy but not enough to do any harm. South of here about ten miles toward Kansack there is no sand. The dirt is black and loose. It is about fifteen inches deep with three feet of clay underneath and then blue clay under the gravel.

GAME—There are many rabbits, partridges, prairie chickens, ducks, muskrats, skunks, minks, foxes wolves and such small animals. There are also deer and lynx. A few days before we got here a boy shot a bear. Moose and elk are seen sometimes. About this time a great many fish come up the river to lay their eggs and the people spear wagon loads of pike, pickerel, catfish and other fish. They also seine them with woven wire. We may go fishing some day. Gus shot a wolf the other day when he was going to a Russian village to buy some vegetables and seeds. I took a walk in the woods Sunday and scared up a deer. It is against the law to shoot them now. Pa scared up some kind of a large animal in the brush the other day but could not see what it was.

MISCELLANEOUS—We work like negroes on week days. We brush plow, chip wood, make gardens and sow a little grain. We have a plow, pulverizer, drag, wagon, three oxen and two cows. The horns of one ox measure 2 feet, 7 inches from tip to tip and the horns of the other measure one inch less. Two of the oxen will plow all day and not seem tired when they get through but will stand and chew their cud. We only use two oxen on the pulverizer. Pa and the boys think the oxen weigh about 1500 pounds each. All farm machinery is dear because there is not much of it manufactured in Canada and it has to be imported from United States and duty paid. If a farmer were to come up here from United States it would pay to bring his tools along as they are second

hand no duty is charged on them. Many people are coming up here to get homesteads and buy land. They think it is a good country but they are afraid of an early frost. Now I think if the crops get frosted very often, people who have been here many years would not be planting big fields of grain as they are doing.

There are many Indians and white people who have lived here fifteen or twenty years and they are planting more grain year after year and the Indians are not the people to work for nothing. Of course the crops freeze sometimes, they do in Illinois. Most of the the homesteads are taken up here and the worst ones left but there is plenty of land to buy at \$7 or \$8 an acre. This is a fine country for raising cattle if the brush was cleared off. It is also good for sheep but the wolves are too thick yet. There were many evergreen woods here but a prairie fire killed them and poplars grew up. They are small and so thick that it is hard to get between them. It is not the kind of a poplar that grows around Kingston. This kind gets hard and smooth when it is cut down and dried.

The people live in log houses and they are warmer than the lumber houses like those in Kingston. The country is not so wild and unsettled as I thot it was. The Indians are as good neighbors as the white people. Some live in tents and hunt and fish but not many. I think it is a fine country and if the people keep coming as they are now the country will be soon settled. Some would not like to come to a country like this until it was settled. Wait until the land gets settled and you will have to pay all the land is worth while fifteen years before you could get the land for nothing. If we had waited five years longer we would have to pay \$20 an acre for this homestead. I think I have told you all there is to tell so I will close.

Yours Truly
GODFREY DAHLEN.

DIED SUNDAY

S. D. Whitney Passes Away After Long Illness

After suffering some time from a complication of diseases, S. D. Whitney, a well known resident of Kingston, passed away at his home early Sunday morning.

Samuel Dean Whitney was born in Berlin, Erie county, Ohio, October 26, 1836. He was united in marriage to Harriet Vail at Belvidere in April, 1857, and to them six children were born. Three sons, Charles, William and Harry passed away about four years ago.

In 1861, he enlisted in the Union Army, joining the 9th Illinois Cavalry and serving until the close of the war.

Besides the wife there are left to mourn two children, Henry of this place and Miss Mrs. Robt. Dunbar of Belvidere. All of these besides neighbors and friends, who have known him many years, are bowed in grief and mourning because of the departure of a loving father and a true and loyal friend.

For some Mr. Whitney had been in poor health and his suffering at times was intense.

He was a charter member of Kingston camp of Modern Woodmen of America. He has also held many responsible of the village.

The funeral services were conducted Tuesday afternoon at the Baptist church, Rev. R. W. Bennett preaching a sermon full of comfort and hope.

Interment occurred in Kingston cemetery.

Mr. and Mrs. Haines will leave at once for Geneva, Ohio, where reside the parents of the groom, and in the vicinity of which place their home is to be made. Mr. Haines will open an art studio in one of the smaller cities near Cleveland at an early date.

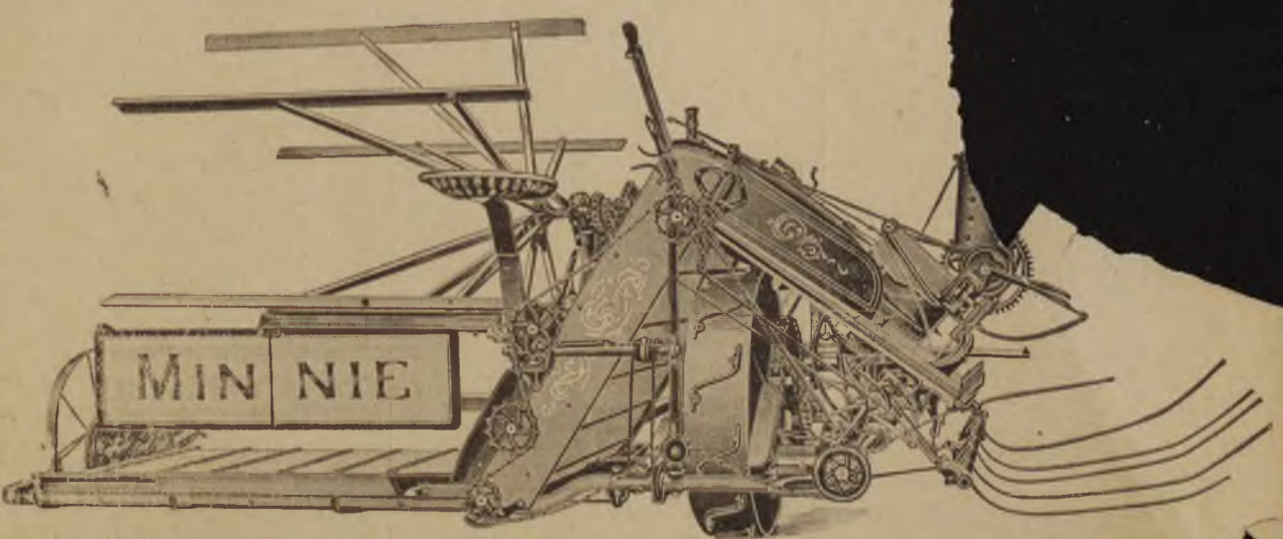

Just What Everyone Should Do

Mr. J. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt for a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's colic, cholera and diarrhoea remedy which is the best medicines I ever used. I keep a bottle of it in my house as I have had several attacks of colic and it has proved the best medicine I ever used." by Hunt's Pharmacy

OUR FASHION LETTER.

A Simple Device For Support- ing Unlined Collars.

SILK DRESSES FOR CHILDREN.

Pretty Cotton Materials For Shirt Waists—A New Way of Trimming a Skirt—Linen Parasols Are Much In Evidence This Season.

There is a simple little device for holding up thin unlined collars which is little known. It consists of several thin slides of real or rolled gold, which fasten inside the collar and clamp at the top with screws held in place by jeweled heads. In gold these collar supports are expensive, but in imitation quite inexpensive.

The collars this summer have reached amazing heights, whether they be made of linen, lace, jewels or velvet ribbon. Where they are going to end one does not know, as a depth of three

SILK DRESSING JACKET.

and a half inches is considered by no means too high. The best cut collars are not uncomfortable, for they are scooped out under the chin and are set low down on the waist neck.

To take the place of endless gingham and cotton frocks for small girls over five are the thin, dark dresses made of china silk or soft pongee. They are made up without lining, and a variety of white cuffs and collars gives a bright and becoming touch to the dark frock. These silk dresses are especially good and serviceable for traveling wear.

Awfully pretty is the dressing jacket illustrated. It is made of flowered china silk. The shape follows the lines of the kimono with the exception of the capelike sleeves and the attractive curving of the neck. For trimming is chosen a border of plain china silk in the deepest shade of the prevailing tone in the flowered silk. Bows of ribbon to match find their hiding place at throat and arms.

MME. LA MODE'S WHIMS.
There are so many different inexpensive and pretty cotton materials for shirt waists that it is difficult to make a selection. Perhaps mercerized gingham are the most satisfactory among the cheaper stuffs. This material comes in all colors and combinations of colors, especially pretty, though, are the Jacquard or shot effects, the figures being in contrasting colors or of the ground tone.

Dotted effects seem to have taken the place of stripes in popular favor for shirt waist materials. Dainty pink and

CHINA SILK BLOUSE.

white gingham are to be had in cross line checks dotted with self or other colors.

The plain tone gingham, madras and batiste in light blue, tan and green are smarter than the figured effects, with white as first choice.

There is an expensive cotton voile that is being made up into shirt waist dresses marked at \$1 a yard. The effects in this fabric are generally checks sprigged over with tiny rosebuds.

The Frenchy little shirt waist illustrated is of china silk. The front fullness, which crosses in fchu fashion, gets its start from an embroidered rever just above the bust line. The remaining parts of the fronts are plain except for a little fullness at the waist.

The chemisette is of tucked mull and is ornamented down the front with two swiss embroidered motifs, one of which is finished with a jabot of mull. The sleeves are leg of mutton of three-quarter length and finished with four frills of mull.

DAINTY SUMMER GOWNS.

The fashionable mixture of coarse embroidery, fine muslin and insertion is stunningly carried out on a fete frock of white swiss embroidery. The full skirt has wide, old fashioned flounces of swiss embroidery alternating with tucks and fine insertion to the top. The short baby bodice has a round yoke of lace insertion, about which is a flounce of swiss embroidery. The three-quarter sleeves are formed of embroidery ruffles, and the folded deep girdele is of white louisiane.

A new way of trimming a skirt is to tuck, say, the front width in three deep tucks at the bottom and the two

PALE BLUE CHIP HAT.

side widths in a similar fashion at the knee bend and so on up and down around the entire skirt. This style is particularly good for pongee and summer silk frocks.

Pongee either in natural colors or pale shades makes up into the smartest kind of shirt waist dresses. These frocks should not be too elaborate, for in this way they defeat their useful purpose and the laundry possibilities of the material. To relieve the pongee coloring gulmips and cuffs of lace, mull or swiss embroidery are attractive, and several sets make a gown of this description always ready to wear.

The hat pictured is a dainty marquis shape of pale blue chip. It is charmingly trimmed with garlands of roses and bows of dark blue velvet. A white bird of paradise effectively placed at one side of the hat gives height and beauty to the whole creation.

LINEN PARASOLS.

Linen parasols are much in evidence this summer. A stunning sunshade is of mandarin pink linen with a two inch edge of yellow leather. A bow of yellow leather decorates the handle, which is of natural wood.

Very lovely are the parasols of sheer white linen or mercerized cotton encircled near the edge with Chinese embroidery and small sprays of the same work dotted over the rest of the cover. This embroidery is done in white mercerized thread.

Another sunshade which appeals to lovers of color harmonies is in dark green silk with a border decoration of

TAFFETA SILK SUNSHADE.

conventionalized daisies worked in green chenille. A dainty white silk parasol has fluffy ruffles of chiffon about the edge and stalks of purple flags in natural colors for decoration painted on the panels.

Extremely attractive is a white sunshade composed of tiny flat ruffles of silk buttonholed in points. The handle is of white wood ornamented with a chic bow of silver gauze ribbon.

A plain pongee sunshade may be brought up to date by having an English eyelet embroidery pattern stamped on it and worked by the owner.

A new adaptation of broderie anglaise is a single row of eyelet holes edged with pointed scallops, the whole narrow edging shaped in crescents that join by their tips. This trimming is used for outlining yokes and ruffles.

Collar and cuff sets are fascinating and grow deeper and more elaborate each day. Blind and openwork embroidery, light and heavy laces all play prominent parts in their making. In some of the prettiest sets bits of Japanese drawn work is introduced.

The dainty parasol illustrated is of white taffeta silk. The edge is elaborately frilled with chiffon, and four motifs of black lace are applied on the sunshade with good effect.

A remarkable picture worth **MANY DOLLARS** can be obtained **For a Few Cents**

"The Three Most Beautiful Roses" By Paul de Longpre

At the urgent solicitation of the Woman's Home Companion, Mr. Paul Longpre, who is the greatest painter of flowers in the world, consented to make a painting of what he considered "The Three Most Beautiful Roses," and the painting is without doubt one of the masterpieces of the great artist. This magnificent picture is reproduced in all its original grandeur on the cover of Woman's Home Companion for June. Although this cover is an accurate reproduction of a painting worth hundreds of dollars, yet the June number, which has this exquisite cover may be obtained at any first class news-stand or direct from the publishers for the trivial sum of only ten cents.

Mr. Paul de Longpre is justly styled the "King of Flower Paint-

ers." He not only paints roses, but every flower that grows, and is the highest authority on flowers. His paintings are found in the most select homes. Some have sold for as much as seven thousand and five hundred dollars (\$7,500).

The Woman's Home Companion is a magazine which in beauty and excellence, art, stories, illustrations and fashions, etc., excels all other home and family magazines. The Woman's Home Companion is published by The Crowell Publishing Company, New York City, also Chicago, Ill., at one dollar a year, and is the favorite magazine in nearly half a million homes, where it is read each and every issue by three million people.

Cuban Diarrhoea
U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas; "I hereby certify that Chamberlain's colic cholera and diarrhoea remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by Huut's Pharmacy.

For Sale—4 acres of land, good house, barn, chicken house and other outbuildings. Plenty of fruit and shrubbery, city water. All in good repair and at a price that is right. D. S. Brown.

MAGAZINE REVIEW

ROOM FOR A MILLION MORE

The Horticultural Commission statistician has estimated that there are about one and a half million acres in California where it is possible to grow citrus fruits successfully, and that there are only seventy-five thousand acres, approximately, at present planted to oranges and lemons. Of this number about fifteen thousand are lemons and these are found largely in the southern counties. The lemon is more sensitive to cold than the orange and the area where it can be grown profitably is correspondingly limited, but a large field is yet open to both industries. The lemon has the advantage however, of requiring less heat to mature the crop, which compensates for its more delicate nature.—Elizabeth A. Ward in Sunset Magazine for June.

Our June Sale of Undermuslins opens in our store on Saturday, June 10 and continues for 2 weeks. We wish to impress upon you the value of this sale. The garments are all fresh, new and clean, purchased months ago so that the manufacturers could make up at their leisure insuring perfectly finished garments, the materials are all worthy the trimming the prettiest and during the sale the garments are marked at prices far lower than you'll pay for them when the sale is over. During the sale we will make a feature of 2 lots of garments at 25c and 50c each. In the lots are such garments as you would usually pay 40c and 75c for. THEO. F. SWAN, Elgin. Republican-Journal, \$1.

THE SECRET OF SUCCESS

"No, Sir! You cannot palm off any substitute on me. I've been using August Flower since I was a boy, and I'll have no other."

Forty million bottles of August Flower sold in the United States since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unflinching success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it is the best of all liver regulators? August Flower has a matchless record of over 35 years in curing the ailing millions of these distressing complaints. Two sizes, 25c and 75c. All druggists.

The color line has been drawn in Hawaii, the territorial legislature reducing the salaries of white employes of the government and increasing the salaries of Hawaiian employes.

The modern farmer is concerned with large acres. He treats his soil well and he has a system—a scientific side to his farming as well as a business side. The man who does things and knows why he does them is the one who reaches the top. Most farmers know that the reason that clover and all the relations of the clover family are great restorers of fertility is because they are nitrogen gatherers. They enrich the land because down at the roots of these plants are multitudes of little nodules and in these nodules are millions of small organisms gathering in nitrogen from the air and storing it in such a way that the plant will give it up to the soil, where some other crop like corn or wheat can find and use it.

An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alternative extract of herbs and roots, without the use of alcohol, like Dr. Pierce's Golden Medical Discovery. This vegetable medicine coaxes the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutriment the blood requires.

Pure blood is essential to good health. Dr. Pierce's Golden Medical Discovery not only cleanses the blood of impurities, but it increases the activity of the blood-making glands, and it enriches the body with an abundant supply of pure, rich blood. It thus cures scrofula, eczema, erysipelas, boils, pimples, and other eruptions that mar and scar the skin.

Dr. Pierce's 100-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay cost of mailing only. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Pierce, Buffalo, N. Y.

Our June Sale

of undermuslins will open on Saturday, June 10 and continue for two weeks. It will be conducted on the same broad principles that have marked all of our previous muslin underwear sales. Quality has been and will always continue to be our first consideration and every garment is well proportioned and carefully finished by well paid cleanly labor.

Cheaply made and shrimped garments are an abomination and have no place in our stock.

In this sale we will feature 2 lots of garments at 25c and 50c each and the values will surprise you THEO. F. SWAN, Elgin.

Hugo Task

It was a huge task, to undertake the cure of such a bad case of kidney disease, as that of C F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes "My kidneys were so far gone. I could not sit on a chair without a cushion; and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. Guaranteed by Hunt's Pharmacy; price 50c.

MARRIED A MONTH AGO

J. A. Kepple, Formerly of Kingston Takes a Bride

J. A. Kepple, formerly of Kingston, and Miss Myra Delavergne of Flora were married on the third of May, Rev. L. H. Brown of Cherry Valley officiating.

While no especial plans were made to keep the marriage a secret, not many of the friends of the happy pair have as yet learned of the marriage. Mrs. Kepple is teaching school at Flora in the vicinity of the home of her parents, Mr. and Mrs. Frank Delavergne, and has continued her residence there for that reason.

She is a lady of many accomplishments and will receive the best of good wishes from a host of friends who appreciate her many good qualities. She is a sister of Mrs. Fred Allen of Belvidere.

Baccalaureate Sermon

It was an appreciative audience that heard the baccalaureate sermon last Sunday evening, all being well pleased. Rev. Moore is a fluent speaker, earnest and speaks to the point. His address was filled with words of good wholesome advice for the five young men who leave school this week, and older ones in the audience as well could profit thereby.

Most particularly he urged that all young men should start out in life with some particular object to attain. It is the drone that waits for "something to turn up."
