HAS A WINNING TEAM

SYCAMORE AND HAMPSHIRE GO DOWN BEFORE JACK'S GOATS

Both Good Exhibitions of the National Game—Genoa has a Team that Will Make a Showing this Season

Manager Goding has a winning team of base ball players this season and the fans of Genoa can look forward to a number of real exhibitions of the national game. The line-up is the strongest that has appeared in Genoa since the days of Dempsey, Meehan, Sisley Bagley, Patterson, Sager and others. Some of the best teams in the country will be taken on before the season closes.

The game at Sycamore Sunday was a hummer, every man in the team being up on his toes. It was a day for the outfield and everything that left the bat of the Sycamore slugger was quickly and neatly swallowed, Nelson in right field getting five put outs.

Neurauter pitched a good game and Lauman hung on to all that came to him behind the bat. The Sycamore bunch piled up eleven errors.

The boys did not show up quite so well at Hampshire owing no doubt to the fact that a cold wind swept over the field. The sod diamond was also accountable for one or two errors. Neurauter and McKee carried off the honors in batting, the former getting two two baggers out of three times at bat and the latter three singles in four times at bat. Ackerman pitched a strong game allowing only eight hits and making thirteen Hampshire men slash the air for three strikes.

Hampshire has a bunch of husky players and will no doubt make a good showing this season.

When these two teams come together again there will be something doing.

The score of the two games follow:

BUILDINGS DAMAGED

First Storm of Season Plays Havoc East of Genoa

The electrical and wind storm which passed over the vicinity between Hampshire and Elgin last Friday did considerable damage. There was no damage in this vicinity.

In the vicinity of Plato the storm was quite severe. The rainfall was very heavy and the wind assumed the nature of a hurricane. Little damage was done by lightning in this vicinity.

Gilberts and vicinity experienced a big storm. The Chicago & Northwestern depot was twisted by the wind in such a manner that the doors would not close. The windmill tower was wrecked.

A number of windmills were wrecked, among them being that of John Carroll. A large barn on Binnie Bros.' farm was blown down and many of the cattle injured some of them so badly that it was necessary to kill them.

In the vicinity of Hampshire little damage was done. A heavy rainfall and strong wind marked the course of the storm in the section.

At Pingree Grove the storm took the nature of a small sized tornado. The barn belonging to Holdeman, on the Kerber farm, was moved from its foundation and the windmill piled up in the roadway.

Doorsteps and porches throughout the village were torn away and scattered about. The sheds of the brick yards were blown down and scattered along the Chicago, Milwaukee & St. Paul tracks. A small barn on the farm of Mrs. Owen Weld was wrecked.

BUTTER PRICE LOWER

Quotation Committee of Elgin Board Reports Twenty-five Cents

The price of butter dropped four cents Monday. The official price was reported firm at twenty-five cents. Fifty tubs were sold at twenty-four cents.

Shot Himself

Martin Johnson of Batavia wanted to exterminate his family Sunday because his wife refused to live with him or to give him \$3,000 life insurance money left by her former husband. He shot at his wife, missed her, shot at 17-year stepson, Arthur Beckman and then fired into his own abdomen. He died shortly afterward. The boy will recover.

Spiritualistic Meeting

Mrs. George Cooley of Denver, a trance speaker, will speak in the I. O. O. F. hall, Wednesday evening, May 10 at eight o'clock. We want every one to come and hear her. She is known to be one of the best speakers in this part of the world. ORRIN MERRITT.

Burton Indicted

Ben Burton was indicted before the Boone county grand jury last week on the charge of shooting with intent to kill.

WOODMAN PICNIC

Many Attractions Being Prepared by Beloit Wood Choppers

The Beloit Woodmen have already commenced making plans for the entertainment of the Woodman hosts that will be in the Line City, June 1, and they promise a variety of entertainments for their thousands of guests.

The Beloit Fair Association will hold a day of racing at the fair grounds and will offer good prizes for the steppers. The college ball team will meet the Chicago University ball team on Keep Athletic Field and the Wisconsin State League will transfer Beloit's game to that city on that day if possible.

The Difference

Boys who get tired of going to school should read the following written by Superintendent Adams of Fayette College: "The average educated man gets a salary of \$1000 per year. He works forty years, making a total of \$40,000 in life time. The average day laborer gets \$1.50 per day, 300 days in a year, or \$450 in a year. In forty years he earns \$18,000. The difference or \$22,000 equals the value of an education. To acquire this earning capacity requires 12 years at school of 180 days each, or 2160 days. Divide \$22,000 the value of an education, by 2160 number of days required in getting we find that each day at school is worth a little more than \$10 to pupil."

Sealed Bids Wanted

Notice is hereby given that contract will be let for digging ditch, laying tile and filling according to survey, from the Ira J. Mix Creamery to the river in the village of Genoa. Sealed bids will be received at the office of the creamery up to six o'clock p. m., Wednesday, May 10. We reserve the right to reject any or all bids. Plans and specifications on file at the office.

Notice

F. M. Newcomb of DeKalb the eye man, will be at the hotel in Genoa, Friday, May 12. It is not necessary to explain his method as he has fitted nearly a hundred in Genoa and vicinity, but he will give perfect vision with perfect comfort and cure all headaches or no pay. You take no chances, if he does not do all he claims you need not pay for the glasses. Remember the date.

Mother's Meeting

Mother's meeting will be held in the first primary room, Friday, May 5, at 3:30 p. m. The following will be read:

Chapter from the book, "Children's Rights" entitled Children's Stories. Paper; "The Habit of Cheerfulness" by Miss Ella White. Poem; "The Children" by Miss Camenisch. Question box and general Discussion.

Mothers are cordially invited to attend.

Shoots His Friend

Dr. E. C. Moore, a dentist, and Gordon Brooks, a watch factory employe, went to hunt gophers near Elgin Sunday. Mrs. Brooks accompanied them and sat in the carriage while the men went afield. She heard a shot and a cry from Dr. Moore and she hastened to see the dentist's prize. She found her husband dead, the accidental victim of Moore's rifle.

3 months trial for 25c.

Two Litters of Wolves Found Near Belvidere—Illinois Central Property to be Made Beautiful

Horse thieves are doing a thriving business in the northern part of McHenry county.

The township high school proposition was defeated at the town election held at Harvard last week.

Free mail delivery was started in Sycamore Monday with Albert Meeker, Geo. Stephenson, and Lee Teach as carriers.

The Elgin Gun Club is preparing for its great annual crow hunt, when the "corn scoopers" will be slaughtered by the wholesale.

The Sycamore pickle works will not contract for cucumbers this season, having enough of last year's stock on hand to supply their trade.

Belvidere Republican: Granger and Lonnie Newton and Ben Green brought in seven more baby wolves Monday, and adding them to the nine brought in last week took them to County Clerk Will Bowley and received the \$90 due on them.

By a recent decision in a condemnation suit the Chicago & Northwestern Railway must pay \$12,457 for the right of way over eighteen acres of land near Cary. A large sum but the land is valuable, as it was shown to be worth from \$3,500 to \$7,000 per acre.

DeKalb Advertiser: The hands in the lasting room at the shoe factory have been laying off the past week on account of some dissatisfaction over wages they were making. It is the dull season in the shoe trade right now, but the prospects look good ahead and it is believed there will soon be plenty of work for all hands.

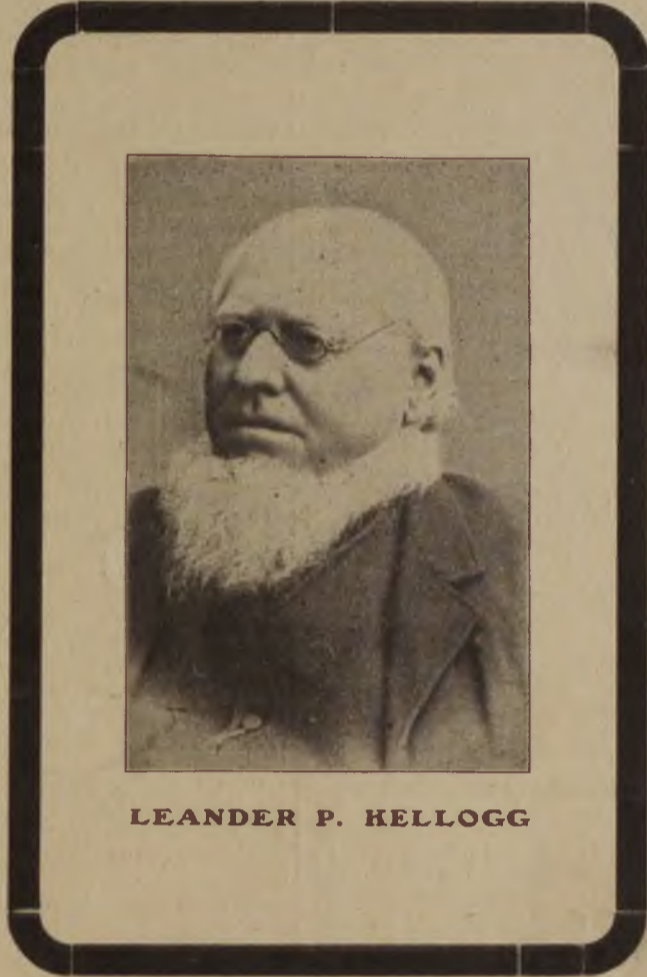

The artistic ability of woman has been recognized by the Illinois Central Railroad company in an unusual manner. Every station along the many lines and branches of the great route, throughout the nine states, is to be remodeled and beautified by architecture and landscape gardening, and Miss A. E. McCrea, a Chicago woman artist, is to direct the whole thing.

The 17 year locusts, or cidada septem, are on their way to daylight and will soon be out in full force to enjoy their six weeks of sunlight and then disappear for seventeen years. We remember of seeing them three times, in 1854, 1871 and 1888 and expect to see them the fourth time, in 1905. They are surely a strange bird. They sting the tender branches of small trees, deposit their eggs, and vomose the ranche. They do not injure vegetation of any kind, and it is not known that they eat anything during their musical sojourn. They disappear as suddenly as they come.

HOSPITAL TROUBLE

Elgin Doctors Wroth at Action of the Ladies

Because the board of lady managers of Sherman hospital at Elgin gave permission for an osteopath to take his patients to the hospital and treat them there the other practitioners of that city are up in arms and threaten to withdraw their support from the institution. This is the only institution of the kind in the state of Illinois that is managed entirely by women, it being in charge of the women's club, and they are all in a flutter over the trouble in which they find themselves involved.

LEANDER P. KELLOGG

died at his home in Ney, Genoa township, Wednesday evening, April 19, 1905, being 78 years, 8 months and 15 days of age at the time of his decease.

Mr. Kellogg came from Vermont to Illinois in what is usually called an early day. He reached Illinois in 1845 and settled at Ney, where he has lived ever since; having resided on the farm known as the home place for more than 58 years.

He was one of a large family of children of Mr. and Mrs. Orlando Kellogg, but all have passed on before him except two brothers, who are Mr. Lucius Kellogg of Virginia City, Montana, and Mr. John Kellogg of Shell Rock, Iowa.

On January 20, 1847 he was united in marriage to Miss Harriet Hutchason and they journeyed side by side in their married life for more than 58 years.

Five children survive their father. They are, Mrs. Jennett Wilcox of Genoa, Mr. H. A. Kellogg of Genoa, Ill., Mr. Leslie and Mr. L. D. Kellogg of Ney, Ill., Mr. Edward E. Kellogg of Cedar Falls, Iowa, and one adopted daughter, Mrs. Mary Prescott Tate of Compton, Ill., all of whom mourn the departure of an honest upright, worthy Christian father.

Mr. Kellogg as an early settler was obliged to handle things in their rough state, but hard work and good management on his part proved the victor and he soon saw the fruits of his labor.

For the first twenty years of his residence in this community in addition to carrying on his farm work he was engaged in teaming, often making the long trips from Genoa township to Chicago and Galena, Ill.

For all these years he has been held in the highest esteem by his neighbors in this community. Big hearted and generous he ever stood ready to lend a hand to any in need or in trouble. His neighbors all knew that they had in him a true and helpful friend.

He was a man of strong religious convictions and the Bible was the guide for him. He knew that it was God's book for man and was glad to be led by its truth. When he grew to manhood he was baptized in the Christian faith and expressed his unclouded hope in the Gospel of Christ to the very end of his journey; and sacred to the memory of the children who survive will be the vision of the

Did not Stop the Publication

An acquaintance met Horace Greeley one day, says Success Magazine, and said: "Mr. Greeley, I've stopped your paper."

"Have you?" said the editor, "Well, that's too bad." And he went on his way.

The next morning Mr. Greeley met his subscriber again, and said: "I thought you stopped the Tribune."

"So I did."

"There must be some mistake," said Mr. Greeley, "for I just came from the office and the presses were running, the clerks as busy as ever, the compositors were hard at work, and the business was going on the same as yesterday and the day before."

"Oh," ejaculated the subscriber, "I didn't mean that I had stopped the paper: I stopped only my copy of it, because I didn't like your editorials."

"Pshaw!" retorted Mr. Greeley. "It wasn't worth taking up my time to tell me such a trifle as that. My dear sir, if you expect to control the utterance of the Tribune by the purchase of one copy per day, or if you think to find any new newspaper or magazine worth reading that will never express convictions at right angles to your own, you are doomed to disappointment."

A Creeping Death

Blood poison creeps up towards the heart, causing death. J. E. Stearns of Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound and saved his life. Best in the world for burns and sores. 25c at Hunt's Pharmacy.

STATE LEGISLATURE

What the Solons at Springfield Are Doing for the Commonwealth.

STATE HAPPENINGS RECORDED

News of Illinois Prepared for the Benefit and Convenience of Our Readers.

Springfield, Ill., April 25. — By a unanimous vote the house committee on municipal corporations reported the Church "gas regulator" bill giving all cities of the state the right to fix maximum prices for gas and electric light, heat and power.

There were few Democrats in the house when the gavel fell at the opening. Fifteen bills were passed, including those increasing the number of state mine inspectors, establishing a state sanatorium for the treatment of consumption. The senate resolution asking congress to build at Washington a \$3,000,000 monument to Abraham Lincoln was adopted. McGoorty tried to call up the Church gas bill, but failed. A protest by Roman Catholics and Lutherans against the various school book and "free ride" bills was presented.

The house at the night session cut the county feature out of the Anderson local option bill, so emasculated it that its backers could hardly recognize it. The house then cut off other features of the bill. At the end of the session, the bill was minus the county and precinct features, the referendum clause and the clause providing for combinations of the ward and precincts.

The senate has the primary elections bill as agreed upon by the committee on that subject and made it special for Tuesday afternoon, and passed seven bills, including the bill regulating the remarriage of divorcees. Four bills were advanced to third reading, among them bills amending the fees and salaries of public employes subject to garnishee.

Springfield, Ill., April 29. — The house rolled up its sleeves at the command of Speaker Shurtleff and began the proceeds of elimination and selection leading to sine die adjournment next Saturday night. For the first time since the session began the house had a working quorum on a Friday.

McGoorty's Chicago charter convention bill, providing for the holding of a convention to draft a charter for the city of Chicago, was passed at the morning session, and Church's gas "regulator" bill was amended in a way that brought contentment to the hearts of McGoorty, Mayor Dunne and others of the Chicago delegation, and advanced to third reading.

When the night session of the house was called to order the quorum had disappeared. But the house did a lot of work. During the three sessions a dozen bills were passed, including the one providing for a Chicago charter convention, twenty-three sent to third reading, including the Church gas "regulator" bill as amended by agreement during the day, and a convict labor bill providing that convicts shall be employed only in the manufacture of all material and supplies needed by state institutions, road and school districts, except the printing of school text books.

Less than a quorum of the members of the senate was present when that body was called to order. Haas presided, little or no business was done and adjournment was taken to Monday evening.

Springfield, Ill., May 2. — In spite of the fact that there is "business to burn" here it this week, when the house met there was a bare quorum present. Those on hand, however, evinced a commendable desire to do what was possible in the way of advancing the work and began advancing bills to third reading. At the morning session thirteen bills were so advanced.

The house adopted resolutions of regret at the death of John Mayo Palmer, ex-member of the legislature, and Thos. Gahan, of Chicago, ex-Democratic national committeeman. There wasn't a quorum at the afternoon session and advancing bills was resumed, and nine bills were advanced to third reading, including these: Abolishing the indeterminate sentence law; requiring railroad companies to equip the cars and locomotives with safety appliances; creating the office of state inspector of safety appliances; authorizing mine operators and manufacturers to form mutual insurance companies; providing for the manufacture of tiling and crushed rock for hard roads by the convicts at the Chester penitentiary.

A quorum having appeared the house passed bills and ten went through, five of them being appropriations for salaries and damage claims. Others passed were bills amending coal mine act to comply with the child labor law to provide that no boy under 16 years of age may be employed in a mine, and the "full train crew" bill drawn by the Brotherhood of Railway Trainmen.

At the night session the passage of bills was resumed. Among others the following were passed: Establishing a department of forestry at the University of Illinois; permitting mine operators temporarily to employ experienced men as mine examiners when regular mine examiners not procurable; abolishing cumulative voting for the sanitary district trustees; prohibiting the sale of a stock of merchandise in other than in natural course of

business without a five-day notice to all creditors.

Springfield, Ill., May 3. — The first thing done by the house when it met in morning session was the advancement without reference of the shot-firers' bill to second reading.

After some other business had been transacted Pedersen reported the Church gas "regulator" bill. Church promptly called up the bill on third reading, explaining it briefly. The roll was then called on the bill. The vote on the bill was—yeas, 111; nays, 16—the opposition coming entirely from the down state districts.

Dr. Norden was recognized as soon as the house reconvened in the afternoon, and moved that the house concur in the senate amendments to the charitable institution civil service bill. On roll call the vote was—yeas, 85; nays, 36—and the bill now goes to the governor for signature.

In three long sessions the house disposed of about twenty bills and four joint resolutions, the night session being given over entirely to the passage of house bills, for if the house adjourns Saturday night only today remains for the house to send bills to the senate with any prospect of their passage by that body. The good roads bill and the St. Clair and Madison county levee district bill were among the big measures passed. The latter provides for the formation of levee districts along the east side of the Mississippi in the counties named is a senate bill, and now goes to the governor for his approval.

The senate passed house civil service senate passed the house civil service bill, as amended by the senate, providing for a system of civil service in the state institutions. There was no debate on the bill and it passed by a vote of 37, nays 3.

The senate passed nine other bills, one of which increases the salaries of supreme court justices to \$10,000 a year. The good roads bill was referred to the appropriations committee.

The senate receded from its amendments to the divorce bill, and the measure now goes to the governor. The senate amendments struck out a provision prohibiting either party to a divorce from marrying again within a year and applied the restriction to the guilty party alone.

Fireworks and the Fourth.

Chief Champion of Chicago's fire department is aiding in the movement in that city for a "safe and sane" Fourth of July by urging proper restrictions upon the sale of fireworks. Chief Champion classes fireworks as good and bad, and in the latter class he places dynamite caps, giant firecrackers, blank cartridges, toy pistols and toy cannon. Any city that succeeds in banishing this class of fireworks from its Fourth of July celebration will be reasonably safe as regards fires and serious or fatal accidents, such as our present noisy Fourth usually entails.—New York Tribune.

The Seedless Apple.

The Orange Judd Farmer in discussing the latest horticultural freak, the seedless apple, cautions intending growers against paying fancy prices for seedless apple stock, claiming that it is not commercially warranted. While the apples may be seedless, they contain the usual core, or carpels. The blossom end of the apple, instead of being closed, is more or less open and extends a considerable distance toward the center of the fruit. The seedless apple seems to be a freak of no especial merit. The coreless apple is what is needed.

A Tropical Rainstorm.

The violence of tropical rainstorms is proverbial, yet never before has one been scientifically registered in which so much water fell in so short a time as at Santiago de Cuba recently. An English engineer who gauged the rainfall found that it was at the rate of over four inches an hour and that between 7 and 10 o'clock in the evening more than a foot of water reached the ground. The storm covered nearly 300 square miles and in places was heavier than at Santiago.

Bernhardt and the Censor.

The censor at Constantinople declined to allow Mme. Sarah Bernhardt to appear in "La Tosca," "Phedre" or "L'Aiglon." All plays in which kings or princes have roles are forbidden in Turkey on principle, but in the case of plays like "L'Aiglon," where Mme. Bernhardt personates a male role, the Turkish officials discover a direct breach of the laws of the Koran and decline most emphatically to discuss the question.—St. James' Gazette.

Amenities of Journalism.

It was supposed that only in the western parts of this country did the old amenities of journalism survive, but we quote this from the London Globe: "The value of 500 copies of the Daily News was discussed yesterday at the North London court. We must apologize for any aspersions we may have made on the merits of our contemporary. 'It is as good as any other paper,' said Mr. Fordham, 'for wrapping up fish.'—New York Tribune.

Weekly Market Report

Furnished by Russell, Freeman & Co., Livestock Agents, Union Stock Yards, Chicago. Corrected every Week

Receipts of cattle for the first two days this week are 21,500 and notwithstanding light receipts the prices have not advanced. The lessened receipts however is giving packers an opportunity to work off some of the accumulated product and we hope with lighter receipts to see some reaction in the market. At the close of Tuesday's trade quotations are as follows:

Choice to fancy finished steers	\$6.00 to 6.50
Good to choice finished steers	5.40 to 6.00
Fair to medium corn fed steers	4.90 to 5.25
Common to fair corn fed steers	4.25 to 4.75
Inferior to rough beef steers	4.00 to 4.25
Bulk of the exports from 1150 to 1140	5.10 to 5.80
Fancy, well finished yearlings	5.10 to 5.75
Medium yearlings	4.25 to 4.75
Good to choice feeders	4.60 to 5.00
Common to good feeders	4.00 to 4.50
Common light feeders	3.00 to 3.75

The butcher stuff has been in fair supply and while prices are notably steady on the good grades, canners and common cutters are dull and slightly lower. With moderate receipts we hope for a little reaction in the trade. At the close of Tuesday's trade quotations are as follows:

Choice to fancy heifers	4.75 to 5.25
Good to choice heifers	4.00 to 4.60
Medium to good heifers	3.25 to 3.75
Common heifers	2.50 to 3.00
Choice, heavy export cows	4.00 to 4.60
Good to choice cows	3.25 to 4.00
Medium to good cows	2.75 to 3.25
Common cows	2.25 to 2.50
Canners	1.50 to 2.00
Good to choice export bulls	3.75 to 4.00
Fair to good bulls	3.50 to 3.50
Bolognas and common bulls	2.50 to 3.00

Receipts of hogs for the first two days of this week are 40,000 and with increased shipping demand prices have advanced 5c over the close of last week. At the close of Tuesday's trade we quote:

Mixed	5.15 to 5.25
Mediums	5.25 to 5.35
Heavy packing	4.65 to 5.20
Selected heavy shipping	5.25 to 5.35
Selected light (170 to 180 lbs. av.)	5.00 to 5.20
Little pigs	4.25 to 5.00

noon by a company of ladies, all
of whom come with packages
containing good things to eat. It
is said that the spread was
immense, altho no men, who are
the real judges in such cases,
were present. The ladies had a
good time anyway, Mrs. Merritt
being well prepared to entertain
them in her pleasant new home.

Marguerite, the little daughter
of Mr. and Mrs. Jas. Stewart who
now reside near Hinckley, fell
from a second story window last
Friday striking her head on a
stone. The skull was fractured
and it was thought at first she
could not live. She is now getting
along quite well and will recover
the doctors think, unless compli-
cations set in. Mr. and Mrs.
Arthur Stewart of this city went
to Hinckley soon after they heard
of the accident.

The readers of this paper will be pleased to
learn that there is at least one dreaded disease
that science has been able to cure in all its stages,
and that is Catarrh. Hall's Catarrh Cure is the
only positive cure now known to the medical
fraternity. Catarrh being a constitutional
disease, requires a constitutional treatment. Hall's
Catarrh Cure is taken internally, acting directly
upon the blood and mucous surfaces of the
system, thereby destroying the foundation of the
disease, and giving the patient strength by build-
ing up the constitution and assisting nature in
doing its work. The proprietors have so much
faith in its curative powers that they offer One
Hundred Dollars for any case that it fails to cure.

Terrific Race with Death
"Death was fast approaching,"
Ralph F. Fernandez of Tampa,
Fla., describing his fearful race
with death, "as a result of liver
trouble and heart disease, which
had robbed me of sleep and of all
interest in life. I had tried many
different doctors and several
medicines, but got no benefit,
until I began to use Electric
Bitters. So wonderful was the
effect that in three days I felt
like a new man, and today I am
cured of all my troubles." Guar-
anteed at Hunt's Pharmacy, price
50c.

THE HOUSEKEEPER'S PROBLEM.

THE FACTS OF THE CASE.

The tendency of the times is for young
women to prefer work in office or factory
rather than doing housework. Yet the
work in the office
or factory is usu-
ally more nerve-
racking because it
is a constant rep-
etition of work at
high speed—a
tension which
racks brain and
body and from
which there is no
relaxation. On
the other hand
the housekeeper,
if she be a mother
of a large family,
is weighted down
with worries and
cares—her house-
work is beyond
her strength, per-
haps, yet if she
studies her work,
puts her house-
work on a business
basis and manages
well, she can easily
take twenty minutes or half an hour in
the middle of the day to completely relax.
Many women are confined to a contin-
ual in-door life because of disease of the
womanly organs. To these is offered \$500
reward if they cannot be cured of Leu-
corrhea, Female Weakness, Protoplasia, or
Falling of Womb. All Dr. Pierce asks is
a fair and reasonable trial of his means
of cure.

No other medicine for the cure of wom-
an's peculiar ailments is backed by such a
remarkable guarantee as Dr. Pierce's Fa-
vorite Prescription. No other medicine
for woman's ills is possessed of the un-
paralleled curative properties that would
warrant its makers in publishing such
an offer; no other remedy has such a
record of a third of a century of cures on
which to base such a remarkable offer.
It is a good thing to keep Dr. Pierce's
Pleasant Pellets in the house. One "Pel-
let" is a laxative, two a mild cathartic.

The Food Value of a Soda Cracker

You have heard that some foods furnish fat,
other foods make muscle, and still others are
tissue building and heat forming.

You know that most foods have one or more
of these elements, but do you know that no
food contains them all in such properly balanced
proportions as a good soda cracker?

The United States Government report shows
that soda crackers contain less water, are
richer in the muscle and fat elements, and
have a much higher per cent of the tissue
building and heat forming properties than any
article of food made from flour.

That is why **Uneda Biscuit** should form
an important part of every meal. They repre-
sent the superlative of the soda cracker, all
their goodness and nourishment being brought
from the oven to you in a package that is proof
against air, moisture and dust—the price being
too small to mention.

Saved By Dynamite

Sometimes a flaming city is saved by dynamiting a space that fire can not cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs, and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and la grippe. At Hunt's Pharmacy, price 50c and 1.00; guaranteed. Trial bottle free.

Why Suffer from Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes, "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing which will relieve the pain." For sale by Hunt's Pharmacy.

Chamberlain's Cough Remedy the Very Best

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about

its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Hunt's Pharmacy.

Vinol The New Body Builder

As delicious as a Fresh Orange
Supersedes old-fashioned Cod Liver Oil and Emulsions

Guaranteed to contain all the medicinal elements, actually taken from genuine fresh cods' livers, with organic iron and other body-building ingredients, but no oil or grease, making the greatest strength and flesh creator known to medicine. For old people, puny children, weak, pale women, nursing mothers, chronic cold, hacking coughs, throat and lung troubles, incipient consumption—nothing equals Vinol.

Try it—if you don't like it we will return money.
