TWAS A FAST GAME

GENOA HIGHS TOO MUCH FOR BARB CITY LADS

GENOA GIRLS OUTCLASSED

the Games-Genoa has Every Prospect of Championship

The undefeated Genoa high chool basket ball team added another scalp to its string of victories last Friday evening by dancing all around the DeKalb high school team to the inspiring tune of 42 to 21. But don't imagine that to accomplish the feat was only easy sailing for Genoa. DeKalb had a strong team on the floor and every goal thrown by the locals was well earned. The Genoa-Marengo game was remarkably fast while the Genoa-DeKalb game was chain lightning turned loose. It would be a difficult matter to pick out the best player in the Genoa team. Every man seems to have been particularly cut out for the position he fills, while all seem anxious to perfect the team work instead of looking for individual glory. If the boys continue to improve and have an opportunity of meeting some of the best teams of the country there is every reason to believe that they will finish with championship honors.

The Genoa team lined up as where the accident occurred? new building for the entire school follows: Paul Stott, John Downing, Abiram Crawford, Carl Harvey and Floyd Stevens.

On the same evening of the boys' victory the girls were completely outclassed by the DeKalb five. It was not due to inferior The officers and teachers of the playing that the Genoa girls lost, but a decided shortage in stature. head taller than the locals, making goal throwing from the field evening of the 13th of September, This sociable will be one of the comparatively easy. It is even desiroughly with the mixture named above. fer that they should be almost soaked, trees with scarcely any loss. as it were. A sprinkler can be employed, but as the oats are to be stirred anyway, it is quite practicable to throw on the liquid with a bucket or dipper. It will be distributed if the seed is sufficiently stirred.

When the oats have been made piled up into a deep pile and left in this condition for a period of two or three hours, after which they should be spread out on the floor and stirred three or four times during the next twenty-four hours. If this is done the seed will be dry enough to sack up at this time. Another method that has been used with satisfactory results is that of dipping a gunny sack full of seed in a barrel of water and allowing it to remain until it becomes thoroughly saturated. Afterward it is removed and allowed to remain in the sack for two or three hours. It must then be spread out and dried. Otherwise there is danger of the grain heating and of germination being im-

that lots of stock is not half provid- Car ed with sufficient shelter. When a man has everything under shelter, the bad weather is not half as bad to him. Every farmer should see that his stock is protected during this kind of weather, but if not protected they will lose and it takes the best of care to make them gain during this kind of weather.

GOING AHEAD.

Now that the winter is upon us. it will give us time at least to formula late plans for future action. I refer especially to the making of plans for the planting of fruit trees, small fruits and vegetable gardens. Many of us in the past have had occasion to regret that we did not have as of fruit as our neighbors or some vest Time." Then it is too late to basis to the producer. rectify mistakes. The winter is the time to formulate the fruit grounds, or lay them out on paper. Study, and plan out just how much room you will have for the different fruits and trees. and don't forget to include in your plans ample room for growing all the strawberries that your family can use. Find out from your neighbors, if you have not already this information, the best varieties of each one of these to plant, and if you cannot get the information this way, send to some reliable house and get their Make up your mind what you want, try and overcome some of your shortcomings.

There are two things to keep constantly in mind purchasing the fruits for next spring. One is that it does not pay to deal with unknown parties. The responsible tree agent who is will not offer to sell untried varieties or varieties which have not proved satisfactory in the section of the country he is working. But the fraud tree rope in a sucker in almost every and buy only those.

PLANTING THE TREE.

There is no operation performed on as the planting of a tree, digging it the apples we eat this winter? up properly with good roots, and removing it to its new home. One of the first requisites is to get as much of the root system as possible, and grow best if mixed with moist sand sary to mix together formaldehyde after transplanting. This applies to they may be transplanted to similar and water in the proportion of one any of the maples, hackberries, elms nursery rows, setting them about pound of the former to forty or fifty and other trees. THE ANSWERED PRAYER.

Christmas morning I almost froze, I never waited to put on my clothes; I was in such a hurry to see What Santa Claus had brought to me. Well, if you could have seen my eyes, With such a look of sad surprise, Nothing, I'm sure, could look much worse, My stocking was empty as mother's purse.

aired.

I cannot tell you the tears I shed.
But I crept back to my little bed.
And I asked Jesus. "Didn't he see
I couldn't go to the Christmas Tree.
And see the nice things they tell about

Then I went to sleep again
Till I heard Brother Tom raising cain,
And making such a terrible noise;
I guess that's the way with all the boys.
And he said: "Hurry up, Bess,
Santa Claus has been here, I guess."
"No," I said, "you can't fool me,
I got up early on purpose to see."

But when I peeped through the kitchen door I was more surprised than I was before, For Santa Claus had been. O, so good, And brought me some shoes, and a cloak, and hood:

I knelt right down by my little chair, And thanked dear Jesus for hearing my naver.

LAWSUIT ENDED BY MARRIAGE.

Excellent Precedent Set by an Eng-

lish Justice. A young man and a young woman were contesting possession of a piece of property, the one claiming under an old lease, the other under an old

"It strikes me," said the justice, that there is a pleasant and easy way to terminate this lawsuit. The plaintiff seems to be a respectable young man, and this is a very nice young woman. They can both get married and live upon the farm. If they go on with law proceedings the property will all be frittered away among the lawyers, who, I am sure. are not ungallant enough to wish the marriage not to come off.'

The lady blushed, and the young man stammered that they "liked each other a little bit:" so a verdict was rendered for the plaintiff, on condition of his promise to marry the defendant within two months—a stay of execution being put to the verdict till the marriage ceremony should be completed.

This is about the first couple ever sentenced to matrimony in a court of law .- London Tit-Bits.

Don't Wait. Hanna, Wyo., Jan. 15th (Special)-Delays are dangerous. Don't wait until all the awful symptoms of Kidney Disease develop in your system, and your physician shakes his head gravely as he diagnoses your case. If you suspect your kidneys, turn at once to the great Kidney Specific-Dodd's Kidney Pills. You can do so with every confidence. A few of Dodd's Kidney Pills taken in time have saved many a life. The early symptoms of Kidney Disorder may be the forerunners of Bright's Disease. Diabetes and Dropsy. Dr. W. H. Jeffries, a resident here, tells below how he treated

Kidney Pills, I had always a tired of my bed, and my Kidneys were in very bad shape. There was always a dull heavy pain across my loins, and I had hard work to stoop. I took two boxes of Dodd's Kidney Pills, the tired feeling and back pains have entirely gone, and I am now cured."

In her younger days Hetty Green

had for a neighbor an old Vermont farmer, with just a touch of that same native shrewdness that has made her name famous. One day, in the midst of the thrashing, this old farmer broke his winnowing fan and sent over to borrow Hetty's.

"Certainly," was the suare reply, "he is perfectly welcome to my fan, but I never let my tools be taken off the place. Tell him to bring his grain here and he may winnow as much as he likes on my barn floor.'

Of course, this was an awkward ar- negroes, 513 Japanese, 384 Chinese, rangement, but the farmer said noth- 217 Filipinos, 87 Samoans, 28 Porto population. Massachusetts sends a ing. Whole Foot Nothing But Proud Flesh -Had to Use Crutches-"Cuticura Remedies the Best on Earth."

"In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. At last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day, and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. It is eight months now since I stopped using Cuticu: a Remedies, the best on God's earth. I am working at the present day after five years of suffering. The cost of Cuticura Ointment and Soap was only \$6, but the doctors' bills were more like \$600. John M. Lloyd,718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

As we understand the case in its present aspect, Mrs. Corey gets back her husband and a million dollars, while Mabelle gets the hinky dink.

Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-husy dector senalike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing, nervous symptoms Vitus's dance, and other discressing, hervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

One Problem of the Day.

These figures are sig-

Some other source of income had to be found,

with their mother, combined forces to woman whose name it bears.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and was the kitchen, where roots and herbs were steeped on the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it ended it to others, and the demand gradually increased.

In 1877, by combined efforts the famly had saved enough money to comence newspaper advertising and from that time the growth and success of the enterprise were assured, until today Lydia E. Pinkham and her Vegetable Compound have become house-hold words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed to her reward years children, three sons and a ago, but not till she had provided means for continuing her work as effectively as she could have done it

During her long and eventful experience she was ever methodical in her calling in a physician only in specially work and she was always careful to pre-urgent cases. By tradition and exwork and she was always careful to pre her attention. The case of every sick woman who applied to her for advice careful study, and the details, including symptoms, treatment and results were recorded for future reference, and to-day these records, together with hundreds of thousands made since, are fields and orchards vegetable foods of available to sick women the world fields and orchards vegetable foods of all kinds; so, if we but take the pains to find them, in the roots and herbs treatment of woman's ills, which for authenticity and accuracy can hardly be equaled in any library in the

GRIP. BAD COLD. HEADACHE AND NEURALGIA.

Congressional Proceedings

Thursday, January 11. 1906.

Adjourned until to-morrow.

Friday, January 12, 1908.

Debate on the Philippine tariff bill again occupied the entire attention of the house, and the number of speeches to be offered on this subject resulted in an agreement whereby the discussion is to continue for two days more. The house will meet at 11 o'clock Saturday and Monday, and general debate will be closed at 5 o'clock on the latter day. The measure will be taken up for amendment under the five-minute rule Tuesday, and doubtless will be disposed of. At 4:55 p. m. the house adjourned.

The senate was not in session.

Monday, January 15, 1906.

Tuesday, January 16, 1906.

A discussion of the railroad rate question was precipitated in the Senate when Mr. Fulton took the floor to explain an amendment to the Dolliver bill, offered by him, giving courts of justice authority to modify orders of the interstate commerce commission imposing an unreasonable rate. Mr. Scott made a speech in support of the merchant marine shipping bill and Mr. Heyburn gave notice that to-morrow he will ask the Senate to name a day for voting on the pure food measure. The bill appropriating \$500,000 for a memorial bridge across the Potomac River at Washington was passed. At 4:02 p. m. the Senate went into executive session and at 4:10 ad-Tuesday, January 16, 1906. nto executive session and at 4:10 ad-

The Philippine tariff bill was passed by the House substantially as it came from the ways and means committee. The vote was 258 to 71. Rice was made subject to the same tariff as sugar and tobacco, 25 per cent of the Dingley rates. Many amendments were launched only to be defeated after a strenuous debate. The Democratic substitute found support only with the minority and was defeated 231 to 106. An effort to commit the Vnited States to the policy of granting independence to the Philippines as soon as the natives can be prepared for self-government was lost. The House agreed to a resolution asking the Secretary of State to transmit to the House all the correspondence and dispatches between correspondence and dispatches between this country and Austria-Hungary con-cerning the arrest, detention and fine of Marcus Braun, special immigrant commissioner of the United States. At 3:20 o'clock the House adjourned

DEATHS IN STORM IN INDIANA

Two Persons Killed and Others injured by Gale.

Indianapolis, Ind., dispatch: Indiana was swept by a flerce storm of wind and rain Monday, which brought death and injuries to several persons and caused great destruction of prop-

erty. The dead: Delpha Johnson, 12 years old; killed in collapse of schoolhouse near

Isaac Ritter, blown from bridge into creek near Bedford and drowned. Mrs. Mary Beere; badly burned at Evansville by stove overturned in wrecked house.

Omar Curtz; internally injured in collapse of schoolhouse near Frank- boy

Libby Johnson; leg broken in collanse of same schoolhouse near Frank-

The storm was accompanied by a severe electrical display and a number of houses and barns throughout the state were struck by lightning.

WORSE THAN GREAT BATTLES

Casualty List in Pennsylvania Mills Mounts to Huge Figures.

Pittsburg, Pa., dispatch: According to statistics just made public 17,700 men have been killed or maimed in the Allegheny mills during the last year. Similar conditions have prevailed for several years. The list of men injured during the last year is greater than the casualty list in some of the world's important battles. It is understood an effort has been made to suppress reports or details of incidents in hundreds of cases. Not until the statistics appeared, therefore, did the exact condition of affairs become

The entire journey lies through a continuous panorama of rippling brooks, your money. leaping cataracts, towering mountains and hill-shadowed lakes, which for diversity of interest and beauty of landscape is not equaled anywhere on the American continent.

Human Ingenuity Can do no more for the protection of trains than is furnished by the signal system in operation upon the Lacka wanna railroad. Brightly painted semaphores by day and colored lights by night flash their warning to the swift-flying trains. These signals divide the line into blocks, and no train is permitted to enter them until preceding trains have passed out of the way. Where diverging tracks are met, a system of interlocking switches makes the danger of accident impossible. Crossings, grades and curves are protected by the most modern equipment for the safety of trains. If for any reason this wonderful mechanism fails to work, signals are automatically set at "danger," and not a wheel moves until

Any Railroad Agent will be glad to give further information in regard to the Lackawanna service which embraces three through trains leaving Chicago at 10:35 a. m. (arriving at New York 3:30 p. m.); 2:30 p. m. (arriving New York 7:20 p. m.); and 9:15 p. m. (arriving New York 6:15 p. m.), and full particulars will be cheerfully furnished upon application to George A. Cullen, General Western Passenger Agent, 101 Adams street, Chicago.

the trouble is ascertained.

Adam was sitting by the Euphrates and his countenance was overspread

by the pale cast of thought. Occasionally he flipped a pebble into the water, and now and then he pulled up a blade of grass and chew-

An hour passed, and still he sat there, thinking deeply, and ever and anon poking a toe or two down into the water, to feel it tickle.

At last, when his shadow had become very small, he stood up and stretched himself and yawned.

"Oh, well," he said, "there's no use hanging around here any longer. I guess I'll go over and lie down under the fig tree and go to sleep, so that the rib I am to give up can be taken away. now that it's a lucky thing for Eve that nobody has at yet invented playing cards. Dr. Williams' Pink Pills Cure Heart Pains, Dizzy Spells and Weakness.

Easy to get, hard to get rid of; that is vhat most sufferers think of dyspepsia. They are astonished when their stomach egins to trouble them seriously.

They had been eating hurriedly and rregularly for a long time, to be sure, but they supposed their stomachs quite used to that. Some people know that the strength

which the weak stomach needs, and for the lack of which the whole body is suffering, can be found surely and quickly in Dr. Williams' Pink Pills. In hundreds of instances these pills have succeeded where other remedies failed.
"My indigestion," said Mr. J. R. Miller, of Dayton, Va., "came in the first place from the fact that a few years ago I worked a great deal at night, and ate at any odd hour whenever the chance came, and always very hurriedly. One day I found myself a victim of terrible

sleep my stomach would be so weak that it would hardly take any food. I had very uncomfortable feelings about my heart, and was dizzy and, whenever I stooped over and then straightened up,

dyspepsia. It kept me miserable all the

"I read the statements of several persons who had got rid of obstinate stomach troubles by using Dr. Williams' Pink Pills. I bought some and they did me a world of good. They acted promptly and did just what was claimed for them. I have no more distress af-ter meals; the bad feeling has gone from the region of my heart; the alarming dizzy spells have disappeared, and I am

DEFIANCE STARCH—the package "DEFIANCE" IS SUPERIOR QUALITY.

HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company-California Fig Syrup Co.-printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company-California Fig Syrup Co.-printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company— California Fig Syrup Co.-printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

slept, and while he slept he died. ing with him only Mrs. Field, Stanley | into several millions of dollars. Field, Mrs. Stanley Field, and Mrs.

Knew End Was Near.

Mr. Field realized in the morning the day. He had been told Monday him in the unequal battle against the disease which had stricken him down.

Mr. Field, although 70 years of age, made a fight against the disease which the attending physicians characterized as being braver and stronger man many years his junior.

Funeral in Chicago Friday. It is announced that the funeral will be held in Chicago at 12 o'clock Friday at Mr. Field's late residence, 1905 Prairie avenue, the Rev. J. A. Morison of the First Presbyterian church officiating. The services will that there be no flowers. No service only one branch of his investment in will be hele in this city.

LEAVES MILLIONS.

Mr. Field Owned Securities and Prop-

erty Worth \$200,000,000. from \$150,000,000 to \$200,000,000. His terest was in Chicago City railway.

New York, Jan. 17.-Marshall Field | P. Morgan & Co., and in the good died at 4 o'clock Tuesday afternoon. things which that firm fathered it is Death came to him as sleep comes to common report that Mr. Field was ina man exhausted and weary. He terested largely. Here, again, there could be no public certainty as to Only the members of Mr. Field's what Mr. Field owned. Other men family were at his side when he with whom he was associated were breathed his last. When the shadow large owners, and if he was sufficient began to darken, the physicians and ly interested to become a director it nurses withdrew from the room, leav- may be reckoned that his holdings ran

Mr. Field was a director in the Chi-Marshall Field, Jr. His last words, it | cago, Rock Island and Pacific railway, is believed, were addressed to his the operating or money earning company, and he was also a director in the Rock Island, the holding company. "Large interest" must convey the idea that he could not hope to live through of his holdings. His opinions were actively consulted in this property, night that all the chances were against | and, right or wrong, he was credited him. He accepted the inevitable with with being one who advised the susresignation and expressed his grati- pension of dividends on the preferred tude to those who had fought with stock of the Rock Island company.

Investment in Stores. As president and director of Marshall Field & Co. he had, of course, his largest single investment. The retail store in State street alone was credited with gross earnings in 1905 than would have been expected of a of \$52,000,000. Two years ago the profits of the retail house were understood to have been something like \$3,750,000. In the last two years the business has grown in such percentage that the net profits for last year must have been between \$4,000,000 and \$5,000,000, the greater portion of which went to the president of the be private and the family requests firm. But the retail establishment was the dry goods business, for his wholesale house must be considered, and

his foreign factories. In Chicago, outside the investment in his own business and the Pullman company, Mr. Field was owner of street railroad shares and Chicago Edison Mr. Field's fortune is estimated at shares. His largest street railroad in holdings of stocks and bonds generally He held in the latter between 5,000

are estimated to approximate \$100,- | and 10,000 shares, which approximate 000,000, although with the exception \$290 each, making his holding worth of his ownership of Chicago bank between \$1,000,000 and \$2,000,000. He shares, there is no public or specific was the largest individual holder of record of his investments Directorships held by him indicate a large in- pany, which has a capital of \$11,220,terest in such properties, but he was also an extensive owner of securities | Chicago West Division Street railway, in companies in which he was not which, before the present troubles, represented on the board of directors. was valued at \$600 per share. It is known that he constantly was in interest or dividend bearing securimotions or unproductive property, estate will prove to be extremely liquid and elean.

Mr. Field is credited with having been the largest individual holder of the stock of the Pullman company, the total capital of which is \$74.000. 000. He was a larger holder, even. than the Pullman estate. It would be a mere guess to say that his ownership of Pullman amounted to 25,000 shares, with an approximate market rector in the company, and its record of dividend disbursements has been such that he might not be expected to have been a holder of any less amount of the stock than indicated.

Find Miss Helen's Friend,

Trustees Say Game as Played at Present Is Menace to Morals.

EVILS MUST BE ABOLISHED

Rules for Intercollegiate Contests University Will Permit Its Students to Participate.

game of football because, as played, death of their father and asking the is a menace to the morals as well as the bodies of the players.

Not until the game has been reoard of trustees will its re-establishment be considered by the university | Eckley Brinton Coxe Makes Donation

The discontinuance of the game is result of a vote taken recently at a ecret meeting of the board of overeers, when it was decided that intercollegiate football at Harvard would not be permitted until the rules and regulations had been so changed and amended as to remove what the overseers regard as the evils of the present game. The overseers accepted unanimously the opinions of a special committee that the game as at esent played is essentially bad in

every respect Demand Decent Game.

The committee declared that if changes were to be made, no man now a member of the so-called intercollegiate rules committee should have a hand in it, the committee believing that these persons are so far | Ercolessi of the Italian army, who committed to the present system that they could not agree to such changes as are absolutely necessary to produce a decent, clean, pleasurable contest, "instead of the present apology for a rough and tumble fight."

"Football is a fine game when properly played," the committee says, but the present method is thoroughly had and ought to be stopped absolutely and finally. Any university taking this action will later be considered as a benefactor by many players and by all lovers of healthful, clean sport and fair play."

Whether the reformed rules can be arranged and accepted in time for the resumption of football next season is problematical.

Big Surprise for Students. Some determined action by the board of overseers had been anticipated in Harvard athletic circles, but the radical attitude of abolishing the game altogether caused great sur-

prise among students and graduates. The committee's report said: "The method of formation absolutely encourages trickery and foul play. It is difficult to see all that is done, even by the most careful and sharpest eyed umpire, but the results are seen in many serious and even fatal accidents. It is nearly impossible to line up twenty-two powerful and aggressive young men opposite each other and not have some one lose his self control and do what is wrong.

Rules Committee Under Ban. opinion that the intercollegiate rules as chief of the army staff, to take ef committee should not have a hand in | fect at once, and it was accepted by making changes, and adds: "A new committee could, it is be- ceed him.

THE CALL OF THE CANADIAN WEST.

The Greatest Wheat Crop of the Con-

tinent.

The year that has just closed has done a great deal toward showing the possibilities of Western Canada from an agricultural standpoint. The wheat crop has run very near to the 100,000,000 bushel limit that was looked upon as too sanguine an estimate only a short time ago, and the area that has been broken to fall wheat for the coming harvest will go a long way towards enabling the farmers of the West to overlap on the 100,000,000 bushel estimate next year. And while the spring and winter wheat have been doing so well during the past few years, the other cereals have been keeping up with the procession. Rye and barley have made immense strides, and peas and flax have been moving steadily along. Dairying, also, has been successfully carried on in the new provinces, and in every stage the farmer has been "striking it rich." To such an extent has the success of the West taken hold of the outsiders that the rush of our Americans to Saskatchewan and Alberta, which was looked upon as marvelous last year, bids fair to be largely exceeded in 1906, and as there are still millions of acres of free homesteads available, which the building of the new railways will render accessible to the markets, new wheat lands will be opened ere long. Amongst the first to avail himself of the opportunsettler. In a large number of Ameriity presented will be the American can cities Dominion Government Agents are located, who are able and willing to give the latest and best information in regard to the new districts which the railways will open up, and there will be no abatement of the rush to the Canadian prairies during the coming season. Some time since a poet in the columns of the Toronto Star" had the following stirring lines, which throb of the Western spirit:

There's a stir in the air, there's a thrill through the land,

There's a movement toward the great West: And the eyes of all men for the mo-

ment are turned

To the country that we love the best. For 'tis Canada's day in the world's

calendar. And to this merry toast let us sup: Here's to the land, the young giant of the North.

Where the prairies are opening up!" They come from the East, and they come from the South.

They come o'er the deep rolling sea--They come, for they know they will

dwell 'neath a flag That makes all men equal and free.. Then, once more the toast, and let every man rise

And cheer ere he sips from the cup: Here's to the land, the young giant

of the North. Where the prairies are opening up!"

The leading feature of The Reader's January number is the first instalment of a two-part article on "Tuberculosis, Climate and the Great South-Sidney Coxe of the class of 1808, colwest." The article is written by Dr. Albert Hale, of The Reader's special staff, who has made a comprehensive investigation of his subject and who secured his facts at first hand. The author is startling, almost revolutionary, in his treatment of the subject. and the article is bound to create widespread discussion among medical men, tuberculosis sufferers and the thousands upon thousands of persons who, in one capacity or another, are in intimate daily contact with con-

sumptives.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Stanches are put up in %-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals, If your grocer tries to sell you a 12-oz, package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance

The January issue of "Sports Afield" is a rare good one-opening with a spirited article on Rabbit Shooting that no sportsman can afford to miss. Two new departments, Our Mail Bag-a sort of meeting ground for sportsmen-and Sportsman Gleanings by Frank L. Stick, show that 'Sports Afield" is up and doing.

Prior Are Amazing.

Leland W. Prior, who committed suicide in Cleveland because of big osses in copper stocks, was presilent of the Cleveland stock exchange and a member of the New York and Chicago stock exchanges and the Chicago board of trade.

The story of the forgeries of Leland W. Prior and their discovery is an astonishing revelation of the power of business credit. Prior's whole business biography is a story of credit -credit carefully built up, cherished for years, then abused and strained to the breaking.

Prior went far beyond that other nodern instance of the potency of credit, Mrs. Cassie L. Chadwick,

and from whom, it is more than likey, he received his inspiration. For one thing, it is now known that his first step in his fatal career of stock counterfeiting was coincident with the exposure of the woman's crimes n December, 1904.

The securities he deposited as colateral for large loans were utterly worthless. The signatures of municipal officers attached to them were forgeries of the crudest kind. So assured was Prior's confidence that his credit would carry this fictitious paper through that he made scarcely any effort to disguise his handwriting when signing other men's names un-

der promises to pay thousands. The statement is made that fifty smaller Ohio banks hold spurious securities sold by Prior. In none of hese cases will the losses be large. The American Bankers' association has directed an investigation of the sale of forged bonds to see if Prior had any assistants if the forgery.

TO MARK CENTURY'S PROGRESS.

American Board for Foreign Missions Will Celebrate.

One sultry day in summer 100 years ago a band of five young men gathered in a grove in Williamstown, Mass., to hold a prayer meeting. Soon a thunder storm came up, and they crept under a haystack nearby and continued their talk on the need of spreading the gospel into Asia, and they determined to go to that heathen land as missionaries. It was then that the movement for foreign missions started that now encircles the world. and it is this humble beginning that the American board will celebrate in "you would leave me in the hour of fifty leading cities of the country, beneed. You would take away from me ginning Jan. 23, by a missionary campaign carried on by a great number of officials, missionaries, clergymen and laymen. Almost fifty years ago a marble monument was erected on the spot in Williamstown where the first meeting was held, and for the

"haystack centennial," as it is called, the cause will be presented in the light of the extraordinary promising conditions in missionary work, especially in China and Japan.

Geronimo Takes Eighth Wife. Geronimo, the famous Apache warrior, 76 years of age, believing life too strenuous without a helpmate, has for the eighth time become a benedict. This proved startling news to his tribesmen at Lawton, Oklahoma. for they were not informed of his woo ing. Two years ago Geronimo's seventh wife died, and since then he has been converted and become a Christian. His latest bride was Mrs. Mary Loto, an Apache widow, aged 58. The wedding occurred during the Christmas holidays, but only became known a day or two ago.

NUN IN HIDING FROM SUITOR.

Sister Sebastian, Who Left Danville, Is Visiting at Joliet.

Sister Sebastian, whom Harry Pauley of Danville wanted to marry, and who he claims was abducted from Danville, arrived in Joliet and is at the headquarters of the Franciscan of Marion as president of the board sisters, at St. Joseph's hospital. In a statement given out by Mother Superior it is stated there is no truth in the story that Sister Sebastian wished to marry Pauley. The prioress claims the sister came of her own will to get away from Pauley's annoyance of her. She took care of him when he was sick and Pauley mistook her pity and kindness for a deeper feeling, it is said, and began making love to her. It is said that at the end of a threeyear period she can give up her church work and marry, but that idea never entered her head.

Peoria's Nine-Day Wonder. "Should the most prominent man in Indianapolis turn out to be a defaulter it would cause no greater commotion here than did the Daugherty scandal at Peoria," said R. L. Hall of that city while on a visit to the Indiana capital. "He was one of the most prominent men in the city," he continued, "and had the respect and confidence of everybody in the community. It is still a nine-day wonder there how he managed to conceal the matter so long. He was prominent socially, stood high in educational affairs and was classed among the best citizens. What he did with all the money, and it is now believed his

present at the meeting.

becomes her," said one of the beauties of our social four hundred. "We should, therefore, as a matter of duty, avail ourselves of all natural means of enhancing our looks, benefiting our face or figure, whenever we can do so, without resorting to paint or other unnatural means." The benefit of sunlight to the skin and hair cannot be overestimated.

Wrinkles are caused by shrinking of the tissues just under the skin.

American houses are kept too hot—the skin is dried by the hot air. If our women went out doors more, accustoming themselves to the cold air of winter, their blood would react quicker and their skin keep fresher.

\$500 reward for women who cannot be cured. Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea. Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"About two years ago I was troubled with chlarrement of liver and was unable to do

"About two years ago I was troubled with enlargement of liver and was unable to do my work," writes Mrs. Marietta Deeter, of Versailles, Darke Co., Ohio. "I took thirteen bottles of Dr. Pierce's Favorite Prescription and Golden Medical Discovery," and two vials of his 'Pleasant Pellets.' I can say that these medicines have done me more good than my home physician was able to do. My weight before taking the medicine was about one hundred and fifteen, now it is one hundred and twenty-four lbs. I pray that God may bless you in all your undertakings."

If women want to know how to take

If women want to know how to take care of their health they should always have in the household "Dr. Pierce's Common Sense Medical Adviser."
