Belvidere "Hello" Girls out on a Strike—
Col. Frank O. Lowden Buys 400 Acres
of Land in Ogle Co.

The hello girls of Belvidere are out on a strike, demanding an increase of wages.

The Elgin branch of the Boot & Shoe Workers Union declared a strike last Friday evening as a failure to agree with the representative of Selz, Schwab & Co.

Discharge papers for Wm. V. Adams of Elgin, received Saturday, terminated what is probably the longest period of service in the United States army. Mr. Adams enlisted in 1862.

Some one asked why there are twelve jurors. "Because the prophets were twelve, there were twelve Jewish judges, twelve patriarchs, twelve stones in Aaron's breast plates, twelve gates in Jerusalem, twelve apostles and twelve signs in the zodiac."

Crazed by illness, Mrs. Charles Bolland of Batavia deserted her two-days-old child early Tuesday morning, and clad only in a night robe and a pair of boots, tramped through cornfields and sloughs to Wartenville, seven miles distant. She was taken in custody there and conveyed to her home Wednesday morning.

Col. Frank O. Lowden, Monday, purchased the Wm. Althouse farm of 400 acres in Nashua township, Ogle county, the price paid being \$60 per acre, or \$24,000. The farm will be a valuable addition to the Lowden holdings in Nashua, the land being among the best in the township. The Lowden estate in Nashua, now comprises something over 2,000 acres.

A peculiar circumstance happened in engrossing the amended game law as it affects prairie chickens. Two years ago the Legislature protected them for four years and in drawing up the amended bill this year an error was made whereby the prairie chicken is protected for another four years, or six years in all. Squirrel and rabbit hunting is now the only variety of sport left to the hunter until after Sept. 1 when the shooting of geese, duck, brandt, snipe, plover, etc., will open and run until April 15.

A seedy looking stranger called at a hotel in Streator a few days ago and told the landlord he was broke and very hungry. The landlord took him into the dining room and gave the waiters orders to give the stranger a good dinner. When he got up from the table a \$20 bill dropped from his handkerchief which he pulled from his pocket. The waiter picked it up and handed it to the landlord, who confronted him with the fact and at once took out 75 cents—50 cents being the regular price—returned the \$19.25 to the stranger, who was apparently y dumbled and speechless. Later on the vigilant landlord learned that the \$20 was counterfeit and he was not only out the price of the dinner, but \$19.25 in good money.

The Pronunciation

Now that automobiles are getting plentiful, we must make it a point to learn the correct pronunciation of "chaffeur" and "garage". The former is correct spoken exactly as if it were spelled "showfur" with the accent on the "fur." "Garage," the place where you have to take the "bubble" to get it fired or stored is "gar-ahge" as nearly as it is possible to reproduce it.

MAIL SACK IN SHREDS

Contents Scattered along C. M. & St. P. Tracks Monday Night

The letter that you longed for will never come if it happened to be in the mail which was thrown off the midnight train Monday. The pouch thrown from the fast moving train became entangled in the wheels and torn to shreds. The mail which is always a heavy one was scattered along the right of way from the depot to the river. Many pieces were found complete, envelopes without the contents and vice versa. A pair of gold bowed glasses belonging to Mrs. T. L. Kitchen are among the known missing articles, only the cover of the box being found.

Death of Mrs. W. L. Saum

The death of Mrs. W. L. Saum occurred at her home in South Maywood, Nebraska, July 5 after a short illness from hemorrhage of the brain.

Funeral services were held from her late home, July 7, Rev. Ashpole officiating and preaching a touching sermon on the uncertainties of life. Her remains were laid to rest in the Maywood cemetery and were followed to the grave by a large number of friends and relatives.

Lavina Bean was born in the state of Maine, June 13, 1843 and came west with her parents, Mr. and Mrs. Samuel Bean and Mary Bean, in the year 1845, the family settling on a farm near the present site of Kingston, Ill.

She was married to William L. Saum, October 9, 1850 at Sycamore, Ill. and in 1866 the couple moved to Nebraska and settled in Johnson county, and later moved to Colfax county. From there they moved to Frontier county where they have made their home for many years, sharing the privations and hardships of a frontier life in building a home.

Besides the heart broken husband, four children and four sisters survive to mourn her death. The children are Mrs. Myron Rowan of Curtis, Neb., Mrs. E. Dennis, William and Erank Saum of Maywood, Neb. The sisters are Mrs. Vilista Thibbetts of The Dalles Oregon, Mrs. Ann E. Artley of Maywood, Neb., Mrs. Mattie Hunt, Monroe Center, Ill. and Mrs. Ida M. Fuller of Aurora, Ill.

Mrs. Saum was a good wife and mother and as a friend was tried and true, and her many acquaintances will miss her from their daily lives.

To the grief stricken husband and children, and to the mourning friends, the most sincere sympathy of the entire community is extended.

SEEKING LOCATION

The Chicago Inter-State Manufacturing Company Wants Boost

The Chicago Inter-State Manufacturing Company is seeking a location and has an eye on the excellent advantages of Genoa. C. W. Reynolds, general manager and L. E. Lee, secretary of the company, were here last week looking over the grounds. The company is about to manufacture, under recently improved methods, asphalt paving blocks. They are made in brick form 12x4x5 inches and are claimed to be more serviceable than granite, brick or any other material now used. About 50 hands would be employed. The business men are considering the proposition.

Grajek a Winner

When Frank Grajek purchased his farm in Virginia his deed called for 73 acres, more or less. Since arriving in Virginia Frank had the land surveyed and finds that he gets the best end of the "more or less," the tract measuring up 103 acres.

THEY MAKE IT FOUR

SYCAMORE THE LAST TO GO DOWN BEFORE GOATS

The County Seat Team Came Over to Win, but Their Efforts Were Useless—Score 7 to 4

The Goats made it four straight last Saturday by defeating Sycamore to the tune of 7 to 4. It was a lively game and kept the rooters busy, altho after the first two innings it was evident that the county seat lads had no chance to win. Ackerman pitched the first six innings in excellent form and then Neurauter went into the box, fairly taking away Sycamore's breath with the steam he put into the delivery. Lauman, behind the bat, put up a faultless game. Not a stolen base was made off him, nor was a passed ball charged against him. Patterson delivered the goods in good order at second while Furr pulled down three long ones spoiling the hopes of the visitors. Furr has not made an error this season out of over twenty chances.

McKee and Patterson carried away the honors in batting, the former getting three hits out of four times at bat. The latter drew base on balls twice, was hit by pitched ball once and on the fourth time up made a two-bagger making his average 1000 for the game.

The Sycamore team was strengthened with a few DeKalb players and had a strong line-up, but there were too many Goats in the way when they attempted to run bases.

BASE BALL NOTES

Sycamore defeated Kirkland Sunday, score 5 to 3.

Manager Goding has secured the Hampshire grounds for Sunday games with Union and Hunt-

ley which will take place in the near future.

The Genoa White Sox were up against it at DeKalb last Saturday suffering defeat by a score of 7 to 2. Poor base running was the chief cause of the small score on the Sox side of the score sheet.

Next Sunday the Goats will meet the strong DeKalb team on the DeKalb diamond. This will be a contest what is. Genoa now has four straight to her credit and the boys say they will make it five or be defeated.

The Sycamore ball team will discontinue their games at Electric Park, on account of failure to draw enough patronage to pay expenses. Any games they play hereafter will be played away from home according to the True Republican.

The Sycamore players now claim that Umpire Anderson favored the home team, according to the Tribune's story. Such assertions on the part of the players are too silly and small for consideration. There were several close decisions and in nearly every instance the umpire was decidedly fair with the visitors. If the truth were known the county seat bunch was slightly outclassed that day and dislike to acknowledge the corn.

IT IS WELL

DeKalb People Do Not Want the Electric Road

It is evident from the following opinion expressed by the DeKalb Review that the people of that city do not want the Aurora-Maple Park electric road:

"DeKalb don't want to go to Aurora anyway, nor to Rockford. What we want is a handy way for the people of Afton, Waterman, and Shabbona and Paw Paw and other southern and northern DeKalb county people to get to DeKalb. Those people want to come to us but can't unless they come by the tiresome, time-consuming drive way. On the other hand the people of Aurora and Rockford, including those living twenty to twenty-five miles this side of either city, don't want to come to DeKalb as a rule, except as passers through. If the instigator of these 'thoughts' could have his say about it he would say: 'Not a dollar for an electric railway from Aurora to Rockford but thousands for an electric road up and down the middle of our own county, with branches here and there.' Amen!"

Genoa people sincerely trust that the Review man's wishes will be gratified. We do not care what arrangements DeKalb may make to get the people into her borders, but we want that road and the chances are that we are going to have it.

FOUND DEAD BY RAILS

Mystery Surrounds Growsome Discovery Near Plato

Mystery surrounds the discovery of a dead body found on the Illinois Central tracks near Plato Sunday evening.

The body showed no evidence of having been struck by a train. The coroner's jury returned a verdict that the deceased, name unknown, died from heart failure due to exposure.

Foul play, with robbery as motive, is a theory advanced, as there was no money or other valuables on his body when found.

BELVIDERE MEN FAIL TO APPEAR FOR TRIAL IN TIME

Arrested Last Thursday Night Charged with Causing Runaway when Driving Automobile

For failing to appear at the stated time for trial in Magistrate Lord's court last Saturday, C. L. Brown, W. J. Adams, C. F. Lewis and C. S. Kucker of Belvidere forfeited their bonds of \$100. The gentlemen at once appealed the case to the circuit court, giving additional bonds of \$100. The men were arrested last Thursday night on the charge of causing a runaway, on a warrant sworn out by Fred Foote.

The quartette of autoists were on their way from Belvidere to Sycamore on the evening mentioned and when they reached Drake's corner west of Genoa they met a team belonging to a Mr. Hanson who resides near the Ellwood farm. The carriage contained two ladies and two children.

Just what happened at this point is a question that has not been satisfactorily settled in the minds of many. The men who were in the auto claim that they used every precaution to prevent an accident, even getting out and leading the horse around the auto. At the hearing on Saturday, however, the ladies claimed that the trouble could have been prevented by the men had they followed instructions. As stated in court the ladies requested the men to lead their horse down the Drake hill toward the river, but instead, despite the protests of the ladies, the horse was led straight west on the road which the auto party had just traveled. This necessitated turning about and again facing the auto. In going down the hill the horse kicked, bucked and cut up all kinds of capers, finally upsetting the carriage. This is substantially the story as told by the occupants of the carriage.

The men claimed that they helped start the ladies on their way after the smash-up and then proceeded on their way to Sycamore.

Fred Foote happened along about this time and deemed the damage of sufficient importance to have the bunch arrested. He accordingly got out a state warrant which was served on the party at Sycamore by Deputy Yaljen. They were brought back to Genoa at eleven o'clock that night and taken before Magistrate Lord.

The case was continued until Saturday at 10 o'clock, bonds being placed at \$100, signed by Circuit Clerk Hay and Fred Raymond of Sycamore.

Promptly at one o'clock Saturday court was opened but the defendants were not present. The ladies gave their evidence as did the witnesses and the case was closed, the auto party of course being found guilty.

At about 1:45 Mr. Kucker and his friends appeared, but alas! too late. They were informed by the judge that their bonds were forfeited. Mr. Kucker at once appealed the case and gave the necessary bonds.

There has been not a little discussion regarding the law in this case, some claiming that it is one o'clock until the hand points to two. This is true in a case set for first hearing, but in a continuance when a time is set it means that time "sharp." In his decision Mr. Lord was upheld by States Attorney Burst.

It was all thru a misunderstanding that the defendants did not appear at the proper time. They were under the impression that the magistrate set the time at two o'clock sharp.

The entire proceedings will have an airing in the circuit court.

CANDIDATES can never more coax up friends to support their nomination with a cool draught of "Schlitz" or any other kind of "fiz." The law says that all saloons must be closed during the hours polls are open at the primary election. Mean, isn't it?

THE tin horn sports from neighboring cities who have been in the habit of fast driving thru Genoa streets had better mend their ways, or at some time when they know it not an officer will lay his hand upon them. We welcome visitors, but would prefer that they be ladies and gentlemen.

THE old-time caucus or "corkus" is a thing of the past. The new primary election law is more complicated and is done up in more red tape than the laws governing the Australian ballot system.

GOVERNOR DENEEN is swinging his ax but he is using more than usual caution. He does not relish the idea of cutting off a good man's head just to please a political friend.

WHEN a man votes at a primary election he must state on oath his party affiliation. What a blow this will be to the evasive ones.

Don't be a knocker.

SHE ATTEMPTS SUICIDE

Pearl Groff, a Kirkland Domestic, Tries to Shoot Herself

Kirkland has been the scene of several tragic deaths during the past few months, and Thursday night Miss Pearl Groff, who is employed by Mrs. Daisy Rowan Newton, attempted to end her existence here below. Mr. and Mrs. Newton reside on the Lyman farm about a mile from Kirkland.

Miss Groff went to her room about 9 o'clock on the night mentioned, and laid her head on the pillow, and with a 32 calibre revolver which she placed at her temple she tried to kill herself.

The result was, only the cuticle of the forehead was injured. The young lady is about twenty years old. Her parents live at Fairdale. Her father is a successful carpenter, and her mother writes for magazines and newspapers to some extent.

George Knighton, who resides west of Kirkland, has been paying the girl considerable attention until recently. She is said to be of despondent nature, and several years ago made a similar attempt to end her life. However, all is well that ends well, and it is reported that Mr. Knighton and Miss Groff were out riding yesterday, and apparently the dove of peace hovers near, and it is to be hoped that the subject of the story will in the future be guided by her better judgement.—Belvidere Northwestern.

GENEVA IS DECEIVED

Spink Shoe Factory People Fail to Build Factory

The hopes entertained by the people of Geneva that a large shoe factory would be located at the county seat, have little chance of realization. The A. B. Spink Shoe Company held out glittering promises for the town providing a bonus could be raised and a site secured.

The people of Geneva readily responded and the stock company was formed. This was a year ago, but all that has been done in the way of building a factory is to erect a shed on the ground.

The delay was thought to be occasioned by a legal tangle in Chicago that tied up the machinery, but now word comes from Quincy that Spink is in that city offering to build a factory that will employ 2800 people.

OUR FASHION LETTER.

Costumes to Heighten the Summer Girl's Charms.

SLEEVES ARE LACE TRIMMED.

Comfort and Beauty Are Combined in the New Mixed Silk and Cotton Underwear—Batiste Corsets For Summer Wear—Parasol News.

Belge muslin frocks will be very smart this summer, and a pretty model of this material has its gathered skirt intersected with bands of lace in the same tone. The alternate sections of muslin are scarf puffings, each joined to the lace with a fancy stitch. The surplised bodice crosses into a high old rose velvet girdle. The sleeves are puffed and lace trimmed. The hat to be worn with this costume is a large black tulle adorned with a long black ostrich feather coiled around the wide brim.

A lime green taffeta silk gown has its skirt made with three narrow shaped flounces that show beneath the skirt proper, which is stitched at all the seams, giving the effect of panels over-

CINNAMON MULL DRESS.

lapping one another. The short bolero jacket has black satin revers and a waistcoat of white pique fastened with green enamel buttons.

A pretty and original dress is of old blue crepe de chine made with a full skirt. The baby bodice is embroidered with Japanese designs in silk a few shades darker than the material, relieved with touches of white and dull green. A charming little cape goes with the costume, cut all in one, in a Japanese, and embroidered to match the dress.

The frock seen in the illustration is of cinnamon mull. The skirt is applied with a queer design done in light brown velvet. The corsage is practically "all collar"—a very wide gulpure collar falling in deep points back and front and on the shoulders, where it displays the puffed sleeves, which reach to the elbow.

COMMON SENSE MODES.

Silk underwear is of course ideal for summer wear, but the price is prohibitive for the majority of women. As second choice there is a silk and cotton mixture that is very good and less expensive.

There is a new unshrinkable Scotch wool underwear of a texture as fine as gauze. Shirts and drawers are shown in this wool. The shirts come with or without sleeves, high or low neck, and the drawers knee or ankle length.

Batiste corsets for summer wear are taking the place of the openwork varieties. They are light and comfortable and have the advantage of washing well. The best way to clean them is to stretch the corset on a board and scrub it with warm soapuds and a stiff brush. It is then rinsed several times in clear water and hung.

In the new corsets there is a hint of a return to the high bust, small waist models of long ago.

The new summer sweater is a garment of which any girl may be proud

GROUP OF LINEN COLLARS.

and feel reasonably sure she is looking her prettiest in.

It is made on Norfolk lines, with or without a dickey. Many of these sweaters have collars, which give a very jaunty appearance.

The linen collar for women is again in favor. But unless the neck is to be ruined it should not be worn tight, but loose enough to give the throat full play.

The picture shows a pretty group of linen collars. All of them are smartly embroidered. The high turnover, with

dots of several sizes, and the one with abruptly rounded ends are adorned with hemstitching. The narrow turnover has a line of dots between rows of hemstitching. The Buster Brown hemstitched linen collar is both comfortable and becoming to a short neck.

MILLINERY NOTES.

A large hat of dotted white net has wheat ears of straw embroidered in white, green and yellow scattered over the brim. The trimming is of forget-me-nots, roses and bunches of bearded wheat.

The eccentric tip tilted hats of the early summer have been replaced to a great extent by the plateau. Crowns, too, have increased in height.

Lingerie hats are trimmed with long feathers that completely encircle the brim. Many of these plumes are in

HAT OF BURNT ORANGE STRAW.

two distinct shades, but of colors that harmonize. For instance, a white feather may have a pale yellow tint at the end.

Bright green roses are seen among the millinery display, and all sorts of posies that never were on land find a place on the up to date hat.

Black hats of tulle trimmed with a single large black ostrich pompon are the fad in Paris.

For the little girl is a large lingerie hat in embroidery trimmed with big ribbon bows of blue and tied with blue ribbon strings.

New pompadour combs have pads of spiral wire attached for holding out the hair. They are very light and, being attached to the combs, are easy to fasten in the hair. They come in front pompadour size or in two small ones for the side puffs.

The pretty round sailor hat illustrated is of burnt orange straw. It is simply trimmed with a very full ruffing of black tulle. At the side is placed a bunch of yellow and deep orange roses, with their foliage.

PARASOLS AND OTHER THINGS.

Linen parasols are new this season. They are to be found in all colors, with scalloped edges worked in white and with the addition of embroidery between each rib. Brown sticks ornamented with enameled cherries or huge crooks with gold bands are a few of the many elaborate handles used on these parasols, which are simple in name and not in price.

Among the pretty parasols of the season are dainty affairs of white muslin alternating with frills of gathered

DRESSING JACKET.

white valenciennes lace. With flowered chiffon gowns the parasol is made of the dress fabric.

The net dress in some distinctive color is a great success this summer. Royal blue is a smart selection. Of course hat, gloves and parasol must match perfectly, otherwise the illusion is lost.

An old fancy revived under favorable auspices is the frock of alternate rows of lace and ribbon. When well carried out as to coloring and makeup the effect is delightfully dainty.

The newest note in summer gowns is to have the entire costume—gown, hat and sunshade—in linen embroidered in openwork. The effect is charming and should not be spoiled by a note of color.

The dainty dressing jacket illustrated is of white lawn. It hangs gracefully from a yoke dotted with motifs of embroidery. The jacket is trimmed with two ruffles of lawn. The kimono sleeves have a strip of embroidery down the center, and the points are edged with frills.

HAPPENINGS IN PRAIRIE STATE

Items Prepared with Special Care for the Convenience of Our Own Readers.

Springfield, Ill., July 17.—State Superintendent Bayliss heartily indorses Superintendent Crane's "vacation school" plan. "There is certainly room for the same type of summer school in many of the medium sized cities," said he. "As exemplified in Chicago, the scheme makes for better citizenship. It should be extended. If Mr. Carnegie wishes to go the Standard Oil magnate one better he has only to put up a corresponding amount for the endowment of vacation school work in cities. Not even fresh water colleges, however, favorably located, furnish a better outlet for the surplus of a man who is ashamed to die rich.

Suggestion to Club Women.

"This suggests an outlet for the activities of women's clubs in smaller cities. In such towns as Springfield, Peoria and Quincy there must be many children who would eagerly welcome just such a chance."

Labor Wants a Rehearing.

Springfield, Ill., July 17.—A petition for rehearing in the celebrated case of John O'Brien against the people, in which the supreme court practically decided that labor unions have no right to establish pickets about a boycotted establishment, has been filed in the supreme court.

Opposed to Freight Rate Reduction.

Springfield, Ill., July 17.—Two members of the railroad and warehouse commission are opposed to any reduction in the existing freight rates. A. L. French, of Chapin, and Isaac Ellwood, of DeKalb, have already expressed themselves in favor of maintaining the existing rates and classifications. Chairman James Neville, of Bloomington, favors a general reduction.

Steam Shovel Digs Up Corpses.

Springfield, Ill., July 17.—In compliance with a request from citizens in the vicinity of Edwardsville, Ill., the state board of health sent an inspector to make an investigation of a report the wholesale exhumation of dead bodies is being made by a railway excavating along a right of way, near a county poor farm. It is charged that a steam shovel is used and that the place where the shovel is at work was formerly a cemetery.

MAGAZINE REVIEW

SEEING BY TELEPHONE

"How well you are looking this morning!" says the facetious man in telephonic to his friend a hundred miles away. Mr. J. B. Fowler of Portland, Oregon, has taken the nub out of this joke by inventing an apparatus by which images displayed before a lens at one end of a telephone wire are projected upon a screen at the other end. Mr. Fowler invites his visitors to talk with his daughter. They place the telephone transmitter to the ear, apply the eye to an aperture in the telephone box, and see the young

woman in miniature speaking 5,000 feet away. Mr. Fowler is preparing now to show a train in motion in his new invention. He has no doubt of its commercial practicability and declares that within a few years it will be in operation throughout the country. For some it may be a boom. For others it may be a curse. Who has not telephoned when he wanted to avoid a face-to-face interview? What will frisky husbands "detained at office" say to a machine that shows to suspicious wives the chips that pass in the night? Mr. Fowler may not be a public benefit after all.—"With the Procession," Everybody's Magazine for August.

Kirkland Team Receives Good Drubbing Sunday

For some time the Kirkland second team of base ball tossers has figured on a game with the home team and at last their plans were carried into effect Sunday, July 16, at Kirkland.

It was a well played game on the part of the Kingston team and the degree of Kirkland's disgrace was 9 to 6. Ackerman pitched one of his old time games and received splendid support from his team mates.

But wait a moment to learn how the Kingston team fared on the 60 and 40 per cent. deal. It had been previously arranged to divide the receipts at the close of the game, and when this particular time came the cashier had disappeared. It is stated by one of the fans that the cashier had taken a hike across the meadowland, swam the deep, dark and dangerous Kishwaukee and landed right side up with care in the village of Kirkland. Remarkable run, eh? Beats the 20th Century. With the coin in their trousers, the only remark coming from the Kirkland camp is to the effect that the visitors did not play according to agreement.

Following is the line-up:
Winchester.....catcher
Ackerman.....pitcher
Bradford.....1st base
Burchfield.....2nd base
Bell.....3rd base
Hohenstein.....short stop
Gibbs.....center field
Helsdon.....left field
Carlson.....right field

That Old Swimming Hole

How to Develop the Highest Degree of Vital, Nervous and Muscular Vigor.

Snakes throw off their outer skin once a year. Human beings change their skins perhaps nine times in a year; that is, they have a new skin about once in six weeks.

The value of a clean skin in maintaining health is not properly understood by the majority of people. Cleanliness is a part of health. You cannot be healthy unless you are clean not only externally, but also internally.

The blood should also be assisted occasionally, like the skin, in throwing off poisons so that the system may not get clogged and leave a weak spot for disease germs to enter the system. When the blood is clogged we suffer from what is commonly called a cold.

Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eradicates the poisons that breed and feed disease. It thus cures scrofula, eczema, erysipelas, boils, pimples and other eruptions that mar and scar the skin. Pure blood is essential to good health. The weak run-down, debilitated condition which so many people experience is commonly the effect of impure blood. Doctor Pierce's Golden Medical Discovery not only cleanses the blood of impurities, but it increases the activity of the blood-making glands, and it enriches the body with an abundant supply of pure, rich blood.

It sometimes happens that a man is almost as mean to his wife as she is to him.

In saving money the real secret is not to lose it through the hole at the top of the pocket.

Tight boots are passe! The man who wants to forget all his other troubles, now buys an automobile.

Some girls marry for love, some for money, and all of them marry because some silly man asks them to.

The Kingston boys played a mighty good game of ball at Kirkland the first of the week. But how did they come out financially?

One Dollar Saved Represents Ten Dollars Earned

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Hunt's Pharmacy.

The Barn Owl

The barn owl richly deserves a conspicuous place in the gallery of feathered criminals. During the daytime he hides himself in the darkest place to be found, but when the sun has set he spruces up and sets out on a murderous expedition. The barn owl strikes terror into the ranks of rats and takes a keen delight in torturing his victims. His one idea of a comfortable home is realized in a gloomy knot hole of an old tree, and the only occasion on which he is known to display any temper is when the young are disturbed. If it were not for killing rats that he does not intend to eat, the barn owl could be classed as a very mild and inoffensive petty criminal, for he never attacks poultry or birds.—London Mail.

Singular Discovery.

An English author says that a man of middle age with whom he is acquainted found one of his eyes affected, as he thought, by reading small print at night, and applied to a famous oculist for advice. The doctor examined him very carefully, and presently inquired whether he had ever suffered any inconvenience from the other eye, the right one. "None whatever," was the reply. "Still," said the oculist dryly, "it is very important for you to preserve the sight of your left eye, inasmuch as you have never seen with the other since you were born."

Sure to Be the Case.

"I can't tell you," said the experienced suburbanite in reply to the question of his new neighbor, when the next train goes, but I can tell you what your chances of catching it are."

"What are they?" inquired the new neighbor eagerly.

"Well, if you run as hard as you can," said the experienced resident, "you have fifteen minutes to wait, and if you merely walk you'll find the train just pulling out."

The Diamond Cure

The latest news from Paris, is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for consumption, coughs and colds which gave instant relief and effected a permanent cure." Unequaled quick cure for throat and lung troubles. At Hunt's Pharmacy; price 50c and \$1.00 guaranteed. Trial bottle free.

The Malay Fishers.

Crew of Malay fishing vessels in the Indian ocean are thus described by a traveler: "Some of the Malays have not bad features, but others again are awful looking villains. Every one has his crooze, or a sort of chopper, at his side, and with bright red lips and black teeth, caused by chewing the betel nut, looks anything but inviting or fascinating. The crew live principally on rice and the fish they catch. They carry a lot of coconuts and coconut oil, and apparently for a luxury a sort of sweetmeat made of a coarse treacle and rice mixed together and firmly pressed into bamboos."

Equal to the Emergency.

An old admiral well known for his power of exaggeration was describing a voyage at supper one night. "While cruising in the Pacific," he said, "we passed an island which was positively red with lobsters." "But," said one of the guests, smiling incredulously, "lobsters are not red until boiled." "Of course not," replied the undaunted admiral, "but this was a volcanic island with boiling springs."

TWO LAND DEALS

W. H. Bell Made a Good Sale last Wednesday

Wm. Bell, the Kingston real estate dealer, made two big sales on the 12th of this month. The Gus Polson farm of 122 acres, three miles north of Kirkland was transferred to John McQueen, the consideration being \$100 per acre. He later sold the John McQueen farm of 60 acres, one mile north of Kirkland. The price received for this property is not given out, but it is said to be a snug sum.

H. F. Witt Has Exciting Runaway

Sycamore Tribune: H. F. Witt had rather an unfortunate runaway experience Sunday evening, resulting in the loss of one of his driving horses.

Mr. Witt was accompanied by John Helsdon of DeKalb, and was driving a team he kept for his personal use, composed of a colt about broke and the family driving horse usually driven by Mrs. Witt.

In passing a team just west of Mount Carmel cemetery, the colt, for some unknown reason, lunged forward, breaking the whiffletree and letting the pole down.

This, of course, frightened the team and they began a mad flight down the road. The buggy was upset, but fortunately neither of the occupants was injured.

The horses soon broke loose from the buggy and became separated as well. The driving horse, carrying the neck-yoke, turned down a side street where it encountered some wire which it tried to jump over. The horse, in alighting, came down upon the neck-yoke, which pierced it in the breast, killing the animal instantly.

has oftentimes such regard for the feelings of rather than contradicted. will appear to acquiesce in matters that he could not be expected to believe. I said he will appear to acquiesce. A tourist who was sailing upon Loch Erne once wished to test the alleged character of Irishmen for politeness. Now, there was a regular squall on, and at a moment when the old boatman was engrossed and had all his energies bent to keep the little craft before the wind the inquisitive one, leaning over to the old boatman, shouted in his ear, "Very little wind today!" "Very little indeed," was the reply, "but what there is of it is mighty strong."—Leslie's Magazine.

MAGAZINE REVIEW

FISHING FOR CROCODILE
There is no close season on crocodiles, and the hunter gets after his victim in summer with shootgun, besides baiting a hook with a black bird, or with alligator flesh. When hooked in this manner he lands his fish with the aid of a horse.
A few animals are kept alive in a corral to serve as bait in crab-fishing, as their musky odor is pervasive and attractive to fish as well as negroes, who also relish the tail as food. The largest animal John killed was a monster measuring thirteen feet. He stretched the skin to eighteen and mounted it with a group of young ones, which he sold for one thousand dollars. I heard twenty-one feet mentioned as the record. Stretch it to thirty and behold a terrible man-eater, fit for a show!—G. H. Clements in July Recreation.

CHOLERA INFANTUM

Ruth, the little daughter of E. N. Dewry of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by Hunt's Pharmacy.

THE FIRST GOLF BALLS.
They Were Made of Bull's Hide Stuffed With Feathers.
The first golf balls were made of leather of untanned bull's hide, two round pieces forming the ends and a piece for the middle. These pieces were softened, shaped and firmly sewed together, a small hole being left through which the feathers might afterward be inserted.
Before stuffing the leather sphere was turned outside in—an operation not without its difficulties—so that the seams would be on the inside.
The skin was then placed in a cup shaped stand, the worker having the feathers in an apron before him, and the stuffing was done with a steel rod.
This was very hard work, as may be imagined. The aperture was then closed, the seam sewed up, and the only seam showing was this tiny one.
But the life of each ball was short. The seams soon opened, and the feathers protruded. On a wet day the water would be seen driven off in a shower every time the ball was struck.
And the moisture added to its weight, so that a ball that started as a twenty-eight would soon weigh a pound. If the match was an important one a new ball must be put down at each hole.
With these disadvantages one can see that a new kind of ball was much needed and made many converts to the game.
Although the gutta percha ball used on the links is seemingly perfect, the inventor is busy trying to make one even better. The ball made of this material has been in use since 1848.
A golfer of that period experimented with a piece of india rubber and succeeded in fashioning it into shape. But when it was put into use it was found that it was not a success.
It would leave the club all right, but after going a short distance it would duck down, so its use was abandoned.
The caddies amused themselves with the discarded invention until it was pretty well nicked up. To the surprise of everybody the ball, with the addition of the cuts, could sail through the air much better than the old one.
The next mold was nicked to give the gutta percha sphere the same lines, and this, with one improvement after another, is the ball in use today.—New York Journal.

All In Her Eye.
A woman noted for her good management—a phrase which is often a euphuism for parsimony—was making some garments for her small daughter. She had limited herself as to material, and, proud of her success in achieving much with little, exclaimed as she finished her work, "There's not enough left to put in your eye!"
A few moments after she was horrified to see the aforesaid small daughter, seated on the floor, patiently and painfully filling her eyes with the tiny scraps of cloth scattered over the carpet.
"Dorothy," her mother cried, "what are you doing?"
"Why, mamma," the matter of fact Dorothy responded, "you said there wasn't enough to put in your eye, and there's enough for both of mine."—Chicago Record-Herald.

Singular and Double Bishops.
It is not generally known, says a biographer of "Nineteenth Century Ecclesiastical Celebrities," that at one time there was a remarkable similarity between the family names of the bishops of Exeter and Worcester, so much so, in fact, that one looked like the plural of the other, the one being spelled Philpott and the other Philpotts.
This remarkable coincidence afforded the bishop of Exeter an opportunity of perpetrating a joke at his brother Worcester's expense. Referring to him on one occasion, the bishop of Exeter spoke of him as:
"My singular brother of Worcester."
"Ah!" retorted the bishop, who was well known for his manly straightforwardness. "There is nothing double about me."

Origin of Words.
The origin of words is often curious. Take "quiz," for instance. This came from a wager laid by a Londoner that he could coin a word that would be on the lips of every one on the following day. He then went forth and wrote "Quiz" on the walls, fences and walls and billboards of the city. The next day every one was inquiring what it meant, and the word thus got its meaning. The word "tip" originated in the old coffee houses of London. At the door was a brass box with a slit in it. Engraved upon it usually were the letters "T. I. P.," an abbreviation for the words "To insure promptness." Customers as they departed dropped coins in the box for the waiters.

THROWN FROM CARRIAGE

Misses Lima Ream and Lulu Grover the Victims

Misses Lima Ream, daughter of Henry Ream, and her cousin, Miss Lulu Grover of Rockford, were thrown from a carriage Saturday evening and narrowly escaped serious injury. Mr. Lovell of Sycamore, owner of the rig was also dumped to the ground but escaped injury. The young people were driving south on Sycamore street Saturday night shortly before ten o'clock and did not notice the heap of gravel which lay at the right of the beaten path. The right wheels passed over the gravel and the sudden lurch threw the girls to the ground. The horse became frightened and running into the narrow street north of the church, upset the carriage. The shafts and top were broken, but otherwise the rig stood the strain well. Miss Grover escaped with only slight bruises, but it was at first thought that Miss Ream was seriously injured, a wheel having passed over her chest. She was carried into Henry Holroyd's home and medical assistance summoned. She soon recovered, however, and was taken to her home.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

A Surprise Party

A pleasant surprise party may be given to your stomach and liver, by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure for headache, dizziness and constipation. 25c at Hunt's Pharmacy.

GOOD for OLD and YOUNG

August Flower keeps the children healthy and strong—Full of vigor and frolic the whole day long. So when Mamma needs more they rush off in high glee, and shout to the druggist: "Please give it to me!"

Inability to get up brisk and fresh in the morning, lack of appetite, pallor, muddy complexion and poor spirits—these all indicate a disordered stomach and bad digestion—in adults and children, too. They also indicate the urgent need of taking Green's August Flower regularly for a few days. It's a reliable old remedy for all stomach troubles, never fails to cure indigestion, dyspepsia and chronic constipation, and is a natural tonic for body and mind. Two sizes, 25c and 75c. All druggists. Hur's Pharmacy

WEEK'S HISTORY

Important Happenings Prepared for Our Readers in Brief Form.

TELEGRAPH NEWS BOILED DOWN

Events of Moment in Foreign Climes as Well as Our Country Are Chronicled.

RUSSIAN-JAPANESE WAR.

M. Muravieff has resigned as Russia's leading peace plenipotentiary after a strong hint from the czar, and has been succeeded by M. Witte, the emperor laying aside his dislike for the latter.

The appointment of M. Witte as Russian peace plenipotentiary has been signed by the czar, who gives him plenary powers.

The Japanese advance in northern Korea has pressed the Russians across the Tumen river until they hold only two points south of the stream. A force is on the way from Vladivostok to attempt a stand against the victorious march.

Chief Plenipotentiary Witte in an interview said peace might be impossible, as he feared Russia could not adopt Japan's terms. He declared the czar is ready to continue the war.

The Japanese army has landed north of Vladivostok and the complete investment of the citadel is imminent, according to a dispatch from Tokio.

THE REVOLUTION IN RUSSIA.

Terrorists have renewed their efforts to kill General Trepoff and the Russian dictator believes that his death is near.

Reports received in St. Petersburg say four regiments in Moscow have mutinied and that officers of the czar's army in Warsaw refused to fire on a mob.

A regiment of Russians stationed near Tiflis, Caucasus, is said to have murdered all its officers.

A plot of zemstovists to depose the czar and create a regency for his infant son is rumored in St. Petersburg.

WASHINGTON NOTES.

The president has decided to call congress to meet in extra session Nov. 10 to consider rate legislation and will send in a strong message on the subject.

The government will make a thorough investigation of the cotton report leak to discover if any one can be punished therefor.
