Extended return limit July 15, 1906. Write for printed matter and full details. F. H. Tristram, Ass't General Passenger Agent, 97 Adams St., Chicago.

For Rent—Two rooms over Witt & Shork's jewelry store. Inquire at Farmers' State Bank. 34-4f

KINGSTON NEWS

FRED P. SMITH, CORRESPONDENT

Mr. and Mrs. J. D. Taplin of Belvidere called on friends here last Friday.

Chas. Burton has been in very poor health since his return from the south and has been confined to his bed of late.

On Wednesday, May 9, Miss Gladys Vosburg closed her school in the Hix district and Miss Esther Branch also closed her school in the Arbuckle district on that date. May 16 Misses Katie Bassett and Gertie Dibble closed their schools in the McDonald and Stuartville districts.

Mrs. Pierce Ort entertained the W. C. T. U. Wednesday afternoon. Mrs. John Moore entertained Mrs. Ellis Confer of Genoa Sunday.

The Epworth League elected the following officers last Wednesday: President, John O'Brien; 1st Vice President, Mrs. A. J. Lettow; 2nd Vice President, Prof. Bennett; 3rd Vice President, John Lettow; Secretary, Earl Meyers; Treasurer, Maye Taylor; Organist, Ruth Benson.

Mr. and Mrs. Chas. Burton entertained the former's mother and sister of Elgin over the Sabbath.

W. S. Poust was here from DeKalb on business last Thursday. Alfred Nelson was here from DeKalb one day last week.

Mrs. Shandelmeier is visiting her daughter, Mrs. Geo. Sexauer, for a few days.

A. J. Starks of Independence, Iowa, and Mr. Covey of Elgin were here a few days the first of the week.

Mrs. Burkie went to Rockford last Wednesday on account of an operation on her grandson.

A number of our young people attended the basket social given by Miss Maude Benson at the Lacey school house last Friday evening.

Mrs. Ira Bicksler entertained her brother, Ex-Governor Boies, of Waterloo, Iowa, last Tuesday evening.

Rev. C. S. Clay visited friends in Joliet, Kankakee and Chicago last week.

Mr. and Mrs. Geo. Moore returned from Belvidere Monday evening where they have been visiting the former's parents for a few days.

The Junior Endeavorers of the Baptist church will give a strawberry social at the hotel Saturday evening. Come and see the May queen.

Mrs. Eliza Parker visited Mr. and Mrs. Frank Churchill in Kirkland last Tuesday.

The Epworth League will give an entertainment in the M. E. church May 25. Admission 10 and 15c. All are cordially invited to attend.

S. M. Henderson was here from Waterman on business last Thursday.

Butter and Eggs Wanted

I want to buy a quantity of Dairy and Creamery Butter and Fresh Eggs. If you have any of above, let me know price at once.

JUST A MOMENT!

EUREKA LINIMENT

Is not an accidental discovery, nor is it a cure-all for every known ailment, but it is a combination of penetrating oils, one of them Japanese Oil of Camphor, blended in such proportions as to produce the best results wherever a liniment is needed.

We make it ourselves, we know it is good and believe there is nothing better for a general purpose liniment for man or beast. We put it up in full 8-ounce bottles, 1/4 to 1/2 more than other 50c liniments of similar nature, and sell it for 50 cents per bottle.

Try a bottle in your home or stable, use half of it, if not satisfied bring back the remainder and get your 50c back.

Tibbits, Cameron Lumber Co.
Kline Shipman, Manager.

To Select a Buggy Is An Easy Task

It is an easy task if you go where there is a good assortment to select from. We are not stretching the truth when we say we have the largest stock of any house in DeKalb county. The entire second floor of our mammoth building is filled to its utmost capacity with buggies of every description, representing several car loads. This is an absolute fact. Those who look into our store room for the first time are surprised indeed. In this monster display are rubber and steel tire vehicles to suit any taste or any pocket book, including

SURRIES, TOP BUGGIES, TRAPS AND RUNABOUTS

We make a specialty of the old reliable Staver buggies, which have stood the test of years. We also have cheaper makes. It does not pay to send an order to a mail order house. We can duplicate any buggy sold by these houses for less money, and if necessary will prove this assertion. We guarantee every buggy that goes out to be just as represented whether you pay \$45.00 or \$125.00. If a buggy is cheap we tell you so and sell it cheap. If it is a Staver \$125 buggy we guarantee it from the tips of the thills to the last stitch in the top. Is that not fair enough? If we cannot suit you in style, make, quality and price, there is little use of your looking farther.

HARNESS, WHIPS AND ROBES

Our stock in these lines is complete in every detail. Whips from ten cents up to the best whale bone, and robes at all prices. In harness there is nothing lacking for driving or working, either single or double.

We buy, sell and trade horses. Buggies in exchange.

KELLOGG & ADAMS, GENOA, ILLINOIS

QUEEN QUALITY

Leather Prices are Advancing

the world over. This is causing a large number of manufacturers to put shoddy in their shoes where formerly only good, reliable materials were used. The shoes may look the same to the eye, but the test of wear reveals the fraud, yet every woman has one safeguard against this deception--look for the Queen Quality trade mark. That name has cost the makers a fortune and its value to them is beyond price and they simply can't afford to risk it.

There are Certain Distinctive Characteristics About the Queen Quality Shoes.

They will retain their shape better, wear longer and are made in the latest and nobbiest styles. There are no prettier shoes and oxfords than those which bear the stamp of Queen Quality. Let us show you our new styles while the assortment is at its best.

C. A. Goding is the sole agent for the old I. W. Harper Rye and there never was a barrel of it shipped to Genoa to any other dealer. Bernheim Distilling Co., Louisville, Ky.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rambling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Halls Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Halls Family Pills for constipation.

M. E. Church Notes
The services at the M. E. church next Sunday will be held at the usual hours. In the evening in place of the regular preaching service, the Epworth League installation service will be held and a program given by members of the League.

ADVANCE LEADS

The "Advance" engine was designed on correct principles. The hard usage and neglect to which the average traction engine is subjected was given every consideration in designing and constructing the "Advance." Simplicity has been obtained without in any way sacrificing or impairing its strength or durability. The weight is so well distributed as to make the "Advance" a well-balanced engine, with the same steady, easy motion in climbing or descending hills as when traveling on level ground. The controlling parts are all within easy reach of the guide who can control his engine without letting go of the throttle. The "Advance separators and huskers have stood the severest tests and are acknowledged to be the most practical machines on the market. In fact the whole advance outfit is made on honor and I will stake my honor in selling them. There are hundreds of good points not found in other machines, which cannot be explained here. Let us talk to you about it.

DEERING HARVESTERS

The Deering binder has been constructed to meet the demands for a machine that is strong, durable and efficient in every detail--a machine that will not only do good work through one harvest, but good work through many. The Deering mower meets every requirement in preventing choking and sliding and in being as efficient in heavy or wiry grass as in light grass. This is the reason the Deering is so popular. The Deering corn binder is built on the well known grain binder principle, that is, the corn is bound while in a horizontal position, like a sheaf of wheat. This principle has proven to be the best in all kinds of corn. The Deering corn picker and husker is ahead of them all.

We sell and guarantee the celebrated Mandt Wagons

New Deere Hay Loader

By long odds the most practical machine on the market. It is equipped with the float-gathering cylinder and loads anything from lightest swath to heaviest windrows. We sold 23 of these machines last year and all are giving satisfaction.

Our Eureka Buggies are graceful and durable

We have a large stock of these buggies on hand. Let us prove their merits and quote prices. Any style under the sun.

The I. H. C. Gasoline Engines

The gasoline engine has become an absolute necessity on the farm and in the work shop. It is no longer asked: "Will a gasoline engine meet my needs?" It is rather: "Which gasoline engine will best meet my needs?" The most desirable engine for the power user is the engine that will produce power with the least trouble and expense; in other words, an engine that can be easily started, that requires the least attention and is always ready, that consumes the least fuel, and that is subject to the least wear. To be easily started, the engine must be simple in action; to be always ready, it must be reliable; to consume but little fuel, it must be correctly designed and to last long it must be strong. These essential qualities are combined in the highest degree in I. H. C. engines.

THE INTERNATIONAL MANURE SPREADER

Reinvigorating the soil is a matter which deserves the most careful consideration of every practical farmer who appreciates the fact that unless the proper means are taken to maintain the fertility of his soil, it will soon become impoverished and thus a poor paying investment.

I. H. C. return apron manure spreaders will handle all kinds of manure regardless of condition. There is nothing, in fact, in the line of manure which cannot be scattered broadcast by these spreaders far more economically and quickly than can be done either by hand labor or any other method.

The International Harvester Company return apron manure spreaders are built in three sizes--No. 2 with a capacity of 35 bushels, No. 3 with a capacity of 55 bushels, and No. 4 with a capacity of 75 bushels.

PROTECTION FROM LIGHTNING

Who says good lightning rods are a sure protection? Every college and university, every scientific man and every thinker. Who says rods are no protection? Those who have not taken time to investigate. Who says that the Struthers copper cable lightning rods are the most economical and practical? Every one of the thousands who have put them on their buildings.

The Struthers rods are not sold by slick traveling agents, but are placed in the hands of business men who back up every transaction. We have secured the agency for Genoa and vicinity. It would take too much space here to tell why every house should be protected. If you are interested call and get a booklet describing the cause and effects of lightning or let us explain it to you. The cost of the Struthers outfit is so cheap that no one can afford to be without the protection for his home and family. You will be told that others are just as good or that it is just the same, but it is not a fact, there is only one Struthers rod. A building properly roded is never struck. We do the work properly.

Jas. R. Kiernan, - - - Genoa Ill.
