And, glancing round, he saw Janetta, faithful to her trust, seated on the bank with the child he sought in her arms.

He smiled and lifted his hat. "Let me relieve you of your burden," he said, a certain tenderness in his voice as he looked at the little child. "There, don't cry"-to the little one-"mammy's all right."

kindly offers his dogcart to forward me to my destination. Can I be of to ask where you are going?"

Janetta rose, with a feeling of stiffness in her limbs and some unsteadiness of motion. The shock had half dazed her. "I'm going to the Grange, Northcliff." she said.

"How very odd! I'm bound for the same place. Under the circumstances. we had better go on together. I'll speak to Drake about it. Sit down she had with her in the carriage. again a minute. You look as if the accident had been too much for your nerves," he said, smiling pleasantly. "Kindly tell me your name, and I'll see that your luggage and my own are forwarded to us later."

"I'm Miss Howard."

"Thank you. Then I'll see if there is luggage for the names of Howard and Merivale to be rescued from the debris, and then we'll get on as fast as we can. As Miss Seymour is delicate, it might be serious if she heard rumors of an accident to our train before we arrived.

"Invalid!" ejaculated Janetta, as her companion hurried off to complete his preparations; "and I should not wonder if this Mr. Merivale were a nephew of the old lady. Very likely has expectations!"

Once fairly started in the brisk evening air, Janetta's courage and spirits began to revive, and she could bardly help smiling at the curious poattion in which she found herself, seated side by side with a complete stranger in a borrowed dogcart, going to a lady of whom she knew absolutely nothing but the name.

"It is certainly a curious coincidence that you and I should be bound for who lay upon the couch that was the same house," began Mr. Merivale; "but it is still more curious to me that, often as I am down at the Grange, I have not heard your name mentioned | smile of welcome.

"That is easily explained. I answered Miss Seymour's advertisement for a companion, and she is kind enough to give me a trial. We have not met," said Janetta simply.

Her companion turned quickly, and, in the half light, gave a swift, scrutinizing glance, accompanied by a smile, of which Janetta found it hard to explain the meaning. It was half amused and half incredulous. He made no sort of comment upon her explanation, but turned the conversation rapidly to other channels.

"He knows all about that eccentric old lady's advertisement," she thought. Mr. Merivale chatted away so agreeably on many topics and the ten miles' drive passed so quickly that Janetta gave a little start of astonishment when Mr. Merivale pointed with his whip to the twinkling lights of the little harbor, and told her that they were within half a mile of their des-

It was quite dark as they drove through the cobbled streets of the little town; then, by a sharp ascent, they climbed the hill just outside it, and, turning into a drivegate set open to receive them, drew up at the door of a long, low, irregularly built house.

Mr. Merivale jumped to the ground and threw the reins to the groom, gently lifting Janetta out of the cart.

The next instant they were admitted by an extremely smart parlormaid into the low, oak-pannelled hall, where a log-fire blazed cheerily on the hearth. A lady of between sixty and seventy, whose gown rustled as she moved, advanced to meet her.

"Allow me to introduce Miss Howard," said Mr. Merivale.

Janetta's heart sank. The stern features of the lady to whom she was introduced scarcely relaxed into a smile, and a cold hand held her own. "Come in, Miss Howard. Your train

Janetta followed her up the thickly-carpeted stairs into a room so luxuriously furnished that she could hardly believe that it was the one intended for her, except that her fur coat had been already carried up there, with such other possessions as

She found Mrs. Mortimer still alone when she went downstairs.

"Captain Merivale dines tonight with Miss Seymour in her boudoir,' she explained as she led the way into the dining room. "Sometimes Miss Seymour is well enough to dine with us, but today she has been over-exciting herself, and was so tired that I advised her remaining upstairs."

Janetta would have liked to have asked a hundred questions about Miss Seymour, but the presence of the par her companion made her curb her curi-

They had scarcely returned to the drawing room before a message was delivered to Janetta to demand her presence in Miss Seymour's room.

"You can show Miss Howard the way to your mistress' room, Mason,' said Mrs. Mortimer. And Janetta followed the maid.

She was ushered into a sitting room more perfect in detail than any she had ever entered. It was a general sense of beauty and luxury that struck her at first, for her attention centered itself at once upon its only occupant, a fragile, fair little lady, quite young, drawn near the fire.

She raised herself to a sitting pos- The General Assembly of Kentucky ture, and held out her hand with a

Janetta shook hands, seated herself in the easy chair to which Miss Seymour pointed, and wondered if she dreamed. This, then, was the Miss Seymour she had pictured as an ecand parrots!

Even her views about Captain Merivale needed readjusting. Clearly he was not a nephew with expectations! More probably a cousin, possibly a

The thoughts passed rapidly through her mind until, raising her eyes, she was conscious that she was being watched eagerly by her companion.

There was something intensely attractive in the face that looked into her own. It must have been very pretty until ill-health and delicacy had written their lines on it. Even now the shape of it was charming. The flaxen hair that waved on the forehead was abundant and beautifully dressed, the folds of white silk and soft-falling lace were becomingly arranged round the tiny throat; but oh! how delicate she looked. Something of the pity that Janetta felt must have found expression in her face, for Miss Seymour broke the silence with petulant

"You are sorry for me, like every one else-I read it in your eyes; but I'm not going to die. I'm going to get well, or all the doctors lie."

"I devoutly hope you will, and quickly," replied Janetta gently; "and you must tell me what I can do to help you. I'm sure I could carry you, you are so light and small."

Miss Seymour broke into merry laughter. "I don't want you for hard labor. I wonder if you thought it was a lunatic who put that advertisement into the paper? Harry declared that nobody in her senses would answer it. but many did.

"I had over two hundred answers, so ran off the line, I think, and we were many that I would not even open them all. I liked your photo. "It was Doctor Drake's suggestion the man you saw at the train tonight. Harry tells me that he scented the accident from afar, and was on the scene almost directly it happened. He is called clever, but he does not care

"Well, he found me crying one day, and he said I ought to have some one bright and young and good-tempered about me. You can't call Mrs. Mortimer any one of those things, can you?"

Janetta did not answer; she felt that the remark was in bad taste. "I sha'n't like you if you -look shocked every time I'm flippant. Where was I? So I advertised, half in fun and half in earnest, and of course Mrs. Mortimer is very cross, although it won't make the smallest

"Oh, you will not have much to do. You will be cheerful when I'm sad, and kind when I'm cross; and you won't offer to read aloud unless I ask you, and you will talk when I want you to talk; and, above all things, you won't try palpably to amuse me.

"He was very kind," replied Janetta. "I scarcely know how I would have got here without him.'

"We were engaged before I had the fall from my horse which has made me what you see me," went on Miss Seymour, twisting her engagement ring round and round upon her finger, so that every diamond in it caught and reflected the light in a thousand rainbow-colored hues.

"It's hard luck that I lie here helpless like this, isn't it, when there is such a life of happiness before me? I'm going to get well, but it's long to wait. Now you can guess how much I shall need cheering when Harry goes abroad. He's very good to me, and declares he's never dull when he comes: but you will try to make it more cheerful for him. If you wait a little while he'll be up again.

"You will not need an introduction lormaid and the forbidding manner of after that long drive in the dark. He was pleased with you, because he said you were the only woman in the accident who did not scream."

Janetta laughed. "Terror does not take that form with me; it makes me feel incapable of uttering a sound. I expect I was just as frightened as any body else."

"Well, at any rate, you kept it well under," said a voice behind her; and, looking round. Janetta saw that Captain Merivale had entered the room unperceived.

The station submitted a report showyou? I sent Harry off to the smoking | ing that fully 40 per cent of all samples of food taken were adulterated. Some of the adulterants used are in jurious to health; others have been put in to cheapen articles of food. As examples of the former, the inspectors found so-called "fruit jellies" made wholly or in part of glue and artificial centric old maid, devoted to poodles coloring and flavoring matters. They found salicylic acid, sometimes in large quantities, in tomato catsups, preserves and other food products which were sold as pure, and formaldehyde and other preservatives in milk which perhaps in some cases was fed to infants. The most striking example of all is in the case of essence of peppermint and essence of cinnamon These extracts contained wood alcohol a poisonous substance, as one of the ingredients. In the preparation of these essences a mixture of wood alcohol and common alcohol was used in place of common alcohol, presumably to avoid the government tax on alcohol. This condition of affairs is by no means confined to Kentucky. Equally flagrant instances of adulteration are reported in the publications of other stations engaged in the inspection of foods and from many other sources.

Goat Frightened the Negroes

Some boys in Macon, Mo., recently fed the contents of a box of seidlitz powders to a goat belong to a family which had recently moved into the neighborhood. Then taking it for granted that he was thirsty, they led Billy to a near-by trough and permitted him to drink hearfily. Soon the fizzing began and the goat tore down the street toward the woods at a reckless pace. Some negroes living several miles out of town claim to have seen Old Nick himself, as they verily believed, rushing along the road in broad daylight. His majesty resembled an enormous goat, they said, but they recognized him as the devil, because he was spitting fire and brim-

Returns All Broken Up to His Home in South Dakota.

Bristol, So. Dak., Feb. 18th, 1901 .-(Special.)—Peter Behres says: "When returned from the war I found that I was in a very critical condition. My system was all run down, and I gradually became worse, until I was half dead with Kidney and Bladder Trouble. My family wanted me to consult physician, but as I had learned through several of my comrades of the wonderful cures of Dodd's Kidney Pills I determined to give them a trial first."

Mr. Behres, or Capt. Behres as he should be called, because he was captain of the 1st Minnesota Cavalry, and in 1862 was for fourteen months in continual service in warfare with the Indians, is now an honored member or the G. A. R., who has reached the ripe old age of three score years and ten. He continues: "I am now an old soldier, seventy years of age, and enjoy ing almost perfect health, and all thanks for this is due to Dodd's Kidney Pills. I found after having used the first few boxes that my faith was not misplaced in them, and in a very short while my kidneys were doing the work required of them and the bladder trouhle was soon eliminated. It was aimost a year before I was myself, but during that time I used Dodd's Kidney Pills faithfully and with the very best results that anyone could wish for. I would not have been without them for a king's ransom. I am now well as any man of my age.

"DEALING WITH CRIMES IN

CANADA," (From the Chicago Times-Herald, on

Jan. 12th. 1901.) The citizens of the Dominion of Can-

Canada is a country of vast proporonce lived in New York, but years ago tions. Its people are scattered over a wide stretch of territory, making police surveillance particularly difficult investments Mrs. Cooper loaned a large and in many districts impossible. Yet a city like New York or Chicago alone furnishes a far greater criminal list every year than the whole vast stretch of territory from Quebec to Vancou-

The Canadians ascribe their immunity from crime to the promptness with which punishment is meted out to offenders. When a man is caught red-handed in the act of robbing another he is not released on straw bail by some justice of the peace from the slums, to go out and repeat the offense. Sharp and sure justice is meted out to criminals of all kinds, the result being that when the guardians of the public peace succeed in bringing a thug to the bar they are seldom called upon to hunt him a second time.

Furthermore, there are few court delays in Canada when a criminal is brought to book. They have no Dreyer cases over there. There are no methods whereby Canadian criminals can have the proceedings stayed from month to month and from year to year or after being convicted, appeal from one court to another until witnesses die of old age or opportunities for corruption can be found.

Nor does this swift method of treating with wrong-doers in Canada leave the innocent unable to properly defend themselves. They have all the opportunities and privileges that our own laws extend to them. The extent to

shield the guilty is lacking-that is all. The above, taken from the editorial column of the Times-Herald, gives some idea of the immunity from crime that exists in Canada, and this is one of the many inducements held out for Americans to settle in the district known as Western Canada. The season of 1901 will see a few new sections of the country opened up for settlement. They are attractive in every respect. It is understood that one of the best Indian Reserves in the famous Valley of the Saskatchewan will be opened up this year, and an invitation is extended to those desiring homes to make inquiries. The price of the land is said to be nominal. Besides these lands, the several railway companies have lands to sell; also the government. For particulars write to the agent of the government, whose

Franklin Miles, M. D., LL. B., the Celebrated Chicago Specialist, Will Send \$3.50 Worth of His New Special Treatment Free to Each of Our Readers.

When an experienced physician offers to give away \$40,000 worth of a New Treatment for diseases of the heart, nerves. stomach, or dropsy, it is conclusive evidence that he has great faith in it. And when hundreds of prominent men and women freely testify to his unusual skill and the superiority of his New Special Treatment his liberality is certainly worthy of serious consideration.

Chicago failed. Thousands of testimonials sent upon request.

The eminent Rev. W. Bell, D. D., of Dayton, Ohio, General Secretary of Foreign Missions, writes editorially in The State Sunday School Union: "We desire to state that from personal acquaintance we know Dr. Miles to be a most skillful specialist, a man who has spared neither labor nor money to keep himself abreast of the great advancement of medical science." The late Prof. J. S. Jøwell, M. D., said: "By all means publish your surprising results." Prof. J. P. Ross, M. D., Ex-President of Rush Medical College, wrote in 1874: "Dr. Miles has taken two courses of my private instruction in diseases of the heart and lungs." Mt. Truman DeWeese, editor Chicago Times-Herald, states: "Dr. Miles cured me of years of inherited headache and dizziness." The well-known manufacturer of Freeport, Ill., J. C. Scott, says: "I had fruitlessly spent thousands of dollars on physicians until I consulted Dr. Miles. Mrs. Frank Smith, of Wabash Ave., Chicago, writes: "Dr. Miles cured me of dropsy after five leading physicians had given me up."

30 FEET OF BOWELS are packed away in your insides and must be kept clean,

in order and doing business.

It's a long way, with many turns and pitfalls to catch the refuse and clog the channel if not most carefully cleaned out every day. When this long canal is blockaded, look out for trouble-furred tongue, bad breath, belching of gases,

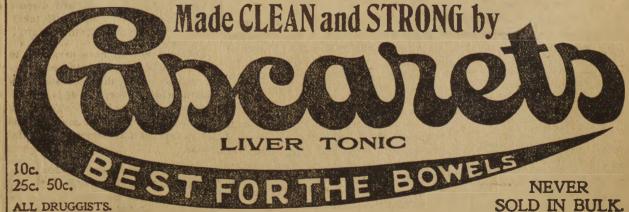

yellow spots, pimples and boils, headaches, spitting up of

food after eating—an all-around disgusting nuisance. Violent calomel purges or griping salts are dangerous to use for cleaning out the bowels. They force out the obstruction by causing violent spasms of the bowels, but they leave

the intestines weak and even less able to keep up regular movements than before, and make a larger dose necessary next time. Then you have the pill habit, which kills more people

than the morphine and whiskey habits combined. The only safe, gentle but certain bowel cleansers are sweet, fragrant CASCARETS, because they don't force

out the foecal matter with violence, but act as a tonic on the whole 30 feet of bowel wall, strengthen the muscles and restore healthy, natural action. Buy and try them! (Look out for imitations and substitutes or you can't get results. Cascarets are never sold in bulk. Look for the trade-mark, the long-tailed "C" on the box.) You will find that in an entirely natural way your bowels will be promptly and permanently

all bowel troubles, appendicitis, biliousness, bad breath, bad blood, wind on the stomach, bloated bowels, foul mouth, headache, indigestion, pimples, and dizziness. When your bowels don't move regularly you are getting sick. Constipation kills more people than all other diseases together. It is a starter for the chronic allments and long years of suffering that come afterwards. No matter what alls you, start taking CASCARETS to-day, for you will never get well and be well all the time until you put your bowels right. Take our advice; start with CASCABETS to-day, under an absolute guarantee to cure or money refunded.

Chicago has introduced a bill in the of each month in Oddfellows hall, legislature at Springfield which if passed, as it will judging from the favor it is receiving, will abolish hanging as a capital punishment and will be Modern Woodmen of America:- Camp meets succeeded by the electric chair. It provides that inasmuch as the death penalty is only meted out by state officials it is the place also of state officers to execute the sentence and that all such executions shall take place in the penitentiary at Joliet. The hanging of a man named Painter of Chicago, for the killing of Alice Martin, a number of years ago is the circumstance which actuated the passing of the bill. The hanging refered to was a most horrible affair, the job not being completed by the bungling officers until the noose had been placed around Painter's neck the third time.

THOSE WATER TANKS AGAIN.

Will Probably Result in a Law buit at the Expence of the Tax Payers.

The yillage board are seriously considering whether they had not better be on the alert regarding the settlement of the tanks of the water system, purchased from the Joliet Bridge and Iron Co. The tanks have now been in use since the opening of the system Miss Zada Corson was calling but they fail to come up to the requirenot according to contract in their construction and do not and will not stand the pressure that they are guaranteed

Now how to proceed to a just settlement and arrange for other tanks that will withstand a pressure sufficient is what is engrossing the minds of the different members of that august body

of municipal economists. These tanks were contracted for at the price of \$2600, one half of which has been paid the contractors, there still remaining \$1300 due them providing they had fullfilled their part of the contract satisfactorily to the board, which chase tanks that will fill the bill.

It was decided to have the clerk look up all the correspondence that has passed between the village and the Joliet company and at the next meeting of the board some action will be settled upon and steps be taken to bring the matter to a focus.

If the manufactures of the tanks do as they have repeatedly said they would do, the village will most likely have a controversy on their hands that will be settled in the courts.

All sorts of frauds are being perpertrated on the American people and once in a while we hear of the perpertrator being caught and brought to justice. The remains of Wood Werkinger, aged 25 years, were found at Lena, Ill., by G. Van Epps, a neighbor, in a shed, partially concealed by a blanket, five miles northeast of this city. The head was pounded to a jelly and a broken gun, a monkey wrench and an ax, all three covered with blood, told of a struggle. Werkinger, who was a traveling hypnotic, made his home alone in the log cabin which the shed adjoined. Robbery was evidently the motive. Roy Powell, aged 19 years, a companion of Werkinger, and who has been trying to dispose of Werkinger's personal effects during the past week, and John Heth, aged 17 years, were arrested on suspicion.

Will Buy Knit Goods Mills.

There is good authority for the statement that the owners of mills manufacturing knit goods in the Mohawk and upper Hudson valleys have given options on their plants to a party of New York capitalists. The talk of a combination among knit goods men has been in the wind in that section for a long time, but definite information has just been given to the effect that every mill in Troy and Cohoes, with the possible exception of two, has given an option and it is reported that a majority of the stockholders in the sixty mills of Troy, Cohoes and Amsterdam will do likewise

Chairman Taylor was authorized to make the report to that effect, which will be submitted in about a week.

Dam Burst Drowns Two.

The dam at the village electric light plant at Thompsonville, Mich., went out with a roar Monday, carrying four men and a team of horses, who were working on the structure, with it. The village will be in total darkness until the dam is replaced.

Cat Is Given Naval Burial.

The crew of United States ship Albatross, with naval honors, buried at San Francisco the body of Jerry, the famous fighting cat of the vessel. Refuse to Commit Suicide.

At least three of the Chinese to whom Emperor Kwang Su sent a choice of suicide in pursuance of the demand of the powers for their punishment with death have declined to comply, and the emperor has withdrawn his request that they should destroy themselves. His majesty now telegraphs Prince Ching that when he agreed to the terms of the joint note the latter only required that the punishment should fit the crime, and he argues that if the worst of the guilty deserve death the others should be banished. The foreign envoys, on the contrary, say that even those who are least guilty deserve death, and as there is no worse punishment all must suffer that penalty, although if China should ask to make distinctions regarding the crimes she can sentence the worst either to quartering or to some other forms of Chinese execu-

Peach Buds Are Vigorous. The midwinter examination of the peach buds in the fruit districts of northern Indiana and southern Michigan shows not only that the trees are abundantly budded, but that the buds are in a healthy and vigorous condition. Fruit growers say that the rest of the winter holds but little danger in store and there is every prospect that the peach crop this year will be the largest of any previous season.

The filing of a suit in replevin by the Lee County Savings bank of Fort Madison, Iowa, against E. W. Brown of New Berlin, a wealthy stockman of Springfield, brings to light an alleged cattle swindle. Sheriff Woods went to Brown's farm and replevined fortyeight head of cattle, valued at \$1,700. It is claimed that J. W. Grocer Mulcted by Jurors.

In the damage suit brought by Mrs. Martin Daily of Maquon against Charles Walker, a grocer, the jury at Galesburg brought in a verdict giving the plaintiff \$2,000. Mr. Daily died suddenly last May, and the allegation was that his death was the result of drinking lemon extract purchased at Walker's store. He was one of three men who died within a week from lemshowed that Daily and several others had bought extract from Walker.

The Empire State Express-What It Does Daily and How It Does It. 'There is only one train in the coun-

try that exceeds fifty miles an hour in speed for 100 miles run, and that is the Empire State Express."-Public Ledger, Philadelphia.

The Ledger might have added that this great train averages fifty-three and one-third miles per hour for the entire distance from New York to Buffalo, 440 miles, including four stops and twenty-eight slow-downs; that it does this each business day of the year. The attention which the Empire State Express has attracted in every country of the world has proved one of the greatest advertisements for American machinery and American methods that has ever been put forth, and that the New York Central and Hudson River Railroad Company is entitled to the thanks of not only the entire state of New York, but of every person in the United States from one end of the land to the other for placing before the world an object lesson without an equal.-From the Syracuse

One of the busiest industries in Eng-

On Jan. 1 next the mercantile marine will be obliged to adopt the revised system of the international code of flag signaling, and each vessel will need ten new flags. As England and her colonies have nearly 11,000 vessels in this category, a prodigious amount of preliminary work in bunting is made necessary.

THANKFUL TO MRS. PINKHAM

Letters Proving Positively there is No Medicine for Woman's Ills Equal to Lydia E. Pinkham's Vegetable Compound.

(ALL LETTERS ARE PUBLISHED BY SPECIAL PERMISSION.)

"I cannot say enough in regard to Lydia E. Pinkham's Vegetable Compound. It has done me more good than all the doctors. I have been troubled with female weakness in its worst form for about ten years. I had leucorrhoea and was so weak that I could not do my housework.

and was so weak that I could not do my housework.

I also had falling of the womb and inflammation of the womb and ovaries, and at menstrual periods I suffered terribly. At times my back would ache very hard. I could not lift anything or do any heavy work; was not able to stand on my feet long at a time. My husband spent hundreds of dollars for doctors but they did me no good. My husband's sister wrote what the Vegetable Compound had done for her, and wanted me to try it, but I did not then think it would do me any good. After a time, I concluded to try it, and I can truly say it does all that is claimed for it. Ten bottles of the Vegetable Comand seven packages of Sanative Wash have made a new woman of me, I have had no womb trouble since taking the fifth bottle. I weigh more than I have in years; can do all my own housework, sleep well, have a good appetite, and now feel that life is worth living. I owe all to Lydia E. Pinkham's Vegetable Compound. I feel that it has saved my life and would not be without it for anything. I am always glad to recommend it to all mysex, for I know if they will follow Mrs. Pinkham's directions, they will be cured."

Gratefully yours, Mrs. Annie Thompson, South Hot Springs, Ark.

was given up by the doctor and my friends. Change of Life began to work on me. I flowed very badly until a year ago, then my stomach and lungs got so bad, I suffered terribly; the blood

went up in my lungs and stomach, and I vomited it up. I could not eat scarcely anything. I cannot tell what I suffered with my head. My husband got me a bottle of Lydia E. Pinkham's Vegetable Compound, and before I had taken half of it I began to improve, and to-day I am another woman. Mrs. Pinkham's medicine has saved my

life. I cannot praise it enough."

Was also troubled with leucorrhoea, tired feeling, bearing down sensation, pain across the back and thighs. I felt as though there was a heavy weight in my stomach all the time. I have taken two bottles of the medicine, and now have better health than I have had for four years."

Doctors vs. Editors.

The doctor from Algona said the new-papers are run for revenue only. What in thunder do doctors run for anyway? Do they run for glory? One of heirship good healthy doctor's bill would run this office for six months. An editor works a half day for \$3 with an investment of \$3.000; a doctor looks wise and \$15.91; J. C. Dancan \$5; G R Holmes works ten minutes for \$200, with an in- & Son \$7 50; F J. Shoap \$6; J. E. Palmvestment of 3 cents for catnip and a pile bex that cost \$1.37. A doctor goes to college two or three years, gets & diploma and a string of words which the devil himself cannot pronounce. cultivates a look of gravity that he pawas off for wisdom, gets a box or pills, cayuse and meat saw and stickout his shingle, a full-fledged doctor. He will then doctor you until you die at a stipulated price per visit, and puts them in as thick as your pocketbook will permit. An editor never gets his elucation finished, he learns as long as he lives and studies all Lis life. He eats bran mash and liver. He takes Kalb. \$559.63. his pay in hay and turnips, and keeps the doctor in town by refraining from printing the truth about him. We would like to live in Algona and run a newspaper six months and see if the doctor would change his mind about "running a newspaper for revenue only. If we didn't get some glory out of it we would agree to take one dose of his pills, after first saying our prayers. If the editor makes a mistake he has to apologize for it, but if the doctor makes a mistake he buries it. If we make one there is a lawsuit, tall swearing and a smell of sulphur, but if the doc tor makes one there is a funeral, cut flowers and a smell of varnish. The doctor can use a word a foot long, but if the editor uses it he has to spell it. If the doctor goes to see another man's wife he will charge the man for the visit. If the editor calls on another man's wife he gets a charge of buckshot. Any medical college can make a doctor. You can't make an editor; he has to be born one. When a doctor gets drunk it is a case of "overcome by the heat," and when he dies it is of heart failure. When an editor gets H. P.
