GENOA, ILLINOIS, THURSDAY, SEPTEMBER 5, 1895.

NUMBER 45.

THE WHITE RIBBONERS.

Meet in Annual Convention in the
N. E. Church, Genoa.

DISSOLUTION OF THE OLD 5TH

The Fifth District Holds its Last
Session—Verged into the
New Eighth

A kind Providence was everywhere evident in the opening of the annual convention of the Women's Christian Temperance Union of the Fifth District, comprising the counties of Kane, Boone, McHenry and DeKalb. A most refreshing shower fell during the night before, and mother earth gave forth a sweet welcoming perfume. Vegetation looking refreshed and bright in the radiant sun. A terrific thunder shower accompanied the rain in the night, no doubt intended as a heralding of the coming to Genoa of that brave band of women who are fighting for their honest beliefs in the protection of their homes. Genoa is indeed honored by this gathering of representative women from five counties, and we are fully appreciative.

At 9:45 Wednesday morning the convention was opened by Miss Emma C. Norton, of Marengo, the district president. The opening hour was devoted to the usual devotional Union exercises, after which a short time was taken up in testimonial expressions by the delegates.

Owing to the absence of the secretary, Mrs. C. E. Hunt, of Harvard, Mrs. Clara E. Beede was chosen secretary.

The following committees were appointed:

On credentials—Mrs. Holmes, Shabbona; Mrs. Miller, Belvidere; Mrs. Rolfe, DeKalb.

On certificates—Mrs. F. H. Jackman, Genoa; Mrs. Dove, Sycamore.

Report from Belvidere Union was then read.

Rev. Phelps, of Oregon, was introduced to the convention and made a very short, interesting talk.

Report from Ritchfield Union was read by the president, that Union not being able to be present.

"Our Educational Work" brought out some very interesting papers, particularly so the paper of Mrs. Sherril, of Belvidere, who is superintendent of Scientific Temperance Work. Her report was pertinent and pithy, and was particularly devoted to the negligence of the county superintendent in failing to answer communications when a persuasive stamp was enclosed for a return.

The paper of Mrs. Porter, supt. of Press Work, was devoted to the benefits of the press in Union work. She urged the furtherance of this work, averring that the success of the Union was greatly enhanced by continuous press work. The paper was thoroughly discussed and new ideas advanced for improvement in this line. Mrs. Porter also read a paper on narcotics and impure literature.

Mrs. Wood, supt. of the Women's Temperance Association, read a paper relative to her work, with a number of suggestions for the advance of the department.

The reports of the Genoa and Batavia Unions were read, the former by Mrs. Susie Holroyd and the latter by Mrs. Wood.

The treasurer's report shows a total membership in the Fifth District as follows:

Aurora	192	Aurora Central	17
Aurora y.	9	Batavia	25
North Belvidere	29	South Belvidere	25
Big Foot	9	Bonus	12

Somonauk	20	South Elgin	25
St. Charles	25	Sycamore	32

In this district are forty Unions with a membership of over eleven hundred. During the past year the Union has received in dues etc. \$645,

and expended during that time \$625.67. A balance now existing in the treasury of \$91.36.

A noonday prayer closed the morning session.

The usual devotional exercises opened the afternoon program.

The Kingston Union made a report of their year's doings.

Mrs. Clara Beede, district superintendent of the Loyal Legion, read a paper relative to the work of the L. T. L., the most important department of the Union.

On this same topic Miss Margaret Wintringer, state superintendent, gave a most interesting talk. She is a very fluent talker and created an increased interest in the work of the L. T. L. Mrs. Nellie Bailey, of Aurora, read an interesting paper regarding the L. T. L. at that place, which was first organized in 1882 and has had a total enrollment of over 900.

The Elgin Union, through their president, reported the doings of their Union for the past year.

The report of the Elburn Union was read.

The President, Miss Emma S. Norton, chose as the topic for her annual address, "Another Year." It was replete with brilliant thoughts and instruction to White Ribboners, and was in every way typical of the bright, enthusiastic little woman who has so ably presided over the destinies of the old Fifth District Union for the past 9 years. She is thorough parliamentarian, and ignorant is the man who says that woman cannot preside creditably over an assemblage of her sisters. She is greatly beloved by all White Ribboners and is one of the most earnest workers in the district.

Miss Norton's address was in part as follows:

Another year! How swift the flight of time! Was every duty done, both yours and mine? Did noble deeds fill every passing day, and at its close, "Well done," the Master say? Then welcome give the year that is to come. Still better serve our country, God, and home.

It has been estimated from various sample counts that very few voters read the president's annual message to Congress. I hope it is not true of our women in reference to our national president's annual message. Last year Edward Everett Hale said it was of more importance to the country than the president's message. That Miss Willard showed more statesmanship in her review of public affairs than any president dare put into his annual message.

What difference does it make if just one, you or I, neglect the work? Some one says, "Every person is responsible for all the good within the scope of his abilities, and for no more, and none can tell whose scope is the largest." Suppose we all take this position in reference to W. C. T. U. work as outlined by another. "I am only one but I am one, I cannot do everything but I can do something. What I can do I ought to do, and what I ought to do by the grace of God I will do."

But why need we belong to the organization? We are told that in Africa there is a kind of ant, very small, but moving in armies. That is what we want to do with the liquor traffic. The power of the little ant is in union. A great multitude of little beings moving together, making themselves more powerful than the wild beasts, just what we will be when there are enough of us. Indeed as it is, we can sometimes make it pretty uncomfortable for them or give them a good scare. I believe in being not only progressive, but aggressive.

During the year as your treasurer's book shows I have given half a year's work to the district, either in the field or at my desk. I have written 512 letters, 358 postal cards, given nine or ten reports of national conventions. Have given 24 addresses and held 35 meetings with unions, traveling over 3,000 miles over the state.

Nine years have I served you. If this shall prove to be my farewell address, let me say that it has been a continual joy to me that during the years there has been so little friction and criticism within our ranks and so much of good will and genuine friendship.

For my successor I could wish nothing better than the welcome to your hearts and homes and the cordial co-operation you have given me.

As we go home to our local Unions let us work out what we have learned here. We have gathered new ideas and gained fresh inspiration and we feel and say it has done us good.

"The New Woman," a paper, was read by the secretary, its author, Mrs. Bradley, of Sandwich, not being able to be present. It dealt with the new woman in Union work and contained many interesting thoughts and suggestions.

A committee on resolutions was appointed, consisting of Mrs. Willey, Aurora; Mrs. Sherril, Belvidere, and Mrs. Sherwood, Shabbona.

The topic "What is most needed in our work and how to secure it?" brought out considerable discussion and many suggestions were introduced for the good of the Union.

At 4 o'clock the convention listened to a program rendered by the local L. T. A's, conducted by the local president, Miss Jennie Lawrence.

WEDNESDAY EVENING.
The program was begun with a well rendered anthem by the church choir,

and was followed by devotional exercises, Rev. Geo. French offering an eloquent and fervent prayer for the continued prosperity of the Union.

On behalf of the Genoa Union Mrs. French welcomed the convention in a most gracious manner, assuring the visitors of our most liberal hospitality and the pleasure it gave to have them with us.

Mrs. Ella S. Holmes, of Shabbona, responded for the convention. Her response teemed with pleasant things regarding Genoa's hospitality. Her attention to Genoa's kindly forethought, was first called, she said, by a sign fastened to a tree, noting that for \$8 one could get a new set of teeth. Whether the delegates would avail themselves of this kind offer or not she could not say. But of Genoa's hospitality she was soon made aware.

Miss Margaret Wintringer addressed the convention on the work of the Loyal Temperance Legion, of which organization she is state supt. As in the afternoon in her talk to the children, she interested the large audience and made many converts to the work of her beloved Legion. She is thoroughly in love with her work, and her enthusiasm is so manifest that it is quickly imparted to her hearers, causing an increasing interest. That the L. T. L. is growing rapidly in numbers and interest is owing mainly to her earnest, thorough work.

At the close of Miss Wintringer's remarks the president announced a treat not down on the program. The Misses Jessie Hutchison and Jessie Thompson gave an interesting dialogue about two flower baskets, which were afterwards passed through the audience, a satisfactory collection being realized.

Mrs. Josie Curtis read a paper on "Young White Ribboners," of which organization she is district supt. Mrs. Curtis is a woman of rare oratorical ability and her paper showed a thorough familiarity with her subject. She is a fluent speaker and held the closest attention of the audience. Her advice to White Ribboners was purely original and if followed out can do nothing but advance the best interests of the organization. She is a thorough business woman and an earnest worker in the Union, and her influence has always been for its good.

"What Shall I Say?" was an interrogation which Mrs. Agnes C. Willey, of Aurora, answered in such a manner that it created the liveliest interest in her hearers. It was a paper unique in its roving subjects but withal one of the most interesting of the convention. It treated mainly of the temperance question, its needs and remedies, and was greatly enjoyed by all.

Miss Luella Hoye, of Kirkland, rendered the very pathetic recitation, "Flying Jim" in a very creditable manner which was greatly enjoyed.

THURSDAY MORNING.
At 8:30 an executive meeting was held in the class room and business transacted pertaining to the dissolution of the old fifth and a division of the property of the district.

Memorial services were held immediately after the usual morning devotional exercises. Glowing tributes were paid departed sisters of the district.

The following delegates were elected to attend the national convention:

Miss Norton, Marengo; Mrs. Neswith Capron, alternates, Mrs. Curtis, Marengo; Mrs. Sherril, Belvidere.

Reports were heard from the following Unions:

Marengo, Mayfield, Aurora, Coral, Hinckley, Carpentersville, Cortland, Crystal Lake, Hampshire, Harvard, Huntley.

Mrs. H. M. Gillette's report on work among soldiers was read, listing what had been done by the Union for the memory of departed soldiers.

THURSDAY AFTERNOON

The devotional exercises commencing the afternoon's program, consisted of passages of scripture by the delegates.

Reports from the following Unions were read: DeKalb, Sandwich, Shabbona, Somonauk, South Elgin and Sycamore.

Mrs. Rose Hoffman, of Hampshire, district president of Evangelistic Work, read an interesting and instructive address on that subject.

The following resolutions were adopted by the convention:

Recognizing the fact that the success of our convention was only assured because

of the help and sympathy given us by many who do not belong to our body, be it

RESOLVED, That we extend our fervent thanks to the following persons—to the pastor and his wife for their energetic and wise assistance and truly Christian sympathy; the trustees for the use of this beautiful edifice; to the Choir for the music so appropriately and effectively rendered; to the pages who so quietly, untiringly and acceptably hastened on our many errands; to those who so hospitably entertained us; to the press that gave us kindly notice and to all those who in various ways helped to make our convention season pleasant and enjoyable, also.

RESOLVED, That the members of the old Fifth District regret that circumstances have made it necessary that a re-organization of the work should separate those who have for so long labored lovingly, and we feel successfully together. Surely our thoughts and prayers will often cross each other as our hearts go out in fervent wishes that those who have been separated may each and all be prospered in new relations to other workers. With more than usual tenderness our lips will voice the feelings of our hearts as we sing our farewell song, "God be with us till we meet again."

Mrs. L. S. Rounds, the gifted state president, was introduced and in a few burning eloquent words, inspired by the recent World's W. C. T. U. convention, she electrified the audience.

The "question box" was replied to by Mrs. Rounds. The greatest work now before the Union was stated to be, as always before, (1) total abstinence for the individual and (2) Prohibition for the state. But the Union does not require affiliation with any political party.

Some forty questions were tersely answered. The necessity of prayer and thorough consecration was especially emphasized in nearly every answer.

The following delegates were present:

Cortland—Mrs. Townsend; Hampshire—Mrs. Rose M. Hoffman, Mrs. Ireal Ream, Mrs. Jennie Gleason, Mrs. Florence Schoonmaker; Dundee—Lydia A. M. Edwards; Carpentersville—Mrs. E. J. Smith; Elva—Mrs. C. S. Carter, Mrs. S. J. Russell; Elgin—Mrs. A. E. Sutherland, Mrs. M. A. Hemingway, Mrs. Sarah Hardiman, Mrs. P. O. Wood, Mrs. M. E. Adams; Huntley—Mrs. Mary Johnson, Mrs. L. A. Y., says: "It may be a pleasure to you to know of the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold here, stating if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of colds and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the sides and chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. The Farmer's Picnic last Thursday did not seem to be much of a drawing card in the forenoon on account of the wetness of everything, but in the afternoon nearly every team within a radius of ten miles was headed for the woods near Coombs' Mill, and a vast number of people found themselves in picnic assembled. The address of Hon F. X. Schoonmaker was pithy and his every utterance was to the point, although his arrival at the grounds was delayed to some extent. Farmers Van Galder, Wyman Ellwood and others amused the audience until the speaker arrived.

HEART DISEASE, like

many other ailments when they have taken hold of the system, never gets better of its own accord, but **constantly grows worse.** There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and **Don't know what to take for it,** as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyesville, Ohio who writes June 19, 1894, as follows:

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured.

I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I **couldn't lie down** nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking **Dr. Miles' New Cure for the Heart** and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I haven't lost a day since. I am 56 years old, 6 ft. 4 1/2 inches and weigh 250 lbs. **I believe I am fully cured,** and I am now only anxious that everyone shall know of your wonderful remedies."

It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY,
Boston, Mass.

BIG PROFITS ON SMALL INVESTMENTS.

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in grain, provisions and stock.

10.00 FOR EACH DOLLAR INVESTED Can be made by our SYSTEMATIC PLAN OF SPECULATION.

Originated by us. All successful speculators operate on a regular system. It is a well known fact that there are thousands of men in all parts of the United States, who by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.
It is also a fact that those who make the largest from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.
Our plan does not risk the whole amount invested on any trade but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.
WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our daily Market Report, full of money-making pointers. **ALL FREE.** Our manual explains margin trading fully. Highest references in regard to our standing and success.

A Good Ball Game.

The ball game played here last Saturday between Genoa and Kingston was a good exhibition.

The Kingstons were blanked in the first on putouts by Sisley and Sager and a ground ball to Ide. Their second was prolific of two runs, but they were blanked in the next three innings. In the fourth inning Dempsey and Ide put out the side, every ball going to Ide, who easily retired the side at first. Two hits and a base on balls in the sixth netted them one run as also did the seventh. A large yellow goose egg adorned the eighth, but in the ninth a base on balls, two being hit by pitched ball, a hit and a couple of errors gave the visitors three runs.

For the Genoa, Hill's terrific speed for three innings seemed to "Svengali" them. Sisley hit the first ball that was pitched, and through the kindness of Sherman, who fumbled the ball, made first and quickly stole second. That was as far as he got, for Peavey and Dempsey couldn't locate the ball, and Ide was retired by Burgess who threw him out at first. The second was no better than the first, Patterson dying on third. A base on balls, a hit and a sacrifice netted two runs in the third. Sager found a ball just where he wanted it, and as he would say he "hit her on the seam", when the ball was returned "Sage" was quietly chewing his yucatan on third. Sisley's little hit brought him in. Three flies to the field retired the side. The fifth was good for three on hits by Sisley, Trednick, Bagley and Sager. A two-bagger by Dempsey and Patterson, a hit by Ide and a passed ball by Dye netted the Colts three runs. This was duplicated in the seventh by Dempsey and Patterson who picked off doubles, and Sager getting first by being hit, in the Col's last inning Hill put an extra twist on his twister and retired the side without a run or a hit, Sager and Bagley striking the ozone.

Taken all in all the game was a good one, and the crowd enjoyed it.

Gualano Bros full orchestra, included in harp soloist will furnish music for the dance in Crawford's Hall, Sept. 11 Ladies invited to come and hear the concert selections free of charge.

Rev. Alcott, of Elgin, preached an unusually interesting sermon in Crawford's hall Sunday evening to a goodly sized congregation. The reverend gentleman is a fluent speaker and commanded the closest attention of his hearers. He is the state secretary of the Congress of Liberal Religion. It is not improbable that a society will be formed here and that he will again preach here. Should he do so, he will be accorded a large congregation.

Diarrhoea should be stopped promptly. It soon becomes chronic. De Witt's Colic & Cholera Cure is effective, safe and certain. Hundreds of testimonials bear witness to the virtue of this great medicine. It can always be depended upon, its use saves time and money. F T Robinson, Genoa, L C Shaffer, Kingston.

Several years ago I was taken with a severe attack of flux. I was sick in bed about ten days and could get nothing to relieve me until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured me and has been a household remedy with us ever since. From all accounts Chamberlain's Cough Remedy is a Godsend to the afflicted. There is no advertisement about this: we feel just like saying it.—The DEMOCRAT, Carrollton, Ky. For sale by F T Robinson, Genoa, and H R Fuller, Kingston.

As a rule I am opposed to proprietary medicines. Still I value a good one, especially when such is the source of relief from pain. As a topical (external) application I have found Chamberlain's Pain Balm the best remedy I have ever used for neuralgia of any kind. I have conscientiously recommended it to many persons HORNE, M. Yellowstone Park Geysers.

Advises just received at the Northern Pacific office from W. P. Howe, in charge of the lunch station at the Upper Geyser Basin, state that the geysers are playing better than ever. They are much finer than last year. The giant one of the finest in the park, plays to an height of about 250 feet. Last year its eruptions took place once in about five days and continued for 90 minutes. This year it is playing more frequently. Mr. Howe is regularly noting the temperature of the Geysers another of the large geysers. It is also playing frequently and its temperature at time of playing ranges from 193 to 198 Fahrenheit. For six cents sent to Chas. S. Fee, General Passenger Agent Northern Pacific Railroad, St. Paul, Minn. you will receive a fine tourist book that contains a chapter on the park.

Is the highest mountain around Yellowstone Park. It is 11,153 feet above sea level. As the park tourist leaves the train at Cinnabar, he will see this grand old mountain looming up in the west. After the stage leaves Golden Gate and enters Swan Lake Valley it is seen again to the north. From this place it stands out in fine style. KINGSTON ILL.

A Good Ball Game.

The ball game played here last Saturday between Genoa and Kingston was a good exhibition.

The Kingstons were blanked in the first on putouts by Sisley and Sager and a ground ball to Ide. Their second was prolific of two runs, but they were blanked in the next three innings. In the fourth inning Dempsey and Ide put out the side, every ball going to Ide, who easily retired the side at first. Two hits and a base on balls in the sixth netted them one run as also did the seventh. A large yellow goose egg adorned the eighth, but in the ninth a base on balls, two being hit by pitched ball, a hit and a couple of errors gave the visitors three runs.

For the Genoas, Hill's terrific speed for three innings seemed to "Svengali" them. Sisley hit the first ball that was pitched, and through the kindness of Sherman, who fumbled the ball, made first and quickly stole second. That was as far as he got, for Peavey and Dempsey couldn't locate the ball, and Ide was retired by Burgess who threw him out at first. The second was no better than the first, Patterson dying on third. A base on balls, a hit and a sacrifice netted two runs in the third. Sager found a ball just where he wanted it, and as he would say he "hit her on the seam", when the ball was returned "Sage" was quietly chewing his yucatan on third. Sisley's little hit brought him in. Three flies to the field retired the side. The fifth was good for three on hits by Sisley, Trednick, Bagley and Sager. A two-bagger by Dempsey and Patterson, a hit by Ide and a passed ball by Dye netted the Colts three runs. This was duplicated in the seventh by Dempsey and Patterson who picked off doubles, and Sager getting first by being hit. In the Colts' last inning Hill put an extra twist on his twister and retired the side without a run or a hit, Sager and Bagley striking the ozone.

Taken all in all the game was a good one, and the crowd enjoyed it.

Public School Notice.

I desire to call the attention of the citizens of Genoa and adjoining country that the Genoa Public Schools will open Monday, September 9th.

Gualano Bros full orchestra, included in harp soloist will furnish music for the dance in Crawford's Hall, Sept. 11. Ladies invited to come and hear the concert selections free of charge.

Rev. Alcott, of Elgin, preached an unusually interesting sermon in Crawford's hall Sunday evening to a godly sized congregation. The reverend gentleman is a fluent speaker and commanded the closest attention of his hearers. He is the state secretary of the Congress of Liberal Religion. It is not improbable that a society will be formed here and that he will again preach here. Should he do so, he will be accorded a large congregation.

Diarrhoea should be stopped promptly. It soon becomes chronic. De Witt's Colic & Cholera Cure is effective, safe and certain. Hundreds of testimonials bear witness to the virtue of this great medicine. It can always be depended upon, its use saves time and money. F. T. Robinson, Genoa, L. C. Shaffer, Kingston.

Several years ago I was taken with a severe attack of flux. I was sick in bed about ten days and could get nothing to relieve me until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured me and has been a household remedy with us ever since. J. C. Marlow, Decaturville, Mo. For sale by F. T. Robinson, Genoa, and H. R. Fuller, Kingston.

From all accounts Chamberlain's Cough Remedy is a Godsend to the afflicted. There is no advertisement about this; we feel just like saying it.—The DEMOCRAT, Carrollton, Ky. For sale by F. T. Robinson, Genoa, and H. R. Fuller, Kingston.

As a rule I am opposed to proprietary medicines. Still I value a good one, especially when such is the source of relief from pain. As a topical (external) application I have found Chamberlain's Pain Balm the best remedy I have ever used for neuralgia of any kind. I have conscientiously recommended it to many persons. HORSE, M. Yellowstone Park Geysers.

Advices just received at the Northern Pacific offices from W. P. Howe, in charge of the lunch station at the Upper Geyser Basin, state that the geysers are playing better than ever. They are much finer than last year. The giant one of the finest in the park, plays to an height of about 250 feet. Last year its eruptions took place once in about five days and continued for 90 minutes. This year it is playing more frequently. Mr. Howe is regularly noting the temperature of the Giantess another of the large geysers. It is also playing frequently and its temperature at time of playing ranges from 193 to 198 Fahrenheit. For six cents sent to Chas S. Fee, General Passenger Agent Northern Pacific Railroad, St. Paul, Minn. you will receive a fine tourist book that contains a chapter on the park,

Is the highest mountain around Yellowstone Park. It is 11,155 feet above sea level. As the park tourist leaves the train at Cionabar, he will see this grand old mountain looming up in the west. After the stage leaves Golden Gate and enters Swan Lake Valley it is seen again to the north. From this place it stands out in fine style. The mountain lies about eight miles northwest from Mammoth Hot Springs, and the Northern boundary of the park runs across it. Send six cents to Chas S.
