MILLIONS IN ROADS

Federal Government to Give States \$85,000,000 in Five Years

TEN MILLION THE FIRST YEAR

Maximum Amount for Each Mile is \$10,000—State Must Co-operate in Work

The passage of the bill by Congress appropriating \$85,000,000 for good roads is expected to mark the beginning of the greatest era of roadbuilding in America says the True Republican. The new law provides that the federal government shall share equally with the separate states the expense of road building. During the year beginning July 1, 1916, the federal government will spend \$5,000,000 for roads, the states contributing an equal or larger amount. The next federal appropriation will be \$10,000,000 and an additional \$5,000,000 appropriation each year until 1921.

States wishing to avail themselves of federal aid in road building must accept the provisions of the law through their legislatures or governors. Before the work can be actually begun they must also have highway departments. With the exception of Indiana, Georgia, South Carolina and Texas, the states already have such departments.

The maximum amount the government will pay is \$10,000 a mile for road construction. The state pays half the expense or a greater amount. The maximum of \$20,000 a mile, the Office of Public Roads estimates, will cover the cost of constructing the best kind of country roads. For much traveled highways, where a large investment would be considered profitable, government experts recommend concrete, brick or bituminous macadam, the latter being made up of loose rock bound together with one of the various tar preparations, bituminous cement or other binding material.

Keen rivalry between the makers of road material and road building machinery is already manifesting itself. While local conditions are said to make different paving material preferable in different localities, there is much competitive business.

Experts have predicted that the increased road building may result in a standardized road, acceptable to the federal department. At present, the states will make application for aid, specifying the location, character and cost of the proposed road. Each case will be passed on separately. The fact that states must keep these federal-state roads in repair under penalty of the loss of all future aid is expected to result in the selection of only the best paving materials.

HARVARD FLUNKS

And Belvidere's Deficit Scars Them Out of Chautauqua

Harvard Herald:—That the Lincoln Chautauqua will not return to Harvard next year was manifest at the closing season last night, when a last campaign effort was put forth to sell tickets and obtain pledges for next year's affair, but failure attended the attempt, it is believed, and while there is still a prospect of recouping and enlisting the interest of many of the indifferent, still the chances are against its accomplishment, leaders of the enterprise admit with much feeling of regret.

The early period of the season at which the Chautauqua is held, the busy season among farmers, the intense heat and the indifference on the part of Harvard business men are advanced as the contributing factors in the failure to insure a chautauqua for next year, according to a number who have worked so zealously in the past, but the number of workers has dwindled until only a few of the once united corps remain to carry on the details of the enterprise, they say.

Belvidere Republican:—With a deficit of close to \$500 staring them in the face, the committees responsible for the chautauqua just closed are taking measures to raise this amount from the signers of the guarantee list signed by a considerable number of business men, and are making no plans for a chautauqua here next year.

Killed by Mower

The three year old daughter of Andrew Clark, a Pecatonica farmer, was ground to death Monday when she became entangled in a mowing machine. The child had wandered into the hay field, which was so high the driver was unable to see her.

TWO BOYS KILLED

One a Son of Grant Anthony of Riley Center

Two more deaths were added to the season's toll of automobile fatalities last Thursday evening when the Duluth flyer of the Chicago and Northwestern railroad crashed into the automobile of Ralph Hatch, a 21 year old former Marengo youth, at the Calhoun street crossing in Woodstock. Meeting death with Hatch was Clarence Anthony, an 18 year old Marengo youth, and boyhood companion. The machine was splintered.

Hatch was the only son of Mr. and Mrs. George Hatch, old time Marengo

W. Z. HORNBURY
Evangelist who will speak at the Big Tent Meetings

residents, who moved recently to Woodstock, where both father and son had secured employment in the Oliver plant.

Anthony was the son of Mr. and Mrs. Grant Anthony. Mr. Anthony is a wealthy farmer of Riley township. He has one other son, considerably younger than Clarence. Clarence Anthony was also employed at Woodstock.

Funeral services for young Anthony were held at the Riley Center church Saturday afternoon. The attendance was so large that less than one half the people could get inside the church.

BLACK AND WHITE

Colored Men of Hart Play Game of Base Ball at Kingston

Hart's colored population (railroad laborers) went over to Kingston last Sunday to show the Tigers of that village how to play base ball. The game started out rather one-sided and it looked for a time as tho Kingston would do all the "showing." There was a change when the Illinois Central smokes got their eye on the ball and they won the contest to the tune of 15 to 14. There was plenty of fun and next Sunday the blacks expect to show the Tigers another round. If you want a good laugh and cool place to rest, go down to Kingston next Sunday afternoon and see the clash.

Spend \$50,000 for Corn

Mt. Morris Index:—During the past six months over \$50,000 has been paid out for farmers in this immediate vicinity by the Citizens' State Bank for the purchase of corn shipped in from other points made necessary by the corn crop failure of last year. This is something that has never occurred before in Mount Morris township and has been the cause of a heavy drain on the purses of the farmers, although, of course, much of the money sent away has been returned in the sale of live stock fattened by the corn purchased.

Elgin Man Electrocuted

Henry C. Egger, foreman of the line construction and maintenance gang on the third rail system, was electrocuted last week at the Ingalt tower when he received the full force of the 26,000 volts carried in the high tension wires.

A BIG GOSPEL TENT

Will be Raised in Genoa next Week for Revival Meetings

SERIES TO RUN SEVENTEEN DAYS

Rev. W. Z. Hornbury, Evangelist, will Conduct the Meetings—Mr. Fred E. Lind is Musical Director

Evangelists Rev. W. Z. Hornbury and Mr. Fred E. Lind will conduct tent meetings in Genoa, beginning on Thursday, August 3, and closing Sunday, August 16

INFANTILE PARALYSIS

Some Suggestions that Should be Followed in Case of Epidemic

Infantile paralysis (Poliomyelitis) is an acute communicable disease caused by a minute germ.

Usually begins with symptoms of cold in the head, fever, restlessness. Mortality often not high, but permanent paralysis of one or more limbs are very frequent.

Discharges from mouth, nose, throat and bowels, sources of infection.

Healthy persons may be carriers of the disease and transmit it to others. Animals with distemper possible sources of danger.

Flies may carry the disease germ on their feet.

Prevention

The public should be warned when disease is prevalent to pay especial attention to the hygienic surroundings of children, along the following lines:

1. Avoid public gatherings of children, especially crowded rooms, including picture shows, parties, picnics, etc.

2. Children should not visit houses where other children are ill, nor should grown people in contact with sick children kiss or handle other people's children.

3. Flies should be prevented from coming in contact with the hands, face, or food of children. Flies should be excluded from the house as far as possible.

4. All measures to diminish the prevalence of flies should be carried out.

5. Sick children, especially those with colds and fever, should be carefully examined by a physician.

6. Patients suffering from anything resembling poliomyelitis should be protected from flies; nose, throat and bowel discharges should be disinfected or burned, and the members of the household should avoid contact with crowds and with other people's children.

7. Personal cleanliness, hygienic and sanitary conditions of premises and public places should be insisted upon.

There are many cases of this disease in Illinois right now and mighty near home. One death at Hincley last week should cause the people to be on guard. There are cases in Rockford and Freeport and in other nearby cities.

Clean up and keep clean. Swat the fly and see that he has no place to breed.

LODGE GENEROUS

Odd Fellows of Illinois Will Care for Families of Guards

Members of the 398 lodges of the Independent Order of Odd Fellows will not have to worry about the support of their families if they are members of Illinois troops summoned in readiness for war with Mexico.

Each of the lodges in the state has been ordered to compile a list of its enlisted men, giving the number and names of all dependents and their addresses. The list will be forwarded to the grand lodge office in Chicago, where the individual cases will be attended to. That this task is not a small one will be seen in the fact that the order has 120,000 members in Illinois.

Each member of the order who is a soldier will be furnished with a paid receipt for dues as evidence that he is in good standing and as a means of identification. The treatment to be given dependents will be based on the operations of the order in the case of illness. The visiting committee will make reports and recommendations for lodge actions weekly during the absence of the head of the family.

Dangerous Practice

The posting of bills on telephone poles has become so much of an annoyance that the Chicago Telephone company will paint signs on its poles prohibiting their use for this purpose. Many poles along the highway are covered with a veneer of tack heads, which makes it difficult for the linemen to sink their climbers into the wood. As a result of this practice, many linemen have sustained severe falls and others have received serious cuts from protruding tacks.

The Way of It.

When you buy a chicken today you must pay as much as you did for a turkey fifteen years ago. A turkey costs as much as a hog did then and a hog more than a cow was worth and a cow as much as a horse was sold for. This is where some of the increased cost of living hits the buyer of poultry and stock.

ILLINOIS NOW FREE

Quarantine for Tuberculosis in Cattle Lifted from State

FIVE COUNTIES WERE UNDER BAN

No Cattle Have Been Shipped Out of Those Counties to Other States in Two Years

The counties of Lake, McHenry, Kane, Dupage and Cook, in the State of Illinois, have been released from quarantine for tuberculosis in cattle by an order signed by the secretary of agriculture July 19, 1916, effective August 1, 1916. These counties were the only portions of the state under quarantine.

This order revokes the quarantine placed upon these counties by an order signed August 22, 1914, and effective October 1, 1914. This quarantine prevented the interstate shipment from the quarantine area of cattle, for any purpose other than immediate slaughter, unless the cattle had been tested with tuberculin by, or under the supervision of, a Bureau of Animal Industry inspector and were accompanied by a Bureau of Animal Industry certificate, including a tuberculin test chart, showing the cattle to be free from the disease.

This quarantine was placed at the request and with the cooperation of the State Live Stock Sanitary Commission of Illinois, in order that the interstate movement might be prevented of breeding and dairy cattle which in numerous instances were found to be affected with tuberculosis on arrival in other states. This condition was brought about by the fact that Illinois did not have a law providing for the tuberculin test of cattle shipped either into or out of the state.

In the absence of such a law, certain persons in Illinois were able to make a business of buying up cattle in Illinois and elsewhere which the tuberculin test showed were infected and shipping these cattle throughout the country. This trade grew to considerable proportions. The men engaged in it operated in the five counties which were quarantined, and the cooperation of the U. S. Department of Agriculture and the Illinois state authorities has resulted in stopping the traffic in reacting cattle from those counties.

Prior to the time the five counties in Illinois were placed under quarantine, a number of states refused to receive breeding or dairy cattle from any portion of Illinois unless accompanied by a Bureau of Animal Industry certificate of inspection and tuberculin test. In order to protect cattle in other states, as well as in other counties in Illinois, from this disease, the United States Department of Agriculture placed in quarantine the five counties in which it was found that most of the diseased animals originated.

The purpose of the original quarantine has now been met. The state of Illinois now has a law enabling the state authorities to control the local situation, and there appears to be no further necessity for the federal quarantine.

The Illinois law prohibits the movement into that state of breeding and dairy cattle over 9 months of age, unless accompanied by a certificate of health, supported by a tuberculin test chart issued by the state veterinarian, assistant state veterinarian, or a Bureau of Animal Industry veterinary inspector, showing the animals to be free from tuberculosis.

The action of the department in revoking this quarantine should not be construed as indicating that the control of tuberculosis in cattle is not possible by means of proper sanitary and quarantine measures.

The action of the department has been taken after consultation with live stock authorities in other states which had been quarantined against Illinois, and eleven of these states have expressed their approval of the action taken by the department. The revocation of this quarantine was approved by the advisory committee on live stock sanitary affairs recently appointed by Secretary Houston.

New School Board

The new consolidated school board at Rochelle has been organized with Fred Craft, president, A. B. Sheadle, secretary, and S. V. Wirick legal advisor. The board is now circulating a petition requiring 500 signatures, calling for the purchase of a site and building of a building. Should this carry another election will have to be held to locate the building and appropriate the money.

A STUPENDOUS TASK

Interstate Commission Taking Survey of Railway Property of U. S.

A special car has been standing on the siding at Hart during the past several days and many people passing that way have wondered as to the mission of the men who make the car their home. None of these who made guesses came anywhere near making the right guess and even after being told the truth, could scarcely comprehend the magnitude of the task that has been undertaken by the Interstate Commerce Commission. These men are taking a survey of the railway property of the United States. No, this particular set of men are not doing all the work. There are scores of other cars located throughout the country and they have been on the job three years. Right now the men who have been located at Hart (now at Colvin Park) are measuring the road bed, determining the amount of fills, the amount of gravel in the fills and all other facts which will lead to an approximate cost of every mile of right-of-way and track. Some time ago a car came thru, it being the mission of that gang to take a survey of the buildings. When one considers the trackage of United States railways, he may have some idea of the stupendous task that is before the Interstate Commission.

PREPARE FOR BUILDING

Work Train Now Hauling Dirt for Foundation of Coal Sheds

A work train has been on the job at Hart during the past week, making a fill for the foundation of the new coal sheds. The dirt is being procured at the cut on the Illinois Central east of Genoa.

The coal sheds or bins will be located immediately west of the Hart station. They will in no way resemble the sheds at Coleman. At that station the coal cars are run up onto a trestle where the coal is dropped into the bins below, these bins are on a level with the top of the engine tender. At Hart the bins will be located below the track level, so that the cars will merely pass onto a siding where the loads may be dumped. The coal will be run from the bins to the tenders by means of elevators run by electric power. The services of only two or three men are required with this system, while at Coleman seven or eight are employed.

FRED E. LIND
Musical Director at Tent Meetings

Road Houses to Close Sundays

Another bomb was thrown into the road houses which line the eastern border of Elgin, when Sheriff Traeger of Cook county ordered every saloon in Cook county outside of Chicago to close Sundays. "I mean business," declared the sheriff. "It is either close up or be raided. Law violators will find their licenses revoked." Traeger started his fight to close the road houses Sundays two weeks ago when he detailed twenty deputies to issue warnings. He is expected to have from forty to sixty men working with him in covering the entire county.

Band Man Sticks

Bound to stick to his regiment, Arthur Pasenberg of DeKalb who was rejected for physical inability to pass, signed waivers for claims on the government and has been permitted to rejoin the band.—DeKalb Independent.

FOR ANOTHER YEAR

Nearly Thousand Dollars Pledged Chautauqua in 1917

GUARANTORS "PUT UP" GAMELY

Deficit of \$360 Does Not Kill Interest—Great Program Ended Friday Night

Are we downhearted? No! A little thing like a deficit of \$360 will not drive the chautauqua idea out of the minds of Genoa people, for Genoa people appreciate a good thing and will hang onto it. And the 1916 Lincoln Chautauqua was about the best thing possible for the money, in fact, worth far more than the price of a season ticket. A program of such talent could not be brought to a town the size of Genoa except thru such an organization as the Lincoln Chautauqua system and Genoa folks fully realize this.

An idea of the talent and reputation of the speakers which came to this city is evidenced in the case of Dr. Ira D. Landrith, who spoke on the second day. Just a few days after his visit here he was unanimously nominated as candidate for president of the United States on the Prohibition ticket.

There was not a weak number during the entire week and the last day was just as good as the first, if not better. The American Opera Quartet rendered music of a superior quality, appearing in a program of solos, duets and quartets which could easily command an admission fee of \$1.00 under other conditions. The lecture by Ralph Parlett on the closing night on "The University of Hard Knocks" was something different. Altho his lecture sparkled with wit and humor throughout, there was not a moment even while his audience was in an uproar that he was not pounding home some great truth and lesson. He held the closest attention of the children as well as the older people.

There was a deficit of approximately \$360 this year and this was due to a combination of circumstances over which no one had any control. The deficit was due mostly to farming conditions. The backward season had brought corn plowing and haying together and this great amount of work during the sweltering hot days was about all the farmers could attend to. They simply could not leave their work in the afternoon and when evening came most of them were willing to call it a day. After one has worked in a hay field ten or twelve hours he has little energy left for putting on his "soft" clothes and attending a chautauqua.

There were forty guarantors, each of whom dug down in his pocket and brought up nine dollars and they did it without a protest. As a matter of fact many of those who were financially stung this year came right back and signed the contract for next year. Please note that we say "financially stung." These guarantors feel stung in no other way, believing that the chautauqua was worth the price to Genoa and that the people of this vicinity received value for the money in brain food and moral uplift. If thru the efforts of the speakers one boy or girl, one man or woman was brought from the wrong way of thinking and living, to the right, the money was well spent.

On Friday night the sentiment of Genoa folks regarding a good chautauqua was emphatically put on record. On that night ticket pledges were again taken and the number reached nearly the 500 mark. This means that the guarantors who have signed an agreement to make good for \$950 in season tickets are backed up by Genoa folks to the tune of nearly \$1,000.

Butter Prices Same

Butter remained firm on the Elgin Butter Board Saturday, 85 tubs selling for 27½ cents, the same as last week's price. Previous prices were as follows:

July 15, 1916—27½ cents.
July 24, 1915—24½ cents.
July 20, 1914—27½ cents.
July 21, 1913—26 cents.
July 22, 1912—25 cents.
July 24, 1911—24 cents.

Sowers Sells Overlands

Elgin Courier:—Elmer A. Sowers has signed up a new contract with the Willys-Overland Motor company for handling the 1917 model cars, some of which he expects to receive the latter part of next week. Mr. Sowers has had the agency since the fall of 1913 and in that time has sold about 125 cars. His record from June, 1915, to June 1916, was 65 cars.

Geography.
Geography is the sum total of all the places in the map that we don't know about. Geography is made up of boundary lines, river lines, dots and dashes like a telegraph system and shaded places which represent the high spots. It is also colored to suit the taste and in such a manner that it takes a bacteriologist to make you know the difference between the sea and the dry land. Historical geography is ordinary geography with whatever you don't know about history added to it. Historical geography consists of migrations, cedings and other flora and fauna to suit. To make a historical geography get a few races and distribute them according to your fancy over a pink area in various shades to show how they spread out. As a matter of fact, they did nothing of the sort. But that makes the historical geography all the more interesting. In the hands of schoolteachers geographies are frequently believed in for years by confiding pupils.—Life.

Ballads as Newspapers.
The ballad, or that form of it which is associated with the broadside, was one predecessor of the newspaper as a commentator on events. It was written for the people and sold to the people. Printed on poor paper and passed from hand to hand, copies of early ballads were seldom preserved. Fortunately several men of the seventeenth century began to make collections of ballads, and the copies of broadsides printed before 1700 that are now in existence are supposed to number about 10,000. Soon after 1700 the printed form of the ballad was changed, the "black letter" disappearing, but the ballad continued as a chronicle of happenings and a commentator on political, military and other public events until the middle of the nineteenth century and in the United States as well as England. The "topical" song of today perpetuates the satirical function of the ballad.—Springfield Republican.

Belgian Kongo.
Belgian Kongo, founded thirty years ago, is still in the early stage of development. So far practically no manufacturing industries have yet been established, and, aside from the important copper mines in the Katanga district, the only large industrial enterprises are the railways and river transportation services. It may be said that all business activities in the colony are devoted to the collection of tropical products—rubber, ivory, gum copal, palm oil and kernels, cacao, etc.—and the railway and river services are in reality only accessories to these activities, having been established primarily to aid in the transportation of these products to the seaports. The gathering of rubber in Kongo has never recovered its former activity, and in all probability will never again be so rich a source of income to the colony as it was previous to 1912.

Ship Money.
Charles I. was badly in need of money, and his attorney general in the course of his antiquarian researches discovered that in the dim ages of the past the crown had issued writs to the cities and towns on the coast requiring them to provide vessels for the royal needs, and he suggested that this ancient right might be brought into use again. Instead of the actual vessels a money contribution might be exacted instead. Thus the king would be able to tax a larger part of the realm while theoretically observing the laws. Writs for ship money were accordingly issued, but the patriot John Hampden declared that they were illegal and raised such a protest against them that they were practically nullified.

Weed Pests.
Of the 200 species of ferns native to this country a few have become more or less serious weed pests. The most troublesome are the hay scented fern and the brake. According to a bulletin of the department of agriculture, cutting off the tops close to the soil surface twice a year for two years will kill out nearly all ferns. The best times to do the cutting are just previous to spring, or about the middle of June, and the middle of August.

Life in Bermuda.
A feature of life in Bermuda which always impresses the stranger is the apparent prosperity of the natives, white and colored alike. Distressing poverty is unknown, and even the poorest families can boast of a stone house and a garden.—Argonaut.

The Twins.
We have heard of several cases wherein twins have borne a remarkable likeness to each other. But the most curious was the case of twin sisters who had to be told everything together because it was impossible to tell them apart.

THE CRISIS IN ILLINOIS

A Call To All Good Republicans

Protecting Womanhood from Industrial Slavery
Senator Hull saving the 10-Hour Labor Bill for Women from defeat, when opponents were desperately attempting to kill this protective measure during the last two days of the legislative session of 1909. His opponents then are his opponents now. Vote for Hull and help vote them down.

Senator Hull Winning in the Fight for Direct Primaries in Illinois.
Senator Hull was the Chairman and leader of that valiant group who became famous as "The Band of Hope." Their inspiring fight put through the Direct Primary Law in Illinois in 1908. Reactionary interests opposed to Hull then, are opposing him now.

Hughes Helped Protect Insurance Policy Holders in New York - Hull Helped in Illinois.

As an outgrowth of the Hughes Insurance Investigation in New York, Senator Hull in 1907 engineered the passage of Insurance legislation regulating the terms of Insurance Policies in the interest of policy holders. The constructive republicanism that won in national affairs when Hughes was nominated will win in Illinois when Hull is nominated.

Senator Hull Stopped Leaks And Thus Saved the Taxpayers \$716,676.50

Senator Hull, secured the passage of the Anti-Graft Law requiring the State Treasurer to give to the State the Interest on Public Funds. This act has already brought the State \$676,676.50. Efficiency in State Printing, which he helped secure, has saved the taxpayers \$10,000 during the first year.

Civil Service for 4200 State Employees - Another Hull Drive for Good Government

Senator Hull secured the passage of the State Civil Service Bill in 1911, placing 4200 state employees outside the reach of spoils politicians. The Thompson interests that have desecrated Chicago's civil service system, now seek to gain control of the state jobs also, by defeating Senator Hull.

Fought for Workmen's Compensation Act

Senator Hull helped put through the Workmen's Compensation Act which specifies the amount due employees injured in the service of employers. This avoids the necessity of damage suits and aims to enable the workingman secure prompt settlement of just claims.

NOMINATE

MORTON D. HULL For Governor

And Save Your Party and State From the Thompson Spoilsmen

The Illinois primary is less than nine weeks off. And the Hour has struck when all constructive Republicans must join their forces under an able leader with the welfare of the people at heart. An emergency exists. The situation is this:

Republicans who stand for efficient management in state affairs, have, in recent years, done some important things for good government in Illinois. Among these men, Morton D. Hull has been a leader. For ten straight years he has worked in the legislature unceasingly for efficient management of the state. This is not a mere claim—it's a matter of open record.

But the opposition has been bitter. And the task of constructive Republicanism, fostered by Senator Hull and men of his type, is only half begun. To carry this work through, the state needs as Governor just such a man as Senator Hull has demonstrated that he is. It needs a man of his strength and ability to force through progressive measures. Such a Republican as Hull is unquestionably could be elected in November.

Says the Chicago Tribune, July 4, 1916: "The Republican Primaries might result in a nomination which would incline many Republican voters to turn to a good Democrat." Consider that.

Hull Against the "Combine"
The Thompson spoilsmen of Cook County brought together all the reactionaries at the past Peoria convention. This "Peoria Combine," as the newspapers term them, sealed their pact to ride into full control of your party and state.

They are marshalling their bands behind a former congressman without experience in State affairs. He is their candidate for Governor. But please make no mistake—he is not their leader.

Behind him are arrayed the Villas, Zapatas and Carranzas of Illinois whose specialty for years has been exploiting the public.

And when this candidate of theirs was national committeeman, he gave his proxy to Mr. Lorimer. He sent Mr. Lorimer, then under fire, to represent the Republicans of Illinois in the high councils of the party.

When Senator Hull is governor, his proxy will be given to no one.

The nomination of the "Combine's" man would expose Illinois to influences that brought discredit upon the party.

But the nomination of Morton D. Hull will be a credit to it.

The Chicago Tribune's Estimate of Hull
January, 1913, the Republicans in the legislature were in the minority. But a leader was needed to promote progressive acts. A leader to safeguard the public welfare.

"The Chicago Tribune" recognized that need—and it recognized the leader. In an editorial the TRIBUNE said in part:

"... if there were at Springfield a number of men elected to the House of Representatives calling themselves Republicans, and seeking to nominate an able leader, ... a leader of conspicuous merit and conspicuous service—they would choose Mr. Hull.

"... there is due him an acknowledgment of the fact that few citizens of the State have served the State more modestly, more effectively, more faithfully, more sanely, or more persistently than Morton D. Hull of the 5th District, Chicago.

"He has been the brains and the backbone of many a futile effort for good Government and the brains and the backbone of some attempts which have won. He is not noisy in the demonstration of his own virtues ...

"A State which might attract the services of a number of men like him would be a notable

exhibit of the worth and value of representative government ...

"If Mr. Hull were the choice of the Republicans for leader, there at least would be a guarantee of efficient, honest leadership on one side of the hall."

Mr. Hull's leadership is needed now.

Now is the Presidential Year. The Thompson spoilsmen believe that National issues will divert your attention from the needs of your state. While your eyes are on Washington, they plan to capture Springfield.

Protect Your Party and State

With Hughes and Hull the Republican party of Illinois will recruit and rally. But the "Peoria Combine" will weaken Hughes' case and the party's.

Hull's nomination means the party's advancement. It is another forward step like the nomination of Hughes.

Hull for Governor means success for the party in November; and Hull as Governor means success for the state.

In these days of preparedness Illinois needs his experience in the management of her government and institutions.

Join the Thousands for Hull

Hosts of Republicans and Progressives throughout the state already have gathered under Hull's banner for clean Republicanism and good Government. And this is a movement destined to succeed because it is right.

But success will not be easy. The evils of the system are hard to wipe out. Your moral and your active support are needed at once. The time is short. Resolve to perform your part right now.

Please sign and mail the attached coupon today and help to win with Hull.

Hull Campaign Committee, Logan Hay, Secretary.

MORTON D. HULL STATE HEADQUARTERS
LOGAN HAY, Secretary
124 S. Sixth St., Springfield, Ill.
I am in sympathy with the movement for progressive Republicanism and good Government in Illinois, represented in the Candidacy of Morton D. Hull. If possible, I should like to be of some service in assisting in the success of this movement.

Parents should bear in mind that there are about two more months of the summer weather. The weather during August may be warmer than during the past three weeks. If you have not purchased comfort giving clothes for that boy, we invite you to call now and look over our fine line of

Boys' Wash Suits

These suits are well made, of neat patterns and fast colors and will afford the little fellow the greatest comfort possible. You can not buy the cloth and make a suit as cheaply as we can sell the ready-made article, and it is an assured fact that the home-made garment will not have the natty appearance of the ready-made. We would be pleased to have the mothers call and inspect this line. All ages and all prices.

F. O. HOLTGREN

Genoa, Illinois

PURELY PERSONAL

E. O. Gustafson is here from Davidson, Canada.
Edgar Baldwin of Geneva was home over Sunday.
Ed Shurtleff is now employed at J. J. Tischler's grocery.

Genoa Cash Grocery

Ask Your Wife

about the care of the kitchen. Which bothers her most? "Doing the Dishes" or Scrubbing the Floor?" And then consider a bright cheerful "crackless" floor that is even easier to clean than washing the dishes.

Armstrong's Linoleum

will make a bright, inviting room out of a dull, cheerless kitchen—and will reduce the unpleasant work of scrubbing by half. Ordinarily you just use a mop on linoleum, you know.

We have in stock the largest line of linoleum to select from in this city in all widths, 6, 7½ and 12 feet, and in all grades and at prices that anyone can afford.

Printed Linoleum from 45c a square yd. to 75c. Inlaid as low as 70c a square yd. and up to \$2.00.

If you cannot call and select the patterns, just phone us and a salesman will call with a complete line of samples and assist you in making the proper selection for your room.

Remember we have expert linoleum layers who are at your service at any time.

Armstrong's Linoleum wears well and its cost is low. It makes the kind of kitchen your wife should have.

The financial resources of the Federal government are exemplified in New York by the activities within this magnificent building at the head of Wall Street.
In much the same way the financial resources of this community are exemplified by the work and activities of this bank.

THIS PAPER REPRESENTS FOREIGN ADVERTISING BY THE

AMERICAN PRESS ASSOCIATION

GENERAL OFFICES
NEW YORK AND CHICAGO

BRANCHES IN ALL THE PRINCIPAL CITIES

"Our country!" In her intercourse with foreign nations may she always be in the right; but our country, right or wrong.—Stephen Decatur.

THE FLY PEST

The fly will be at his best during the next two months. His family is now multiplying by the millions and carelessness on our part will assist him greatly in rearing his offsprings. It is absolutely essential that the fly have a filthy place in which to breed

and such a place can only be provided thru the generosity of human beings. Bearing this in mind it behooves us to be careful about throwing garbage in exposed places. If one has no chickens to which they can feed garbage, a hole should be dug and the garbage kept well saturated with sulphate of iron. Cess pools, vaults and manure piles should be treated in the same manner. Better still, do not let manure accumulate in the city. The city health department (which means the entire city council) should see to it that the alleys are free from filth. It should not be necessary to caution business men in this matter. Every business man should consider himself a committee of one to insist that there be cleanliness in the back yard as well as the front. Bear in mind that the fly is the greatest menace in case of an infantile paralysis epidemic.

It is very noticeable that most men enjoy the drinking fountain on Main street, but say, fellows, why not give the children and women a chance to drink? In the evening especially there is usually a bunch of men standing about the fountain, often leaning on it and totally blocking the way. Small children and women will not try to force their way. Why not step to one side when thru drinking? We are confident that the men will stand away from the fountain when their attention is called to the conditions.

Have you noticed that in the gubernatorial campaign Colonel Lowden is simply hewing in a straight line. He is not taking time to roast his opponents, Col. Smith and Senator Hull, but tells what the state needs and affirms that he will do all in his power to make good. As a business man Col. Smith

has an enviable record and he should not lower himself in the estimation of voters by knocking the record of another that is equally as good. Senator Hull has made a good record both as a politician and a business man, but the fact that he is the tool of Deenee and West defeated him before he entered the race. Lowden is gaining strength daily, and needs the support of all his friends for the Hull votes will come mostly from those who would otherwise vote for the Oregon man.

Wm. J. was not big enough to fill the chair of secretary of state, but sure does take with the chautauqua audience. Bryan has SOME mighty good ideas, but then we must remember that during all his life, until becoming secretary of state, Wm. J. spoke to a chautauqua audience where he had all his own way and never knew whether those in the audience agreed with him or not. When he attended the cabinet meetings at Washington he discovered that his ideas were not universal after all, even within his own Democratic family. And the disappointment upon learning this fact caused him to pack up his grip and go back to the platform where no one could talk back.

Helen P. Paulson, who spoke at the chautauqua Friday afternoon touched on a subject which should appeal to every father and mother. What to do with the children during the long summer vacation. Under ordinary conditions all that can be done is to turn them loose. There should be an effort made to give them something to think about other than the rot that may be learned on the street and in the alleys. Organizing Camp Fire Girls in Genoa was an excellent idea, but more girls should become members. Now if the Boy Scout could be organized it would be a fine thing for the youngsters.

The boys in Texas may never be called upon to stop Mexican bullets, but they are deserving of all honors due to the returning soldier just the same. Most of their letters home are of a cheerful nature when one knows that camp life in Texas is not all cheer at this time of the year. All honors to the national guard and men of the regular army.

The platform manager of the Lincoln Chautauqua made the statement on the last evening in Genoa that the people of this vicinity were more appreciative than any that he had come in contact with this year. The fact is that we know when we get something good.

Germany's submarine policy was somewhat irritating to the American people and England's attitude regarding our mail is exasperating and now comes the black list. Your Uncle Sam sure has his hands full in keeping the warring nations in line with international law.

Genoa township was among the first to take up the matter of a township high school and one of the first to agitate the consolidation question. Oth-

er towns thruout the state are beating us to it in actual results. Will Genoa be among the last in this great movement?

William Orpet had sense enough to escape the limelight immediately after his trial, thereby displaying better judgment than the news fakers of the daily press who endeavored to follow his movements.

Boost and make friends—knock and hate yourself.

Music in Shakespeare's Time.
Shakespeare's time was an age of music. "Catches" were sung by gentlemen as well as by weavers and tinkers. Lute, cithern or virginals were in every barber's shop for the diversion of customers. * * * Thomas Morley may be using the blessed argument of a music teacher when he tells us that a gentleman was counted but a boor if he could not play the lute or sing a part in a madrigal, but there is no getting over the crazy fact that over eighty collections of madrigals, ayres and songs were printed and published between 1587 and 1630, in addition to which vast collections of early music still remain in manuscript. With an aristocracy fond of music and accustomed to play and listen to music and song, music in the theater was almost as inevitable in England as in Italy, says the London Musical Record. It was considered a manly accomplishment to play the lute and sing. Every gentleman who kept hounds could wind it. A punctilious etiquette fixed the correct set of notes for each operation of the class. Usually a play had at least one song.

Fish Exhibit Emotions.
We are accustomed to think that only we humans become pallid with fear or agitated with joy, but some experiments with perch in the artificial pond show that when their repose is suddenly disturbed by tapping on the glass the fish visibly tremble, and the bars which are characteristic of this species actually disappear for the time being, only to reappear when the disturbance is removed and the equilibrium of the fish is restored.

Sometimes a pike that is rapidly advancing on his prey becomes suspicious about the latter's character. The pursuer will suddenly stop in an attitude of doubt, his back will arch, and he will remain suspended as though studying the cause of his suspicious. Only when he is thoroughly reassured does he become rigid, to advance to the final attack; if his suspicion is not allayed he drops to the bottom of the pond or swims off in disappointment.—Popular Science Monthly.

Important to Education.
The most important part of education is the training of the senses which, besides supplying the faculty of accurate observation, creates the habit of careful reflection and measured reasoning. The boys on the farms, no less than those who are being trained in the trades, acquire extensive development of the senses. The advent of mechanical power and machinery, however, has impaired this development.—President Charles W. Eliot.

Coal Deposits in Nigeria.
Nigeria has been added to the lands in which valuable deposits of coal have been discovered in recent years.

The People's Voice

A column devoted to the opinions of the Republican-Journal readers on matters of local or general interest.

Editor Republican-Journal:

Has the city of Genoa any such thing as a health department? If so, why does that department not get busy and clean up the alleys? Where is Genoa's boasted civic pride? Surely we have gone to sleep on the job. There was a time in the history of Genoa when a vacant lot or back yard filled with weeds and rubbish would be a novelty, but not so now. I have seen alleys in worse condition than they are now, but in those days we did not know so much about the germ business as we do now. Knowing the evils of accumulated filth, the city council should make a cleaning. I am satisfied that most of the trouble is through carelessness or thoughtlessness and no doubt a gentle reminder would be of some benefit. If one will not clean up by being reminded, then more vigorous measures should be taken. The saving of one life or the prevention of an epidemic of any nature is far better than hurting some person's feelings or causing some one to get sore. There should be a united effort on the part of the citizens to keep the alleys and back yards clean.

The isthmus of Panama was a pest hole before the United States started building the Panama canal and now it is a health resort. If this great change could be made in that country, we of Illinois should feel ashamed to think that we are still encouraging the propagation of flies and mosquitos. That which is everyone's business is no one's business. It is the business of the city council to demand sanitary conditions, there being no health officer.

A. B. C.

Mr. Editor:

I see that Genoa is going to have a chautauqua again next year. I should think that this year would be enough for them who had to pay the guarantee money out of their pockets, anyway two dollars is too much to pay for tickets nearly a thousand dollars went out of town and no one has got any benefit that I know of, unless hereing a lot of screaming and funny stories is considered value for the money. Hearing them men and women talk about morals and how the town should be run makes me sick and I don't intend to give any two dollars again to have someone tell me how to take care of my children, the band was Firstclass but I have herd just as good and didnt have to pay nothing. This year was the first time that I ever bought a chautauqua ticket and it will be the last believe me. I seen in you paper that you think the programs was good but I guess you have lots to learn about what a good entertainment is.

Yrs. truly,

"Reader"

(Yes, we've herd that we have lots to learn and will get busy immediately. Editor.)

To the Editor of The Republican-Journal, Genoa, Ill.

To the doubting Thomases who question the genuineness of J. R. Stott's claim to the authorship of "A Tribute to Texas," we would say that his aptness for rhyming was so well known by his fellow students at Kirksville, that he was chosen as Class Poet from a class of 210 students, while he was still in his minority.

On the completion of his Osteopathic verses, which he considered little better than doggerel rhymes, he thought best to submit them for criticism to Dr. Andrew Taylor Still, the founder of the science, before reading them to hundreds at the time of graduation.

Dr. Still made no adverse criticism, but commended him heartily on his lines. He talked much of his hopes for what Osteopathy would yet accomplish. In conclusion he said, "Now young man, I want to know if you are as good an Osteopath as you are a rhymester. I have a rib out of place, find and set it." That was a poser! A command to a stripling like him to treat the father of Osteopathy. Nothing daunted, young Stott pulled off his coat and did as commanded, with gratifying results, receiving therefor the plaudits of his distinguished patient. Verily, it is just as well to "Give the Devil his Due," even tho his subject be only the appointments of hell.

Sincerely yours,
Friend

Linoleum for Nurseries.

The prejudice which exists against the use of linoleum for nurseries is ill founded. Not only is it easy to wash, but, with the habit all babies possess of picking things from the floor and putting them into the mouth, the microbe-killing effect of this compound of linseed oil and cork is a useful safeguard. A bare wooden floor, especially of soft pine, is particularly harmful, as it provides a good breeding place for germs.

Sword of the Bronze Age.
Some years ago a sword in its sheath, belonging to the bronze age—the only known specimen of its kind in the country—was found in the bed of the Thames off Brentford. It disappeared for some years, but has just been rediscovered among the antiquities bequeathed to the Brentford public library by the late Thomas Layton, F. S. A.—London Observer.

Light Reading.
"Do you read much?" she asked of him.
"A great deal," he replied. "But it's mostly light reading."
And when some one told her that he read gas meters for a living she gnashed her teeth in wild but helpless indignation.—London Telegraph.

Poor Fare.
"What came before the literary club this afternoon, my love?" asked Mr. Dibble at dinner.
"Oh, 'The Merchant of Venice,' and some of the worst sandwiches I ever ate," answered Mrs. Dibble.—Birmingham Age-Herald.

They Were More Accurate.
"Did Hammfart make a hit when he appeared on the stage?"
"No, but some of those in the audience displayed excellent marksmanship."—Richmond Times-Dispatch.

Ignorance.
Mrs. Stubbs—Do you like codfish balls, Mr. Fox?
The New Lodger—I don't know, Mrs. Stubbs. I never attended any.—London Tid-Bits.

Contentment, as it is a short road and pleasant, has great delight and little trouble.—Epictetus.

AFTER BAD EGGS
Government and State Departments Giving Public Tests

Egg specialists from the Illinois Food Department and the United States Department of Agriculture are scheduled to arrive at Rochelle August 9 for the purpose of conducting a practical egg demonstration. This will be open to all persons in the community who wish to take advantage of the opportunity to learn scientific methods in handling and testing eggs. The visit here is one of the series that has been arranged to cover the state. The first demonstration was given at Grayville, Ill., July 10, and the work is to continue from then on for thirty days; one day being allotted to each section visited.

The purpose of these demonstrations is to aid farmers, buyers, and shippers, and to instruct them as to the best methods in candling and packing eggs, and preventing loss from spoilage. Estimates show a loss of \$5,000,000 a year in Illinois due to improper handling of eggs.

It is also expected that the itinerary will be productive of practical results in showing farmers how to get a better egg production, and in helping dealers in Illinois to comply with the state laws against shipping bad eggs within the state, as well as the government regulations against interstate shipments.

\$1 Puts this Dutch Kitchenet in Your Kitchen

Then Pay the Rest at \$1 per week

For just \$1 we will place a Napanee Dutch Kitchenet in your kitchen and allow you to pay for it in such tiny sums that you will never miss the money—just a dollar a week until all is paid. But the comfort, pleasures and conveniences you will derive from the Dutch Kitchenet will be worth many times its cost. It brings all your kitchen needs to your finger tips. The Dutch Kitchenet is a pantry, work table and cupboard all in one and each compartment arranged to suit your own requirements. Set it close to range and sink and see what countless steps you save in doing your kitchen work.

THE FINEST KITCHEN CABINET MADE BUILT LIKE FINE FURNITURE

The Napanee Dutch Kitchenet has the most up-to-date improvements ever brought out in kitchen cabinets, such as a dust proof roll curtain, which enables you to open the cabinet without disturbing a table full of utensils. The adjustable flour bin, glass sugar bin, ventilated cupboard, metal cake box, extra heavy chopping block, sliding utensil shelves and non-warping table top—these are some of the interesting features which, for convenience, place the Napanee far ahead of common cabinets. It is extra durable and substantial. The Dutch Kitchenet will last a lifetime. It is really built like fine furniture.

Come in and examine them

Visit this store now—examine the Napanee Dutch Kitchenet—the modern Kitchen Cabinet with the latest ideas and ask us to send you one home—for \$1 down.

Rugs and Carpets, Hammocks and Porch Swings

WHAT is it that makes a soap desirable for the bath and toilet? Is it perfume? Or is it mildness, purity, quality?

The makers of Ivory Soap believe it is the last three. Ivory Soap is so mild, so pure and of such high quality that no perfume could improve its delightful natural odor.

It gives a rich, copious, bubbling lather, yet rinses easily. It cleanses perfectly and leaves the skin feeling as good as it looks.

IVORY SOAP IT FLOATS

Have Your Own Garage

The many advantages of having a garage of your own more than offset the small cost of building it. Come in at your earliest convenience and let us show you plans that will meet your needs—estimates that won't strain your purse.

Service That Saves

Our experience with materials—our knowledge of the short cuts in building—our error-proof plans—our low prices—these will surely reduce your cost to the lowest possible figures—whether you build a garage, house, barn or other building.

Let us explain this service fully

Tibbits, Cameron Lumber Co.

They SATISFY!

How America's largest cigarette manufacturer has accomplished "the Impossible" by producing a MILD cigarette that SATISFIES. It is the CHESTERFIELD Cigarette :

ALMOST anybody can make a cup of coffee. But there are said to be not over a half-dozen restaurants in the United States where they know how to make it right.

Similarly, almost anyone can make a cigarette. Just roll up some tobacco in a piece of pure paper—and there you are.

There are, perhaps, over 800 brands of cigarettes sold in this country today. But not one of them does what Chesterfields do—for Chesterfields are MILD; and yet they SATISFY.

Some cigarettes may be mild, but they don't satisfy. Only one cigarette does BOTH—Chesterfield!

This truly unique cigarette has all of that refreshing taste-delicacy (or mildness) which any good cigarette must have. Yet, without sacrificing any of this delightful mildness, Chesterfields go one step further—they do more than merely "please your taste"—they let you know you've been smoking. They satisfy!

And yet they're mild!

A Step Forward in Cigarette-Making

WE are proud to be the firm that has brought about this important new development in cigarette enjoyment—for that is exactly what the Chesterfield blend is.

This cigarette is an outgrowth of long, earnest effort on the part of this, the largest cigarette manufacturing concern in the United States.

The mild, yet satisfying Chesterfield blend is not the result of happy chance. It is one of the results of our many years of cigarette experience—of the heavy volume of our purchases of cigarette tobacco—of the prestige and advantage these enormous purchases give us in securing the choicest leaf from the tobacco fields of the world.

Chesterfields are an achievement.

A New Thing for a Cigarette to Do

CHESTERFIELDS do the one thing you have always wished a cigarette would do—they satisfy!

Smoke them and we believe you will find that ordinary cigarettes seem by comparison almost flat.

Give Chesterfields (20 for 10 cents) a trial. We believe you will be glad to learn what they can teach you about cigarette enjoyment.

You have been reading here some rather unusual, almost daring, statements about a cigarette. If Chesterfields were an untried cigarette—if we had not been observing their behavior in other cities—if we did not KNOW that they make good with smokers, we could not afford to make these statements to you over our signature.

But these statements, strong as they are, can mean little or nothing to you until you have actually smoked your first Chesterfield.

You will find that your own dealer has Chesterfields waiting for you.

Liggett & Myers Tobacco Co.

Largest cigarette manufacturer in the United States as shown by internal revenue records.

ROY SHIPMAN, Prop.

BAND BOYS GUEST

Third Regiment Band Entertained at San Antonio Club

The following letter was written by one of the members of Co. A, third regiment, I. N. G., who corresponds for the DeKalb Chronicle:

San Antonio, Tex., July 21, 1916. Editor The Chronicle:

Rain and more rain is the order for the day. It has been raining all morning and there is no sign of relief yet. There is scarcely any grass on the camp grounds and consequently the rain has produced mud every where. On account of the sticky nature of the mud down here, marching after a heavy rain is almost impossible. That is why the boys were not compelled to take their regular morning hike. Hikes are taken every other morning to prepare for the twenty-six mile hike which we expect to take in a week or so. The hike will be made in two days to Ranch —, where the regiment will camp for a few days before returning to the permanent camp.

Band boys are especially grateful for the rest which the rain has afforded them this morning for this is "the morning after the night before." None of the band was able to get to bed until one o'clock this morning, because the officers and band of the Third Regiment were guests of Dr. — at the Travers Club in San Antonio last night. Motor trucks conveyed the band to and from the club building which is one of the best we ever saw. Refreshments were served in the roof garden and dancing and music made up the evening's entertainment.

The band played the program as announced in the Chronicle.

There is very little sickness in camp though quite a number of arms are sore on account of recent vaccination. As camp life has become settled, the system and regularity which has followed has enabled us to enjoy far better meals than we thought possible in the army. We have become so accustomed to the heat which at first we thought intolerable, that 105 degrees Fahrenheit seems to us to be no more than ordinary warmth, provided we are in the shade.

Drank Fly Poison

The 18-month-old child of Mr. and Mrs. Alphonse Farlander, who live a mile west of Somonauk, died last week as a result of sucking fluid from a daisy fly killer. The child got the fly killer from a stove and, as the fluid is sweet, evidently thought it was candy. The fluid contained about 35 per cent arsenic and by the time a physician could be reached the poison had become thoroughly entrenched in the little one's system, and it continued to grow weaker until relieved of its suffering by death.

Overindulgence in Hope.

Used with due abstinence, hope acts as a healthful tonic; intemperately indulged, as an enervating opiate.—The visions of future triumph, which at first animate exertion, if dwelt upon too intently, will usurp the place of the stern reality; and noble objects will be contemplated, not for their own inherent worth, but on account of the day dreams they engender.—Thus hope, aided by imagination, makes one man a hero, another a somnambulist and a third a lunatic, and all enthusiasts.—Stephen.

Auto Wrecked, One Killed

One was killed and three injured when an automobile overturned near Ontarioville, Ill., Sunday night. Miss U. Byrne, 15, of Chicago, was killed and her mother, Mrs. A. E. Byrne, and two sisters were injured. The two sisters were taken to St. Joseph's hospital at Elgin. All the injured are expected to recover.

Mammoth Bones Found

The bones of a mammoth, one of the prehistoric animals of the north which came down with the glaciers somewhere between 10,000 and 50,000 years ago, according to geologists, have been dug up on the Chas. Renton farm seven miles east of Plano. It is estimated from the size of the bones that the animal was about 35 feet in height when alive.

For Circuit Clerk

I am a candidate for the Republican nomination for Circuit Clerk and Recorder of DeKalb County, and will appreciate the support of the voters at the Primary September 13. Geo. A. James.

Hinebaugh for Lowden

Judge Hinebaugh of Ottawa, only progressive in the house from Illinois has issued a statement asking the progressives of the state to support Col. Lowden for governor.

Triplet Calves

A cow belonging to Robert Greenlee of Winnebago gave birth to triplets on Monday. All three calves are said to be perfectly normal and of large size.

Forest Preserve

Cook county commissioners are planning to locate a forest preserve near Elgin.

TO FIGHT TUBERCULOSIS

Sum of \$100,000 Will be Spent in Eastern State for Investigating

Intense rivalry is being exhibited between towns in Massachusetts and New York in their endeavor to secure a fund of \$100,000 which is to be expended during the next three years in an effort to control the spread of tuberculosis by the National Association for the Study and Prevention of Tuberculosis, as announced in a bulletin issued by that organization today.

More than fifty different towns and villages, ranging in population from four to ten thousand inhabitants each have been suggested as possible places for the experiment, and the State Charities Aid Association of New York, the Massachusetts Department of Health, and the local organizations in many of the towns are urging their claims with vigor.

It is proposed by the committee as soon as the place is selected to discover with the aid of the local physicians, through careful medical examinations every case of tuberculosis; every individual who has been exposed directly to the disease; and particularly all children up to sixteen who have contact with a living case of tuberculosis during their lifetime. It is proposed that every known case of tuberculosis, and every exposed case of whatever nature should be under some sort of supervision during the three year period, either in the home, or in an open air school, in a tuberculosis clinic, or in a hospital or sanatorium. In this way and by keeping in close contact with all new families and new babies born into the community the committee hopes to be able to prevent the spread of tuberculosis, to stop the development of any new cases in the community, and to determine the absolute and relative worth of the various methods usually employed in fighting tuberculosis.

Success.

"One night at Lady Jeanne's house Joseph Chamberlain said to me that he believed any man of even moderate endowment could attain any given aim which he set before him with unremitting effort and 'enduring to the end.' To my question, 'Why, then, do so many men fall short of their ambitions?' he answered: 'They come to the place where they turn back. They may have killed the dragon at the first bridge and at the second, perhaps even at the third. But the dragons are always more formidable the farther we go. Many turn back disheartened, and very few will meet the monsters to the end. Almost none is willing to have a try with the demon at the last bridge, but if he does he has won for ever.'—Princess Lazarovich in Century.

"I Love You."

Very interesting are the phrases used by the various people of the world to express "I love you." Wherever there are human beings declarations of love are made, and there are a thousand languages in which the tender passion may be expressed. The Chinese say "Uo ugal ni." The Armenian expresses his love with "Se siren as hoz," the Arab is content with the short "No habbek," while the Turk murmurs "Sidi sevelorum." In India "Main syne ka pisar karim" is the declaration. But the Greenlandic holds the palm for the word love. When he does not stammer it has fifteen syllables and has been recorded phonetically thus: "Uniffmeerndalnalnerfronjunguarriq:ajak!"

An Ancient Guild.

The Cutlers' company had probably existed long before the grant of the first charter by Henry V. Early in the previous century a fierce quarrel is recorded between the Cutlers and the Sheathers, who were accused of having disgraced the Cutlers by supplying them with unworkmanlike sheaths for knives, daggers and swords, to which the Sheathers cruelly retorted that the Cutlers disgraced the sheaths by selling inferior foreign blades for English.—London Spectator.

Cyprus.

Cyprus was an extremely popular resort for Britishers for a year or so after the announcement, in 1878, that it had become a British protectorate, but as the coast could not provide harbors to compete with those of Malta the vogue of the island receded as quickly as it had sprung up.—London Globe.

Worms Used in Medicine.

The earthworm, or the common fishworm, was utilized by the medical practitioners in Europe two and three hundred years ago. The worms were for internal administration and sometimes made into an ointment or embrocation for external use.—Pittsburgh Dispatch.

Marengo.

In the battle of Marengo 58,000 men participated, and of that number 13,000 were killed or wounded, about 22 per cent. Napoleon thought Marengo his greatest victory. He always kept throughout life the uniform he wore on that day.

Information Wanted.

Most of the stock phrases of everyday life are intelligible to us, and we know a lot, but we wish somebody would tell us what a riddle is.—Columbia State.

Life without pursuit is a vague and languid thing.—Bacon.

INFANTILE PALALYSIS

Ten Year Old Girl in Hinckley First Victim in County

Hinckley Review:—Little Mildred Borchers, ten year old daughter of Mr. and Mrs. William Borchers, on the Hartman farm, five miles north of Hinckley, died Thursday morning of infantile paralysis, the first case of the dread disease known in DeKalb county.

She was taken ill Wednesday afternoon with severe headache; in the evening her condition grew worse, and her falling was rapid.

The state board of health has recently issued revised circulars in regard to the disease of infantile paralysis. Nearly every case is fatal. Quarantine regulations and provisions for disinfection are far more strict than many other contagious diseases, and too much care cannot be exercised by parents, especially during the hot weather.

Soldiers Get Tobacco

DeKalb Chronicle:—E. C. Chandler, the Sycamore cigar manufacturer today sent over a big supply of things for the boys on the border. Ed Dunn's committee packed the stuff up and expressed it off this morning. In the box, besides some other things, were seven pounds of Bull Durham tobacco, 3,000 cigarettes, 200 cigars (five dozen packages of fine cut tobacco, and five pounds of chewing tobacco. We can imagine the joy this stuff will give the boys when it is distributed about in the company's camp.

McHenry County Picnic

A picnic to be participated in by triple organizations of McHenry county will be held in Harvard on Wednesday, Aug. 30, when the county soil association, the county milk producers and the board of supervisors will hold a basket picnic in H. D. Crumb's grove. Officials of the soil association took the initiative some time ago by expressing a wish to co-operate with the milk producers in a county get-together either at Crystal Lake or Harvard.

FARM HAND SHOT

A foreigner employed on the George Daum farm near Hampshire was accidentally shot Sunday while picnicing with a party of friends. A can in the hands of a small boy was accidentally discharged, the bullet passing through the man's scalp. He was hurried to the office of Dr. Reed at Hampshire and later taken to a Chicago hospital. His injuries are not believed to be serious.

For State's Attorney

I am a candidate for re-election as State's Attorney of DeKalb County and am seeking re-nomination from the Republican party at the primary to be held September 13, 1916. Upon the record made during my term I respectfully ask your support and assistance. 42-1f. Lowell B. Smith.

Facts About Germs.
Experiments show that germs will actually live longer on stone and marble floors than they will on linoleum, except at low temperatures, when the greater cold of the stone floors kills certain microbes which cannot exist in warm temperatures. Moreover, linoleum, though not as cold as stone, is colder than most other floor coverings, and thus has a double effect upon the germs.

Farmers' State Bank

Diamonds at Martin's.

"The Pawn of Fate" at the Opera House Saturday night, featuring Geo. Behan.

There will be English services at the German Lutheran church Sunday evening at 7:30.

Miss Cora Watson had her tonsils removed at the Ovitiz hospital this (Thursday) morning.

Henry Parke marketed two carloads of fine cattle in Chicago on Wednesday.

Tell your electrical troubles to H. J. Glass. He knows for he has had years of experience in that line of work. Electric wiring, fixtures and repairs.

Mass will be celebrated at St. Catherine's church next Sunday morning at ten o'clock.

James Coffey, Jr., who has been ill for the past week, is again able to be about the house.

The Epworth League of the M. E. church will meet at the usual hour next Sunday.

Mildred, little daughter of Mr. and Mrs. L. W. Duval, had her tonsils and adenoids removed at the Ovitiz hospital Monday.

The two year old daughter of Mr. and Mrs. Blaine Bleske of Shattucks Grove died at the home of her parents Friday, July 21. The funeral services were held Sunday, July 23. Burial at Shattucks Grove.

If that watch or clock makes you peevish, take it to Martin for repairs. Satisfaction guaranteed and the minimum prices prevail.

It is reported the Illinois Central are figuring on a new double track bridge over the C. M. & St. Paul tracks at this place.

Rev. R. E. Pierce was invited to make an address and help organize a Farmers' Club at Lone, near Prophets-town, Ill., last Friday evening.

"On the Firing Line With the Germans" in nine reels at the Opera House Thursday night, July 27. Admission 10 and 15 cents.

Edward Rudolph underwent an operation for appendicitis at the Ovitiz hospital last Saturday and is reported as doing nicely.

Mr. and Mrs. Fred Schmidt of Elgin announced the birth of a daughter, born July 19. Mr. Schmidt is the son of Mr. and Mrs. W. Schmidt, Sr., of this city.

Irvin Schandelmeyer, who won the pony in the Genoa Cash Grocery contest, desires to express his sincere thanks for the help and good will of friends.

The Ladies' Aid Society of St. Catherine's church will hold a sale of home cooked food and fancy work on Saturday, August 5. The place of the sale has not yet been decided.

As a birthday gift for the baby, the little girl, the young man or the lady there is nothing that will be more appreciated than a souvenir spoon. See the new designs at Martin's.

Don't miss the great picture "On the Firing Lines With the Germans" in nine reels at the Opera House tonight (Thursday). W. W. Durborough, press photographer, is seen at work in many scenes in the film.

Instead of the regular monthly meeting, the Ney Farmers' Rural Progressive Club enjoyed a picnic supper on the M. E. parsonage lawn on Wednesday evening, July 19, in order to attend the chautauqua in a body.

The installment of "Home" is omitted from the columns of the Republican-Journal this week owing to the great amount of advertising. The next installment will appear with the August 4 number.

WEEK'S SOCIAL EVENTS

MRS. HELEN SEYMOUR, Editor

Lawn Party

Fred Marquart and daughter, Gretchen, of Valparaiso, Ind., were guests of honor at a lawn party given by Mrs. W. W. Cooper at her home Tuesday evening. A bounteous picnic supper was spread on a long table on the beautiful lawn and with a hammock here and there the guests indeed enjoyed an evening of comfort as well as pleasure. Miss Gretchen, accompanied by her mother, at the piano, gave several vocal selections which were thoroughly enjoyed by her listeners and a victrola also furnished music throughout the evening. The guests at this party were members of the H. A. G. T. Club and their husbands, and Dr. and Mrs. J. W. Ovitiz, Mr. and Mrs. J. Hutchison, Jr., Mr. and Mrs. Roy Beardsley, Mr. and Mrs. C. A. Stewart, Mr. and Mrs. E. W. Brown, Miss Ruby (Harvey) Davis, of Salt Lake City, and Mrs. James Kirby of Shabbona. They departed at a late hour and voted their hostess a royal entertainer.

Family Reunion

Last Sunday the Geithman family had a reunion at the home of Mrs. Louisa Geithman. The affair was in the nature of a lawn party. Those who enjoyed this happy day were: Mrs. Louisa Geithman, Mrs. Carrie

Family Reunion

Last Sunday the Geithman family had a reunion at the home of Mrs. Louisa Geithman. The affair was in the nature of a lawn party. Those who enjoyed this happy day were: Mrs. Louisa Geithman, Mrs. Carrie

E. Keating of Huntley and C. Corson were in Beloit and Clinton Junction, Wis., Wednesday where they bought 12 head of mules. They will ship a carload of mules from Belvidere to Indianapolis, Ind., today.

The Woman's Home Missionary Society will meet at the M. E. parsonage on next Tuesday afternoon, August 1. Let all members try to be present as we have important business to transact.

The W. C. T. U. will meet next Thursday afternoon, August 3, at the home of Mrs. R. E. Pierce. At this session Mrs. George Tower will give a report of the National Prohibition convention at St. Paul, which she attended.

J. J. Hammond has an extra fine crop of corn in the plot of ground in the rear of his home. This crop was planted on May 10, and some of it is now 11 feet high. Mr. Hammond has taken unusually good care of his prize crop, he obtained the seed from an ear of corn he had at his office.

H. H. Slater suffered a stroke of paralysis Monday morning of this week and is in a precarious condition. He lay unconscious from Monday morning until about noon of the next day. One side of the body is affected. Mr. Slater is well along in years and it will be an uphill pull for him to recover.

At the regular services at the M. E. church next Sunday morning the new flag, recently purchased by the Sunday school, will be unfurled. Special music is being prepared for this service. W. O. Bellamy of Ottawa, former pastor of the Genoa church, will address the audience. There should be a good attendance.

Irvin Schandelmeyer won the contest which closed at the Genoa Cash Grocery Saturday evening and took home the fine little pony and cart. The count resulted as follows, there being only four active contestants at the close: Irvin Schandelmeyer, 647, 510; Mildred Duval, 521,380; John Westover, 311,436; Beattie Taylor, 182, 500.

Four members of the Genoa M. E. church were recently elected to office in Dixon district. E. H. Olmsted was elected a trustee of Franklin Grove camp ground, Mrs. Phoebe Crawford as corresponding secretary of the home missionary society of the district, Mrs. R. E. Pierce as vice-president of the Preachers' Wives Association, and Mary Pierce as second vice-president of the Epworth League of Dixon district.

The editor was in Chicago Monday and had the pleasure of meeting Mr. and Mrs. Andrus who conducted The Republican-Journal contest last spring. Mr. and Mrs. Andrus made a host of friends while in Genoa all of whom will be pleased to learn that they are just the same jolly couple. Anyone who secures them to conduct a contest may rest assured of satisfaction to the newspaper man and the contestants.

The Coconoko Camp Fire joined with the Kishwaukee (Belvidere) and neighboring camps at Camp Epworth for the week of July 18-25. All the members of the Coconoko Camp were present, as follows: Marjorie Hemenway, Myrtle Pratt, Roberto Rosenfeld, Edith Soderberg, Edyth Westover, Dorothy Glass, Lorene Glass, Jone Stott, Pearl Russell, Laura Crawford and their guardian, Mary Pierce. The girls report a profitable and happy time.

Lawn Party

Oursler and family, Mr. and Mrs. M. L. Geithman and family, Mr. and Mrs. George Geithman and family, Mr. and Mrs. W. A. Geithman and family, Mr. and Mrs. John Geithman and family, Mr. and Mrs. Ed Geithman, Chas. Geithman and Mrs. N. A. Carpenter of Genoa; Jess Geithman and Mr. and Mrs. A. Opp and daughter, Pauline, of Belvidere. Harvey Geithman of Brownstown, Wis., Ernest, Geo. Jr. and Lorin Geithman and families were unable to be present. Although the weather was extremely warm everyone spent a most delightful day. Lunch was served on the lawn.

Picnic Supper

Mrs. E. W. Brown entertained Mr. and Mrs. C. J. Bevan and two children and Mr. and Mrs. D. S. Brown at a picnic supper which was spread on tables on the lawn. During the course of the evening Mr. and Mrs. Wesley Farmiloe and family of Elgin called. They came by auto.

Picnic in Patterson's Grove

Mr. and Mrs. Howard Renn, daughter, Erma, and son, Earl, of Herbert, Mr. and Mrs. David Burzell and son, Clifford, of Elgin, Mr. and Mrs. Chas. Corson, Mr. and Mrs. Rutherford Patterson and son, Charles, picniced in Patterson's woods last Sunday.

ADDITIONAL PERSONALS

Miss Zada Corson and J. Kalubza of Chicago spent Sunday with the former's parents, Mr. and Mrs. M. J. Corson, north of Genoa.

Mrs. C. Meyer, who has been visiting her sister, Mrs. G. E. Stott, for the past two weeks, returned to her home in Chicago the first of the week.

Mr. and Mrs. Pflugston and family of Hampshire and Mr. and Mrs. F. O. Holtgren motored to Geneva and Aurora in the former's auto Sunday.

Mr. and Mrs. Henry Warner of Wellcome, Minn., spent the latter part of the week with Mr. and Mrs. C. H. Awe. They made the trip by auto.

Mrs. C. A. Briggs and daughter, Margaret, and son, Charles, of Ottawa, are here for a two weeks' visit at the home of the former's sister, Mrs. R. B. Field.

V. S. McNutt returned Sunday from a two weeks' visit with relatives in Terre Haute and Indianapolis, Ind. Mrs. McNutt and son, Victor, Jr., will remain for two weeks more.

Miss Maude Sager and Lenora Worcester left Friday evening for Rock Island and from there will enjoy a week's trip on the Mississippi river, going as far north as St. Paul.

J. J. Hammond was among a party of forty-one who had the pleasure of taking dinner with Col. Frank Lowden the Republican candidate for Governor, at Yorkville, on Sunday last.

G. E. Stott left Sunday for a ten days' fishing trip in northern Minnesota. Mr. Stott joined a party of friends at Bemidji and from there they will take in the lakes in the surrounding country.

Mr. and Mrs. Maynard Corson left on an auto trip to Kenosha, Wis., on Wednesday. They will return by way of Chicago where they will visit the former's sister, Miss Zada, and Mr. and Mrs. Ray Helsdon.

Mrs. Anna Balcom and her granddaughter, Gladys Darcey, of Cortland, came here last Friday for a visit at the home of the former's sister, Mrs. W. Watson. Miss Gladys returned to her home Monday but Mrs. Balcom will remain for the rest of the week.

Mr. and Mrs. A. Zimmerman of Detroit, Mich., Mr. and Mrs. F. Hathaway of Muskegon, Mich., and Miss Mildred Kennelly of Chicago motored here from Detroit Saturday and were week end guests of Mr. and Mrs. Henry Leonard. Mrs. Zimmerman is Mrs. Leonard's sister.

Miss Jessie Parker and Birdie Drake left Wednesday morning for a three weeks' trip through the west. They will stop off at St. Paul and Minneapolis, Minn., and Fargo, S. D., on their way to Yellowstone Park, and returning will visit in Denver and Colorado Springs.

Mrs. Mary Burzell of Boyesville, Wis., who has been here for some time and has been visiting friends in Elgin for the past two weeks, returned here Saturday. Sunday she went to Marengo where she attended the funeral of Ralph Hatch, who is the son of her cousin, Geo. Hatch.

Mr. and Mrs. P. Reed and daughter, Edith, Mr. and Mrs. Alfred Buck, Mr. and Mrs. Geo. Buck, Mr. and Mrs. H. Shurtleff, Mr. and Mrs. F. O. Holtgren and Mrs. Cora Hutton, the latter of San Francisco, formed a party and motored to Staved Rock and other points of interest in the surrounding country. Mr. and Mrs. Shurtleff and Mr. and Mrs. Holtgren will leave the party Thursday and go on to El Paso where they will visit friends for a week. The remainder of the party returned to Genoa Thursday.

CLEANING, PRESSING, REPAIRING Men's and Ladies' Suits and Coats Over Holtgren's Store JOHN ALBERTSON

With The Advertisers

The Republican-Journal this week is carrying more advertising than ever before appeared in a regular edition of a Genoa paper, the aggregate being about 600 inches or thirty columns. National as well as local advertisers realize that Republican-Journal circulation in a community of people intelligent above the average is bound to get results.

E. W. Brown, Notary Public.

Friendship.
By friendship I mean the greatest love, and the greatest usefulness, and the most open communication, and the noblest sufferings, and the most exemplary faithfulness, and the severest truth, and the heartiest counsel, and the greatest union of minds of which brave men and women are capable.—Jeremy Taylor.

Lowell's Dread of Old Age.
I have said that Lowell was the youngest man I ever knew. It is also true that I never knew any other man who had a greater dread of growing old than he. He would sometimes say to me (I was twenty-five years the younger), "Oh, you'll begin to feel it pretty soon."

The last time I saw him he gave me a curious and somewhat pathetic indication of his interest in this subject. I happened to be in Boston for a day and went out to see him in the teeth of a terrible March blizzard. I thought he seemed rather lonely. He told me that Hoppin had called upon him not long before. He said that he looked well and seemed to be in good health, but he noticed that when he went out he was a little awkward in getting down the front steps. When I left Lowell came to the door with me and stood there, evidently waiting to see how I negotiated the front steps. At the age at which I then was there was no reason why there should be anything the matter with my action. But the incident was characteristic of Lowell and of his intense interest in the subject of youth and age.—E. S. Nadal in Harper's Magazine.

Clever Amateurs.
Dozens of old graduates were back, and they talked a lot about themselves and a lot more about others not so fortunate as to attend.
"Most of our old crowd are married and happy," said one.
"Married, anyhow," said another, with the grin that always accompanies this silly joke.
"I accept the amendment," returned the first speaker, "but chiefly on account of poor Billy Tompkins. He had an unfortunate marital experience."

We hadn't heard of it and begged for particulars.
"Why, the girl he married turned out to be a professional pickpocket."
The men who had first spoken sighed, but his eye twinkled.
"Well," he observed, "I guess the rest of us drew some pretty clever amateurs—what?"—St. Louis Post-Dispatch.

The Kilted Evzone.
The Greek soldier may present to some a highly humorous picture in his ballet skirts and tunic. Despite his peculiarities of dress—which, by the way, are scarcely more peculiar than those of some other nations—he is an excellent fighting man.

Puzzle of the Eagle and the Whale.
There are two animals that puzzle naturalists more than any others. They are nature's submarine and aeroplane, the whale and the eagle. It is known that whales occasionally descend as much as 3,000 feet below the surface of the sea. Why they are not injured scientists have yet to discover. It is this pressure which prevents a modern submarine descending even 300 feet, let alone 3,000.

Percentage.
"That's some hat you've got there, Bill. It must have set you back all of \$10."
"It did, but I figure I'm saving money on it at that."
"How do you make that out?"
"Well, when I wore a two dollar hat I had to give up 5 per cent of its value every time I checked it in a fashionable restaurant. With this one it costs me only 1 per cent."—St. Louis Post-Dispatch.

Saving Labor.
"This agricultural journal states that apple trees ought to be planted on a slope."
"Who's the idea?"
"Who's the idea?"
"Who's the idea?"
"Who's the idea?"
"Who's the idea?"
"Who's the idea?"
"Who's the idea?"
"Who's the idea?"
"Who's the idea?"
"Who's the idea?"

Voice of the Bells.
R. L. Stevenson said that "there is so often a threatening note, something blatant and metallic, in the voice of bells that we have fully more pain than pleasure in hearing them."
No Chance For Him.
Knicker—Enjoy your car? Bocker—It might as well be a milk wagon. The only time the rest of the family don't use it is between 4 and 7 in the morning.—New York Sun.

Everything that exists depends upon the past, prepares the future and is related to the whole.—Oersted.

PERKINS & ROSENFELD

Fast and Peppery
—This Valve-in-Head Motor

The engine is of the Valve-in-head type, full 30 h.p., responsive, economical, accessible and extra powerful. All valves are enclosed with an effective silencer, producing the most nearly noiseless of all valve-in-head motors.

This motor will deliver 10% to 15% more power than either the L- or T-head type of equal displacement. It can be relied upon to meet the most trying conditions of travel. The simple test of driving will convince you that the car operates smoothly at high and low speeds and has abundant power.

Price of Model 43 \$1,095. Invite us to demonstrate.

Established 1880
Incorporated 1899
Many of the great men in the automobile industry obtained their education in the Oldsmobile School, the thorough and accurate methods of which make always for Quality Cars.

BRISCOE

"The Best-liked Car in the Country"

A Brute for Power—
But a Weakling in Fuel Consumption.

The motor in the Briscoe Four-38 develops an abundant power that is the joy of Briscoe owners and the wonder of engineers. Yet, owing to its advanced design and the extreme care used in its manufacture, it is the most economical motor of its type ever constructed.

Every part has been refined to the utmost degree of accuracy. The cylinders are cast en bloc, with large water spaces surrounding them. Cylinder heads are detachable, which makes it possible to machine the combustion spaces to a degree of smoothness and uniformity not ordinarily possible.

You will find the Briscoe Four-38 responding gallantly to every demand upon it, taking hill and level, good roads and bad, with the same effortless ease. And at the end of the run you'll be pleasantly surprised at the gasoline consumed.

We are ready to give you a demonstration spin at any time that suits your convenience.

There will be an ice cream social at the home of Mr. and Mrs. James Thurbury of Herbert next Friday evening.

ing, July 28, for the benefit of the North Kingston cemetery. Everybody is cordially invited.

Mrs. Minnie Schultz Koeller was born October 15, 1839 in Pommern, Germany, and passed away from this life at her home in Colvin Park, Friday, p. m., July 21, at the age of 76 years, 9 months and 6 days. The cause of her demise was dropsy and a general breakdown.

In 1857 she came to this country with her parents and settled near Lamont, Ill. In 1863 she was united in marriage to Louis A. Koeller who passed away in 1915. To them were born 12 children of whom five are left to mourn the loss of a loving mother. Mrs. Anna Patterson, of Genoa; Mrs. Vera Keene, of Boone county and Reuben, Augusta and Minnie of Colvin Park.

Funeral services were held at the German Evangelical church near her home, Rev. J. G. Fidler of Rockford officiating. Interment in Kingston cemetery.

Phelps-Gustafson
Miss Nona Phelps and Carl Gustafson both of Kingston, were united in marriage at Rockford Wednesday, July 26. Mr. and Mrs. Walter Gustafson of Kingston witnessed the ceremony. They left on a short honeymoon trip to Lake Delavan.

They will make their home with the groom's mother on the farm about one mile north of town.

Their many friends wish them years of happiness.

NEY
Many Ney people enjoyed the excellent band concert at Marengo on Tuesday night.

Mrs. Wm. Graham of Elgin and Mrs. Devine of Sycamore called at the L. D. Kellogg home on Saturday.

Quite a number of Ney people attended the sad funeral of Clarence Anthony at the Riley church last Saturday.

Mr. and Mrs. G. C. Kitchen and daughter, Lila, spent Sunday at the home of Mrs. Chamberlain south of Genoa.

Mrs. Floyd Rowan has been entertaining her sister-in-law, Mrs. Ernest Kepple and daughter of New York the past week.

Mr. and Mrs. Ellis Colton and Mr. and Mrs. Elmer Colton motored to Rockford Sunday and spent the day at the home of Mr. and Mrs. W. Colton. Mr. Luman Colton returned home with them and will spend a month or two with his brother.

Mr. and Mrs. E. B. Corson, Mr. and Mrs. Fred O. Patterson and nephew, Howard Parrish, and Mrs. A. B. Corson motored to Lake Bluff on Saturday, returning Sunday afternoon.

While there they visited at the home of Mrs. Patterson's parents, Mr. and Mrs. Wm. Flint.

Alaska's Verdant Islands.
The island of Attu, at the end of the Aleutian chain, is not far from Asia. From north to south Alaska reaches almost as far as from Canada to Mexico.

This mighty territory is a world in the variety of its lands and waters. It is a country of seas, lakes and rivers and of almost as many islands as the empire of Japan. It has a vast continental mainland, with mountains and valleys, rolling plateaus and great lowland plains. I traveled a thousand miles through rocky islands in going from Seattle to Skagway and later passed through the Aleutian archipelago, which extends from the end of the Alaskan peninsula about as far westward as the distance from the Atlantic ocean to the Mississippi river.

The island of Kodiak is as big as Porto Rico, and Prince of Wales island is as large as Connecticut. All of these islands are green from one year's end to the other, and some have a vegetation as dense as that of Hawaii.—Christian Herald.

ADMINISTRATOR'S NOTICE
Estate of Mary J. Dibble, deceased. The undersigned, having been appointed Administrator of the Estate of Mary J. Dibble, deceased, hereby gives notice that he will appear before the County Court of DeKalb County, at the Court House in Sycamore, at the October Term, on the first Monday in October next, at which time all persons having claims against said Estate are notified and requested to attend for the purpose of having the same adjusted. NEW LEBANON

H. Ford is visiting his son at Mar-selles.

Hazel Finley spent last week at John Becker's.

Mrs. Ben Awe and son called at Fred Peterson's.

Paul Lehmen and family called at Will Japp's Sunday evening.

Paul Peterson of DeKalb was a Sunday visitor at Harvey Peterson's.

Mr. and Mrs. T. B. Gray called on their son, Donnelly, and family Sunday.

Mike Kelley and family of Belvidere were Sunday visitors at Ed Finley's.

Charles Coon and family attended the band concert at Burlington Thursday evening.

Misses Edna and Emma Hiedman of Huntley are this week's visitors at Will Bottcher's.

Arthur Heckman and family entertained relatives from Kingstown and Paw Paw Sunday.

Relatives to about the number of 40 surprised Charles Reiser and family Thursday evening.

Mr. and Mrs. Charles Coon and daughter were Sunday visitors at L. Eweing's at Marengo.

H. E. Downey, auditor of Neola Elevator Co., motored up from Rochelle Tuesday and called on Richard Gall-anor.

Will Bottcher and family attended the wooden wedding anniversary of Will Bahe and wife at Hampshire Sunday.

Mrs. Art Hartman and son, Mrs. Lem Gray and daughter attended the German Sunday school picnic at Harmony Sunday.

RILEY CENTER

N. Brotzman started Sunday night to meet his old comrades at Cleveland, Ohio, where they hold a reunion. He will also visit a brother while away.

The Riley friends were terribly shocked Friday morning when they heard of the death of Clarence Anthony and Ralph Hatch at Woodstock where their auto was run into by the fast train.

Mr. and Mrs. Will Ratfield entertained a house party Sunday. Those present were: F. H. Ratfield and wife, Charles Ratfield and family, of Oak Park, Mr. and Mrs. Mills and daughter of Elgin and Grandma Washburn of Marengo. They also entertained Mrs. L. Washburn of Rockford and Mr. and Mrs. Robert Kening of Chicago the first of the week.

Novel Use For Gunpowder.

"Early in the sixties of the last century," writes Rev. Fuller Mills, a Welsh clergyman, "I was a boy behind the counter of what was known as the company's shop at Abertillery. Among the collier customers who came to the shop was a tall, well developed man known as Dick Stevens or Stephens.

"He was a member of the prize ring or pugilistic fraternity, which was very popular in those days. . . . Dick Stevens was matched to fight Lanto Catcham and was preparing for the fight when he came to the shop for his weekly requirements. . . . He generally asked for an ounce or two of gunpowder. I wondered at this, and my curiosity was aroused.

"I asked what he used it for. His reply was: 'I mix it with my gravel when I have my dinner and swallow it. It prevents the flesh from easily puffing under the hard blows of an opponent. The cuts and bruises are not so hurtful and heal more easily.'

The Gentle Art of Smiling.

A mother had a little girl, her first child, who seemed to have been born with a scowl. Perfectly well, still she had a morose disposition which it seemed as though nothing could alter.

When a second child was born the mother made a rule that no one should look at the baby without a smile. With the imitation of childhood the baby at once began, even in her early weeks, to smile back, and as she grew, and the rule still held in the home, she developed into what every one who knew her called "the smiling baby" and grew up with the sunniest disposition, a joy to every one. Now, what that mother did any mother can do. A child may actually inherit a serious, even a sullen disposition, yet these may be crowded out while they are undeveloped by the habit of cheerfulness.—Woman's Home Companion.

Awry.

"Wat ees eet zat means your English word 'awry'?" asked the French girl, newly landed on these shores.

"Why," replied the walking dictionary, "it means crooked, disheveled. If my hat is awry it's tipped on one side, or if you apply it to my necktie it means messed up. In what connection did you hear it?"

But she was frowning violently and muttering: "Ah-h-h! Zat beast! I was sure he meant to insult, but nevalr did I believe eet was so bad!"

"Why, what on earth happened to you?"

"I ride in ze tram. I say to ze conductaire, 'Please to say to me w'en we stop at ze Forty-second street.' And he smile at me—so—and he say to me, 'A' r'!'"—New York Post.

Nugget of Truth.

It is much easier for a bad man to live down to his reputation than it is for a good man to live up to his—as well as more usual.

Improving Hardwood Floors.—Hardwood floors can be made much more hygienic by an underlying coat of linseed oil. Even this, however, lacks the especial compound, linoxyn, commonly found in Hnoleum and now known to be a great deterrent of disease.

Chile's Nitrate Fields.—The great nitrate fields of Chile lie from fifty to a hundred miles inland, at an elevation of 2,000 feet or more above sea level. They parallel the shore for more than 400 miles, a lifeless waste, devoid of any scrap of vegetation.

WHY?

Do you fume and swelter over a hard wood fire these days when there is relief in sight. It is true that one uses gasoline and kerosene for ordinary cooking, but for baking most every woman prefers a range and it is an actual fact that many of them are compelled to use hard wood and coal. There is no excuse for this torture. For less money you can have a quicker fire and after the baking is done the stove soon cools off, if you use those CEDAR SLABS

We have a car load on hand right now, all good, sound wood—not bark and dry rot as so often found in slabs. Call and see the wood. All cut to stove length.

Zeller & Son Genoa, Ill.

Prince Albert gives smokers such delight, because — its flavor is so different and so delightfully good; — it can't bite your tongue; — it can't parch your throat; — you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!
On the reverse side of every Prince Albert package you will read: "PROCESS PATENTED JULY 30th, 1907"
That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT the national joy smoke

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!
It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

YOU'LL find a cheery howdy-do on top no matter how much of a stranger you are in the neck of the woods you drop into. For, Prince Albert is right there—at the first place you pass that sells tobacco! The tippy red bag sells for a nickel and the tippy red tin for a dime; then there's the handsome pound and half-pound tin humidor and the pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such bang-up trim a 11-the-time!

This is the reverse side of the Prince Albert tippy red tin. Read this "Patented Process" message-to-you and realize what it means in making Prince Albert so much to your liking.

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?
R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.
