SCHOOL NOTES

Edward Christensen, Editor

The Genoa schools are once more in full swing now after the summer vacation. Despite the fact that the school is being carried on under adverse conditions, the enrollment is nearly normal. There are 44 enrolled in the high school and 29 in the grammar school. The enrollment is as follows:

Genoa High School		Last Year	
Girls	Boys	Girls	Boys
Seniors	5	6	11
Juniors	3	1	4
Sophomores	7	8	15
Freshmen	6	8	14

Teachers: Mr. Taylor, Misses Rylander, Holmes, and Weiler.

The Grades

The seventh and eighth grades, Mrs. Esther Snyder, teacher, have an enrollment of 29 while they had 35 last year. The fifth and sixth grades have an enrollment of 51 against 40 last year. Miss Cora Christian is the teacher. 44 pupils are in the third and fourth grades under Miss Dorothy Aldrich, she had 51 last year. Miss Ibbotson has 24 this year in the second grade and she had 30 last year.

A permanent program for the high school has been worked out after four trials and went into effect Tuesday morning. It is hoped that this will suit everybody and as yet no objections have been found. The seventh and eighth grades, which assemble with the high school at M. E. church, are working in forty minute programs the same as the high school with twenty minutes each morning for general exercises. On Mondays and Thursdays, singing will take up this period with Miss Ibbotson as instructor.

Miss Rylander will take charge of the singing in the general exercises on the days other than Mondays and Thursdays.

This year all the students above the sixth grade (all those in the M. E. church) will be divided into two divisions for literary society work. Mr. Taylor is planning to have the programs of both divisions checked up and at the end of each semester, the one side having the lowest score will have to banquet the winning division. A committee of three teachers will do the grading of the programs. This plan will lead the students to take more interest in the work and insure a better grade of programs and insure a better grade of work. Remember these programs will be free and the parents are especially invited to attend. Watch for the date of the first one.

Three students of the high school this year are from Kingston, Stiles Harlow and Floyd Gustafson are in the Sophomore class and Lyle, Vösburg is enrolled in the Freshmen class. There are also three students in the Freshmen class from the country.

The physics class claims the distinction of being the only class in high school that does not have a girl enrolled in it. The class, composed of six boys at present, started with one girl in its roll but she dropped out that same day because another girl had failed to show up. The next day another girl entered it and dropped it also, but, because another boy had failed to show up.

If you should happen to anybody that is taking up Virgil talking about "spizerinctum," don't say that the fourth year of Latin must have made them "a little off," for they are only using the latest word for "pep" or vim.

In order to add to the large collection of victrola records that the school has, the four classes in high school and the eighth grade, the future class of 1923, and the seventh grade, the future class of 1924, will each contribute a record which will be known as a class record. Considerable opportunity will be given in this manner for the classes to show their good judgement in picking out a good record for a school. Already, the Senior class has decided to have a meeting Friday morning for talking over of this matter and other matters of importance to them.

Students in the high school and the grammar room interested in orchestra work met Monday night in Miss Ibbotson's room in the primary school and formed a high school orchestra which will be in charge of Miss Ibbotson. There were only six pupils present but more have already promised to join.

Nearly every girl in the high school was present at Miss Ibbotson's room Wednesday night of this week and organized a glee club. Most of the girls in this organization have already had glee club work for one or more years and "great things are expected" from them.

Sgt. Clarence Crawford is home from Camp Steever for a short visit with his parents, Mr. and Mrs. E. C. Crawford. Clarence will enter the Northwestern Military Academy again this month, commencing his second year in that institution.

Mrs. Duval, who lives with Mrs. Lucotia Kitchen, is spending this month with Chicago relatives. Mrs. Estella Howlett is staying with Mrs. Kitchen during Mrs. Duval's absence.

Do You Have Extra Time for Special Duties

Every woman wants to get away from the kitchen during a certain period of the day. Kitchen work is drudgery unless it is organized so that it can be done in the easiest manner.

Dutch Kitchenets are Labor Savers

The Napanee Dutch Kitchenet is cupboard, pantry and work table in one. Seated in front of the sliding table of the kitchen cabinet you can prepare practically an entire meal. You have within your easy reach every utensil and cooking ingredient used in baking and cooking. There is no extra walking to get a dish here, another there and something else somewhere else from still another place.

The Napanee Dutch Kitchenet concentrates all the work at one place. This alone saves you from two to three hours kitchen work every day. It enables you to get out of doors for special work, pleasure and amusement.

Meat Service

Those who have visited our market have discovered that we made no mistake in asking them to inspect every nook and corner of the establishment. They found absolute neatness and cleanliness everywhere, and those who have been patronizing us have learned that we are handling the best of everything in the meat line. We are just starting, and in the course of a few weeks you will know that this is the place to get what you want every day in the week. We will have fresh fish on Thursday and Friday of each week. Just as often as the demand warrants we will have a full variety of meats, including veal and mutton. Spring chickens at any time. We have them alive and will dress one for you at any time on short notice. By doing this you are always sure of getting poultry that is fresh. Our meat cutter has had many years of experience in big shops of the country and knows how to cut meats and serve the public. Why not call and give us a trial order.

ERNEST GEITHMAN

Everyday in the Week

You will find here all the fresh fruits and vegetables that the market affords. And you will find this condition existing all the time. We plan to have what you want when you want it, if it is on the market. Call us up by phone every morning for a report on the fruit and vegetable question. Our wagon will come directly to your door.

Convenience Decides

No one need ever be urged not to wear poor clothes who has ever worn good ones. No one need be urged to keep an account at the bank who has ever had one there. CONVENIENCE would decide, if there were no other considerations—such as standing in the community, the promotion of thrift, etc.
