PROGRESS ON FACTORY

Long Looked for Material Arrives at Last

LARGE FORCE IS KEPT BUSY

Two Carloads of Machinery Arrived this Week and Will Soon Be Set up—H. H. Hansen and Family to Move Soon

The outlook for Genoa's future is a bright one as it appears today, for in all parts of our little city, improvements are in progress.

New homes are going up, some of which are the Hammond, Crawford and Holtgren homes in the Moan addition.

Fifty homes will be needed for the families who come with the factory.

FACTORY PROGRESSES

Considerable progress is being made on the new factory, a carload of delayed material arriving Monday, much to the joy of the contractor. It is expected that the new engine will arrive next week and be immediately put in place in the power house. A feature of interest is that some of the machinery is arriving.

CARLOAD OF MACHINERY

H. H. Hansen of the Eureka company, formerly mechanical expert for the Advance company, arrived in Genoa with a carload of machinery this week Monday. All of the machinery of the old Advance company, which has not been moved into the Eureka plant in Chicago will be shipped as quickly as possible to Genoa, where it will be stored in the depot and a neighboring barn until the floors of the factory are in shape for Mr. Hansen to commence work. He will have a competent gang of men with him here as soon as the factory is in shape to receive machinery, and he will have charge of the erecting of the many complicated labor-saving machines.

Mr. Hansen, by the way, expressed disappointment at the lack of vacant houses in Genoa. He declares some forty houses will be needed in a few weeks, and says the employees of the Eureka company will be displeased if homes are not ready.

MUST PAY POLICY

Court Rules Woodmen Must Pay Insurance of Railroad Brakeman

A case that was at one time of much interest in this section has just been closed at Peoria and the Boon Co. Republican speaks of it as follows.

Judge Puterbaugh of Peoria has rendered a decision in the case of the widow of John Green, a brakeman killed on the Northwestern road, against the Modern Woodmen of America. The Woodmen refused payment of insurance on the ground that Green was engaged in a prohibited employment at the time he joined the order. The court held that the agent of the order and that the order must be held responsible for the acts of its agents, which received Green and thus must pay the insurance.

Advice is like Castor oil—it is one thing to prescribe and another thing to take.

GENOA BOYS WIN

Juniors Defeat Sycamore Team Last Saturday—Game at Genoa

On Saturday last the Genoa Junior ball team defeated the Sycamore boys in a hotly contested game of ball.

The rain fell, but the boys played and at the end of the ninth inning victory was recorded for Genoa by a score of 12 to 4. Evans and Williams for Genoa and Battie and Spring for Sycamore formed the batteries. The team lined up as follows:

GENOA

Abiram Crawford, c f; Charlie Williams, c; Ed. Crawford, l f; George Evans, p; Fred Browne, r f; Charles Senska, 2 b; Vernie Crawford, ss; Roy Ide, 3 b; Frank Wylde, 1 b.

WOODMEN AT BLOOMINGTON

Meeting at Bloomington of Interest to Woodmen in all Sections

Bloomington, Ill. May 2.—'As goes Illinois so will go the Union' is the slogan that is being heard in every direction in Modern Woodmen circles, both among those who favor the readjustment of rates at the biennial session of the head camp at Indianapolis in June, and also in the ranks of those who are opposing all changes in the rate of assessments on the ground that the cost is high enough now.

As a result of this feeling members of the order all over the United States are looking forward with interest to the state convention to be held in this city next Wednesday.

The Illinois Woodmen's Protective association, organized a year ago to fight the proposed increase in rates, will have a large delegation here, and will put up a strong opposition and endeavor to secure the election of delegates to the head camp at Indianapolis who are opposed to any change in the rates.

Under the leadership of Lieut. Gov. W. A. Northcott, who is the head consul of the order, the supporters of some plan for readjustment will mean an equally strong fight and express they themselves as confident of success.—Ex.

Arrives From Europe

Herbert Nicholson, the largest shareholder of the DeKalb-Sycamore Electric Co., arrived home from Europe Thursday last. Mr. Nicholson resides in St. Charles. He was in Sycamore last Saturday with Supt. Glidden looking over the Sycamore plant. The matter of the Genoa extension, it is understood, will be definitely settled in a day or two.—Sycamore Tribune.

PLENTY OF MONEY

Each Person in America Is Supposed to Have \$29.58

Washington, May 2.—The statement of the treasury department shows that at the close of business April 30, the actual amount of money of all kinds in the United States was \$2,679,340,932.00, of which \$304,987,212 was held in the treasury as the government asset, and \$2,374,353,720 was in circulation.

During last month there was an increase of \$550,378 in the stock of gold in the country and an increase of \$8,632,470 in the amount of national bank notes.

Temporary Offices

The Genoa Improvement Syndicate has tendered the Eureka Electric company the use of a part of the suite of offices in the Teyler building, and Eureka company officials who are superintending the removal of the machinery and materials from Chicago will make their headquarters in that office until the new factory building is ready for occupancy.

Notice

As I have removed from Genoa, those knowing themselves to be indebted to me will confer a favor by settling as soon as possible with C. A. Brown, at the Exchange Bank of Brown and Brown.

BUTTER DOWN

Dropped Two and One-Half Cents on the Elgin Board of Trade Monday

Butter took another drop of two and one-half cents on the Elgin board of trade Monday, selling at twenty cents flat. That is a drop of five cents in two weeks and butter seems to be on the toboggan slide for sure.

GOOD FOR CORN

Late Snow Years Ago Helped Corn Instead of Injuring it

An old settler is authority for the statement that May opens this year the same as it did twenty-eight years ago, with cold and snow.

It was thought then that the corn crop would be ruined but contrary to prophecies the yield that summer was the heaviest for years.—Belvidere Northwestern.

REMOVES TO FAIRBURY

Dr. E. A. Robinson Is Now Enroute to His New Location

Dr. E. A. Robinson has probably nearly reached his new location, as we go to press. Last week Friday he left Genoa in his carriage, headed for Fairbury, Illinois, where he will open an office. Although Dr. Robinson has built up a creditable practice in Genoa, he feels that his opportunities in his new field will be much greater than in Genoa. Fairbury is a town of 3,000, about twenty-five miles from Bloomington, and in the heart of the great corn belt.

Genoa people unite in wishing the doctor great success in his new field, for he is justly popular here.

Mrs. Robinson will, for the present, remain in Genoa, and plans to join Mr. Robinson when he is thoroughly established in his new field.

AN OLD RELIC

A Page from an Almanac of 1812 Is Highly Prized

Mrs. Elizabeth Steward, mother of Mrs. James Hewitt, has in her possession a page from an old almanac which is of great interest for several reasons.

In the first place, the page contains the calendar for April 1812, and written in the margin is "Elizabeth Bunker, born in the year 1812, the 28th day of April," this being a record of the birth of Mrs. Steward over ninety-one years ago. The page contains information quite similar to that in almanacs today, set in quaint old style types with the long "s" almost identical with our "f." The heading of the page is "1812—4th MO. APRIL, begins on Wednesday, hath 30 days." A foot-note states that "30th of April, 1789, George Washington inaugurated first president of the United States."

Mrs. Steward, by the way, is not only one of the most aged persons in the county, but was among the earliest pioneers. She came to Illinois in 1837, and has carried the quaint old almanac leaf with her nearly all her eventful life.

ROWEN MATTER SETTLED

Those Interested Arrive at a Settlement Last Saturday

The matter of appointing a conservator for Mrs. Daisy Rowen Newton of Kirkland was settled at the county seat last Saturday.

A farm of 245 acres valued at \$80 an acre was placed in the hands of two trustees, George Ault and W. Thompson of Kirkland. The remainder of the property will be controlled by herself.

Mr. and Mrs. Newton expect to reside on one of the other farms in the fall and conduct the same.

Many promises are made by Mrs. Newton, and the fulfillment of them is awaited by those interested.

Woodmen Picnic at Janesville

For the Woodmen picnic to be held at Janesville, Wis., June 4, the C. M. & St. P. Ry will sell excursion tickets at \$1.50 for the round trip. Special train will be furnished for the occasion, time of which will be announced later.

COAL PRICES TO ADVANCE

Hard Coal Sells at \$8.75 and Soft Coal at \$6.50 a Ton

10 CENTS A TON PER MONTH

In the Rate of Increase From Now to September 1—Coal Dealers Will not Guarantee Orders after this Date

Price of coal is now at its minimum. Anthracite sells for \$8.25 a ton, soft coal for \$6.50 a ton. This is the lowest price for which coal has been offered since the coal strike and it will be no lower. Coal dealers will not guarantee any orders after September, for the winter season opens then and the price of coal for the season is settled. Each month from now on till September the price of coal will advance ten cents per ton or in other words coal bought in September will cost \$8.75 a ton.

The Black Diamond of Chicago in reviewing the western coal trade for the current week says:

"May will make its advent this year with one of the most active demands in the anthracite trade ever experienced at this season and with a large number of unfilled orders remaining on the books of the different selling agents at all important distributing points. Although the lake receipts of anthracite at Chicago are nearly 100 per cent. in excess of normal and proportionately large at other western and northwestern lake ports, it is probable that more than double this tonnage could have been moved out to western retail dealers the past month if it had been available. In the April trade the strike of the fireman and oilers on the great lakes proved more or less of a disturbing factor and delayed shipments to a very considerable extent. After this was ended there was considerable difficulty in getting coal from the anthracite collieries to Buffalo and other loading ports in Lake Erie, owing to shortage of cars. These conditions have both interfered with getting as large a tonnage as was expected to western points and the direct consequence is that many retailers who placed orders received only from forty to fifty per cent. of the quantity they ordered.

"This business will go over into May, and, with the large tonnage which will be booked for the present month, will continue the activity at least another thirty days and possibly longer. All the leading factors in the situation say that it will be a question of getting the coal the coming month to take care of all business which is in sight at present. Dealers, who have not placed orders for movement this month and who are desirous of securing anthracite should not neglect to do so the coming week or they will find themselves in the same predicament as many in the trade who neglected to place orders until late in April, and who expected to secure deliveries that month, but were disappointed owing to the immense volume of business."—Ex.

Rev. B. L. DeGries Leaves for Lordsburg, California

Rev. B. L. DeGries

Mrs. Lewis DeGries lived. His early education was acquired in the Chicago public schools.

At an early age he took up his Christain work, and preached (although not ordained) in many of Chicago's small churches. In 1895, he entered college at Mendota where he completed his course in 1897, and on July 14, 1899 he was ordained. In 1900, he was called to the Genoa charge, and his faithful work among his people made him dear to them; and again in 1902 he was called to Genoa, remaining to this date.

Rev. DeGries, while in Genoa, has won the esteem of the community, and his kind ways will long be remembered. He will preach his first sermon at Lordsburg on May 31.

BIOGRAPHY

Rev. DeGries was born in Chicago, August 14, 1874, where his parents, Mr. and Mrs. Lewis DeGries lived. His early education was acquired in the Chicago public schools.

HE FOLLOWED THE KING.

It Was a Long Chase, but the Consul Was Tenacious.

"A consulship vacancy occurred in one of the group of islands of the south Pacific," said a Pacific coast federal judge. "I commended a friend for the vacancy. He was appointed, and, as it was imperative he should reach his post at the earliest possible day, he sailed from San Francisco with the understanding that his commission should follow him and that he should take the oath of office before a local magistrate after he had arrived. Well, the new consul sailed, and it was six months before the state department heard from him. He reported there was no local magistrate and inquired of the secretary if he could not take the necessary oath before the king. The secretary wrote him in the affirmative, and it was several months later when another letter came, this time by sailing ship, after going around the world. It contained the graphic information that the aforesaid king had in the meantime gone to an adjoining island and taken to the brush. Should the consul follow him? Again he was given an affirmative answer. The archives of the state department will show that he eventually located this south sea island king in the brush, was sworn in and, after the lapse of nearly two years from the date of his appointment, was fully qualified to enter upon his consulship."

His Limit.

Wetting a Wheel.
Once when Chief Justice John Marshall was driving in Virginia he found that the tire on one of his wheels was loose and kept slipping off. He didn't know a great deal about common affairs, for he had not lived much with the common affairs of life, but he did know that water would tighten a tire on a wheel. So he came to a little branch and drove into it and got one little section of the wheel wet, then drove out and backed his horse, and the same part of the wheel went into the water again, and he pulled back and kept seesawing backward and forward, all the time getting the same part of the wheel wet. While the judge was bothering himself about how to get the wheel wet a negro came along and, seeing the situation, told him to back into the water again. He did so, and the negro took hold of the spokes of the wheel and, turning it around directly, had it wet all around. Judge Marshall said, "Well, I never thought of that." The darky replied, "Well, some men just nat'ly have more sense than others anyhow."

Elephant Love.

A pathetic story of intelligence and affectionate solicitude of an elephant comes from the Midnapur district in Bengal.

A wild tusker and a younger animal had done great damage to crops, and the head man of the district, Baba Ganjan Lal Malla, attempted to kill them. He shot the larger animal in the leg, disabling it, but not sufficiently for any one to approach it.

For a month the animals lingered in the district, the smaller one ministering to the wants of its wounded companion, and by furious charges kept the villagers at a safe distance.

Twisting its trunk about that of the stricken brute, it uttered the most mournful cries, fanned the wound and gave every evidence of acute distress. When the wounded elephant died, its companion disappeared and has not been seen since.—London Express.

How Trees Differ as to Their Roots.

Trees whose roots are of the same length and fiber do not thrive as well as those which are unequal, because they develop better when their roots reach for nutriment in different strata or depths of the earth. The oak could not live in soil where the pine would thrive luxuriantly. This is owing to the nature of the trees. One requires the most solid nutriment. The pine requires light, sandy soil and the atmospheric conditions of sunshine and rain. The oak, maple, elm, hemlock, birch and beech all require warm and clean soil. Trees are noted for picking out the attractive places, and where there are flourishing forests may be found the best land and the soil always productive.

A Satirical Reward.

There was perhaps more satire than gratitude in the reward bestowed by a French lady on a surgeon for bleeding her—an operation in which the lancet was so clumsily used that an artery was severed and the poor woman bled to death. When she recognized that she was dying, she made a will in which she left the operator a life annuity of 800 francs on condition "that he never again bleed anybody as long as he lived."

The Second Fiddle.

"Mr. Henpeque, let me introduce you to the Count de Dieppe."
"Ah, est eez ze honor to meet a musician. I hear, sar, zat you an' your family play ze music."
"Why, I don't know the first thing about music."
"But I hear eet all around zat you play second fiddle to your wife!"

She Tipped Him Off.

Mrs. Meekins—What a frightful brute that Mr. Blood must be! His wife tells me that her mother is afraid to open her mouth in his presence.

Mr. Meekins—Is it possible? Why, he must be a regular terror. (Musingly) I wonder how the fellow manages it.—Kansas City Journal.

To Say Nothing of Powder.

Geraldine—Women are just as honest as men.

Gerald—That isn't so. A man will put up a sign, "Look Out For Paint," but did you ever know a woman to do it?—Brooklyn Life.

PUBLIC SCHOOL NOTES

Grammar Department to Hold Exercises May 12

NEW TEACHERS NEXT YEAR

Program of Second Annual Commencement to Be Given in the Baptist Church Tuesday Evening

The school year ends Tuesday, May 12. In the corps of teachers in the Kingston public school there will be at least three vacancies at the close of the school year.

Prof. I. E. Conover, who has given excellent satisfaction during the past year, has been retained as principal and will teach in that department the coming year.

Miss Olive Byers, who has so faithfully presided over the grammar department the past few years, will teach in the Kirkland public schools. A class of eleven will graduate from the grammar department next Tuesday night.

Miss Mary Patterson handed her resignation to the board of education last Monday morning. As teacher of the intermediate room, she has given perfect satisfaction to all concerned and it is with much regret that the department loses so competent a teacher.

The board of education has received many applications from teachers but as yet no definite action has been taken.

From the high school three members, Ralph Sexauer, and the Misses Katie Bassett and Maude Benson, are busy with final examinations preparatory to graduation.

Following is the program to be given by the graduates from the grammar room:

- Miss Liberty.....Tilzer ORCHESTRA
- Essay.....Failures In Life FLOY M. MOORE
- Essay.....The Boy Is Father to the Man ERMA L. FULLER
- Essay.....Is Poverty a Curse? IVA L. COLVIN

RURAL ROUTES STARTED

Carries Commence Work Last Friday Morning

1000 Rural Free Delivery Routes Which Are Scattered Throughout the Land Will Be Established July 1st

The two rural free delivery routes, which were recently mapped out, went into effect last Friday morning.

The carriers, H. G. Burgess and J. P. Miller, leave the postoffice every morning at 8:15 and make the tour by 1 p. m. Thus far the roads have been in very good shape.

No less than seven of the routes determined upon for Illinois will be established in DeKalb county, and as many more will be in nearby towns.

One thousand rural free delivery routes scattered throughout the country will be established by the postoffice department by July 1. The work of apportioning these routes is now being done, and already 675 routes have been assigned in 45 states. The middle west is well taken care of in this respect.

The routes decided upon will be established in Illinois at Belvidere, DeKalb, Dundee, Elgin, Garden Prairie, Genoa, Hampshire, Maple Park, Kirkland and Sycamore.

T. M. Chamberlain Failing

Boone County Republican: C. B. Harding received a telegram from Mrs. M. C. Giles Tuesday morning stating that her father, T. M. Men Captured at Beloit, Wisconsin, Last Sunday Afternoon—Are Now in Jail at Harvey, Illinois to Await Trial

Wilbur Hill and Roy Chapman, wanted at Harvey, Illinois, for burglary, are thought to be the men who robbed the postoffice here a week ago. They were captured at Beloit last Sunday night.

The men are now in jail at Harvey, and await trial on the charge against them.

Chief of Police Bates of Harvey and detective Hogan of Chicago traced the men as far as Beloit Sunday afternoon and the active work of the Beloit officials caused their capture.

Further than this no clue has been gained to the Kingston robbery.

NUPTIALS ARE CELEBRATED

Mr. and Mrs. Arthur C. Pelton Will Reside in Iowa, and Mr. and Mrs. A. Johnson to Live in Mayfield

Last week was an eventful one in the township of Mayfield.

At 3:30 p. m. Monday, Mr. Arthur C. Pelton and Miss Belle Tower were quietly united in marriage at the parsonage of Rev. J. C. Huffman, pastor of the Wesleyan church.

The groom hails from Estherville, Iowa, and is a prosperous farmer of that place. The bride is a daughter of Mr. and Mrs. George Tower, and is exceedingly popular among her many friends who wish much happiness and prosperity.

They left at 6:22 over the Northwestern line for Estherville, Iowa.

Last week in Chicago, Mr. Andrew Johnson and Miss Augusta Bodeen were joined in wedlock.

The bride is a daughter of Mr. and Mrs. John Bodeen, prosperous residents of Mayfield township. The groom is a young farmer, and is highly respected in the community.

The groom and bride were welcomed back from Chicago, their many friends wishing them much joy and happiness.

KINGSTON

County Superintendent Lewis M. Gross has brought suit against the DeKalb-Sycamore Electric company for damages to one of his horses and buggy.

The new feature the REPUBLICAN is putting forth has been commented on by many as one that will surpass any ever before forth before in Genoa. Many are awaiting "Feature Picture No. 1" which appears on the front page of this number.

In the future it is probable that the election of president of the board for Genoa will be two years. A bill that was recently passed before the state legislature signifies that all mayors of villages, towns and cities in the state must hold office for a term of two years. The bill will go into effect July 1, and it is already being debated whether the officers elected this spring will hold over two years. If this is affirmed, President Perkins will hold over until 1905.

That the REPUBLICAN has the largest bona fide list of subscribers in northern DeKalb county is signified by the fact that the Genoa Journal refuses to back up the statement made in its publication on April 20, '03. The statement was challenged by the REPUBLICAN with a forfeit of \$50 to Genoa charity. To this date no acceptance has been received therefore we are led to believe that the Journal was attempting to mislead the community as well as printing an untruth. The REPUBLICAN again extends the same challenge with a forfeit of \$100 in gold to Genoa charity if list of subscribers (bona fide) is produced in northern DeKalb county to exceed that of the REPUBLICAN.

LAD COMMITS ROBBERY

Takes Purse Containing About \$200 from Farmer

HE WAS CAPTURED IN IOWA

Rode with John Awe, his Victim, on his way to his Home near New Lebanon

Commits Act and then Departs

Held in the county jail and in a fair way to spend a term in the state penitentiary is the situation of Dell Countryman, who robbed John Awe on Thursday evening of last week while on his way to his home in New Lebanon.

The sum taken by Countryman amounted to about \$200.00 of which \$101.00 in cash was recovered from the boy when he was captured at Swea City, Iowa. A check for \$40 was left in the pocket book which was buried in a field east of town and later recovered through the information of Countryman.

The robbery took place near the Wing school house east of town, and, after Countryman had secured the purse containing the money, he informed Awe that he was ill and thought he would return to town and jumped from the wagon. This was the last Awe saw of him and upon his arrival home found he had been robbed.

After leaving Awe, the lad returned to Genoa and thence to Kirkland where he made small purchases and engaged the night operator in the depot to count his money.

He was next heard of at Swea City, Iowa, where he was taken in custody to await the arrival of Deputy Sheriff Abraham, who left Monday afternoon.

S. Abraham returned Wednesday noon with Countryman and placed him behind the bars in county jail.

One of the valuable things is a low voice.

TIMIDITY AND TALENT.

A Lack of Courage is the Death of a Great Deal of Ability.

A great deal of talent is lost to the world for the want of a little courage. Every day sends to their graves a number of obscure men who have only remained obscure because their timidity has prevented them from making a first effort and who, if they could have been induced to begin, would in all probability have gone great lengths in the career of fame. The fact is that to do anything in this world worth doing we must not stand shivering on the brink and thinking of the cold and danger, but jump in and scramble through as well as we can. It will not do to be perpetually calculating risks and adjusting nice chances. It did very well before the flood, when a man could consult his friends upon an intended scheme for a hundred and fifty years and then live to see its success for six or seven centuries afterward. But at present a man waits and doubts and hesitates and consults his brother and his uncle and his first cousins and particular friends till one fine day he finds that he is sixty-five years of age; that he has lost so much time in consulting first cousins and particular friends that he has no time left to follow their advice.—Sydney Smith on "Courage in the Use of Talent."

Danger in Nightmares.

"I believe that dreams sometimes kill," said a prominent specialist on nervous diseases the other day. "Of course I don't know that they are fatal, but I have every reason to think so. I had a woman patient whom I was treating for a number of complications, including a weak heart. She could not bear any excitement, and I often warned against exposing herself to sudden fright. She complained of having nightmares and said she often woke up in a state of terrible fright so weak that she could not call for help. One morning she was found dead in bed with an expression of abject terror on her face. I have no doubt that she died from fright produced by a nightmare."

"Persons subject to nightmare who have weak hearts should avoid sleeping on the back. They should lie on the right side and have the right arm extended so they will wake up if they turn over. Most nightmares are the result of sleeping on the back or the left side, where the heart is so compressed that it has little room for free action."

Blazed Her Way.

There is a story about Alaska and its people in which is mentioned a man who chose a bride from among some of the Indian tribes up toward the Chilkoot pass. He took her to a large city, Montreal, perhaps, and left her in a splendid hotel while he went out to see some one about a dog. She missed him sadly. She sat at the window looking out on the street four stories below. Solitude became intolerable. She decided to find her husband. There was an elevator, but she didn't care for it. Softly as moccasins could carry her she issued forth. When she had gone out, a bellboy saw queer marks on the balusters and doorcasings. The Indian bride had blazed her way with a tomahawk so that she could find her way back. The Indian bride was merely living up to her education, for it is very necessary to know how to blaze a trail in Alaska.

Men Crotchety at Breakfast.

"If waiters had their way, men would not be permitted in a restaurant before the dinner hour, or at least before lunch," said the proprietor of a cafe on upper Broadway.
"Why? Simply because they are so cross at breakfast. No, it isn't the question of tips altogether, although I never saw a waiter refuse a quarter. But the fact is men are crotchety before they get their breakfast. If they have to wait five minutes, it seems an hour to them, and even the morning paper seems to lose its charms unless breakfast is on the table. There is no meal in the day where the waiters get so many 'kicks' as they do at breakfast, and the men are always more ill tempered than the women."—New York Press.

LIABLE TO EXPLODE.

HARMLESS HOUSEHOLD GOODS THAT ARE REALLY DANGEROUS.

Sugar and Chlorate of Potash is a Wicked Combination, and Flour Dust and Dry Air is Fraught With Danger—Oddities of Gun-cotton.

At the premises of an English company there occurred some time ago a disastrous fire which completely gutted an enormous building and caused losses aggregating \$500,000. The fire was attributed to an explosion of malt.

Any fine inflammable dust when mixed with a certain proportion of dry air will explode. There was a previous similar accident in a New York candy manufactory. A terrific explosion which wrecked the entire building was discovered to be due to the fact that particles of fine icing sugar had been allowed to invade the room where the furnaces were.

An eminent authority on explosives declares that many of those accidents in coal mines usually attributed to fire damp have been caused by dry coal dust suspended in the galleries having been accidentally fired. Even so apparently as innocent a substance as flour becomes fearfully explosive when mixed in suitable proportions with dry air.

Another substance that has proved to be extremely dangerous when stored in large quantities is chlorate of potash. A disaster some years ago in a big London factory proved the destructive powers of this simple remedy for colds.

Sugar and chlorate of potash mixed form an explosive which has been tried for blasting purposes, but so dangerous a compound is it that any explosive containing these ingredients is not likely to pass the government tests in this country.

A good many years ago it was discovered that cellulose soaked in strong nitric acid changed from a substance no more harmful than paper to a fierce explosive. The number of materials on which nitric acid will work a similar transformation is almost endless. Wood, paper, straw, coal, peat, pitch, starch, sugar, tea tan, phosphorus, iron, zinc, copper and magnesium are only a few that could be named.

One of the best known and most terrible of these mixtures is nitroglycerin, which is simply nitric acid and common glycerin mixed together and allowed to fall into a stream of water. Dynamite is nothing more than nitroglycerin absorbed by some spongy substance. Alum, asbestos, plaster of paris, sawdust, bran, meal, even dried and pounded potatoes, have been employed for this purpose, but the substance most commonly employed is what is known as "kiesel guhr," or spongy earth. This is the kind of clay formed of minute fossil shells, great beds of which are found in Germany and other parts of the world.

Gun-cotton, which was first made in 1845, is the form of nitro compound usually employed in war. It is manufactured from ordinary cotton waste treated with a mixture of nitric and sulphuric acids.

There is one very curious point about gun-cotton. It cannot be made from raw cotton in the bale; waste cotton is necessary for its manufacture. It seems as if the bleaching to which manufactured cotton has been subjected has something to do with fitting the waste for becoming explosive material. Oily waste is, however, completely useless for making gun-cotton, and if even a little is carelessly used a whole batch of the manufactured product may be spoiled.

Gun-cotton is so extraordinarily sudden in its action that a small quantity has been exploded in contact with a heap of gunpowder and has failed to set fire to it.

The great advantage which gun-cotton possesses over all other explosives is that damp does not injure it. In fact, wet gun-cotton explodes with just as great violence as dry, but is of course much harder to fire. Consequently it is one of the safest explosives to carry, as it can be thoroughly wetted before packing and kept wet

during transport. For mining purposes or for use in war gun-cotton is usually compressed into hard cakes.

The cordite which is now used in British military rifles is a rather more compound substance, being composed of thirty-seven parts of gun-cotton mixed with fifty-eight of nitroglycerin and five parts of mineral jelly. It is formed into little cords each three-eighths of an inch in diameter. These are made up into little fagots which are placed in the cartridges.

What seems a very odd substance from which to make an explosive is gutta percha. But by the action of nitric acid it can be turned into a formidable detonator.

Each country has its pet powder. The United States uses picrate of ammonia; the French have a beautiful, semi-transparent, chestnut colored powder made of the nitrates of potassium and barium. Besides these there are dozens of explosives with fancy names such as ballistite, cannonite, rifeite, randite, piastemonte. These vary in size and shape of grain, color and power, but they all depend on the action of nitric acid for their explosive force.—Atlanta Constitution.

All we do tells for life or death. Beware of the story of a tale-bearer.

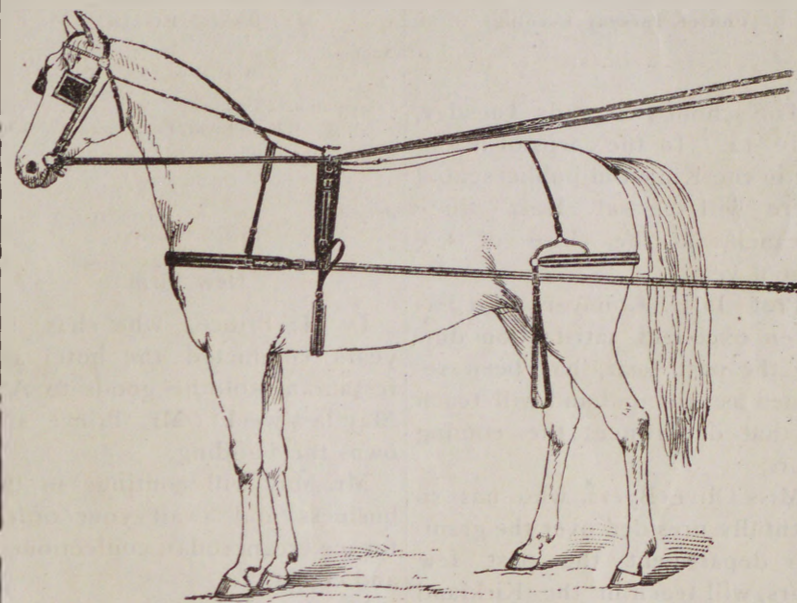

Keep out of partnership with unlucky people.

DON'T BE FOOLED

Advertisements having appeared in various publications wherein Sears, Roebuck & Co., offer Wheeler & Wilson sewing machines, we wish to warn the public that they are not our authorized agents and that we do not sell our machines to them nor any other catalogue house or department store. Their advertisements are not for the purpose of promoting the sale of our machines. They are using our reputation as makers of the highest grade machines only, in order to get the names of possible buyers and persuade them to purchase one of their cheap STENCILED MACHINES, the manufacturers of which they are, evidently, ashamed to make public. If you want a genuine Wheeler & Wilson machine, do not waste your time writing to anyone who is unable to furnish it. The genuine Wheeler & Wilson machine, made by us and backed by our warranty, is for sale by our authorized dealers only. When you buy a Wheeler & Wilson, you get a machine that is a machine, backed by a reputation of 50 years' unparalleled success. Wheeler & Wilson Mfg. Co., Chicago, Ill. For Sale by

SPEND DAY IN GENOA

Employees of Eureka Company in Genoa May 3.
 On last Sunday, Genoa entertained ten employees of the Eureka Electric company as their guests.

The guests arrived on the 10:23 over the C. M. & St. Paul R. R., and were met with carriages at the train in charge of Mayor Perkins, and Village Trustees Hammond, Browne Schmidt, Malana and Smith. In charge of these gentlemen they were shown about the town, and all of Genoa's many modern improvements, including the water works and electric light station were visited. At noon they visited the new factory where a photograph was taken of the group which appears in the REPUBLICAN of this week as "Feature Picture No. 1." Dinner and supper were taken at the Commercial hotel. The afternoon and evening were spent in an enjoyable way, returning to Chicago at 8:25.

They thanked the Genoa people, the board and president for the courtesy extended them, and expressed a desire to remain in Genoa forever.

WOODMEN PROGRAM

Soon to Be Held at the State Convention at Bloomington
 Bloomington Bulletin: After making a rough sketch of the program for the coming state convention of Modern Woodmen of Illinois, the committee in charge have made up their minds that it will be impossible to transact all of the business within the time first thought necessary. The program as published fixed adjournment late in the afternoon of May 6. After thoroughly investigating the question Judge White of Pontiac, the state consul, expressed the opinion that it would be impossible to accomplish all of the business in the single day and it has now been determined to draw up a new program which will allow for a two days' convention.

The argument in favor of a night session in case that it was necessary, was opposed by Judge White on the ground that if the business was heavy enough to make the day session inadequate, it would be to the interest of the order not to tire out the delegates by a night session but to let them rest up in the evening and leave them well qualified physically to wrestle with the perplexing problems before them, by a good night's rest. The revised program allowing for a two days' convention will be drawn up within a few days and forwarded to the local camps and also sent to various other camps in the state.

The Best Liniment

"I have derive great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by F. T. Robinson.

A Common Trading Point

Most every individual has some particular store in the different lines, where the bulk of his trading is done.

WHY? Is it simply a co-incidence, or is it the natural result of Courtesy, Fair Dealing, and Good Judgment in Buying and Selling?

We believe our large and growing patronage is the result of the latter, and judging from the appearance and quality of the new goods arriving daily, we shall be enabled to retain all of the old and add many new customers this season.

Buy Now!

15 REASONS

Why You Should Buy Eureka Park Lots

NOW!

Buy Now! 1st. Because it is a well known fact that in the past fifty years of our history money invested judiciously in realty has increased many times faster than it would have done at compound interest.

Buy Now! 2nd. Because it is absolutely certain that Genoa real estate can never again be purchased as low as today.

Buy Now! 3rd. Because it gives promise of yielding larger profits in the near future to the investor of today than even the earliest land owner of Genoa has made by rise in values.

Buy Now! 4th. Because real estate investments in a growing city have been not only large but have proven they are the SURE profit winners.

Buy Now! 5th. Because wealthy men of today were the purchasers of real estate ten or twenty years ago. The wealthy men of years to come will be those who are today laying the foundation by purchasing real estate.

Buy Now! 6th. Because "that only by saving and putting aside into some profit yielding form some portion of his daily earnings is it possible for the wage earner to become, in his later years, independent of the labor of his hands."—Henry George.

Buy Now! 7th. Because by our easy payment plan any wage earner has an opportunity which his father before him did not have—that is

the opportunity to secure a beautiful home in the choicest part of Genoa and pay for it in a way that he will hardly feel.

Buy Now! 8th. Because at the prices asked now there is not a single lot that is not a genuine bargain either to a home seeker or an investor.

Buy Now! 9th. Because so long as a person is undecided he is to a certain extent unhappy. When he has come to a conclusion he experiences a peculiar satisfaction, and after deciding to select a lot in Eureka Park addition this experience of satisfaction will be all the more pleasant as there can be no cause for regret.

Buy Now! 10th. Because "Poverty is the slough of despond which Bunyon saw in his dream" and in which good books and good advice may be poured forever without result unless the wage earner can be led to get rid of the burden of rent paying.

Now-Now 11th. Because to make people industrious, prudent and intelligent they must first be relieved from want. No family whose support depends upon wages or salary can long be secure from want without the ownership of property, the ownership of at least a home.

Now-Now 12th. Because if you are a wage earner, in the factory, store or office, your employer will think more of you if he knows you are saving your money for a home. You will be a better workman. You will take on new thoughts, new interests. You will be a new man.

NOW! 13th. Because our present prices will positively be advanced early in June, or just as soon as the new factory is occupied. If the sale continues as started all the lots offered will be sold before that time.

We are doing

...GOOD 14th. Because every lot we sell for a poor man's home helps to extirpate pauperism, abolish poverty, raise wages, lessen crime, elevate morals and purify government. Our creed is: "There is no higher form of benevolence than this of leading, inspiring and helping people to home ownership." It is the possession of property, and especially a home, that gives a man a stake in the country and an interest in its government.

Our

Ambition 15th. It is our ambition to see Genoa a city of 5,000 people or more. A model city of happy homes, contented and prosperous people. We are more encouraged than ever and have full confidence that our fondest hopes will be realized.

Others Are Buying Now-----You Had Better START NOW! If you don't buy now you will probably put it off from day to day until too late and to your sorrow. Do it NOW! Time is worth money, so in buying these lots or any lots in Genoa, the longer you wait the more you must pay.

TO NON-RESIDENTS We say "There is Something Doing" at Genoa. There will be work and money for all. You had better COME, SEE and BE CONVINCED. There are more good things coming for Genoa. REAL ESTATE has advanced 10 per cent. monthly since Feb. 1, when it was definitely decided that the Eureka Electric Co. and the Advance Electric and Telephone Co. of Chicago would consolidate and remove their combined plants to Genoa, where magnificent buildings are now being erected for them. That values will continue to rise is conceded by all. Come and see, or send for descriptive folder and full particulars.

A Startling Test

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters positively guaranteed for Dyspepsia, Indigestion Constipation and Kidney troubles. Try them. Only 50c at F. T. Robinson's.

It's an easy matter to fill teeth; all you have to do is to kick a savage dog.

GREATLY ALARMED

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." sold by F. T. Robinson.

A Sure Thing

It is said that nothing is sure except death and taxes, but this is not always true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van-Metre of Shepherdstown, W. Va., "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely."

It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by F. T. Robinson Drug-gist. Trail bottles free. Reg. sizes 50c, \$1.00.

Take Notice!

A BRANCH OFFICE

Is now being conducted in ELGIN, in the Nolting Bld., corner of DuPage street and Douglas Avenue, by the

Harvard Dentists

of 214 State Street, Chicago.

This Dental Parlor is equipped with the most modern appliances for the purpose of doing all kinds of dental work in a painless manner at one-half the usual prices charged by other first class dentists. We will give One Hundred Dollars to any charitable institution for a tooth we fail to extract without pain or bad results.

NERVOUS PEOPLE and those afflicted with heart weakness can now have their teeth extracted without the least pain or danger. We would like to have every man, woman and child visit our elegant parlors and inspect our methods of operation. All examinations are free.

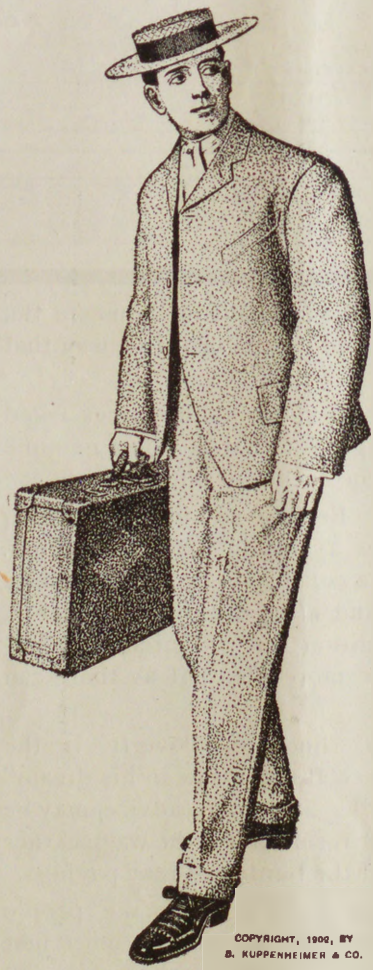

To convince the people of Elgin and vicinity that we do what we claim, for one week from the opening of our office we will do all kinds of dental work at one-half our regular prices.

You will find here in the office gentlemanly operatives having ten to fifteen years' experience. All our work is guaranteed for ten years, therefore we cannot afford to hire inexperienced help.

Still They Come

Although the Spring has been backward, it has put no damper on our trade. Our business this Spring is far ahead of anything we have experienced in former years.

There is a reason for this. The public is beginning to find out more that their money will go farther here than at any other store in this part of the state. The fact is that we can watch Chicago prices on anything in our line, and we do it every day in the year. Then again, we carry such an immense stock to select from that no one needs to go away disappointed.

Give Us a Call

when you need

Gent's Furnishing Goods

Clothing Shoes

We are willing at all times that you compare our prices and goods with any other store that sells the same class of goods as we do, and you will find that this is the place to trade if you want to do justice to yourself.
