GENOA HIGHS LOSE TO ROCK-FORD HIGH SCHOOL JUNIORS

-Game Lost Thru a Little Hard Luck

There was an excellent exhibition of the national game at the ball park last Saturday when the Rockford Juniors and the Genoa Highs clashed, and altho the locals lost the honors they have no cause to grieve, for they put up a game to be proud of. The game was lost in the eighth when Downing let drop a fly in center field, Evans passed two men to first and threw two wild ones. So much hard luck coming in one inning let three visitors cross the plate.

Evans fattened up his batting average by making three hits out of four times at bat. He held the Rockfords down to five singles.

TRAINING DOGS FOR WAR

All of the European armies have for the past few years been engaged in training dogs for use in war to aid in discovering and recovering the wounded after a great battle. This most interesting work will be described in the June Scribner's by Lieut. Charles Norton Barney of the Medical Department of the United States Army.

#### SEEING CALIFORNIA

The average eastern tourist when visiting California enters the state at Los Angeles, takes a few rides on the various electric lines, hustles onto the train for San Franscisco, visits the seals, and hastens north or east affirming that he has "seen California"-but has he? True, he has seen sights to which his eyes were not accustomed, eaten various fruits and vegetables strangers to his palate, and breathed the wondrous air, but to see California understandingly one must visit the mountains as well as the valleys. Probably no other section is richer in scenes noted for their beauty and grandeur, places more famous in literature than is Tuolume county in the Sierra Nevada foothills of California.-S. H. Smith in Sunset Magazine for May.

PERILS OF UNDER-RIVER TUNNELING Next to the danger of live burial, the cheif danger confronting the men in the pressure of the East River Tunnel is the "bends." What these are, physicians are not agreed, except that they are caused either by coming out of high pressure too suddenly; or by staying under high pressure too long. Certain it is that the victim agony. His face becomes a distorted grimace. His hands and fingers become knotted and twisted in a dreadful cramp.
