**Hogs Thrive Best  
When Fed on a  
Concrete Table**

Every kernel of corn makes flesh. When hogs are worth from \$17 to \$20 a hundred, the loss of even a tenth part of feed digs deeply into profits.

Feeding in a muddy lot is wasteful and unbusinesslike. Feed mixed with germ-laden mud, if not a cause of cholera, certainly is not good for hogs.

When a concrete feeding floor will pay for itself in a few months—the cost does not count.

**Catarthal Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarthal deafness, and that is by a constitutional remedy. Catarthal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarth, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

The Elgin Courier, which has been working for months to obtain patronage in Genoa, has a peculiar manner in bidding for that patronage. It has never missed an opportunity to belittle anything that pertains to Genoa. The writer of several articles recently has had no end of "fun" in commenting on the closing of dances, the telephone strike, etc., and in these articles the Courier has made no effort to get at the truth of the matter. To the cub reporter who has been cudgeling his 2x4 brain for something witty to say, Genoa is a village of gawks. Elgin has been so far outstripped by Aurora and Rockford, that the Courier must by some means show its readers that the watch city is superior to some place anyway.

Monday evening the home of Miss Blanche R. Patterson was cleverly decorated with pumpkins, black cats and everything Halloweenish and dainty refreshments were prepared by members of the Suffragette Club in honor of Miss Mable Pierce. However, the guest of honor was to be surprised, so that a notification of a regular meeting was the only information given her. When Monday evening came and "the rain was raining all around," Miss Pierce decided to remain at home and retire early. At the appointed time the club members gathered at the Patterson home and waited and waited for the guest of honor. After much debating they decided to drive out to her home and discover the cause of the delay. Miss Pierce was sleeping soundly. However she was soon aroused, forced to dress and come to her own party. After a few hours of merriment the tardy guest was showered with many beautiful gifts. She will soon become the bride of Mr. Edgar Baldwin.

**High School Notes**

Several of the 8th grade students, namely, Vera Sowers, Clarence Russell, Griffith Harshman and John Leonard seem to know all there is to know about diagramming sentences. At any rate they have been showing Prof. Mackenzie some new stunts in that line.

A committee was elected to draw up a constitution for an Athletic Association on Thursday of last week. The object of the association will be to stimulate the school spirit. Boys as well as girls of the G. T. H. S. are all welcomed to be members to boost for the G. T. H. S.

The High school orchestra is improving wonderfully under the direction of Miss Willhoit.

The Physics class has been studying all about the pressure, density and temperature of the atmosphere lately. If they continue they will soon be able to understand Glenn Barcus and his "hot air."

A report from the foreign language department of the High School shows that the students in those classes are doing very favorable work as compared with other high schools.

The foot-ball and basket-ball teams met on Friday and had a first practice. The fellows present were very enthusiastic, but enough of them did not turn out. Come on fellows, help to liven up the new G. T. H. S. by getting a first class foot-ball and basket-ball team.

To have "Spirit" in a school means to have a lively bunch of boys and girls interested in athletics, and that is exactly what we are going to do.

Miss Christian is resuming her duties at school, leaving Mrs. Snyder to attend her own classes again.

Some of the Sophomore and Junior boys have bringing sticks of delicious candy to class but they

are secured to their coats by a string for fear of the teacher's sweet tooth.

The class of girls in physical culture is doing well under the direction of Miss Shoessel.

The piano has been moved from the assembly hall to the Slater building.

Mr. Burgess expects to start the class in Agriculture in the near future.

The class for this year will deal in animal raising.

A new supply of chemical apparatus is expected in a few days.

There are only two students in the French class that can curl up their faces to pronounce the words better than the teacher. Of course Floyd's and Gladys' pronunciation is the best.
