Oliver Typewriter Factory to Make New Additions—Belvidere Saloon-keeper Fined \$25

The C. M. & St. P. Railway has decided against the Sunday excursion feature, and it is said will give no more of them.

The Fair Cement Company will lay two miles of cement walk in Hampshire for twelve and one half and eleven and three fourths cents a square foot.

Chris Dillman, a Belvidere saloon keeper, was fined \$25 and costs Tuesday for keeping open after hours. All those found in the place, including two women, were fined \$3.

Representative Charles Cherry of Kendall Co., is said to be slated for the position of receiver of the defunct national banks at Guthrie and El Reno, Okla. The position pays well and will probably be accepted by the Kendall county statesman.

Elgin Courier: The quarterly meeting of the Holy Trinity English Lutheran church was held Monday evening. Preliminary sketches were shown for a new church. It is decided to build an edifice that should cost \$25,000. Plans will be submitted by different architects.

The Oliver typewriter factory of Woodstock has again outgrown its present quarters and an 80x40 foot addition will be built. The factory is nearly 2000 machines behind its orders, although they are working night and day. The factory turns out over one hundred machines every ten hours.

The walls of the Sycamore public library are up and the roof going on. The walls are of brown stone, and the building will be an imposing structure when finished. The library was made possible by the munificence of Andrew Carnegie and the late Russell Dow of Sycamore who gave the lot.

The limit has certainly been reached in the insane methods of celebrating the Fourth of July. At DeKalb somebody put a lighted fire cracker into the mouth of the four-year-old son of A. Broman. The cracker exploded lacerating the child's mouth clear back to the palate loosening his teeth and nearly killing him. He is under the care of a physician and it is not yet known what the outcome may be. The police have been unable to learn who is guilty of the villainous act.

A negro preacher down south has discovered the real cause of the recent volcanic disasters. He says: "De earf, my friends, resolves on axles, as we all know. Somefin' is needed to keep the axles greased; so when de earf was made, petrolum was put inside for that purpose. De Standard Oil compny comes along an' strax dat petrolum by borin' holes in de earf. De earf sits on its axles an' wont go round no more; den dere is a hot box. Just as ef de earf was a big railway tain-and den, my frien', den is trouble."

HOAG-HOLOYD

Wedding Solemnized at the Bride's Home Monday Evening

At the home of the bride in this city on Monday evening, July 10, occurred the marriage of Mr. Elias Hoag and Mrs. William Holoyd. The ceremony took place at 8:30 o'clock, Rev. T. E. Ream officiating. Only members of the family and a few friends were present.

TEACHERS ENGAGED

All Now in Readiness for the Opening in September

All teachers for the Genoa schools have now been engaged for next season's work, and the board of education feels confident that a good corps has been selected. The teachers are:

H. F. Stout, Superintendent.
Miss Ida M. Kline, of Bloomington.
Miss Bessie K. Gish, of Rittman, O.
Mrs. Temperance Haines, of Genoa.
Mrs. Mary E. Quick, of Genoa.
Miss Grace Colton, of Riley.
Miss Carrie Colton, of Riley.

It is indeed gratifying to the patrons of the school that Mr Stout has been retained. We feel that he will accomplish even greater results during the coming year. It is no less pleasing to learn that Mrs. Haines and the Misses Colton will return. They have given the best of satisfaction and worked in harmony with the superintendent. Mrs. Quick needs no introduction. She has taught in the Genoa schools in the past with marked success and the board is fortunate in securing her services.

LARGE BARN BURNS

Two Horses Consumed in Fire on Fred Calloway's Place

During the storm which passed over Genoa Friday afternoon the large barn on Fred Calloway's place north of the city was struck by lightning and with its contents was burned to the ground.

The building at the time contained a considerable quantity of hay and grain, two good horses and numerous small articles usually kept in a farm barn. The barn was a valuable one and the insurance, \$700, will not near cover the loss.

Merchants Can Help

Any merchant who induces people to a town to trade is helping the entire business community, and no town is a success until the dealers in dry goods, clothing, hardware, groceries, drugs and other lines all are working to extend the trade as far as possible and trying to bring a larger territory into the circle of which the town is the business center. Genoa merchants never had a better advertising medium for this purpose. The Republican-Journal, with the combined circulation of two papers, goes into nearly every home within a radius of ten miles and into many outside of this circle.

Employes Given Outing

The C. F. Hall Co. of Dundee gave their employes a pleasant outing last Friday evening on the banks of the raging Fox above Carpentersville. The customary semi-annual dividend was declared and checks aggregating nearly \$400 were distributed among the employes. Supper was served and a pleasant hour enjoyed in spite of the weather man who sent numerous showers during the outing. Brief remarks were made by C. F. Hall, F. F. Hall and Attorney I. M. Western.

MORE EXCITEMENT

Petition to Remove Crossings Causes Instantaneous Furor

A petition was circulated Monday and signed by a number of persons, in which the city council is asked to have removed the crossings in front of Witt & Shork's jewelry store and in front of E. H. Browne's store on Main street. While many signed the petition there were others who bitterly opposed the proposition. Most of the crossings are higher than absolutely necessary and to this fact is due the prayer of the petitioners. Just what action the board will take remains to be seen. Had that body been petitioned to have all crossings lowered to a level with the traveled road it would stand a better chance of being considered and few would object. Some reasonable arguments in favor of removal are put up and then those opposed have just reasons from their standpoint. To say the least it will cause ill feeling and that should be avoided if possible. Lower the crossings and the majority will be satisfied.

ICE CREAM CAUSES DEATH

Wealthy Farmer of Burlington Expires Suddenly Saturday

Ice cream, eaten while in Chicago on a Fourth of July outing, has been declared to have caused the death of Barney Studer, a wealthy bachelor who has resided on a farm about a mile west of Burlington township. He died Saturday morning after being unwell for several days.

Studer is 75 years of age and has been employed by his brother as a farm hand. July 3rd, Studer accompanied by his niece and nephew, went to Chicago, and stayed over the 4th, spending the time at various pleasure resorts in the city. At one of these they ate some ice cream, and shortly afterward Barney and his nephew were taken ill, the girl not being affected. Their illness was not serious, however, and they went on with their work as usual after returning to the farm.

Saturday morning as they were milking, Barney Studer was seized with a stroke of paralysis and died in a short time. Dr. Roach of Burlington was called to attend the man, but he was dead before the physician arrived. After hearing the facts in the case and learning that the man's health had been good previously, the doctor gave it as his opinion that the sudden illness had been caused by something he had eaten.

Studer had worked for his brother for many years. He was a confirmed bachelor, and his estate will probably go to his brother, as it is not thought that he left a will.

THE SCHOOL CENSUS

Gives Genoa a Population of Nearly Fifteen Hundred

The school census, recently taken, gives the city of Genoa a population of nearly 1500 people, showing a substantial growth since the last government census in 1900. The complete record follows:

GIRL IS A SUICIDE

MARY WETTERING OF HAMPSHIRE TAKES STRYCHNINE

Parents Objected to Her Keeping Company With a Sweetheart It is Said—Tired of Farm Life

Mary Wettering a 17-year-old Hampshire girl, committed suicide shortly after 5 o'clock Saturday afternoon by taking strychnine. It is alleged that she took her life because her parents objected to her keeping company with the young man of her choice.

During the past several months Miss Wettering had been doing house work in Genoa, having been in the employ of Mrs. Snow and Mrs. Anderson for some time. She also worked at Dr. C. A. Patterson's when she first came here. A few months ago her parents objected to her keeping company with a certain young man, but it is claimed that she had continued to meet him at intervals, and that her parents had upbraided her for it.

Saturday afternoon she obtained a vial of strychnine, and after running into the yard swallowed the contents and then called to a younger sister telling her what she had done. The alarm was raised and a physician summoned, but the girl died in terrible agony before the doctor arrived.

Miss Wettering was born in Dundee. Had she lived until the 24th of next September she would have been seventeen years of age. Three years ago the family moved to the farm about a mile northwest of Hampshire where they have since resided. Besides her parents, Mr. and Mrs. William Wettering, she leaves two brothers, and five sisters.

Miss Wettering was confirmed in the German Lutheran school. Coroner Humphrey was notified and held an inquest Sunday forenoon. The jury returned a verdict to the effect that deceased came to her death by poison taken with suicidal intent. The funeral was held Tuesday afternoon.

A fact brought out at the inquest was the desire of the dead girl to go to Elgin to work. She was tired of farm life, it is said and her parents' wish to keep her at home is believed to have led to the taking of her life.

Points for Smokers

According to Medical Brief very few people are aware how much harm is done to young men by the almost universal habit of cigarette smoking. The man who smokes cigarettes has one always in his mouth, and is continually inhaling nicotine until the system is saturated with the poison.

The result of this practice is a catarrhal condition of the nose, throat and bronchi, a disordered and very irritable state of the nerves, a weak and rapid action of the heart and indigestion.

Thin, anæmic, weak, with clammy hands stained with nicotine poison, unstrung nerves and degenerated muscles, the youth of the land go on ignorantly suffering the consequences of a pernicious habit until attacks of heart trouble, nervous prostration, melancholia, etc., bring their condition to the attention of a physician.

If a man must smoke—and we admit the charm of the habit to those who have become accustomed to its soothing influences—let him choose a mild cigar, and have certain set times for indulging. If he puts a certain restraint upon himself from the start, in the matter of smoking, he will not overdo it, and there are few men who can smoke more than three cigars a day without injury.

SURVEYS MADE

Two Lines Laid Out Between Sycamore and Genoa

The surveyors have finished their work between Sycamore and Genoa and are now working between Genoa and Belvidere, following the Northwestern right-of-way.

The first line between the county seat and this city was made over the highway and the second was a straight line between the two towns, going thru the fields to the west of the highway. The highway line leaves the road where the turn is made south to Sycamore and crosses the Illinois Central where there is a deep cut making it possible for an overhead structure. It then comes out onto Main street just east of Frank Scott's residence in the Morningside addition. Where the other line will enter the city has not yet been decided. When the final survey is made both of these routes may be ignored and a new one selected.

The greatest difficulty is found in crossing the C. M. & St. P. tracks. The only possible place to bridge the tracks would be at the foot of Main street and even then it would require an extensive structure or a steep grade trestle.

DeKalb still seems confident that the road is going that way, altho the company is spending considerable time and money on the Sycamore-Belvidere route.

BASE BALL NOTES

DeKalb Defeated Hampshire Sunday—Palmer Leaves Pecatonica

The Pecatonica team has lost the last three games to Freeport, Galena and the Union Giants respectively, all close scores.

Kirkland was defeated at Batavia Sunday, the score being 4 to 3. Lauman and Sager played with the Kirkland team and put up a good game.

Geo. Palmer, the crack Pecatonica pitcher who put it all over the Goats a few weeks ago, has signed with the La Crosse team in the Wisconsin State league. LATF—Palmer did not make good with LaCrosse and has returned to Pecatonica.

The Hampshire White Stockings were defeated at DeKalb Sunday, the score being 10 to 4. Christiansen pitched for Hampshire. He was in his old time form and pitched good ball, allowing only four or five hits, but his support was ragged.

HOUSEIN RIVER

Flood in South Dakota Devastates Property at Ft. Pierre

In the flood at Ft. Pierre, South Dakota on the 3rd of July Mr. and Mrs. Weed suffered a heavy loss. Mrs. Weed was formerly Miss Arnold, daughter of Mr. and Mrs. E. B. Arnold of this place. She was a member of the M. E. choir and taught school here a few terms.

The flood took their house and barn with all their contents down the river, everything being a total loss. At the time Mr. and Mrs. Weed were at the store the former conducts in the town.

Butter Market

There was no change in the butter market on the Elgin board of trade Monday, the price remaining firm at 20 cents. Bids of 19½ cents were refused.

WALTER BURTON DEAD

TAKEN WITHOUT MOMENT'S WARNING TUESDAY

Heart Failure is Verdict of Coroner's Jury—Miss Cora Craft of Burlington Passes Away

Walter Burton died suddenly of heart failure in Riley, Tuesday morning at nine o'clock, the summons coming without a moment's warning while he was working about the farm.

Mr. Burton and his son, Clyde, moved to the McEwen farm several months ago where they kept bachelor's hall. The deceased had shown no previous signs of illness and naturally his death came as a great shock to the son who was with him.

The deceased was born at Plato Center, Ill., September 4, 1854, being at the time of death 50 years, 10 months and 7 days of age. He was one of a family of nine children born to Mr. and Mrs. Richard Burton. Of his father's family he leaves his aged mother, Mrs. Sarah Burton of Elgin, three brothers and two sisters. They are Mark Burton, Idaho; John D. Burton, Chicago; Geo. F. Burton, Elgin; Mrs. Julia E. Dougherty, Chicago; Mrs. Della Hawthorne, Elgin. Of his immediate family he leaves three sons, Benjamin of Belvidere; Harry of Norton, Kas., and Clyde who lived with his father.

Mr. Burton was a member of the Genoa camp M. W. A. in good standing and carried \$2,000 insurance which is left to the children.

The funeral was held at the M. E. church in this city Thursday morning at 10:30 o'clock. Rev. T. E. Ream officiating. Interment took place at Genoa cemetery.

MISS CORA CRAFT

Miss Cora Craft, daughter of Ed. Craft, died at her home near Burlington last Thursday morning, aged seventeen years. She had been ill for several months and a complication of diseases this spring hastened the end. She was a grand-daughter of Charles Craft Sr. of Virgil who is well known here.

The funeral was held at the M. E. church in Burlington Saturday, July 8. Mr. and Mrs. L. Robinson of this city attended.

Mrs. George Corson's father, Mr. Kohn, died at his home in Riley Monday morning after a short illness. The funeral was held at the Riley church Tuesday.

Mrs. Corson, who has been in America about ten years, went to Germany two years ago and brought her father back with her. Since his arrival here he had resided in Riley. There are three children living besides Mrs. Corson. They are Mrs. Dollmar who makes her home in Riley; Bertha, who is employed at the home of L. D. Kellogg, and Annie who is still in Germany.

THE EPWORTH BANNER

Goes to Illinois for the Largest Delegation at Convention

Illinois will carry home the banner for the state having the largest delegation at the Epworth League Convention which has just closed at Denver. The state sent 1700 delegates. Iowa was second with 1200. The Illinois delegation went on the "loop" trip to the foot of the continental divide Tuesday. Wednesday many attended the big basket picnic at Colorado Springs, while a few viewed the Cripple Creek gold mines. About half of the Illinois delegation on Thursday went west to Yellowstone Park and Portland exposition.

MINT officials state that the new \$20 gold certificates will be popular. Sure, automobiles and steam yachts are popular, too.

THE Czar is carrying out his disarmament plan, but in a different manner than he anticipated. The Japs and the revolutionists are doing the work.

It is said that any land near a market which will raise 60 bushels of corn is worth \$100 an acre and land which will raise alfalfa is worth the same. Land which will raise both is worth \$200 an acre. That comes very near fitting DeKalb County.

THERE are still some persons who persist in decorating the sidewalks with tobacco juice. A man might thoughtlessly leave one mark behind him and be forgiven, but the man who will stop in one place and leave a puddle of filth should be introduced to the police court.

THE newspapers may howl until doomsday their sentimental vapors against the mail order houses and in favor of the home dealer, and the effect will not be perceptible. It is up to the local merchants themselves, who can do the most effective work and can do it only by pursuing the methods of the mail order houses, by letting themselves and their goods be known to the buyer through liberal, efficient and judicious advertising. It can be done in this way and no other.

THE talk of removing or lowering crossings has again brought up the question of improving Main street in some way. All are of one opinion with regard to putting in cement gutters along sidewalks instead of the present unsightly and somewhat dangerous method. Some wish to have the street paved and settle the question of crossings and gutters forever. Of course the latter course would be better in one sense, but if those persons who are crying pavement would look up the actual cost of such a move there would be less vehemence in their demands. To grade the street properly, however and level the crossings with the road and put in cement gutters could be done with the means the city has at hand at the beginning of a fiscal year.

WEEK'S HISTORY

Important Happenings Prepared for Our Readers in Brief Form.

TELEGRAPH NEWS BOILED DOWN

Events of Moment in Foreign Climes as Well as Our Country Are Chronicled.

RUSSIAN-JAPANESE WAR.

Japan refuses to agree to an armistice until the mikado's plans are given to peace envoys at Washington. A landing of Japanese troops on the Island of Sakhalin is officially reported and has startled military circles in St. Petersburg. Japan's seizure of Sakhalin has wrecked Russia's last hope of reducing the indemnity. Japan will not allow China to be represented in the peace conference. The navy yard at Portsmouth, N. H., will be the meeting place of the Russian and Japanese plenipotentiaries, a building having been set aside where they will be free from all intrusion. The capture of Sakhalin island by the Japanese, a prize which is given a value of \$10,000,000 by Russians, was effected without the loss of a single soldier in the Nipponese army.

THE REVOLUTION IN RUSSIA.

The mutinous crews of the Kmlaz Potenkin and her consort, the rebel torpedo-boat, have surrendered to the Roumanian authorities, and have been landed and are now being dispatched in small parties to different places in Roumania. The Social Democratic party of the Hamburg (Germany) district has appropriated \$2,500, to aid the revolutionary cause in Russia. Count Shuvaloff, prefect of the Moscow police and a personal friend of the czar, was assassinated while receiving the petitions of the people in his residence.

WASHINGTON NOTES.

Elihu Root was invited by the president to re-enter the cabinet as secretary of state and accepted. The selection may mean that the new premier is to head the national ticket in 1908. Secretary Wilson has made a public statement regarding the leak in his department. He says Associate Statistician Edwin S. Holmes is guilty of juggling the official cotton report and of conveying advance information to New York brokers. Holmes has been dismissed. Count Cassini, Russia's retiring ambassador to the United States, has left Washington.

GENERAL FOREIGN NEWS.

The French budget for 1906 shows an increased expenditure \$15,400,000, compared with 1905. Prince Gustavus Adolphus of Sweden and the princess (who was Princess Margaret of Connaught), have left London for Stockholm. Paul Jones' body has been formally delivered to the American government with imposing ceremonies in Paris. Fourteen miners were killed and a number injured by an explosion in a colliery at Anderloes, Belgium. The heat wave in Italy has caused 886 sunstrokes, many cases being fatal. A supposed leak in the government wheat crop report causes Secretary Wilson to hold back figures to avoid a new scandal. Minister Griscom at Tokio will succeed Loomis in state department at Washington. Fire of supposed incendiary origin has destroyed the business portion of Gridley, Cal. Loss, \$100,000. Fights at Havana between Cuban artillery men and civilians resulted in the killing of one person, the mortal wounding of two and the wounding of a score. Efforts to rescue thirty-nine men who were cut off by the fire in the Borussia coal mine at Dortmund, Prussia, have been without success. Lord Roberts, in a speech in the house of commons, declares the British army inadequate to uphold the nation as a first-class power. The offer of the Norwegian throne to Prince Charles of Denmark has been approved by England, and the decision of the prince is believed to depend upon the attitude of King Oscar and King Christian.

THE CRIMINAL RECORD.

James S. Alderdice, a lawyer convicted of forgery, has been sentenced at New York to eighteen years' imprisonment in Sing Sing, by Recorder Goff. Caleb Powers, under sentence of death for assassinating Governor Geobel, of Kentucky, will get a new trial before the United States court. P. H. Rudolph, a ladies' tailor at Omaha, was found dead in a chair in his office by two lady customers. Suicide. In a fight between revenue officers and illicit distillers in Buchanan county, Va., three of the moonshiners were killed and three wounded. A lone highwayman held up the stage between Warren and Meadows, Ida., and robbed the passengers, driver and mail. Two persons were shot, one probably fatally, in a fierce riot between whites and negroes in New York city. Henry Weideman, a wealthy farmer, of Waverly, Ia., committed suicide by hanging. The Milwaukee grand jury returned sixty-six indictments against twenty-five individuals for alleged bribe taking.

NEWS OF THE STATE

Telegraphic Reports of Matters of General Interest to Our Readers.

HAPPENINGS IN PRAIRIE STATE

Items Prepared with Special Care for the Convenience of Our Own Readers.

Chief of the Conductors Speak.

"We represent, according to official reports, 105,000 employes of railroads," he said, "earning last year \$70,000,000. Any reductions in the earning capacity of the railroads will be felt seriously by us and those dependent upon us." Clark then introduced E. E. Clark, head of the Order of Railway Conductors in the United States, who spoke for thirty minutes. He denied in the first place that the men were acting at the suggestion of the companies. The keynote of his remarks was that railroad rates have been decreasing naturally year by year. The wages of railroad men have been increased, he said, by peaceful agreements with the managers and through organization. What it Would Mean to the Trainmen. The demand of the public for better, faster and safer service are causing the companies large expenditures. Any reduction in earning capacity must necessarily affect the army of wage-earners. Clark stated that no one of them believed a reduction in rates would mean a visible decrease in wages, but it would mean economies in other lines through which railroad men would suffer, such as longer hours, slower trains, less mileage and fewer safety devices. The proposed reduction, he asserted would be absorbed by the jobbers and merchants. Remarks of Gov. Deneen. Governor Deneen asked why these facts had not been submitted to the railroad boards. All other facts and evidence in the case, he said, had been transmitted to the board, and he suggested that Clark's statement be prepared and made a part of the record in the freight rate case. He promised to give the most careful consideration to all the facts and told the railroad men that petitions for the reduction were pouring in from thousands of other interests. ONE COAL COMPANY REBELS. Refuses to Employ Shot-Firers and Demands Screened Coal—Result is a Strike. Vinton, Ill., July 11.—F. W. Lukens, general manager of the Illinois Collieries company, which owns nine mines in the state, has refused to employ shot-firers in the company's mines, as provided for in the shot-firers' law, that went into effect July 1, claiming that the coal can be blasted successfully with less power than is specified. The company also demands that the miners shut their eyes and elected two shot-firers and voted not to return to work until the company complied with the law and the decision rendered Saturday by Judge Gray. Hit by a Bolt of Lightning. Paris, Ill., July 12.—James Thompson and wife, of this city, were rendered unconscious by a bolt of lightning, which struck their residence on Andrew street. Mrs. Thompson was ill and her husband was sitting by the bed conversing with her, when the house was struck. A closet in the room was wrecked and considerable other damage done. Debs Not a Member of the I. W. W. Chicago, July 10.—Eugene V. Debs, who was at the head of the movement for a new labor union, which has culminated in the organization of the Industrial Workers of the World, is stated here not to be a member of the new union. It is said that a faction with which Debs is non persona grata obtained control of the organization. Will Consider Dryer's Pardon. Springfield, Ill., July 12.—The state board of pardons has set for hearing for July 20 at Joliet the application for an absolute pardon of Edward S. Dryer, the Chicago banker, who was sentenced to ten years in Joliet penitentiary for embezzling over \$350,000 as treasurer of the west side park board, Chicago. It Rains on the Seventh. Springfield, Ill., July 12.—Yesterday the first day of sunshine since the Seventh regiment arrived in Camp Lincoln Saturday morning. It has rained, it has poured every day and every night since the regiment came and the soldiers have been drenched most of the time. Fort Wayne is "Base Ballers." Canton, O., July 12.—The directors of the Canton Athletic club have accepted the franchise of the Fort Wayne Central League team and will succeed that city in the League. Canton will play out Fort Wayne's schedule.

SEA MONSTERS.

Some Unfamiliar Ocean Giants of Hideous Aspect.

Of all the big game of the deep sea that have been taken by man the cuttlefish are the most diabolical in shape and general appearance, says the Metropolitan Magazine. I have handled and measured one that was thirty-eight feet in length, a weird, spiderlike creature with two antennalike arms thirty feet in length. Specimens of these animals have been caught seventy feet in length, the captors fighting them with an ax, cutting the arms which seized and held the boat. Off the coasts of California and Alaska there is a deep sea ally of this animal—a big, spiderlike octopus that haunts the deep banks, preying upon the fishes most esteemed by fishermen. It is found off the Farallones on rocky bottom, and at times the fishermen haul in their lines, thinking they have fouled a stone or rock, so heavy is the weight. But when the surface is reached long, livid arms shoot above the water, seize the boat, and the men are forced to fight with knives and hatchets the weird, uncanny game that has a radial spread of thirty feet, its eight sucker lined arms being fifteen feet in length and possessed of extraordinary power. A specimen taken off the island of San Clemente had a spread of about twenty feet and gave the boatmen a hard battle to sever its flying arms. Nothing more diabolical can be conceived than this spiderlike giant of the deep sea, living among the rocks 600 to 1,000 feet below the surface. An individual of moderate size, which I kept a live, displayed the greatest pugnacity. The moment I approached it would literally hurl itself at my arm, winding its long tentacles about it in a manner suggestive of what a large individual might do. Indeed Dr. A. S. Packard, professor of zoology at Brown university, says: "An Indian woman at Victoria, Vancouver Island, in 1877 was seized and drowned by an octopus, probably of this species, while bathing on the shore. Smaller specimens on coral reefs sometimes seize collectors or natives and, fastening to them with their relentless suckered arms, tire and frighten to death the hapless victim."

A GAME OF CARDS.

She Made the Trumps and He Approved of Her Decision.

They had been partners at the card party all the evening, and naturally he became her escort home. "I held such poor hands during the series of games that I would enjoy holding better ones now," he said as he reached gently for hers. "If you had a different partner," she said after a mild and ineffectual resistance, "you might have held better hands during the game and afterward." "But you were such a good one then and such a good one now," he insisted, "that I want you to be my partner all through the game of life." For a brief instant her hands struggled to be released. "I am afraid I do not know how to play my cards," she said smilingly. He drew her tenderly toward him and said, very low, very earnestly, "I want you to help me the best you can to play whatever cards Fate may deal us." Timidly she looked up into his face and whispered, "If I play with you may I name the trump?" "Yes, yes," he said—"always and always." "It shall be a diamond for awhile," she said slowly as she looked far away into the mysteries of the starry sky. "I shall play the ace tomorrow," he said exultingly as he tried to draw her toward him. But she repelled him until she said, "And after that it shall be hearts for all the years that are yet to come—hearts for every minute of the time that shall blossom between us and eternity." "Yes," he said, stooping as she came unyieldingly toward him, "hearts of love, trumps that shall win always and always while you and I are partners, my dear."—New York Times.

Habit Was Too Strong.

The force of old associations, as Samuel Beverly learned one Sunday morning, is something against which to be on guard. After thirty years of service as a railroad man, chiefly in the capacity of conductor, Beverly had retired and was spending his days quietly in his native town. Just after he had taken his accustomed seat one morning in church he was requested to perform the duty of an absent deacon, by assisting in taking up the collection. He was proceeding decorously along the aisle with the plate when, half way down the aisle, he came to the Atkinson pew. On this morning Mrs. Atkinson's Uncle Harvey, who happened to sit next the aisle, had dropped off into a pleasant little nap. When Beverly espied the old man, he unconsciously doffed the demeanor suited to the place and in a twinkling became official. He tapped the sleeping man on the shoulder. "Ticket, please!" he demanded, sharply and audibly.

Lot It Go at That.

The heavy villain of the barn storming aggregation stalked into the workshop of the village editor. "What did you mean by referring to me as a 'misfit' in your write-up of the performance last night?" he roared. "I meant," answered the local molder of opinion, "that you were entirely too great for the company you are with."

Exasperating Punctuality.

There are people who conscientiously believe themselves to be the soul of punctuality because they are always five minutes before the proper time. They are ready in the drawing room a quarter of an hour before it is time to go into the dining room for luncheon. It is the overpunctual, the "antepunctual," host who is attacked by brain fever and who sends his guests to wait twenty minutes or more stamping up and down a country station platform so as to prevent them from missing the train. To be always five minutes ahead of the clock is surely one of the most exasperating forms of so called punctuality imaginable.—London Spectator.

A Winning Bluff.

Fogg—What do you mean by saying that the thing can't be done? Gouger says it can be done, and Gouger is the best authority in the whole world. I suppose you will admit that? Fenderson—Oh, of course! If Gouger says it can be done, I have nothing more to say. Figg (after Fenderson's departure)—Who is this Gouger, and is he such an authority upon the matter? Fogg—Never heard of him in my life. Don't know there is such a person. Probably there isn't. If there is, don't know whether he is an authority on this or any other question.

Solved the Servant Problem.

Tired Housekeeper (in employment agency)—Oh, dear! I wonder if there'll ever be any solution to the servant girl problem. Employment Agent—Oh, yes, man. My wife solved it long ago. "Well, well! How?" "She got rid of the hull gang an' did the work herself."—New York Weekly.

Worship of Wells.

Worship of wells was everywhere common in England and Ireland before the days of Christianity. Even yet, in spite of the canons of St. Anselm, issued in 1102 against well worship, relics of it are found in some English and Irish neighborhoods. The third Sunday in May is known as Sugar and Water Sunday, it having been the custom for many centuries in the north of England to meet on that day at the wells in the neighborhood to drink sugar and water, a ceremony at which the village girls were supposed to be the hostesses of the young men. When this had been done, the party generally went to the nearest inn, where the young men returned the hospitality they had received with cakes, ale and punch.

HERE I AM AGAIN!

READY FOR THE 1905 HARVEST

I have been agent for and sold THE MINNIE HARVESTER ever since 1882, and have sold car loads of them. Every farmer knows the MINNIE and knows there is not another binder made that will take care of heavier grain and do better work than THE MINNIE.

I have also the KEYSTONE MOWER made in four and one-half, five, six and seven foot cuts and made by experienced men who know what it requires to make a good mower. I have

Hay Loaders, Rakes, Farm Wagons, Trucks, Buggies and also plenty of good binder twine

all of which will be sold at prices that are right. I will not be undersold. Give me a call or drop me a postal card and get prices.

The following petition was presented and read:

To C. Winne, Chairman of the Board of Supervisors of the County of De Kalb, State of Illinois:

The undersigned, Commissioners of Highways of the Township of South Grove, in said county, would respectfully represent that a bridge and approaches needs to be built over the Owens Creek, where the same is crossed by the highway leading from the village of Clare to Robt. Byers' farm, in Section 23, in said township, for which said work the township of South Grove is wholly responsible; that the total cost of said work will be two thousand dollars, which sum will be more than twenty cents on the one hundred dollars on the latest assessment roll of said township, and that the levy of the road and bridge tax for the two preceding years in said township was in each year for the full amount of forty cents on each one hundred dollars allowed by law for the commissioners to raise, the major part of which is needed for the ordinary repairs of roads and bridges.

Wherefore, the said Commissioners of Highways hereby petition you for aid, and for an appropriation from the county treasury of a sum sufficient to meet one-half the expenses of the said work.

Dated at Clare, Ills., this 4th day of March, A. D. 1905.

John J. Glawe, Wm. Masterson, Henry Decker, Commissioners of Highways.

The State of Illinois, De Kalb County, Township of South Grove, ss. Board of Commissioners of Highways.

We, the undersigned, Commissioners of Highways of the Township of South Grove, hereby state that we have made a careful estimate of the probable cost of the work above stated, and we do estimate that the probable cost of the same will be two thousand dollars.

Witness our hands this 4th day of March, A. D. 1905.

John J. Glawe, Wm. Masterson, Henry Decker, Commissioners of Highways.

The State of Illinois, De Kalb County, Township of South Grove, ss.

John J. Glawe, Wm. Masterson and Henry Decker, Commissioners of Highways of the Township of South Grove, being duly sworn, on oath say, that the bridge and approaches mentioned in the estimate to which this affidavit is attached, is necessary, and that the same will not be made more expensive than is needed for the purpose required.

John J. Glawe, Wm. Masterson, Henry Decker, Commissioners of Highways.

Subscribed and sworn to before me this 4th day of March, A. D. 1905.

W. H. Thomas, Justice of Peace.

Sandwich, Ill., March 3, 1905.

In the matter of the bridge to be built in South Grove Township, and approaches thereto, I hereby appoint H. C. Whittemore, Ed. Halt and T. W. Jordan on the part of the Board of Supervisors, as a committee to attend to the same.

C. Winne, Chairman of the Board of Supervisors.

Petition referred to Committee on Highways on motion of Mr. Von Ohlen.

AFTERNOON.

Board met at 1:30 p. m. and was called to order by Chairman Glidden. Roll called and all members found present except Mr. McClir.

Reports of grand jury to the judge of the Circuit Court for the February and June terms, 1905, and filed June 10, 1905, read to the board.

Mr. McMurchy presented and read the following report:

Mr. Chairman and Gentlemen of the Board of Supervisors:

Your Committee on Highways beg leave to submit the following report:

We, the Committee on Highways, to which was referred the petition of Highway Commissioners of South Grove for the construction of a bridge over Owens Creek, where the same is crossed by the highway leading from the Village of Clare, beg leave to report:

1st. That said petition was filed with the Chairman of Board of Supervisors on March 3, 1905. That a Committee of Supervisors was then appointed by said Chairman. That said committee met with commissioners of Highways of Town of South Grove and contract for said bridge was let in regular form.

2d. That said bridge is now under construction, and that we concur in the action of the chairman of Board of Supervisors in the appointment of said committee.

Respectfully submitted,

M. McMurchy, H. F. Hess, T. W. Jordan, Chairman.

Report accepted and adopted on motion of Mr. Whittemore.

Moved by Mr. Cheasbro that committees of the board proceed with the auditing of bills on file and present them to the board for acceptance. Motion prevailed.

Mr. Hess presented the following report:

Mr. Chairman and Gentlemen of the Board of Supervisors:

Your committee to whom was referred the petition of the Highway Commissioners of Town of Paw Paw for three bridges beg leave to submit the following report:

That the said petition is not in regular form and we would recommend that it be referred back to said Highway Commissioners for revision, as follows:

A petition for each bridge should be made separately, stating the location and the estimate of probable cost in each case.

Respectfully submitted,

M. McMurchy, H. F. Hess, T. W. Jordan, Chairman.

Report accepted and adopted on motion of Mr. Gormley.

On motion of Mr. Whittemore leave granted committee of this board on South Grove bridge to withdraw report filed by them this day.

Motion by Mr. Cheasbro to reconsider action taken on former motion made by him in relation to auditing bills on file. Prevalled.

Mr. Dodge presented and read the following report:

Mr. Chairman and Gentlemen of the Board of Supervisors:

Your committee to whom was referred the matter of blind people requiring county aid after careful examination beg leave to submit the following report:

We find that to comply with the law relating to such cases that it is necessary that a physician be appointed by the Board of Supervisors to examine and report to them upon such cases.

Respectfully submitted,

T. W. Dodge, F. S. Ault, S. M. Sanderson, Chairman.

Motion by Mr. Von Ohlen to accept and adopt report. Prevalled.

The following report was presented and read by Mr. Olmstead, who moved its adoption:

Mr. Chairman and Gentlemen of the Board of Supervisors:

Your Committee on Education have examined the per diem account of Lewis M. Gross, County Superintendent of Schools, from February 25th, 1905, to June 19th, 1905, and we find due him from the State of Illinois for fifty-three (53) days visitation, twelve (12) days spent in examination, eighteen (18) days spent in office work and four (4) days in other official duties, the sum of four hundred and one dollars (\$401.00) and we recommend that the same be audited and that the State Treasurer pay the same.

Recommended by L. M. Olmstead, Chairman.

Joshua Siglin, H. B. Gurler, Chairman.

Question being on acceptance and adoption of report, motion prevailed.

Motion by Mr. Cheasbro to lay motion made by him in relation to auditing bills on the table. Motion prevailed.

Board adjourned on motion of Mr. McMurchy until 9:30 a. m., June 14, 1905.

CHOLERA INFANTUM

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy

Ruth, the little daughter of E. N. Dewry of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by Hunt's Pharmacy.

In July

In July every wholesale house must sell out summer stock to make room for fall goods. Price has ceased to be an object and it is a time when we get some of our best bargains. The following are just received. No old stock mentioned in this adv.

25,000 yds. ribbon, satin on one side and Gros Grain on the other, all colors, numbers, 5, 7, 9 and 12 at 5c per yd; Nos. 16, 22, 30 and 40 at 9c yd.

Special purchase, from one of the leading manufacturers of the west, of a large lot of new, desirable, up-to-date 1905 ladies' wash skirts, 3 lots at 49, 69 and 87c, worth up to \$2 each.

Large lot of brilliantine and mohair shirts in browns, blues and blacks at \$1.69 and \$1.98. In the early season no skirt in this lot sold at wholesale for less than \$2.75. Ladies' black lace skirts, piped and trimmed with satin ribbon, \$1.98, early price \$4. Lace overskirts trimmed with silk and satin, early wholesale price \$12, now in 2 lots at \$3.49 and \$4.98.

210 Misses' Skirts, 3 lots at 98c, \$1.29 and \$1.49, less than 1/2 the value of the cloth.

Bought of a southern mill and shipped to us direct, 2600 lbs. of prime Turkish and brocaded towels which we offer at 5, 6, 8 and 10c each. New stock every day.

Each Saturday p. m. and evening, ice cream is served in our 5 and 10c dept.—cream, fancy dish and spoon, all for 10c. Remember dinner ticket, team ticket, introduction ticket and refunded car fare offers. C. F. HALL, Dundee.

One Dollar Saved Represents Ten Dollars Earned

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expense. Very often a few cents properly invested, like buying seeds for his garden, will save several dollar outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Hunt's Pharmacy.

Over the Northwestern Line
Special excursion to Colorado, Utah and the Black Hill, via the Northwestern line. Beginning June 1st excursion tickets will be sold to Denver, Colorado, Springs Pueblo, Salt Lake City, Hot Springs, Deadwood, Lead and Custer, S. D., etc., good to return until October 31. A splendid opportunity is offered for an enjoyable vacation trip. Several fine trains via the Northwestern line daily. Apply to agents Chicago & Northwestern R'y. Aug 12

MAGAZINE REVIEW

Thomas F. Millard, who has been in nine campaigns, and has often written for Scribner's Magazine, has returned to the East for that magazine, and will have in the August number an article on "The Fruits of Japan's Victory," which will be of special interest at this time when the Peace Conference is about to assemble in Washington. Mr. Millard has made a careful study of the best opinion in Japan, and presents in this paper the probable demands that the Japanese will urge at the Conference.

A Surprise Party
A pleasant surprise party may be given to your stomach and liver, by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure for headache, dizziness and constipation. 25c at Hunt's Pharmacy.

DETAILS OF DRESS.

Green gloves, violet pumps and purple parasols are a few of the eccentric novelties in summer dress. A whole bodice may be made of sash ribbon put together with fancy stitches or with insertions of lace. The new lisle thread gloves are lined with china silk. This lining is cool

GREEN CHIFFON SUNSHADE.

and comfortable to wear, but the gloves when soiled are practically worthless.

The hand bags that every modish woman carries are only in correct form when they match or harmonize with the costume.

Smartest of tan footwear is the low shoe of dark tobacco brown suede with a flat brown ribbon bow.

With morning gowns particular women are wearing the simplest kind of lingerie petticoats trimmed with a deep scalloped ruffle, above which appear French dots.

The all black hat is making its appearance again. It is too smart to be long out of the running.

One of the new ideas in French gowns is a panel effect reaching from the yoke to the hem of the creation.

The princess model in sheer lingerie fabrics is one of the latest modes.

Cool and attractive are the ecru batiste robes having the skirt and waist fronts embroidered in the English style. This batiste is not of the transparent kind, neither is it thick or low in weave, but of a good texture for wear in the morning.

The summery, airy sunshade here with illustrated is of pale green silk lined with puffed green chiffon. The handle is a crook shape carried out in whitewood, ornamented with a chain of chiffon.

NEW TINT IN CLOVES.

Every woman who wears long white gloves with her short sleeves knows how expensive it is to always have them immaculately clean. There is a delicate felle tint almost white that is very becoming to the hand and not so glaringly aggressive as white when in a soiled condition.

There is a new pongee material which has sprung up like a mushroom in the night. Its name is rather misleading, for it no more resembles pongee than it does chiffon, but is more like shantung silk. It is a mixture of cotton and rougher silk yarns. Anyway it is a fascinating fabric and takes most heavenly tints of begonia pinks, damask rose, wateau blue, montarte and butter color.

For the afternoon drive is a pretty little cape made of a new soft weave

EMBROIDERED MUSLIN BLOUSE.

of silk. The front of the cape is shaped like a bolero and the back falls in a couple of straight plaits. The wrap is completed with a wide turned back collar of raised embroidery.

A delightfully smart purple linen frock has a short circular skirt simply made with lapped seams and strappings. The little cutaway coat has an old rose velvet collar with a suspicion of the velvet under the linen cuff. A lawn blouse of the same shade with white valenciennes insertions and a rose leather belt is worn with the gown. A purple straw hat trimmed with ribbon and shaded pink roses completes the costume.

Many linen cutaway basqued coats, particularly scarlet ones, are worn with white skirts.

The tendency in hat shapes is more and more eccentric. One example is like a pancake folded in two worn across the head, the space at the back filled in with masses of flowers, while scarcely any trimming adorns the hat itself.

The pretty blouse illustrated is of embroidered blue muslin. The pointed yoke is crossed with entre-deux of valenciennes lace. The fullness is gathered with a heading about this emplacement. The sleeves have a lace trimmed cuff below a deep puff.

JUDIC CHOLLET.

Many New Subscribers
The Republican Journal has added many new subscribers of late, and all we ask is a trial order. 3 months for 25c.

The use of stimulants to spur up a tired and worn-out nervous system is becoming very common in these days of competition and exhausting business pursuits. The woman, tired out by a day's shopping and "just ready to fly" finds immediate relief in a hot cup of tea, as the man seeks his cigar for solace after a hard day's work. Dr. Pierce, nearly forty years ago, prepared a tonic for the use of weak women. He carefully eliminated any harmful or injurious substances, from its composition, excluding alcohol and narcotic drugs, and only incorporated such drugs as his long experience had proved to be useful in relieving woman's ills. Its success was immediate and remarkable, and it stands to-day as the foremost remedy for diseases of women. Dr. Pierce's Favorite Prescription. It strikes at the root of the trouble, stops weakening drains, relieves pelvic congestion and inflammation and gives tone and vigor to the organs.

"I want to tell you of the great improvement in my health since taking your 'Favorite Prescription,'" says Mrs. H. S. Jones, of Forest, N. C. "When I began its use I was a physical wreck and had despaired of ever having good health again. Could not sit up all day. I noted a great improvement before the first bottle was all used. Was suffering with almost every pain that a woman is subject to: had inflammation of ovaries, painful and suppressed periods, and other symptoms of female disease. After taking six bottles of 'Favorite Prescription,' I felt like a new person. Can ride horseback and take all kinds of exercise and not feel tired."

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure. No other pill can compare with them.

Weekly Market Report

Furnished by Russell, Freeman & Co., Livestock Agents, Union Stock Yards, Chicago. Corrected every week

Monday's run of 22,000 cattle followed by 7,000 on Tuesday met with good demand from all sources and at the close of Tuesday's trade the market is in a very satisfactory condition with good strength shown on all the handy weight, corn fed cattle. The grass steers that are plain are meeting with poor demand but prices on this class of stock were not notably lower. We quote:

Fancy finished heaves	55 70 to 6 25
Good to choice steers	5 00 to 5 65
Fair to medium steers	4 35 to 4 90
Common quality and short fed steers	3 75 to 4 15
Fancy well finished yearlings	5 20 to 5 60
Good to choice yearlings	4 35 to 5 10
Good to choice feeders	3 65 to 4 10
Fair to good feeders	3 10 to 3 60
Common light stockers	3 00 to 3 30

The proportion of butcher cattle in the receipts has been about an average and there has been strength shown on the strictly prime heifers and strong weight cows but canners and common cutters have again been low sale. The prospect on this class of stuff is anything but encouraging. We quote:

Choice to fancy heifers	4 90 to 5 30
Good to choice heifers	4 00 to 4 80
Medium to good heifers	3 40 to 3 90
Common heifers	2 40 to 3 20
Choice, heavy export cows	3 40 to 4 30
Good to choice cows	3 35 to 4 00
Medium to good cows	2 70 to 3 25
Common cows	2 25 to 2 65
Canners	1 25 to 2 00
Good to choice export bulls	3 40 to 4 00
Fair to good bulls	3 00 to 3 50
Bolognas and common bulls	2 35 to 3 70

Receipts of hogs for the first two days of this week are 56,000, and while yesterday's trade was active and prices higher receipts of 20,000 today were enough to more than satisfy the demand and yesterday's advance was lost leaving the market practically unchanged from the close of last week. We quote:

Mixed	5 45 to 5 60
Mediums	5 65 to 5 75
Heavy packing	5 25 to 5 50
Selected heavy shipping	5 65 to 5 75
Selected light (170 to 180 lbs. av.)	5 60 to 5 75
Little pigs	5 25 to 5 50

WOMAN HAPPIER THAN MAN.

She Has the Faculty of Enjoyment to
a Greater Degree.

Women have a better time in life
than men do. Under no circum-
stances would I choose to be a man.
If I had a chance to come to earth
again in another incarnation and
were given the choice I should with-
out hesitation elect to be a woman,
writes Angela Morgan for the New
York World. Women know how to
get the finest flavor from life. They
know how simply because they are
born to it, not because they acquire
the knowledge through effort.

To draw the real essence from liv-
ing one must be endowed with these
qualities: Imagination, intuition,
sensitivity and the capacity to love.
Women possess all these requisites
to a greater degree than men. For
this reason women can lay hold on
the subtler enjoyments of life. And,
as the subtlest enjoyments are the
best and most lasting, it is the wo-
men who have a monopoly of real
happiness in life. It is in her ca-
pacity to love that woman experi-
ences her greatest joys. Woman gets a
vast deal more out of love than man.
Show me the man to whom love
means one-tenth that it does to a
woman! When a man loves, the ex-
ternal scenery of life does not
change visibly to him. Life does not
become a thing bewitched and gild-
ed. His days and hours and mo-
ments are not permeated by love as
an influence. Love to a man means
an exhilarating chase for possession.
A woman pleases him, captivates
him, and he wants her for his own.
In possession, he finds a certain
pleasure—a certain pride and satis-
faction—but as for happiness, the
sort of happiness a woman extracts
from love—why, he doesn't know
the A B C of it! Once in awhile
perhaps a sense of it grazes his con-
sciousness, but he is too busy to
give it more than a curious thought
or two. His mind is too crowded
with practical things to admit the
"intangible." But when a woman
loves she lives. She does not live
until she does love. Love to her is
all absorbing, all transforming, all
embracing.

"Spoon Bill" Idiots.

The late Professor Laycock of
Edinburgh university used to divide
idiots into two classes—poverty
idiots and luxury idiots. The for-
mer were characterized by physical
deformity and the latter by refined
and delicate configuration, small
heads and great prominence of the
central region of the face. The lux-
ury idiots, whom he traced to indol-
ence and self indulgence through
many generations with breeding in
and in, he called also "spoon bill"
idiots and used to point out that
they were of the type represented
as aristocratic noddles. There was
less breeding in and in among the
upper classes than there used to be,
but he himself did not doubt that
exemption for a number of genera-
tions from any participation in the
struggle for existence, with high
feeding and effeminacy, tended to
induce mental weakness of a special
type.—London Telegraph.

A Use For Him.

An Englishman who was travel-
ing in the west in the early days
fell in with a long train of prairie
schooners. The leader of the car-
avan, according to the Buffalo Com-
mercial, announced that he and his
fellow emigrants were going to
found a town, having everything
that was useful and nothing that
was unnecessary. "We won't have
any waste," he said. "There isn't a
person in our party who won't do
some important duty in the new
town." The Englishman pointed to
an old and feeble man, with a bent
back and a long, thin, white beard.
"But that very old man there," he
said. "He can't possibly be of any
use to you, can he?" "Oh, yes,"
said the leader. "We open our new
cemetery with him."

ings the belles and beaux of the
place gather and promenade. They
have no more curious custom than
this, nor is it likely that it has a
parallel anywhere else in the world.
The men form a long line of two
abreast and circle around the outer
edge of the park, and the women in
a similar ring, revolving, as it were,
within the other, walk slowly around
in an opposite direction. In this
way every Romeo will see his Juliet
several times in the course of the
evening and exchange glances with
her, may even find opportunity for a
hurried whisper. It is a picturesque
sight, for all classes are to be found
in the procession. For the most
part the men wear the national em-
broided jacket and breeches of
leather, great cloth sombrero and
high heeled boots or shoes, with ri-
diculously pointed toes. The ex-
planation of this distressing custom
must lie in the equestrian traditions
of the country.

At 4 o'clock the crowd begins to
line the sides of the Puerte de San
Francisco and other streets leading
to the Paseo and wait for the car-
riages which at this hour form in
procession and proceed at a slow and
dignified pace along a never varied
route. They are filled with the
glowing beauties of the mixed Span-
ish and Indian blood. To see them
in their highest perfection they say
one must journey to Jalapa. "La
Ciudad de la Flores," it takes its
name as much from its beautiful
women as from its profusion of or-
chids, growing in the public streets.
The belles of the city are wondrous

ly beautiful in their dark and grace-
ful fashion as they wave their fin-
gers in salute to their waiting ad-
mirers on the curb.—Lee W. Zeigler

Obeying the Doctor's Orders.

"We get queer orders now and
then in the cigar business," said a
manufacturer who has a retail store.
"I have a customer who has been
dealing with me for years and who
never discovered that smoking ten
cigars a day between breakfast and
dinner disagreed with him until he
was fifty-three years old. For a
month I have missed him. Last
week he came in again and bought
the biggest and blackest cigar made
for stock trade. Then he gave me
an order for 200 cigars made from
his favorite tobacco. But he want-
ed them five inches long and one
inch in diameter at the center, close
rolled.

"We don't manufacture that size
except for trick cigars," I said.

"I know what I am about," he
replied. "The doctor says I must
smoke only one cigar a day, and I
mean to obey him. But I want that
one cigar to run the limit."—New
York Press.

Her Great Need.

Little Alice is old for her years.
One evening after she had gone to
bed she heard mamma and papa
laughing in much enjoyment over
a game of flinch. She longed to get
up and join them, but she knew
she must not. The next morning at
breakfast she was very quiet. Pres-
ently she drew a deep sigh:

"I feel the need of a husband,
mamma; I do feel it!"—Lippin-

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

At Hunt's Pharmacy; price 50c and \$1.00 guaranteed. Trial bottle free.

TALL, THIN AND MUSCULAR.

The American Type of Man Clearly Distinct From All Others.

There is as distinctive a type of American manhood as there is of any other country. True, the American people are a mixture. We combine several different races and bloods. But the intermixture has gone on so gradually, the original American type always prevalent, that the American man is a distinct representative of civilization, differing from the Englishman, the Frenchman and the German as much as these differ from each other.

Examination of the portraits of Revolutionary times and those of the present date show little if any difference between the men of the earlier times and those of the present day, save in the matter of attire. Dress the people of the present day as were the people of the Revolutionary epoch appared, and nothing could be found to establish a notable difference between the American of today and the American of the last quarter of the eighteenth century. Food, climatic conditions and occupations have all much to do with the physical peculiarities of a people. The races that have for centuries received no admixture of foreign blood retain peculiarities that seem unchangeable.

What people eat and drink, their dwelling places, the soil and climate they inhabit, their worship, amusements and work all determine looks. The American Indian when first met on this continent by adventurous Europeans lived almost exclusively on a meat and flesh diet, the product of chase and other adventure. He was tall, thin, muscular and daring. His eye was bright, his hearing acute. He looked the fearless being that he really was. He had to fight wild beasts and savage men. He feared neither. The early white settlers, obliged by the peculiar conditions of pioneer times to live in a measure like the Indians, became also tall, thin, muscular, daring. Their eyes flashed with the fearlessness that characterizes the American race of the present.

We have a more generous and varied diet than our ancestors. Diet affects personal appearance in a marked degree. We are becoming a larger and heavier race, but the distinctive features of a century or more ago are still in evidence. The

American is easily recognized everywhere he goes in foreign lands. He will for a long time present the same type that today distinguishes him from men of all other races.—Louisville Herald.

A Flirt and a Coquette.

There is all the difference in the world between a flirt and a coquette, although to many the terms are synonymous. "The coquette," according to one authority, "uses man as she does her dresses—she likes to be seen with a new one every day. She kills for the sake of killing. She plays on man's vanity to satisfy hers. The flirt, on the other hand, is not serious, and she does not want you to take her seriously. She wants fun, innocent fun, and if you can make up your mind to accept her for what she is worth she may help you to pass a very pleasant time. The coquette tries to lead you as far as she wishes you to go. The flirt does not lead you any farther than you wish to go. Flirts often make good wives; coquettes never." There you have the whole thing in a nutshell.—London Answers.

Marriage of the Dead.

A strange custom prevails among a certain tribe in the Caucasus. When a single young man dies, some one who has carried to the grave a marriageable daughter in the course of the year calls upon the bereaved parents and says:

"Your son is sure to want a wife. I'll give you my daughter, and you shall deliver to me the marriage portion in return."

A friendly offer of this description is never rejected, and the two parties soon come to terms as to the amount of the dowry, which varies according to the advantages possessed by the girl in her lifetime. Cases have been known where the young man's father has given as much as thirty cows to secure a dead wife for his dead son.

Finger Mark or Trade Mark-

Which?

Common crackers and wafers—fingered from the time they leave the bakery until you get them in a paper bag or the Biscuit, Crackers and Wafers baked by the NATIONAL BISCUIT COMPANY and packed in a package with all their oven flavor, delicious freshness and high quality? **Which will YOU have?** If you want to answer this question once and for all, try a package of either of the three delights mentioned below:

Social Tea Biscuit

Just the thing to offer with an afternoon cup of tea—or chocolate—or coffee. In fact, they're good to eat most any time just for the pleasure of it. Sweet and slightly flavored with vanilla.

Butter Thin Biscuit

A crisp, light, dessert biscuit, rich and satisfying, served as something out of the ordinary. If you really want a biscuit that's particularly nice, try a package.

Graham Crackers

So different from the ordinary Graham Crackers—different in baking—different in flavor—different in packing. More palatable—more satisfying—more nutritious. Made of the purest Graham flour and baked in a manner that only the National Biscuit Company knows.

Ever after you will be guided by the In-er-seal Trade Mark in red and white, on each end of a package, whenever and wherever you buy *Biscuit, Crackers and Wafers*.
