Smallpox Patient Dies at DeKalb—Steps Are Being Taken to Organize Ball Team at Hampshire

The Swedish Lutherans at St. Charles will erect a new \$8,000 church, work to begin at once.

The Illinois legislature has passed a bill prohibiting the shooting of live pigeons or other birds in marksmanship matches.

A peculiar fact is that 1905 began on Sunday and ends on Sunday, and therefore has 53 Sundays. This will not occur again in 110 years.

Allen Birch, one of the men suffering with small pox at DeKalb, died at two o'clock on Saturday as a result of the disease. The man had never been vaccinated.

Oregon, Ill., has eight cases of small pox says the Republican. Six of them developed the past week. All are said however to be of a mild form and under strict surveillance.

Worthwein & Zimmer, who have been in the meat market and stock buying business in Hampshire for about 20 years, recently sold their interests and will move onto their ranch in the west.

Rev. S. Griegleb, of Chicago, has accepted a call to the Congregational church at Kirkland and began his pastorate last Sunday. On the 18th of this month the new pastor will be married to Miss Marie Tazwell of Chicago.

The first steps are being taken toward the organization of a base ball team in Hampshire. Financial aid is being solicited and a dance is being talked of to raise additional money. The plans are to greatly improve the base ball park and erect seats there for better accommodation of the admirers of the game.

The United States Steel Company will erect a mammoth plant at Dixon at a cost of about \$2,000,000. The new shops will employ 6,000 men. Work of construction will commence about May 1. The proposed plant will be the largest now owned by the corporation. A movement is now under way to erect 500 new houses in the city to accommodate the large increase in the population.

The chief inspector of immigration agencies of Canada recently made an extensive tour through the United States, and upon his return to Ottawa reported that it is his belief that fully 60,000 settlers will go to Canada this year from United States. Last year 46,000 citizens of the United States found homes in Canada. If this sort of thing keeps up for a few years Canada will, at least, be a pretty good friend of Uncle Sam.

Surprised (?)

Mrs. G. W. Sowers invited in a number of friends Sunday afternoon, the entire proceedings supposed to be unknown to Mr. Sowers, it being his birthday anniversary. It is evident however that Mr. Sowers was "next" for he had arranged for some very good music for the entertainment of the guests, unknown to his wife.

Butter Market

The official price of butter on the board of trade is reported firm at 29 cents. One year ago it was 24½ cents. Twenty-nine cents was bid Monday but there were no offerings. The weekly output for the district was 457,300 pounds.

WHAT OTHERS THINK

Regarding Genoa and The Republican-Journal Industrial Edition

From a financial standpoint the industrial edition of The Republican-Journal was not a howling success, but accomplished just what the publisher desired. It advertised Genoa thruout a wide territory and showed that this office is equipped for turning out real work. It would be impossible to publish all the words of praise and pretty compliments handed to the publisher but they are all appreciated. Among the best letters was one received from Dr. R. R. DeWitt of Hampshire, who said: "Your special edition is a stunner. Its extent, artistic taste and fine mechanical work makes it one of the best and most complete I ever saw, and the result to your town must be most beneficial."

In nearly ever instance the letters received congratulate Genoa as well as the publisher. The Hampshire Register became so enthusiastic over the enterprise of Genoa business men that it even failed to mention the publisher's name, altho he was raised in that village and graduated from its high school.

Following are the comments of the press.

Sandwich Argus: The Genoa Republican-Journal for March 31, was a special edition containing thirty pages with a full and interesting writeup of that city and vicinity. There were many cuts and articles descriptive of Genoa and altogether it was a fine specimen of work.

DeKalb Advertiser: The Genoa Republican-Journal issued last week an industrial edition that is a credit to the office and to the town. It has illustrations of about everybody and everything over there, is nicely printed on good stock and is most liberally patronized by the advertisers. It was a big job of work and showed the quality of Publisher Schoonmaker's nerve and enterprise.

Dundee Hawkeye: The Genoa Republican-Journal has issued an industrial number that is a credit to the office and to the place. A fine write-up, supplemented by scores of cuts, booms the town; tastily displayed ads testify to the presence of wide-awake business men, and the edition that proves that Bro. Schoonmaker is a hustler, and has faith in Genoa. Even the casual reader will appreciate the fact that the issuance of this special number meant a great deal of hard work, but printers alone know just how much extra labor it made the Republican-Journal force. But "the end justifies the means," and The Hawkeye congratulates its contemporary on the result.

Byron Leader: We are in receipt of an Industrial Edition to The Genoa Republican-Journal, of March 31. It consists of Genoa's past, present and prospects for future development, also fine cuts of some of the dwellings of Genoa and its present city officials and a large and complete display of ads. It is a credit to the publisher, Chas. D. Schoonmaker.

Sycamore Tribune: The Genoa Republican-Journal issued an Industrial Edition March 31 consisting of 24 pages. The work was all done in the Republican-Journal office. Usually such editions are printed by special printing plants located in the cities, and it is no small task for a country publisher to get out such an edition unaided, particularly so when the work is of a quality reached by Bro. Schoonmaker in that instance. It is plain that he is the type of newspaper man which so enterprising a town as Genoa deserves.

Belvidere Northwestern: The Genoa Republican Journal is out this week with an elaborate special edition which contains many fine pictures of factories, homes, mercantile establishments, churches, schools, etc. The portraits of prominent business and professional men are also numerous. The work of Editor Schoonmaker certainly puts Genoa before strangers in a pleasant light and should do the little city some definite good.

Elgin Press: Genoa boasts of a paper that boasts of Genoa, and each may be proud of the other. The Republican-Journal, a live little paper in a live little town, this week issues a souvenir Industrial Edition of 2000 copies, giving in detail both a prospectus and a history of the town. Local business houses, local factories and residences are pictured in the edition. Faces of officials of the town, and prominent citizens beam out from its pages.

No one not acquainted with the intricacies of a printing office can comprehend the amount of time and trouble it takes to issue a handsomely printed paper such as the edition of the Republican-Journal. The enterprise of the editor, C. D. Schoonmaker, is to be commended, and well may Genoa be proud of the paper which is so justly proud of Genoa.

Marengo Republican: The Genoa Republican-Journal last week issued an Industrial Edition of 24 pages. It contained a well-written description of that lively city, with half tone cuts of the principal public buildings and residences, with many half tone cuts of the prominent business men. It was printed on a good quality of paper, had many finely displayed ads and involved a vast amount of work, very creditable to Charles D. Schoonmaker, the editor and publisher, and we hope it was a paying venture. It was also very creditable to Genoa, and ought to demonstrate the enterprise of both publisher and city.

Harvard Herald: The Genoa Republican-Journal of last week appeared as an Industrial number and was replete with fine cuts of business men, business houses and the industries that have made that thriving city in DeKalb county a credit to the state. The amount of work involved in getting up an edition of the kind referred to was great and Editor Schoonmaker should receive unstinted praise and unlimited patronage for the task he has performed with such accuracy as to make it an ideal edition.

Northeastern Journal, (Spring Grove, Ill.): We hereby acknowledge receipt of a model of a printer's art, hustle and ability in the shape of an Industrial Edition of the Genoa Republican-Journal published at Genoa, Ill., by our friend, Chas. D. Schoonmaker. This edition the people of Genoa should feel to be a direct compliment (as they doubtless do) to the development and progress of that city.

Nunda Herald: The Genoa Republican-Journal, published by our old friend, C. D. Schoonmaker formerly of McHenry, issued an illustrated industrial edition of ever so many pages, filled with photos of prominent men, business places and residences of Genoa with exhaustive write-ups, and historical matter. The issue was a gem and meant a lot of hard work for the publisher.

Marengo News: The Genoa Republican-Journal of last week issued a 24 page Industrial Edition giving a lengthy write up of that hustling little city. It also contains over one hundred illustrations.

THE BASE BALL FANS

HAVE CHANCE TO LIMBER UP NEXT SATURDAY

Genoa and Marengo High School to Try Conclusions on Local Diamond—Rooters Please Attend

The base ball season will open in Genoa tomorrow (Saturday) afternoon when the Genoa and Marengo high school teams will cross bats and hammer the horse hide about the diamond. The Genoa highs have been training for several weeks and no doubt the Marengo boys have been doing something in that line also, and a good game may be expected. Rooters should turn out and get their throats cleared for the season. There will be all kinds of fun on the local diamond this year and the home team should receive all kinds of encouragement. Most particularly is this so at the beginning of the season. Give the boys a good start and they will do the rest.

Following is the schedule of high school games for the season:

April 15, Marengo at Genoa.

April 22, DeKalb high school at DeKalb.

April 29, DeKalb Normal at DeKalb.

May 6, Sycamore high school at Genoa.

May 13, DeKalb Normal at Genoa.

May 20, Marengo high school Marengo.

May 26, DeKalb high school at Genoa.

June 3, Sycamore high school at Sycamore.

June 10, open.

Seventeen Year Locusts

This is supposed to be the year for the coming of the so called "seventeen year locusts," which insects, having arrived on schedule time after the lapse of the proper number of years, will doubtless make their appearance in the country this summer. One who studied the habits of the locusts writes as follows concerning them:

"The seventeen year locusts are due in June, 1905. They made their appearance in 1854, again in 1871 and the last time in 1888. The only damage done by them is the depositing of their eggs in the twigs of large trees and the bodies of small ones. They are apt to injure trees in the nursery or young orchards, especially where oak timber was standing seventeen years ago. They seem to thrive the best in oak timber, being seldom found anywhere else, and never in pine or hemlock forests.

Taken to Hospital

Judge Pond held county court in Genoa Thursday to inquire into the sanity of Geo. J. Mordoff. Upon examination the court found the subject in an unbalanced condition of mind, the cause of which is attributed mainly to old age. The present attack had been of three years duration. Though no attempts had been made at injuring self, he is very forgetful and entirely unable to wait upon himself, demanding constant care and oversight. He was taken to the Elgin hospital for treatment.

MODERN WOODMEN AT MALTA

Successful County Camp Meet—Election of officers

The Modern Woodmen County Camp Meet took place Wednesday of last week in the Woodman Hall at Malta. There was a good attendance, tho few delegations were as strong relatively as the one from Sycamore.

The convention was called to order by Mr. B. B. Smily, and immediately proceeded to elect J. H. Jarboe, of DeKalb, chairman, and M. F. Carlson, of Sycamore, secretary.

Delegates and alternates were chosen to attend the state camp meet at Decatur as follows: Delegates—C. C. Dean, of Somonauk; E. H. Browne, of Genoa; J. H. Jarboe, DeKalb; John Blake, Fairdale. Alternates—F. W. Olmstead and A. V. Pierce of Genoa, Jens Peterson, DeKalb; C. W. Gould, Fairdale.

The delegates were instructed to vote for C. W. Hawes for head clerk of the state organization, and Hon. G. W. Reilly for member of the board of directors.

A pleasant feature of the day was the dinner served by the ladies at the town hall. In general the visitors were royally entertained.

Another feature of interest was the address of F. O. Van Galder, of Rock Island, editor of the Modern Woodman.—Sycamore Tribune.

KILLED ON THE RAIL

Unknown Man Found Dead Near Maple Park Monday

The body of an unknown man was found lying on the Northwestern tracks, three miles west of Maple Park Monday morning at six o'clock. A physician decided life had departed five or six hours earlier.

The only mark on the body was a bruise on the forehead, which on examination revealed a fractured skull.

A black face mask was the only article in the pocket of the man.

The authorities believe the man is one of a gang, and that he either fell or was thrown from a passing train.

Missionary Society

The Woman's Home Missionary Society of Genoa just closed its first year's work. The society was organized in March 1904 with sixteen members and closed the year with forty-three members.

The society has sent flowers to the hospital, during the summer, boxes of canned fruit, jellies and clothing to Mercy Home in Chicago to be used for the needy, canned fruit and jellies to the Old People's Home, a Christmas box of clothing and supplies to a Montana Missionary and other similar work. The society has taken in \$100.45 during the year and used \$70.31 in their work. The year has been a profitable and a pleasant one.

JENNIE STANLEY, Secretary.

Spring Is Coming

Cold winter has come and gone, We know spring is coming on For, the balmy south winds blow, Warning the air and melting snow, And we hear the murmur of the rills As they go hurrying down the hills. In the trees the robins and blue birds sing A sure harbinger of spring, All nature, putting on garments new, Proving that it is most true, The longed for spring now is here, Welcoming back the glad new year. And old mother earth now is seen With a new dress of beautiful green And cattle are grazing all around, And man goes forth to till the ground. For in the scripture it is said "Man, by the sweat of his brow, should earn his bread." E. B. ARNOLD

NO SEWER THIS YEAR

IMPOSSIBLE TO SECURE OUTLET AT THE RIVER

Otherwise the Venture Would Have Been a Possibility—Six Hundred Dollars Raised in Five Minutes

The prospect for a public sewer from the city to the river has gone glimmering, for the present at least, thru trouble in securing an outlet. Had it not been for this difficulty the project would have gone thru without a doubt.

Main street business men and others who would be directly benefited by the sewer met at the city hall last week for the purpose of formulating plans. Altho not all were present there were enough to show the sentiment with regard to proper drainage. There was not one in the room who did not favor the plan as stated in the Republican-Journal of last week, that is, paying enough more, with the contribution of Ira J. Mix, to put in a twelve inch pipe. In less than five minutes after a call was made for contributions six hundred dollars was raised, leaving only about two hundred to make good. It was anticipated that there would be some difficulty in getting right-of-way and an outlet, but no one anticipated that the cost would be greater than the cost of laying the sewer.

The most available place for the outlet is owned by Mrs. V. C. Wilcox. Mrs. Wilcox has learned thru legal advice that she would be made first defendant in a damage suit should the stream become polluted, if the sewer emptied on her land. To avoid any such future complications she refused to allow the privilege, but offered to sell the entire tract of land involved, consisting of about thirty acres, and asked about \$65 an acre. This would bring the cost of the sewer up to about \$2750, an amount that could not be raised by the few men who had the matter in hand. At a meeting Monday evening it was decided to abandon the matter for the present.

Mr. Mix can not, however, await future developments and will proceed at once to put in a six inch pipe.

EGGED A PASTOR

Methodist Clergyman at Oregon Bombed with Hen Fruit by Enemies

Rev. Fred D. H. Stone of Oregon who is heading the reform movement in that town was bombarded with hundreds of eggs when he left the caucus at which a reform ticket for the city election was nominated a few nights ago says the Belvidere Republican. He was starting for home with Edgar Jones, manager of a piano factory when he was attacked. Several other leading citizens of the place were also attacked and their clothes ruined.

A reform wave has swept over Oregon in the last few weeks and a crusade is on against saloon keepers who break the Sunday closing law. Many gambling dens have been driven out.

As a result of this caucus H. A. Smith a leading attorney and a former candidate for congress, was nominated as reform candidate for mayor.

Rev. Stone is the pastor of the Methodist church at Oregon and has been active in the development of public sentiment against the violators of the law.

Cheated Death

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters which effected a complete cure. I also found them of great benefit in general debility and nerve trouble and keep them constantly on hand since, as I find they have no equal." Hunt's Pharmacy guarantees them at 50c.

A Remarkable Wound.

John A. Wiggins of Center Tuffonboro, N. H., who has just been compelled to undergo an operation because of wounds got in the civil war, received a remarkable wound at Chancellorsville, though it was not the one which now causes him so much trouble. In the latter battle a pistol bullet and a minie ball struck him at the same spot and at almost the same instant.

The Prison Editor.

There is a plaintive note in the following advertisement in a Belgrade paper: "Whoever wishes for a snug berth in this cold weather can apply to our office for the post of responsible editor at \$10 a day. We will see that he is supplied with good food during his period of incarceration in the state prison."

His Best Degree.

Professor James Stillman of Stevens institute is the possessor of several degrees from various institutes of learning. He often relates with pride, however, that he once received two in one day, says the New York Times. On the day that he received his Ph. A Scotsman owned a fine orchard which he had fenced around with a hedge. One evening while taking a walk in the orchard he observed a neighbor creeping through the hedge for the purpose of stealing his fruit. "Sandy! Sandy!" he exclaimed. "Whaur are ye gaun?" "Back again," answered Sandy, wriggling crab-like through the hedge.

George III. and Our George.

In his reminiscences of diplomatic life Andrew White tells a pleasant anecdote of Empress Frederick, the German emperor's mother. The American ambassador had mentioned a certain pathetic picture of George III. to the king's granddaughter, and in talking of the long ended bitter feeling between the United States and Great Britain he said, "It is a remembrance of mine, now hard to realize, that I was brought up to abhor the memory of George III." At this the empress smiled and answered, "That was very unjust, for I was brought up to abhor the memory of Washington."

Kitchen Hints.

Milk will keep sweet longer in a shallow pan than in a pitcher.
A simple method of cleaning lamp chimneys is to hold them in the steam from a kettle and polish with a newspaper.
If soot is dropped on a carpet, throw down an equal quantity of salt and sweep all off together.

Hair Pillows.

There is a growing fancy for hair pillows in place of feathers. These are much cooler than the old style head rest, have no odor and retain their firmness. They are made to order only, but are inexpensive, costing less than half as much as those made of live goose feathers.

Mustard Plasters.

A mustard plaster warranted not to blister is robbed of half its terrors. Mix about three parts of flour to one of mustard, moisten with

white of egg and spread between two thin pieces of cotton cloth. Do not let it stay on the flesh more than twenty minutes. If the mustard is not very strong, lessen the quantity of flour. If sharp, increase the proportion of flour.

To Press Trousers.

In pressing trousers turn wrong side out, spread flat, moisten the knees thoroughly and press each leg carefully with a hot iron. Then turn, fold with long seams on the legs exactly together, cover with a damp towel and press each leg separately.

Peanut Butter.

Shell freshly roasted peanuts and skin them; then pound to a powder. Rub to a paste with half as much butter as you have peanut powder. Salt to taste and spread on thin slices of bread.

Pine Tar in the Sickroom.

It is a good plan to burn pine tar occasionally in a sickroom, as it is an excellent disinfectant, and it also induces sleep.

An Elephant Story.

An elephant passing along a street in Delhi put his head through an open shop window where some tailors were working, and two of them pricked his trunk with needles. The animal passed on, but stopped at the next pool of dirty water, and, filling his trunk, he returned to the shop and squirted it all over the tailors and spoiled their work.

A Bright Scholar.

"How do you like school?" asked a father of his little daughter after her first day.
"I like it awfully!" was the reply.
"And what did you learn today?" inquired the interested parent.
"Oh, a lot!" replied the little daughter. "I've learned the names of all the boys."

A Rude Wind.

A little boy was taking a walk with his father on a very cold day when a strong wind was blowing. After a short time he remarked: "Father, isn't the wind rude? It will neither go round you nor stay behind you, but goes right through you."

often ends in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, Ohio, "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at Hunt's Pharmacy.

Flowered percales are among the new offerings and are a nice innovation.

Any girl handy with her needle can make a Du Barry hood. This hood is the furore now and is made of gauze lined with soft silk.

On many of the dressy green spring gowns will be applied a band of ivy leaves. These leaves are made of silk and formed into bands, each leaf having around it a delicate tracery of braid.

Footlark silk is not the top notch of fashion, but so serviceable and dainty

and white check. Black taffeta composes the revers, collar and deep waist belt.

GOWNS AND MATERIALS.

All the smart tailored gowns will have a touch of lace about them, especially the collars and cuffs. A pretty innovation for the tailored dresses are the lace cuffs, which are deep and bordered with frills of mull both top and bottom.

There is a new material for the lingerie shirt waist called Paris muslin, which, together with organdie, will be very much used. China silk is another favorite material, and the new designs are blurred and striped very like the chine silks. Korean pongee is a smart

CORAL PASTEL DRESS.

is a gown of this material that few women will be without at least one dress of this kind for summer wear.

Madras for shirt waist material will take the place of the heavy chevots of last year. The new tailor made shirt waists have sleeves quite full at the top, but at the bottom they fit into the cuff perfectly plain.

A lovely tea gown is of tomato colored chiffon taffeta. A high draped band of taffeta in a paler shade passes under an overcoat of lace. The terminations of this resemble stole ends in front, and quite a Louis effect is gained in this way. The sleeves are rather small, finished just below the elbow with ruffles of lace.

A Parisian model gown is here illustrated. It is made of a new shade of cloth called coral pastel, which is a somber shade of coral pink. The long redingote of plain cloth is of this color, while the platted skirt is of dull coral

MAUVE CREPE DE CHINE WAIST.

fabric for thin silk waists, and under these will be worn colored silk slips.

The dressy waists will all have short sleeves, which is sad news for the woman with a badly turned waist.

The festoon idea of trimming made famous by Marie Antoinette is reproduced in trimmings made of braid and lace.

Lace will be everywhere on dresses. Irish crochet and valenciennes are the favorite makes. On many frocks the two laces are mingled. A new way of applying all over lace is to use it in bands edged top and bottom with a narrow ruffle of val lace.

The waist pictured is of pale mauve crepe de chine. A deep V shaped yoke of lace filled in with a chemisette of embroidered mull is introduced back and front. The puffed sleeves are gathered into tight cuffs of lace.

MILLINERY HINTS.

The new hats are an entire change from anything we have been accustomed to of late. Instead of the dead level at which the flat shape was supposed to maintain itself on our heads it is now tip tilted over the face at a somewhat alarming angle by means of a bandeau of ribbons or flowers.

Much prettier is the wattleau toque, with its saucy angles and curves and its dainty bouquets of flowers.

The cavalier hat with one upturned brim is the best type of the large hat.

GIRL'S LINGERIE HAT.

But bear in mind, whether hat or toque, if it is not tilted up behind it must be tilted at the side. Fashion abhors anything in the millinery line on the straight at present.

Blue, green and lavender roses may wound one's artistic sense, but they are lovely just the same.

Dead roses were never so pretty as the artistically crumpled and withered brown roses on the new hats.

In the spring modistic dispensation of things sartorial ribbons are to be allowed full play. They riot over frocks and hats alike as artful bows, as stiff cockades, as meandering ruches or flying streamers.

Creamy pink and white carnations are new in millinery.

The girl's hat illustrated is a French model. It is composed of fancy erin bordered with a ruching of gathered mousseline de soie, beyond which are set in on the brim motifs of embroidery. About the crown is a wreath of small roses fastening at the side with a satin chou.

SOME NEW FABRICS.

The very best materials for the serviceable shirt waist suits are the new velvings, which are thin enough to be comfortable on cool summer days. Many of the prettiest examples are of iridescent colors.

Then there is velving in black and white squares with dots of crimson, pink or pale blue over its surface. In shepherd plaid the smartest design is in the tiniest check imaginable. The coloring is in pale blue and white, with the white so blurred that it only shows in certain lights.

A modish way of making a gown of this plaid is with a skirt box plaited in

ORIENTAL LACE FROCK.

groups of three stitched almost to the knee. At this point of vantage are put in at intervals plaited panels finished with a stitched band across the top. The coat is long and almost tight fitting, reaching to the knee. It is single breasted and has a smart shawl collar and cuffs of blue and white embroidery. A white china silk blouse is worn with the coat and skirt, and the waist is finished with a girde formed of three shades of blue ribbon toning from pale to medium blue.

A white sailor hat bound with blue silk and trimmed with cornflowers is the accompanying hat for this costume.

The latest idea of fashioning a summer silk dress of hairlines, fine check or changeable effect is to trim it with plipings of pure white taffeta. No matter what the blendings in the silk employed, pipings of white, and only white, are the proper caper.

The charming frock illustrated is of oriental lace. It is so put together that the waist and skirt have the appearance of being made in one. This effect is gained by rows of shirring which exactly match. The skirt is formed of three lace ruffles. The waist is shirred at the neck into a deep round yoke edged with a lace bertha. Heading the bertha are round lace motifs.

IN THE OLD DAYS.

How close to our hearts are the memories of our childhood. When you were a barefooted little urchin running in the grass, and munching green apples, you were able to digest anything and feel all right the next day.

Sunshine and good air gave you an appetite. For many people it is impossible to get out in the sunshine and good air, and for those who are doomed to sit for hours within four walls perhaps alongside of consumptives or those suffering from catarrh or other disease, it means sickness and ill-health. Indigestion is only one of the many symptoms of impure blood as well as a disordered condition of the stomach. Thirty years ago, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., found that certain herbs, barks and roots manufactured, without the use of alcohol or opiates, into a concentrated extract, which he called Dr. Pierce's Golden Medical Discovery, made a stimulating tonic for the stomach, helped digestion and assimilation of the food and eradicated poisons from the blood. This is nature's cure for indigestion, and by correcting the stomach, and thereby feeding the blood on pure materials, the red blood corpuscles are increased and the body established in a healthy state. No one suffers from catarrh who has plenty of red blood corpuscles and a good digestion. Catarrh in all its forms is a stagnation of the blood. Introduce pure red blood into the system by taking the "Medical Discovery" and health is assured. Dr. Pierce's Golden Medical Discovery has borne the stamp of public approval for the past third of a century, and will do more to improve the health than any other remedy.

Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headache.

EIGHTY YEARS OLD

Relatives and Friends Assist John Taylor in Celebrating Event

On Tuesday of this week, John Taylor celebrated his eightieth birthday, about thirty relatives and near friends gathered to do honor to the occasion.

The event was a complete surprise for Mr. Taylor. He had gone to the depot to meet an old friend, and upon his return found the house filled with company who had responded to invitations to assist in making the day one long to be remembered.

As a testimonial of their love and esteem, those present gave Mr. Taylor a fine Morris chair.

The following were present: Mr. and Mrs. O. F. Lucas, Belvidere, Ill. Mr. E. Fay and Mrs. Clara Lawrence, Elgin, Ill. Mrs. Nora Smith, Spencer, Iowa. Messrs. and Mesdames: John Moyers, Henry Landis, John O'Brien, L. A. McCollom, Bert Moyers, Ed. Taylor and children, L. C. Shaffer.

Best Cough Medicine for Children

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale Hunt's Pharmacy.

The new towns along the Chicago Great Western Railway offer wonderful openings for all lines of business and trade. "Town Talk" gives particulars. For Sample copy address, Edwin B. Magill, Mgr., Townsite Dept., Chicago Great Western Railway, Omaha, Nebraska.

Frightful Suffering Relieved

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at Hunt's Pharmacy, guaranteed.

Weekly Market Report

Furnished by Russell, Freeman & Co., Livestock Agents, Union Stock Yards, Chicago. Corrected every Week

Receipts of cattle for the first two days this week are 32,000 and with these heavy receipts the market was in very good condition and a good strong demand from all sources and prices were steady with the close of last week. At the close of Tuesdays trade we quote:

Choice to fancy finished steers	\$6.25 to 6.75
Good to choice finished steers	5.62 to 6.15
Export steers	5.25 to 5.60
Fair to medium short fed steers	4.85 to 5.15
Common light steers	4.25 to 4.75
Fancy, well finished yearlings	5.50 to 6.25
Medium yearlings	4.75 to 5.35
Good to choice feeders	4.50 to 4.90
Common to good feeders	4.00 to 4.40
Common light feeders	3.15 to 3.75

There was a fair supply of butcher stuff and the market was active at prices practically the same as the close of last week. At the close of Tuesdays trade we quote:

Choice to fancy heifers	4.75 to 5.40
Good to choice heifers	4.25 to 4.65
Medium to good heifers	3.60 to 4.10
Common heifers	2.75 to 3.35
Choice, heavy export cows	4.25 to 4.75
Good to choice cows	3.60 to 4.15
Medium to good cows	3.10 to 3.40
Common cows	2.60 to 3.00
Canners	1.50 to 2.25
Good to choice export bulls	3.75 to 4.40
Fair to good bulls	3.25 to 3.60
Bolognas and common bulls	2.50 to 3.15

Receipts of hogs today 18,000; market 5 to 10 higher. We look for a good market the balance of the week and feel bullish on the future market. The range in prices is very narrow.

Mixed	5.50 to 5.60
Mediums	5.60 to 5.65
Heavy packing	5.50 to 5.60
Selected heavy shipping	5.60 to 5.67½
Selected light (170 to 180 lbs. av.)	5.45 to 5.57½
Little pigs	5.10 to 5.35

Remains of the Hampshire mail thrown from the midnight train were found west of the depot in this city Thursday morning. All that could be found of the sack were the lock, metal clasps, rivets and a package of letters, the rest having been burned. The letters found were badly charred. It is supposed that the sack became entangled under the cars and was carried to this place where it caught fire and dropped to the ground. Whether there was any other mail in the sack than the one package is not known.

Mrs. Eunice J. Jackman

Mrs. Eunice J. Jackman died at her home, corner Exchange and Locust streets in Sycamore, on Friday last, April 7, her death resulting from heart trouble and asthma.

Mrs. Jackman was born in Warren county, N. Y., May 15, 1833. She became a resident of DeKalb county, when a child. In 1857 in Sycamore she was married to Charles D. Jackman, who was born in Sycamore township in 1837, being one of the first white children born in this county. He died in 1878. To them were born six children, of whom there are surviving: Merton F., Adelbert C. and Abner H.

Mr. Jackman served in the war with the Union Army with Co. C 105 Ill. Volunteers from the organization of that regiment until the close of the war. After his death Mrs. Jackman with the four surviving children continued to reside on the old homestead near Genoa for some time, and in 1896 she removed to the city of Sycamore where she resided until her death.

Mrs. Jackman was a member of the Advent church at Genoa.

The funeral services were held at the home in this city on Monday at 10 a. m., and were conducted by Rev. C. S. Moore, of the Methodist church. The interment was in the cemetery at Genoa.

BLACK-DRAUGHT STOCK & POULTRY MEDICINE

This great stock medicine is a money saver for stock raisers. It is a medicine, not a cheap food or condition powder. Though put up in coarser form than Theodor's Black-Draught, renowned for the cure of the digestion troubles of persons, it has the same qualities of invigorating digestion, stirring up the torpid liver and loosening the constipated bowels for all stock and poultry. It is carefully prepared and its action is so healthful that stock grow and thrive with an occasional dose in their food. It cures hog cholera and makes hogs grow fat. It cures chicken cholera and roup and makes hens lay. It cures constipation, distemper and colds in horses, murrain in cattle, and makes a draught animal do more work for the food consumed. It gives animals and fowls of all kinds new life. Every farmer and raiser should certainly give it a trial.

It costs 25c. a can and saves ten times its price in profit.

STATE LEGISLATURE

What the Solons at Springfield Are Doing for the Commonwealth.

STATE HAPPENINGS RECORDED

News of Illinois Prepared for the Benefit and Convenience of Our Readers.

Springfield, Ill., April 8.—Only two members of the senate were present, Rees and Bare, the former presiding. Practically no business was done. Bare introduced a bill repealing the fellow-servant law, and asked that the record show that the bill was introduced by request, the request being made by the Federation of Labor.

With no quorum in house no attempt was made to pass bills. House bills on second reading were taken up and a score or more advanced to third reading. The list included the following: Making the per diem fee of clerks of circuit court in counties of first class \$6 a day; forbidding the employment of females around buffing or polishing or other high speed wheels in factories; prohibiting any disbarred lawyer from practicing; requiring nine operators to furnish shot-firers in mines; providing that divorce shall revoke divorced persons interest in will.

The house, in fact, went over its calendar with a fine tooth comb, and by the time the three hours' session had reached its close enough bills were on third reading to keep the house busy all next week answering to roll calls on the passage of bills. Twenty-six house bills and fourteen senate bills were advanced to third reading, and twenty senate bills and one house bill were advanced to second reading, and the house is now in a position to do work next week that will show.

Springfield, Ill., April 10. — After having been in session fourteen weeks the Illinois legislature finds itself with little accomplished and a great burden of business ahead of it to be transacted within the next month, if at all. No great measure has been sent to Governor Deneen to become a law. None of the party issues has been disposed of. The senate has passed 123 bills, many of them of minor importance. The house has disposed of a dozen. The senate has passed six house bills, the latter being without amendment, and were sent directly to the governor. Four house bills were passed by the senate without amendment.

What will be done this week? There is plenty to do, and probably in the house, corporations, both domestic and foreign, and insurance companies, will receive considerable attention. Among the eighteen senate bills on third reading in the house, a large number of which will be reached this week, is the senate bill requiring foreign insurance companies to pay 2 per cent. of the gross receipts of the agency to the municipality in which it is located, half of which goes to the firemen's pension fund.

The week in the house will be one of roll calls. The calendar is crowded to the limit with house and senate bills on third reading, and many hours of the sessions of the week will be required to dispose of these measures. Three bills are also on special order, two of which are bound to take up considerable time in debate. These are the elections committee ballot bill and the Burke-Lindly civil service bill.

Springfield, Ill., April 11.—Dr. Norden's comprehensive civil service bill, applying civil service regulations to all departments of the state government, has been made a special order on third reading for tomorrow morning in the house. Dr. Norden moved that this action be taken. There were two or three very pronounced "objects" from the Republican side, but the speaker ignored them and tomorrow Dr. Norden's bill and the Burke-Lindly bill applying civil service to Cook county and the sanitary district will come up for passage. This action follows the decision reached during the day at conferences between Governor Deneen, Speaker Shurtleff and Dr. Norden.

Trautmann introduced two bills. One appropriates \$1,000 for the State Milk Producers' institute, the other provides for the condemnation for joint use of street railway tracks and safety appliances in cities, when the use of the tracks is wanted by a suburban line otherwise shut out from entry to the city. The bill was read the first time and ordered to second reading without reference.

The bill exempting members of the editorial staff and mechanical departments of newspapers from jury service was advanced to third reading. Three other bills of minor importance were also advanced and the house adjourned for the day.

Senators Bare, Rees and Dunlap were present in the senate chamber when the upper house met at 5:30 p. m. Bare presided. No business was transacted.

Springfield, Ill., April 12. — Chaplain Bradford in the house devoted almost his entire opening prayer this morning to a supplication for the safety of President Roosevelt, now on his hunting trip through the west and southwest. He drew a picture of the dangers into which the chief executive was going and prayed for his safe return and safety.

Among the bills passed were the following: Allowing fraternal beneficiary societies to merge upon a two-thirds vote of the members of each society; providing for a fee of \$1 to

witnesses from outside the county before grand juries; the divorce bill formulated by the committee on judiciary, prohibiting the marriage of divorced persons for one year, except the miscreant party in cases of adultery and prohibiting the guilty one marrying again for two years; fixing the salaries of judges of circuit and superior courts in Cook county and circuit courts in other counties; giving each township the appointment of a four-year scholarship in the state normal schools, to be won by competition examination between eighth-grade graduates.

McKinley's anti-trust bill passed by house was reported to the senate and referred, McElvain's bill amending the convict labor law so as to permit the purchase of printing supplies in the open market, regardless of the restrictions of the law, was killed by a tie vote. Townsend recalled to the order of second reading his local option bill, and submitted a substitute which is designed to protect prohibition territory such as Hyde Park in Chicago. The shot-firers' bill, prepared by the committee on mines and mining and endorsed by the United Mine Workers, was reported favorably from the judiciary committee, and sent to third reading.

The senate passed bills amending the farm drainage act to meet the objections to the measure raised in the supreme court; making it unlawful to sell unmarked convict-made goods manufactured in other states, and increasing the salary of the secretary of state mining board from \$1,000 to \$1,500 per annum. Many bills were advanced on the calendar and several new measures were introduced.

WHAT OTHERS THINK

Regarding Genoa and The Republican Journal Industrial Edition

(Continued from Page 1)

tions of Genoa's business houses, residences and business men. The business men gave the enterprise substantial support in very liberal advertisements. The publisher, C. D. Schoonmaker, is one of the pushing newspaper men in DeKalb County.

Hampshire Register: That there is unusual enterprise among the merchants and townspeople of Genoa was shown in the Industrial Edition gotten out by the Genoa Republican Journal last week. The work was a creditable one in every detail and contained a brief writeup of Genoa and its wide-awake business men, together with half tones portraits of each and pictures of some of the homes.

McHenry Plaindealer: Last Saturday morning we, as well as a number of McHenry's business men received from the former manager of the Plaindealer, C. D. Schoonmaker, an Industrial Edition of the Genoa Republican Journal. The edition is one of the largest, as well as the best, that we have ever seen. It contains half tone cuts of the various enterprises of the hustling little city of Genoa, its churches, fine residences, and its business people, with a very capable writeup of each and every one. The press work and mechanical part of the edition is superb. Mr. Schoonmaker has given the people of Genoa, just as we predicted, one of the best papers she has ever had or ever will have. We congratulate our former manager upon the good success with which he is meeting.

Sciatic Rheumatism Cured

"I have been subject to sciatic rheumatism for years," says E. H. Waldron, of Wilton Junction, Iowa. "My joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the old trouble for many months. It is certainly a most wonderful liniment." For sale by Hunt's Pharmacy.
