Our Black Band coal at \$6.50 is the best you can possibly buy. None better at the price than Wilmington Chunks \$5.00.

K. Jackman & Son.

Mrs. Jeffrey and daughter, Miss Lizzie, left Tuesday evening over the St. Paul road for Clarmount, Minn., for an extended visit with relatives.

Do you want a house with four acres of ground in Genoa? If you do, come and see me. I believe that I can suit you.

D. S. BROWN.

Will Cooper gave a number of his friends a ride in an Irish Jaunting Car Wednesday. The rig was purchased at Belvidere and is the second one in use in this section of the country.

The eight year old daughter of Mr. and Mrs. Henry Krueger of New Lebanon is quite ill. Her sickness is due to an attack of measles, later developing into lung trouble.

If you want to buy a 40 acre farm, 60 acre farm, 80 acre farm, 120 acre farm, 160 acre farm or a 240 acre farm worth the money, call on D. S. Brown, at Exchange Bank, Genoa, Ill.

Miss Mayme Kirby, on account of sickness, has been compelled to give up her school duties for the present and is spending the week visiting Miss Katherine Mulroyan.—DeKalb Chronicle.

The Quaker Doctor and his company of entertainers have been here the past week at the opera house. The entertainments have been good and have been fairly well attended. They are here for two weeks.

After the usual order of business at the Eastern Star lodge last Friday evening the remainder of the evening was spent in a social way. Entertainment was furnished in the way of games, after which refreshments were served.

On March 20 will occur an examination of the confirmants of the German Evangelical Lutheran church. There are fifteen in number, two coming from Hampshire. On Sunday, March 28, they will be confirmed and join the church.

The literary society of the public school will give an interesting program Friday afternoon. Some time has been spent arranging the program, which is above the general average, and undoubtedly will be greatly enjoyed. An invitation is extended to the public.

Miss Josephine Corbin of New York City gave a very instructive talk at the M. E. church last Sunday evening on the subject of Home Missions. She has had charge of this department of the church work for many years and the recital of her experiences were of interest to all.

We have purchased direct from W. F. Schrafft & Son, Boston, a dainty line of chocolates and bonbons. These goods are all put up cartons, hence are not exposed to dust, atmosphere or handling. Schrafft's are higher in price than ordinary candies, but if you appreciate quality and delicious flavor, the price is a small factor. Hunt's Pharmacy.

Residence property—improved and vacant—for sale.

**OUR SIXTH
Mill End-Sale**

Has been the most successful sale in our store's history, ever since the opening day our store has been thronged with eager satisfied customers, for not one customer has to our knowledge left our store dissatisfied or disappointed, on the other hand their expectations were more than realized and returning to their homes and showing their purchases to their friends and neighbors have advertised the Mill End Sale and its money saving advantages better and more impressively than pages of printed matter could do it.

It is self evident that a sale that can attract customers from 20 miles in every direction and continue day after day without diminution in interest and sales must have a solid foundation and the best kind of a reason for its existence and continuance. The reason of the existence of the Mill End Sale has been well explained in our previous ads. in this paper. It is the method adopted by leading manufacturers in all lines of business to dispose of their short lengths, odd lots, broken sizes, accumulations at prices that represent but a fraction of the actual value in order to speedily clear them out.

The reason of the continuance day after day is because of its magnitude and the nature of its offerings. Were it a sale of ordinary import its force would be spent in one or two days. We would continue the sale indefinitely were it possible to secure Mill Ends but mill ends are not made purposely, mill owners avoid them as much as possible and a Mill End Sale would be impossible without Mill Ends.

We have however secured an extra lot of Mill Ends and will continue the sale over to next week Monday and Tuesday, and for those two closing days we have in store for you even better values than have prevailed throughout the past week.

Values such as we offer are possible under Mill End Sale conditions. It is indefinite when we can have another. We have had only six in the past eight years. It might be two years before we are assigned another, so lay in a supply of merchandise while this sale is in progress. You won't be able to buy it cheaper.

What's in a Name

A tall western girl named Short Long loved a certain Mr. Little. When Little, little thinking of Short loved a little lassie named Long. To make a long story short, Little proposed to Long, and longed to be even with Little's shortcoming. So Short meeting Long, threatened to marry Little before Long, which caused Little in a short time to marry Long. Did tall Short love Little less because Little loved Long?

TWO CARLOADS of Buggies and Farm Machinery

THE FOLLOWING LINES ARE THE BEST FOR THE MONEY

TE EUREKA BUGGIES

WHEELS

Second-growth hickory, screwed rims, ¼-inch round edge steel tires, bolted between each spoke. Wheels are the foundation; we use the best and strongest.

BODIES

Ash sills, whitewood panels, swelled sides, concave risers. Our bodies are made of thoroughly seasoned woods, put together by hand in the best possible manner, will not split or open at the corners. The risers and side panels are made from one piece.

TRIMMINGS

We use nothing but the best No. 1 machine buffed leather in our tops, and 28 ounce rubber in the leather quarter tops. The best grades of wool-dyed broadcloth and all-wool Bedford and whipcords are used. Rubber mats are used in most of our buggies, but good carpets will be furnished if desired. Surreys are fitted with good carpets. Dashes are all artistic patterns, made from the best patent leather. Cushions and backs are hair stuffed, spring cushions and backs. Besides using good materials in our trimmings, they are well made in artistic designs. Tops are built on the seats they go with, which makes them set perfectly.

PAINTING

This is our strongest talking point. We do not use any patent system, but depend on pure oils and lead for our foundation coats. We carry our work from three to four months in paint. Our painting cannot be surpassed.

FARM MACHINERY

THE ADVANCE FERTILIZER DISTRIBUTOR

The Advance Manure, Lime and Fertilizer is the simplest devised for the purpose. It retains all the points that years of experience have proved valuable, and added new ones that place it beyond successful competition. In its entire combination it is the most effective and durable distributor ever invented and produces results impossible with any other. As many farmers know, this is the latest improved machine on the market. It is simple in construction, built of the best material by skilled workmen and is easily operated.

STERLING PLOWCUT DISC HARROW

The Plowcut Disc Harrow is constructed on the same lines as the Sterling Concave Harrow, the difference being in the shape of disc blades. The plowcut blade is designed to turn the soil over and work up all the land between the discs. The Sterling Plowcut has proved to be a satisfactory tool and will do any work required of a Disc Harrow, and do it in a manner most satisfactory. Implement dealers will find the Plowcut Disc Harrow a profitable addition to their line. It is made in all sizes.

STERLING NARROW TRACK FORCE FEED SEEDER

The Narrow Tread Construction—Overcomes the tendency on rough ground to lurch, on end of the seeder plunging ahead of the other, the pole whipping against the horses, etc. The Sterling Narrow Track Force Feed Seeder is an eleven foot.
The Force Feed Device—is the same as used on our regular "High Wheel Sterling Force Feed Seeder," and will be found accurate in every respect. In employing narrow tread construction it is necessary to use drop spouts, but these are protected on the "Sterling" by a bar and are not liable to breakage.

STERLING CORN PLANTER

The Sterling Planter enjoys the distinction of being the only planter on the market that has always worked satisfactorily. It has gained the confidence of the dealer and is placed in the hands of his customers without the slightest question or doubt about giving satisfaction. Anyone who can set up and operate any planter will have no trouble with the Sterling. The Sterling Planter combines simplicity, convenience, accuracy and durability which are the qualifications sought after in a planter. The regular 28 inch wheel.

THE THOMPSON 2-ROW CULTIVATOR

In placing upon the market the 2-row Cultivator, we were meeting a demand which has grown out of the strong tendency of the present day to accomplish the largest results with the smallest outlay of time, labor and expense. It is not so many years ago that in the cultivation of fields the hoe was displayed by the one-horse walking cultivator. That in turn gave way to the two-horse cultivator, where the operator had still to walk behind the machine. Keeping pace with progress in all directions, the two-horse riding cultivator displaced the walking cultivator; and for a number of years farmers were content to cultivate single rows of corn or other farm product, glad that they were saved the labor of walking behind the machine from morning until night.

The Celebrated Glide
