

A NEW CALENDAR ONE POSSIBILITY

Bill now Before House of Representatives at Washington

PROVIDES FOR THIRTEEN MONTHS

New Month Will be Named "Liberty", and All Contain 28 Days

Representative Schull of Minnesota has introduced in the House of Representatives a bill providing for changes in our time calendar.

In introducing the bill, Mr. Schull said in part:

"This proposed new calendar entirely corrects the serious defects of our present form by providing four complete weeks in every month and by making all the months of the year exactly alike. Every month commences with Monday, and every day of the month has an absolutely fixed place in the week. That fateful day—the first Tuesday of November, would under this plan, always fall on the 2nd day of the month. Thanksgiving Day would always come on the 25th, and the Fourth of July, armistice day, Thanksgiving, Day and Christmas would always come on Thursday. It is interesting to note that the 4th of July, 1776, was on Thursday.

"Under this simple and very convenient form any Member of this House who is an attorney at law could have a case set for trial on any future day of the month he might select and he would immediately know on what day of the week it would fall, even though the date might be many months in advance.

"In fact, this liberty-calendar plan is so simple and convenient that under its operation printed calendars would soon be almost unknown.

"I wish to further extend my remarks by inserting a copy of the bill: Be it enacted etc., That of the beginning of the 1st day of the year A. D. 1922 the time calendar now in general use in the United States shall, in all business transactions relating in any way to the Federal Government or to any corporations under its control, be superseded by the modified form thereof hereinafter provided.

Sec. 2 That the first day of the year A. D. 1922, and of each year thereafter, is hereby designated as New Year Day. It shall thereafter be, and is hereby declared an independent legal holiday, and it shall be observed as a holiday, or a day of rest, throughout the United States. It shall not in the year 1922, or in any year thereafter be named as a certain day of any week or number, or as a certain day of any month, nor shall it be included in any week or month. The day next following New Year Day, is hereby designated as leap-year day. It shall thereafter be, and is hereby declared an independent legal holiday, and it shall be observed as a holiday or a day of rest throughout the United States. It shall not in the year 1924, or in any fourth year thereafter, be named as a certain day of any week or number, nor shall it be included in any week or month. The day next following leap-year shall be Monday, the 1st day of the month of July as hereinafter provided: Provided however, That leap-year day shall be omitted from the last year of any number of centuries not evenly divisible by the number 400. Leap-year day A. D. 1948 and each seventh leap-year day thereafter shall also be known as leap-year Sunday; and such leap-year Sundays shall be observed as Sundays in the weeks observed.

Sec. 3 That the next day following the one hundred and ninety seventh day of the year A. D. 1924, being the next day after the last day of June, as hereinafter provided, and the next day following the one hundred and ninety seventh day of each fourth year thereafter, is hereby designated as leap-year day. It shall thereafter be, and is hereby declared an independent legal holiday, and it shall be observed as a holiday or a day of rest throughout the United States. It shall not in the year 1924, or in any fourth year thereafter, be named as a certain day of any week or number, nor shall it be included in any week or month. The day next following leap-year shall be Monday, the 1st day of the month of July as hereinafter provided: Provided however, That leap-year day shall be omitted from the last year of any number of centuries not evenly divisible by the number 400. Leap-year day A. D. 1948 and each seventh leap-year day thereafter shall also be known as leap-year Sunday; and such leap-year Sundays shall be observed as Sundays in the weeks observed.

Sec. 4 That the remaining 364 days of each and every year shall be divided into 13 months of 28 days each. The days of each month shall be divided into 4 weeks of 7 days each.

Sec. 5 That the names of the months of the year shall be as follows and in the following order, to-wit: January, February, Liberty, March, April, May, June, July, August, September, October, November, December. The months of December, January and February shall be known as the winter months; the months of Liberty, March and April as the spring months; the months of May, June, July and August as the summer months; and the months of September, October, and November as the fall or autumn months.

Sec. 6 That the second day of the year 1922, being Monday, shall be the 1st day of January and it shall also become the first day of the week. Thereafter Monday shall be the first day of every week and the other days of the week shall follow

THE HIGH SCHOOL ALUMNI

Had Pleasant Meeting at the Country Home of Loyal C. Brown

The Genoa High School Alumni held its annual meeting at the beautiful country home of Mr. and Mrs. L. C. Brown last Friday evening, the spacious lawn being the scene of the festivities.

About one hundred members of the association and invited guests were present. Merrill Lott of the class of 1919 was chairman of the evening, in fact his class was responsible for the revival of alumni activities. The program consisted of a vocal selection by Miss Evelyn Patterson, reading by Miss Klean Schoonmaker, vocal selection by Albert Morehouse and an address by Rev. Clarence Olmstead.

After the program ice cream and cake were served on small tables scattered about the lawn which was well lighted by electricity, Mr. Brown having all his farm buildings so lighted by a private plant.

A business meeting was then held and the class of 1921 was elected to arrange for a meeting of the association next year.

BACK TO DAYS OF OLD

Bicycles have come back in such numbers in Lake county that a bicycle race is being arranged for and will be held at the Liberty half-mile race track on Saturday, July 30, at three o'clock. It is expected that the event will draw a big crowd.

ICE CREAM SOCIAL

An ice cream social will be given at the German-Frieden's church lawn this (Thursday) evening. Everyone is invited to attend.

In their order, Sunday being the seventh.

Sec. 7. That, commencing with Monday, the 1st day of January, 1922, the first 13 weeks of each year shall constitute the first quarter of the calendar year, the second 13 weeks shall constitute the second quarter, the third 13 weeks shall constitute the third quarter and the fourth 13 weeks shall constitute the fourth quarter commencing with Monday and continuing 13 complete weeks New Year Day and leap year shall not be included in the quarters.

Sec. 8. That under the modified calendar, on the 12th day of February and on the 22d day of February, respectively, shall be celebrated the anniversaries of the birth of Abraham Lincoln and George Washington. The 12th day of March shall be observed as Good Friday. The 14th day of March shall be observed as Easter Sunday. The 13th day of May shall be observed as Memorial Day. On the 4th day of July shall be celebrated the anniversary of the signing of the Declaration of Independence. The 8th day of September shall be observed as Labor Day. The 11th day of November shall be observed as Peace and Thanksgiving Day. The 25th day of December shall be observed as Christmas Day.

Sec. 9. That all contracts and agreements and all obligations entered into by the United States or by any corporations under its control or by individuals and other corporations within the United States prior to the first day of the year 1922 shall, except as hereinafter provided, mature on and after the first day of the year 1922, on the same numerical day of the year in which they would have matured under the calendar now in use.

Sec. 10. That all contracts, agreements, and obligations made, entered into, or assumed prior to January 1, 1922, and which by their terms require the monthly payment of any certain specified sum or sums, whether such contracts, agreements, or obligations were entered into by the Federal Government or by corporations under its control, or by individuals or other corporations, shall, on and after January 1, 1922, be so construed that the sum or sums to be paid each month shall be one-twelfth of the total amount to be paid annually under such contracts or agreements instead of one-twelfth the total amount as theretofore; and such monthly payments shall mature on the same day of the month as theretofore: Provided, however, That in cases where such payments were to mature after the 28th day of the month they shall mature upon the same numerical day of the year as they would have matured upon under the calendar now in use and the number and amount of the payments shall continue as theretofore.

Sec. 11. That all contracts, agreements, and obligations entered into by the Federal Government on and after the first day of the year 1922 shall, unless otherwise provided, be construed to have been entered into or assumed according to the provisions of time made by the equal-month calendar herein provided for and established.

Sec. 12. That the time calendar now in general use in the United States shall be known as, and is hereby designated as, the Gregorian calendar. The calendar herein provided for and hereby established shall be known as, and is hereby designated as, the Liberty calendar.

BETTER TIMES ARE ON THE WAY

Farm Profits Surely Coming Back, says One Authority

EXPLAINS REASONS FOR BELIEF

Farmers Urged to Buy What is Needed—Workmen Will Work and Must Eat

It will pay anybody to be optimistic just now when the country is undergoing a change of conditions. One of the best articles we have seen lately is from Successful Farming and is given herewith. It says:

It is a law of nature that action is equal to reaction in the opposite direction. For instance, a pendulum always swings almost as far one way as it went in the opposite direction on the preceding swing. A slight tap when it starts back may send it farther than it went on the up stroke.

Business has its ups and downs as does the pendulum. In many respects business expansions and depressions are almost as regular as is the ticking of the clock. When business reaches the peak of its climb we can always rest assured that there will be a decline at least nearly as far. The world war really served as a vigorous push rather than a slight tap on the business pendulum of the world and sent it up and up almost to its zenith, in fact, many feared the force of the impact would cause it to dash on the beaten path and crash to destruction. But the upward swing stopped before the break, and for the last year and a half we have been witnessing the backward swing.

Many facts indicate that it is now about time for the business pendulum of the United States to return in the direction of business recovery. And in the revival of business which is sure to occur, we anticipate that farming will be one of the first lines of business to be benefited.

There are several reasons why the farmer now should take an optimistic view of his business situation. "No wheat carry-over from this season has been the smallest in years. The latest information indicates that the 1921 crop is no larger than the 1920 crop.

Stocks of wheat at terminals and in country elevators are reported to be more than 50 per cent lower than a year ago. The visible supply is the smallest in eighteen years.

The supply of flour in the hands of merchants as well as consumers is very low. There was 20 per cent less flour manufactured during the year ending June 1st than during the preceding year.

Of vital interest to farmers is the fact that there is a decided shortage in livestock. If per capita consumption of meat and meat products were suddenly to return to normal, the demand for meat would be far greater than the supply.

During the first five months of 1921 there were 7,716 business failures in the United States as compared with 2,678 for the corresponding period of 1920. An expert statistician estimates that at present there are about three million persons ordinarily employed in industries in the United States out of employment. It has been demonstrated that the family of a man who has employment consumes three times as much of the things people eat, wear and use, as it does when the head of the family is out of employment. Latest information indicates that the number of unemployed has probably reached the maximum and that unemployment is now on the decline.

One can readily see that as workers in textile mills, shoe factories, automobile factories, furniture factories, etc., are resuming employment, their requirements will be proportionately increased. Certainly this means a far greater demand and better prices for all the things which are produced by farmers. Lack of employment cannot be improved until utilization of products is resumed.

Add to all this the determination of the farmers of this country to take a hand in the marketing of their own products, which most assuredly will result in farmers getting better prices or at least getting a larger percentage of the final selling price of their stuff, together with the probable ample reason for feeling optimistic in regard to the situation the farmer will find himself in a few months hence.

There are other favorable signs

POLLUTING KISHWAUKEE

DeKalb Chronicle Puts Question to Two Officials

The DeKalb Chronicle says: Old settlers tell us that in early days the Kishwaukee was one of those pretty streams which seam the prairies of Illinois, the waters as clear as crystal and abounding with fish of various kinds.

Can you imagine it? Take a drive south of town, notice the stream at the Plank farm and thereabouts. What would it not be worth to have it kept in that cleanly condition at it passes thru DeKalb?

Go north of town, past the Schryver farm, at the Lanegan place, at Coltonville. Here we have a brick-red stream, carrying on its surface oil, tar and other refuse, and bearing an odor so vile that one's olfactory nerves are shocked.

The State laws provide penalties for the pollution of streams, but municipalities and corporations go on offending. Sewage is turned into the Kishwaukee making it an open sewer with its disease breeding possibilities.

Northeast of town an open drain carries refuse and filth from the factories to the Kishwaukee. Here it becomes red; here it takes on its accumulations of oil and tar—undoubtedly from the gas works, and flows on past the Country Club, yellow, smelly and oily, instead of a thing of beauty.

Why do we stand for it? Why do the people allow themselves to be robbed of what should be a natural privilege? Why not our Senator, our State's Attorney and other representatives see that the laws are complied with and the stream cleared up?

No other community in Illinois would stand for such abuse.

Mr. State's Attorney, what is the remedy?

Mr. Wright, what can be done?

NOTICE OF PUBLIC HEARING

Notices Sent Out to Property Owners in West End of City

The board of local improvements has started the machinery in motion for making improvements in the west end of the city, notices having been sent out to property owners designating August 8 as the date of public hearing.

The improvements will consist of an extension of the water and sewer systems on West Main and other streets to accommodate the residences of that district and the new high school building.

A copy of the notice, showing exact location and cost of the improvement, appears elsewhere on this page.

CORNELL PRICE PLAYERS

Tent Show

The Cornell-Price Players, a stock company of unusual merit, will play a week's engagement in Genoa under their own big tent, beginning next Monday evening, Aug. 1, presenting a new play, with vaudeville between the acts, nightly. The company consists of fourteen people, and each play is mounted with special scenery, and feature vaudeville is introduced between the acts. Among the plays to be presented during the week are: "The Crook," "The Great Awakening," "Kentucky Sue," "The Nigger," "The Woman Always Pays," "Girl of the Flying X" and others.

Popular prices will prevail, and on Monday night one lady will be admitted free with each paid ticket.

—Advertisement.

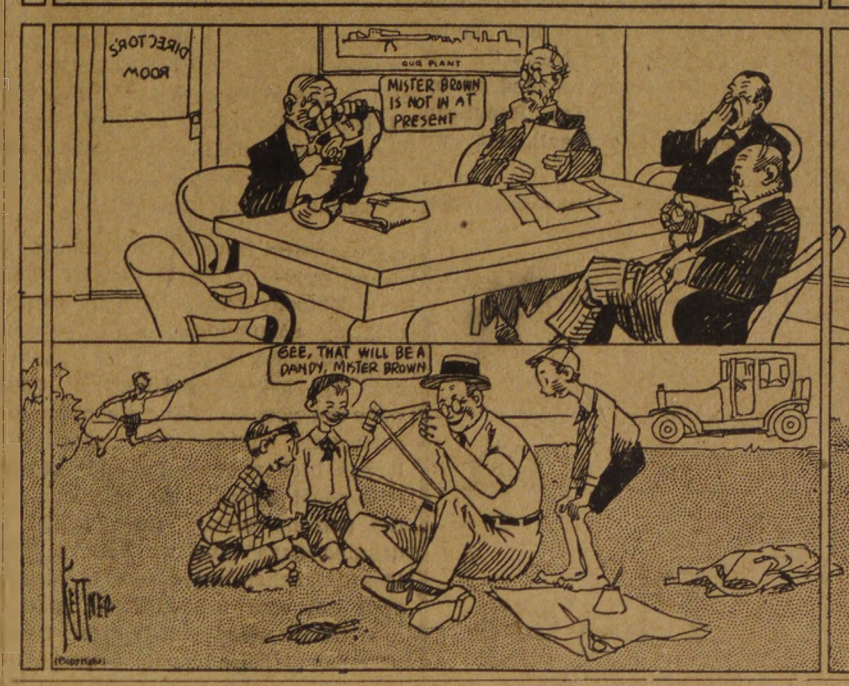

WATCH YOUR STEP

Catching undersized bass, fishing without a license and catching over the limit is getting anglers into lots of trouble at Lake Geneva, Wis., these days. Stiff fines are being assessed against those found guilty of the above named charges.

and we will admit a few clouds on the horizon, but taking it all in all the situation warrants reasonable optimism. Better times for agriculture are coming, and coming soon. The farmers who profit most during the next few years will be those who keep eyes and ears wide open for every bit of information that will help them to judge what is best for them to do in the conduct of their own business.

Buy the things you need to enable you to produce crops and livestock economically. If you can cut the cost of producing a bushel of wheat by 10 cents, that is equivalent to getting 10 cents a bushel more for it.

The Port of Missing Men

CORTLAND MAN INJURED IN BOONE COUNTY

Runs Auto in Front of Engine at Grade Crossing

Jacob Klein, president of the board of trustees and well known implement dealer of Cortland, was severely cut and bruised Sunday night when the car he was driving was struck by a train near Maple Park.

Mr. Klein, who is in the implement business at Cortland, was driving across the North Western tracks near Maple Park and did not see the train nor hear the bell until he was on the track in front of the train.

The train was going at a speed and it was impossible to stop before the engine crashed into the back of Mr. Klein's car, throwing him clear of the auto.

He was taken aboard the train and brought to the DeKalb hospital where examination by Dr. J. S. Rankin showed only several cuts and body bruises, sustained when he was thrown from his automobile.

MISSIONARY MEETING

The Missionary Society will meet with Mrs. Phoebe Crawford on Tuesday afternoon of next week. All those having mite boxes are requested to bring the same. Mrs. A. G. Stewart will act as devotional leader.

Notice of Time and Place of Public Hearing

To the person who paid the general taxes for the last preceding year on each lot, block, tract or parcel of land fronting on the proposed improvement in the city of Genoa as hereinafter described:

You are hereby notified that at a meeting of the Board of Local Improvements of the city of Genoa, Illinois, held on the 25th day of July 1921, the said Board at said meeting passed a resolution that a local improvement be made in said city, which resolution, in substance is as follows:

That a local improvement, consisting of a system of sanitary sewers and water supply mains, in and for a portion of said city be made, the said improvement consisting of and comprising the following: The area of said improvement shall include all of the lands within the following description: Beginning at the quarter section corner on the West line of section 19 Township 42 North Range 5 East of the 3rd P. M. thence East on the quarter section line to a point 150 feet West of the West line of "B" Street, thence South and parallel to "B" Street to the North line of Main Street, thence in a Southerly direction in a direct line to the Northwest corner of lot 7 in Block 2, thence East 150 feet to the Northeast corner of Lot 7 of said Block; thence South on the East line of said lot 7 to the Northwest corner of lot 6 of said Block; thence East 150 feet to the Northwest corner of lot 4 of said Block; thence Southerly in a direct line across "A" Street to the Northwest corner of Lot 9 in Block 2 of said Oak Park Addition; thence East 166 feet to the Northeast corner of Lot 7 of said Block 2; thence South along the East line of said Lot 7 and said line extended South to the North line of the right of way of the Chicago, Milwaukee & St. Paul Railway; thence West along said right of way line to a point where the West line of the Chicago, Milwaukee & St. Paul Railway intersects said right of way line; thence North on said extended line of Spring Street to the Southeast corner of Lot 18 in Block 2 of Wilcox Addition; thence West 66 feet to the Southwest corner of said lot 18; thence North on the West line of said lot to the Northwest corner thereof; thence West and parallel to the South line of Main Street to the West line of said section 19; thence North on said West line of section 19 to the place of beginning.

That an 8 inch sewer be laid as follows: Beginning at the point of intersection of the center line of Spring Street extended Southerly, with the extension of the center line of Oak Park Addition to the center line of the Chicago, Milwaukee & St. Paul Railway; thence North on the center line of Spring Street and its Southerly extension to the center line of the alley in Block 2 of Wilcox Addition; thence West along the center line of said alley to a point in Oak Street 25 feet West from the East line thereof; thence North on Oak Street parallel to the East line thereof to the center line of Main Street;

That six inch sewers be laid as follows: In Spring Street from the center line of the alley in Block 2 of Wilcox Addition to the center line of Main Street; in Main Street from the center line of Spring Street West 100 feet; in Main Street from the center line of Spring Street East 44 feet; in Spring Street from the terminus of the 8 inch sewer above described at the Oak Street intersection West 388 feet.

That a 4 inch Cast Iron Water Main be laid in Main Street from West Street to a point 40 feet East of the West line of section 19 Township 42 North Range 5 East of the 3rd P. M.

That the system be constructed, joined and built to such lengths, grades and elevations as shall furnish sewerage and water supply facilities for all abutting property within the area of the improvement.

You are further notified that the estimated cost of said complete improvement is as follows:

1153 lineal feet of 8 inch internal diameter vitrified sewer pipe including 21 "Y" branches with stoppers, cemented joints, excavation, laying and backfilling, complete at 70 cents per foot	\$810.60
1103 lineal feet of six inch internal diameter vitrified sewer pipe including 26 "Y" branches with stoppers, cemented joints, excavation, laying and backfilling complete at 60 cents per foot	\$661.80
10 Brick Man Holes 3 feet internal diameter with cast iron cover complete at \$60 each	\$600.00
3 Lamp Holes of vitrified pipe concrete in place with cast iron cover complete at \$15.00 each	\$45.00
1663 lineal feet of 4 inch Cast Iron Water Pipe Line including leaded joints, 4 "T" branches with stoppers 4 "T" branches w Hydrants, excavation, laying and backfilling complete at \$1.30 per foot	\$2164.50
4 Two-way Hydrants set complete at \$65 each	\$260.00
4 Four-inch Gate Valves set complete including Valve Boxes \$ 120.00	
Costs and expenses as provided for in Section 94 of the "Local Improvement Act"	\$ 279.10
Total	\$3940.00

You are further notified that the extent, nature, kind, character and estimated costs of such proposed improvement may be changed by said Board at the public consideration thereof.

You are further notified that by the afore mentioned resolutions the said Board have fixed upon the 8th day of August 1921 at eight o'clock P. M. of said day at the City Hall in said City as the time and place at which said Board shall meet for the public consideration of such resolutions, and will at such time and place hear the representations of any person desiring to be heard on the subject of the necessity of the proposed improvement, the nature thereof, and the cost as estimated by said Board of Local Improvements, at which time and place you may appear, if you see fit so to do.

Dated at Genoa, Illinois this 25th day of July, 1921.

Board of Local Improvements of the city of Genoa, Illinois.

S. T. Zeller

NEW LEGISLATION TO HELP SCHOOLS

Important Measures Passed at Last Session of Legislature

TAX RATE INCREASE IMPORTANT

Brings Relief to Many Destitute School Districts in the State of Illinois

The last session of the general assembly of the state of Illinois, which closed recently, gave to the state or Illinois more school legislation than was enacted in perhaps a dozen past sessions. This record mass of legislation perhaps was due very largely to the publicity given by the executive committee of the state teacher's association, and to the impetus that was given to all lines of labor by the increase in salaries in all lines during the war also demonstrated, to the surprise of a large number of friends of education, that the schools had not been accomplishing the results they should, and showed the great need of further spurring on of educational movements.

Increase Tax Rate

The largest achievement and by all odds the largest school act passed by the last general assembly was the tax rate increase allowed to local school districts. Had Illinois a modern system of state revenue, and had she the major portion of her wealth upon the tax books, it would not have been necessary to make this increase in the school rate for school purposes. For instance last year the national government took out thru income tax an amount of money equal to that expended for school purposes for a period of ten years, and yet no great burden was placed on any individual. This is due to the fact that the national government lays its tax upon all property—in other words, no incomes are hidden from the national government; whereas, in state tax it is estimated that only 4 per cent of the personal property in the city of Chicago pays any tax whatever, and it is notorious fact that throughout the state of Illinois there are millions of dollars hidden in safety deposit boxes. Increasing the rate of tax for schools, municipal and other purposes, is simply laying an additional burden upon the farmer and the business man and laborers who are unable to hide any of their wealth. It is hoped that the present constitutional convention will give to Illinois an adequate system of revenue whereby all of the wealth of all the people may be taxed equally to support the various forms of government.

Helps City of Chicago

The city of Chicago also profited by this rate. Heretofore Chicago had been paying higher wages to her teachers than downstate, at a rate or tax approximately one dollar lower than downstate districts. To do this the Chicago schools have been going into debt by issuing anticipation warrants, until her school debt approximates \$15,000,000, with the interest amounting to almost \$1,000,000. A two dollar rate was given Chicago, and it is anticipated that this will bring relief to the schools and reduce very materially the present debt.

Want State-Wide System

Throughout Illinois there are a large number of teachers and parents who are real friends of a state-wide system of education. Their efforts for a number of years have been to secure a large state distributable fund to be apportioned to all of the districts throughout the state. Their argument is that there are many districts that are rich in children but poor in wealth, and that the wealth is not equally distributed among the various districts of the state. They also point out that there are many factories located outside of a school district or city, while the workers in the factory live in the city in a different school district than that in which the factory is located, thus forcing another district to educate the children of the factory employes, while the factory itself escapes practically all school taxation.

IT'S COLD IN DENMARK

In a letter received by friends, Mr. and Mrs. C. M. Peterson of Woodstock, who are visiting in Denmark, write the weather is unusually cold, even for that country. They are having their summer season and residents state it is one of the coldest summers they have had in year.

If Governor Small and Lieutenant Governor Sterling are guilty of em-

bezzlement, they should be given no more consideration than any other criminal. But the reader should bear in mind that these two officials have not yet been found guilty and in all fairness should be given the full benefit of the doubt. Every citizen in America, according to our nation's plan of freedom, is innocent until found guilty. It should be remembered that at the grand jury hearing, the defendant does not appear, having no opportunity to defend himself. The hearing is all one-sided. In fact the grand jury merely places suspicion and bases its verdict on the testimony rounded up by the states attorney. The Republican did not support Len Small, but we

believe he should be given the advantage accorded any other citizen, sincerely hoping he and Mr. Sterling will disprove the accusation placed by Attorney General Brundage.

No, it is not a polecat, but merely the stench that comes up from Springfield. Perhaps these odious conditions may have the necessary effect in the end. It may be that all voters will vote in the future and regardless of the party with which they affiliate, see that that party puts up its best men as candidates for office, whether it be for pathmaster or the highest elective office in the state or nation. The stay at home citizen on primary day is more responsible for delinquency than the voter who makes a mistake by voting for the wrong man.

Mr. and Mrs. Roy Stanley, Mr. and Mrs. Frank Rudolph, Mr. and Mrs. W. J. Seymour and Mr. and Mrs. Ed. Tischler formed a party and motored to Lake Geneva Sunday where they were met by Mr. and Mrs. Ray Dunn and Mr. and Mrs. George Nolan and enjoyed a picnic dinner and supper together.

A blaze in the closet of the house on Bryce Smith's farm at nine o'clock Tuesday morning caused some hustling and no little excitement. The origin of the fire is a mystery. A threshing crew near by responded to the call for help and soon had the flames under control, but not until some three or four hundred dollars' damage had been caused.

Many threshing machines are running in this vicinity and another week will see the finish. The oats is light in most cases, running from 25 to 28 pounds to the bushel, while the wheat is far below the average yield. The extreme dry weather ripening the grain before it could fill out. The corn crop is promising and the yield will be heavy unless the weather man has something else up his sleeve.

Beautiful silver and artistic glassware are the essentials of a well appointed dinner table. Martin has the new designs in silverware and they may be had in knives and forks, pie forks, individual butter spreaders, fruit spoons, tea spoons, tablespoons, salad forks, gravy ladle, sugar tongs, etc. A splendid selection in the graceful stem ware may be had in goblets, sherbert glasses and jelly compotes. Call and see them.

Mrs. Ave May is visiting at the home of her daughter, Mrs. Carlson, in Wheaton.

Wants, For Sale, Etc.

Ads in this column 5c a line per week; minimum charge 25 cents

For Sale

GOLD STANDARD OF VALUES—Reo speed wagon chassis, \$1385; cord tires, electric starter, regular equipment. T. M. Girton, 122 So. California street, Sycamore, Ill. 11-1f.

FOR SALE—Underwood typewriter, same as new, for cash. Luman W. Colton. 35-1f.

FOR SALE—Bed room suit, rocker, large rug and combination bookcase and writing desk. Inquire of Mrs. T. L. Kitchen. 37-1f

HEMSTITCHING and Picoting Attachment; works on all sewing machines; price \$2; personal checks 10c extra. Light's Mail Order House, Box 127, Birmingham, Ala. 39-5f.*

FOR SALE—Cucumbers and pickles. I am now booking orders for them. Chas. E. Colson, Genoa, Tel. 913-21. 39-2f.*

Land and City Property

FOR SALE—House on Second street, Genoa, with two acres of land. Six rooms, good barn and chicken house. Henry Merritt. 26-1f.

FOR SALE—Modern improved house on East Main street, Genoa. Inquire of Dr. J. D. Corson, executor, Leaf River, Ill. 42-1f.

FOR SALE—Ten room house with modern improvements, on Sycamore street, Genoa. A. L. Holroyd, Adm., Genoa, Ill., 36-1f.

INSURANCE—Call on C. A. Brown, or Lorene Brown, Genoa, Ill., or insurance. Any kind, anywhere.

Waterproofing Concrete.

For the first coat dissolve three-quarters of a pound of castile soap in each gallon of water used as a wash for the concrete. Apply this soap wash boiling hot with a brush. After 24 hours of drying weather apply the second coat, consisting of alum water, one-eighth pound of alum to each gallon of water. Apply the alum water lukewarm. The soap fills the pores and the alum hardens the soap.

Highest Mountain in New York.

The highest mountain in the state of New York is Mount Marcy, a peak in the Adirondacks, which rises 5,344 feet above sea level. The average or mean elevation of the state, as estimated by the United States Geological survey, Department of the Interior, is 900 feet.

In the first issue of The Republican in August the Illinois Central Railway company will publish its twelfth monthly communication to patrons. This company has hit the popular cord by merely getting in touch with the people, telling its plans and asking for advice and suggestions. It has broken down the old barrier that stood between the railroads and the patrons during the "public be damned days" and we believe President Markham's program is bearing fruit not only in additional patronage, but in good will, which brings patronage. The human element has entered into the dealings of the Illinois Central, taking the place of cold blooded corporation methods, and that tells the story of understanding between the road and the public.

Shipping Tags.

Rather exasperating is the obviousness of many patented ideas that have brought fortunes to their originators. Take, for instance, the Dennison shipping tag. The trouble with such tags used to be that they would tear out at the hole. How easy a cardboard reinforcement. Just that was the whole of Dennison's invention, and it netted him a tidy fortune.

Music's Debt to Ancient Egypt.

The contribution of ancient Egypt to the general history of music, is found in the mechanical excellence of its instrument-makers, under whose dexterity and skill the harp gained sufficient power to be able to be played as a solo instrument. Every other instrument of theirs has perished, but the solo harp has remained.

Waterproofed Silk Ribbon.

The bureau of standards says it is impossible to waterproof silk ribbon and yet have it remain soft and pliable, for the reason that anything that would make it waterproof fills up all the spaces between the fibers of the silk.

Radium Invisible.

Radium is found in nature in quantities so exceedingly small that it is never visible even when the material is examined with a microscope.

International Literature.

Literature tends more and more to become a vast commonwealth, with no dividing lines of nationality.—James Russell Lowell.

Big Armies of the Past.

Among great armies of antiquity is that of Xerxes of Persia, who invaded Greece, 450 B. C., with an army of 5,283,220 men; Darius of Persia at the battle of Granicus, who had 600,000 men; the force of Croesus, who marched against Cyrus of Persia with an army of 420,000 and 60,000 horse, while Artaxerxes had 900,000 soldiers at the battle of Cunaxa.

 Michael Ryan, late of Sycamore. Estate of about \$13,500. Will and petition filed and set for hearing August 8th.
 John Hadsall. Proof of notice to creditors made.
 Clara M. Piper, distracted. Conservator's inventory approved.
 Sylvia Stark. Inventory approved.
 Emma Warne Hall, late of Sycamore. Estate of about \$50,000. Ordered that Imo Hall Adee be appointed administratrix and letters issue up on approval of her bond \$100,000. Proof of heirship made.
 Sarah M. Corson. Inventory approved.
 Elizabeth P. Toenniges, late of De Kalb, estate of about \$1600. Will and petition filed and set for hearing on August 8th.
 George Burzell. Inheritance tax report filed and order fixing tax at \$406.60.

In County Court
 All day Tuesday was taken in trial of common law cases before jury.
 Laura M. Hanson vs. Roy Harthon. Distress for rent. Harthon refused to pay rent as contracted and claimed farm was not as good as claimed.
 In verdict of the jury issues found in favor of the plaintiff and damages assessed at \$671.50.
 George W. Dunton. Order appointing F. S. Brower inheritance tax appraiser.

GRADE CROSSING HORROR
Two Women Killed Near Crystal Lake Sunday Night
 Two women were killed and three people seriously injured Sunday night at Ridgefield, north of Crystal Lake, when a railroad engine of the North Western railroad crashed into the automobile in which a party of six were riding, throwing it fifty feet and down an embankment.
 Miss Louise Morris, aged fifty-five years, of Crystal Lake was killed instantly when she was thrown against

a switch signal post.
 Miss Pauline Works, eighteen years old, of Crystal Lake, died at 9 o'clock Sunday night after being rushed to the Woodstock hospital by the engineer and fireman in the engine.
 Miss Lorna Works, aged nine years of Crystal Lake, received a fractured collar bone and concussion of the brain.
 Mrs. Howard Raheigans of Rockford, formerly of Harvard, who has been married only a month, received serious cuts and bruises and was taken to the Woodstock hospital, where it was necessary to amputate her left thumb. She also received severe lacerations on her knees.
 Edward Works, aged forty-two years, of Crystal Lake, father of Pauline and Lorna, who was driving the new Dodge car which was purchased three months ago, received serious lacerations on both legs with severe body bruises and gashes.
 Howard Raheigans, who was riding in the front seat with Mr. Works escaped serious injuries when he jumped from the car.

A GOOD GAME
Genoa Nationals and Elgin in Close Contest Sunday
 There was a real base ball game at the Genoa grounds last Sunday when the local team defeated the Elgin Union by a 3 to 2 score. At no time during the contest could either team claim supremacy, they being evenly matched. Elgin had a speedy pitcher on the mound, while "Frenchy" did excellent work for the Nationals. A few errors caused the fans to groan at times, but the stick work of both teams made up for some of the poor field attempts.
 Next Sunday the Nationals go to Burlington to settle an old score. Our neighboring city has a live bunch of players and will give Genoa an argument.

Jesus built it—Matt. 16:18. Built it on a good foundation—Eph. 2:20. God named it—Isa. 62:2. Christ governs it—Isa. 9:6. God admits every member—Acts 2:47. God expels offenders—Ebod. 32:33. Membership is universal—Rev. 22:17. Membership rewarded—Rom. 6:23.
 Everybody is cordially invited to the meetings.
 Sunday school at 2 p. m., preaching at 3 p. m. and 7:45 p. m. at the residence of J. H. Morris. Cottage meetings any night in the week where there are homes open for them.
 Yours in the service,
 P. O. Purcell, Genoa, Ill.
 P. O. Box 448

University Motto of Dutch Origin.
 The motto of Harvard university, "Christo et Ecclesiae," is of Dutch origin, according to a statement made by Clifford B. Clapp of the Henry E. Huntington library, San Gabriel, Cal., in an address before the Colonial society of Boston. This motto, he said, was undoubtedly taken from an inscription on one of the portals of the Academy of Franeker, founded in 1585 by the estates of Friesland.

Gorgeous Chinese Babies.
 Up to the age of six or seven a Chinese baby is the most gorgeously dressed creature extant. Its garments are of silk of the brightest colors and richly embroidered. A portion of the embroidery is always symbolic, consisting of a well-executed figure in silver or gold thread to represent longevity.

Queer Plant Grows in Africa.
 The welswitschia, which grows in southwest Africa, is one of the queerest plants in the world. The body of the plant resembles an enormous radish, and is sometimes 12 to 15 feet in circumference. From this grows two long leaves, which trail on the ground and are usually split into numerous ribbons. These are the only leaves produced, and they last through the lifetime of the plant, which is said to reach more than one hundred years. The colonial authorities maintain a small park for the preservation of this rare and remarkable plant.

Ancient Fountain Pens.
 Fountain pens did not come into general use until the Eighties. The first British patents, however, were obtained as long ago as 1809, while the first mention of fountain pens is to be found in a book published in 1600.

"Ouija! What's the good word?"

MY YOUNG sister, HAS A Ouija board. AND SHE believes it. AND TALKS to Noah. AND I think she talks. TO HER best fellow. WHO'S DEAD, but doesn't know it. AND I used to give her. THE LOUD, rude laugh. BUT I'M sorry now. BECAUSE LAST night, I WAS home alone. SO I got the board. AND PUT in a call. FOR JOHN Barleycorn. AND OTHER departed spirits. BUT THE line was busy. FOR NOTHING happened. THEN I cheated a little. AND IT spelled this. "GRAMMASHOTTA SEVEN."

SO I shut off quick. TO HEAD off any. FURTHER FAMILY scandal. THEN I stopped to smoke. A CIGARETTE. AND AFTER a while. I CRANKED up weejee. AND ALL of a sudden. IT STARTED off. AND QUICK as a flash. IT SAID something. "THEY SATISFY."

"SATISFY"—that's the good word. Just light up a Chesterfield and see what experts can do with fine Turkish and Domestic tobaccos when they blend them in that can't-be-copied Chesterfield way. You'll say "they satisfy."

Did you know about the Chesterfield package of 10?

They Satisfy **Chesterfield**
CIGARETTES

LIGGETT & MYERS TOBACCO CO.

THE U. S. NOBBY TREAD

Where the going is specially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tire tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

Its very simplicity—three rows of diagonal knobs, gripping the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

If every one listened to experience, how much they'd save

STOP and talk to the next man you see with U. S. Tires on his car. Ask him why.

Most likely you'll hear an interesting story about his tire experiments—before the answer was found. Money wasted. Promises unkept. Trouble on the road—humorous to every one except the man who went through it.

Finally U. S. Tires. And U. S. Tires ever since.

Perhaps it's the experience of U. S. Tire buyers that makes them more emphatic in their preference than ever this year.

When these men have tried most

everything by the way of "staggering bargains", "hurrah discounts", "discontinued lines at less" and so forth they know *what not to get*.

They want a *fresh, live tire*. With a good reputation. That's everything it says it is. With the people behind it who back it up.

There are 92 U. S. Factory Branches. Your local U. S. Dealer is drawing upon them continually to keep his stocks sized up, complete—to give you *service*.

Whenever he gets one or a hundred tires from a U. S. Factory Branch, they are *newly made this season's tires*.

Sold to you at a *net price*. Full values. Square-dealing. A reputable maker. A reputable dealer. The whole transaction as befits the leadership of the oldest and largest rubber organization in the world.

"Stop and talk to the next man you see with U. S. Tires on his car."

BEWARE STOCK SALESMEN

The "Blue Sky Law" is for Your Protection and Help

Throughout Illinois, unscrupulous stock salesmen are plying their nefarious schemes to lure savings of small investors. Every person has an easy defense against the attacks of these sharks and should make use of it. The Illinois Securities Act, known as the "Blue Sky Law" was enacted for the benefit of the investor and no

investor should purchase stock in any company or concern of any sort without first investigating its worth by inquiring of the Securities Department of the Office of the secretary or State at Springfield, whether such concern has been investigated and permission given its salesmen and agents to sell. The moneyed people, the bankers and heavy investors at ways investigate thoroughly before purchasing, and these fly-by-night salesmen who gibly dispose of worth-

less stock in co-operative stores and oil wells avoid offering their wares to prospective buyers. They seek out the thrifty housewife, the working man, the farmer, and all with some money, ready to invest but without the fore thought to inquire and investigate.

Under the Blue Sky Law the word securities includes, stocks, bonds, debentures, notes, participation certificates, certificates of shares or interest, preorganization certificates and subscriptions, certificates evidencing shares in trust estates or associations and profit sharing certificates. These are divided into four classes known as "A" "B" "C" and "D".

The securities in class "C" being based on established income and class "D" on prospective income are the most common about which complaints are made and which frequently in a disastrous investment of savings due to the fact that the investor is unfamiliar with this law and does not take advantage of it.

The law requires that the securities mentioned in the last two classes may be sold or offered for sale only on compliance with certain conditions among which are a statement of assets, liabilities and surplus, this to be under oath of not less than two of the officers of the concern and further provides that the Secretary of State may designate a public accountant to make an examination of the books and records of the concern. The secretary after being satisfied that the concern is sound is to endorse on such statements that the law has been complied with, which is equivalent to a permit to sell the securities in Illinois.

If the concern selling the securities mentioned fails to comply with this law it cannot sell its securities legally in Illinois and its agents and solicitors are subject to a heavy fine if they sell the same.

The communities of DeKalb County are not entirely free from the attempts of these salesmen and it would behoove our people to look into these concerns carefully before purchasing. A little inquiry will serve as a guide and prevent the investment of ones savings into wild cat schemes with which the market appears to be flooded at the present time.

True.

It takes a mighty smart man to be as smart as he thinks himself to be.

MOTOR CLUBS WORRY

Lest Arrest of Drivers Beome Persecution Instead of Prosecution

Beyond a question of doubt the automobile speed maniac must be brought to time, as well as those drivers who persistently ignore the law pertaining to dimming of lights, but motor clubs throught the country are apprehensive lest the motor cops and justices forget the difference between persecution and prosecution. The cops of Sycamore, DeKalb, Belvidere, Elgin, Aurora and other neighboring cities have been exceedingly busy of late, bringing offenders into court. No doubt in every case the offenders had exceeded the speed limit provided by law, or had failed to comply with the law pertaining to lights. The Motor Club of Aurora is the first to start an investigation and will furnish all those arrested with an attorney to see that the arrested ones are merely prosecuted. The club members of Aurora and other cities realize that too much enthusiasm in arresting automobile drivers will give any city a black eye and engender hate for that particular city among the motorists.

The Aurora Club officials point out that many are arrested when a warning would have been sufficient. Quite frequently the tail light of a machine is out without the knowledge of the driver. It often happens that a driver is arrested for other infractions of ordinances in different cities (pertaining to lights and parking) of which he is ignorant. In such cases, if the offender shows any tendency to comply with the law in the future and proves his ignorance of the ordinance, he should be treated with lenience, according to the idea of careful motorists.

No one, not even the offender himself, has any sympathy for the speed maniac and the heavier he is fined, the better for the country. In fact a jail sentence would be good medicine for many. Such a sentence might save him from a charge of manslaughter at some future period and save the lives of others.

All laws on the statute books and all city ordinances are for protection. The state law provides that motorists must not drive faster than 10 miles an hour in the business district not faster than six miles an hour in turning corners and 15 miles in the

residence district. How many drivers have not broken the law? All please stand up. A real industrious motor cop could arrest every auto owner in the country. It is easy to distinguish between the malicious speed fiend and the man who occasionally steps over the limit when he thinks the coast is clear for a little more speed.

The cities named above have done the right thing in putting a man on the job to stop outrageous driving, but for the good of those same cities they should caution their cops to use discretion and distinguish between the driver who thoughtlessly stretches fifteen miles an hour to sixteen and the maniac who drives thru the city streets at twenty-five miles and thirty miles an hour or burns up the country roads at sixty and seventy miles an hour. At least distinguish as one would between premeditated murder and manslaughter.

Free Instincts.

A Harvard professor says "dancing is an instinct, just like eating and fighting." It has long been observed that man will eat anything, and fight anything, and now he's getting so he'll dance anything—Kansas City Star.

Important News Events of the World Summarized

Washington. Authority for the establishment of an ordnance unit of the reserve officers' training corps at the University of Michigan was given by the War Department at Washington.

Secretary Weeks at Washington has instructed General Pershing to employ all the available resources of the military establishment to organize, train and otherwise develop the National Guard and reserve corps into effective forces.

A message from President Harding to congress dealing with the question of railroad finance probably will be sent to congress Tuesday, it was understood at Washington.

By a vote of 63 to 7, the senate at Washington passed the Sheppard-Towner maternity bill designed to relieve conditions which cause the death of 250,000 babies and 23,000 mothers annually.

Officials of the treasury and Republican members of the ways and means committee at Washington began to frame a tax revision program which will involve few if any reductions but important readjustments.

The Fordney tariff bill was passed by the house at Washington after two weeks of debate. The vote was 289 to 120. It now goes to the senate.

At the direction of President Harding, sales of government surplus property were ordered held up temporarily by Gen. Charles E. Dawes, director of the budget at Washington.

Reapportionment legislation providing for a house of representatives of 400 members, as compared with the present membership of 435, was agreed upon by the house census committee at Washington.

A tax on expenditures by individuals or business concerns, as a substitute for the income tax, is proposed in a bill introduced at Washington by Representative Orden Mills of New York.

Tax revision legislation will be disposed of "at an early date," Republican Leader Mondell in a statement reviewing the accomplishments of the present session of congress.

Deposits in the United States postal savings system on June 30 totaled \$153,000,000, Postmaster General Hays announced at Washington.

President Harding at Washington nominated Miss Mary O'Toole to be a judge of the municipal court of the District of Columbia.

Domestic. Announcement at Philadelphia that the police would use poison gas to combat criminals has created a big demand for gas masks, say pawnbrokers throughout that city.

Two men, about twenty-five, and a young woman are under arrest near Harrisburg, Ark., in connection with the holdup and robbery of a Missouri Pacific passenger train near Vandale.

With evidence of a gigantic international whisky smuggling plot accumulating daily at New York, following the seizure by prohibition officials of four "mystery ships," giant navy seaplanes are being employed to scour the Atlantic coast for smugglers.

Two men, about twenty-five, and a young woman are under arrest near Harrisburg, Ark., in connection with the holdup and robbery of a Missouri Pacific passenger train near Vandale.

Lord Northcliffe, the English publisher, arrived at New York aboard the Aquitania. He will make a study of industrial and economic conditions here and in other countries.

Burglars looted five stores and offices at Minocqua, Wis., and escaped with \$2,000 in merchandise and \$100 in cash.

Lieutenant Governor Sterling gave bond of \$50,000 before Judge Smith at Springfield, Ill., on the indictments charging embezzlement. The National Security company of Chicago furnished the bond.

The removal of Admiral Sims as head of the naval war college was demanded of Secretary Denby in a resolution adopted by the Ancient Order of Hibernians at Detroit, Mich.

Two women and two children were burned and suffocated to death in a boarding-house fire at Cleveland, O.

Fire of undetermined origin destroyed the Morbhen sugar factory near New Berlin, La. About 1,000,000 pounds of sugar was burned, with an estimated loss of \$300,000.

G. A. Brunson of Algona, Ia., accompanied by W. H. Kennedy of Washington, took charge of the office of prohibition director for Iowa at Council Bluffs, and will soon move the headquarters to Des Moines.

A Norfolk (Va.) dispatch says that the former German battleship Ostfriesland, badly jarred by 1,000-pound bombs dropped from army bombing planes, was given its death blow by two 2,000-pound bombs.

Gordon Klecker, aged forty, father of ten children, hanged himself in the granary on his farm near Freeport, Ill. The act is supposed to have been due to despondency over ill-health.

Milton Welbes, nine years old, of Moslem township, near Dubuque, Ia., killed a rattlesnake found to have 12 rattles and a button and with a body as large as a man's arm. Welbes collected a 20-cent bounty.

Foreign. The combined labor unions of Danzig have unanimously protested against the passage of the French troops destined for Upper Silesia through Danzig.

Americans belonging to the Touring Club of France and similar organizations are threatening to boycott Paris because of the extortionate prices at hotels.

The United States battleships Oklahoma and Arizona have arrived at Callao harbor, Peru, bringing a special embassy from America to attend the Peruvian centennial celebration of its independence.

Spanish forces, which suffered a reverse at the hands of 10,000 rebellious tribesmen in the Mellilla zone of Morocco, have received re-enforcements and have repulsed all subsequent attacks against them, according to the latest news received at Madrid from Morocco.

Countess Markiewicz, the woman leader of the Sinn Fein, has been released from Mountjoy prison at Dublin, where she served seven months of a two-year sentence.

Spanish forces which suffered a reverse at the hands of 10,000 rebellious tribesmen in the Mellilla zone of Morocco have received re-enforcements and have repulsed all subsequent attacks against them, says a Madrid dispatch.

The great fire in the Mexican oil fields south of Tampico is still burning, but is under control, according to information from Tampico. Thousands of soldiers are aiding the fire-fighting crews.

The Reichsbank at Berlin has secured a new credit of 50,000,000 gold marks through the Amsterdam branch of the Mendelssohn bank, and is negotiating for an additional credit.

The Greeks in taking Eski-Shehr captured Klazim Kara Bekir, Turkish nationalist commander in the city, and all his generals and other officers, says the Central News Athens correspondent.

The parleys between Mr. Lloyd George and Eamonn De Valera have adjourned and a basis for a peace conference has not yet been found. De Valera left London to present the British proposals to Dall Eireann in Dublin.

Ambush attacks and conflicts between members of the Fascist and communist near Sarzana are reported at Rome. Dispatches state that 14 were killed and 80 wounded.

Reports that the Vatican was invited by President Harding to participate in the disarmament conference, or that the Vatican had sought such an invitation were formally denied by the Vatican at Rome.

Morris Hillquit, the American socialist temporarily detained at Dover, will be allowed to enter Great Britain, the home office at London said. Hillquit agreed not to disseminate any revolutionary propaganda.

A fight between Socialists and Fascists on the floor of the chamber of deputies at Rome resulted in a suspension of the sitting. Chairs, ink wells and other missiles were thrown by the members.

A Belgrade dispatch says Minister of the Interior Draskovic of Yugoslavia was shot dead by a young Bosnian communist. The assassin was arrested.

Japan has decided to attend the forthcoming international conference and to discuss all matters of "mutual interest," according to a report generally credited in official circles at Washington.

The Hungarian government at Budapest has reduced the effectiveness of the army to 35,000 men, the number provided for under the Trianon treaty.

It is announced at London that Premier Lloyd George will attend the Washington conference on limitation of armaments. It will be the premier's first visit to America.

The German government at Berlin is sending physicians and medicines into Russia for relief of the plague sufferers, it was announced.

ANOTHER NOTE SENT TO JAPAN

Tokyo Told to Accept Invitation and Talk Preliminaries Afterwards.

TWO PROPOSALS ARE PLAIN

Powers Must Subscribe to Washington's Contention That Disarmament and Far Eastern Question Are Practically Inseparable.

Washington, July 27.—Accept President Harding's invitation to the armament and Far Eastern conference first and talk preliminary conference afterwards.

This is the burden of a note addressed to Japan by Secretary of State Hughes. It was announced officially here. The communication was in reply to Japanese inquiries as to the scope of the forthcoming conference, and made it plain that this government has no intention of forcing any particular program upon any nation.

Coincidentally with the announcement that such a note has been sent to Japan, government officials let it be known that there are no objections to a preliminary conference in Washington, after all of the invited powers have agreed to discuss the two plain propositions of the President's invitation. In other words, they must subscribe to this government's contention that disarmament and the Far Eastern question are so closely related that they are inseparable.

So far as Great Britain is concerned, government officials said that the "ghost of her efforts to have a preliminary conference in London before all the invited nations have agreed to come into the Washington meeting, has been laid." It is believed here now that Great Britain is reconciled to a "preliminary conference of her own."

Otherwise stated, it is believed that during the present and closing week of the imperial conference at London on the defense of the realm, Lloyd George will ascertain the premier's point of view with reference to the Washington meeting. Then if the premier is unable to attend the opening sessions, Lloyd George will be in a position to speak for them.

It was hinted here that Lloyd George would not be disappointed very much if the dominion premiers were unable to attend the conference at all. There are reasons for believing also, that he is displeased with the rather frank reference to the Anglo-Japanese treaty and America's relation to that pact by Premier Hughes of Australia.

MOONSHINERS KILL 2 IN KY.

Posse of Prohibition Agents Ambushed in the Mountains of Breathitt County.

Lexington, Ky., July 27.—While attempting to locate a "moonshine" still in the mountains of Breathitt county a posse headed by Samuel J. Watkins, federal prohibition agent, was ambushed by "moonshiners" and two men fatally wounded.

Green Watkins, a Breathitt county deputy sheriff, died a few minutes after the first volley, and Henry Nobles, another member of the posse, died while en route to a hospital. Shade Allen, another posse man, received nine gunshot wounds and is not expected to recover.

MANY CRAZY FROM "HOOCH"

Physician Says Prohibition Has Caused More Insanity Than the World War.

New York, July 27.—"Prohibition has caused more insanity than the world war," Dr. Perry Lichtenstein, resident physician of the Tombs, testified before a commission investigating alcoholic insanity. He said: "Alcoholic drink now obtainable is full of many poisonous by-products. It frequently produces convulsions."

BROADEN WAR FINANCE BODY

Secretary Hoover Proposal for Aid to Roads and Farm Credits Considered.

Washington, July 27.—Legislation to broaden the powers of the war finance corporation, enabling it to handle the triple financial problems of the railroads, farm credits and export financing, was suggested by Hoover.

Minister and Family Burn.

Wilkesbarre, Pa., July 27.—Rev. Alex. Nova, his wife and three daughters, ranging from five to ten years, were burned to death in their home in Pond Hill, near here. It is believed a kerosene lamp exploded.

Violent Fighting in Italy.

Rome, July 27.—Isolated fighting between communists and the Fascist, in which 12 were killed, continued despite the stern warning of Premier Bonomi. Thirty-seven houses have been burned around Grosseto.

ASPIRIN Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Most Intelligent Animal. Scientists say that the chimpanzee is superior to any other animal except man. Next in order comes the gorilla, then the orang-outang. The gibbon, still another variety of ape, comes fourth.

To Have a Clear Sweet Skin. Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.

The bigger the work, the greater the joy in doing it.—Stanley.

Nothing costs more than the things we try to get for nothing.

DEMAND FOR TANLAC BREAKS ALL RECORDS

Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Unprecedented—Over 20,000,000 Bottles Sold in Six Years—Foreign Countries Clamor for It.

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact, the marvelous success achieved by this medicine is not only phenomenal, but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equaled in the history of the drug trade in America.

Results and have pronounced it the greatest medicine of all time. Tens of thousands of men and women of all ages in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse, have testified that they have been fully restored to their normal weight, health and strength by its use.

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour, gassy stomachs, coated tongues, fogginess of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and at terribly dejected, depressed feelings, state that they have been entirely relieved of these distressing symptoms and restored to health and happiness by the use of Tanlac.

Tanlac is sold by leading druggists everywhere.

YOU CAN WIN \$1,000.00

Answer This Puzzle—Cash Prizes Given. How many objects in the picture above begin with the letter "R"? For instance there is a rake, rabbit, etc., and all the other objects are equally clear. See who can find the most. Fifteen cash prizes will be paid for the 15 best lists of words submitted to this puzzle.

Costs Nothing to Try—Everybody Join In. You don't need to send in a penny to win. This is an advertisement campaign to increase the popularity of our Famous No-Seam Combination Hot Water Bottle and Fountain Syringe.

YOU CAN WIN \$1,000.00

Here's the Plan. If you answer one of our puzzles you will win a prize. If you answer two puzzles you will win a prize. If you answer three puzzles you will win a prize.

Table with 3 columns: Prize Rank, Prize Amount, and Description of Prize (e.g., 1st prize \$200.00, 2nd prize \$150.00, etc.).

Note the Low Price. Our "No-Seam" Combination Hot Water Bottle and Fountain Syringe is an excellent value for the money.

Our Guarantee. We guarantee our "No-Seam" Combination Hot Water Bottle and Fountain Syringe for one year.

Last Thursday evening the young people of the M. E. church here and at Herbert gave an entertainment and ice cream social in the park. The pupils that have been attending the vocational school took part in the program.

The Y. M. C. A. of Belvidere has about seventy five boys from between 10-16 years of age camping in the A. J. Lettow woods west of town. Saturday afternoon Kingston and Kirkland boys played ball with them. Belvidere was defeated 11 to 6.

CAMP GRANT SAFE

Not Among Cantonments to be Closed by Government

Representative Charles E. Fuller, of the Twelfth Congressional district Wednesday Rockford people that Camp Grant is not among the army camps to be discontinued. Secretary of War, Weeks, announced several days ago that six army camps were to be closed. Two of the six were Camp Devens, Mass., and Camp Meade, Md. The remaining four were not named and there was some apprehension that Camp Grant would be affected.

General Bell had received no information as to the discontinuation of the local post and Fuller's message settles the matter definitely.

BIG WATER SUPPLY

The new city wells at Woodstock are furnishing considerable more water than is being used. All last year Woodstock experienced a shortage of water and there was a time last summer when many of the patrons could not be supplied. With the new wells Woodstock is consuming 650,000 gallons of water daily.

PROPERLY RANKED AS HERO

Deserved Tribute to Collie Who Gave Master the "Last Full Measure of Devotion."

Clyde Scott, four years old, lies dying on his father's farm near Beckley, W. Va. His pet collie is dead. A vicious sow, bearing the scars of battle to the finish, is so badly mangled that she must be killed, too.

It is one of those simple stories of a dog to which all human sympathy responds, remarks the Baltimore Sun. The boy, playing in the yard, was attacked by the sow, which had escaped its pen. Hearing the child's screams the collie rushed to the rescue and engaged the sow in fight. It needs no assurance of the telegraphed item to tell him who knows his dog the details.

The child's mother came into the picture, bearing her torn baby to safety. But the dog remained. He was a supreme duty, that knew no compromise. The infuriated sow was a menace to those he loved. It was his business to remove that menace, and into the job he put his concern. It was his concern only to remove the menace, and at any cost. His own life mattered not at all, and in the end he lost it, in as noble a struggle for what he believed to be righteous as any that ever brightened the annals of man or nation.

We do not know the little collie's name. If we did we should like to print it in honorable memory of his gallant conduct. He was a soldier and a gentleman; he was a devoted comrade and playmate; he was all that a dog is and that a man should be. We hope he had a Christian burial, for he was a Christian, if to be Christian implies sacrifice of self and love for others. He was all of that and he was a hero—a hero on four legs.

PLAGUE THAT FOLLOWS WAR

In All Ages Rinderpest Has Marked the Path Taken by Armies on Their March.

The newspapers told recently of the trouble that arose when the authorities of Montevideo refused to admit to that port a little dog owned by a woman who had taken it there on a passenger steamer, the refusal being based upon the epidemic of rinderpest prevailing among the cattle of Uruguay. Rinderpest is the most terrible of the diseases that affect cattle, and is often called simply "cattle plague."

It affects, so far as is known, only the ruminant, cloven-footed animals—oxen, sheep, goats, camels, etc.—but is so infectious that it may be carried from one herd to another by attendants, dogs, cats and birds or by fodder. Therefore, the dog was excluded from fear not that it would contract the disease but that it might contribute to spreading it. The cause of rinderpest is not yet definitely known, but it is an ancient disease which always breaks out after great wars. The ravages of the Goths and Huns in the early Middle ages were followed by frightful epidemics. Its commonest symptoms are fever, cough, dysentery and exhaustion. Its mortality is high, but the disease is not necessarily fatal.

Grossmith Defines Humor.

Lawrence Grossmith, the English comedian, is quoted as saying: "There is no more difference between English and American humor than there is between English and American tragedy. All humor, whether it be English or American, depends upon the seriousness with which the person trying to be humorous acts the fool. This may sound like a paradox, but it is one of the most extraordinary paradoxes which are vitally true. If an actor does not enter into his humor with the full possession of his senses and all his faculties he misses the most of it."

"To be humorous it is necessary to lose oneself in one's part, retaining just sufficient introspective faculties to feel the sincerity of one's acting. Sincerity here, as in all other branches of acting is the mainstay. And 'sincerity' gets across the footlights whether it is in Germany, France, England or America, whether in tragedy, comedy, musical or dramatic plays."

Kaiser's Coach Brought Trade.

The ex-kaiser's gala carriage is for sale in Berlin. "One of the best strokes of business I ever made was to buy it," said Herr Zielka, owner of a Friedrichstrasse establishment containing a restaurant, billiard room and a theater of varieties, according to the Continental edition of the London Mail.

"I bought it from the court-marshal and used it as an advertisement for the theater. Every night the carriage drove up to my theater and out stepped a grand gentleman or lady with the air of a royal personage. Naturally, crowds followed into the theater. Unhappily the royalists made such a fuss that the police forbade me to continue using it."

Road Building in India.

There is considerable activity in road making in various cities in India, depending upon the local authorities. In some places stone rollers, pulled by gangs of men, are used, and in other places steam rollers are to be found. A very useful machine is used in Lucknow, that has two rollers, the front one a steering roller. The rear chain is driven by a gasoline engine. It has a large gasoline tank and is well adapted for light work.

NEW MARKETING PLAN

Representatives to Meet in August to Work Out Scheme

"Representatives of local live stock shipping associations of Illinois and other states are to meet with one of the sub-committees of the Farmers' National Live Stock Marketing Committee of Fifteen early in August to help in the new national marketing plan. This new plan proposes farmer-owned and farmer-controlled commission companies in all the principal stock yards in the country with local shipping associations as units; all the profits to be divided among producers on the patronage dividend basis. The details of the plan are now being worked out and will be voted on by the Committee of Fifteen at its next meeting, August 10, in Chicago. The representatives of local associations of Illinois, Ohio, Iowa and Missouri met in the offices of the Illinois Agricultural Association last week to discuss their part of the plan and will meet again in Chicago in August.

"Uniform systems of auditing and accounting and reporting to central authority, the advisability of making the shipping territory large enough

to warrant the employment of a manager and the bonding of managers were among the points discussed at the last meeting and which will be continued at the next conference."

FULLER TO AID FARMERS

Congressman Charles E. Fuller of Belvidere has agreed to assist the Rockford Chamber of Commerce in collecting claims of farmers who own land in the Camp Grant area. Many of these claims against the war department are three years old. It is hoped that the settlement of these claims may be made soon.

Chloropicrin as Insecticide.

As report to the French navy states that no other weapon against vermin and insects is so effective as chloropicrin. If five grains of this for every cubic meter of space be placed in a room, every flea, moth, fly, ant or other insect will be dead in a few hours, and the gas has no effect upon metal, wood, paint or dye.

Sun Engine Near Cairo.

A sun engine is operated at Meadi, near Cairo, Egypt. It consists of five 205-foot boilers placed on edge and in the focus of five channel-shaped mirrors. Its best run for an hour yielded 1,442 pounds of steam at a pressure of nearly 16 pounds to the square inch.
