MOTHERS' DAY PROGRAM

Epworth League Entertains at M. E. Church Sunday Evening

The Mothers' Day program at the M. E. church Sunday evening, under auspices of the Epworth League, was exceptionally good and drew out a large audience. The numbers were all well prepared, but it remained for Richard Patterson to draw the first applause of the evening. The other numbers were deserving of an ovation, but the people in the audience were no doubt a little timid about starting anything on account of the time and the place. When Richard successfully rendered "The Old Oaken Bucket" with variations on his violin, however, there was no holding in the audience simply had to show him their appreciation.

Just as the audience started the singing of "The Star Spangled Banner," a flag, which had been hidden behind a banner above the pulpit, was released and floated down over the choir. It was a fitting climax to an enjoyable program. Those who were present could not have gone to their homes without a little more thought of mother and a little more patriotism than when they entered the church. Albert Morehouse, president of the Epworth League, delivered his address of welcome in a pleasing manner. It was well worded and worth the attention of more people than were in attendance.

FLAG DAY

Governor Urges That Citizens Observe the Day This Year

A proclamation signed by Governor Dunne was issued last week by William Sullivan, secretary to the governor. The proclamation follows: "I urge that citizens observe the day in all parts of our state in a befitting manner and that the national emblem be displayed upon our public buildings, school houses, business houses and homes on June 14.

"I also recommend that Flag Day be observed by the participation of the citizens in such ceremonies as are appropriate to the occasion and that each citizen wear a small flag in honor of the day.

"The governor is particularly anxious that patriotic holidays be observed in Illinois at this time," said Mr. Sullivan today, "because of the international situation and the consequent desirability of a widespread expression of patriotism by the people of the state."

HIGH SCHOOL TRACK MEET

First Event of the Kind Ever Held in DeKalb County.

The DeKalb county track meet and field meet which will be held in DeKalb on Saturday, May 20, is now getting all of the interest of the athletes about the county. This will be the first meet of this kind that was ever held in DeKalb county and most of the teams will enter with no experience in this line of athletics, other than that granted in their practice work on their respective fields.

The same schools which had basketball teams entered in the county basketball tournament this past winter will send teams to compete in this track meet. There will be ten teams of about ten men each entered. The schools to be represented are: Genoa, Sycamore, Hincley, Rolo, Shabbona, Sandwich, Kirkland, DeKalb, Malta, and Waterman.

The first event will begin at 1:30 o'clock and the balance of the afternoon will undoubtedly be taken up with the work. Trophies will be given to the winners in each of the events. The DeKalb high school band will furnish the music while the meet is going on.

IS STRUCK BY TRAIN

Former Genoa Resident Nearly Killed at Hincley Last Week

NEPHEW ON GENOA SUPERVISOR

Frank Stewart Has Both Arms Broken and Loses Team as Result of the Accident

Hincley Review:—Frank Stewart, son of Mr. and Mrs. James Stewart, just west of town, was struck by the milk train this (Thursday, May 11) morning at the Stewart crossing and severely injured. Both his arms were broken; a basal fracture of the skull was sustained, and internal injuries which brought almost constant vomiting and hemorrhage were suffered by Frank; both his horses were instantly killed and the wagon in which he was carrying seed corn to the field was demolished.

The train crew carried the unconscious young man to his nearby home. Mrs. Graves and Oliver were on the scene at once, and everything possible was done to relieve the sufferer. At 8:45 he was taken to Aurora on the east-bound passenger train, and is now at the St. Charles hospital.

Frank Stewart has been taking over the active management of his father's estate the past two or three years, and was one of the most popular young farmers in this community, the eldest son of one of our most prominent families, with extensive connections among the people of Genoa township and other parts of the north end.

The sad accident of this morning is a severe blow to his host of friends.

The Stewart crossing is a dangerous one—the sharp curve and nearby buildings making it difficult to see a train from the west. It is presumed that with the high wind blowing this morning, and the rattle of the wagon Frank did not hear the train in his hurry to get to the field.

DREAD THE "SNEAK CURRENT"

Electricians in Constant Fear of Happening Which Means Immediate and Fearful Disaster.

One of the most dreaded risks in the use of electricity for power purposes is the "sneak current," which may be compared to a leakage in a gas main. Only it is far more dangerous, because you can smell escaping gas, whereas you cannot smell electricity. One of the earliest warnings of the existence of this new kind of hidden peril occurred at the electricity works of the Manchester (Eng.) corporation on September 19th, 1899. In the engine room of the power house at the time no fewer than fourteen engines, each of 400 horse power, were working at full pressure. By some unexplained means a sneak current reached and fused the copper rivets which held together the two ends of a leather belt connecting one of these engines with a dynamo. The result was that the belt parted, the released flywheel started revolving with terrific speed, and presently flew to pieces. These, hurtling in all directions, wrecked other flywheels, and in a few seconds the splendid power house, with all its costly and beautiful machinery, was utterly destroyed.

Out of Old Albania.

Save in Epirus, where Greek culture holds the towns, and even the Moslem Albanians of the hills write (when they can write at all) in Greek letters, no foreign influence has yet invaded the intimate life of this exclusive race. Individual Albanians have, indeed, given their talents to bring unity or order to the life of other peoples. Half the captains by land and sea of the Greek wars of independence were Albanians from Epirus or the isles. Crispien came from the Albanian colony in Sicily; the khedivial family imposed itself on Egypt; the last grand vizier of the old regime in Turkey was a South Albanian mungiate. But no native church, no native literature, no local held for statesmanship has yet exercised the talents of a race which is certainly not the least gifted of the Balkan peoples. Until recently an Albanian educated was an Albanian lost.

Persian Grain.

The great arid wastes of Persia would lead one to believe that the country does not produce sufficient grain to supply the needs of its population. Such, however, is not the case, and considerable quantities of grain are exported each year. The principal grains grown are wheat, barley and rice. Corn is planted in small quantities, but is only used for roasting ears. Oats and rye are seldom sown. Except along the Caspian coast Persian agriculture is dependent almost entirely on irrigation. The agricultural implements used in Persia are of the most primitive kind. Plows are made from forks of small trees with the addition of a share of iron. It is stated to be doubtful, however, whether the yield of grain would be greatly increased by using modern plows, as there is no sod and this crude implement seems to stir the soil fairly well.

Children Find Viking Relics.

An interesting find of Viking relics of the ninth century was recently discovered at Valtos, in the island of Lewis, by schoolchildren. The relics consisted of a pair of large oval brooches of a noted Scandinavian type, a small pennannular brooch, a disk-shaped ornament with a central boss and a decoration of interlaced loops, a small buckle, part of a bronze chain, probably used to connect the large oval brooches, and a single big amber bead.—London Globe.

Her Preference.

"I absolutely refuse," says Jessie Wilcox Smith, "to paint the old Eugene Field goblins—the 'goblin will get yer if ya don't watch out' kind." Miss Smith, it appears, prefers to paint the kind of pictures you think of in reading James Whitcomb Riley's "Father Calls Me William, Sister Calls Me Will."—Kansas City Star.

Invitation to Enter.

"The latch string hangs out," signifies hospitality and is a standing invitation for a person to visit. In early times Indiana pioneers lived in log cabins built of round logs, notched near the ends, to make them lie closely together. Openings for doors and windows were made by sawing out holes after the logs were laid. The doors were of puncheons or rough slabs fastened together with wooden pins. Nails were expensive and little used. The door latch was a wooden catch or kind of trigger which, when the door was closed, fell into a little groove and could be opened from the outside by pulling a string, one end of which was fastened to the latch and the other, passing through a hole in the door above the latch, hung outside, so the latch could be raised by pulling the string. To lock the door the string was pulled inside. Hence the expression, "the latch string hangs outside," meant an invitation to come in.

Kills Kitchen Odors.

One of the most useful applications of electricity about the household is a motor-driven exhaust fan for the kitchen. Attempt to ventilate this room by opening windows and doors is bound to fail, especially in the winter time. Without a ventilator the odors from cooking will penetrate the entire house and linger in the rooms long after the meal itself is gone. The motor-driven fan consists, as the name suggests, of a small motor attached to a powerful fan in an upper pane of a window, near the range. The device is mounted well toward the top of the room. The motor is attached to the lighting circuit and provided with a suitable snap switch for starting and stopping it. During the operation of cooking the switch is turned, and the fan forces out a steady stream of air, carrying with it all smoke, gases and objectionable odors.

Where the Games of Yesteryear?

I have wondered sometimes why the boys in the town where I live now never play marbles or spin tops. In the past five years I have not seen a single game of marbles or once heard the shrill request, "Gimme a peg at yours." It is not strange that the slingshot has vanished, for automobile tires use up all the available rubber. But why should tops and marbles vanish from the earth? They have gone the way of the delightful children's matinees at the old Boston Museum, no doubt, and the Kate Greenaway books, and the jackstones little girls used to toss by the hour, sitting on the front steps. It makes one feel middle aged and mournfully reminiscent. — From the Atlantic.

Famous Curfew Tower.

Chertsey, Surrey, can vie with Banbury in curfew memories, though it is only in recent years that the old custom of tolling at sundown has been revived there. The original curfew bell, which hung in Chertsey abbey, tolled for the funeral of Henry VI, murdered in the Tower of London and hurried to Chertsey for burial, "without priest, clerk, torch or taper, singing or saying." The village was also the scene of the legend—first put into story form and dramatized by Albert Smith—which relates how Blanche Heriot, condemned to die at sundown, climbed the curfew tower and held the clapper of the great bell, determined that "curfew shall not ring tonight."—London Chronicle.

Just What Did She Mean?

Mrs. Jones was on a visit to her parents and wrote the following postcard to her next-door neighbor at home: "Will you do me a favor, while I am away? Will you put out a little food in our back porch every day or so, for the little stray cat I have been feeding? The cat will eat almost anything, but do not put yourself out."

Danger in Street Car Riding.

Physicians have decided that several forms of nervous diseases, sometimes dangerously severe, can be caused by persons standing up and holding straps while riding in street cars.

MAY DRAW HEAT FROM EARTH

Scientists Have Seriously Proposed Deep Borings by Means of Which It Can Be Obtained.

As we go downward into the earth we find a steady increase of temperature. So marked is this increase that it has been seriously proposed to make very deep borings in order to obtain supplies of warm water for heating our towns.

Arago and Walferdin suggested this method for supplying warmth to the Jardin des Plantes in Paris; and now that such important improvements have been made in carrying borings to enormous depths the time may not be far distant when we shall draw extensively upon these supplies of "submarine" heat.

The city of Budapest is extensively supplied with hot water from an underground source. It may be well to remember that in the event of our coal supply failing we have these inexhaustible supplies of heat everywhere beneath our feet.

No Use as a Witness.

The lamentable case of John Poor Dog, an Indian accused of stealing hogs, an offense to which he pleaded "not guilty," is told thus by an Oklahoman: John Poor Dog was arraigned before the judge, who inquired where were his attorney and witnesses. "Got none," John Poor Dog said. "No witnesses?" said the judge. "no one to speak for you who knows anything about this?" John Poor Dog shook his head sorrowfully. "Only one man knows about this," he said. "He's the one helped me steal the hogs, and he's such a liar he couldn't tell the truth. So I didn't get him."

Massage for Nervousness.

Light—that is, surface—massage, is a good corrective for nervousness. Deep, seeking-the-bone massage, which is used for liver complaint and for obesity, is too severe for the nervous patient. Besides, so many of the nerves lie so near the skin that the region of the skin is the real seat of operation for cure. Light massage by coaxing the blood to the surface and inducing a new and stronger interflow among them feeds the nerves and strengthens them.

Rather Difficult.

Cheerful One (to newcomer, on being asked what the trenches are like) —"If yer stands up yer gets sniped; if yer keeps down yer gets drowned; if yer moves about yer gets shelled; and if yer stands still yer gets court-martialed for frost-bite."—Punch.

Whence "Gringo."

In Spanish "gringo," pronounced greengo, means gibberish or unintelligible chatter. American Spaniards applied it to Americans and Englishmen in contempt because their language sounded like gibberish to the Spaniards. Now the term is applied in contempt to Americans in the same way that Americans speak of Mexicans as greasers.

Polite But Firm.

Mrs. N. was giving instructions to her new servant. "Before removing the soup plates, Mary, always ask each person if he or she would like any more." "Very good, madam." Next day Mary, respectfully bowing to one of the guests, inquired, "Would the gentleman like some more soup?" "Yes, please." "There ain't any left." —Chicago Journal.

There is a Vast Difference In Soaps

There are many people who, when they make a purchase of toilet soap, simply ask for SOAP. This is a mistake. There is a vast difference in toilet soaps. The cheaper and injurious kinds are made from rancid grease and other ingredients—no one but the manufacturers know what. This is the quality we try to avoid. When you ask for toilet soap here you may rest assured of getting purity. Every bar we sell is good, no matter what price you pay, but for different purposes and different conditions of the skin we advise a different article. In buying soap for the face one should be just as careful as in buying lotions. Our experience and knowledge of soaps will assist you in making the proper selection from our large assortment.

SUBSCRIPTION, \$1.50 THE YEAR

By C. D. SCHOONMAKER

THE BOND QUESTION

Elsewhere in this issue appears an ordinance providing for a bond issue of \$4,500 by the city of Genoa, to be paid in four installments. If the people of Genoa vote favorably for this issue of bonds, the money derived from the sale thereof will be used solely for the purpose of paying the city warrants now outstanding and issued prior to May 1, 1916. In other words the city was \$4500 in debt on money will be used in paying this indebtedness.

This is no time for idle remarks, insinuations, hearing of officials or such remarks as "I told you so," "I'll never vote for a bond issue," "They got in-

to the hole, let them get out," "If the city were wet there would be no debt," and a dozen other very handy but totally uncalled-for remarks. The city is in debt and the debts must be paid one way or another. The simplest, sanest and only business-like manner is thru a bond issue. Idle talk in trying to place the blame for the indebtedness will accomplish nothing. If the bond issue fails to carry, the creditors have but one recourse and that is to start suit against the city. The city must confess judgment and pay the account with costs of suit thru special taxation. It would be much easier to pay the debt in four years than to dig down next spring and pay it all in one lump.

Every voter should consider himself and herself a part of the city. Go to the polls on the 13th of June and vote as your conscience tells you. No voter should let his desire for "getting even" with some one get the best of his better judgment. Treat this matter as you would your individual business. It is the voter's individual business for remember always that as an individual you are a part of the

community. If one votes down the bond issue merely to spite some one, he is getting just as much of the dirt as the other fellow.

There is no argument against this bond issue and can be none, unless the voter would prefer to pay the debts thru a judgment. Take your choice.

Illinois editors in session in Chicago last week refused an invitation to banquet at the expense of a great mail order house. Now when a bunch of newspaper men turn down an invitation to partake of elaborate "cats" there is some principle back of the refusal. Illinois editors, almost to a man, are antagonistic to the mail order business. They know that this business is working on the very vitals of the country mercantile interests and when the country merchants generally look at the matter thru the newspaper man's eyes there will be a change. The only way to fight the mail order house is with the goods that people want, persistently and honestly advertised.

It is rumored that Charles S. Deenen may throw his forces to Col. Frank Smith in the coming campaign for the Republican nomination for governor. Now what has Smith done that he should deserve this?

Her One Failing.

Frank was an ardent lover and, like most lovers, was of a rather jealous disposition. He was always worrying Ellen with silly questions, most of which she answered patiently.

The other day he reached the limit, however, when he asked:
"Why are you so sure that you will always love me just as much as you do now?"

Ellen thought it time to alter her treatment of his one fault.
"Because," she answered gently, "I am never able to cure myself of any of my bad habits."—London Answers.

This motor will deliver 10% to 15% more power than either the L- or T-head type of equal displacement. It can be relied upon to meet the most trying conditions of travel. The simple test of driving will convince you that the car operates smoothly at high and low speeds and has abundant power.

Pioneer Builders Valve-in-Head Motor Cars

Power, Accessibility
Dependability

Power in the motor car is seven-tenths of the time a dormant factor, but when it is needed, the most important of all others. Whenever power is needed the Buick Valve-in-Head motor is the most efficient. No engineers or writers of recognized authority in either the United States or foreign lands hesitate to admit this. The leading builders of motors for all purposes where constant power is demanded, such as in the aeroplane, the submarine and marine engine, unhesitatingly adopt the Valve-in-Head type.

The simple construction of the Buick Valve-in-Head motor makes all parts accessible. They are where they can be seen. No uncertainty or guess work, no complication of moving parts to make oiling a difficult problem.

The success of the Buick Valve-in-Head motor is due to the fact that it is not an experiment, nor an uncertainty. The Buick is a car of proven value and dependability.

The school entertainment at the auditorium on Friday evening of last week was enjoyed by a large audience. Every number was good, the little ones especially doing themselves proud. There can not be too much of this kind of thing so long as it does not interfere with the other school work.

Conscience and Love. To make conscience tolerable, love should be thrown around it. Conscience is the frame of character, and love is the covering for it.—Henry Ward Beecher.

His Modesty. When it is generally known that he was largely responsible for a good thing, a man takes great pleasure in saying, "I am entitled to no particular credit."

Qualified. Tommy, with a determined look on his face, marched into the parlor and up to his pretty sister's ardent suitor.

"What's them?" he demanded, thrusting out a grimy hand full of small white objects.

"Beans," promptly replied the young man, with an ingratiating smile.

"He does know 'em, maw," bawled Tommy triumphantly to the adjoining room. "You said he didn't!"—Puck.

The KITCHEN CABINET

Not only physical but mental vigor and efficiency depend largely on a proper diet.

Not in the clamor of the crowded street, Not in the shouts and plaudits of the throng, But in ourselves are triumph and defeat.

LIGHT REFRESHMENTS.

The dainty sandwich is always filling a large place and when well made and served there is nothing that is better enjoyed.

Cream Cheese Sandwiches.—Take a square of cream cheese, mash it in a bowl, adding a little sweet cream to moisten, salt and paprika to taste, with one or two canned red peppers, spread on thin slices of buttered graham bread.

Marshmallow Nut Sandwiches.—Toast fresh marshmallows and cut fine, mix with chopped walnut meats and sweet cream. Cut white bread, spread with butter, then with the mallow and nut mixture. A few candied cherries may be used with this filling if so desired. A half dozen cherries finely chopped will be sufficient for half a dozen sandwiches.

Fig Sandwiches.—Soak figs overnight in orange juice, then simmer in a little water added to the juice, until tender. Add a half cupful of sugar and the juice of half a lemon to each half pound of figs. Chill thoroughly and chop to a paste. Spread on thin white bread or on slice of pound cake.

Marguerites.—Make a boiled frosting, using a few tablespoonsful of steamed, chopped raisins and a half dozen chopped nuts. Put a teaspoonful on crisp, salted wafers and brown lightly in the oven.

Sponge cake baked in a sheet and then cut with a small biscuit cutter into rounds may be frosted with orange icing and rolled in grated rind, or the top decorated with the rind, making very tasty cakes to serve with a cupful of tea when a friend drops in.

It's the song you sing and the smile you wear That's making the sunshine everywhere. —Riley.

SAVORY SUPPER DISHES.

To make a supper dish at all popular it must be tasty and quickly prepared. Milk toast fills both of these qualifications, therefore it is a great favorite.

Spanish Chowder.—Cook together a can of tomatoes and a can of red kidney beans for ten minutes. Add a pound of finely chopped hamburger steak, one chopped green pepper, and salt and pepper to taste. Cook five minutes longer and serve piping hot.

Corn Bread.—At noon put two cupfuls of cornmeal in a mixing bowl and pour over it 1 1/2 cupfuls of boiling water, enough to thoroughly scald it. Mix well and cover with a coating of butter; cover and let stand until night. When ready to bake add a beaten egg, 1 1/2 cupfuls of milk a cupful of flour, sifted, with three teaspoonfuls of baking powder and a half teaspoonful of salt; use more milk if needed, as this should make a thick spoon batter. Bake 20 minutes in gem pans.

Hallbut With Codfish.—Wash and flake a cupful of hallbut, wash and flake two cupfuls of codfish and cover with boiling water; let simmer for 20 minutes, drain and rinse again. Melt four tablespoonfuls of butter, add two of flour and blend until smooth; pour this into 1 1/2 cupfuls of rich milk. Season with paprika and salt, if needed. Place the drained fish in a casserole, pour the sauce over it and cover thickly with buttered crumbs. Bake in a moderate oven a half-hour.

Mulligatawny Soup.—Slice three large onions and brown them slightly with four slices of chopped bacon. Remove from the heat and add a teaspoonful of curry powder, four tablespoonfuls of flour and a half teaspoonful of salt; blend all together and then add three pints of veal or chicken stock. Chop two apples very fine, add them to the soup and simmer gently until the apples are cooked and the soup is thick.

Rice Muffins.—Mix a cupful of boiled rice with two cupfuls of sifted flour, two teaspoonfuls of baking powder, a tablespoonful of sugar, a half teaspoonful of salt, one egg and a cupful of milk. Mix well and bake in muffin pans. Serve hot.

Silence Pleases Orator.

What a speaker likes best is not applause. It is silence. There are moments when to a speaker the silence can be thrilling. Then he knows, as we say, that he "has" his audience. A perfect relation has been established. During those moments the thought is passing rapidly from the speaker's mind into the minds of the listeners, and is taking effect. It may not always be a sympathetic effect. It may even be hostile. Nevertheless, the thought is at work.

Fate of Annie Laurie.

The familiar song of "Annie Laurie" says the London Chronicle, was written by a soldier in Flanders to his ladylove at home. The writer was William Douglas, and Annie Laurie was one of the three daughters of Sir Robert Laurie of Maxwellton. Sad to relate, Annie did not marry her ardent lover. Some say that Douglas was killed in Flanders, but whether or not that is so, Annie was led to the altar in 1709 by James Fergusson of Craigharroch.

Why That Lane Back?

Morning lameness, sharp twinges when bending, or an all-day backache; each is cause enough to suspect kidney trouble. Get after the cause. Help the kidneys. We Americans go it too hard. We overdo, overeat and neglect our sleep and exercise and so we are fast becoming a nation of kidney sufferers. 72% more deaths than in 1890 is the 1910 census story. Use Doan's Kidney Pills. Thousands recommend them.

An Iowa Case

O. W. Emery, West Des Moines, Iowa, says: "My back got so painful I couldn't sleep and I had to be propped up with pillows. The pain was terrible and it seemed as though my kidneys were being torn loose. The kidney secretions were painful in passage and I lost weight until I was a mere shadow of my former self. Doan's Kidney Pills restored me to good health and I haven't suffered since."

Corn Bread.—At noon put two cupfuls of cornmeal in a mixing bowl and pour over it 1 1/2 cupfuls of boiling water, enough to thoroughly scald it. Mix well and cover with a coating of butter; cover and let stand until night. When ready to bake add a beaten egg, 1 1/2 cupfuls of milk a cupful of flour, sifted, with three teaspoonfuls of baking powder and a half teaspoonful of salt; use more milk if needed, as this should make a thick spoon batter. Bake 20 minutes in gem pans.

Hallbut With Codfish.—Wash and flake a cupful of hallbut, wash and flake two cupfuls of codfish and cover with boiling water; let simmer for 20 minutes, drain and rinse again. Melt four tablespoonfuls of butter, add two of flour and blend until smooth; pour this into 1 1/2 cupfuls of rich milk. Season with paprika and salt, if needed. Place the drained fish in a casserole, pour the sauce over it and cover thickly with buttered crumbs. Bake in a moderate oven a half-hour.

Mulligatawny Soup.—Slice three large onions and brown them slightly with four slices of chopped bacon. Remove from the heat and add a teaspoonful of curry powder, four tablespoonfuls of flour and a half teaspoonful of salt; blend all together and then add three pints of veal or chicken stock. Chop two apples very fine, add them to the soup and simmer gently until the apples are cooked and the soup is thick.

Rice Muffins.—Mix a cupful of boiled rice with two cupfuls of sifted flour, two teaspoonfuls of baking powder, a tablespoonful of sugar, a half teaspoonful of salt, one egg and a cupful of milk. Mix well and bake in muffin pans. Serve hot.

Silence Pleases Orator.

What a speaker likes best is not applause. It is silence. There are moments when to a speaker the silence can be thrilling. Then he knows, as we say, that he "has" his audience. A perfect relation has been established. During those moments the thought is passing rapidly from the speaker's mind into the minds of the listeners, and is taking effect. It may not always be a sympathetic effect. It may even be hostile. Nevertheless, the thought is at work.

Fate of Annie Laurie.

The familiar song of "Annie Laurie" says the London Chronicle, was written by a soldier in Flanders to his ladylove at home. The writer was William Douglas, and Annie Laurie was one of the three daughters of Sir Robert Laurie of Maxwellton. Sad to relate, Annie did not marry her ardent lover. Some say that Douglas was killed in Flanders, but whether or not that is so, Annie was led to the altar in 1709 by James Fergusson of Craigharroch.

Not in the clamor of the crowded street, Not in the shouts and plaudits of the throng, But in ourselves are triumph and defeat.

LIGHT REFRESHMENTS.

The dainty sandwich is always filling a large place and when well made and served there is nothing that is better enjoyed.

Cream Cheese Sandwiches.—Take a square of cream cheese, mash it in a bowl, adding a little sweet cream to moisten, salt and paprika to taste, with one or two canned red peppers, spread on thin slices of buttered graham bread.

Marshmallow Nut Sandwiches.—Toast fresh marshmallows and cut fine, mix with chopped walnut meats and sweet cream. Cut white bread, spread with butter, then with the mallow and nut mixture. A few candied cherries may be used with this filling if so desired. A half dozen cherries finely chopped will be sufficient for half a dozen sandwiches.

Fig Sandwiches.—Soak figs overnight in orange juice, then simmer in a little water added to the juice, until tender. Add a half cupful of sugar and the juice of half a lemon to each half pound of figs. Chill thoroughly and chop to a paste. Spread on thin white bread or on slice of pound cake.

Marguerites.—Make a boiled frosting, using a few tablespoonsful of steamed, chopped raisins and a half dozen chopped nuts. Put a teaspoonful on crisp, salted wafers and brown lightly in the oven.

Sponge cake baked in a sheet and then cut with a small biscuit cutter into rounds may be frosted with orange icing and rolled in grated rind, or the top decorated with the rind, making very tasty cakes to serve with a cupful of tea when a friend drops in.

It's the song you sing and the smile you wear That's making the sunshine everywhere. —Riley.

SAVORY SUPPER DISHES.

To make a supper dish at all popular it must be tasty and quickly prepared. Milk toast fills both of these qualifications, therefore it is a great favorite.

Spanish Chowder.—Cook together a can of tomatoes and a can of red kidney beans for ten minutes. Add a pound of finely chopped hamburger steak, one chopped green pepper, and salt and pepper to taste. Cook five minutes longer and serve piping hot.

Corn Bread.—At noon put two cupfuls of cornmeal in a mixing bowl and pour over it 1 1/2 cupfuls of boiling water, enough to thoroughly scald it. Mix well and cover with a coating of butter; cover and let stand until night. Felt Sorry for the Apostle.

Mrs. Podger, a Lancashire woman, has several sons at the front. Recently a neighbor, superior to her surroundings by education and rearing, called on her, and as they talked of Saloniki, where one of her sons was, she remarked that Saloniki was the Thessalonians to whom St. Paul had sent a letter. "Well," said Mrs. Podger, as she looked up from her washtub, "I may 'ave written there; I'm not sayin' 'as 'ow 'e din't. But I'm sorry for 'im 'e sent parcels. I sent two to my boy months since, and they ain't been delivered yet."—London Mail.

Horse Disliked Cigarettes.

A sensitive horse who has a dislike for cigarette smoke attacked Edgar Akers, aged twenty-five, and bit him on the right hand. Akers was smoking a cigarette at Sixth and Spring streets near the horse, which was standing at the curb. With an angry squeal, the horse seized Akers by the right hand. Akers managed to free his hand, but not until the horse's teeth had torn the flesh from the fingers.—Los Angeles Times.

"I love the heiress, and I'm going in to win."

MEAL-TIME CONSCIENCE.

What Do the Children Drink?

There are times when mother or father feeds the youngsters something that they know children should not have. Perhaps it is some rich dessert but more often it is tea or coffee.

It is better to have some delicious, hot food-drink that you can take yourself and feed to your children, conscious that it will help and strengthen, but never hurt them.

A Yorkstate lady says: "I used coffee many years in spite of the conviction that it injured my nervous system and produced my nervous headaches. While visiting a friend I was served with Postum and I determined to get a package and try it myself. The result was all that could be desired—a delicious, finely flavored, richly colored beverage. Since I quit coffee, Postum has worked wonders for me."

"My husband, who had suffered from kidney trouble when drinking coffee, quit the coffee and took up Postum with me and since drinking Postum he has felt stronger and better, with no indication of kidney trouble."

"You may be sure I find it a great comfort to have a warm drink at meals that I can give my children, with a clear conscience that it will help and not hurt them as coffee or tea would."

Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled. 15c and 25c pkgs. Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

COLLEGE DEAN LOSES MEMORY

Missing for Three Years, Educator Is Found in Denver.

ACTS AS DISHWASHER

Part of Memory Returns to Prof. Ceall Lavell, But He Wants Seclusion Until He Recovers Faculties.

New York.—Prof. Ceall Lavell, former dean of Queen's college in Kingston, Ont., and a former professor of history in Columbia university in New York city, has been located in Denver, Colo., after a nation-wide search which began in November, 1913. Lavell admitted his identity and declared that he was a victim of amnesia. He was recognized through a photograph in a police publication.

Lavell had been working in hotels in Denver for more than a year, during which time, he says, he had been experimenting with his mind to regain complete memory. At present, he says, he has recovered his mental faculties, with the exception that he does not remember of having been married. His wife, formerly a resident in Toronto, Ont., has joined her husband in Denver.

Wishes to Remain in Seclusion.

Professor Lavell claims he suffered an attack of amnesia on November 24, 1913, while in Columbus, O. On that day he found himself on a train en route for Detroit, where he learned from a newspaper man he was reported drowned in Hamilton, Ont. At Detroit he bought an outfit of clothing and planned to walk to the Pacific coast, but gave up because of the physical strain. After many experiences in the middle West he located in Denver and accepted the first job he could get.

"My mind gradually revealed parts of my past," Professor Lavell has told the police. "Through fear that I might be captured and placed in an

asylum, I changed my name to O'Brien, in the hope that I might become normal again. My sole wish is that I may be allowed to remain in seclusion as Ceall O'Brien and work out my own salvation."

Professor Lavell is forty-four years of age and has been a member of the faculties of Columbia university, Trinity college, Bates college and finally dean at Queen's college in Kingston.

ROBS A POLICEMAN'S HOME

Minneapolis Burglar Disregards Consideration Due to Officers of the Law.

Minneapolis.—The first and last word in the etiquette of burglars is to leave the homes of policemen alone, but one robber tossed conventions to the winds and entered the home of Patrolman Frank Rhoades, No. 2120 Fourteenth Avenue S., while the family was away that night. He took a suit of clothes, an overcoat belonging to the policeman and another suit and a pay check belonging to the policeman's son, Emmet Rhoades. Mrs. Rhoades and Emmet Rhoades were visiting and the policeman was on his beat when the robbery occurred.

SURVIVES SHOCK, WIFE DIES

Iowa Woman Drops Dead as Husband Falls From Pole While Repairing Transformer.

Montour, Ia.—O. P. Millard, manager of the Iowa Railway and Light company here, received a shock of 33,000 volts of electricity while he was repairing a transformer. His wife stood near by watching him at his work and saw his body topple from the pole to the ground, 14 feet below.

Mrs. Millard started toward him and fell dead almost at his side. Millard apparently was dead. Doctors at first pronounced him so. An hour after the accident, however, he recovered consciousness and will live according to physicians.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine—Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Cranston, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and clcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MATHE ASBACH, North Cranston, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCasland, 509 Howe St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache,

Fresh air, food, rest—these three combat tuberculosis?
The U. S. Public Health Service has reduced typhoid fever 80 per cent in some communities?

Polluted drinking water causes deaths?
An efficient health officer is a good community investment?

Insufficient sleep endangers health?

Marengo News:—Fred Zwiger and Tony Faust opened a cigar factory in Union and have started operations with a good deal of encouragement. They were recently located at Genoa, having but lately disposed of their interest there.

James McNamara, head clerk of the Modern Woodmen of America, announces that during April the society issued 16,291 new benefit certificates, chartered 95 new camps and added 535 new social members.

Draws Only Five
DeKalb Chronicle:—Owing to the fact that the legislators at Springfield have failed to provide any penalty for the man who gets drunk and drives an auto, if he is in his own car, it was necessary for the state's attorney to change the charge against Mr. Decker in police court and prefer a charge of driving on the wrong side of the street. As a result he was given a fine of \$5.00 and costs by Magistrate Glidden for the collision of last Saturday night when he ran into the machine of Earl Lowman between DeKalb and Sycamore.

Try This on a Stick of Wood
Place a stick of wood in a bucket of water a few weeks. Then put it in the sun a few weeks and keep this up for a year. You'll have a fair sample of what happens to the ordinary silo that has not been creosoted.
Creosoting—as we do it—renders the
DES MOINES SILO

waterproof and practically decay-proof. Adds many years life to the wood—prevents shrinking, swelling—no need of painting. And creosoting is only one of the reasons a Des Moines saves owners money.

The Lateral Staves—patented—only in the Des Moines—insure utmost strength. A silo without them has about the same chance of standing up as a man without a backbone.
The Triple Anchor System—exclusive—prevents turning and twisting. Many other exclusive advantages. Don't buy a silo until you have learned all about the Des Moines.

DO YOU KNOW

that there is not a store in the city that handles a greater variety of fruits and vegetables than this one? Those who are our regular customers have discovered long since that the Douglass Grocery Department is always filled with all the good things to eat that the market affords. The arrangement of the store makes it impossible to display the wares on the street and perhaps this is just as well for the customer for they are not exposed to the dust. A phone call in the morning will keep you posted on the vegetable and fruit market. Bear in mind always that the Douglass grocery department is in the front ranks of the progressives.
