SMITH'S PLATFORM

For four years as State's Attorney I have endeavored to enforce the law in De Kalb County FEARLESSLY, EFFECTIVELY and with FAIRNESS TO ALL. I did not MAKE the laws, but when elected in 1912 I took the oath prescribed by law and promised to ENFORCE them as I found them and to conscientiously perform ALL the duties which the law imposes on the office. This pledge I have kept, and upon this platform and upon my record I again ask your support and assistance.

From behind their trees Maple house, The Firs and Elm house blinked up at him dreamily. Before them ran the ribbon of road, white under moonlight, dipping at each end into the wide world. Up and down the road before The Firs, paced two figures-Gerry and Alix. Gerry's arm was around her. Long black shadows, all pointing to the west, like fallen silhouettes cut the moonlight. Above them, the autumn-painted trees gave out a golden echo of light.

Alan drew a great, quivering breath. "My boy, you have been far, far away," J. Y. had said and he had answered, "yes, but I have come back." But it was only now, tonight, that he had really come back.

Alan's wandering eyes settled on Maple house. "Even as a hen gathereth her chickens under her wings," he whispered.

And then the peace of home descended upon him. On his scarred spirit he felt' the touch of the healing hands of home. Its sweetness and its power, its love everlasting demanding love forever, knocked at his waking heart and found the door open. Far, far had he wandered in the world of mind and the world of men, but in the end he had come back like a Wayne to the eternal mother of the Waynes. Tonight he knew that his drifting soul cause of the commotion and was had dropped anchor at last.

KILLED SEEKING TO ESCAPE

How General Morgan, Famous Confed erate Raider, Ended His Long Series of Forays.

In December, 1863, Longstreet, who had been conducting an active campaign in Tennessee, returned into Virginia, leaving the noted guerrilla, Col. John H. Morgan, to carry on the struggle in East Tennessee. December 29 there was a fight between General Sturgis and Morgan—the latter having an army of about 6,000—near New Market, in which Morgan was defeated. In another fight January 16, 1864, Morgan made the attack and Sturgis was driven back to Strawberry Plains. Buy Canned Goods In Quantities

A Convneience and a Saving

Have you ever realized the joy and convience of having canned goods on your shelves during the winter? It is not only a convenience, but economy. In the fall you should put in canned corn, peas, beans, and fruits by the dozen or case. It's a little early to buy now, but we are in a position at this time to talk it over with you. Try this scheme once and you will never let another fall go by without putting in a winter's supply of canned goods. We handle well known good brands, the kind you have always used

Vote For Hull

And a New Illinois

Down the "Harmonized" Jackpot-Spoilsmen Crowd

The state-wide Primary-so close at hand-will decide the Crisis that Illinois has reached in the united drive of Progressive-Republicans to save the state from the Bi-partisan Pillagers within the party.

The battle lines are sharply drawn. Good government—constructive Republicanism led by its 10-year champion, Senator Morton D. Hull—is charging against the "harmonized" bands of Spoilsmen.

Opposed to Hull's movement for a new Illinois are those who aided and profited in the shameful Allen Bill granting 50-year franchises to street railways, the "Jack-Pot" legislators, the "Bathroom" gang who "put over" Lorimer, the "Slush Fund" kings and others who have put a price on special privilege in the past, and obstructed good government for the sake of graft.

Those ruinous influences have combined to nominate Lowden for governor. Not because he is corrupt-but because of his yielding character, his inexperience in state affairs, his ever readiness to supply them with campaign funds, and his old-time Lorimer affiliations. All these make Lowdon fit nicely into their plan to fasten their grasp upon the state institutions as the Thompson wing of this combine now grips Chicago's government. Dr. Theodore Sachs was a martyr to the plun-

"Republican" legislators who bolted their party caucuses, who combined with the Democrats at Springfield and so elected a Bi-partisam speaker of the house—not once, but repeatedly—these Bi-partisan "republicans" are now assailing Senator Hu'l and their battlecry is "Harmony!"

BUT DON'T BE DECEIVED! Their brand of "Immony" means that Republicans ar the mast be given

sleeping powders so they may forget the past of those who are secretly working out the plans to be restored to place and power through the nomination of Lowden, who is their candidate

The task of good government is big and demands a big statesman as governor-it calls for the courage, honesty and ability that the Legislative Voters' League finds in Senator Hull. Of him

In its report September 15, 1910: "A recognized leader of the progressive element of the House."

But what about Lowden? Commenting upon his avowed policy to shirk leadership if nominated, The Chicago Daily News in a recent editorial says:

"If Mr. Lowden means that in case he is chosen governor of Illinois, he will merely act upon whatever matters come up to him, then he may rest assured that his policy will not work. The people of Illinois are entitled to have as governor a man of initiative, who will labor aggressively for the betterment of conditions in the state.....

"Morton Hull, seems to have a proper conception of the requirements of the situation. In one of his recent speeches he said: 'If nominated and elected governor, I will use the legitimate power of that office to aid in securing forward-looking legislation.'"

REPUBLICANISM IS PROVINE'S KEYNOTE

Candidate For Attorney General Believes in the Republican Party's Ability to Solve Problems.

His faith in the Republican party is founded upon his belief in efficient service. Walter M. Provine of Taylorville, candidat for the Republican nomination for Attorney General, declared

"I believe in the Republican Party, its wonderful record of achievements, its ability to solv questions of governmental policy and its future success." he said "I believe in honest and eff

cient service by public officials that in order to render this effective they must be ready at al times to withstand any on slaught that may be made by a bi-partisan combination of these elements in both parties tha continually oppose and strive to nullify and repeal safe, sane and progressive legislation. Public officials must use the power of their office vigorously to defend and contend for the preservation and enforcement of wise laws.

"The office of Attorney Genera is one of the most importa within the gift of the people

the state of Illinois. I would manage and conduct it in accordanc with the constitution, statutes and decisions of the courts for the best interests of the people of the state, if elected."

Mr. Provine has served five terms in the legislature. He was the Republican caucus nominee for speaker at the last session. but was defeated because he refused to enter into a bi-partisancom-

There is a story about a regiment that the prince recently reviewed. A soldier in this regiment was noted equally for his bravery and his untidiness. The prince talked to him for a few minutes, and the man in his confusion could stammer nothing but "Your rile 'ighness," "Yes, your rile 'ighness," "No, your rile 'ighness."

At the end of the interview the prince said, with a good-natured glance at the soldier's accoutrements disordered as usual:

"Very good, my man, very good; but, in future, please, not so much of the rile 'ighness and a little more of the pipe clay."

Tells the Story of Western Canada's Rapid Progress The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions. The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, upwards of four and a quarter million bushels being exported in less than six weeks, and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common. There is no war tax on land and no conscription.

Time cannot affect our tanks, they are made of cypress, the wood that defies time and decay. The historic gates of Constantinople, made of cypress lasted 1,100 years; the doors of ancient St. Peters in Rome stood 1200 years of constant use. No other wood can compare with cypress for long life under hard service. That's why we use CYPRESS for our tanks, it outlasts the finest steel.

The Coal Question Is Always Serious

for it means money spent for a commodity that must go up in smoke. Under ordinary conditions one may buy coal at any time of the year, but one can not be assured of getting coal that will give best results. When the coal is going up in smoke, you want heat. It is the heating qualities that you are paying for, not the smoke and pile of ashes. It is time right now to think about filling the bins, for another month or six weeks will bring cool weather. We are prepared to talk coal with you now, but if the railroad strike materializes, no one knows what the result might be.

Good Coal is Economy

no matter whether you are burning hard or soft coal and it is good coal that we sell you. We have the cheaper grades in soft coal, of course, but only one quality of anthracite, and that is the best. Better come in at once and talk it over.
