coated, give "California Syrup of Figs."

Children love this "fruit laxative." and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat. stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

The Jumping Frog Story.
It was in the Angel Camp bar that Mark Twain heard from an ex-pilot called Ben Coon the jumping from story. Clemens related it to Artemus your vote at the coming town Ward, who urged him to write it, to be included in a book that Ward was publishing. Clemens dallied and sent it to the publishers too late, but they handed it over to a dying paper called would appreciate the support of the Saturday Press, which gladly gave it pride of place in its columns or Nov. 18, 1865. Professor Sldgwick synopsized it in Greek form for his book "Greek Prose Composition," and thus arose the legend that the jump ing frog story originated in ancient Greece, a legend in which Clemens him self believed till Professor Sidgwick undeceived him in 1899 by telling him

How Jefferson Dressed.

"Pride costs more than hun ger, thirst and cold," he used to say and as he lived in an epoch that wit nessed a mighty revolution in men's clothing as well as in men's govern ment, monarchy's queues and velvets giving way to short hair and the useful, ungainly pantaloon, only the watchful ness of his body servant saved him from unbelievable anachronisms of cos tume Indeed, in later life at Monti cello, where this democrat ruled absolute king, he often wore the garments of several different periods together. like superimposed geological strata or the historic remains in the Roman

New Detachable Sedan Top For Models "34" and "348" - \$210

You can convert Model "34" or "348" into a luxurious, well-balanced Sedan with our new Detachable top. You get complete protection, comfort and style—an all-season car at little more than the price of a touring car. Models so equipped are now ready for delivery, and we suggest the advisability of immediate orders.

able with the touring car top without any lining. Electric dome lights. Heavily alterations of the body. It fits snugly and nickeled fittings. Perfect ventilation. A tightly around the windshield, and is really fine enclosed body-that satisfies fastened to the body by the regular top irons. It is substantially built and finely finished. It is worthy to become part of a Jackson car—and it is so firmly attached and so beautifully fitted, that it really does become part of the car.

Windows are crystal plate glass, can be raised or lowered easily, and are fitted

Model "34" Four, with Detachable Sedan Top \$1195 Motor 31/2" x 5"; 112-inch wheelbase; 32" x 4" tires -fully equipped, including one-man touring top, electric lighting and starting system.

This beautiful Sedan top is interchange- with anti-rattle devices. Gray whipcord from the standpoint of style as well as from the standpoint of comfort.

> We offer this top at \$210. It is worth more than that for the added utility it gives your car. It permits a Sedan for winter—a touring car for summer use, and for the first time places this type of car within reach of the man who does not wish to maintain two machines, but desires a really aristocratic car for winter driving.

Model "348" Eight, with Detachable Sedan Top \$1405

Motor 2%"x 4¾";112-inch wheelbase; 32"x 4" tires—fully equipped, including one-man touring top, electric starting and lighting system.

We suggest early orders for early deliveries

Practice on Yourself. You are frequently annoyed because the people do not "do better." Try loing better yourself, and you will realize why the people are so slow about it. But everything that is true so sickening as the satistics of pleas-

and important slowly gains ground.

Could Eat as Well as Write.

Dr. Johnson was a great tea drinker. It is stated that he would drink thirty or forty cups of tea during an evening! Yet he lived to a fair age and apparently suffered no very ill effects from his great thirst for tea. He was one of the most notable of feeders and ate his food in what we should now think rather a piggish fashion, making great grunts and groans of satisfaction or enjoyment the while and going the

round of the menu very thoroughly. Charles Reade, the famous novelist, is reported to have been one of the strangest feeders on record. A contemporary, writing of his meals at the Garrick club, says: "He took a cauliflower, flanked by a jug of cream, as his first course, and a great salad to follow, washed down by curious drinks of the shandygaff order. He would drink coffee associated with sweets, black pudding and toasted cheese, to the amazement of any onlooker."

Survival of the Fittest Among Birds. The struggle of life among the birds and other wild creatures is so severe that the feeble and malformed, or the handicapped in any way, quickly drop out. Probably none of them ever die from old age. They are cut off in their Telehone 24 prime. A weeding out process goes on from the time they leave the nest. A full measure of life, the perfection of every quill and feather and unerring instinct carry them along. They are always in the enemy's country; they are always on the firing line; eternal vigilance and ceaseless activity are the price of life with them. The natural length of life of our smaller birds is calculated to be eight or ten years, but probably not one in a thousand reaches that age. Not half a dozen times in my life have I found the body of a dead bird that did not show some marks of violence.-John Burroughs in Harper's Hagazine.

Remedy For Anger.

The greatest remedy for anger is delay. Beg anger to grant you this at the first, not in order that it may pardon the offense, but that it may form a right judgment about it. If it delays it will come to an end. Do not attempt to quell it all at once, for its first impulses are flerce. By plucking away its parts we shall remove the whole. We are made angry by some things which we learn at second hand and by some things which we ourselves hear or see. Now, we ought to be slow to believe what is told us. * * • If you were about to give sentence in court about ever so small a sum of money you would take nothing as proved without a witness, and a witness would count for nothing except on his oath. You would allow both sides to be heard; you would allow them

The Expanding Stone.

In the rock of St. Gowan's chapel, in Wales, was a natural cavity upon "World's Fair' corn, grown on my farm for 20 years or more. Tests almost perfect. Call on Zeller & Son for samples. H. N. Olmsted, 19-tf which the hame of the ham which the name of the "expanding entered the cavity.

The legend ran, as quoted by Mr. FOR SALE-1914 seed corn at \$2.50 George F. Kunz in "The Magic of per bushel if taken within the next Jewels and Charms," that once, dur-30 days. Guaranteed. A. B. Crawing the pagan persecutions, when a fugitive Christian, hotly pursued, reached this rock it opened up of its own accord so that he could slip into it and then closed about him so as to hide him effectually from his enemies. This expanding stone was believed to manifest its magic power by bringing to pass the wish expressed by any one who entered it, provided he did not change his wish while he turned around within it.

> Henpecked Sparrows. Female sparrows are especially tyrannical toward their partners, especially at nest building time, when they frequently attack their husbands flercely on account of their laziness. At such times the female voice can always be detected, both louder and shriller than that of her mate, as she pecks and tousles him until he beats an ignominious retreat. Hen blackbirds and thrushes are often very over bearing and even spiteful toward their mates when their houses are in course

of construction. Winning Both Ways.

The Zulu young lady, when suitors are not forthcoming, takes the matter in hand herself. She leaves home, takes a discreet friend of her own sex and presents herself at the home of her favored swain. If he regards her with satisfaction his parents receive her as his future bride. Should he. however, be unwilling to accept her he makes her a handsome present in-

The Old Greek Cuirass. The Greeks had a cuirass made of linen or woolen fibers which was impenetrable to the sharpest darts or spears. That, by the way, is one of the discoveries that have not been rediscovered, for we do not know the secret

Colds Make Backs Ache

MORE aching backs, more kidney troubles come in March, than in any other month. Slushy sidewalks, dampness, raw winds and sudden changes cause chills and colds. And chills or colds tend to hurt the kidneys. It is good sense to use a kidney remedy when recovering from a cold and at any time when suffering from a lame back, sharp pains when stooping or lifting, dizzy spells, irregular or annoying kidney action, and a run-down, nervous state.

Don't delay and take a chance of getting dropsy, gravel, Bright's disease or some other serious kidney disease. Use Doan's Kidney Pills, the best-recommended, special kidney remedy. All over the world grateful people frankly praise Doan's.

Here's What Illinois People Say:

David T. Howe, E. Seventh St., Aledo, Ill., says: "I suffered fre-quently from backache and when one of these spells came on, I was so wretched I couldn't sleep. I felt drowsy and worn out all the time. Two or three boxes of Doan's Kidney Pills corrected these allments. Several times since when I have had slight spells of kidney trouble, Pills have given me quick relief.'

Mrs. Harriet Thompson, 1824 S. Court St., Rockford, Ill., says: "For years I suffered from kidney trouble. I had severe pains through my back. The kidney secretions were irregular in passage, too. Finally I used Doan's Kidney Pills and they not only rid me of the

VOTE BIGGER ARMY

HOUSE PASSES RESOLUTION, 236 TO 1, TO RECRUIT FORCES TO FULL WAR STRENGTH.

PROVIDES INCREASE OF 29,000

Plan Sanctioned by Wilson Will Keep Troops at Maximum Number as Long as the Emergency Exists.

Washington, March 16.—The house president to bring the regular army up to war strength at once.

Meyer London, Socialist of New York, was the only one to vote against the resolution, which now goes to the senate. It is expected to be speedily adopted there.

The war department decided that strength at once because of the Mexican situation. It became known that at their conference in the morning Secretary of War Baker and Chairman Hay of the house military affairs committee agreed that immediate action was necessary.

The army now has 91,000 men. Its full strength is limited to 120,000. The phosphated hot water every morning resolution which Hay put before the to rid your system of these vile poihouse authorizes the secretary of war to take steps to raise 29,000 more men at once. It is understood that President Wilson sanctioned the plan.

Following is the resolution provid-

"Resolved, by the senate and house bled, that when in the judgment of the makes it necessary, all organizations of the army which are now below the liver, kidneys and bowels.-Adv. maximum strength authorized by law shall be raised forthwith to that nearly as possible thereat as long as what would he get? the emergency shall continue; provided, that the total enlisted strength of any of the said arms of the service shall not include unassigned recruits Bocker-A man who believes the have been when you heard your son at depots or elsewhere, but at no time shall said recruits exceed by more Scotch Wife-Oh, ay! I was pleased than five per centum the total enlisted enough, but I wasna' surprised. Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside: no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like by a vote of 236 to 1 on Tuesday you bathe outside. - This is vastly adopted a resolution authorizing the more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone it must bring the army up to full phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your druggist or at the store. It is inexpensive and almost tasteless, except a sourish tinge which is not unpleasant. Drink sons and toxins; also to prevent their

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! of representatives in congress assem. As soap and hot water act on the skin, cleansing, sweetening and purifying, president an emergency arises which so limestone phosphate and hot water before breakfast, act on the stomach,

No War Tax on Land-Embargo on Shipment of Live Stock Removed.

During the prevalence of the footand-mouth disease in some portions of the United States, an embargo was placed upon inter-state shipments. This also had an effect upon shipments to Canada, and necessarily an embargo was placed upon them, making it almost impossible for upwards of a year to ship cattle into Canada, from the United States. This was especially hard on the settler. As a result, Western Canada lost a number of settlers, they being unable to take their live stock with them. Canada is practically free from horse and cattle diseases, and the wish of the authorities is to keep it so.

Recently, though, an order has been issued by the Department of Agriculture, removing the embargo, and settlers are now free to take in the number of head of horses or cattle that are permitted by the Customs authorities and the freight regulations. This will be welcome news to those whose intention it is to move to Canada, taking with them stock that they have had in their possession for six months, and, which it is the intention to use on land that they will farm in the Provinces

of Manitoba, Saskatchewan or Alberta. There are thousands of splendid homesteads of 160 acres each in any of these provinces, that may be had upon the payment of a ten-dollar entry fee and fulfilling the requisite living and cultivation duties. These lands are well adapted to the growing of all the small grains, and besides, having an abundance of grass, and sufficient shelter, they are well adapted to the raising of stock.

If one prepares to purchase land, there could be no better time than the present. Prices are low, and particulars may be had from any of the land companies, of which there are several. or from the Canadian Pacific and Canadian Northern railways, whose holdings are in the older settled districts, and whose terms are exceedingly easy o the settler. What these lands will lo in the matter of production cannot be more strongly emphasized than in reading the reports of the crops throughout all parts of the Canadian West in 1915. Yields of 50, 60, and as high as 70 bushels of wheat to the acre were numerous, while reports of yields of from 30 to 45 bushels per acre were common. Oats as high as 130 bushels per acre are reported, 50 and 60 bushels per acre being ordi nary. The prices realized by farmers Millions of men and women take a have placed most of them on "easy

Lately there have appeared articles in a number of United States newspapers to the effect that there was conon January 17th, said:

"In the first few months of the war I clearly stated that there would not be conscription in Canada. I repeat

that statement today." the conscription talk that has been so be considering settling in Canada during the war.

It has also been said that there was a war tax on land. Hon. Dr. Roche. Minister of the Interior, over his own signature has denied this, and the premiers of the different provinces join in saying "such a report is absolutely untrue, and has no foundation whatever in fact, nor is there likely ever to be any such tax upon land in Canada."

The general prosperity of Western Canada farmers and business institutions is such that Canada is well able to take care of the extra war expenses without any direct war taxation. This has been well illustrated by the magnificent response to the Dominion Government's recent bond issue, which was more than doubly subscribed for within the first eight hours of its being offered to the public.

(The above appears as an advertiseheavy and sleepy ment and is paid for by the Dominion of cuts." Government which authorizes its pub-

mough until it is time to work.

Three Hundred Million Bushel Grop

Farmers pay for their land with one year's crop and prosperity was never so great.

Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is sounder than ever. There is more

wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvelous and a monument of strength for business confidence to build upon, exceeding the most optimistic predictions."

Wheat averaged in 1915 over 25 bushels per acre Oats averaged in 1915 over 45 bushels per acre Barley averaged in 1915 over 40 bushels per acre

Prices are high, markets convenient, excellent land, low in price either im-

proved or otherwise, ranging from \$12 to \$30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The climate is healthful.

There is no war tax on land, nor is there any conscription. For complete information as to best locations for settlement, reduced railroad rates and descriptive illustrated pamphlet, address Superintendent Immigration, Ottawa, or

Ratfield had business at commencing at I o'clock p. m. sale at Hampshire Friday. the property described below: The Riley Pioneer Club met Pair black mares, 9 years old; were at Sycamore Sunday. with Mrs. Jane Jayner Friday, Pair gray geldings. 7 and 8 years March 10, twelve members and old: brown geldings, 9 years old; household goods to DeKalb. friends being present. Aunt Jane bay mare, 9 years old; sorrel is our oldest member and we will mare, 14 years old; gray mare in Thursday evening at Will Japp's. ong remember the pleasant day foal, 6 years old; bay mare, 12 years old. Buggies, harness, etc | spent Sunday at Ray Crawford's Mr. Banke, the oldest man in 6 tons of hay. 150 bales of hay.

Barn will be sold at two o'clock funeral was held at the German sharp. Terms to be made on day Caroline Ellen Friday at Hamp-Lutheran church in Marengo of sale. ROB'T GALLAGHER shire.

ty-seven years old, on Saturday, The township Sunday School February 26, signed an agreement lowed by Mrs. C. Patterson, Mrs. each month. A company has \$10,000 a week. For signing the contract the commedian was giv-I respect the man who knows dis- en a bonus of \$150,000. Which tinctly what he wishes. The greater means, of course, \$520 000 plus arises from the fact that men do not \$150,000 — \$670,000. John R. sufficiently understand their own aims. Freuler, president of the company They have undertaken to build a formed to make Chaplin releases, foundation than would be necessary holds the great comedian's con-

Bobby Meant Well. "It can't be possible, Bobby," said his mother, "that you have been wicked enough to eat the whole rhubarb Public notice is hereby given pie in the closet?" "Yes, ma. The what improved at present. system required rhubarb, an' l thought I'd better get a good dose of

Notice

21-3t In the County Court thereof, In

NOTICE

To the Heirs at Law and Legatees of Charles F. Patterson, deceased.

Notice is hereby given to all parties interested, that an instrument in writing purporting to be the last Will and Testament of Charles F. Patterson, deceased, has been filed in said Court, and that C. A. Patterson has also filed his peti tion in said Court, asking that said instrument be admitted to probate as and for the last Will and Testament of the said Charles F. Patter son, deceased, and that Letters Testamentary may issue to him.

Said petition named the following, as heirs at law and legatees of said deceased, to-wit: no widow and Mary E. Quick, 310 North Church Street, Rockford, Ill.; C. A. Patter-son, Genoa, 1ll., Clyde Patterson, Residence unknown; Harry Patter-

hearing at the April Term A. D. 1916, of said Court, at the Court House in Sycamore, in said County, on the 10th day of April, A. D. 1916,
