Then there was an hour of song. The program thruout was of a patriotic nature. The first chorus was "The Battle Hymn of the Repbulic," followed by a solo, "The Spanish Cavalier," by H. A. Cheney. The "Soldiers' Chorus" was given by the entire company. Mrs. Florence Eiklor then sang "Love's Old Sweet Song" in her usual pleasing way. Mrs. Fank Wallace gave an excellent reading entitled "The Ride of Jenny McNeal." Newis Gormley then came on dressed S Uncle Sam and sang "Don't Bite the Hand That's Feeding You." Miss Frances Hoover made a beautiful "Columbia" and while the pantomime was carried out Miss Laura Crawford sang "Columbia the Gem of the Ocean." Richard Hoover and John Dyer as Boys Scouts, and Lewis Gormley as Uncle Sam, assisted in this scene which was exceptionally pretty. Miss Getchen Marquart of Valparaiso, Ind., favored with a solo, "May Morning" and responded to an encore with "Daddy's Sweetheart." Miss Marquart has a sweet and powerful voice which pleased the audience. A medley consisting of "Hail Columbia," "Flag of the Free," "Tramp, Tramp, Tramp," "Yankee Doodle," "Rally 'Round the Flag," "Dixie Land," "America," was given by the chorus. Charles C. Schoonmaker sang a bass olo. "A Soldier's Farewell" The lights were then dimmed and a spot light flashed on a placard at the side of the stage on which the names of all the Genoa boys who have enlisted were printed, while Mrs. Helen Seymour sang "Your Flag and Your Country Need You." A quartet, composed of Karl Holtgren, W. H. Jackman, Lewis and Richard Gormley, sang "Illinois," with Richard Gormley as soloist. Ralph Browne was next on the pogram, singing "Tipperary." Miss Esther Teyler read "A Woman With a Country," which was very appropriate for the occasion. A duet, "Juanita," by Mrs. Florence Eiklor and Mrs. Millie Engle was beautifully rendered by these well known soloists. Miss Laura Crawford, one of Genoa's sweetest singers, delighted the audience in her rendition of that famous old ballad, "The Last Rose of Sum-

#### THE CHARMING AND TALKATIVE MRS. BEGGARSTAFF DIS-COVERS THAT LUCY CARTERET HAS A WONDERFUL NECKLACE

Just as the giant passenger steamship Alsatia is ready to leave the port of Liverpool for New York, a charming young Englishwoman goes aboard and engages a luxurious stateroom. She is nervous, suspicious and fearful. Presently she learns she is to share the stateroom with Mrs. Amelia Beggarstaff, an amiable chatterbox of fifty years, who lives in New York. Mrs. Beggarstaff learns the girl's name is Lucy Carteret and that she's on her way to America to live. She calmly announces she will act as Lucy's chaperon for the voy-

The bang of the door as Mrs. Beggarstaff went out might have been a signal: immediately the girl became conscious that the ship was in motion-vibrant and sonorous with the

#### GREAT NEED OF FOOD

No Danger of Overproduction This Year—Dean Mumford.

ee, it was a present from my father, Any Surplus Which American Farmers Can Produce Will Be Quickly Absorbed by Hungry People of England and France.

> While the farmer is being urged to greater and greater production, he naturally considers the possibility of overproduction. Many farmers in the state have advanced this question. According to Dean F. B. Mumford in the Missouri College of Agriculture, overproduction is exceedingly improbable this year. It has been agreed that this country's part in the war will be largely to supply food. "Our food resources have been depleted by shipments to Europe and by several poor crop years," said Dean Mumford recently, "and now with unrestricted export to the allies, the small reserve which we have will be further decreased. Any surplus which the American farmers can produce will be quickly absorbed at war-time prices. Millions of people in England, France and other countries at war with the German powers are in need of food. They must have food not only for their civilian population but for their armies. They are too busy fighting to provide that food themselves. It then behooves the United States to supply

"But it is not alone for the allies that we must produce maximum crops. If we should have a poor crop year throughout the country, our own people may actually suffer.

"If Germany is able to continue the ruthless submarine warfare unhindered, some food will be lost on its chased at the same price per dozen way to Europe. Consequently the osses will tend toward a further short-At length she sat up with a quick age and to absorb any surplus even if there were danger of overproduction.'

What would happen if peace should come within the next few weeks? Would not the markets be glutted? In answer to these questions, Dean Mumford said: "It is doubtful if there will be a great decrease in the demand for food immediately following will become a market place for American farm produce. Those countries have no food reserve left and they will turn to the United States to fur

#### \*\*\*\*\* BUYING AND SELLING EGGS

Prominent Dealer in Food Supplies Opposed to Practice of Handling Them by Dozen.

A prominent dealer in food supplies has gone on record as opposed to buying and selling eggs by the dozen.

"I am strongly in favor of selling eggs by weight," he says. "It is the only just way for both seller and purchaser. As things are now, one man may buy a carton of eggs, very good, but very small. while another may buy a carton of fine big eggs. Yet both will pay the same price. It is not fair. The only fair and just method is to buy and sell them by

may differ as much as 25 per cent in the value of the food elements furnished. Perhaps the fairest way to buy or sell eggs is by weight. Because of the wide variations in the size of eggs, it is also coming to be recognized that more accurate results in recipes can be obtained by weighing or measuring the eggs out of their shells.

#### HOW CHAUTAUQUA CAN GUARANTEE THE BEST

The Chantanquas are developing a splendid lot of talent. The attractions that we are to have on the program here this season are all highly, trained in Chautauqua work. Many of them have been with the Lincoln System on their several circuits a number of sea sons and know the peculiar demands of the Chautauqua audience. The Lincoln System operates four immense circuits, each of them having wholly separate and distinct programs. They often make four and five years' contracts with these lecturers, entertainers and musicians and thus make sure to have the best at all times. The long time contract folks must have established their reputation absolutely. It is a guarantee of the very best,

By special invitation of the entente powers the king of Greece has "slipped out." As a brother-in-law of the hopes for the future.

The Chicago Republican (Bill Thompson's only backing), the anarchists and the anti-draft agitators should all be bottled up until after more than ever before. Why anarchists are allowed to speak in public each. And just how long will these very teachings from start to finish are nothing more or less than treasonable.

There should be none of the rough stuff that agine Illinois has now had enough of 1917. Geo. W. Buck, Executor. has featured the average celebration thehonor system. of former years. The shooting of firecrackers, caps and torpedoes does not appeal to the serious minded at this time. For a change, let there be patriotic programs, flag drills and speeches that will lead ail to think. The money that is annually wasted in the burning of fireworks would equip many Red Cross hospitals. Celebrate the fourth by joining the Red Cross. You will awaken on the fifth with a better taste in your mouth. What will Genoa do on the fourth?

The governor has made no mistake in the selection of the exemption board for the county of DeKalb. Edward S. Ledoit of Sandwich is an able, well balanced man of excellent judgment. People of this part of the county know that John McQueen of Kirkland is capable of filling the position. Dr. Everett of DeKalb is also a man of mature years and stability. These three men have not drawn a job that should create envy. Their task is one that will tax their very souls at times. They must be prepared to use their own judgment regardless of the great pressure that will be brought to bear thru the agency of "political pull" and tears.

It is a decided shock to the country to learn that less than fifty per cent of the men who volunteer can pass the physical examination and far less tha thirty-five per cent are anywhere near physically perfect. As a matter of fact those who enter the aviation service must be as near perfect specimans of manhood as can be. Only two per cent are able to pass that examination. We boast of our athletes and of course have turned out men who broke records on the athletic field, but what about the average? The average person is only fifty per cent efficient, and only two out of every hundred can claim being near 100 per cent efficient. The selective draft will show some more surprises. PERKINS

About that Improvement You are Planning— WHY NOT GO AHEAD WITH IT?

EVERY REASON IN THE WORLD SAYS YOU SHOULD

At no period in our history have we been so sure of the future. The eastern world's stomach is feeling the pinch of hunger, and its demands on the products of America's broad acres and American industries are growing with every passing hour. A great market is opening wider and wider. Honest and fair profits in all lines of legitimate effort are certain.

There should be no curtailment in building and road construction. Let both public and private useful construction proceed. Production and handling of building materials and public and private construction work are fundamental industries of the country. Any tendency to suspend or postpone building projects is inconsistent with maintaining our prosperity. The country is prosperous. Building investors should not hesitate to go ahead with their plans. Railroads should spare no effort to supply the building industry with the cars needed to transport materials. Government, state, county and municipal authorities should encourage the continuance of all kinds of building. Road and street improvements in particular should go on unabated. Bad roads and streets are factors of first importance in the present high cost of foodstuffs. Never before was the improvement of highways so essential.

The lumber, brick, cement, lime, sand, gravel, stone and other building materials industries are basic. Neither government regulations nor railroad restrictions should be imposed unnecessarily to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the govern

The right thing to do is to keep building

# Uncle Sam Puts The Pay in Patriot

Habits are the easiest things in the world to acquire and the hardest to break.

Get the THRIFT habit.

You'll be surprised how easily you get into its grip and how hard it will be for you to break away from it.

While all the world is in tumult and no man knows what is going to happen next, Uncle Sam comes along and offers you the best chance of your generation to save money.

The Liberty Loan offers you a chance without parallel to become thrifty.

On the easy payment plan you can acquire one or more of these government bonds and never miss the money. Once you have them paid for you are getting  $3\frac{1}{2}$  per cent interest and you've got a nest egg tucked away for a rainy day.

Patriotism pays.

It is patriotic to buy a Liberty Bond.

And as a reward for such patriotism, there is no taxation on such an investment.

The government pays you 31/2 per cent to be patriotic and then exempts your patriotism from taxation.

All of which means you will be getting from four to six per cent on your investment, without any risk whatever.

There is only one thing surer than death and taxes --- that is the interest on a government bond.

A Man Without a Country would be glad to buy a Liberty Bond. Because, as a plain, hard, common sense business proposition, its the best thing on the market.

Create within yourself a sense of thrift.

GET THE HABIT. Buy a Liberty Bond.

With it goes the best spiritual tonic you can get--- the realization that you are a DOER and not a DODGER.

Santa Rosa, Cal.-A battle between a giant buzzard and a fifteen-year-old boy ellinging to the root of a shrub 250 feet up a straight ledge of rock was won by the boy, who is now recovering from an experience that rivals Poe's fictional terrors.

The boy is Hans Mierbach and he hung high above a pile of jagged rocks for four hours. He was walking on the brink of a precipice when his foot slipped and he fell over.

Was Tormented to a Frenzy.

Twenty feet below he caught a root and hung on. With his handkerchief he tied his left wrist to the root and then wrote a note to a boy friend, bidding him farewell and saying that no one was responsible for his pre-

Just as he finished writing a huge buzzard flew down upon him and started to peck at his head and body. The hungry bird inflicted deep wounds in the boy's flesh. Young Mierbach fought the buzzard with his free hand for over an hour. He had been tormented to a frenzy and was about exhausted when the bird gave up the fight.

At nightfall a searching party found the boy and rescued him. He had nearly lost consciousness from his experience and loss of blood.

Young William Barnhart had often heard his father tell of the raid, and expressed a great desire to trace his aunt. Handicapped because of lack of familiarity with the Bannock tongue, he finally found an interpreter.

After a three-day search, he ran across an old Indian, who informed him that his aunt had died 11 years ago, and that her daughter, Nannie Bell, was married and living on the reservation. Other Indians remembered the events of the capture of Nannie's mother.

REALLY WENT UP SALT RIVER

Action of Defeated Office-Seener In Kentucky Gave Rise to Saying Now Used All Over Country.

The people of the United States have always been prone and quick to catch a happy or unhappy remark or phrase n politics and to make the most of it to the advantage of one or the disadvantage of another party, observes the In constructing their walls the pure Christian Science Monitor.

Some leaders are happy even in their most casual expressions. Lincoln was held in the Baptist church Sunday one of these. Grant was another. It used to be said that the difference between Lincoln and his greatest general was that, while one dropped pearls of speech, the other dropped the pearls of silence. Nevertheless, when Grant last week with her sister, Mrs. said that he proposed to "fight it out on this line if it takes all summer" and when he said, "Let us have peace," he Mr. and Mrs. S. T. London children get some quaint views of life. An instance of this recently occurred in an East End Sunday school, where the teacher was talking about Solomon and his wisdom,

"When the Queen of Sheba came and laid jewels and fine raiment before Solomon what did he say?" she asked presently.

One small girl who had evidently had experience in such matters promptly replied: "'Ow much d'yer want for the lot?"
