ITEMS OF GENERAL INTEREST TO GENOA AND VICINITY

Coroner's Jury Enquires into Engineer Smith's Death—Head Camp of Modern Woodmen Pass Liquor Resolution

The Japanese strictly enforce the law forbidding boys under 20 years of age to use tobacco.

Jerseyville, Ill., is the banner license town, having placed the license at \$10,000 per annum.

The Selz, Schwab & Co. shoe factory at Elgin has resumed operations after a five weeks' shut down.

Men at the head of the construction work on the I. I. & M. railroad, building westward through Kirkland say that trains will be running into Rockford over that road within sixty days.

The coroner's jury which inquired into the death of engineer Len Smith, who was killed in the Gilberts wreck a week ago Saturday, has brought in a verdict censuring Conductor Clark and Engineer Foxen of the freight crew for carelessness.

The head camp of the Modern Woodmen of America passed, in a modified form, the liquor resolution. Under the modified ruling bookkeepers and others in breweries and distilleries who do not handle liquor and proprietors of department stores who sell liquor in unbroken package are not barred from membership. No employe engaged directly in the manufacture or handling of liquor will be admitted.

What is said to be the largest pair of shoes ever made in this country has been turned out in a factory at Nashau, N. H. They weigh eighteen pounds, each shoe being twenty-three inches long and seven and one-half inches wide at the widest part. As compared with an ordinary No. 7 man's shoe, these are No. 40 and several weeks were required to turn them out, as every detail was as carefully attended to as in an ordinary first-class shoe. They cost \$50 to manufacture, and are intended for a negress living near Atlanta, Ga, who is known for miles for the size of her feet.

White Sox Lose

The All Drops of Chicago dropped in on the Genoa White Sox Monday and carried off the honors by a score of 3 to 2. It was an exciting game and gave the rooters an opportunity to blow off their surplus steam. The All Drops team is composed of a gentlemanly lot of young fellows who did not register a kick at any stage of the game. The score follows.

MAPLE TREE PEST

Cottony Scale Makes its Appearance in this City

Cottony scale has made its appearance in the city and unless residents take stringent measures in combatting it many shade trees will be destroyed. The scale attacks the soft maples and it invariably ruins the tree. In some parts of the city the under side of all the branches of large trees have the cotton covering. The scale may be killed by spraying the affected limbs with a solution of water and kerosene, according to a formula of the state horticulturist.

The cotton scale is one of the worst insect pests known. The cotton scale resembles small bits of cotton. It clings to the branch and leaves with a great deal of tenacity, and while it does not kill the trees causes them to have that "depressed" appearance as though they were in the last stages of an insect plague.

Fredric Cranfield, secretary of the Wisconsin Horticultural society in an interview appearing in the Madison Democrat, says of the pest which destroys maple trees and has appeared here:

"The cottony masses so plentiful on soft maple trees at the present time are egg masses of the cottony maple scale, an insect that has caused extensive damage in many places. It has destroyed many of the soft maple trees. About July 1 the eggs hatch and the young scale insects spread over the tree rapidly for a time, later settling on the leaves and twigs. Here they insert their beaks and begin to suck the sap soon becoming covered with a waxy secretion impervious to water or any spraying mixture which may be used with safety on tree. From this it may be seen that the only time in which it is open to attack by spraying is during the very first period of its existence, three to five days after hatching.

"The insect feeds, as stated above, by sucking the sap and therefore cannot be destroyed by spraying the foliage with poisoned water; it is necessary to cover the insects with an oily, soapy or a caustic substance. A kerosene emulsion is commonly employed for this kind of spraying. It consists of a combination of kerosene and soap in water. Small trees may be treated successfully but in the case of the 50 year old specimens it is practically impossible to spray them thoroughly enough to be effective.

"This insect like many others, appears in cycles. Reports show that 25 years ago soft maple trees were destroyed by this scale. In time it will meet its natural enemies and disappear."

RUSH FOR CIGARETTES

In Wisconsin on the Day Before the New Law Became Effective

Wisconsin tobacco dealers enjoyed a very brisk business in cigarettes on Friday. The new cigarette law went into effect on Saturday. This prohibits the sale of cigarettes in any form, even the "makings" being forbidden. So in every Wisconsin city there was a rush for cigarettes and the "makings" on the day before the prohibition became effective. The Janesville papers note the fact that most of the local dealers sold out their stocks, in some cases the entire stocks being purchased by individuals addicted to the use of "little coffin nails."

It is only a matter of time when such a law will be passed in Illinois, and the sooner the better.

A GREAT ALLIANCE

Makes the Forepaugh-Sells Circus the World's Foremost Organization

The Great Adam Forepaugh and Sells Brothers' Enormous Shows United are now owned by James A. Bailey and Ringling Brothers and will appear in DeKalb on July 14. Excursions will be run on all railroads. This circus has always enjoyed the confidence of the public because everything new, sensational and exclusive that circus invention produced the world over was always to be found in the enormous program offered. The hippodrome tent is the largest ever made and will comfortably accommodate twelve thousand people. The menagerie annex is almost as big and shelters more than one hundred cages, dens and lairs of the rarest wild animals. This department of the big shows is singularly impressive, because it exhibits not only more rarely seen wild creatures, but many of these specimens are to be found nowhere else in captivity. A fierce, bi-horned rhinoceros, the rarest and most expensive of wild beasts is in this collection, as are two great fan-like eared elephants of African origin, a blood-exuding hippopotamus, three herds of elephants, full grown and symmetrical types, a nursery of baby animals like kitten tigers, cub lions, quaintly hopping kangaroos floundering seals, homely hyenas tight-eyed leopards and so on.

POWELL-SCHWEBKE

Popular Young Couple Wedded—Will Make Their Home in Herbet

Miss Clara Mae Schwabke and Harvey Powell of Herbet were united in marriage Saturday afternoon at 2:30 at the South Baptist church in Belvidere. The ceremony was performed by Rev. T. W. Heyland and was witnessed by only the immediate relatives of the couple.

The bride was dressed in a gown of brown silk and carried American beauty roses. They were attended by Miss Etta Thompson and Jay Conger. After a short wedding trip they will go to house-keeping at Herbet in a home that has been fitted up for them.

The bride is the oldest daughter of Mr. and Mrs. F. J. Schwabke, the groom is the son of Mr. and Mrs. Samuel Powell of Herbet.

Special excursion to Colorado, Utah and the Black Hill, via the Northwestern line. Beginning June 1st excursion tickets will be sold to Denver, Colorado, Springs Pueblo, Salt Lake City, Hot Springs, Deadwood, Lead and Custer, S. D., etc., good to return until October 31. A splendid opportunity is offered for an enjoyable vacation trip. Several fine trains via the Northwestern line daily. Apply to agents Chicago & Northwestern R'y. Aug 12

A Surprise Party

A pleasant surprise party may be given to your stomach and liver, by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure for headache, dizziness and constipation 25c at Hunt's Pharmacy.

Butter at 20; No Sales

Butter remains firm at twenty cents. There were no offerings nor sales on the Elgin board Monday.

Sweet Burley tobacco, 40c per pound at T. M. Frazier's.

TAKE THREE STRAIGHT

JACK'S GOATS DEFEAT DUNDEE, KIRKLAND AND HAMPSHIRE

Not One of the Three Teams had a Chance to Win—Notable Shift in Batting Average

Those who have been knocking thus far this season and have been under the impression that the Genoa base ball team is a repetition of last year's make-up, should open their eyes now and note the events that have taken place.

We predicted some time ago that Manager Goding had a team of winners and that dream was not of the "pipe" order. The last three games have proven that the Goats constitute the fastest bunch of ball tossers in this neck o' woods. The country has more and better ball players than it had years ago and a team to be superior to its opponents must be able to go some. The Goats can go. The team is as good as ever walked onto the diamond in Genoa and having given evidence as such should be greeted with a large crowd of rooters at the next game.

GENOA 12, DUNDEE 2

The husky bunch of ball tossers from Dundee lost their long cherished reputation last Saturday in one fell swoop, Jack's Goats being a battering ram that could not be overcome. At the opening of the game there was promise of a close contest but the illusion was dispelled when the Goats got down to business. There was consternation in the Dundee camp and everyone of the players went straight up. The Genoa's hammered the ball all over the lot, even the poorest batters getting in an occasional swipe. The batting average of the team was raised six points while the fielding was almost perfect. Neurauter pitched what may be called professional ball. The score follows:

GENOA 6, KIRKLAND 1

The boys wore a smile that was taking Sunday evening and Captain Rorabaugh was the happiest official in the base ball world. His smile is a fixture, the kind that won't come off. It was Kirkland, the victors of 1904, that bit the dust and barely saved themselves from a shut-out. No wonder the Goats smile! Kirkland was loaded to win, but they were unable to straighten out Ackerman's twisters, and when a ball went out it was neatly, quickly

(Continued on Page 6)

TWENTY-THREE JOINED

New Members for M. E. Church Taken in Last Sunday

Last Sunday, July 2, was indeed a good membership day at the M. E. church in Genoa. Twenty-three new members were added in full connection to the church membership roll, and others will unite in the near future.

The service was quite unusual as the entire time was consumed in administering Christian baptism, receiving new members into the church and administering the sacrament of the Lord's supper.

A few who joined were admitted from other churches by certificates, but the great majority were boys and girls and young people who have grown up in the community and are members of the Sunday School.

Rev. T. E. Ream spoke briefly but expressed most emphatically the idea that all Christians should have a church home in some church in every community. He also urged the parents and Sunday School teachers present to help the boys and girls and young people to actually live a faithful, consistent Christian life by both example and precept.

There were twelve baptised altogether, two being children accompanied by their parents, and the number of those who partook of the sacrament of the Lord's supper was the largest for several years.

EVEN TWO HUNDRED

Genoa Camp No. 173, M. W. A. Takes in Seven New Members

The membership of Genoa Camp No. 163, M. W. A. now numbers an even 200. Deputy Dempsey, who wears a "hustler" button, has been working with energy during the past few months and his efforts have been rewarded. Besides the seven candidates taken into the order last Thursday evening there are several more in line to take the step.

Genoa has one of the most flourishing camps in the state and this is no doubt due to the fact that all the officers take a deep interest in their work.

Besides the 200 beneficiary members there are three social members.

HORSE NEARLY RUINED

Runs Away and Kicks until Tendon is Severed

Ben Awe's team ran away Sunday morning and one horse will be laid up for a long time if it is not ruined. The team was hitched to the Kellogg & Adams sign post in front of Johnson's barber shop and became frightened at the toot of an automobile horn. In jumping back the horses pulled the sign down upon them and then started up Genoa street. Mr. Awe's boy was in the wagon and held to the horses until his father succeeded in getting in and bringing the horses to a standstill. In the meantime one of the animals had been kicking madly at the sign post which it was dragging behind. The right leg of the horse was in terrible shape and the tendon severed. Dr. Danforth is caring for the animal and is confident of saving it.

Pasturage—If you have stock to pasture come and see me. I have good pasture for a limited number. J. L. Patterson.

Lost—A light weight lap-robe, grey and yellow in color. Finder please return to T. E. Ream.

INDEPENDENCE DAY

WAS CELEBRATED IN VARIOUS PLACES BY GENOA PEOPLE

A Large Delegation Attends the Picnic at Kingston—Ball Game at Hampshire An Attraction

The weather man was evidently sore about something on the Fourth of July for he put up the worst possible kind of weather. The entire forenoon was gloomy and threatening and in the afternoon sunshine and showers come and went with aggravating regularity. Despite the weather, however, many Genoa people left town to celebrate in various places, Kingston, Sycamore, Hampshire and Marengo getting a share of the patronage. The city was practically deserted during the day.

Genoa merchants did not put in a large stock of boy killing material this year and no doubt parents are thankful. The dead and injured throuth the country were considerably less than in 1904, there being about 20 of the former and 1500 of the latter. Last year the number was nearer 4,000. This shows that there is a growing tendency to do away with the fire cracker and toy pistol business. A law to prevent the manufacture and sale of such death dealing playthings would be hailed with joy. The toy pistol, dynamite cane and giant cracker usually claim the most victims.

SURVEYORS HERE

Establishing Line for Electric from Sycamore to Madison, Wis.

Engineer Jackson with a party of ten men arrived in Genoa Wednesday and pitched their tents in Albert Shurtleff's grove in the west end of town. They are surveying the route for the Aurora-Maple Park electric railway. The work between the latter city and Sycamore has been finished, three routes having been laid out. It has not yet been decided which of the three will be chosen.

Mr. Jackson will work from Sycamore to Genoa, thence to Belvidere and Madison, Wisconsin. It is probable that both the highway and the other proposed route west of the highway will be surveyed between Genoa and Sycamore and likewise between Genoa and Belvidere. The surveyors will have their headquarters here about two weeks.

The line if finished as now proposed will give a direct line between Aurora and Madison, Wisconsin with several connecting lines, passing thru the best and most prosperous part of the states of Illinois and Wisconsin.

NEW BUSINESS BLOCK

Farmers' State Bank Will Erect New Building Soon

The Farmers' State Bank has purchased of H. H. Slater the lot on Main street just east of the jewelry store and will, in the near future, erect a modern structure for the banking purposes.

Purchased Lot

Dave Divine has purchased the corner lot east of L. M. Olmsted's residence, the deal being made this week. Mr. Divine expects to build soon and retire from farming, an occupation which he has followed for thirty-eight years.

The paint that looks well and the paint that wears, the B. P. S. Also white lead and oil. Perkins & Rosenfeld.

NEWS OF THE STATE

Telegraphic Reports of Matters of General Interest to Our Readers.

HAPPENINGS IN PRAIRIE STATE

Items Prepared with Special Care for the Convenience of Our Own Readers.

Springfield, Ill., July 4.—Forty-two thousand coal miners in Illinois are now idle, as a result of the controversy between the operators and mine workers relative to the shot-firers' law, which became operative July 1. Less than 5,000 men are employed in the mines that are continuing at work, the shut-down including all mines operated by members of the Illinois Coal Operators' association and about 50 per cent. of the independent operators. Under the most favorable conditions there is no prospect of a resumption of work in the idle mines before the latter part of July.

Lid Was On at Springfield.
Springfield, Ill., July 3.—The "lid was on" in Springfield yesterday for the first time in eight years. Mayor Devereux gave orders to his police that all saloons must close tightly from midnight until Monday morning. The closing of the saloons was the result of the inability of a Democratic mayor and Republican county officials to agree as to the conduct of affairs in the city.

Knocks Out the Street Fair.
Springfield, Ill., July 3.—The recent opinion rendered by Attorney General Stoddard that cities have no right to permit the holding of street fairs has played havoc with the plans of several ambitious municipalities over the state. Plans have been made for summer carnivals and street fairs, and in several instances persons opposing the contemplated exhibition have taken steps to prevent their taking place.

State's Attorney and the Nolle Pro.
Springfield, Ill., July 3.—Attorney General Stoddard, in an opinion given State's Attorney Gillham, of Madison county, finds that a state's attorney may nolle prosequi a criminal case without the consent of the court. The attorney general bases his opinion on the common law, there being no specific statute on the subject.

Second Regiment in Camp.
Springfield, Ill., July 3.—The second regiment, with its thousand men, has arrived in Camp Lincoln and immediately settled down for the week's tour of duty mapped out by Colonel James E. Stuart.

IN AN UNNECESSARY "FUN"
Boy Runs Away from Home for Fear of Being Accused of Stealing and Gives Much Trouble.

Danville, Ill., July 1.—After spending thousands of dollars in a search for his son Charles, extending to European and other foreign countries, H. A. Zekind, president of the Illinois Belt and Novelty company, 275 Madison street, Chicago, has found the lad in this city. The boy, who is 18 years old, was employed in a Chicago jewelry store in the place of a clerk who had absconded with about \$40,000 worth of goods.

The firm missed several valuable watches last October and suspected the new clerk, Charles, though innocent, feared the stolen articles would not be found and that the crime would be fastened upon him, so he left Chicago and came to Danville, where he has been working in a glass bottle factory most of the time. The watches were not stolen at all; they had been mislaid.

Costly and Serious Blow.
East St. Louis, Ill., July 1.—A severe wind storm, accompanied by hail and heavy rain, passed over this city, demolishing four smoke stacks of the Missouri Malcolme Iron Co.'s plant, blowing down a 325-foot tower used for wireless telegraph purposes, and doing considerable other damage throughout the city. Four employees at the malcolme iron plant were caught beneath the wreckage and seriously injured.

Two Women Badly Hurt.
Paris, Ill., July 5.—Mrs. Belle Barth, wife of Chief Barth, of the Paris fire department, and her sister, Mrs. J. Drake, were badly injured in a runaway accident, south of this city. Both were thrown from the vehicle. Mrs. Drake sustaining a broken leg, together with injuries of the head and back, while Mrs. Barth had her left knee and ankle sprained, the left arm lacerated and other minor hurts.

Curious Death of a Ride-Stealer.
Decatur, Ill., July 5.—While stealing a ride in a box car loaded with telegraph poles, on the Wabash railroad, Edward Groff, 21 years old, of Clarendon, Ill., was instantly killed in the East Decatur yards. While the car was being switched Groff was hiding in one end. The sudden impact of the locomotive forced the poles against Groff's body, crushing him.

WEEK'S HISTORY

Important Happenings Prepared for Our Readers in Brief Form.

TELEGRAPH NEWS BOILED DOWN

Events of Moment in Foreign Climes as Well as Our Country Are Chronicled.

RUSSIAN-JAPANESE WAR.

President Roosevelt formally announces the names of the Russian and Japanese peace envoys and says their first meeting will take place about Aug. 1.

THE REVOLUTION IN RUSSIA.

The red flag of revolution was flown from the Russian battleship Kniaz Potemkin in the harbor of Odessa, the sailors having murdered most of their officers and trained the guns of the ship on the town, threatening a bombardment.

Strikers in Odessa, encouraged by the mutiny on the warship, put the torch to the quays and buildings and much shipping is on fire. Rioting is going on in the streets and the troops are helpless.

Riots in Odessa caused the loss of 1,000 lives and property worth millions of rubles. The mutineers on the battleship Kniaz Potemkin fired on the city, damaging buildings. A Russian squadron has been sent to the scene with orders to sink the rebel craft. Foreign consuls have asked their governments to send ships.

Mutiny broke out at Liban, where an attack was made on the government establishments and a strong military force was called in to restore order.

The mutinous sailors on the Russian battleship Kniaz Potemkin, when threatened by the guns of all the other ships of the Black sea fleet, surrendered without firing a shot. The rioting on shore has ceased.

A court martial at Lodz has condemned to death three workmen convicted of participation in the riots.

The Russian Black sea fleet is laid up at Sebastopol. Admiral Kruger finding himself unable to cope with the widespread mutiny, rebel ships steam about unopposed, one going to the Roumanian port for provisions.

Sailors on the battleship Kniaz Potemkin have notified the powers that they have declared war on all Russian ships which will not join the revolt.

WASHINGTON NOTES.

It is stated at the war department that a two months' leave of absence has been granted to Major General Leonard Wood.

John F. Stevens, formerly fourth vice president of the Rock Island system, has been appointed chief engineer of the Panama canal commission to succeed J. P. Wallace, resigned.

GENERAL FOREIGN NEWS.

The feeling against the United States on account of the exclusion law grows more bitter in China and the boycott movement is expanding.

Warlike speeches against Norway were made by members of both houses of the Swedish riksdag.

King Oscar says he will not consent to the placing of a prince of the house of Bernadotte on Norway's throne.

Amy, eldest daughter of Henry Phipps, the coke monarch, was married in St. George's, London, to Captain Guest, First Life Guards, son of Lord Wimborne.

The Cuban house of representatives has passed the rice bill, which shuts Cuba's door to any but United States rice, by a vote of 24 to 10.

Prince Henry of Prussia has entered his car for the automobile races which will take place at Munich Aug. 10-17.

Germany and France are rapidly approaching an amicable agreement on the Moroccan question.

The French and German governments are not far apart in regard to the proposed Moroccan conference.

Professor Curie, the discoverer of radium, has been elected a member of the French Academy of Sciences.

A commission has been appointed to examine the project for the reconstruction of the French chamber of deputies at a cost of \$1,975,000.

THE CRIMINAL RECORD.

James S. Keel, a prominent civil engineer, who was convicted of manslaughter for killing Thomas Crystal, a bartender, in Helena three years ago, has been sentenced to the penitentiary for ten years.

Frank Ward and Thomas Driscoll, suspected of being implicated in the attempted holdup of the North Coast Limited train near Tacoma were arrested in Seattle.

The American Museum of Natural History, New York, has been robbed of \$3,000 in gold ores, part of one of the finest collections in the world.

Charles J. Mould, a chemist, was arrested in Detroit, Mich., on the charge of being concerned with George F. Kinnear, who was arrested Tuesday in Port Huron, in an alleged fraudulent "get-rich-quick" scheme.

The Knight, Dornelley & Co. failure at Chicago is said to have been due partly to a \$25,000 embezzlement by a trusted employe.

Daniel Denny, of Polo, committed suicide on an island in Rock river, near Sterling, Ill., by cutting his throat.

While standing before a mirror in an office in the Missouri Trust building, St. Louis, Mo., Peter H. Heckman,

insurance solicitor, 50 years of age, committed suicide by shooting.
A man supposed to be George O'Malley of Pittsburg, Pa., committed suicide in Detroit, Mich., by jumping into the river.

Seven negroes and a white man were taken from jail at Watkinsville, Ga., by a mob tied to posts and shot to death.

Graft indictments to the number of thirty-eight, involving twenty-one persons, were returned by the Milwaukee grand jury, business men as well as officials being accused.

The bank of Belt, in the town of Belt, twenty-four miles south of Great Falls, Mont., was broken into and about \$1,000 stolen.

A thug threw red pepper in the eyes of a bank messenger in front of the Chicago Corn Exchange National bank, robbed him in view of hundreds of people of \$1,525 and got away.

Five packing house corporations and twenty-one officials and employes as individuals were indicted by the special federal grand jury for alleged violation of national laws concerning trade.

Eight convicts escaped from the federal penitentiary on McNeill's island, near Tacoma, Wash., leaving the island in two government boats.

James Jackson Higginson, banker and broker of New York city, has been robbed of \$25,000 worth of diamonds and jewelry.

BUSINESS AND INDUSTRIAL NOTES.

Imports of merchandise through the port of New York for the year ended June 30 were valued at \$684,497,042, as compared with \$600,170,063 last year.

It is announced from a reliable source at Pittsburg that no strike is to be ordered on either the United States Steel corporation or any of the independents at the expiration of the scale.

Chicago strikers express dissatisfaction over the failure to receive strike benefits, and breaks in the ranks are predicted.

Woodworkers of Chicago the number of 2,000 have struck for higher wages.

Ben Brainard, sheriff of Sangamon county, Ill., at Springfield declared himself a bankrupt, with assets of \$100 and liabilities of \$21,440.

Charles J. Devlin, of Topeka, Kan., transferred his holdings, amounting to \$1,500,000, to a corporation which is to carry on his various financial and commercial enterprises.

Fifty-one labor men and two employes were indicted for alleged corruption in Chicago labor troubles, and the grand jury's report lays "Driscollism and says the laws are inadequate.

Practically every coal mining company in the Pittsburg district has passed into the control of the Gould interests.

The First National Bank of Topeka, Kan., has been closed.

DISASTERS AND MISADVENTURES.

Anton Egbert, a farmer, 76 years of age, was killed by lightning near Murphysboro, Ill.

Thomas McCray, aged 23, a driver in the coal mine at Moewequa, Ill., was killed by falling between cars.

One thousand persons are reported to have perished as a result of a cloudburst in Mexico. One town is wiped out and others are deep under water.

As a result of an electrical storm at Fort Worth, Tex., two persons were killed by coming in contact with live wires.

Deaths from Fourth of July accidents in the United States this year number forty-six. Nearly 2,200 injuries were reported.

THE FIRE RECORD.

Fire destroyed J. Lindenberg & Co.'s salmon cannery, 600 barrels of canned salmon, twenty fishing boats and one launch at Antioch, Cal. Loss, \$150,000.

Firecrackers exploded in a vacant barn started a fire at Mount Pleasant N. J. that caused a loss of \$40,000.

The pattern department and core room of the Dayton O. Malcolme Iron works were destroyed. Loss, \$125,000.

Fire destroyed J. Lindenberg & Co.'s salmon cannery at Antioch, Cal. 600 barrels of canned salmon, twenty fishing boats and one launch. Loss, \$150,000.

Fire threatened the destruction of the Holy Cross seminary at Notre Dame university, Indiana, but the students saved the building with a loss of \$5,000.

Ten business horses and one dwelling at Dealate, Pa., near Bradford, were destroyed by fire. Loss, \$50,000.

NOTABLE DEATHS.

Charles A. Otis, Sr., aged 78, former mayor of Cleveland, and a pioneer manufacturer and financier, is dead in Cleveland.

Mrs. Martha F. Barnett, 94 years old, a resident of Illinois for seventy-two years, is dead at Chicago.

Rear Admiral Lewis J. Allen United States navy, retired, is dead of paralysis at the home of his daughter, Mrs. George A. Ludin, of New York, aged 66 years.

Secretary of State John Hay is dead at his summer home near Lake Success, N. H., following a recent illness.

Professor Jacques Etienne Reclus, the famous geographer, is dead at Brussels. He was born in March, 1830.

Charles Fleming Embree, a novelist and short story writer, is dead at Santa Ana, Cal., aged 39 years.

ODDS AND ENDS.

Walter J. Clark, son of wealthy parents in Boston, has been found in a mangled condition near Elmore, Cal. He had been stealing a ride on a freight train and fell off.

OUR FASHION LETTER.

Dotted Swisses Are Favorites For Shirt Waists.

"ALICE BLUE" STILL POPULAR.

Black Silk Muslin With Sprays of Roses and Leaves—Black and White Etamine Over a Cerise Transparency—Purple Linen Is New.

Irish lace boleros are the smartest things to wear with skirts of butcher's or handkerchief linen. The new bolero is a gypsy jacket cut in one piece or fitted under the arms. As Irish lace is expensive, attractive little boleros built on the new lines are made of different laces and embroideries deftly put together on the same jacket.

Dotted swisses are always favorites for odd shirt waists. The all white is

FROCK OF YELLOW BATISTE.

possibly the daintiest, although there are several attractive floral designs. One pretty pattern has a white ground dotted with black and sprinkled over with lavender orchids. Another has alternate dots of black and green. This swiss makes lovely whole gowns made up over green lawn or china silk. It costs \$1.25 a yard and is called St. Gaul swiss.

Chinese shoes that are tiny enough for the average baby are made into cunning little receptacles for holding cologne.

There is a new shade very popular this summer called "Alice blue." It is a very pale, almost faded, gray blue. This color disports itself in ribbons, flowers and silks.

The dainty frock pictured is of yellow batiste. The full skirt has about the bottom three fitted flounces of batiste overlaid with fine white embroidery. A bertha of embroidery, ruffling and insertion trims the bodice, which is fastened with choux of mauve taffeta, which also make the folded girde.

WHAT TO WEAR.

The new black silk muslin is printed in large sprays of roses and leaves in exceptionally pretty patterns.

A beautiful mauve crepe de chene gown is made with accordion plated skirt and bodice, the latter finished at throat and wrist with lingerie cuffs and collar. The hat worn with the gown is a large drawn mauve muslin affair trimmed with soft tinted pink roses.

An attractive black and white checked gown has pointings and a narrow waistcoat of crimson taffeta buttoned with tiny pearl and gilt buttons. The cuffs of finest lace are worn with baby ribbon and plaited. They are worn as "to-by trills" on the out-

NAINSOOK CORSET COVER.

side of the coat sleeves and jacket neck fastened with smart pearl and gold studs.

An imported French toilet just sent over is of black and white checked etamine over a cerise transparency. The skirt is trimmed at the hem with narrow V shaped bands of black velvet piped with white. The yoke and inner vest of white guipure is relieved at the throat with black, white and cerise embroidery.

Purple linen is a new shade of this popular material. A gown of this color is very fashionable trimmed with old rose—a very abrupt contrast, to be sure, but most effective.

The corset cover in the cut is especially designed for wear with thin summer gowns. It is made of finest nainsook, shaped without seams, and slips on over the head. The top of the cover

is trimmed with a ruffle of valenciennes lace, and below this are insertions of lace set closely together and pointed at the ends. A line of insertion and ruffle of lace with bretelles of ribbon finish the waist.

LINGERIE HATS.

This season's lingerie hats were conformed to the general style of chapeau which has turned the millinery world topsy turvy. Instead of being floppy affairs, all frills and lacy froutrou, they are comparatively stiff made on wire frames and saved from severity by narrow frills of lace that face the brim or soft plating that trims it.

There are stiff lingerie sailor shapes made of broderie anglaise, with a bow

WHITE SWISS HAT.

of the same material at the side. These hats are nearer those of last year's design, but are much smaller.

The marked difference in the makeup of the new lingerie hats is the smaller size and the fact that the material is stretched across the frame plain instead of shirred or plaited.

The newest of all lingerie hats is of shaded blue or pink mull and sometimes made in both colors, the foundation in one shade and the embroidery in the other.

Stiff linen makes the crown of a lot of smart lingerie hats, with sheer frills for the border. Tiny toques on the lingerie order have their brims formed of ruffles of lace. At the back American Beauty roses are massed.

A dainty way to trim a frock of soft white silk is with a deep founce on the skirt, adorned with a trollys work of white satin ribbon. The upward straps, about an inch in length, have white satin ribbon top and bottom.

A very simple and smart lingerie hat is shown in the illustration. It is made of sheer swiss embroidery, with a scalloped edge forming the brim. A soft bow of wide ribbon is the only trimming.

MODISTIC FANCIES.

Veils are light and clear, the favorite among them being a very fine gauze ground with black velvet spots or crescents dotted around.

Batiste fashions some charming little blouses with round yokes composed of narrow bands of their own material joined by fancy stitches.

A charming green pongee which owes its chic to simplicity has a box plaited skirt that is stitched down to the knees and has numberless little tucks at the bottom to give the required flare. The full waist has a deep, round guimpe of crocheted lace, and the sleeves consist of long caps held together with tiny straps trimmed with buttons. A row of these straps joined to a narrow band is laid about the neck of the gown. A wide boned girde, with short bins ends in the back, completes the costume.

Pongee silks in brown, blue, white and gray are among the bargains seen in the shops for 39 cents a yard.

Wonderfully smart and attractive is the gown of blue cotton voile herewith illustrated. Bands of colored embroidery headed with frills of the voile trim the skirt. Down the front of the swathed bodice is a line of the same embroidery.

Tool Tests

Keen Kutter Tools stand every test of a good tool. You can take a Keen Kutter Hand Saw, bend the end of the blade around until it touches the handle and it will spring back straight and true. Every other kind of a Keen Kutter Tool is as good a tool of its class as the Keen Kutter Hand Saw. The Keen Kutter brand covers a complete line of tools, and every

KEEN KUTTER

Tool is made of the finest steel and made in the best possible manner by expert workmen. This quality tells in actual use—it means freedom from constant sharpening—it means long and satisfactory service. Even in the beginning Keen Kutter Tools cost little more than inferior qualities—in the end they are by far the cheapest tools you can buy. Keen Kutter Tools have been Standard of America for 36 years and were awarded the Grand Prize at the St. Louis Exposition.

Following are a few kinds of Keen Kutter Tools, which your dealer should have—if he hasn't them, write us and we will see that you are supplied. Axes, Adzes, Hammers, Hatchets, Chisels, Screw Drivers, Auger Bits, Files, Planes, Draw Knives, Saws, Tool Cabinets, Scythes, Hay Knives, Grass Hooks, Brush Hooks, Corn Knives, Eye Hoes, Trowels, Pruning Shears, Tinners' Snips, Scissors, Shears, Hair Clippers, Horse Shears, Razors, etc., and Knives of all kinds. Every Keen Kutter Tool is sold under this Mark and Motto:

"The Recollection of Quality Remains Long After the Price is Forgotten."

HAINES-KEPPLE

Popular Young People of Belvidere Wed

(From Republican-Northwestern)

At the home of the bride, corner of Buchanan and Caswell streets, were united in marriage Wednesday afternoon, Miss Florence Kepple and William A. Haines, in the presence of a company of relatives and intimate friends filling the handsomely decorated parlors, where ferns and daisies had been used lavishly and with tasteful effect.

Rev. T. W. Heyland, pastor of the South Baptist church, was the officiating clergyman and the ring ceremony was that chosen. Just before the words were spoken uniting the destinies of the principals to the ceremony the following musical program was rendered:

"Spring Song," Mendelssohn—Miss Grace Curtis.

"Song of Thanksgiving," Allitsen—Miss Pearl Kepple.

"Bridal chorus" from "Rose Maiden," Cowan—Misses Vera Colvin, Pearl Kepple and Grace Curtis accompanied by Mrs. Dr. Butterfield.

"O, Perfect Love," Burleigh—F. Raymond Benson.

"Lohengrin Wedding March"—Miss Curtis.

Immediately following the ceremony and during the period of congratulation by the guests Miss Curtis played on the piano Mendelssohn's wedding march.

When the bridal couple entered the south parlors they assumed their places under a canopy of ferns and daisies, its background of green leaves forming a bower of much beauty and extremely tasteful arrangement. The bride was attired in white chiffonette with white chiffon trimmings and carried a shower bouquet of bride's sweet peas. The bridesmaid was Miss Ada Butterfield. Her gown was of a delicate pink shade a bouquet of pink roses being carried. The groom was accompanied by Fred C. Rauger as best man.

The gifts to the bride were numerous and embraced many articles of especial value and daintiness. Silverware and linens were particularly the offerings of friends and a number of beautiful art examples were included.

After the wedding collation had been served the bridal pair were to leave for Geneva, Ohio, where they will visit for a few weeks at the home of the groom's parents their home to be made hereafter in that section of the state.

The entire occasion was one of much completeness in all its details of arrangements, and they were prettily carried out in the various features.

From out of town were present Mr. and Mrs. J. J. Heckman and daughter of Chicago; Mr. and Mrs. Wallace Heckman, Chicago; Dr. and Mrs. I. J. Heckman of Hinckley; Mr. and Mrs. D. B. Arbuckle and Miss Esther Branch of Kingston.

The bride has a most attractive personality and completed a charming picture as the principals stood under the floral canopy. Prominent in the social and the musical circles of the city and possessed of those graces of character which enlist admiring and enduring friendship, the wide circles of friends and acquaintances will regret the severance of the immediate ties of association and wish for the bride of today the utmost possible happiness. Mrs. Haines is a member of the Pi Beta Phi society of Hillsdale, Ohio, college, which is her alma mater.

The groom has for several years been the assistant in Nott's

art studio and during his residence in the city has made many friends who will wish for him every form of prosperity and congratulate him on having secured for his companion through life one of Belvidere's fairest daughters.

COUNTY PICNIC

2,000 People Gather at Grove to Celebrate Annual Event

That the DeKalb county M. W. of A. annual picnic and July Fourth celebration at Kingston this year was a decided success is the praise of 2,000 people who availed themselves of the opportunity to be present. The weather was anything but ideal which undoubtedly kept many away from this great yearly event.

It goes without saying that Stuart's grove is about the only spot along the Kishwaukee where one may spend a day of rest and enjoyment, and for this particular reason Kingston Camp No. 203 cordially extended an invitation to all camps of DeKalb county and friends of the order to assist them in making this event one long to be remembered in the history of the county.

The program was carried out to the letter as advertised. The early morning trains from the west brought in the usual large crowd while the Northwestern road carried as many. It is reported that 94 tickets were sold at DeKalb for this occasion. In the evening at 9 o'clock a special train was run over the Northwestern, DeKalb and return for the accommodation of the passengers.

The program opened up with the usual sports, the 100 yard dash being won by Joe Kentz; fat man's race by Harry Vandenburg and Kingston camp won the tug of war from the DeKalb Foresters. The music of the day was furnished by the Kingston Cornet Band.

Promptly at 10 o'clock the callithumpians drove through the streets and elicited much applause. At 11 o'clock the Woodmen fell into line and marched to the grove, this closing the exercises of the forenoon.

The program was continued in the afternoon by an address of welcome by Rev. C. S. Clay, the chief speech of the day being given by F. O. VanGalder, editor of the Modern Woodmen. His address was of the interesting kind and is said to be the best ever given on the grounds. Other interesting features of the program were the flag drill by the graduates of the grammar room and the selections by the quartet.

The display of fireworks concluded the program.

CHOLERA INFANTUM

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy

Ruth, the little daughter of E. N. Dewry of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by Hunt's Pharmacy.

LIVES JOINED

Pretty Ceremony took Place at Marengo last Thursday

(From Marengo Republican)

An early morning wedding was that of Miss Miriam Daisy Richardson, daughter of Dr. and Mrs. Holland W. Richardson, of Marengo and Mr. Joseph Delbert Taplin of Belvidere. It took place Thursday morning, June 29, 1905, at 9 o'clock, at the home of the bride, where only the members of the families of the bride and groom had gathered to witness the ceremony which was performed by Rev. E. D. Hull, pastor of the First Methodist church of Belvidere.

Asparagus ferns and marguerites had transformed the house into a beautiful garden and cut flowers lent their fragrance to the event.

The bride was beautiful in a handsome cream colored gown of æolian cloth, over white silk, trimmed with lace and chiffon. After the ceremony a wedding breakfast was served. Mr. and Mrs. Taplin went to Chicago at noon and from there to the Wisconsin lakes where they will remain a week, after which they will return to Marengo and be at home to their friends on North State street, after July 15.

Many beautiful gifts in cut glass, solid silver and linen were presented to them. The bride is a charming young woman, of high social standing, of lovable and attractive manner and is a favorite with all who know her. She was graduated from the Marengo High School with the class of '99. After teaching school in Marengo a year, she went to Morgan Park where she taught for three years, giving eminent satisfaction as an instructor. She is a member of the Kappa club and on Monday afternoon her sister, Miss Pearl Richardson, entertained the club members in honor of the bride.

Mr. Taplin is a traveling representative of McNeil & Higgins, of Chicago, and is one of their most valued employees. He possesses excellent business qualifications and has made many friends in Marengo during his visits here. Mrs. Taplin and daughters, Eula and Ruby, and Mr. Harry Armington of Belvidere were here to attend the wedding.

For Sale—4 acres of land, good house, barn, chicken house and other outbuildings. Plenty of fruit and shrubbery, city water. All in good repair and at a price that is right. D. S. BROWN.

MAGAZINE REVIEW

JULIA MARLOW'S GIFT

There must be something in a gift that brings in \$100,000 a year. That is what they say Julia Marlowe gets. It is \$2,500 a week, for the theatrical season is only forty weeks. We need not wonder at the craze to go on the stage that fills every girl's mind at some time in her early life and turns men's careers awry. But because you feel the craze and are profoundly convinced that that is evidence of your natural adaptability, it does not mean at all that you can act. Most people think they can. You can learn all practical occupations even if you may not have the genius necessary to be great in them; and when it comes to any kind of art you can learn even less at that. You may arrive at mechanical effect in almost any art; but you cannot make \$100,000 a year on the stage. Some disappointed aspirants call it luck, but it is not luck. Some say it is advertisement; it is not advertisement. It is a gift that is given to you just as your voice is, is yours alone, different from everybody else's whatever it may be, even if it be the gift of similar artistic instinct. —Peter Robertson in Sunset Magazine for July.

One Dollar Saved Represents Ten Dollars Earned

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Hunt's Pharmacy.

Orders taken for the finest quality of engraved calling cards and wedding invitations at the Republican-Journal office. tf.

Bent Her Double

"I knew no one for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at Hunt's Pharmacy; price 50c.

Mr. and Mrs. Scott Shattuck of Hampshire were Sunday visitors at the home of Arthur Shattuck.

Mrs. Keating and son, Frank, of Chicago will arrive in Genoa Sunday for a month's visit with the former's mother, Mrs. Dusinberre.

A. B. Fretz, night operator at the C. M. & St. P. depot transacted business at Savanna Thursday.

Miss Marguerite Stott of Des Plaines, formerly of this city, has gone to the Pacific Coast and while there will visit at the Shutt's home.

A wreck at Kirkland Wednesday night on the C. M. & St. P. road resulted in the smashing of two freight cars. No one was seriously injured.

OUR FASHION LETTER.

The New White Kid Belts With Bright Polka Dots.

COFFEE TAFFETA PETTICOAT.

Charming Hats Which Are Faced With Pinked Crush Bones—Collar and Cuff Sets Decorated With Fancy Stitching—The New Sleeves.

Polka dotted belts are new. They are deep girdles of white kid cut in holes the size of a dime to show a bright colored lining.

A dust cloak of checked taffeta silk is considered very smart. It is made three-quarters length, is double breasted in front and trimmed with large metal buttons. The back is semi-fitting and falls loose.

Lace and fine lisle thread gloves have a bit of color woven in the back and

ROBE OF BRODERIE ANGLAISE, come in long lengths to meet the elbow sleeves of the moment.

THE RICHES OWNED BY FARMERS.

The American farmer to-day represents a new generation of intelligent, independent, thrifty people with money and inclination to be progressive. The farm products of this year bring to the farmers and planters probably five billion dollars, which would prove that they could corner the money market of this country if they got together and used it as one man. Strength, strenuousness and the future health of the American people depend upon our country folks. As a rule, country folk are healthier than those who live in our crowded cities. Consumption is a disease of civilization. It scarcely exists among savages who live in the primitive state, but quickly appears among such people when the habits of civilization are adopted, especially indoor life. Life in the open air and sunshine gives vitality and health. The strongest minds have gotten their inspiration direct from Nature, the great teacher and developer of mankind. In the same way people have more faith in a remedy which is taken from nature, from the vegetable kingdom, than from any other source. A remedy which has enjoyed a grand reputation for the last third of a century is Dr. Pierce's Golden Medical Discovery, an alterative extract taken from barks, roots and herbs, without the use of a particle of alcohol or narcotics. This medicine goes to the root of disease by imitating nature's methods of restoring waste of tissue and impoverishment of the blood and nervous force. This "Medical Discovery" of Dr. Pierce coaxes the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutriment the blood requires. Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach. Dr. Pierce's Pleasant Pellets cure constipation and biliousness.
