SUMMONS COMES SUDDENLY MONDAY AFTERNOON

Was Digging Potatoes on Son's Farm joined about 20 years ago, When Stricken-Funeral Held Wednesday

Wm. C. Cooper was called suddenly and without warning last Monday afternoon while dig-

ging potatoes on the farm of his son, Ellis, west of Genoa, heart failure being the immediate cause of death. Mr. Cooper

had been in feeble health for some time, but the announcement of his sudden death came as a great shock to relatives and friends.

The funeral was held from Ellis Cooper's home Wednesday at 1:30 o'clock. Rev. T. E. Ream officiating. The G. A. R. attended in a body, many Woodmen also being present. Interment took place in North Kingston

The following obituary was read by Rev. Ream at the services:

Our deceased brother and neighbor, Mr. Wm. C. Cooper, was born at Newark, N. J., August 27, 1841, and died at the home of his son, Ellis Cooper, of Kingston township, September 3 1906. He was 65 years and days of age at the time his de-

When a young man he came west and settled in the town of Spring, Boone county, Ill., in the month of April, 1860. He made his home in the town of Spring for several years, when he was united in marriage to Miss Clara M. Powers, March 27, 1866, and then Mr. and Mrs. Cooper moved to Fayette county, Iowa, where they resided for about twelve years. They then moved back to Kingston township where they lived for about II years. They then moved to Genoa where they have made their home for the past 16 years. Mr. Cooper was well known in this section of and Kingston townships more or less for the past 45 years.

Four children were born to Mr.

Winfield, Iowa, Ellis Cooper of of the fans. Kingston and Wm. W. Cooper of The score was 19 to 14. Genoa, all of whom are bowed in sorrow over the unspeakable loss of a kind hearted father. The Cost of Cities.

New York city's budget next year will be \$116,805,490.37. This is onefifth of the total expenditures of the 151 cities of the United States having a population of over 30,000. Including the bond issues New York -Chicago, Philadelphia, St. Louis, one saw or heard the shot fired. Baltimore, Boston and Cleveland. Although its population is only twice Chicago's, its government costs four latter, saying he wanted to kill somethan a third of the aggregate city Well as anyone else, attempted to debt, which is larger than the national debt. The per capita debt of all these cities is \$57 or less than half New slandered him, Rev. Dr. John W. Friz-York's. New York's expenditures ex- zell, pastor of the First Congregation- The president's letter follows: ceed those of any foreign city. The al church of Sioux City, Ia., resigned London council uses only \$50,000,000 his charge. a year. Parish expenditures do not great, those of the kingdom of Prussia six times as great, those of Spain only a quarter larger. The census bureau bulletin which contains these statistics also gives interesting inand operation. Two-thirds of the cities own their own waterworks. Philatric light works, Chicago being the Rome, Italy. best known of these. Boston, Portland, Ore., and New York operate municipal ferries. Auburn operates a stone quarry. Detroit has a municipal asphalt plant. One-fifth of the total revenues come from the waterworks. In almost every case these waterworks more than pay the cost of their maintenance, the interest bulletin covering the last half of Auand the sinking fund of the water bonds. One of the other interesting the largest crop of corn ever raised in facts in this bulletin, to which the the state. New York World calls attention, is that Hoboken has the highest population to the acre of any city. That is because its area is only 825 acres. New York is the largest city, with an area of over 300 square miles. New Orleans is second and Chicago is third.

Plaint of the Hindus.

The Anglo-Indian Pioneer has undertaken to print the complaint of Hindus with reference to the "injustice and insolence" of the English in India. A correspondent of the Berlin Tageblatt supplies further details. Young officers are accused of being specially flagrant offenders. "In driving through the cities they ply their whips right and left, to clear the streets, without reflecting that thereby they arouse feelings which, gaining force from year to year, must end in an explosion." The educated Hindus are aggrieved because the English treat them with the same contempt as the coolies, refusing to eat or associate with them. They are becoming impatient, in proportion as they share the benefits of a European system of education, at the postponement of the day when they are to have a voice in the shaping of the country's policy. The German referred to is at a loss to understand the British attitude toward the educated Hindus. "I have become acquainted with a number of these," he writes, "whom I liked decidedly better than many an English snob or German official I have met."

Alaska's First Campaign.

Alaska is to have a novel experience in the shape of a congressional campaign. The "Seward purchase" is now a full-fledged territory, entitled to representation in the national legislature at Washington, and will live up to its privileges by electing a delegate. But it is not likely that there will be anything wildly exciting about it, at least over most of the territory, says the Troy times. Alaska has a population estimated to approximate 100,000, more than half of the inhabitants being Indian natives. The territory has an area about equal to the whole of the United States east of the Mississippi river, and campaigning over such a region will mean long rides and tramps for the spellbinders, for railroads and highways are scarce in that part of the world. However, most of the whites are to be found in settlements like Sitka and in the mining camps. In those sections there is a prospect of vigorous campaigning. On the whole there will be considerable interest in the first election returns from Alaska.

The new census statistics of the newspaper business are staggering, even to those who make, or help make, newspapers. In 1900 there were 19,624,757 copies printed daily in the United States, and there are doubtless many more printed to-day. CATTLE—Beef Steers

NEBRASKA HAS BUMPER CROPS

Corn Crop Will Be the Largest in History of State.

Omaha, Neb., Sept. 5.—According to the figures issued by the Union Pacific Railroad company in their crop gust, Nebraska this year will have

Reports from 600 correspondents in various parts of the state estimate a yield of between 42 and 45 bushels to the acre, and the total crop is expected to reach 275,000,000 bushels, against slightly over 260,000,000 bushels last year. The increase in acreage of wheat, corn and oats over that of last year is 500,792 acres of which 368,419 acres are in corn.

Disastrous Floods in India. Lahore, India, Sept. 5.-Floods have

devastated a large section of Behar district. Whole villages have been obliterated, great areas of food crops have been destroyed and the indigo crop is ruined. There are nine feet of water on the low lying lands, giving the country for miles the appearance of an open sea. The inhabitants have sought refuge in the hills and are depending for subsistence on raids made on the half-ripe wheat fields situated on high ground.

Say Castro Is Paralyzed.

Willemstad, Curacao, Sept. 5.-President Castro is still confined to his bed after 40 days' illness. Secrecy on the part of his physician and friends as to the true nature of his disease alarms the public and the belief is current that he has paralysis. Meanwhile his cabinet will continue in charge of affairs until Gen. Gomez arrives at Caracas, Venezuela, awaiting the moment to assume the presidency in case of an emergency.

Two Killed at a Crossing.

Cleveland, O., Sept. 5 .- A spring wagon in which were seated William Sauers, wife and two children, of Breeksville, O., was struck by a Baltimore & Ohio passenger train at the crossing at Boston Mills, 20 miles south of here Tuesday. Sauers and his wife were instantly killed and the seven-year-old son was slightly hurt. The two-year-old baby was hurled 40 feet into a corn field, but was uninjured.

REASONS FOR REFORM IN ENGLISH SPELLING

FORCE NEW METHOD ON THE PUBLIC.

Informs Public Printer Stillings If It Should Meet with Approval Change Will Become Permanent, But Will Be Dropped if Undesirable.

Oyster Bay, N. Y., Sept. 3.—In a letter to Charles A. Stillings, public printer at Washington, President Roosevelt wrote that if the changes in spelling advocated by the simplified spelling board and put into use in official documents meet popular approval they will be made permanent. If not, he wrote, they will be dropped.

"I inclose herewith copies of certain circulars of the simplified spellin set forth. If anyone asks the rea-Rev. Thomas J. Walsh, D. D., 28 son for the action, refer him to circu-

"Most of the criticism of the proignorance of what the step is, no less views are so excellently set forth in the circulars to which I have referred.

Government to Lead. "There is not the slightest intention to do anything revolutionary or initiate any farreaching policy. The purpose simply is for the government, instead of lagging behind popular sentiment to advance abreast of it, and at the same time abreast of the views of the ablest and most practical educators of our time, as well as of the most profound scholars-men of the Skeat. If the slight changes in the spelling of the 300 words proposed wholly or partially meet popular approval, then the changes will become permanent without any reference to what public officials or individual private citizens may feel; if they do not ultimately meet with popular approval they will be dropped and that is all there is about it.

Other Changes Quoted. "They represent nothing in the world but a very slight extension of the unconscious movement which has made agricultural implement makers and farmers write "plow" instead of "plough," which has made most Americans write "honor" without the somewhat absurd, superfluous "u;" and which is even now making people write "program" without the just as all people who speak English now write "bat," "set," "dim," "sum, and "Fish," instead of the Elizabeth-"waggon" of our great-grandfathers. in some instances a going-back to the the aisle, led the cheers. forms they used, and in others meresince their time. It is not an attempt very great at all. It is merely an at- united. tempt to cast what slight weight can properly be cast on the side of the to make our spelling a little less foolish and fantastic.

UTTERS PLEA FOR YOUNG MEN

Opportunity Should Be Given for Advancement Irrespective of Diploma.

method of limiting competition; let us give the young man a right to study as he pleases, and when we find him qualified for the practice of his profession let us not go into details of education."

These words of Dr. Otto A. Wall, of St. Louis, precipitated a war of words between the "school men" and the "self-made men" who constituted the section of education and legislation of the American Pharmaceutical association.

The question that called forth the remark and the subsequent heated debate was a recommendation by a committee that the age of 17 years and a preliminary general education of one year's satisfactorily completed high school work, or its educational equivalent, should be the test required for practical pharmaceutical experience or apprenticeship demanded by

Back to Capital October 1. dent Roosevert will leave Sagamore Hill for Washington October 1. Three days later he will make a trip to Harrisburg and York, Pa., where he will deliver speeches. The date of his departure from Oyster Bay was announced Tuesday.

MASONS RENDER HONOR UNTO THE DECEASED.

Many Prominent Men Hold Discourse Over the Remains as They Lay in State at Omaha.

Omaha, Neb., Sept. 3.—The funeral of Edward Rosewater, late proprietor and editor of the Omaha Bee, who was found dead Friday morning, occurred Sunday afternoon with Masonic honors from the rotunda of the Bee build-

The body was exposed to public view between the hours of 12 and three o'clock, during which time many thousands of people of all classes filed past the casket. In addition to the crowd on the first floor, the second and third floors, from which a view of the casket could be obtained, were filled with great crowds of people.

The ceremony consisted of the Masonic ritual service, which was conducted by Worshipful Master Chas. L. Porter, assisted by Geo. W. Lininger, followed by addresses by Dr. Geo. Miller, Robert Cowell and W. J. Connell, of Omaha; Norris Brown, attornev general of Nebraska and successful candidate before the recent Republican state convention for United States senator, for which office Mr. Rosewater was also a candidate, and Melvin R. Hopewell, Republican nominee for lieutenant governor.

At the conclusion of the addresses a quartette sang "Lead, Kindly Light." The services in the rotunda were their napkins wildly, voicing their apceremony and with prayer by Rabbi Cohn, of Temple Israel. The services | ium dining hall. were participated in by employes and ex-employes of the Bee, who attended in a body.

The body was interred in Forest Lawn cemetery.

LEADER CALLS ON ILLINOIS DEM-OCRATS TO OUST THEIR NA-TIONAL COMMITTEEMAN.

Declares That Although Sullivan Asphyxiated Delegates to the State Convention He Will Not Be Abler to Asphyxiate Voters at the Polls-

Chicago, Sept. 5.-William Jennings Bryan made a personal appeal to the Democrats of Illinois Tuesday night to drum Roger C. Sullivan out of the national committee. In a carefully prepared statement, the Nebraskani brought pandemonium to the Jefferson club banquet by announcing that he took his indorsement by the Peoria convention as far from a compliment, that he rejected Sullivan as a political associate, and that it is up tothe party to "spew out those who traffic in politics."

As a finale to his phillipic, the "peerless leader" said that although Sullivan "asphyxiated" the state convention he will not be able to "asphyxiate the voters." It was Bryat's message to Illinois.

Guests Applaud Sentiment. The denunciation brought the 800 guests out of their chairs in tumulta They climbed to the tables and waved

closed with an impressive Masonic proval in a roar of yells and shricks that shook the rafters of the Auditor-When the orator said that the chief question in Illinois is, "What can the

party do to repudiate Sullivan?" they yelled, and later when he asserted that every candidate for office ought to come out on a platform denouncing BRYAN TALKS TO THE TOILERS the present committeeman, because "no candidate is entitled to election if Tells of Great Gap in Social Structure he is connected with Sullivan," the voiced their approbation with a deal ening storm of applause.

Puts in Strenuous Day. The attack on Sullivan came as the

climax to a hard day of speechmaking for Bryan. At noon the Nebraskan spoke for nearly two hours before the Iroquois club, reiterating the principles he advocated in his Madison Square garden address. During the afternoon he was guest of honor at a reception at the Auditorium, and at the close of a day of feting and lionizing he unlimbered his guns on the man who controls the Democratic state machine.

Result of Conference.

The attack was somewhat unexpected, although the guests at the banquet felt it in the air after they had seen Mr. Bryan in close conference with Congressman Rainey, M. F. Dunlap and Judge Owen P. Thompson. Its importance was such that the New braskan called in a stenographer during the afternoon and prepared a careful statement which he read at the dinner before launching into his usuall extemporaneous speech.

It was polished until each thrust had a rapier edge. In reading it the Ne-

The talk which then resulted was the basis of deep confidence on both sides.

WERE ONLY "MEASURING".

Young Man Was the Taller But "Sister Was Much the Redder."

John La Farge, the painter was talking in his studio about witty women. "Let me relate a young woman's witticism that I heard of the other day," he said.

"There was a man who loved a maid, and she returned his passion; but there were reasons that made secrecy desirable, and thus, though the two were betrothed, they pretended to the world that they were good friends and nothing more.

"One evening, as the young man was pressing his sweatheart to his breast, her sister entered the room suddenly. "The lovers drew apart with great haste, and the sister, with an 'Excuse me,' turned to go.

planation necessary. He said:

Mademoiselle," I continued earnestly, measuring to see which is the taller.' terrorized, but curiosity drew them to the man has considerable property. the vanity, I had foreseen, but only looked at the lovers intently. Then a and in a short time the excitement joy in the joy I could give her, "I delicate smile flitted over her pretty subsided.

Persistent Anæmia Cured by Dr. Williams' Pink Pills After Other Remedies Had Failed.

"When I began taking Dr. Williams' Pink Pills," says Mrs. Nathaniel Field. of St. Albans, Somerset county, Maine, "I was the palest, most bloodless person you could imagine. My tongue and gums were colorless and my fingers and ears were like wax. I had two doctors and they pronounced my trouble anæmia. I had spells of vomiting, could not est, in fact, did not dare to, I had such distressafter eating. My stomach was filled with gas which caused me awful agony. The backache I suffered was at times almost unbearable and the least exertion made my heart beat so fast that I could hardly breathe. But the worst of all was the splitting neuralgia headache which never left me for seven weeks. About this time I had had several numb spells. My limbs would be cold and without any feeling and the most deathly sensations

would come over me.
"Nothing had helped me until I began taking Dr. Williams' Pink Pills, in fact, I had grown worse every day. After I had taken the pills a short time I could see that they were benefiting me and one morning I awoke entirely free from pain. The distress after eating disappeared and in three weeks I could eat anything I wanted and suffer no inconvenience. I also slept soundly. I have taken several boxes of the pills and have

Dr. Williams' Pink Pills cure anæmia because they actually make new blood. For rheumatism, indigestion, nervous headaches and many forms of weakness they are recommended even if ordinary medicines have failed. They are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

'FRISCO'S CROP OF GENIUS.

Second Only to New York in Vigor and Freshness of Its Literature.

New York is of course the great American market for literary wares, says E. S. Martin in Appleton's Magazine. There is also a measure of hospitality shown to writers and their products in Boston, Philadelphia, Chicago and Indianapolis.

But San Francisco for thirty years past has beaten all four of these subsidiary literary centers in the fresh-

ness and vigor of its inspirations. It has had an ocean of its own to stimulate its imagination, a new country behind and about it and an adventurous and virile population that has liked to live its own life in its own way and dream and live its own

romances. It has had money, too. It has sent out its envoys to view the world (and a good many of them have stayed away), and because it has been one of the world's great starting places and landing places it has viewed habitually from its own doorsten pretty much every kind of human creature that has been worth looking at.

Altogether, San Francisco has been like no other city of our republic.

Troubles of an Author.

Robert Louis Stevenson's mother wrote in one of her letters from Samoa: "The people here are now discovering that Louis writes, as 'The tive paper, having been translated by Mr. C-. It is much appreciated, but leads to some curious results. For instance, the house in it somewhat resembles ours, and a good many of the natives suspect that Mr. Stevenson has the 'bottle' himself."

Sensible German Idea.

On continental railways and the Rhine steamers there is no miscellaneous scrambling for meals. Instead a steward goes through the train or boat and lists the people who want to eat. Each gets a number, and this The decedent was born in New insures a seat without crowding or

GOOD AND HARD.

Results of Excessive Coffee Drinking.

It is remarkable what suffering some persons put up with just to satisfy an appetite for something.

A Mich. woman says: "I had been using coffee since I was old enough to have a cup of my own at the table. and from it I have suffered agony hundreds of times in the years past.

"My trouble first began in the form of bilious colic, coming on every few weeks and almost ending my life. At every attack for 8 years I suffered in this way. I used to pray for death to relieve me from my suffering. I had also attacks of sick headache, and began to suffer from catarrh of the stom-

ach, and of course awful dyspepsia. "For about a year I lived on crackers and water. Believing that coffee was the cause of all this suffering, I finally quit it and began to use Postum Food Coffee. It agreed with my stomach, my troubles have left me and I am fast gaining my health under its use.

"No wonder I condemn coffee and tea. No one could be in a much more critical condition than I was from the use of coffee. Some doctors pronounced it cancer, others ulceration, but none gave me any relief. But since I stopped coffee and began Postum I am getting well so fast I can heartily recommend it for all who suffer as I did." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville." "There's a reason."

gained in weight from 120 to 154 pounds and am perfectly well now."

THE READING DESK.

It Was Used In Churches as Early as

the Seventh Century. Lecturns, or reading desks, came into use at an early date. There is frequent mention of them in ancient writings and representations of were placed in the center of choirs in large ecclesiastical buildings as early as the seventh century, and the choristers were arranged in rows on the right and left of them. They are of various forms, but the eagle is introduced in a very large number. With outspread wings and mounted on a stem at a convenient height for a reader, this grand bird from an early date was made to serve the purpose of supporting the framework on which the large and heavy volumes used in the services were placed. There was probably some reference in the thoughts of those who first used them to the fact that the eagle soured to the most elevated regions and therefore in a fanciful way would be likely to carry the words of the readers or choristers nearer to heaven than

they might otherwise ascend. In some instances the inclined framework on the back of the bird was made to accommodate two books, one above the other, and furnished with movable brackets to light the reader. Frequently the eagle is represented standing on an orb and sometimes on a dragon, and the base of the stem on which it is placed is often raised on lions. A more simple form without the introduction of the eagle consists of an inclined book board raised to a convenient height on a stem. Next to this are examples that have two slanting book boards, which meet at their upper edges like a roof, and there are others with clever groupings of four desks or book boards. These are generally made of oak or some other hard wood. They nearly all turn on pivots, and some of them are enriched with much carving. Sometimes the eagle is of wood and the framework of iron. In the handsomest examples base, stem, bird and book board are of polished brass.—Chambers' Journal.

Macaulay's Wit.

Macaulay, who was in the habit of shaving himself, and badly, too, it would seem, once patronized a first class barber. After obtaining an easy shave he turned to the tor sorial artist and inquired:

"How much do I owe you?" "What ever you have been in the habit of giving the man who shaves you, sir," replied the barber.

"I generally give him two cuts on each cheek," replied the celebrated English historian, "but you, sir, being a superior workman, deserve to

fare better." Pain from a Burn Promptly Relieved by

FIGHTING A PANTHER.

Cunning and Skill of the Lithe and Agile Brute.

It was dark, and the windy darkness was full of the mysterious I were huddled silently on a platform built in the boughs of a tree us the undergrowth was black and still, for the moon had not yet risen. For Sale-Two good Iowa Chas. Praine is visiting friends Suddenly there was a movement as though a portion of its blackness and begun to creep away. Just at that moment the moon rose and revealed to us the lithe body of a panther slinking through the under-

With the sunrise we descended from the platform and began to examine the panther's trail. The effect of the shot was shown by the hundred yards of thick jungle After crawling on hands and knees under the brushwood we reached a panther scaling a tree. I fired, but the range was too long and the shot proved futile. The disturbance had the result, however, of startling the

The shikari and I followed quickly on its track. It led finally to a deep and thickly wooded nullah, which had taken the form of a horseshoe, the center of the bend and turned along the left arm, growling angrily as it covered the ground in heavy strides. We kept about twenty vards from the nullah and skirted it along the right until the top of the bend was reached. Here a halt was made, while I approached the nullah, the panther growling away at the other end, about 200 yards distant.

Then all was still. The animal seemed to have vanished. Suddenly it sprang out right from under my feet, having doubled back along the water course, without making the so doing fell into the nullah. The next moment the panther was on me and had fixed its teeth in my

Suddenly my little fox terrier itself on its back, tearing hard at ing will be held at the offices of its neck. This diversion caused the dog, and I was able to stagger up

On one of his early concert tours of the west, before the famous violinist, Eduard Remenyi, was thoroughly familiar with the railway routes of the United States, he inquired in Chicago concerning the Iowa farm for sale containing best way to reach a town in Illinois. DUKE MAXIMILIAN.

The Only Money He Ever Earned as a

The following amusing incident s related of the Duke Maximilian, who was a great lover of the zither, a singularly plaintive instrument and the national guitar of the German Alps. During the summer he delighted in wandering over the mountains in the garb of a common hunter, armed with a rifle, and the zither hung around his shoulders. During one of these excursions he sat down on the trunk of a tree and awakened the echoes of the opposite chain of hills. Concluding he was alone, he reveled long in the sweet sounds. When, however, he ceased some peasants who had been his secret auditors drew near to him, and one addressed the duke in the cordial way of the country, as follows: "Thou, indeed, canst play it wonderfully; now come with us and we will dance to thee in the inn down there. We will pay for as much beer as thou canst drink."

"Thank you," replied the duke, "I am not thirsty, but I shall certainly go with you," which he did, and played for more than two hours in "the inn down there."

The peasants and their lassies were in ecstasies while dancing to the tunes of their new friend. With the poetical feeling native to the mountaineers of the Alps, they sang. jumped about and kept up a steady demand for more tunes. The duke, whose face beamed with joy, at length became weary and prepared

"Thou mayst go," said one of the peasants, "but not till thou hast layed the new dance composed by Duke Maximilian. It is the most exquisite piece of music I ever heard. Play it and I'll give thee 24 kreut-

The duke complied with the request, took his kreutzers and then departed, when one of the peasants made the following speech to his fellows and their partners: "My dear comrades, permit me to tell you that you are all asses. Every one of you plumes himself on his knowledge of the zither, and none of you while hearing the best player in the land recognized Duke Max. I did

The peasants, still more delighted with the condescension of their Ilustrious friend, ran after him, thanked him and got the promise that he would play for them ones

"As to the 24 kreutzers," the duke said, "I will keep them. They are all I have ever made by playing

Saving His Dignity.

The ceremonial of the Chinese court, which used to include complete prostration before the throne. was once the occasion for a display of cool audacity. In the eighteenth century a Persian envoy refused to go through the degrading ordeal, and directions were given to the officials to compel him by stratagem to do so. On arriving one day at the entrance to the hall of audience the envoy found no means of going in except by a wicket, which would compel him to stoop very low. With great presence of mind and considerable audacity the ambassador turned around and entered backward, and thus, according to his own conception of etiquette, saved the dignity of his country from out-

Private Drury.

M. Drury, an eminent French historian, served when sixty years old during the siege of Paris as a private in the national guard. One day M. Jules Simon, a member of the administration, caught sight of a familiar face belonging to one doing sentry in the uniform of a private soldier. "Is that you, Drury?" he cried.

"To be sure," gruffly.

"And a private!"
"Why not?" said the other lacon-"We can't all be prime min-

HIS REASON.

on His Report Card.

When Robbie brought his report to light every month in the early card to papa there was a little black cross in the section marked "deportment." Bobbie knew papa's eyes would find that the first thing, and he twisted his small handkerchief into hard knots, and tried to hide part of his chubby head behind the chair in which his father sat

"What does this mean, Bobbie? asked his father.

"I was late to school," said Bobbie, who knew that his mother had seen when I was just in the yard, butbut I couldn't run." Bobbie was near to tears, but he was winking man-

"Well, that is rather bad," said papa, gravely. "I don't want my son to grow up into a man who is always behindhand. Now I am going to be very severe. I shall not tell you tonight what the punishment will be, but unless you can show me a good

reason why you were late-" "I can show the reason," urged Bob-"This little cat was bound to follow me, and I tried to get away, and I kept putting him over the fence and running very, very hard, but he just jumped over and stuck his claws in my pants until I had to leave him with the lady in the candy shop until school was done, and then I brunged him home. That was the reason,"

Bobbie finished, all out of breath. Papa put on his glasses and looked at the kitten. Something in its forlorn, frightened face touched him. "Well, I guess we shall have to forgive you this time," he said. "Nora

better feed him on cream a while!" "Then I needn't have that punishment-that one that was too awful to think up?" asked Bobbie.

'No, that is all forgiven," said papa. Youth's Companion.

A HEALTHY OLD AGE OFTENTHE BEST PART OF LIFE Help for Women Passing Through

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally our own fault if we die prematurely.

Nervous exhaustion invites disease. This statement is the positive truth.
When everything becomes a burden and you cannot walk a few blocks with-out excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation, and you cannot bear to be crossed in anysnaky at the least provocation, and you cannot bear to be crossed in anything, you are in danger; your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary L. Koehne, 371 Garfield Avenue, Chicago, Ill., writes: "I have used Lydia E. Pinkham's Vegetable Compound for years in my family and it never disappoints; so when I felt that I was nearing the change of life I commenced treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dizzy spells, pains in my back and the headached with which I had suffered for months before taking the Compound. I feel that if it had not been for this great medicine for women that I should not have been alive to-day. It is splendid for women, old or young, and will surely cure all female disorders."

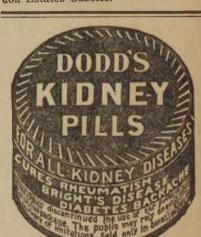

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, of Lynn, Mass., in-

Lydia E. Pinkham, of Lynn, Mass., invites all sick and ailing women to write her for advice. Her great experience ust as one would brush an article of clothing. But the coin will stick to your hand as if it were glued there. is at their service, free of cost.

Beit's Deed of Generosity. One of the many persons whom the late Alfred Beit had befriended repaid him with ingratitude and abuse. Later the ingrate fell on evil times. Though down in the gutter, he still had a little shame left and would not ask Mr. Beit for kelp. The South African diamond magnate sent for one of the unlucky one's friends and said: "Go and see So-and-So, ask if he wants any help, and give it to him, but don't let him think it is from me. I have had a difference with him and perforwarded to his mother a letter from haps it would annoy him!"

Vanishing Rural Industries.

The gradual cessation, one after another, of the countryside industries a nasty dog. It is a hound, it is black and about two feet high and four feet is one of the principal reasons why the from the tip of its nose to the tip of peasant owner has vanished from the its tail. The tail counts about 1 1-5 land. Thatching and woodcraft have tling his claws in glee. "I will go and foot and its nose about one half foot. been killed by rural councils, with ask Lady Anemone to be mine. CHICAGO BOARD OF TRADE PASSES NEW RULE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's

improvement in cases of constipation, biliousness, headaches, etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well

worth considering in making purchases It is because of the fact that SYRUP OF FIGS is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

The best kind of a testimonial—"Sold for over sixty years."
