THE EUREKA ELECTRIC CO.

Numerous Facts and Illustrations of Interest.

PRODUCT OF COMPANY IS SHOWN

Correspondent in Chicago Visits Plant and Writes Interesting Letter about the Eureka Co.

[Special to The Genoa Republican.]

Chicago, Ill., March 12, '03

The facts of more immediate interest to Genoa people—concerning the number of employes and the growing business of the Eureka Electric company—appeared in my letter of last week. Undoubtedly a brief description of the goods manufactured and the expert men in charge of affairs will be of interest.

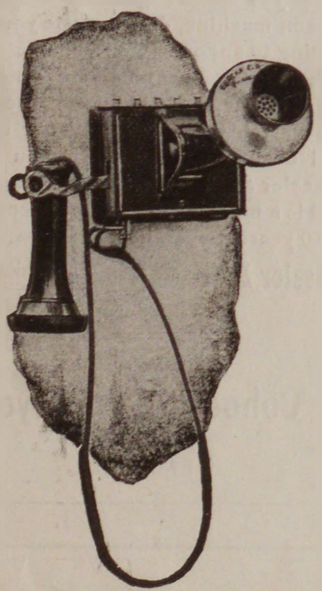

Mr. I. J. Kusel, president of the Eureka company, very kindly gave me much interesting information concerning the pro-

duct of the factory and the methods of manufacture. I found the various men at the heads of departments to be courteous and obliging, and all glad to tell me anything I wanted to know about the many high grade instruments made.

Mr. I. J. Kusel, by the way, is one of those typical American "self-made" men. He was born in Chicago in 1865, and started his business career when twelve years of age. While yet a young man, he has had the experience necessary to fit him for his responsible position at the head of

affairs, as the growing business of the Eureka Electric company shows. For the past fifteen years he has been engaged in electrical work. He was for some years with the Bell Telephone company. When the independent field opened up in 1893, I. J. Kusel started a small factory in St. Louis for the manufacture of telephones and electrical apparatus, moving to Chicago three years later. In 1898, he and his brother and ten men composed the entire producing force of the Eureka Electric company and from that little business—amounting to but a few hundred dollars—the present production of thousands a week has been developed.

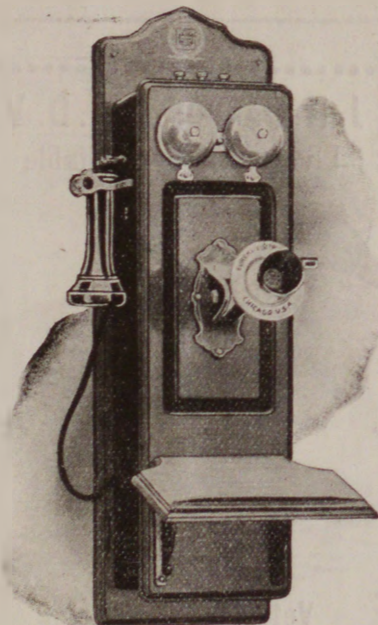

Some of the Eureka instruments have been officially adopted by the

state and navy departments of the United States government, and several foreign governments use Eureka apparatus to the exclusion of all other. Over 3,000 prosperous fall line and exchange operating companies in the United States are customers of the Eureka company and are constantly sending in large orders for supplies as their business develops.

No. 4. Dry Battery.

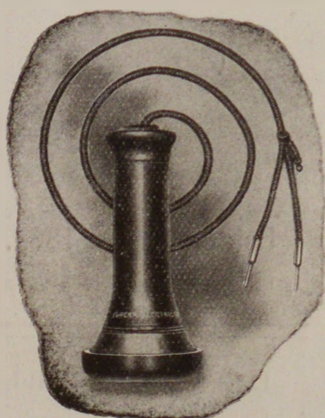

H. J. Kusel, general manager of the Eureka Electric company, is a thoroughly practical electrical engineer. One of his hobbies is "quality," and he sees to it that no goods leave the factory that are not as near right as the best work can make them. He has developed important improvements in apparatus and methods of work, and while but thirty-three years of age he is steadily climbing to the top notch in his

profession. Before joining his brother in the Eureka company, H. J. Kusel was associated with the largest telephone manufactory in the world. His experience has been wide, and he is well qualified to direct the production of the highest grade of telephone instruments.

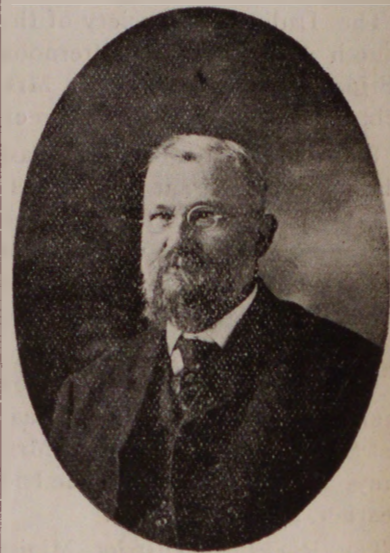

D. L. Canmann is a young man also, only thirty-three years of age. He has been with the Eureka company for several

years, and has risen to the office of vice president. He has several important departments under his immediate control, and has proved to be a very efficient chief.

J. B. STEPHENS

Mr. Messenger, who was recently president of the Advance Telephone company, and now secretary and treasurer of the Eureka Electric company, is well fitted to look after the dollars and cents of the company. He is a director of the Grant Park bank of Illinois, and is a business man of prominence and wealth.

He has a splendid business system in operation, and has several able book-keepers in his department.

Messrs. Rosenow, Dedrickson and Mehren are among the other chiefs of departments. The lat-

ter is a skillful electrician, and Mr. Dedrickson has charge of the sales department and its many agencies. The intricate machinery is in charge of Mr. Hanson, a mechanical expert with years of experience.

It is the purpose of the company to have a model factory in Genoa, and it is expected that the employes will be much more contented and prosperous in the beautiful little village than is possible in Chicago. Many are planning to do what is impossible in Chicago—own their own homes. As stated in my letter last week,

REV. FATHER C. J. HUTH

Pastor of the Hampshire Catholic Church, of which many in this vicinity are members

Rev. Father Huth was born in Cologne, Germany, in 1845, and came to this country with his parents in 1855. They located in Freeport, Illinois, and it was here that the subject of this sketch received his first schooling, attending the public school at that place. Later his parents removed to St. Louis,

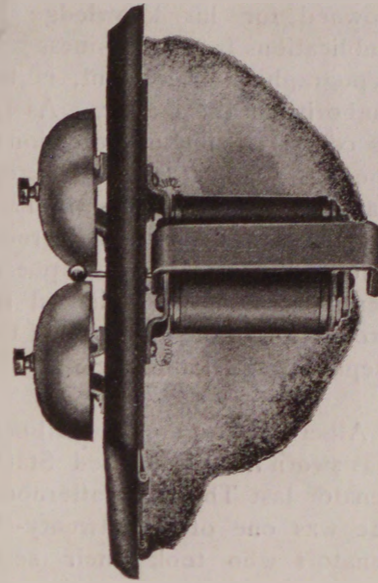

REV. FR. C. J. HUTH

Missouri, and there he attended the St. Louis college. He then came to Chicago and from 1861 to 1868 he was a student at St. Mary's of the Lake college. He afterwards entered St. Francis Seminary at Milwaukee, graduating from that institution with high honors and completing his training and education for the priesthood. He was ordained with his class January 29, 1869. Father Huth's first field of labor was at Somonauk, Illinois, where he remained nearly sixteen years, being transferred by Archbishop Feehan from Somonauk to Hampshire, the church there being without a leader on account of the resignation of Father Revis. Father Huth has been the pastor of the church ever since.

Father Huth is a man beloved, not only by those who worship at his church, but Protestant and Catholic, church member and non-church member alike, have aught but a kindly word for this man whom to esteem. Such a man as Father Huth is a blessing to any community. Father Huth's parents are both dead; his father, Peter Huth, departed this life about two years ago in Freeport at the home of his daughter. Rev. Huth's father resided in Hampshire for a number of years.

the company desires applications from Genoa's young men and women, and will probably have good positions for all who apply for work.

The many beautiful illustrations are possible through the kindness of President I. J. Kusel, who furnished cuts of the apparatus I thought would be of interest to your readers. No. 1 shows the great one thousand-line switch

board. The amount of work and material on this cannot be appreciated without days of study. It proved to be a model of high-grade electrical work, and the original one put in at Waterloo, Iowa, has been duplicated at Niagara Falls, Tonawanda and Lockport in New York state, in Prescott, Arizona, in Fulton, Missouri, and several other points.

No. 2 shows the official emblem of the independent telephone companies and the copyrighted trade mark of the Eureka Electric company.

No. 3 shows what is known as "fall line equipment" and is in use in 300 exchanges in America.

No. 4 illustrates the Eureka Dry Battery, thousands of which are in daily use.

No. 5 shows the central apparatus for a 500 line exchange. Hundreds of these are in use all over the country.

No. 6 shows the Eureka Patented Receiver, which has been officially adopted by the United States government and thousands of independent telephone companies.

No. 7 shows a neat central office equipment. You can get all you want of these at \$3,000 a piece.

No. 8 shows the receiver and No. 9 the perfect ringer. No. 10 shows a central energy telephone, and No. 11 their triplitt, thousands of which are in use. No. 12 is a transmitter capable of sending your words thousands of miles over land or under sea.

No. 13 is a powerful 'phone for rural lines and farmers' use. No. 14 shows another style of the same instrument.

No. 15 is the "compact" telephone, No. 16 showing the working parts of the same. No. 17 shows the patented switch board drop, over 100,000 are in use at home and abroad.

No. 18 shows the front view of the most sensitive transmitter in the world.

The above with the beautiful illustrations, gives a pretty fair idea of the product of the Eureka Electric company, which I hope will be of interest to your readers.

FIREMEN ELECT OFFICERS

A Permanent Organization Is Now Assured Genoa.

TO GIVE ANNUAL BALL MARCH 27

Held Meeting Monday Evening at G. E. Stott's Office. — Will Purchase New Equipment Soon.

The Genoa Firemen's association held a special meeting in the office of G. E. Stott on Monday evening.

The association was made a permanent organization, and the following officers were elected: Chief and Pres....Martin Malana Ass't Chief and V. P....C. Patterson Secretary.....G. E. Stott Treasurer.....W. Sager

It was decided to hold their second annual ball on Friday evening, March 27, in the Genoa opera house. The association gave a successful ball last year and the one this season will surpass it in every respect. The committees are:

Committee on Arrangement—G. E. Stott, W. Sager and Arthur Shattuck.

Floor and Reception Committee—W. J. Jeffries, W. Cooper, Jas. Hutchison Jr., Michael Shattuck and Jas. Spence.

HENRY DOWNING INJURED.

Avalanche of Coal Falls on Him at Charter Grove.

Henry Downing, who is employed by the Illinois Central R. R. at Charter Grove in the coal- ing yards, received serious injuries while at work last Friday morning at about 3 o'clock.

Mr. Downing had removed a considerable quantity of coal from the pile, and, without warning, the overhanging body of coal gave way, burying Downing under the heap. His cries were heard by the other workmen, who ran to his rescue. He was at once taken to his home and Dr. Hill of Genoa was called. It was found that the injured man had sustained severe injuries of the back, which will probably cause him to be confined for some time. He also received cuts and bruises about the head and body.

On Wednesday word was received that he was doing as well as could be expected.

BUTTER MARKET.

Quotation Committee Fixes the Price of Butter at 27 1/2 Cents.

The quotation committee of the Elgin board of trade decided on twenty-seven and one-half cents, firm, as the market price of butter. W. W. Sherwin was on the committee Monday in place of M. Lang of Woodstock. The New York market is reported firm at twenty-eight cents, with receipts at 5,851 tubs.

The March number of the Inland Printer, the finest magazine published from a typographical standpoint, has many complimentary things to say about the REPUBLICAN, among them being the following:

"Your issue of December 25 is remarkable for its excellent press-work, yet neat ads. and careful make-up are prominent features. A paper so thoroughly up to date as the Republican should not run paid items in the personal column without some distinguishing mark. Walter F. Dumser, editor of the Genoa (Ill.) Republican, closed a most successful contest on Christmas eve, through which one of Genoa's handsome young ladies received a diamond ring worth fifty-five dollars. The opera house was hired for the final count and presentation. The Republican is a wide-awake paper and has an attractive first page. That of the issue of January 2, showing the way the result of the contest was featured, is reproduced herewith, together with a photograph of the paper's progressive editor."

The following creditable article appeared in the DeKalb Review of March 5:

"In the current issue of the Inland Printer appears a half-tone portrait of Walter F. Dumser, and a fac simile of a page of the Genoa Republican, giving an account of the diamond ring con-

test. The Republican is one of the newest papers of the county, and has taken a place among the best. It is excellently printed on book paper, is filled with well-written news items and finely displayed advertising. Upon every page are the earmarks of skilled printers and adept newspaper men. It is too good a paper, however, to rely upon voting contests for patronage, or other unprofessional schemes for patronage. And perhaps this will not be necessary in the future. The Republican is deserving of the half page in the Inland Printer."

We conceive that the editor of the Review has at some time or other met his fate in experiencing a contest, from what he writes regarding the one conducted by the Republican; but all journalists know the criticism by Mr. O. F. Byxbee, who is renowned for his knowledge of publications from a business and typographical standpoint, is the authority on the matter. As far as contests being unprofessional, the best papers in this section have conducted them with pleasure and profit to all concerned. The article in part appears herein, without the splendid reproduction of the first page of the Republican of January 2.

Albert J. Hopkins of Illinois was sworn in as a United States senator last Thursday afternoon. He was one of the twenty-six senators who took their seats today. Administering of the oath to Senator Hopkins was the occasion of enthusiastic demonstration in the galleries and on the floor. Senator Hopkins' desk and chair were piled high with floral pieces. A very large piece of American beauty roses, lilies and carnations rested on the Senator's desk, hiding him from view.

CATHERINE DONAHUE DEAD

Passed Away Last Saturday at 10:45 O'clock.

DECEASED HAD MANY FRIENDS

Rev. Father Huth of Hampshire Officiated at Home With a Heart Touching Sermon.—Rev. Ream Talks at Grave.

Catherine Donahue, one for whom all Genoa mourns, passed from this life on Saturday morning, March 7, at 10:45 o'clock.

Deceased was born at Conaught, Ireland, September 1, 1826, where she received her early education. At the age of twenty-two, she came to America, making her home first in New York state and later coming to Lake Forest with her mother.

On her twenty-fourth birthday in 1849, she was united in marriage to Henry Donahue. They made their home in Lake Forest during the year of '56 and in '57 moved to Genoa. To this union were born nine children, of whom six survive. They are: Mrs. Fred Foster of DeKalb; Mrs. Fred Bransby of Chicago; Mrs. J. D. Craft of Chicago; Edward Donahue of Oakland, California; Miss Mary Donahue and Mrs. A. Hewitt of Genoa.

Mr. Donahue died sixteen years ago, and was highly respected.

Mrs. Donahue was a lady most highly thought of throughout the entire community. Her kind ways and ever helping hand bound to her many warm friends.

The cause of death was due to a complication of diseases, and, while her death was sudden, she has been an invalid for the past two years. Through her lengthy illness she kept up noble courage and appreciated the assistance of those who were around her to the last.

At the home on Sycamore street on Tuesday at 10:30 a. m. gathered those who had learned to love their departed one. The service was beautifully conducted by Rev. Father Huth of Hampshire, who spoke the words that touched the heart of all. The solemn high mass was celebrated over the dead.

The remains were then taken to the Genoa cemetery where they were laid at rest. Rev. T. E. Ream officiated at the grave.

MRS. WM. HEED WON.

Mystic Workers Membership Contest Results in 24 New Members.

A sumptuous banquet was enjoyed on Tuesday evening by the winning side, with Mrs. Wm. Heed as captain in the Mystic Workers' membership contest.

The contest resulted in twenty-four new members, of which Mrs. Heed's side secured thirteen and James Spence's side, who lost, secured eleven. Mr. Spence's side tendered the winners a banquet at which event a joyous time was had. John Riddle presided as toast master and he proved a jolly one too.

DON'T BE FOOLED

Advertisements having appeared in various publications wherein Sears, Roebuck & Co., offer Wheeler & Wilson sewing machines, we wish to warn the public that they are not our authorized agents and that we do not sell our machines to them nor any other catalogue house or department store.

Their advertisements are not for the purpose of promoting the sale of our machines. They are using our reputation as makers of the highest grade machines only, in order to get the names of possible buyers and persuade them to purchase one of their cheap STENCILED MACHINES, the manufacturers of which they are, evidently, ashamed to make public.

If you want a genuine Wheeler & Wilson machine, do not waste your time writing to anyone who is unable to furnish it. The genuine Wheeler & Wilson machine, made by us and backed by our warranty, is for sale by our authorized dealers only. When you buy a Wheeler & Wilson, you get a machine that is a machine, backed by a reputation of 50 years' unparalleled success.

SUFFERING IS OVER

Mrs. Eugene C. Graves Passes Away in Belvidere Saturday.

Funeral Services Were Conducted Monday in the Methodist Church.—Was Well Known in Kingston.

The death of Mrs. Julia Bishop Graves occurred at her home in Belvidere last Saturday at 3:30 a. m.

For several years she had been troubled with heart disease and on Christmas day was compelled to give up. Since that time she had grown weaker and weaker, and the end became but a matter of days.

Julia L. Bishop was the daughter of Mr. and Mrs. D. W. Bishop of the town of Spring, where she was born November 11, 1872, and where she grew to womanhood. She became a school teacher and taught successfully in DeKalb county for several years. On January 24, 1894, she was united in marriage to Eugene Graves.

Four members of her immediate family have preceded her. Those who are left to mourn her are the bereaved husband, a loving mother, six brothers and three sisters.

The funeral service was conducted Monday at 1 p. m. in the Methodist church, Rev. E. D. Hull officiating. Interment was at Blood's Point cemetery.

A number of friends from this vicinity attended the services at Belvidere.

Have just received 25 dozen shoes in the newest and latest styles; the balance will be here in a few days.

JOHN LEMBKE

Genoa, Illinois

Can this be True?

Kellogg & Adams have just received the LARGEST SHIPMENT of new buggies, surries, runabouts, carts, spring wagons, etc., ever seen in DeKalb County!

The second story of this mammoth barn is filled with elegant vehicles, harness, and everything for the horse.

WE have bought our goods from the leading manufacturers, such as the genuine COLUMBUS BUGGY Co. of Columbus, Ohio. We also handle the celebrated STAVER BUGGIES of Chicago and the BROOKVILLE BUGGIES of Brookville, Indiana. Ask dealers elsewhere for these goods, and they will tell you they are too high priced for their trade. We know these makes are THE BEST, and are selling large numbers of these famous makes. There is nothing too good for our trade.

If you are sure, however, that you want a low priced vehicle, don't order from a catalogue house until you see the snaps we have in low priced goods. We will trade buggies, or trade horses; we also buy and sell horses.

HARNESS SNAPS

We bought over One Thousand Dollars' worth of hand-made Harness from a concern that was being closed out. We bought these goods at less than cost and are selling them accordingly. We challenge the whole country to compete with our goods and prices.

MODERN WOODMEN.

Plans Made for Big Meeting of the Head Camp.

Plans for the head camp of the Modern Woodmen, which will be at Indianapolis in June, indicate that it will be the greatest gathering of the order ever held. When Indianapolis was given the session the people promised that they would show the order what a good time was, and indications point that such will be the case. In the one feature of drill prizes the committee has offered \$600 in prizes for Forester contests. Drill teams will be encouraged to compete and the first prize will be \$300, second \$200 and third \$100. Band contests are to be another attractive feature and money prizes will be offered for the winners. John H. Mitchell, of Ionia, Michigan, major general commanding the Foresters, has issued first regulations for the establishment of the drill contests and when the head camp is in session will be in active command of the military camp in which the Foresters will be encamped.

WOMAN BOUND AND GAGGED.

Mrs. Warren Webster of Plano Is Robbed of \$200 in Gold.

Bound and gagged so that she was all but choked to death, the wife of Warren Webster was found lying insensible on the floor of her home in Plano by her husband last Sunday morning, further search showed that the house had been ransacked and \$200 in gold stolen.

Lewis Simmons, a character who had been about Plano for several days past, was arrested on suspicion, but there is little evidence at hand, other than that a revolver was found on his person to connect him with the crime.

Webster is an old resident of Plano, well-to-do, well advanced in years and quite deaf. His wife is many years his junior.—Elgin News.
