BUILDING HEADQUARTERS, Genoa, Illinois

Enticing
Dance Music
Played on

The Brunswick

CATCHY, inviting fox-trots, played by Jazz Bands and Syncopated Orchestras; they're better when you hear them on The Brunswick. Put on a waltz record and see if you can keep from dancing.

Let us play The Brunswick for you and explain The Brunswick Method of Reproduction. Hear it once and you will pronounce it superior. Harsh, metallic sounds are gone. In orchestra records each instrument preserves its individual quality of tone.

When you possess a Brunswick, your choice of records can be made from the lists of all makers. By a simple device—the Ultra—any record can be played. You are not restricted to the artists of one concern. All are at your command.

The Brunswick Amplifier is a vibrant tone chamber of wood. Not a single piece of metal is used in its construction. Like a violin, it develops a full, round, singing tone.

We invite you to hear The Brunswick—the master instrument. Come in at any time of day, and we will play your favorite records.

Everything seems to be all Wright with DeKalb.

Anyway, private control of railroads can give us no worse service.

A little more constructive and not so much destructive soap box oratory would help some right now.

Candidates for membership on the board of education and the city council will please stop crowding.

President Wilson has announced that he will not seek a third term. "Thanks," says McAdoo, and also "thank you," whispers Bryan.

Jack Dempsey's manager is pulling off an advertising stunt that may be some odoriferous, but that draft dodging story is sure drawing attention to the pugilistic movie star.

To condemn a school teacher on the evidence of street gossip is about as consistent as convicting a person on circumstantial evidence, without trial.

Perhaps the chesty Jap will awaken to the fact some day that there is a limit to his expansion. China and Korea have been sore for some little time and now the Bolshevik government of Russia has invited the Jap out of Russia.

The press generally is quite backward coming out for any one of the avowed Republican candidates for presidency. A dark horse is still a possibility, and it does hurt to hitch your wagon to a falling star.

William Randolph Hearst may own all the newspapers and periodicals in America but he will never be a leader. Snapping and snarling over the results accomplished by men who have had the initiative to try at least, will never get for Willie the good will of the people. Like Bill Thompson during the war, Mr. Hearst has overlooked his great opportunity.

JOSEPH BROS. SELL

Joseph Bros., the DeKalb dyers and Cleaners, who have an agency in Genoa, have sold to Carlson & Benson of DeKalb. Both the new owners are experienced men.

March 1 was surely a lamblike day. Let us hope that there is nothing in that old stuff about the lion. There will be no high water this spring unless there should be an unusual rainfall, for the snow has about all disappeared.

Owing to the fact that there were no lights or power Wednesday evening and Thursday forenoon, The Republican has been compelled to leave out considerable copy this week. A supplement should have been printed, but again lack of power at the time when it was most needed, made that impossible. A broken insulator at Marongo was the source of all the trouble.

About 25 neighbors of Mr. and Mrs. James Holmes, north of Genoa, surprised them Monday evening, March 12, by being their 9th wedding anniversary. The evening was spent in singing and games and at a late hour a delightful luncheon was served, featuring a beautiful wedding cake. The host and hostess were presented with a fine piece of aluminum ware and wished many more wedding anniversaries by the guests, who had had a very enjoyable evening.

The Genoa Town Team was administered another defeat Friday evening at the hands of the Marengo Community Club three and Slater and Lear of Belvidere. After playing in the band box of Hebron's the boys were lost on the floor at Marengo. Schattuck gave the spectators a thrill in the last few minutes of play by some dazzling dribbling. In fact he upset both teams and was all by his lonesome on the floor with the ball. Its tough that he couldn't have played the whole game that way and the score would not have been so one sided.

ADMINISTRATOR'S NOTICE

Estate of Mary A. Howell, Deceased. The undersigned, having been appointed Administrator with will annexed of the Estate of Mary A. Howell, Deceased hereby gives notice that he will appear before the County Court of DeKalb County, at the Court House in Sycamore at the May Term, on the first Monday in May next, at which time all persons having claims against said Estate are notified and requested to attend for the purpose of having the same adjusted. All persons indebted to said Estate are requested to make immediate payment to the undersigned. Dated this 16th day of February A. D. 1920.

FINALLY SEVERED RED TAPE But Messenger Had to Declare Himself Emphatically Before He Got That Ice Book.

The quartermaster's department had conferred upon me authority to buy for the sum of \$6 an ice book good for 2,000 pounds of ice and had sent me to this building, headed up "Commissary," for the goods. The first clerk I saw did not question my good intentions or my legal and military right to buy that ice book somewhere in the building, but was doubtful of his authority to sell it to me. He lacked self-confidence.

He said: "Go to the other end of the building."

And he said: "Go to the other side of the building."

And he said: "Go to the other end of the building."

And I said: "D— it, I've been to three ends and five sides of this building, and I go no further. If you've got an ice book—and I have reasons for believing you have—I ask you as man to man to give it to me."

He said: "Sir, it is yours."—Bookman.

Or Will Be Later. "What do you think about Kate marrying a prize fighter?" "She must have been hard hit."

When fines fail to deter lawbreakers it is high time to try jail sentences.

Both Overestimated. "The roses of pleasure," didactically began Professor Pate, "seldom last long enough to adorn the brow of him who plucks them."

"Yes," replied J. Fuller Gloom, "and those who have attempted to rest on their laurels tell me they make a very poor bed."—Kansas City Star.

RECIPE FOR GRAY HAIR. To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 3/4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not co'or the scalp, is not sticky or greasy, and does not rub off.—Adv.

WOOD VERY LIKE MAHOGANY Carliania Can Be Used to Advantage in the Absence of the More Valuable Lumber.

It is interesting to note that more than twenty mahoganylike woods are now offered as true mahogany, not to mention a considerable number of woods cunningly stained to imitate mahogany. In the present circumstances, therefore, when the demand for mahogany is greater than the supply, unusual interest attaches to such woods as Carliania or Colombian mahogany, which is acknowledged not to be mahogany, but which is so similar to it in color, grain effects and working qualities as to serve for the rare wood.

The statement is made that while carliania differs widely in its botanical and anatomical characters from true mahogany, its close superficial resemblance to mahogany and its physical properties at once distinguish it as a high-class cabinet wood. When properly seasoned it does not warp, check or shrink, while much of the lumber is beautifully figured. It works well, takes a filler readily, and can be highly polished.

Natural Persuasion. "Who egged the man on to this conduct?" "I guess it was the old man he married."

Some men succeed in spite of themselves.

Allies' Unity Means Peace Exceeding All Guarantees Put on Paper.

By GEORGES CLEMENCEAU, Retiring President Peace Conference.

Photo by Western Newspaper Union.

If Great Britain, the United States, Italy, Japan and France remain united, there is a guarantee of peace which exceeds all those guarantees which can be put on paper. If one day these nations are separated I dare not think of the misfortunes which may result.

We arrived here somewhat disconcerted by the gravity of the problems set and the difficulty of settling them. When fighting the enemy all necessarily were in agreement, each joyfully giving his life for his country. But it is not necessarily the same when one meets to calculate and realize the fruits of victory and to settle each one's share. We have all defended what we believed to be the interest of our countries, but never has the necessity of a common understanding been lost sight of. I further believe that we are all agreed today to say that the special interests of each nationality must be considered and respected; there cannot be a tranquil Europe if the rights of each one are not recognized.

I have been sometimes reproached for making too many concessions. The same reproach has been made against other heads of governments, but I am calm in the knowledge—and I am sure you all are—of never having been guided in stating my opinions or in the conclusions we have reached, except by the single idea that the nations who shed so much blood had the right, first of all, to have their national claims satisfied and then to have those claims reconciled each to the other and embodied in one great peace inspired by common interest.

I shall not lose sight of the peace we are completing and shall continue to follow its progress until my last breath. I shall try by all good wishes at least to do all in my power for the solidity of that peace, for, indeed, if by misfortune the elements of discord should arise among you, how terrible the thought that the best blood of the civilized world, the blood of our soldiers, should be shed in vain for hopes that would not be realized.

Machinery Must Replace Men That the City Takes Away From the Farm.

By A. R. KROH, Automobile Tire Manufacturer.

Every thinking man will agree that the most effective way to adjust the cost of living in this country is to increase production with a reduced cost. Eight million people have moved from American farms to the city since 1900. Our population has increased 21 per cent since 1899, but the increase in production of food in that same period has been less than 10 per cent.

No nation has ever been able to enact legislation forcing people to remain on the farms. We are not able to do it in America. The only solution to the problem is more modern methods and improved machinery.

In many communities in the United States farmers now are compelled to pay harvest hands as much for a single day's labor as the same man could be hired for a full month in 1880. Everything the farmer buys is costing him more money. With such a condition existing he cannot be expected to sell food to the consuming population at the price he did under the old regime. If we are unable to stem the tide of depleted rural and increased city population there is only one solution, and that is modern machinery.

The tractor or motor truck alone cannot solve the problem. Complete motorization of farms, including stationary gas engines, tractors, and motor trucks, is our only salvation. Machinery must be made to do the work of human hands that are hard to get and all too costly. The complete motorization of farms has been proven economical in innumerable instances in the central agricultural section of the United States. This argument is no longer based upon theory, but upon facts.

Power machinery eats only when it works, and then a commodity that is pumped from beneath the surface of the soil and cannot be used as food. When machinery stands idle the only expense is interest on the investment.

Feeble Mindedness and Moronism Are at the Root of Our Social Problems.

By DR. WILLIAM S. SADLER, Chicago.

Experts tell us that insanity is increasing 300 times faster than the population in this country. I don't believe it. I am not alarmed about that, but I am tremendously alarmed about something that I know is increasing, even if insanity isn't, and that is feeble-mindedness, moronism, degeneracy. You can talk about immigration laws all you are a mind to. I don't care whether a man can read or write. I want to know before we let him in this land of ours whether there is imbecility, insanity, feeble-mindedness or moronism in his veins. If there is, then I want the gates closed absolutely against him. We have all we can absorb in a thousand years and get away with.

Feeble-mindedness and moronism and degeneracy are at the root of 75 per cent of all our social problems, whether that be inebriety, pauperism, criminality or prostitution.

We have labored under the delusion that in America we had a mystic melting-pot, that you could put anything in it you wanted to and get 100 per cent, good, sound, wholesome, red-blooded, pure-blooded Americans out of it, but it is a lie. You know we don't get it and you know it now to your sorrow. When you take the feeble-minded, degenerate stock of southern Europe and mix it up in the American matrimonial melting-pot it doesn't go. It comes out a crippled, weak and degenerate stock which cannot be altered by the institutions of democracy.

We have gone so far to protect the weak against the strong that legislation will be demanded in the next generation to protect the strong against the weak, for the weak threaten us now with a sociological deluge of race defectiveness.

F. W. Ives, Vice-President American Society of Agricultural Engineers—The future of American farming lies not in more intensive cultivation of small acreage, but in the extension of the acreage one man can bring under cultivation. What the American farm needs is the replacement wherever possible of hand labor by machine.

SALTS IF BACKACHE AND KIDNEYS HURT

Stop Eating Meat for a While if Your Bladder Is Troubling You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, effort-injure and makes a delightful, effervescent lithia-water drink.—Adv.

Catty Comment. "Mabel says she has made up her mind." "Then I hope she has made a better job of it than she has with her face."

Constipation, indigestion, sick-headache and bilious conditions are overcome by a course of Garfield Tea.—Adv.

God makes the pure air, but unless we breathe it freely it profiteth us nothing.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils to Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone. Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, give you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.—Adv.

Too much "uplift" is keeping many people down.

The Can't Clog Rotary Hog Feeder

FARMERS! Do you realize what a self feeder means to you?

It means HEALTHIER HOGS, LESS WORK and SAVES FEED.

Agricultural authorities have proven that hogs fed on dry feed grow fatter, have finer flesh and produce more pork than those fed the old way. The hog who gets dry feed from a CAN'T CLOG FEEDER is bound to eat slowly and chew his food so thoroughly that he digests it. That keeps him healthier and put fine flesh on his BACK instead of soft flesh on his BELLY. He will grow 25% faster than one fed the old way. Using CAN'T CLOG FEEDER will keep the quality of your pork up, and prevent much sickness, in addition to stopping WASTE from spoiled feed. For ECONOMY and PROFITS it is something every hog raiser should have.
